(a) *Issuance of a receipt or bill of lading.* Every motor common carrier engaged in the transportation of household goods as defined in 49 CFR 1056.1(b)(1) shall issue a receipt or bill of lading at the time a shipment is received for transportation. The receipt or bill of lading containing the minimum information required by Section 1056.6(b) and the terms and conditions of the contract shall be furnished to the shipper, or his or her representative, prior to the commencement of the loading of a shipment, *Provided, however,* That the receipt or bill of lading when furnished to the shipper, or his or her representative, shall not impose on the carrier any liability for the property to be transported prior to the acceptance of the shipment for transportation as provided by Section 1056.6(c).

(b) *Minimum information required on a receipt or bill of lading.* Whenever a receipt or bill of lading is issued in compliance with paragraph (a) of this section, the carrier shall cause to be included therein the following minimum information:

(1) The name and address of the motor carrier issuing the receipt or bill of lading.

(2) The names and addresses of any other motor carriers which will participate, through interline, in the transportation of the shipment.

(3) The name, address and telephone number of the office of the carrier issuing the receipt or bill of lading that should be contacted in relation to the transportation of the shipment.

(4) When the transportation is to be performed on a collect on delivery basis, the name, address and telephone number of a person to whom notification provided for in Section (1056.7(b) of the regulations in this part shall be given.

(5) When the transportation is to be performed for an individual shipper, and except when the transportation is to be performed subject to tariff provisions for guaranteed service dates, the agreed date or period of time for pickup of the shipment and the agreed date or period of time for delivery of the shipment. The agreed dates or periods of time for pickup and delivery entered on the receipt or bill of lading shall conform to the agreed dates or periods of time for pickup and delivery entered on the order for service or a proper amendment to the order for service.

(6) When the transportation is to be performed subject to tariff provisions providing for guaranteed pickup, transportation and delivery service, the dates for pickup and delivery and the penalty or per diem entitlements due the shipper under the agreement.

(7) The actual date of pickup.

(8) The company or license numbers of the vehicle on which the shipment is loaded.

(9) The terms and conditions for payment of the total charges.

(10) When the transportation is to be performed on a collect on delivery basis and if a pre-move estimate of the charges is provided to the shipper, the maximum amount required to be paid at the time of delivery to obtain delivery of the shipment.

(11) The released rates valuation statement required by 49 CFR 1307.201(c).

(12) Evidence of any insurance coverage sold to or procured for the shipper, including the amount of the premium for such insurance.

(c) *Requirement for an inventory of items in a shipment.* Every motor common carrier of household goods as defined in 49 CFR 1056.1(b)(1) shall prepare an inventory of the individual items included in each shipment. The inventory shall either be incorporated in the format of the receipt or bill of lading issued at the time of tender and acceptance of the shipment for transportation or prepared on a separate inventory form. In the event a separate inventory form is used, a true copy of the completed inventory form shall be appended to, and become part of, the receipt or bill of lading. The inventory shall be signed by the carrier, or its representative. In the preparation of the inventory cartons, boxes and other similar shipping containers containing more than one item shall be listed on the inventory as one item. Items disassembled into their component parts for the purposes of transportation shall be listed on the inventory by a separate entry to identify each component part.

(d) *Copy of Receipt or Bill of Lading to accompany shipment.* A copy of the receipt or bill of lading, with a copy of the completed inventory appended thereto, shall accompany a shipment at all times while in the possession of a carrier. When the shipment is loaded on a vehicle for transportation, the receipt or bill of lading shall be in possession of the driver responsible for the shipment.

Comments and Discussion

Based on comments submitted and in consideration of other changes made in the final rules, some parts of this proposed rule have been modified or deleted. Subsection (a) has been modified to make clear that issuance of a bill of lading is required prior to the

commencement of loading a shipment. Part (2) of subsection (b) has also been modified by requiring this information only when it is known to the carrier. In part (4) the telephone number is only required if it is made available to the carrier. The requirement for license numbers in part (8) has been deleted and the carrier identification number has been substituted. Part (9) has also been modified to include notice of any minimum charges.

Subsection (c) has been deleted. Current regulations do not require the preparation of an inventory and the new legislation cannot be viewed as a directive to increase paperwork. It should be noted, however, that most carriers now prepare inventories and will likely continue to do so.

Subsection (d) has been modified to reflect the fact that inventory lists will not be required.

Proposed § 1056.7 Edtermination of Weights

(a) *Tare weight, gross weight and net weight.*

(1) Every motor common carrier transporting household goods under this part shall determine the weight of each shipment transported prior to the assessment of any charges dependent on the shipment weight. Except as otherwise provided herein, the weight shall be obtained on a scale meeting the definition of a certified scale as provided in 49 CFR 1056.1(b)(4).

(2) *Weighing procedure.* Except as otherwise provided herein, the weight of each shipment shall be obtained by determining the difference between the tare weight of the vehicle on which the shipment is to be loaded prior to the loading and the gross weight of the same vehicle after the shipment is loaded thereon or, when suitable scales are not reasonably available at the point of loading, the gross weight of the vehicle with the shipment loaded thereon and the tare weight of the same vehicle after the shipment is unloaded.

(3) At the time of both weighings the vehicle shall have installed or loaded thereon all pads, dollies, handtrucks, ramps and other equipment required in the transportation of such shipments. No packing or crating materials or supplies shall be loaded on the vehicle at the time of the tare weighing. Neither the driver nor any other persons shall be on the vehicle at the time of either weighing.

(4) The fuel tanks on the vehicle shall be full at the time of each weighing or, in the alternative, no fuel may be added between the two weighings when the tare weighing is the first weighing performed.

(5) The trailer of a tractor-trailer vehicle combination may be detached from the tractor and weighed separately at each weighing providing the length the scale platform is adequate to accommodate and support the entire trailer at one time. The use of axle scales is prohibited at all times.

(6) When an automobile is included in a shipment, the manufacturer's shipping weight entered on the certificate of title or certificate of registration for the vehicle being transported may be used in lieu of a scale weight obtained at the time of transportation.

(7) Shipments weighing 1000 pounds or less may be weighed on a certified platform or warehouse scale prior to loading for transportation or subsequent to unloading.

(8) The net weight of shipments transported in containers shall be the difference between the tare weight of the container, including all pad, blocking and bracing used or to be used in the transportation of the shipment and the gross weight of the container with the shipment loaded therein. No packing or crating materials or supplies shall be loaded in the container at the time of the tare weighing.

(9) The shipper or any other person responsible for the payment of the freight charges or a representative thereof shall have the right to observe all weighings performed with respect to the determination of the weight of any shipment. The carrier must advise the shipper or any other person entitled to observe the weighings of the time and specific location where each weighing will be performed and must give that person a reasonable opportunity to be present to observe the weighings. Waiver by a shipper of the right to observe any weighing or reweighing is permitted and does not affect any rights of the shipper under these regulations or otherwise.

(b) *Weight tickets.*

(1) The carrier shall obtain a separate weight ticket for each weighing required under this section except when both weighings are performed on the same scale one weight ticket may be used to record both weighings. Every weight ticket must be signed by the person performing the weighing and must contain the following minimum information:

(1) The complete name and address of the scale owner or operator.

(2) The date and time of each weighing.

(3) Identification of the weight entries thereon as being the tare, gross and/or net weights.

(4) The license number and State registration of the vehicle. In the event of the weighing of a tractor-trailer unit, the license numbers and State of registration of both the tractor and the trailer shall be entered.

(5) The last name of the shipper as it appears on the Bill of Lading.

(6) The carrier's shipment registration or Bill of Lading number.

(7) The original weight ticket or tickets relating to the determination of the weight of a shipment must be retained by the carrier as part of the file on the shipment. All freight bills presented to collect any shipment charges dependent on the weight transported must be accompanied by true copies of all weight tickets obtained in the determination of the shipment weight.

(c) *Reweighing of shipments.*

Prior to the actual commencement of the unloading of a shipment, which shall not commence until the shipper or other person responsible for payment of the freight charges is informed in writing of the billing (net) weight and total charges due, the shipper, or his or her representative, may request a reweigh of a shipment which was weighed to determine the transportation charges prior to the tender for delivery. Such request must be in writing on a form furnished by the carrier with the following notice printed thereon in contrasting color in letters at least double the height of any other print on the form:

IMPORTANT—READ BEFORE REQUESTING REWEIGHING OF YOUR SHIPMENT

As the person responsible for paying the charges on a shipment of household goods, or a representative of that person, you have the right to request the reweigh of a shipment weighed at origin at any time prior to the actual commencement of the unloading. The carrier is required to inform you of the total charges and the weight of the shipment before commencing unloading. The carrier and/or delivering driver must perform the reweigh as requested; you must be advised of the time and specific location where each weighing will be performed and you must be given a reasonable opportunity to be present to observe both weighings.

Should the weight of the shipment as determined by the reweigh be greater or less than the weight now shown on the freight bill, the carrier may recompute the total charges based on the reweigh net weight if the net weight is increased and must reduce charges if the net weight is decreased based on the reweigh net if both the gross and tare reweighs are performed on the same scale and are observed by the person responsible for paying the charges or a representative of that person or unless right to observe the weighing is specifically waived.

DO NOT SIGN THIS REQUEST FOR REWEIGH UNTIL YOU HAVE THOROUGHLY READ AND UNDERSTAND THE ABOVE NOTICE

A copy of the written request for reweigh must be given to the shipper, or his or her representative, at the time the request is made. The original request for reweigh must be retained by the carrier as part of the file on the shipment.

Comments and Discussion

NAVL, AMC and numerous individual carriers and agents submitted comments and proposed changes in this rule. Subsection (a)(1) will remain as proposed, except for the definition of "certified scale" which has been changed to include scales approved by state or local authorities. NAVL contends that a portion of Subsection (a)(2) would permit backweighing of a shipment only when suitable scales are not reasonably available at point of loading. NAVL argues that it is the clear intent of Congress that the Commission cannot prohibit or condition carriers from backweighing shipments.

We agree with NAVL's comments in this regard and the final rule will be modified. The Household Goods Transportation Act of 1980 does not give the Commission discretion to impose

conditions on the use of backweighing shipments. See 49 U.S.C. 11110(c).

Subsection (a)(3) will be modified by deleting the second sentence which provides that no packing or crating materials or supplies shall be loaded on the vehicle at the time of tare weighing. Such a requirement is not in the existing rule and it interferes with carrier operations. Furthermore, it is unnecessary for the protection of shippers because if such items are included in the tare weight it will result in lower charges to the shipper.

The last sentence of subsection (a)(5) will also be deleted so as to conform to the broadened definition of certified scales in 49 CFR 1056.1(b)(4).

Almost all parties submitting comments opposed the option given in subsection (a)(6) which permits the use of manufacturer's weight of automobiles in lieu of actual weights. Most parties agreed that the manufacturer's weight is inaccurate because it does not include weight of such items as air conditioners, radios, spare tires and other accessories which might be added on by a dealer. Manufacturers' weights would also not include gasoline and any items placed in the automobiles by the shipper. Upon review of the comments, we believe this subsection should be deleted. A scale weight is required to ensure the automobile's true weight. The last sentence in subsection (a)(8) will be deleted to conform to the changes made in subsection (a)(3). The subsections have been renumbered for clarity.

Turning to subsection (b) "weight tickets," we find that the evidence demonstrates that the actual address of the scale may be difficult to obtain; therefore, only its location will be required on the weight ticket. Similarly, there is no need demonstrated to have the time of each weighing indicated on the ticket. Such information would be impossible to verify. Subsection (b)(4) has also been modified to permit the company or carrier identification number to be used on the weight ticket. This change was necessitated since each vehicle may have several licenses.

After carefully reviewing all the comments filed relating to subsection (c), we have decided to delete this section in its entirety and replace it with the following sentence:

> Before the actual commencement of unloading of a shipment and after the shipper is informed of the billing weight and total charges, the shipper, or his or her representative, may request a reweigh of the shipment. The charges shall be based on the reweigh weight.

This modification was necessitated by the fact that the proposed rule is entirely too confusing. It would impose a burdensome paperwork requirement on carriers without providing any evident protection to shippers. Publication OCP-100, which is required to be given to all individual shippers before the move, sets forth the shippers' rights and the carriers' responsibilities in this area.

Proposed § 1056.8 Reasonable Dispatch

(a) Except when accepted for transportation subject to tariff provisions providing for guaranteed pickup, transportation and delivery service on agreed dates:

(1) *Reasonable dispatch required.* Each motor common carrier accepting shipments of household goods as defined in 49 CFR 1056.1(a) for transportation for the account of individual shippers shall cause such shipments to be transported with reasonable dispatch as defined in 49 CFR 1056.1(b). The carrier may publish tariffs which provide for the payment of per diem to the shipper when pickup or delivery does not fall on the dates or during the periods of time specified in the order for service. Incentive tariffs for expedited delivery may also be published.

(2) *Notification of delay in providing service with reasonable dispatch.* Whenever a carrier is unable to perform either or both the pickup and delivery of a shipment being transported for an individual shipper on the dates or during the periods of time specified in the order for service, the carrier shall notify the shipper or his or her representative by telephone or in person, at the carrier's expense, of the delay. Such notification shall be given as soon as it becomes apparent to the carrier that it will be unable to provide the service in compliance with the terms of the order for service.

(3) *Carrier-shipper agreement on extended dates or periods of time for the providing of service.* At the time of notification of delay the carrier shall advise the shipper of the dates or periods of time that pickup and/or delivery can be made and obtain the consent of the shipper to the amended dates or periods of time. If the notification of delay occurs prior to the pickup of the shipment, the amendment shall be in writing as required by 49 CFR 1056.4(b). If the notification of delay occurs subsequent to the pickup of the shipment, the carrier representative notifying the shipper of the delay shall prepare a written record of the date, time and manner of notification and the amended date or period of time for delivery agreed to by the carrier and shipper, which record shall be retained by the carrier as part of its file on the shipment and a true copy thereof shall be furnished, by first class mail or in person, to the shipper.

(b) *False or misleading information.* No carrier or carrier agent, employee or representative shall knowingly and willfully give false or misleading information as to the reasons for delay in picking up and delivering shipments.

(c) *Tendering for delivery.* Except upon the request or concurrence of the shipper, or his representative, a shipment being transported for an individual shipper shall not be tendered for delivery prior to the agreed delivery date or period of time specified on the bill of lading: *Provided, however,* That whenever a carrier is able to tender such a shipment for final delivery more than 24 hours prior to such specified date or the first day of such specified period of time, and the shipper or his representative has not requested or concurred in such early delivery, the carrier may, at its option, place the shipment in storage for its own account and at its own expense in a warehouse located in close proximity to the destination point of the shipment. Whenever a carrier shall exercise such option, it shall immediately notify the shipper of the name and address of the warehouse in which the shipment has been placed, and shall make and keep a record of such notification as a part of its record of shipment. The carrier's responsibility for the shipment under the terms and conditions of the bill of lading and its responsibility for the charges for redelivery, handling and storage thereof shall continue until final delivery: *Provided, however,* That the carrier's responsibility under the bill of lading shall not extend beyond the agreed delivery date or the first day of the period within which delivery was to have been accomplished as specified in the bill of lading.

Comments and Discussion

Consumer groups argue that reasonable dispatch rules should apply to all shippers. Inasmuch as the term "individual shipper" has been redefined and broadened, we believe that most shippers will be covered by this rule. The last two sentences of Subsection (a)(1) have been deleted. These deleted sentences would constitute redundant regulation since the Household Goods Transportation Act of 1980 expressly provides that carriers may publish tariffs for per diem payments and expedited delivery is implicit in this statutory scheme. See (49 U.S.C. 10734(b)(1)). Many carriers and agents contended that a telephone number may not be available at a new residence and that many times it is not possible to notify a shipper in person of a delay. The use of a telegram has been included in subsection (a)(2) as another method of notifying a shipper of a delay in providing service with reasonable dispatch.

Carriers, industry associations, and individual agents vigorously attack the proposed rule in subsection (a)(3) which would require obtaining the shipper's consent for setting a new pickup or delivery date. The USOCA suggests that the new dates should be "mutually agreeable" while the AMC offered alternative language which would permit the carrier to choose alternate dates which considers the needs of the shipper. The comments demonstrate that the rule, as written, is not practical. Requiring the shipper's consent to alternate dates not only can unduly delay subsequent shipments but may also impair the shipper's right to collect

damages for late pickup or delivery. It is possible that carriers can use as a defense, the shipper's "consent" to an alternate date. On balance, we believe that the carrier can unilaterally set alternate pickup or delivery dates as long as the carrier takes into consideration the needs of the shipper. This substitute language offers the shipper the opportunity to consult with the carrier and arrive at an alternate period for service. The carrier will have every incentive to accommodate the shipper inasmuch as the shipper can sue for damages for breach of contract and penalties may be assessed for shipper harm after considering any good faith efforts of the carrier.

Subsection (b) will be deleted since it is an unnecessary regulation.

Proposed § 1056.9 Notification of Charges

(a) Whenever an individual shipper of a shipment being transported on a collect on delivery basis specifically requests notification of the actual weight or volume and charges on a shipment, and supplies the carrier with an address or telephone number at which the communication will be received, the carrier shall comply with such request immediately upon determining the actual weight and charges.

(b) Such notification shall be made by telephone, telegraph, or in person at the carrier's expense unless the carrier provides in its tariff that the actual cost of such notification shall be collected from the shipper.

(c) Whenever a shipper, or his or her representative, requests notification of the weight or volume and charges on a shipment as provided in paragraph (a), the notification must be received by the shipper, or his or her representative, at least one full 24-hour day, excluding Saturdays, Sundays and legal holidays, prior to any tender of the shipment for delivery. The 24-hour notification requirement shall not apply on a shipment which, with the agreement of the shipper, or his or her representative, is to be picked up and delivered within a time period encompassing two consecutive week days, or on a shipment on which the charges have been estimated and the maximum amount required to be paid at time of delivery is 110 percent of the estimated charges.

Comment and Discussion

The Transportation Consumer Action Project (TCAP) and CU strongly disagree with the proposal to allow carriers to charge for notification of charges. We believe that the clear intent of Congress in passing the Household Goods Transportation Act of 1980 was to permit carriers to have the maximum flexibility in pricing their services; therefore, we will not require carriers to incur such costs even though it might be a good business practice to do so. Such business judgments will be left to the market place. We encourage consumers to shop around for the best price consistent with service meeting their needs. TCAP also contends that the 24-hour notification requirement is too brief and should be increased to 48 hours. NAVL correctly points out that the proposed regulation is fundamentally incompatible with a carrier's statutory right to backweigh, where a shipment must be unloaded before the final charges can be computed. We believe the 24-hour notification period provides a reasonable opportunity for a shipper to acquire the necessary funds to pay for the move. If the move was performed under a non-binding estimate, the shipper has known from the beginning the maximum amount he or she would be required to have available at the time of delivery (the 110 percent rule). Increasing the notification period to 48 hours could unduly delay the delivery of a shipment, and thereby subject shippers to needless delays. Carriers choosing to backweigh shipments will be excluded from the 24-hour notification requirement since compliance would be impossible.

Proposed § 1056.10 Signed Receipt for Shipment-Release Prohibited

No delivery acknowledgment on any shipping document to be signed by the consignee at time of delivery shall contain any language which purports to release or discharge the carrier or its agents from liability, other than a statement that the property has been received in apparent good condition except as noted on the shipping documents.

Comments and Discussion

No significant comments were received concerning this rule. The final rule has been made more clear.

Proposed § 1056.11 Selling of Insurance to Shippers

(a) When a shipment is released for transportation at a value not exceeding 60 cents per pound per article, and the shipper does not declare a valuation of $1.25 or more per pound and pay or agree to pay the carrier for assuming liability for the shipment equal to the declared value, any common carrier of household goods as defined in 49 CFR 1056.1(b)(1), or any employee, agent, or representative thereof, may sell, or offer to sell or procure for any shipper, any kind of insurance, under any type of policy, covering loss or damage in excess of the specified carrier liability to a shipment or shipments of household goods to be transported in interstate or foreign commerce by such carrier; *Provided*, that the shipper is issued a policy or other appropriate evidence of the insurance purchased, and a copy thereof be furnished to the shipper at the time the insurance is sold or procured. Carrier issued policies shall be written in plain English and shall clearly specify the nature and extent of coverage. Failure to issue a policy or other appropriate evidence of insurance purchased shall subject the carrier to full liability for any claims to recover for loss or damage attributed to the carrier.

(b) Any carrier offering or selling or procuring insurance as provided in (a) shall provide in its tariff for the provision of such service. The tariff shall also provide for the base transportation charge to include assumption by the carrier for full liability for the value of the shipment in the event a policy or other appropriate evidence of the insurance purchased by the shipper is not issued to the shipper at the time of purchase.

Comments and Discussion

Consumer organizations generally recognized and were mindful of the previous abuses which prompted the Commission to prohibit the sale of insurance by carriers. They contend that if the Commission decides to permit the sale of insurance by carriers, consumers should be protected by disclosure forms and a careful monitoring of the program of the Commission.

Carrier associations did not offer significant comments or suggestions in this area, and some individual carriers suggested it was a bad idea because it would subject them to additional paperwork burdens. Some individual carriers suggested modified insurance regulations. NAVL strongly opposes the proposed rule. Some carriers suggest modified insurance regulations. They argue that if the proposed rule were to be adopted carriers would be permitted to sell insurance with complete disregard to the current released rates order and circumvent the intent of Congress that the Commission monitor released rates. They contend consumers may be harmed because unsophisticated shippers may not be able to distinguish between bargain insurance with low rates and high deductibles and full coverage insurance with higher premiums. Moreover, they state that the proposed regulation would split responsibility for cargo loss and damage between an insurance company and the carrier, thereby causing consumers numerous problems. Finally, NAVL contends that the proposed regulation would ultimately minimize a carrier's responsibility to exercise diligent care in handling household goods shipments.

Based on the record before us, we have decided to adopt the proposed rule. Carriers will be permitted to sell insurance if requested by the shipper. A record of the insurance purchase will be required on the bill of lading and a policy or other appropriate evidence of insurance must be given to the shipper. This will protect shippers against the possibility that they may pay for insurance and find later that such insurance was not made effective.

Carriers or agents that find the paperwork requirements of this regulation too burdensome need not offer insurance.

Proposed § 1056.12 Liability of Carriers

(a) *Liability restricted.* Except as provided in § 1056.11(a), common carriers by motor vehicle of household goods as defined in 49 CFR 1056.1(b)(1) shall not assume any liability in excess of that for which they are legally liable under their lawful bills of lading and published tariffs.

(b) *Limitations of Liability.* A common carrier by motor vehicle of household goods shall be liable for loss of or damage to any articles caused by it while being transported or while being held for storage-in-transit, including incidental pickup or delivery, and including liability for loss or damage to any article or applicance resulting from the servicing of such article or appliance by a third person engaged by the carrier to perform such service, to the extent provided in the outstanding released rates order; except that the carrier may exempt its liability in the following instance:

(1) No liability need be assumed for perishable articles included in the shipment without the knowledge of the carrier; and a carrier accepting for shipment perishable articles may impose reasonable conditions necessary to insure the safe transportation of such commodities.

(c) *Storage-in-transit.* A common carrier by motor vehicle of household goods holding goods for storage-in-transit (S.I.T.) shall, no less than 10 days prior to the expiration of either the specified period of time during which the goods are to be held in such storage or the maximum period of time provided in the carrier's tariff for storage-in-transit, notify the shipper in writing (1) of the date of conversion to permanent storage, (2) of the existence of a nine-month period subsequent to the date of conversion to permanent storage during which shipper may file claims against the carrier for loss and/or damage which occurred to the goods in transit or during the S.I.T. period, and (3) of the fact that on the date of conversion the liability of the carrier shall terminate and the property shall be subject to the rules, regulations, and charges of the warehouseman. Notification shall be by certified mail, return receipt requested. A common carrier by motor vehicle of household goods holding goods for storage-in-transit for a period of time less than 10 days shall, no less than one day prior to the expiration of the specified time during which the goods are to be held in such storage, give notification to the shipper of the information specified in paragraph (d)(1), (2), and (3) of this section, and maintain a record thereof as part of its record of the shipment. Failure or refusal of a carrier to notify the shipper in accordance with the foregoing shall automatically effect a continuance of carrier liability pursuant to the applicable tariff provisions with respect to S.I.T., until the end of the day following the date upon which notice is given.

Comments and Discussion

No significant comments were received regarding this proposed rule. It will be adopted as proposed.

Proposed § 1056.13 Complaint and Inquiry Handling

(a) Class I and II motor common carriers engaged in the transportation of household goods as defined in 49 CFR 1056.1(a) shall establish and maintain a procedure for responding to complaints and inquiries from shippers for which such transportation is provided. As a minimum the procedure shall provide:

(1) A means whereby shippers may communicate with the principal office of the carrier by telephone without expense to the shipper during the period of time commencing with the date of the signing of an order for service and ending with the date of final settlement of all claims arising out of the transportation as provided in 49 CFR 1005 or, if no claim is filed, the expiration of the period provided for the filing of claims.

(2) The carrier shall retain and make part of the file relating to a shipment a written record of all complaints and inquiries received from a shipper by any means of communication. The record shall include, as a minimum, the date of the complaint or inquiry; the nature or description of the complaint or inquiry; the date of resolution or final handling of the complaint or inquiry and the full name of the carrier or employee responsible for the handling or resolution.

(b) The carriers shall publish in their tariffs applicable to the transportation a full description of the complaint and inquiry handling procedure and shall not amend or otherwise change the published procedure in any manner which will result in the providing of a diminished complaint and inquiry handling procedure without filing notice of the amendment or change by appropriate amendment of the applicable tariffs.

Comments and Discussion

CU argues that the application of this rule should not be limited to Class I and II carriers. We agree that the rule, as revised, should apply to all carriers. Carrier organizations and individual carriers generally oppose this proposed rule as not being cost effective. AMC states that adoption of the proposed rule would entail significant additional expenses and enormous paperwork.

Considering the record and all the comments we received on this issue, we have decided to promulgate a final rule which deletes several requirements. As stated before, the final rule will apply to all carriers. Subsection (a)(1) has been modified by deleting the requirement that the carrier absorb the expense of all telephone calls. We will leave this cost decision to the marketing practices of each carrier. Some large carriers may provide for free telephone service, while other carriers may decide that it is more economical and efficient to have its local agent communicate directly with the shipper. Although we will continue to require all carriers to maintain written records of all complaints, the final rule will not specify what minimum information must be maintained. This requirement is necessary to establish the time when possible shipper harm occurred and what actions were taken by the carrier to resolve the matter. Finally, subsection (b) will be entirely deleted. Very few consumers would ever have access to, or interest in, a carrier's tariff. Moreover, forcing carriers to seek Commission approval to modify their internal complaint and inquiry procedures serves no purpose other than to inhibit innovation in providing such procedures.

Proposed § 1056.14 Responsibility of Principal Carrier for Acts of Agents

(a) Each principal carrier shall be absolutely responsible for all acts or omissions of any of its agents which relate to the performance of household goods transportation services (including accessorial or terminal services) in interstate or foreign commerce when those services are held out or performed for the principal carrier or when the shipper is led to believe that those transportation services would be performed by the principal carrier.

(b) Each principal carrier shall use due diligence and reasonable care in selecting and maintaining agents who are sufficiently knowledgeable, fit, willing, and able to provide adequate household goods transportation services (including accessorial and terminal services), and to fulfill obligations imposed upon them by the Commission and by their principal.

Comments and Discussion

This proposed rule will be deleted. The Household Goods Transportation Act of 1980 establishes the legal responsibility of principal carriers for the acts of their agents. See 49 U.S.C. 10934. A restatement of the statute serves no useful purpose.

Proposed § 1056.15 Reporting and Disclosure Requirements

(a) For the purpose of Section 1056.14, agents employed by or providing transportation services for any principal carrier shall be defined as follows:

(1) Prime agents are defined as all agents who are permitted or required under the terms of any agreement or arrangement with a principal carrier to provide any transportation service for or on behalf of the principal carrier, including the selling of or arranging for any transportation service, and who perform such services on other than an emergency or temporary basis.

(2) Military agents are defined as all agents who are permitted or required under the terms of any agreement or arrangement with a principal carrier to provide origin and/or destination services only on shipments transported on Government bills of lading issued by the Department of Defense, and

who perform such services on other than an emergency or temporary basis.

(3) Temporary agents are defined as all agents who are permitted or required under the terms of any agreement or arrangement with a principal carrier to provide origin and/or destination services on behalf of the principal carrier, excluding the selling of or arranging for any transportation service, and who perform such services on an emergency or temporary basis.

(b) Each principal carrier must disclose the following information to each prospective prime agent and to each prospective military agent:

(1) The names under which the principal will do business.

(2) Official names and addresses and principal places of business of the principal carrier and any affiliated carriers that will engage in business with the prospective agent.

(3) A balance sheet and a profit and loss statement for each year of the most recent three-year period of the principal carrier's opefations.

(4) A statement of the standards (if any) by which the principal carrier determines whether the agency should be terminated. If no such standards are generally applicable, the principal carrier must state either that the agency may be terminated at will or that standards governing termination are subject to negotiation between the principal carrier and the prospective retained agent.

(5) A complete statement of the rights and obligations of the principal and the agent, including rights and obligations with respect to training, advertising, claims handling, and frequency and method of payment. The principal carrier also must furnish a copy of its most recent performance report (as described in 49 CFR 1058.19); state the number of vehicles in its vehicle fleet; and list the tariffs under which it operates.

(6) The names, addresses, and telephone numbers of the five agencies whose principal offices are in the closest geographic proximity to the prospective agent. If the principal maintains fewer than five agencies, it shall furnish a statement that it maintains fewer than five agencies.

(7) A statement of the territorial protection offered by the principal carrier or a statement that no such territorial protection is offered.

(8) A statement of the training required of the agent and its employees and the rules and regulations with which the agent and its employees must be familiar and for which they must be responsible.

(9) A statement concerning the methods (if any) by which disputes between the principal and its agents are settled.

(c) The information required by § 1058.15(b) must be received in writing by a prospective prime or military agent prior to the signing of an agency agreement, and the principal must obtain a receipt for that written information, signed by the prospective agent on the date of its receipt.

(d) Agreements between principal carriers and their prime or military agents must be reduced to writing and signed by the principal and the retained agent, and copies of any such agreements must be retained in the files of the principal carrier for a period of not less than 24 months following the date of termination of each agreement.

Comments and Discussion

The AMC and NAVL suggest that subsection (a) of the proposed rule should be redrafted to make clear that agents are not employees of carriers. The final rule has been modified accordingly. The NFWA strongly opposes subsection (b)(4), as proposed, since it gives carriers "unfettered discretion * * * to principals to terminate the agency relationship at will." They contend that this is unconscionable since an agent may potentially be released at anytime, for any reason, without notice. We believe, based on the record in this proceeding, that mutuality of obligation and commercial fairness require principals to furnish to prospective agents standards of termination. However, we will not impose any specific standards. Such standards should be left to business negotiation between the principal and agent prior to commencement of the agency relationship.

Subsections (b) and (c) have been deleted as being unnecessary regulations. The final rule has been renumbered, re-entitled "Agency Agreements" and will appear as 49 CFR 1056.14.

Proposed § 1058.16 Collection of Freight Charges on Household Goods Shipments Involving Loss or Destruction in Transit

(a) No motor common carrier of household goods in interstate or foreign commerce shall collect, or shall require a shipper thereof to pay, any published freight charges (including any charges for accessorial or terminal services) when that shipment is totally lost or destroyed in transit. The provisions of this subsection shall apply only to the transportation of household goods as defined in § 1058.1(b)(1) of these rules. Notwithstanding any other provisions of this subsection, a carrier shall collect, and the shipper shall be required to pay, any specific valuation charge that may be due. This subsection shall not be applicable to the extent that any such loss or destruction is due to the act or ommission of the shipper.

(b) In the event that any portion, but less than all, of a shipment of household goods is lost or destroyed in transit, no motor common carrier of household goods in interstate or foreign commerce shall collect, or shall require a shipper thereof to pay, at the time of delivery, that proportion of its published freight charges (including any charges for accessorial or terminal services) corresponding to that portion of the shipment which is lost or destroyed in transit. In order to calculate the charges applicable to the shipment as delivered, the carrier shall multiply the percentage corresponding to the portion of the shipment delivered by the total charges (including accessorial and terminal charges) applicable to the shipment as tendered by the shipper. If the charges computed in the manner set forth above exceed the charges otherwise applicable to the weight or volume corresponding to the weight or volume of the shipment as delivered, the lesser of those charges shall apply. The provisions of this subsection shall apply only to the transportation of household goods as defined in § 1058.1(b)(1) of these rules. Notwithstanding any other provisions of this subsection, a carrier shall collect, and the shipper shall be required to pay, that proportion of any accessorial or terminal services rendered which corresponds to the proportion of the shipment not lost or destroyed in transit and any specific valuation charge that may be due. In the event that any shipment of household goods to which this subsection applies shall sustain loss or destruction in transit amounting to 10 percent or less of that shipment, by weight or volume, notwithstanding any other provisions of this subsection, the carrier may collect freight charges (including charges for accessorial or terminal services) for that portion of the shipment lost or destroyed in transit; *Provided*, that such charges shall not be considered due or owing to the carrier, and provided further that the carrier must, within 90 days of the date of delivery of any portion of that shipment, refund to the shipper any charges (including charges for accessorial or terminal services) assessed for that portion of the shipment lost or destroyed in transit. The provisions of this subsection shall not be applicable to the extent that any such loss or destruction is due to the act or omission of the shipper. Carriers shall determine, at their own expense, the weight or volume of that part of the shipment not lost or destroyed in transit.

(c) The rights provided by this section are in addition to, and not in lieu of, any other rights which the shipper of household goods may have with respect to a shipment of household goods which is lost or destroyed, or partially lost or destroyed, in transit, whether or not that shipper has exercised the rights provided in paragraphs (a) and (b) of this section.

Comments and Discussion

Consumer groups oppose the provision which would permit carriers to collect total freight charges where 10 percent or less of the shipment was lost or destroyed and then allow the carriers 90 days to refund any charges assessed on the part of the shipment that was lost or destroyed. Upon review of the record we will delete this provision. There is no good reason why the shipper, who has suffered loss, should be made to pay for any service not duly rendered. Furthermore, permitting a carrier to hold the aggrieved shipper's funds for up to 90 days is totally unreasonable.

NAVL and AMC propose the Commission adopt a *de minimus* rule which would allow carriers to forego making refunds to customers in amounts of $10 or less (AMC suggests a $15 limitation). We do not accept this

proposal. Although the carrier's processing costs may exceed the total amount due to a shipper, the fact remains that the shipper is entitled to be compensated for his or her loss.

Proposed § 1056.17 Collection of Freight Charges on Shipments Transported on More Than One Vehicle

(a) Whenever a shipment of household goods, as defined in 49 CFR 1056.1(b)(1), is transported on more than one vehicle on a collect on delivery basis, the carrier delivering such split or divided shipment shall observe the requirements of subparagraphs (1), (2) and (3) in the collection of the charges.

(1) The collection of the charges attributable to the transportation of the portion of the shipment transported on each vehicle may be deferred until all portions of the shipment are delivered, or,

(2) Providing that all portions of the shipment have been weighted or that the total volume of the shipment has been determined and the final charges determined as if the entire shipment was transported on one vehicle, the carrier may collect at the time of delivery of any portion of the shipment that percentage of the final charges represented by the portion of the shipment tendered for delivery or,

(3) In the event that the combined weight or volume of all portions of the shipment and the final charges due the carrier for the transportation of the entire shipment cannot be reasonably determined at the time any portion of the shipment is tendered for delivery, the carrier shall determine the weight or volume of the portion of the shipment being delivered and collect the charges due the carrier for the transportation of a shipment of that weight or volume: *Provided,* That at the time of tender of delivery of the final portion of the shipment the total charges due the carrier for the transportation of the entire shipment shall be determined and the charges required to be paid at the time of delivery of the final portion of the shipment shall be not more than the difference between the total of the charges paid at the time of delivery of previously delivered portions of the shipment and the total charges due from the transportation of the entire shipment.

(b) In the event of the loss or destruction of any part of a portion of a shipment being transported on more than one vehicle the collection of charges as provided in paragraph (a) of this section shall also be in conformity with the requirements of 49 CFR 1056.16.

Comments and Discussion

The final rule has been modified to make clear that it is the carrier who has the option of selecting the method of collecting charges.

Proposed § 1056.18 Advertising by Motor Common Carriers of Household Goods

(a) Every motor common carrier engaged in the transportation of household goods in interstate or foreign commerce, including any carriers providing any accessorial service incidental to or part of such interstate or foreign transportation, shall include, and shall require each of its agents to include, in every advertisement as defined in § 1056.1(d), the name or trade name of the motor carrier under whose operating authority the advertised service will originate, and the certficate or docket number assigned to such operating authority by the Interstate Commerce Commission.

(b) Such certificate or docket number shall be in the following form in every advertisement: "ICC No. MC-———" but shall not include any sub numbers which may have been assigned.

(c) No motor common carrier engaged in the transportation of household goods, as defined in 49 CFR 1056.1(a), or any agent or other representative of such a carrier, shall publish or cause to be published or use any advertisement as defined in 1056.1(c), which is false, misleading or deceptive.

(d) No agent of a motor common carrier engaged in the transportation of household goods, as defined in 49 CFR 1056(b)(1) which is also a motor common carrier of household goods under authority issued by the Interstate Commerce Commission shall, in the solicitation of the sale of transportation or transportation related services to be performed under the authority of the agent employ, use or distribute to a prospective shipper any sales literature, brochure, form, document or advertisement bearing the name, emblem, logo, certificate or docket number or any other written or printed matter, picture or color scheme which, regardless of intent, might cause the prospective shipper to assume or believe that the transportation or transportation services will be performed by any motor common carrier other than the agent.

(e) No motor common carrier engaged in the transportation of household goods as defined in 49 CFR 1056.1(b)(1), shall in the performance of such transportation employ, use or distribute any forms, documents or other written or printed material bearing a name, emblem, logo, certificate or docket number or any other written or printed matter, picture or color scheme which might cause the shipper, or his representative, to assume or believe that the transportation is being performed by any motor common carrier other than the carrier responsible for the issuance of the bill of lading, provided, however, the names and addresses of connecting carriers and agents employed in the performance of the service may appear on the bill of lading and other documents when required.

Comments and Discussion

Many individual agents strongly object to the inclusion of subsections (d) and (e). They argue that the regulation, as written, would require a double expenditure on all advertising and promotional material. Some agents pointed out that a literal reading of the regulation would require them to purchase two sets of vehicles because the sides of the trailers contain advertising. United Van Lines contends that subsection (d) would prohibit its agents from using any item which associated the agent with United when the agent was contracting under its own authority. This, United claims, includes tractors, trailers, single units, packing vans, driver's uniforms, and packing materials. Upon consideration of the comments received, we find that proposed subsections (d) and (e) should be deleted from the final rule. Duplication of all advertising and promotional material constitutes an undue financial burden on the numerous agents who also hold individual authority. Such a regulation would further inhibit agents from seeking new or additional individual authority which would be contrary to the intent of both the Motor Carrier Act of 1980 and the Household Goods Transportation Act of 1980. The shipper will be adequately protected against false, misleading and deceptive advertising by retention of subsection (c) and by the requirements of 49 CFR 1056.5(a)(1) which provides that the name, address, and I.C.C. docket number of the carrier responsible for performing the service be written on the Order for Service.

Proposed § 1056.19 Preparation and Filing of Annual Performance Report

(a) Minimum Filing Requirement—Each motor common carrier for household goods as defined in 49 CFR 1056.1(b)(1), which delivers 100 or more interstate shipments to individual shippers as defined in 49 CFR 1056.1(b)(5), during any calendar year shall, on or before March 31 of the following year, cause to be filed with the Office of Consumer Protection, Interstate Commerce Commission, Washington, D.C. 20423, a report of the service performed during the report year. The report shall be submitted on Form OCP-101.

(b) Prescribed Annual Performance Report Form

INTERSTATE COMMERCE COMMISSION

Office of Consumer Protection

Annual Performance Report for Year Ended December 31, 19—

Carrier's Name———
Carrier's Address ———
ICC Number ———

PART A

During the year the total number of shipments delivered for each type of shipper was:

1. Individual shipper ..... ———
2. Government Bill of Lading shipper ..... ———
3. Commercial shipper ..... ———

PART B

With reference to shipments delivered for individual shippers as defined in 49 CFR 1056.1(b)(5):

1. The number of shipments delivered upon payment of the amount of a binding estimate (49 CFR 1056.3(3)) ..... ———

PART B

2. Percent of the shipments on which a non-binding estimate was furnished for which the final charges for the service included in the estimate did not exceed the amount of the estimate ..... ——
3. Percent of shipments delivered which were picked up on or before the last date for pickup specified in the order for service/bill of lading ..... ——
4. Percent of shipments delivered which were delivered on or before the last date for delivery as specified in the bill of lading contract ..... ——
5. Percent of shipment delivered which did not result in the filing of a claim by the shipper within 60 days following the date of delivery for property loss or damage in excess of $50 ..... ——
6. Percent of shipments delivered which did not result in the filing of a claim in excess of $50 by the shipper within 60 days following the date of delivery for damages and expenses arising out of the delayed pickup or delivery of the shipment ..... ——
7. The average number of days between the date of filing of a claim for property loss or damage or delay in excess of $50 and the date of final settlement of such a claim ..... ——
8. The percent of all claims for amounts in excess of $50 filed for property loss or damage or for damages or expenses incurred as result of delayed pickup or delivery ..... ——
   a. Which were resolved through the use of a dispute settlement (arbitration) program maintained or participated in by the carrier ..... ——
   b. Which were not referred to a dispute settlement program and which were concluded after the carrier received legal notice of suit by claimant to recover ..... ——

(c) Instructions for Preparation of Annual Performance Report, Form OCP-101

INSTRUCTION FOR PREPARATION

PART A

1. Enter the total number of shipments delivered which were transported for individual shippers.

2. Enter the total number of shipments delivered on Government Bills of Lading. Do not include shipments transported for a freight forwarder.

3. Enter the total of all other shipments transported for commerical shippers as defined in 49 CFR 1056.1(b)(6). Include shipments transported for freight forwarders in this total.

PART B

1. Enter the number of shipments delivered on which a binding estimate was furnished and on which the final charges were the same as the estimated charges.

2. Enter the percent of the shipments on which a non-binding estimate of approximated costs was furnished which were delivered upon payment of an amount not exceeding the estimated approximated costs.

3. Enter the percent of the shipments entered under Part A item 1 which were picked up on or before the last date for pickup as specified in the order for service. *Include in the computation of the percent all shipments picked up late, regardless of the reason or the party responsible for the delay.*

4. Enter the percent of all shipments entered under Part A item 1 which were delivered on or before the last date for delivery as specified in the bill of lading. *Include in the computation of the percent all shipments picked up late, regardless of the reason or the party responsible for the delay.*

5. Enter the percent of the shipments entered under Part A item 1 which did not result in the filing of a claim by the shipper within 60 days following the date of delivery for property loss or damage in excess of $50. For the purposes of this report, a "claim filed" shall be considered as any claim otherwise meeting the minimum requirements of 49 CFR 1005.2(b) and for an apparent loss in excess of $50.

6. Enter the percent of the shipments entered under Part A item 1 which did not result in the filing of a claim by the shipper within 60 days following the date of delivery for damages or expenses in excess of $50 incurred as a result of the delayed pickup and/or delivery of the shipment. For the purposes of this report, a "claim filed" shall be considered as any claim otherwise meeting the minimum requirements of 49 CFR 1005.2(b) and for apparent damages or expenses in excess of $50.

7. Enter the average number of days required to reach a final settlement of all claims for $50 or more relating to the transportation of shipments entered under Part A item 1 arising out of property loss or damage or the delayed pickup and/or delivery of shipments during the report year. For the purposes of this report a claim shall be considered to be a "claim filed" if it meets the criteria set forth in (7) and (8) and shall be considered as being finally settled on the 60th day following the date on which a written offer of settlement is mailed or delivered in person to a claimant unless the offer of settlement is accepted prior to the 60th day or on the 60th day following the date on which a written denial of liability is mailed or delivered in person to the claimant unless the claimant assents to denial prior to the 60th day.

8a. Enter the percent of the loss and damage claim for $50 or more arising out of the transportation of shipments entered under Part A item 1 which were settled during the report year through the use of a dispute resolution or arbitration procedure maintained or participated in by the carrier.

8b. Enter the percent of loss and damage or delay claims for $50 or more arising out of the transportation of shipments entered under Part A item 1 which were settled during the year on a date subsequent to the date on which legal notice of suit to recover was received by the carrier.

GENERAL INSTRUCTIONS

1. Data for the completion of Form OCP-101 may be obtained by random sampling providing that in every instance the universe sampled is all shipments delivered for individual shippers during the report year or all claims arising out of the transportation of individual shipper shipments which were received or settled, as appropriate during the report year.

2. When random sampling is used, the minimum sample size in every instance shall be 400 shipments or claims, as appropriate, in replicates of 100 shipments or claims each. All samples must conform to standard deviation with a 95% confidence level.

3. Carriers submitting Form OCP-101 shall retain and make available for review by an authorized Commission employee all working papers, notes and other files relating to the preparation of each report for a period of not less than 24 months following the date of filing such a report.

Comments and Discussion

Consumer organizations object to the design of the questions on the form which presents the carrier's performance in an affirmative manner. In the past such questions were presented in a negative format; e.g., What percentage of shipments were delayed? We believe the affirmative format satisfies the numerous objections of the moving industry without significantly affecting the ability of the prospective shipper to select a carrier on the basis of past performance. For example, in the past, a shipper would probably select a carrier which had the lowest percentage of late deliveries. Under the proposed format, the same consumer would probably select a carrier with the highest percentage of on-time deliveries, all other things being equal.

Public Citizen Congress Watch believes that carriers should not be permitted to use random sampling techniques in compiling the annual report. We disagree. Properly controlled random sampling techniques produce statistically valid results without overwhelming the carrier with burdensome paperwork requirements.

Carrier organizations suggest that the minimum dollar amount on claims which must be reported be increased from $50 to $100 to account for the effects of inflation over the past several years. We believe that there is adequate economic justification supporting the carriers position. The $50 guideline has been in

use for several years and an increase to $100 appears warranted. This increase would alleviate additional paperwork burdens without seriously affecting consumer knowledge concerning the carriers' handling of significant claims. The instructions to the annual performance report will be amended accordingly. Finally, it should be noted that the pack and crate carriers (so called Kingpack carriers) will not be required to prepare annual peformance reports.

Proposed § 1056.20 Use of Charge Card Plans

Motor common carriers of household goods, as defined in 49 CFR 1056(b)(1), may provide in their tariffs for the acceptance of charge cards for the payment of freight charges whenever shipments are transported under agreements and tariffs requiring payment by cash, certified check or money order payment by charge card shall be considered the same as payment by cash, certified check or money order. Any tariff rule or item permitting the acceptance of charge cards shall identify the charge card plans participated in by the carrier.

Proposed § 1322.6 Charge Card Plans Not Included (Under Credit Regulations)

It is proposed to amend § 1322.6 to read as follows:

The provisions of this Part shall not apply to the payment of interstate transportation charges by use of charge cards as provided in 49 CFR 1059.19 and when the shipper of household goods does not force an involuntary extension of credit by the carrier by causing the charge card issuer to reverse the charge transaction and charge payments back to the carrier's account.

Comments and Discussion

No substantive comments were received concerning these complementary proposed rules. It should be noted that the acceptance of charge cards is left to the business judgment of each carrier. The final rule simply permits another payment option not previously available.

Proposed Deletion of 49 CFR 1056.18 and 1056.21

Carrier organizations oppose the deletion of these existing regulations which taken together presently inhibit rate and service competition between carriers and their agents. The AMC argues retention of these rules is:

(a) Not contrary to anti-trust provisions

(b) Needed to prevent shipper discrimination

(c) Needed to prevent shipper confusion

AMC states that deletion of these rules would:

(a) Adversely affect pooling arrangements

(b) Create a competitive relationship between principal and agent

Considering all the above arguments we believe that the benefits derived from deletion of these two rules far outweigh any of the feared consequences. Deletion of the rules will permit price and service competition between and among principal carriers and their agents. The intention to foster such competition is now part of the National Transportation Policy and was the prime motivation, along with reduced regulation, for enactment of both the new motor carrier and household goods legislation.

Proposed §§ 1065.1 and 1310.15

No significant comments were received regarding these proposals. They will be adopted as final rules based upon the justifications contained in the notice of proposed rulemaking. Section 1310.15 has been modified to conform to the decision in Ex Parte No. MC-19 (Sub-No. 34), *Household Goods Transportation (Storage-In-Transit Charges).*

This proceeding is not a major Federal action significantly affecting energy consumption or the quality of the human environment.

The rules in 49 CFR 1056 are vacated, except the performance report form required by rule 1056.18 which will remain in effect until the Office of Management and Budget (OMB) approves the proposed form.

We adopt the rules set forth in Appendix B.

This action is taken under the authority of 49 U.S.C. 10321, 11109, 11110, and 5 U.S.C. 553.

Decided: February 27, 1981.

By the Commission, Acting Chairman Alexis, Commissioners Gresham, Clapp, Trantum, and Gilliam. Commissioner Gresham dissenting in part.

Agatha L. Mergenovich,

Secretary.

Picking up and delivering shipments on the agreed dates
Space reservation, expedited service, exclusive use of a vehicle, and guaranteed pickup and delivery
Notification of charges
Receipt for delivery of a shipment
The mover's liability for loss and damage
Complaints and inquiries about the mover's service
Payment of the transportation charges
Payment of the transportation charges on shipments moved on two or more vehicles
Payment of the transportation charges on shipments lost or destroyed in transit
Filing of claims for loss and damage or delay, dispute resolution programs
In Conclusion

Introduction

The Interstate Commerce Commission (ICC) regulations protect consumers on interstate moves and define the rights and responsibilities of consumers and movers.

The mover gives you this pamphlet to provide information about your rights and responsibilities as a shipper of household goods. You should talk to your mover if you have further questions. The mover will also furnish you with a pamphlet describing its procedure for handling your questions and complaints. The pamphlet includes a telephone number you can call to obtain additional information about your move.

If, after discussing your move with the mover, you still need information or assistance, you may obtain help from the National Consumer Assistance Center, Interstate Commerce Commission, Washington, D.C. 20423, or by calling the center using the toll-free number (800) 424-9312 (275-0660 within the District of Columbia).

Moving Service Questionnaire

Included with this pamphlet is a brief questionnaire which we ask you to complete and mail, postage free, to the Interstate Commerce Commission's National Consumer Assistance Center. The information which you provide will help the Commission to further assist consumers.

Please answer every question. The name and ICC number of the moving company is found at the top of the bill of lading. The shipment registration or identification number is found on the order for service and the bill of lading of your shipment.

The Service Questionnaire is not a complaint or inquiry form. If you have a complaint or inquiry concerning the mover's services either call or write to the National Consumer Assistance Center mentioned above.

INTERSTATE COMMERCE COMMISSION MOVING SERVICE QUESTIONNAIRE

(Not a Complaint Form)

1. Name of the moving company _____
2. Mover's ICC number _____
3. Your shipment registration or identification number _____
4. Moved from (State) _____ Moved to (State) _____
5. Date your shipment was picked up (Date) _____ (Delivered (Date) _____
6. Did you receive an estimate _____ ☐ Yes ☐ No
7. Was the estimate binding? _____ ☐ Yes ☐ No
8. Were the final charges the estimated charges? (Check One) _____ ☐ More ☐ Less ☐ Same As
9. Was your shipment picked up the agreed pickup date? (Check One) _____ ☐ Before ☐ On ☐ After
10. Was your shipment delivered the agreed delivery date? _____ ☐ Before ☐ On ☐ After
11. Have you or do you intend to file a claim with the mover for property loss or damage in excess of $100? _____ ☐ Yes ☐ No
12. Would you use the same mover again? _____ ☐ Yes ☐ No
13. Was the *Your Rights and Responsibilities When you Move* booklet helpful to you in your move? _____ ☐ Yes ☐ No

Please show return address in upper left corner of reverse side of this card.

NOTE: THIS QUESTIONNAIRE WILL BE PRINTED ON A PREPAID POST CARD ADDRESSED TO THE INTERSTATE COMMERCE COMMISSION, NATIONAL CONSUMER ASSISTANCE CENTER, WASHINGTON 20432. THIS CARD IS TO BE INSERTED BETWEEN PAGES 2 AND 3 OF THE BOOKLET AND SHOULD BE PERFORATED TO PERMIT EASY REMOVAL. THE CARRIER'S NAME AND ICC NO. MAY BE PRE-PRINTED ON THE QUESTIONNAIRE

Estimates

Although the ICC cannot require that moving companies give estimates most movers do provide estimates when requested. There are two types of estimates, binding and non-binding.

Binding Estimates

The mover may charge you for providing a binding estimate.

Binding estimates must clearly describe the shipment and all services provided.

When you receive a binding estimate, you cannot be required to pay any more than the amount of the estimate. To be effective, a binding estimate must be in writing and a copy given to you before you move. A copy of the binding estimate must also be attached to the bill of lading.

If you agree to a binding estimate, you are responsible for paying the charges by cash, certified check, or money order at time of delivery unless the mover agreed before you move to extend credit or to accept payment by charge card. If you are unable to pay the amount required at the time the shipment is delivered, the mover may place your shipment in storage at your expense until the charges are paid.

Non-Binding Estimates of Approximate Cost

The mover is not permitted to charge for giving a non-binding estimate.

A non-binding estimate does not bind the mover. When you receive a non-binding estimate there is no guarantee that the final cost will not be more than the estimate.

Non-binding estimates must be in writing and clearly describe the shipment and all services provided. Any time a mover provides such an estimate it is required that the amount of the charges estimated must be entered on the order for service and bill of lading relating to your shipment. If you are given a non-binding estimate, do not sign or accept the order for service or bill of lading unless the amount estimated is entered on each form when prepared by the mover.

If you are given a non-binding estimate, the mover cannot require you to pay more than the amount of the original estimate plus 10 percent, at time of delivery. You will then have at least 30 days after the date of delivery to pay any remaining charges.

If you request the mover to provide more services than those included in the estimate, the mover may demand full payment for those added services at time of delivery.

Order for Service

Moving companies are required to prepare an order for service on every shipment transported for an individual shipper. You are entitled to a copy of the order for service when it is prepared.

The order for service is not a contract. Should your move be cancelled or delayed or if you decide not to use the services of the mover, you should promptly cancel the move.

Should there by any change in the dates on which you and the mover agreed that your shipment will be picked up and delivered, or any change in the non-binding estimate, the mover

may prepare a written change to the order for service. The written change should be attached to the order for service.

Bill of Lading Contract

The bill of lading is the *contract* between you and the mover. The mover is required by law to prepare a bill of lading for every shipment it transports. The information on a bill of lading is required to be the same information shown on the order for service. The driver who loads your shipment must give you a copy of the bill of lading before loading your furniture. You must also sign the bill of lading.

It is your responsibility to read the bill of lading before you sign it. If you do not agree with something on the bill of lading *do not sign* it until you are satisfied that the bill of lading shows what service you want.

The bill of lading requires the mover to provide the service you have requested, and you must pay the mover the charges for the service. *The bill of lading is an important document. Do not lose or misplace your copy.* Have it available until your shipment is delivered, all charges are paid and all claims, if any, are settled.

Inventory

At the time the mover's driver loads your shipment he or she, although not required to do so, usually inventories your shipment listing any damage or unusual wear. The purpose of this is to make a record of the condition of each item. If the driver does not make an inventory you should make one yourself.

After completing the inventory, the driver will usually sign each page and ask you to sign each page. It is important before signing that you make sure that the inventory lists every item in your shipment and that the entries regarding the condition of each item are correct. You have the right to note any disagreement. When your shipment is delivered if an item is missing or damaged, your ability to recover from the mover for any loss or damage may depend on the notations made.

The driver will give you a copy of each page of the inventory. Attach the complete inventory to your copy of the bill of lading. It is your receipt for the goods.

At the time your shipment is delivered, it is your responsibility to check the items delivered against the items listed on your inventory. The driver usually places a small numbered tag on each item as the inventory is prepared. The numbers should correspond to the numbered items on the inventory form and facilitate checking off the items off as they are brought into your new residence. Check each item for damage that did not exist when the shipment was loaded. If new damage is discovered, make a record of it in the space provided on the inventory form. Be sure to call the damage to the attention of the driver and request that a record of the damage be made on the driver's copy of the inventory.

After the complete shipment is unloaded, the driver will request that you sign the driver's copy of the inventory to show that you received the items listed. Do not sign the inventory until you have assured yourself that it is accurate and that proper notations have been entered on the form regarding any mission or damaged items. When you sign the inventory at the time of unloading, you are giving the driver a receipt for your goods.

Shipments Subject to Minimum Weight or Volume Charges

Movers usually have a minimum weight or volume charge for transporting a shipment. Usually the minimum is the charge for transporting a shipment of at least 500 pounds.

If your shipment appears to weight less than the mover's minimum weight, the mover is required to advise you on the order for service of the minimum cost before agreeing to transport the shipment. Should the mover fail to advise you of the minimum charges and your shipment is less than the minimum weight, the final charges must be based on the actual weight instead of the minimum weight.

Determining the Weight of Your Shipment

If charges are to be based upon weight of the shipment, the mover is required to weigh the shipment. Unless your shipment weighs less than 1,000 pounds and can be weighed on a warehouse platform scale, the mover is required to determine the weight of your shipment by one of the following processes.

Origin Weighing—If your shipment is weighed in the city or area from which you are moving, the driver is required to weigh the truck on which the shipment is to be transported before coming to your residence. This is called the *tare weight.* At the time of this first weighing the truck may already be partially loaded with one or more other shipments. This will not affect the weight of your shipment. The truck should also contain pads, dollies, handtrucks, ramps, and other equipment normally used in the transportation of household goods shipments.

After loading, the truck will be weighed again to obtain the loaded weight, called the *gross weight.* The net weight of your shipment is then obtained by subtracting the tare weight from the gross weight.

Destination Weighing—The mover is also permitted to determine the weight of your shipment at the destination at the time of unloading. The fact that a shipment is weighed at the destination instead of at the origin will not affect the accuracy of the weight of your shipment. *The most important difference is that the mover will not be able to determine the exact charges on your shipment before it is unloaded.*

Destination weighing is done in reverse to origin weighing. After arriving in the city or area to which you are moving, the driver will weigh the truck, with your shipment loaded on it to obtain the gross weight before coming to your new residence to unload. After unloading your shipment, the driver will again weigh the truck to obtain the tare weight. The net weight of your shipment will then be obtained by subtracting the tare weight from the gross weight.

Each time a weighing is performed the driver is required to obtain a weight ticket showing the date and place of weighing and the weight obtained. The ticket must also have your name and shipment number entered on it along with the ID number of the truck. The ticket must be signed by the person who performed the weighing. If both the empty (tare) and loaded (gross) weighings are performed on the same scale, the record of both weighings may be entered on one weight ticket.

At the time the mover gives you the freight bill to collect the charges, a copy of every weight ticket relating to your shipment must accompany your copy of the freight bill.

You have the right to observe every weighing. The mover is required to inform you of the specific location of each scale that will be used and to allow you a reasonable opportunity to be present. If you desire to observe either or both of the weighings, you should tell the mover at the time the order for service is prepared or, in any event, before the day of your move. This will enable the mover to contact you before the weighing to advise you of the location of the scale.

Reweighing of Shipments

If your shipment is weighed at origin and you agree with the mover that you will pay the charges at time of delivery, the mover is required to give you written notice of the weight and charges on your shipment before commencing to unload at your destination residence. If you believe that the weight is not accurate,

you have the right to request that the shipment be reweighed before unloading.

The mover is not permitted to charge for the reweighing. If the weight of your shipment at the time of the reweigh is different from the weight determined at origin, the mover must recompute the charges based on the reweigh weight.

Before requesting a reweigh, you may find it to your advantage to estimate the weight of your shipment using the following method:

(1) Count the number of items in your shipment. Usually there will be either 30 or 40 items listed on each page of the inventory. For example, if there are 30 items per page and your inventory consists of four complete pages and a fifth page with 15 items listed, the total number of items will be 135. *If an automobile is listed on the inventory do not include that item in the count of the total items.*

(2) Subtract the weight of any automobile included in your shipment from the total weight of the shipment. If the automobile was not weighed separately, its weight can be found on the title or license receipt.

(3) Divide the number of items in your shipment into the weight. If the average weight resulting from this exercise ranges between 35 and 45 pounds per article, it is unlikely that a reweigh will prove beneficial to you and could result in your payment of higher charges.

Experience has shown that the average shipment of household goods will weigh about 40 pounds per item. If a shipment contains a large number of heavy items, such as cartons of books, boxes of tools or heavier than average furniture, the average weight per item may be 45 pounds or more.

Picking Up and Delivering Shipments on the Agreed Dates

Agree with your mover on set times for pick up and delivery. You and your mover must reach an agreement as to when your shipment is to be picked up and delivered. It is your responsibility to determine on what date, or between what dates, you need to have the shipment picked up and on what date or between what dates, you require delivery. It is the mover's responsibility to tell you if the service can be provided on or between those dates or, if not, on what other dates the service can be provided.

In the process of reaching an agreement with a mover, it may be necessary for you to alter your moving and travel plans if no mover can provide service on the specific dates you desire.

Do not agree to have your shipment picked up or delivered "as soon as possible." The dates or periods of time you and the mover agree on should be definite.

Once an agreement is reached on the dates service is to be provided, the mover is required to enter those dates on the order for service. Do not sign or accept an order for service that does not have the agreed dates for service entered on the form. Do not sign or accept an order for service which has dates for the pickup or delivery entered on it which are different from those dates to which you have agreed. The dates you have agreed upon must also be entered on the bill of lading and become part of your contract with the mover.

Once your goods are loaded, the mover is contractually bound to provide the service described in the bill of lading. The only defense for not providing the service on the dates called for in the contract is the "defense of force majeure." This is a legal term which means that if circumstances which could not have been foreseen and which are beyond the control of the mover prevent the performance of the service as agreed to in the bill of lading, the mover is not responsible for damages resulting from the non-performance.

If, after an order for service is prepared, the mover is unable to make pickup or delivery on the agreed upon dates, the mover is required to notify you by telephone, telegram or in person about the delay. The mover must at that time tell you when your shipment can be picked up or delivered. If for any reason you are unable or unwilling to accept pickup or delivery on the dates named by the mover, you should attempt to reach agreement with the mover on alternate dates.

The establishment of a delayed pickup or delivery date does not relieve the mover from liability for damages resulting from the failure to provide service as agreed. However, when you are notified of alternate delivery dates it is your responsibility to be available to accept delivery on the dates specified to. If you are not available and willing to accept delivery, the mover has the right to place your shipment in storage at your expense or hold the shipment on its truck and assess additional charges.

If after the pickup of your shipment, *you* request the mover to change the delivery date, most movers will agree to do so providing your request will not result in unreasonable delay to their equipment or interfere with another customer's move. However, the mover is not required to consent to amended delivery dates and has the right to place your shipment in storage at your expense if you are unwilling or unable to accept delivery on the date agreed to in the bill of lading.

If the mover fails to pick up and deliver your shipment on the date entered on the bill of lading and you have expenses you otherwise would not have had, you may be able to recover those expenses from the mover. This is what is called an inconvenience or delay claim. Should a mover refuse to honor such a claim and you continue to believe that you are entitled to be paid damages, you may sue the mover. *The Interstate Commerce Commission has no authority to order the mover to pay such claims.*

While it is hoped that your shipment will not be delayed, you should consider this possibility and find out before you agree for a mover to transport your shipment what payment you can expect if the service is delayed through the fault of the mover.

Space Reservations, Expedited Service, Exclusive Use of a Vehicle and Guaranteed Pickup and Delivery

It is customary for movers to offer price and service options.

The total cost of your move may be increased if you want additional or special service. Before you agree to have your shipment moved under a bill of lading providing special service, you should have a clear understanding with the mover what the additional cost will be. You should always consider that you may find that other movers who can provide the service you require without requiring that you pay the additional charges.

One service option is a *space reservation.* If you agree to have your shipment transported under a space reservation agreement, you are required to pay for a minimum number of cubic feet of space in the moving van regardless of how much space in the van is actually occupied by your shipment.

Another service option is *expedited service* to aid shippers who must have their shipments transported on or between specific dates which the mover could not ordinarily agree to do in its normal operation.

Another customary service option is *exclusive use of a vehicle.* If for any reason you desire or require that your shipment be moved by itself on the mover's truck or trailer, most movers will provide such service.

Still another service option is *guaranteed service on or between agreed dates.* If you take this service option you enter into an agreement with the mover that provides for your shipment to be picked up, transported to

destination and delivered on specific guaranteed dates. If the mover fails to provide the service as agreed, you are entitled to be compensated at a predetermined amount or a daily rate (per diem) regardless of the expense you actually might have incurred as result of the mover's failure to perform.

Before requesting or agreeing to any of these price and service options, be sure to ask the mover's representative about the final costs you will be required to pay and consider all possible alternatives if you feel that the charges will be more than you are willing to pay.

Notification of Charges

You must advise the mover at the time you make the arrangements for the move if you wish to be notified of the weight or volume and charges on your shipment. You are required to give the mover a telephone number or address at which the notification will be received.

The mover must notify you of the charges at least one 24-hour weekday prior to the delivery, unless when the shipment is to be delivered the day after pickup. The 24-hour requirement does not apply when you obtain an estimate of the costs prior to the move or when the shipment is to be weighed at the destination.

Receipt for Delivery of the Shipment

At the time of delivery the mover expects you to sign a receipt for your shipment. This is usually accomplished by having you sign each page of the mover's copy of the inventory.

Movers are prohibited from having you to sign a receipt which relieves the mover from all liability for loss or damage to the shipment. Do not sign any receipt which does not provide that you are signing for your shipment *in apparent good condition except as noted on the shipping documents.*

The Mover's Liability for Loss or Damage

All moving companies are required to assume liability for the value of goods which they transport. However, there are different levels of liability, and consumers should be aware of the amount of protection provided and the charges for each plan.

First, unless you make specific arrangements otherwise, the mover is required to assume liability for the entire shipment at an amount equal to $1.25 per pound times the weight of your shipment. For example, if your shipment weighs 4000 pounds, the mover will be liable to you for loss or damage up to $5000. Though you have made no specific arrangements for this plan, the mover is entitled to charge you $5.00 for each $1000 of liability beyond the "released value" (which will be discussed below) of your shipment. Under this arrangement, if you shipped a 10 pound painting valued at $1000 in your 4000 pound shipment, you could collect for the full value of the painting if it was lost or damaged. Under this plan, your valuables are somewhat protected, but you pay for it.

Next, if the value of your shipment exceeds $1.25 per pound, you may obtain additional liability protection from the mover. You do this by declaring a specific dollar value for your shipment. The amount you declare must exceed $1.25 per pound times the weight of the shipment. If you declare that your 4000 pound shipment is worth $10,000, the mover will charge you $5.00 for each $1000 of declared value, which in this case would result in a charge of $50.00. If you ship articles that are usually expensive, such as art or antiques, be sure to declare its full value. You must do this in writing.

The least amount of liability a mover can assume when transporting your goods is the "released value" referred to above. Movers publish what are known as released value rates. Under such rates, the mover assumes liability for not more than 60 cents per pound, per article. Under this arrangement, if that 10 pound painting which was described in the previous example were lost or damaged, and you had agreed to released value shipment, the mover would be liable for not more than $6.00. Obviously, the consumer should think carefully before agreeing to such an agreement. There is no extra charge for this minimal protection, but you must sign a specific statement on the bill of lading agreeing to it. Remember that unless you do sign such an agreement, the mover is liable for $1.25 per pound, and can charge you for it.

The mover pays for loss or damage in each of the three forms of liability described above. These are not insurance agreements. An additional option for the consumer is to agree to the released value transportation and obtain insurance directly from the moving company or from an insurance company. Your regular insurance company should be able to quote you a rate for your move. Some consumers have found this to be an inexpensive and satisfying alternative.

Your mover can sell you or procure for you liability insurance in the amount you require if you release your shipment for transportation at a value of 60 cents per pound per article. In the event of loss or damage which is the responsibility of the mover the mover would be liable only for an amount not exceeding 60 cents per pound per article and the balance of the loss would be recoverable from the insurance company up to the amount of insurance purchased. The mover's representative can advise you of the availability of such liability insurance and the cost per $1,000 of coverage.

If you purchase liability insurance from or through the mover, it is required that the mover issue a policy or other written record of the purchase and to provide you with a copy of the policy or other document at the time of purchase. If the mover fails to comply with this requirement, it becomes fully liable for any claim for loss or damage attributed to its negligence.

Complaints and Inquiries About the Mover's Service

All movers are expected to respond promptly to complaints or inquiries from their customers. Should you have a complaint or question about your move, you should first attempt to obtain a satisfactory response from the mover's local agent, the sales representative who handled the arrangements for your move, or the driver assigned to your shipment.

If for any reason you are unable to obtain a satisfactory response from one of these persons, you should then contact the mover's principal office. When you make such a call be sure to have available your copies of all the documents relating to the move. Particularly important is the number assigned to your shipment by the mover.

If you do not receive a satisfactory answer, you may contact the Interstate Commerce Commission's National Consumer Assistance Center. The toll-free telephone number is (800) 424-9312. (In the Washington, D.C., dialing area, call 275-0660.) The mailing address is: Interstate Commerce Commission, National Consumer Assistance Center, Washington, D.C. 20423.

Anytime you call the National Consumer Assistance Center regarding your shipment, please have available the name of the mover and the number assigned to your shipment. If you write to the Center, be sure to include that information in your letter.

All interstate moving companies are required to maintain a complaint and inquiry procedure to assist their customers. At the time you make the arrangements for your move, you should ask the mover's representative for a description of the mover's procedure, the telephone number to be used to contact the carrier and whether the mover will pay for such telephone calls.

Payment of the Transportation Charges

At the time of payment of the transportation charges, the mover is required to give you a freight bill identifying the service provided and the charge for each service. It is customary for most movers to use a copy of the bill of lading as a freight bill; however, some movers use an entirely separate document for this purpose.

Except in those instances where a shipment is moving on a binding estimate, the freight bill must specifically identify each service performed, the rate per unit for each service, and the total charges for each service. *Do not accept or pay a freight bill which does not contain this information.*

If your shipment was transported on a collect on delivery basis (COD), you will be expected to pay the total charges appearing on the freight bill at the time of delivery unless the mover provided a non-binding estimate of approximate cost and the total charges *for the services included in the estimate* exceed 110 percent of the estimated charges.

It is customary for movers to provide in their tariffs that freight charges must be paid in cash, by certified check, or money order. When this requirement exists, the mover will not accept personal checks. At the time you make arrangements for your move, you should ask the mover about the form of payment that is acceptable.

Some movers permit payment of freight charges by use of a charge card. However, do not assume that because you have a nationally recognized charge or credit card that it will be acceptable for payment. Ask the mover at the time the arrangements are made.

If you do not pay the transportation charges at the time of delivery the mover has the right under the bill of lading to refuse to give you your goods. The mover may place them in storage at your expense until the charges are paid.

If, before payment of the transportation charges, you discover an error in the charges, you should attempt to correct the error with the driver, the mover's local agent, or by contacting the mover's main office. If an error is discovered after payment, you should write the mover (the address will be on the freight bill) explaining the error and request a refund.

Movers customarily check all shipment files and freight bills after a move has been completed to make sure the charges were accurate. If an overcharge is found you will be notified and a refund made. If an undercharge occurred you will be billed for the additional charges due.

Payment of the Transportation Charges on Shipments Transported on Two or More Vehicles

Although all movers try to move each shipment on one truck it becomes necessary at times to divide a shipment among two or more trucks. This frequently occurs when an automobile is included in the shipment and it is transported on a vehicle specially designed to transport automobiles. When this occurs your transportation charges are the same as if the entire shipment moved on one truck.

If your shipment is divided for transportation on two or more trucks you are not required to pay the *total* charges until all portions of the shipment have been delivered. However, as each portion of the shipment is delivered, the mover can require payment for that portion.

Movers are also permitted, but not required, to delay the collection of all the charges until the entire shipment is delivered. At the time you make the arrangements for your move, you should ask the mover about its policies in this respect.

Payment of Transportation Charges on Shipments Lost or Destroyed in Transit

Movers customarily make every effort to assure that while your shipment is in their possession for transportation, no items are lost, damaged or destroyed. However, despite the precautions taken, articles are sometimes lost or destroyed during the move.

In addition to any money you may recover from the mover to compensate for lost or destroyed articles, you are also entitled to recover the transportation charges represented by the portion of the shipment lost or destroyed.

Should your entire shipment be lost or destroyed while in the mover's possession, the mover cannot require you to pay any of the charges except the amount you have paid or agreed to pay for added liability protection. The fact that you do not pay any transportation charges does not affect any right you may have to recover reimbursement for the lost or destroyed articles providing you pay the charges for added liability protection.

Filing of Claims for Loss and Damage or Delay

Dispute Resolution Programs

Should your move result in the loss or damage to any of your property you have the right to file a claim with the mover to recover money for such loss or damage.

You have nine months following either the date of delivery or the date on which the shipment should have been delivered to file a claim. However, you should file a claim as soon as possible. If you fail to file a claim within 120 days following delivery and later bring a legal action against the mover to recover the damages, you may not be able to recover your attorney fees even though you win the court action.

The Interstate Commerce Commission cannot resolve loss and damage claims. If you cannot settle a claim with the mover, you may file a civil action to recover in court. If the mover participates in a dispute resolution program, you may find submitting your claim to arbitration under such a program a less expensive and more convenient way to seek recovery. Movers which participate in a dispute resolution program are required to advise all shippers of the existence and details of the program before they accept a shipment to be transported. If the mover does not provide information about a dispute resolution program at the time an order for service is prepared, you should ask whether the mover participates in such a program.

In Conclusion

Should you have any questions about your move which are not answered in this pamphlet, do not hesitate to ask the mover's representative who handled the arrangements for your move, the driver who transports your shipment or the mover's main office for additional information.

For further advice or assistance, call or write the Interstate Commerce Commission, National Consumer Assistance Center, Washington, D.C. 20423. The toll-free telephone number is (800) 424-9312. (In the Washington, D.C., dialing area, 275-0660.)

Points to Remember

- Movers may give binding estimates.
- Non-binding estimates may not be accurate; actual charges may often exceed the estimate.
- Specify pick up and delivery dates in the *order for service.*
- The *bill of lading* is your contract with the mover * * * read it carefully * * * if you have any questions ask your mover or call the ICC.
- Be sure that you understand the extent of your mover's liability for loss and damage.
- You have the right to be present each time your shipment is weighed.
- You may request a reweigh of your shipment.

- If you have moved on a non-binding estimate, you should have enough cash or a certified check to pay the estimated cost of your move plus 10 percent more at time of delivery.

Appendix B

49 CFR is amended by revising Part 1056 to read as follows:

PART 1056—TRANSPORTATION OF HOUSEHOLD GOODS IN INTERSTATE OR FOREIGN COMMERCE

Sec.

1056.1 Applicability and definitions.
1056.2 Information for shippers.
1056.3 Estimates of charges.
1056.4 Final charges on shipments subject to minimum weight or volume provisions.
1056.5 Order for service.
1056.6 Receipt or bill of lading.
1056.7 Determination of weights.
1056.8 Reasonable dispatch.
1056.9 Notification of charges.
1056.10 Signed receipt for shipment-release prohibited.
1056.11 Selling of insurance to shippers.
1056.12 Liability of carriers.
1056.13 Complaint and inquiry handling.
1056.14 Agency agreements.
1056.15 Collection of freight charges on household goods shipments involving loss or destruction in transit.
1056.16 Collection of freight charges on shipments transported on more than one vehicle.
1056.17 Advertising by motor common carriers of household goods.
1056.18 Preparation and filing of annual performance report.
1056.19 Use of charge card plans.

Authority: 49 U.S.C. 10321, 11109, 11110 and 5 U.S.C. 553.

§ 1056.1 Applicability and definitions.

(a) The regulations in this part are applicable to the operations of motor carriers engaged in the transportation of household goods as defined in paragraph (b)(1) in interstate or foreign commerce.

(b) *Definitions.* As used in this part:

(1) *Household Goods.* The term "household goods" means personal effects and property used or to be used in a dwelling when a part of the equipment or supply of such dwelling and such other similar property as the Commission may provide by regulation; except that this definition shall not be construed to include property moving from a factory or store except such property as a householder has purchased with intent to use in his dwelling and which is transported at the request of, and the transportation charges paid to the carrier by, the householder. The regulations under this part do not apply to the transportation of property transportable under 49 U.S.C. 10102(10) (B) and (C).

(2) *Reasonable dispatch.* The term "reasonable dispatch" means the performance of transportation, excluding transportation provided under tariff provisions requiring guaranteed service dates, on the dates or during the period of time agreed upon by the carrier and the shipper and shown on the Order For Service/Bill of Lading. *Provided,* That the defenses of force majeure as construed by the courts shall not be denied the carrier.

(3) *Advertisement.* The term "advertisement" means any communication to the public in connection with an offer or sale of any interstate or foreign transportation service, but shall not be construed to include a listing of a carrier name, address, and telephone number in a telephone directory or similar publication.

(4) *Certified Scales.* As used in this part, a certified scale is any scale designed for weighing motor vehicles, including trailers or semi-trailers not attached to a tractor, and certified by an authorized scale inspection and licensing authority. A certified scale may also be a platform or warehouse type scale properly inspected and certified.

(5) *Individual Shipper.* As used in this part, "individual shipper" refers to any person who is the consignor or consignee of a household goods shipment and is identified as such in the bill of lading contract and owns the goods being transported.

(6) *Commercial Shipper.* As used in this part, "commercial shipper" refers to (a) any person, excluding the federal government, who is named as the consignor and/or consignee in a bill of lading contract who is not the owner of the goods being transported but who assumes the responsibility for payment of the transportation and other tariff charges for the account of the beneficial owner of the goods, normally an employee of the consignor and/or consignee; or, (b) a freight forwarder which tenders a shipment to a carrier in furtherance of authorized or exempt freight forwarder operations.

(7) *Government Bill of Lading Shipper.* As used in this part, "government bill of lading shipper" refers to any person whose property is transported under the terms and conditions of a government bill of lading issued by any department or agency of the federal government to the carrier responsible for the transportation of the shipment.

(8) *Other terms.* Where any other terms used in the regulations in this part are defined in 49 U.S.C. 10102, such definitions shall be controlling. Where terms are used in this part which are neither defined herein nor in 49 U.S.C. 10102, they shall have the ordinary practical meaning of such terms.

§ 1056.2 Information for shippers.

(a) Prior to the execution of an order for service of a shipment of household goods, as defined in 49 CFR 1056.1(b)(1), every motor common carrier holding out to perform the service shall cause to be furnished to the prospective individual shipper the following publications.

(1) Publication OCP–100, *Your Rights and Responsibilities When You Move.*

(2) A concise, easy-to-read, accurate summary of any dispute settlement program in which the carrier participates, as provided in 49 U.S.C. 11711 and approved by the Commission.

(3) A copy of the Form OCP–101, *Annual Performance Report,* most recently filed with the Commission if the carrier is required by 49 CFR 1056.17 to prepare and file such report.

(4) A written description of the customer complaint and inquiry handling procedures established and maintained by the carrier. Included in this description shall be a telephone number which the shipper may use to communicate with the carrier, accompanied by a clear and concise statement concerning who shall pay for such calls.

General Requirements

(1) The text and format of the publication shall not be changed without the written approval of the Director, Office of Consumer Protection, Interstate Commerce Commission.

(2) The Director, Office of Consumer Protection, Interstate Commerce Commission, shall, within 30 days following the effective date of a decision of the Interstate Commerce Commission changing any rule or regulation published at 49 CFR 1056, cause to be published in the **Federal Register** a notice of amendment to Publication OCP–100 reflecting such change or changes.

(3) The dimensions of the publication shall be optional, *Provided, however,* The product of multiplying the length by the width shall be not less than 36 square inches.

(4) The color and design of the front and back cover of the publication shall be optional. *Provided,* the only words printed or appearing on the front cover shall be "*Your Rights and Responsibilities When You Move.*"

§ 1056.3 Estimates of charges.

(a) *Binding Estimates.* Motor common carriers engaged in the transportation of

household goods as defined in 49 CFR 1056.1(b)(1) may provide in their tariffs for the preparation and furnishing to shippers of binding estimates of the costs which the shippers will be required to pay for the services included in the estimates. Binding estimates must be furnished in writing to the shipper or other person responsible for payment of the freight charges and a copy of each such estimate must be retained by the carrier as an addendum to the bill of lading. All such estimates shall have clearly indicated on its face that the estimate is binding on the carrier and that the charges shown are the charges which will be assessed for the services identified in the estimate. Binding estimates must clearly describe the shipment and all services to be provided.

(b) *Non-binding Estimates.* Motor common carriers engaged in the transportation of household goods as defined in 49 CFR 1056.1(b)(1) may provide estimates of the approximate costs which will be assessed for the transportation of such shipments. Non-binding estimates shall be reasonably accurate. Estimates of approximate costs shall not be binding on the carriers providing such estimates. The final charges on shipments moved on non-binding estimates shall be those appearing in the carriers' tariffs applicable to the transportation. Non-binding estimates must be furnished without charge and in writing to the shipper or other person responsible for payment of the freight charges and a copy of each such estimate must be retained by the carrier as an addendum to the bill of lading. All such estimates shall have clearly indicated on the face thereof that the estimate is not binding on the carrier and that the charges shown are the approximate charges which will be assessed for the services identified in the estimate. Non-binding estimates must clearly describe the shipment and all services to be provided.

(c) *Estimated Charges Required To Be Entered on the Order for Service and Bill of Lading.* Motor common carriers furnishing non-binding estimates shall enter the estimated charges on the order for service, if an order for service is required, and on the bill of lading.

(d) *Maximum Charges Required To Be Paid at Time of Delivery on Collect on Delivery Shipments Subject to Non-binding Estimates of Approximate Costs.* At time of delivery of a collect on delivery shipment, except when such shipment is delivered to a warehouse for storage at the request of the shipper, on which a non-binding estimate of the approximate costs has been furnished by the carrier under the provisions of paragraph (b), the shipper may request delivery of the shipment upon payment, in a form acceptable to the carrier, of an amount not exceeding 110 percent of the estimated charges. The carrier shall, upon request of the shipper, relinquish possession of the shipment upon payment of not more than 110 percent of the estimated charges and shall defer demand for the payment of the balance of any remaining charges for a period of 30 days following the date of delivery.

§ 1056.4 Final charges on shipments subject to minimum weight or volume provisions.

(a) Motor common carriers engaged in the transportation of household goods, as defined in 49 CFR 1056.1(b)(1), providing service for individual shippers on rates based on the transportation of a minimum weight or volume, must indicate on the order for service the minimum weight or volume-based rates, and the the minimum charges applicable to the shipment.

(b) Failure to comply with the requirements of paragraph (a) shall require, and the governing tariff shall contain, a rule providing that the final charges relating to such a shipment be computed based on the actual weight or volume of the shipment.

§ 1056.5 Order for service.

(a) *Order for Service Required.* Every motor common carrier shall, prior to the receipt of a shipment of household goods as defined in 49 CFR 1056.1(b)(1) to be moved for an individual shipper, prepare an order for service which contains the following mimunum information:

(1) Name and address and ICC docket number of carrier who is responsible for performing the service.

(2) Shipper's name, address and, if available, telephone number.

(3) Name, address and telephone number of the delivering carrier's office or agent located at or nearest to the destination of the shipment.

(4) A telephone number at which the shipper/consignee may contact the carrier or its designated agent.

(5) Agreed pickup date and agreed delivery date, or the agreed period or periods of time within which pickup, delivery, or the entire move, will be accomplished. If the shipment is to be transported on a guaranteed service basis, the guaranteed dates or periods of time for pickup, transportation and delivery and any penalty or per diem requirements of the agreement shall be entered under this item.

(6) Complete description of any special or accessorial services ordered; and minimum weight or volume charges applicable to the shipment.

(7) Any identification or registration number assigned the shipment by the carrier.

(8) Amount of estimated non-binding charges; method of payment of total charges; and, maximum amount required to be paid at time of delivery to obtain possession of the shipment; or, the amount of charges required to be paid based on a binding estimate and the terms of payment under that estimate.

(9) Whether the shipper requests notification of the charges prior to delivery and the telephone number or address at which such communications will be received.

(10) Signatures Required. The order for service shall be signed by the shipper who is ordering the service, and by the carrier or its agent. A copy of the order for service shall be dated and furnished the shipper at the time it is executed.

(b) *Amendments to an Order For Service.* Prior to loading an order for service may be amended by agreement of both parties.

§ 1056.6 Receipt or bill of lading.

(a) *Issuance of a receipt or bill of lading.* Every motor common carrier engaged in the transportation of household goods as defined in 49 CFR 1056.1(b)(1) shall issue a receipt or bill of lading. The bill of lading shall contain the minimum information required by § 1056.6(b) and the terms and conditions of the contract. The carrier shall furnish a complete copy of the bill of lading to the shipper prior to the commencement of the loading of a shipment.

(b) *Minimum information required on a receipt or bill of lading.* Whenever a receipt or bill of lading is issued in compliance with paragraph (a), the carrier shall cause to be included therein the following minimum information:

(1) The name and address of the motor carrier issuing the receipt or bill of lading.

(2) The names and addresses of any other motor carriers, when known, which will participate, through interline, in the transportation of the shipment.

(3) The name, address and telephone number of the office of the carrier that should be contacted in relation to the transportation shipment.

(4) When the transportation is to be performed on a collect on delivery basis, the name, address and, if furnished, the telephone number of a person to whom

notification provided for in § 1056.9(b) shall be given.

(5) When the transportation is to be performed for an individual shipper, and except when the transportation is to be performed subject to tariff provisions providing for guaranteed service dates, the agreed date or period of time for pickup of the shipment and the agreed date or period of time for the delivery of the shipment. The agreed dates or periods of time for pickup and delivery entered on the receipt or bill of lading shall conform to the agreed dates or periods of time for pickup and delivery entered on the order for service or a proper amendment to the order for service.

(6) When the transportation is to be performed subject to tariff provisions providing for guaranteed pickup, transportation and delivery service, the dates for pickup and delivery and any penalty or per diem entitlements due the shipper under the agreement.

(7) The actual date of pickup.

(8) The company or carrier identification number of the vehicle on which the shipment is loaded.

(9) The terms and conditions for payment of the total charges including notice of any minimum charges.

(10) When the transportation is to be performed on a collect on delivery basis and if a pre-move estimate of the charges is provided to the shipper, the maximum amount required to be paid at the time of delivery to obtain delivery of the shipment.

(11) The released rates valuation statement required by 49 CFR 1307.201(c).

(12) Evidence of any insurance coverage sold to or procured for the shipper, including the amount of the premium for such insurance.

(c) *Copy of Receipt or Bill of Lading to accompany shipment.* A copy of the receipt or bill of lading shall accompany a shipment at all times while in the possession of a carrier. When the shipment is loaded on a vehicle for transportation the receipt or bill of lading shall be in possession of the driver responsible for the shipment.

§ 1056.7 Determination of weights.

(a) Every motor common carrier transporting household goods on a non-binding estimate shall determine the weight of each shipment transported prior to the assessment of any charges dependent on the shipment weight. Except as otherwise provided herein the weight shall be obtained on a scale meeting the definition of a certified scale as provided in 49 CFR 1056.1(b)(4).

(1) *Weighing procedure.* Except as otherwise provided herein the weight of each shipment shall be obtained by determining the difference between the tare weight of the vehicle on which the shipment is to be loaded prior to the loading and the gross weight of the same vehicle after the shipment is loaded; or, the gross weight of the vehicle with the shipment loaded and the tare weight of the same vehicle after the shipment is unloaded.

(2) At the time of both weighings the vehicle shall have installed or loaded all pads, dollies, handtrucks, ramps and other equipment required in the transportation of such shipments. Neither the driver nor any other persons shall be on the vehicle at the time of either weighing.

(3) The fuel tanks on the vehicle shall be full at the time of each weighing or, in the alternative, no fuel may be added between the two weighings when the tare weighing is the first weighing performed.

(4) The trailer of a tractor-trailer vehicle combination may be detached from the tractor and the trailer weighed separately at each weighing providing the length of the scale platform is adequate to accommodate and support the entire trailer at one time.

(5) Shipments weighing 1,000 pounds or less may be weighed on a certified platform or warehouse scale prior to loading for transportation or subsequent to unloading.

(6) The net weight of shipments transported in containers shall be the difference between the tare weight of the container, including all pads, blocking and bracing used or to be used in the transportation of the shipment and the gross weight of the container with the shipment loaded therein.

(7) The shipper or any other person responsible for the payment of the freight charges shall have the right to observe all weighings of the shipment. The carrier must advise the shipper or any other person entitled to observe the weighings of the time and specific location where each weighing will be performed and must give that person a reasonable opportunity to be present to observe the weighings. Waiver by a shipper of the right to observe any weighing or reweighing is permitted and does not affect any rights of the shipper under these regulations or otherwise.

(b) *Weight tickets.* The carrier shall obtain a separate weight ticket for each weighing required under this section except when both weighings are performed on the same scale, one weight ticket may be used to record both weighings. Every weight ticket must be signed by the person performing the weighing and must contain the following minimum information:

(1) The complete name and location of the scale.

(2) The date of each weighing.

(3) Identification of the weight entries thereon as being the tare, gross and/or net weights.

(4) The company or carrier identification of the vehicle.

(5) The last name of the shipper as it appears on the Bill of Lading.

(6) The carrier's shipment registration or Bill of Lading number.

(7) The original weight ticket or tickets relating to the determination of the weight of a shipment must be retained by the carrier as part of the file on the shipment. All freight bills presented to collect any shipment charges dependent on the weight transported must be accompanied by true copies of all weight tickets obtained in the determination of the shipment weight.

(c) *Reweighing of shipments.* Before the actual commencement of the unloading of a shipment weighed at origin and after the shipper is informed of the billing weight and total charges, the shipper may request a reweigh. The charges shall be based on the reweigh weight.

§ 1056.8 Reasonable dispatch.

(a) Unless accepted for transportation on the basis of guaranteed pickup and delivery dates:

(1) *Reasonable dispatch required.* Each motor common carrier accepting shipments of household goods as defined in 49 CFR 1056.1(b)(1) for transportation for the account of individual shippers shall cause such shipments to be transported with reasonable dispatch as defined in 49 CFR 1056.1(b)(2).

(2) *Notification of delay in providing service with reasonable dispatch.* Whenever a carrier is unable to perform either or both the pickup and delivery of a shipment on the dates or during the periods of time specified in the order for service, the carrier shall notify the shipper by telephone, telegram or in person, at the carrier's expense, of the delay. Such notification shall be given as soon as it becomes apparent to the carrier that it will be unable to provide the service in compliance with the terms of the order for service.

(3) *Carrier notification of delay.* At the time of notification of delay the carrier shall advise the shipper of the dates or periods of time that pickup and/or delivery can be made, which considers the needs of the shipper. If the notification of delay occurs prior to the pickup of the shipment, the amendment shall be in writing as required by 49 CFR

1056.4(b). If the notification of delay occurs subsequent to the pickup of the shipment, the carrier representative notifying the shipper of the delay shall prepare a written record of the date, time and manner of notification and the amended date or period of time for delivery by the carrier which record shall be retained by the carrier as part of its file on the shipment and a true copy thereof shall be furnished, by first class mail or in person, to the shipper.

(b) *Tendering for delivery.* Except upon the request or concurrence of the shipper, a shipment being transported for an individual shipper shall not be tendered for delivery prior to the agreed delivery date or period of time specified on the bill of lading: *Provided,* That whenever a carrier is able to tender such a shipment for final delivery more than 24 hours prior to such specified date or the first day of such specified period of time, and the shipper has not requested or concurred in such early delivery, the carrier may, at its option, place the shipment in storage for its own account and at its own expense in a warehouse located in proximity to the destination of the shipment. Whenever a carrier shall exercise such option it shall immediately notify the shipper of the name and address of the warehouse in which the shipment has been placed, and shall make and keep a record of such notification as a part of its record of shipment. The carrier's responsibility for the shipment under the terms and conditions of the bill of lading and its responsibility for the charges for redelivery, handling and storage thereof shall continue until final delivery: *Provided,* that the carrier's responsibility under the bill of lading shall not extend beyond the agreed delivery date or the first day of the period within which delivery was to have been accomplished as specified in the bill of lading.

§ 1056.9 Notification of charges.

(a) Whenever an individual shipper of a shipment being transported on a collect on delivery basis specifically requests notification of the actual weight or volume and charges on a shipment, and supplies the carrier with an address or telephone number at which the communication will be received, the carrier shall comply with such request upon determining the actual weight and charges. Such notification shall be made by telephone, telegram, or in person.

(b) Whenever a shipper requests notification of the weight or volume and charges on a shipment as provided in paragraph (a), the notification must be received by the shipper, at least one full 24-hour day, excluding Saturdays, Sundays and legal holidays, prior to any tender of the shipment for delivery. The 24-hour notification requirement shall not apply on a shipment to be backweighed or on a shipment which, with the agreement of the shipper, is to be picked up and delivered within a time period encompassing two consecutive week days, or on a shipment on which the charges have been estimated and the maximum amount required to be paid at time of delivery is 110 percent of the estimated charges.

§ 1056.10 Signed receipt for shipment-release prohibited.

A shipping document to be signed by the consignee at time of delivery shall not contain any language which purports to release or discharge the carrier or its agents from liability, but may contain a statement that the property has been received in apparent good condition except as noted on the shipping documents.

§ 1056.11 Selling of insurance to shippers.

(a) When a shipment is released for transportation at a value not exceeding 60 cents per pound per article, and the shipper does not declare a valuation of $1.25 or more per pound and pay or agree to pay the carrier for assuming liability for the shipment equal to the declared value, any common carrier of household goods as defined in 49 CFR 1056.1(b)(1), or any employee, agent, or representative thereof, may sell, or offer to sell or procure for any shipper, any kind of insurance, under any type of policy, covering loss or damage in excess of the specified carrier liability to a shipment or shipments of household goods to be transported in interstate or foreign commerce by such carrier; *Provided,* that the shipper is issued a policy or other appropriate evidence of the insurance purchased, and a copy thereof be furnished to the shipper at the time the insurance is sold or procured. Carrier issued policies shall be written in plain English and shall clearly specify the nature and extent of coverage. Failure to issue a policy or other appropriate evidence of insurance purchased shall subject the carrier to full liability for any claims to recover for loss or damage attributed to the carrier.

(b) Any carrier offering or selling or procuring insurance as provided in (a) shall provide in its tariff for the provision of such service. The tariff shall also provide for the base transportation charge to include assumption by the carrier for full liability for the value of the shipment in the event a policy or other appropriate evidence of the insurance purchased by the shipper is not issued to the shipper at the time of purchase.

§ 1056.12 Liability of carriers.

(a) *Liability restricted.* Except as provided in § 1056.11(a), common carriers by motor vehicle of household goods as defined in 49 CFR 1056.1(b)(1) shall not assume any liability in excess of that for which they are legally liable under their lawful bills of lading and published tariffs.

(b) *Limitations of liability.* A common carrier by motor vehicle of household goods shall be liable for loss of or damage to any articles caused by it while being transported or while being held for storage-in-transit, including incidental pickup or delivery, and including liability for loss or damage to any article or appliance resulting from the servicing of such article or appliance by a third person engaged by the carrier to perform such service, to the extent provided in the outstanding released rates order; except that the carrier may exempt its liability in the following instance:

(1) No liability need be assumed for perishable articles included in the shipment without the knowledge of the carrier; and a carrier accepting for shipment perishable articles may impose reasonable conditions necessary to insure the safe transportation of such commodities.

(c) *Storage-in-transit.* A common carrier by motor vehicle of household goods holding goods for storage-in-transit (S.I.T.) shall, no less than 10 days prior to the expiration of either the specified period of time during which the goods are to be held in such storage or the maximum period of time provided in the carrier's tariff for storage-in-transit, notify the shipper in writing (1) of the date of conversion to permanent storage, (2) of the existence of a nine-month period subsequent to the date of conversion to permanent storage during which shipper may file claims against the carrier for loss and/or damage which occurred to the goods in transit or during the S.I.T. period, and, (3) of the fact that on the date of conversion, the liability of the carrier shall terminate and the property shall be subject to the rules, regulations, and charges of the warehouseman. Notification shall be by certified mail, return receipt requested. A common carrier by motor vehicle of household goods holding goods for storage-in-transit for a period of time less than 10 days shall, no less than one day prior to the expiration of the specified time during which the goods are to be held in such storage, give

notification to the shipper of the information specified in paragraph (d) (1), (2), and (3) and maintain a record thereof as part of its record of the shipment. Failure or refusal of a carrier to notify the shipper in accordance with the foregoing shall automatically effect a continuance of carrier liability pursuant to the applicable tariff provisions with respect to S.I.T., until the end of the day following the date upon which notice is given.

§ 1056.13 Complaint and inquiry handling.

(a) Motor common carriers engaged in the transportation of household goods as defined in 49 CFR 1056.1(a) shall establish and maintain a procedure for responding to complaints and inquiries from shippers for which such transportation is provided. The procedure shall include a means whereby shippers may communicate with the principal office of the carrier by telephone.

(b) The carrier shall retain and make part of the file relating to a shipment a written record of all complaints and inquiries received from a shipper by any means of communication.

§ 1056.14 Agency agreements.

(a) Household Goods Agents are defined as follows:

(1) Prime agents are defined as all agents who are permitted or required under the terms of any agreement or arrangement with a principal carrier to provide any transportation service for or on behalf of the principal carrier, including the selling of or arranging for any transportation service, and who perform such services on other than an emergency or temporary basis.

(2) Military agents are defined as all agents who are permitted or required under the terms of any agreement or arrangement with a principal carrier to provide origin and/or destination services only on shipments transported on Government bills of lading issued by the Department of Defense, and who perform such services on other than an emergency or temporary basis.

(3) Temporary agents are defined as all agents who are permitted or required under the terms of any agreement or arrangement with a principal carrier to provide origin and/or destination services on behalf of the principal carrier, excluding the selling of or arranging for any transportation service, and who perform such services on an emergency or temporary basis.

(b) Agreements between principal carriers and their prime or military agents must be reduced to writing and signed by the principal and the retained agent, and copies of any such agreements must be retained in the files of the principal carrier for a period of not less than 24 months following the date of termination of each agreement.

§ 1056.15 Collection of freight charges on household goods shipments involving loss or destruction in transit.

(a) No motor common carrier of household goods in interstate or foreign commerce shall collect, or shall require a shipper thereof to pay, any published freight charges (including any charges for accessorial or terminal services) when that shipment is totally lost or destroyed in transit. The provisions of this subsection shall apply only to the transportation of household goods as defined in § 1056.1(b)(1) of these rules. Notwithstanding any other provisions of this subsection, a carrier shall collect, and the shipper shall be required to pay, any specific valuation charge that may be due. This subsection shall not be applicable to the extent that any such loss or destruction is due to the act or omission of the shipper.

(b) In the event that any portion, but less than all, of a shipment of household goods is lost or destroyed in transit, no motor common carrier of household goods in interstate or foreign commerce shall collect, or shall require a shipper to pay, at the time of delivery, that proportion of its published freight charges (including any charges for accessorial or terminal services) corresponding to that portion of the shipment which is lost or destroyed in transit. In order to calculate the charges applicable to the shipment as delivered, the carrier shall multiply the percentage corresponding to the portion of the shipment delivered by the total charges (including accessorial and terminal charges) applicable to the shipment as tendered by the shipper. If the charges computed in the manner set forth above exceed the charges otherwise applicable to the shipment as delivered, the lesser of those charges shall apply. The provisions of this subsection shall apply only to the transportation of household goods as defined in § 1056.1(b)(1) of these rules. Notwithstanding any other provisions of this subsection, a carrier shall collect, and the shipper shall be required to pay, that proportion of any accessorial or terminal services rendered which corresponds to the proportion of the shipment not lost or destroyed in transit and any specific valuation charge that may be due. The provisions of this subsection shall not be applicable to the extent that any such loss or destruction is due to the act or omission of the shipper. Carriers shall determine, at their own expense, the proportion of the shipment not lost or destroyed in transit.

(c) The rights provided by this section are in addition to, and not in lieu of, any other rights which the shipper may have with respect to a shipment of household goods which is lost or destroyed, or partially lost or destroyed, in transit, whether or not that shipper has exercised the rights provided in paragraphs (a) and (b) of this section.

§ 1056.16 Collection of freight charges on shipments transported on more than one vehicle.

(a) Whenever a collect on delivery shipment of household goods, as defined in 49 CFR 1056.1(b)(1), is transported on more than one vehicle the carrier delivering such split or divided shipment shall observe the requirements of subparagraphs (1), (2) or (3) of this section in the collection of the charges.

(1) At the option of the carrier, the collection of the charges attributable to the transportation of the portion of the shipment transported on each vehicle may be deferred until all portions of the shipment are delivered; or,

(2) Providing that the charges for the entire shipment have been determined, the carrier may collect at the time of delivery of any portion of the shipment that percentage of the charges represented by the portion of the shipment tendered for delivery; or,

(3) In the event that the charges due the carrier for the transportation of the entire shipment cannot reasonably be determined at the time any portion of the shipment is tendered for delivery, the carrier shall determine and collect the charges for the portion of the shipment being delivered. The total charges assessed by the carrier for the transportation of the separate portions of the shipment shall not exceed the charges due for the entire shipment.

(b) In the event of the loss or destruction of any part of a shipment being transported on more than one vehicle, the collection of charges as provided in paragraph (a) of this section shall also be in conformity with the requirements of 49 CFR 1056.15.

§ 1056.17 Advertising by motor common carriers of household goods.

(a) Every motor common carrier engaged in the transportation of household goods in interstate or foreign commerce, including any carriers providing any accessorial service incidental to or part of such interstate or foreign transportation, shall include, and shall require each of its agents to include, in every advertisement as defined in § 1056.1(b)(3), the name or

trade name of the motor carrier under whose operating authority the advertised service will originate, and the certificate or docket number assigned to such operating authority by the Interstate Commerce Commission.

(b) Such certificate or docket number shall be in the following form in every advertisement: "I.C.C. No.———" but shall not include any sub numbers which may have been assigned.

(c) No motor common carrier engaged in the transportation of household goods, as defined in 49 CFR 1056.1(b)(1), or any agent or other representative of such a carrier, shall publish or cause to be published or use any advertisement as defined in § 1056.1(b)(3), which is false, misleading or deceptive.

§ 1056.18 Preparation and filing of annual performance report.

(a) Minimum Filing Requirement.—Each motor common carrier for household goods as defined in 49 CFR 1056.1(b)(1), which delivers 100 or more interstate shipments to individual shippers as defined in 49 CFR 1056.1(b)(5), during any calendar year shall, on or before March 31 of the following year, cause to be filed with the Office of Consumer Protection, Interstate Commerce Commission, Washington, D.C. 20423, a report of the service performed during the report year. The report shall be submitted on Form OCP–101.

(b) Prescribed Annual Performance Report Form

INTERSTATE COMMERCE COMMISSION

Office of Consumer Protection

Annual Performance Report for Year Ended December 31, 19—

Carrier's Name———
Carrier's Address———
ICC Number———

PART A

During the year the total number of shipments delivered for each type of shipper was:

1. Individual shipper ——
2. Government Bill of Lading shipper ——
3. Commercial shipper ——

PART B

With reference to shipments delivered for individual shippers as defined in 49 CFR 1056.1(b)(5):

1. The number of shipments delivered upon payment of the amount of a binding estimate (49 CFR 1056.3(a)) ——

PART B

2. Percent of the shipments on which a non-binding estimate was furnished for which the final charges for the services included in the estimate did not exceed the amount of the estimate ——
3. Percent of shipments delivered which were picked up on or before the last date for pickup specified in the order for service/bill of lading ——
4. Percent of shipments delivered which were delivered on or before the last date for delivery as specified in the bill of lading contract ——
5. Percent of shipments delivered which did not result in the filing of a claim by the shipper within 60 days following the date of delivery for property loss or damage in excess of $100 ——
6. Percent of shipments delivered which did not result in the filing of a claim in excess of $100 by the shipper within 60 days following the date of delivery for damages and expenses arising out of the delayed pickup or delivery of the shipment ——
7. The average number of days between the date of filing of a claim for property loss or damage or delay in excess of $100 and the date of final settlement of such a claim ——
8. The percent of all claims for amounts in excess of $100 filed for property loss or damage or for damages or expenses incurred as result of delayed pickup or delivery ——
   a. Which were resolved through the use of a dispute settlement (arbitration) program maintained or participated in by the carrier ——
   b. Which were not referred to a dispute settlement program and which were concluded after the carrier received legal notice of suit by claimant to recover ——

(c) Instructions for Preparation of Annual Performance Report, Form OCP–101

INSTRUCTIONS FOR PREPARATION

PART A

1. Enter the total number of shipments delivered which were transported for individual shippers.

2. Enter the total number of shipments delivered on Government Bills of Lading. Do not include shipments transported for a freight forwarder.

3. Enter the total of all other shipments transported for commerical shippers as defined in 49 CFR 1056.1(b)(5). Include shipments transported for freight forwarders in this total.

PART B

1. Enter the number of shipments delivered on which a binding estimate was furnished on which the final charges were the same as the binding estimate.

2. Enter the percent of the shipments on which a non-binding estimate of costs was furnished which were delivered upon payment of an amount not exceeding the non-binding estimate.

3. Enter the percent of the shipments entered under Part A item 1 which were picked up on or before the last dated for pickup as specified in the order for service. *Include in the computation of the percent all shipments picked up last, regardless of the reason or the party responsible for the delay.*

4. Enter the percent of all shipments entered under Part A item 1 which were delivered on or before the last date for delivered as specified in the bill of lading. *Include in the computation of the percent all shipments delivered late regardless of the reason or the party responsible for the delay.*

5. Enter the percent of the shipments entered under Part A item 1 which did not result in the filing of a claim by the shipper within 60 days following the date of delivery for property loss or damage in excess of $100. For the purposes of this report, a "claim filed" shall be considered as any claim otherwise meeting the minimum requirements of 49 CFR 1005.2(b) and for an apparent loss in excess of $100.

6. Enter the percent of shipments entered under Part A item 1 which did not result in the filing of a claim by the shipper within 60 days following the date of delivery for damages or expenses in excess of $100 incurred as a result of the delayed pickup and/or delivery of the shipment. For the purposes of this report, a "claim filed" shall be considered as any claim otherwise meeting the minimum requirements of 49 CFR 1005.2(b) and for apparent damages or expenses in excess of $100.

7. Enter the average number of days required to reach a final settlement of all claims for $100 or more relating to the transportation of shipments entered under Part A item 1 arising out of property loss or damage or the delayed pickup and/or delivery of shipments during the report year. For the purpose of this report a claim shall be considered to be a "claim filed" if it meets the criteria set forth in (5) and (6) and shall be considered as being finally settled on the 60th day following the date on which a written offer of settlement is mailed or delivered in person to a claimant unless the offer of settlement is accepted prior to the 60th day or on the 60th day following the date on which a written denial of liability is mailed or delivered in person to the claimant unless the claimant assents to the denial prior to the 60th day.

8a. Enter the percent of the loss and damage or delay claim for $100 or more arising out of the transportation of shipments entered under Part A item 1 which were settled during the report year through the use of a dispute resolution or arbitration

procedure maintained or participated in by the carrier.

8b. Enter the percent of loss and damage or delay claims for $100 or more arising out of the transportation of shipments entered under Part A item 1 which were settled during the year on a date subsequent to the date of which legal notice of suit to recover was received by the carrier.

GENERAL INSTRUCTIONS

1. Data for completion of Form OCP-101 may be obtained by random sampling providing that in every instance the universe sampled is all shipments delivered for individual shippers during the report year or all claims arising out of the transportation of individual shipper shipments which were received or settled, as appropriate, during the report year.

2. When random sampling is used, the minimum sample size in every instance shall be 400 shipments or claims, as appropriate, in replicates of 100 shipments or claims each. All samples must conform to standard deviation with a 95% confidence level.

3. Carriers submitting Form OCP-101 shall retain and make available for review by an authorized Commission employee all working papers, notes and other files relating to the preparation of each report for a period of not less than 24 months following the date of filing such a report.

§ 1056.19 Use of charge card plans.

Motor common carriers of household goods, as defined in 49 CFR 1056(b)(1), may provide in their tariffs for the acceptance of charge cards for the payment of freight charges whenever shipments are transported under agreements and tariffs requiring payment by cash, certified check or money order. Payment by charge card shall be considered the same as payment by cash, certified check or money order. Any tariff rule or item permitting the acceptance of charge cards shall identify the charge card plans participated in by the carrier.

PART 1322—EXTENSION OF CREDIT TO SHIPPERS BY MOTOR CARRIERS

Section 1322.6 is revised to read:

§ 1322.6 Charge card plans not included (under credit regulations).

The provisions of this Part shall not apply to the payment of interstate transportation charges by use of charge cards as provided in 49 CFR 1059.19 and when the shipper of household goods does not force an involuntary extension of credit by the carrier by causing the charge card issuer to reverse the charge transaction and charge payments back to the carrier's account.

PART 1003—LIST OF FORMS

§1003.1 Motor carrier and broker forms.

In§ 1003.1, *Quarterly Report of Underestimates and Overestimates* and Form BOp-103, *Summary of Information For Shippers of Household Goods* are removed. Forms Publication OCP-100, *Your Rights and Responsibilities When You Move* and Form OCP-101, *Annual Performance Report* are added.

PART 1005—PRINCIPLES AND PRACTICES FOR THE INVESTIGATION AND VOLUNTARY DISPOSITION OF LOSS AND DAMAGES CLAIMS AND PROCESSING SALVAGE

49 CFR 1005.1 is amended by removing that portion of the section following the words *Interstate Commerce Act* and by removing the semi-colon following *Act* and inserting instead a period. As amended, the section will read:

§ 1005.1 Applicability of regulations.

The regulations set forth in this part shall govern the processing of claims for loss, damage, injury, or delay to property transported or accepted for transportation, in interstate or foreign commerce, by each railroad, express company, motor carrier, water carrier, and freight forwarder (hereinafter called carrier), subject to the Interstate Commerce Act.

49 CFR 1005.5 is amended by redesignating the present paragraph under that section as paragraph (a) and adding paragraph (b) to read:

§ 1005. Disposition of claims.

* * * * *

(b) When settling a claim for loss or damage, a common carrier by motor vehicle of household goods as defined in 49 CFR 1056.1(b)(1) shall use the replacement costs of the lost or damaged item as a base to apply a depreciation factor to arrive at the current actual value of the lost or damaged item: *Provided,* That where an item cannot be replaced or no suitable replacement is obtainable, the proper measure of damages shall be the original costs, augmented by a factor derived from a consumer price index, and adjusted downward by a factor depreciation over average useful life.

PART 1310—FREIGHT RATE TARIFFS AND CLASSIFICATIONS OF MOTOR COMMON CARRIERS

49 CFR 1310.15 is amended by adding additional material at the end of paragraph (a)(3). This sub-paragraph has been modified to conform to the decision in Ex Parte No. MC-19 (Sub-No. 34), *Household Goods Transportation (Storage-In-Transit Charges).*

§ 1310.15 Terminal and other services—charges and allowances (Rule 15).

(a) * * *

(3)* * * Tariffs containing line-haul rates for the transportation of household goods shall not provide for the inclusion in the line-haul rates of any accessorial services normally associated with or required in the transportation of household goods. Tariffs establishing such accessorial charges shall separately state each such service to be rendered and the charge therefor. The separate tariff charges so established for containers, for packing and for unpacking are to be stated in amounts per container. Charges for other services shall be separately stated on a unit or hourly basis, whichever is appropriate. Charges for storage-in-transit shall be stated in an amount per 100 pounds per day or fraction thereof. Tariffs may state an hourly labor charge applicable to miscellaneous labor service performed at the request of a shipper in connection with the transportation, when a rate is not separately stated for the service so requested. Except as otherwise provided by orders of the Commission tariffs containing rates for the line-haul transportation of household goods or changes for accessorial services incidental to the transportation of household goods shall not provide for the providing of such transportation or services "free" or "without charge" unless such terms are published to apply on transportation which is authorized to be performed free by the Interstate Commerce Act.

BILLING CODE 7035-01-M

INTERSTATE COMMERCE COMMISSION

49 CFR Part 1056

[Ex Parte No. MC-19 (Sub-No. 36A)]

Practices of Motor Common Carriers of Household Goods (Performance Standards)

AGENCY: Interstate Commerce Commission.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Commission intends to establish appropriate performance standards with regard to certain of the new operational regulations applicable to motor common carriers of household goods in 49 CFR 1056 and other regulatory provisions, in conformity with the Household Goods Transportation Act of 1980. The proposed performance standards would establish minimum acceptable levels of performance for such carriers in the critical areas of accuracy of estimating moving charges, transportation of shipments with reasonable dispatch, and timely handling of claims for loss, damage or delay, as a means of encouraging an improved level of performance in the moving industry. The Commission has determined that these areas are ones in which individual consumers may suffer substantial harm in the absence of adequate performance by carriers. The proposed performance standards may form the basis for enforcement action by this Commission for protection of the public, where that is deemed necessary. The Commission also intends to approve the use of random sampling as a means to verify compliance with the standards proposed.

DATE: Comments must be filed on or before April 10, 1981.

ADDRESS: An original and 15 copies if possible, of comments should be sent to: Ex Parte No. MC–19 (Sub-No. 36A), Room 7205, Office of Consumer Protection, Interstate Commerce Commission, Washington, D.C. 20423.

FOR FURTHER INFORMATION CONTACT: Richard Lewis, (202) 275–7611, or W. F. Sibbald, (202) 275–7148.

SUPPLEMENTARY INFORMATION: In our Notice of Proposed Rulemaking in this proceeding issued on October 16, 1980, and published on October 27, 1980 at 45 FR 70223, we solicited the comments of all interested persons regarding the adoption of proposed new regulations to be included in 49 CFR 1056, to govern the movement of household goods by motor common carriers. At the same time, the Commission indicated its intent that performance standards be developed, wherever appropriate, to apply to those regulations. The Commission solicited the comments and recommendations of interested persons with respect: (1) to identifying those regulations to which performance standards should be applied; (2) to establishing the guidelines or basis for such standards; and, (3) to determining the most effective application of the standards once established.

We requested further that, in commenting on the development and implementation of performance standards, all parties take into account and provide comments regarding six criteria. Section 6(a)(1) of the Household Goods Transportation Act of 1980 [49 U.S.C. 11110], sets forth those criteria and requires the Commission to take them into account in establishing reasonable performance standards for the transportation of household goods. They are:

(A) The level of performance that can be achieved by a well-managed motor common carrier transporting household goods;

(B) The degree of harm to individual shippers which could result from a violation of the regulation;

(C) The need to set the level of performance at a level sufficient to deter abuses which result in harm to consumers and violations of regulations;

(D) Service requirements of the carriers;

(E) The cost of compliance in relation to the consumer benefits to be achieved from such compliance; and,

(F) The need to set the level of performance at a level designed to encourage carriers to offer service responsive to shippers needs.

The Commission received limited response to its request for comments regarding performance standards. Comments were received from several consumer groups, industry groups, and Federal agencies, including the Transportation Consumer Action Project, Consumers Union of the United States, the American Movers Conference, Barrett Moving and Storage Company, the U.S. Office of Consumer Affairs, the U.S. Department of Transportation, and the Commission's Office of Special Counsel.

The Commission anticipates that all motor carriers of household goods will attempt to attain full operational compliance with all the provisions of 49 CFR Part 1056 and related sections being adopted. Even in the absence of specific performance standards for all provisions, we expect that carriers will make every effort to achieve full compliance with those rules. We nevertheless recognize that the Household Goods Act of 1980 requires establishing standards in some areas of household goods transportation in order to invoke the Commission's authority to take certain administrative actions. The three areas where we believe such standards are needed are those involving: (1) ensuring the accuracy of non-binding estimates of charges provided to the public by motor carriers of household goods [§ 1056.3]; (2) ensuring that shipments of household goods accepted for movement by the carriers are transported with reasonable dispatch [§ 1056.8]; and, (3) ensuring that motor carriers of household goods observe the requirements for timeliness in handling and disposing of claims for loss, damage, or delay of household goods transported [49 CFR Part 1005].

The principal considerations which the Commission has taken into account in putting forward these proposed performance standards for public comment are as follows:

Estimating

The Commission proposes to establish a performance standard holding carriers to a performance level in which at least 90 percent of non-binding estimates are for amounts not less than 90 percent of total charges. This proposed standard is based upon a review of the Household Goods Carriers Performance Reports filed with the Commission for the years 1974 through 1979, which show that the nation's largest movers of household goods underestimated an average of 23.9 percent of shipments on which estimates were provided, with a resulting average accuracy level of 76.1 percent. The

carriers are now permitted to provide binding estimates and to use more flexible and innovative estimating procedures. They should now be able and motivated to provide a higher level of accuracy with non-binding estimates. This required level of performance should be within the abilities of a well managed carrier and deter the estimating abuses which occurred in the past. While increasing the accuracy of estimates given to individual shippers, the proposed standard should not significantly interfere with carriers' service requirements or impose substantial additional costs of compliance. Based on actual industry averages these standards should also encourage carriers to offer service responsive to shipper needs, either by providing more accurate non-binding estimates or by offering binding estimates.

Proposed § 1056.18(a):

Estimating.—Motor common carriers providing non-binding estimates to shippers under 49 CFR 1056.3(b) shall cause such estimates to be prepared in a manner which will ensure that, on a calendar year basis, not less than 90 percent of such estimates are for amounts equivalent to not less than 90 percent of the total final charges found to be due and payable for such transportation and other services, including valuation protection charges, and any lawful surcharges included in the non-binding estimates.

Reasonable Dispatch

It is proposed that carriers be held to a performance standard under which at least 95 percent of shipment pickups and no less than 90 percent of shipment deliveries must take place on the agreed-upon dates or within the agreed-upon periods of time. Comments submitted by the consumer representatives identify untimely pickup and delivery as practices causing consumers great harm and inconvenience. Our own review of the Household Goods Carriers Performance Reports for 1974–1979 with regard to the major moving companies shows that on-time pickups occurred on an average 95.0 percent of shipments and that on-time deliveries were reported in 85.1 percent of shipments. In consideration of increased operational flexibility provided carriers by the new regulatory framework the standards proposed reflect a level of performance which can be achieved by well-managed carriers. We believe that the benefits of these standards are sufficient to outweigh any increased cost of compliance. The proposed performance standard should also encourage carriers to provide service more responsive to shipper needs.

Proposed Section 1056.18(b):

Reasonable Dispatch.—Excluding shipments transported under tariff provisions requiring guaranteed service performance, not less than 95 percent of all shipments must be picked up and not less than 90 percent of shipments must be delivered on the dates or within the periods of time agreed to by a carrier and set forth in the order for service and/or bill of lading relating to a shipment.

Handling of claims for loss, damage or delay

The Commission proposes performance standards requiring that carriers acknowledge not less than 95 percent of all claims for loss damage, or delay of household goods shipments within 30 days of receipt, and that the carriers must pay, decline, or make a firm compromise settlement offer with respect to 90 percent of such claims within 60 days and with respect to 95 percent of such claims within 120 days of receipt.

Acknowledgment of claims by the carriers is the first step for fair handling of consumer claims and assures the public that the industry intends to abide by its service obligations. All further steps in the claims process are based upon acknowledgment of receipt of the claim. We are aware that in the past some carriers have not acted promptly in acknowledging claims. For that reason, the Commission is proposing this performance standard as a means to insure that the carriers abide by their notice obligation.

The proposed performance standards for settlement and disposition of claims within 60 and 120 days, respectively, are based upon the Commission's experience with claim complaints and data in the Household Goods Carriers Performance Reports filed with the Commission for the years 1976–1979. These reports show that the nation's largest movers were able to settle an average of 84 percent of the loss and damage claims within 60 days after filing. The Commission believes that the proposed standards are within the means of well-managed carriers. Additionally, we believe that the proposed performance levels are necessary to prevent monetary losses and mental anguish to individual shippers.

The carriers' strict compliance with the acknowledgment and settlement standards should reduce the cost of claims handling by significantly shortening the period of time and reducing the amounts of resources devoted to claims handling. In any event, the consumer benefits to be derived far outweigh any additional costs of compliance.

The performance standards here proposed for application under 49 CFR 1005 will be applicable only to household goods claims for loss, damage or delay.

Proposed § 1056.18(c):

Handling of Claims For Loss, Damage or Delay.—Not less than 95 percent of all claims for loss, damage, or delay of household good shipments filed by individual shippers shall be acknowledged within 30 days of receipt by a carrier, as provided in 49 CFR 1005.2(a), unless paid or declined within that time. A motor carrier who receives a written claim for loss, damage, or delay of household good shipments shall, pursuant to 49 CFR 1005.5, pay, decline, or make a firm compromise settlement offer to a claimant within 60 days of receipt with respect to 90 percent of claims filed and within 120 days of receipt with respect to 95 percent of all such claims.

Additional Comments

The Commission has given consideration to comments received recommending performance standards with respect to other regulatory areas. We do not believe that any additional performance standards are necessary. Should we determine that additional performance standards are necessary, we will not hesitate to propose them.

Method for Ascertaining Compliance with Standards

The Commission will use the random sampling procedures described in the General Instructions for the preparation of Form OCP–101 to review carrier compliance.

Regulatory Flexibility: Certificate of No Significant Adverse Impact

Section 603 of the Regulatory Flexibility Act [5 U.S.C. 603] requires that the Commission examine the impact of proposed rules on small businesses and small organizations.

Although the proposed standards are generally somewhat higher than the existing practices in the industry, increased flexibility under the Household goods Transportation Act of 1980 should facilitate compliance with

these requirements. No significant adverse economic impact on small businesses or organizations is anticipated. It should be noted that carriers handling less than 100 shipments a year will not be required to file annual performance reports. We do, however, invite comments on this issue.

It does not appear that this proposal will significantly affect the quality of the human environment or conservation of energy resources.

This Notice of Proposed Rulemaking is issued under the authority of 49 U.S.C. 10321, 11109, 11110, and 5 U.S.C. 553.

Decided: February 27, 1981.

By the Commission, Acting Chairman Alexis, Commissioners Gresham, Clapp, Trantum, and Gilliam.

Agatha L. Mergenovich,

Secretary.

Part III

Nuclear Regulatory Commission

Biomedical Waste Disposal

NUCLEAR REGULATORY COMMISSION

10 CFR Part 20

Biomedical Waste Disposal

AGENCY: Nuclear Regulatory Commission.

ACTION: Final rule.

SUMMARY: The NRC is amending its regulations to permit licensees greater leeway in disposing of liquid scintillation media and animal carcasses containing tracer levels of hydrogen-3 (tritium) or carbon-14. These rule changes will primarily affect NRC licensed hospitals and medical research institutions. Most licensees presently dispose of these items by sending them to a radioactive waste burial ground or by obtaining special authorization from NRC for incineration or onsite burial. Under the new regulations, the licensee may dispose of specified concentrations of these materials without regard to their radioactivity. The NRC is also amending its regulations to raise the annual limits for disposal of hydrogen-3 and carbon-14 by release to the sanitary sewerage systems. The rule changes will conserve waste burial capacity that is already in short supply.

EFFECTIVE DATE: March 11, 1981.

ADDRESSES: Copies of the value/impact analysis and the analysis of comments received may be examined at the Commission's Public Document Room at 1717 H Street NW., Washington, D.C. Single copies of the value/impact analysis are available from John R. Cook, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555 (Telephone: 301–427–4240).

FOR FURTHER INFORMATION CONTACT: John R. Cook, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555 (Telephone: 301–427–4240).

SUPPLEMENTARY INFORMATION:

Background

Radionuclide tracers are used extensively in biomedical research and for the diagnosis of diseases in humans. One of the end products of these research and medical activities is radioactive wastes. These wastes are usually shipped to radioactive waste burial grounds although certain water soluble or dispersible wastes are released into sanitary sewerage systems. Two of the most commonly used radionuclides in biomedical research (and to a lesser extent in medical procedures) are hydrogen-3 and carbon-14. The concentrations of these radionuclides in biomedical waste are minute, generally less than 0.05 microcuries per gram.

Liquid scintillation media and animal carcasses, both containing tracer quantities of hydrogen-3 or carbon-14, constitute the largest volume of radioactive biomedical waste.

Liquid scintillation counting has become a widespread technique for detecting radioactivity in biological samples such as blood or urine. Typically, a fraction of a milliliter of the biological sample containing tracer levels of hydrogen-3 or carbon-14 is combined with 20 milliliters or less of an organic solvent, primarily toluene, in a small vial to make a liquid scintillation medium. The vial is placed in a liquid scintillation counter, and the biological sample is assayed. The vials are used once and then collected for shipment to a radioactive waste burial ground.

Research laboratories and hospitals throughout the country presently use between 84 and 159 million vials per year, which represents between 200,000 and 400,000 gallons of liquid scintillation media. Disposal of this waste in radioactive waste burial grounds requires approximately 400,000 cubic feet of space at a cost of over $13 million per year for packing materials, transport, and disposal (this does not include the cost of licensee labor or overhead). Liquid scintillation media are approximately 43% of the total volume of radioactive waste shipped to burial grounds that is not related to industrial applications or nuclear power generation and its supporting fuel cycle.

Animals are used in research mainly for the development and testing of new drugs. Virtually every chemical compound that is considered for use as a human or veterinary drug is first tagged with a hydrogen-3 or carbon-14 tracer and injected into research animals to study how the chemical compound behaves. These research animals include mice, rats, dogs, monkeys, swine, and sheep. The animal carcasses containing tracer quantities of hydrogen-3 and carbon-14 are usually shipped to radioactive waste burial grounds. Animal carcasses annually require about 80 thousand cubic feet of burial space at a cost of almost $3 million per year. Animal carcasses are approximately 9% of the total volume of radioactive waste shipped to burial grounds that is not related to industrial applications or nuclear power generation and its supporting fuel cycle.

There are other hydrogen-3 and carbon-14 waste streams in the research laboratory that do not result in liquid scintillation vials and animal carcasses: for example, the solutions and attendant material used to prepare the research samples. These materials also contain tracer levels of hydrogen-3 and carbon-14.

Under present NRC regulations, hydrogen-3 and carbon-14 wastes that are readily soluble or dispersible in water can be disposed of by release to the sanitary sewerage systems. The annual limit for release to the sanitary sewerage systems is found in 10 CFR 20.303 and is limited to a total of 1 curie for all radionuclides per year for each licensee. Several associations of academic institutions have together asked the Radiation Policy Council to suggest that NRC raise this limit to 5 curies per year for hydrogen-3, 1 curie per year for carbon-14, and 1 curie per year for all other radionuclides. This rule amends the regulations accordingly. This change will result in a negligible addition to the level of these radionuclides already present in the natural environment.

There are alternatives for disposal of liquid scintillation media and animal carcasses containing hydrogen-3 and carbon-14 other than consignment to a radioactive waste burial ground. Liquid scintillation media can be evaporated, distilled, burned, or buried on a licensee's site if an appropriate location is available. Animal carcasses can be incinerated in a pathogen incinerator. Currently, one of these alternatives to radioactive waste burial are readily available. Generally, liquid scintillation media and animal carcasses with *any* added hydrogen-3 or carbon-14 are being handled as radioactive waste and consigned to a radioactive waste burial ground under NRC's regulations (10 CFR 30.41 and 20.301) and similar Agreement State regulations.

The state agencies that control the existing radioactive waste burial gounds do not want to accept liquid scintillation media or animal carcasses. Liquid scintillation media are flammable and are suspected of leaching other radioactive chemicals out of the burial trenches. Also, some of the shipping containers arrive at the burial grounds leaking. Liquid scintillation media are chemically toxic and are suspected of being carcinogenic and thus pose a waste hazard unrelated to their radioactive character. Animal carcasses decompose and can be a pathogen hazard. Sometimes the animal carcasses will cause their containers to burst during shipment. The voids formed in the burial trenches by the decaying animal carcasses are also believed to contribute to migration of chemicals by

increasing rain water percolation in the trenches.

The three operating commercial radioactive waste burial grounds in the U.S. are located in Barnwell, South Carolina; Beatty, Nevada; and Richland, Washington. The Richland, Washington and Beatty, Nevada sites accept both liquid scintillation media and animal carcasses. However, after December 1984, the Richland, Washington site will not accept liquid scintillation media. The Barnwell, South Carolina site does not accept liquid scintillation media but does accept animal carcasses. At all three sites, the state regulatory bodies are attempting to reduce the volume of incoming waste to prolong site use.

During a temporary state-imposed embargo in mid-1979, some hospitals and research institutions across the country apparently came within days of curtailing operations involving liquid scintillation counting and animal research before the radioactive waste burial gounds in Richland, Washington and Beatty, Nevada resumed accepting liquid scintillation vials and animal carcasses.

The Rule

This final rulemaking will allow NRC licensees to dispose of liquid scintillation media and animal carcasses containing less than 0.05 microcuries of hydrogen-3 or carbon-14 per gram without regard to their radioactivity. This regulation will not relieve licensees from complying with other applicable regulations of federal, state, and local government agencies regarding the disposal of non-radioactive materials. Scintillation media are toxic and flammable, and animal carcasses are sometimes pathogenic. These characteristics, which are a more important public health problem than their radioactivity, may require them to be disposed of under applicable federal, state, and local laws governing chemical and biological hazards. This rulemaking will also allow licensees to dispose by release to sanitary sewerage systems of up to 5 curies of hydrogen-3 and 1 curie of carbon-14 per year, in addition to the presently allowed 1 curie per year for all radionuclides. Neither the rulemaking allowing disposal of liquid scintillation media and animal carcasses without regard to their radioactivity nor that raising the limit for disposal of hydrogen-3 and carbon-14 to sanitary sewerage systems, authorizes disposal of liquid scintillation media (e.g., toluene) into the sanitary sewerage systems.

The rule will essentially remove any NRC restrictions on the disposal of liquid scintillation media and animal carcasses. It will no longer be necessary for NRC licensees to ship these materials, which could pose a chemical and biological hazard, up to thousands of miles across the country for disposal in a radioactive waste burial ground. NRC Agreement States could make similar amendments to their regulations in order to extend the benefit of this action to their licensees.

The value/impact analysis prepared by the NRC staff to support the rule concludes that this rule change is the best solution to the problem of disposal of liquid scintillation media and animal carcasses containing tracer amounts of hydrogen-3 and carbon-14. If also adopted by the Agreement States, this action would save hospitals and research institutions in excess of $13 million annually ($16 million for the cost of packaging materials, transportation, and disposal, minus the $3 million estimated for non-radioactive waste disposal). Also, it will save almost one-half million cubic feet of radioactive waste burial capacity annually, or half of that used for radioactive waste not related to industrial applications or nuclear power generation and its supporting fuel cycle.

The value/impact analysis indicates that the action is non-substantive and insignificant from the standpoint of environmental impact. The amount of hydrogen-3 and carbon-14 that might be released to the environment each year as a result of the rule change pertaining to scintillation media and animal carcasses is small (28 curies and 6 curies respectively), particularly when compared to the steady state environmental inventory of 28 million curies of hydrogen-3 and 280 million curies of carbon-14. Calculations employing conservative assumptions indicate that if radiation exposure occurs as a result of the rule change, the maximum dose to exposed individuals is likely to be less than 1 millirem per year.

The value/impact analysis shows that highest estimated collective dose results from the assumed incineration of all 6 curies of carbon-14 contained in liquid scintillation media and animal carcasses. We calculate this release will result in a total of about 0.4 health effect during the next 1,000 generations. The average lifetime dose per person would be about 0.000001 millirem (this is a fraction of a percent of the dose and health effects attributable to natural background radiation). If incineration were to continue for the next 50 years, the average lifetime dose would be about 0.00005 millirem (for perspective, the average dose per person from a coast-to-coast airline flight is about 2.5 millirem). Further, the doses resulting from incineration of hydrogen-3 or the release to the sanitary sewerage systems of hydrogen-3 and carbon-14 are calculated to be much less than the dose from incineration of carbon-14.

In summary, the amendments concerning the disposal of tracer levels of hydrogen-3 and carbon-14 in liquid scintillation media and animal carcasses are appropriate because: (a) the amendments will not pose an unreasonable risk to the common defense and security and to the health and safety of the public; (b) disposal of these wastes in radioactive waste burial grounds is expensive and without benefit commensurate with the expense; (c) the flammability of liquid scintillation media (organic solvents) and the decomposition of animal carcasses cause a significant problem in transporting these wastes to burial grounds; and (d) these wastes consume a significant portion of radioactive waste burial capacity which is in short supply.

Similarly, the amendment raising the limit for sanitary sewerage disposal of hydrogen-3 and carbon-14 is appropriate because it will not pose an unreasonable risk to the public. In addition, the shipment of this waste to radioactive waste burial grounds is costly and consumes valuable burial space that could be made available for more hazardous radioactive waste.

The Comments

This rule was published as a proposed rule in the Federal Register of October 8, 1980 (45 FR 67018). The final rule is essentially the same as the proposed rule except for minor editorial changes and an additional statement regarding the non-radioactive hazardous and toxic properties of the wastes. This additional statement was included at the request of the Environmental Protection Agency and is discussed below under the heading *Fate of Wastes*. The Federal Register notice on the proposed rule contained essentially the same background information provided above, and invited public comments for a 45 day period ending November 24, 1980.

NRC received 321 comments on the proposed rule from academic institutions, medical facilities, state governments, professional groups, private individuals and special interest groups. Two hundred seventy one commenters supported the rule, 44 opposed it and 7 commented without indicating support or opposition. The comments supporting the rule came primarily from institutions, professional

groups and individuals whose work would benefit from the rule and they cited those benefits both to their research and to society. The comments opposing the rule were split between individuals who were opposed to any release of radioactive material into the environment and individuals or special interest groups who were concerned about where this rule would lead, e.g., to a policy of dispersal of radioactive material as opposed to containment.

The comments addressed the following aspects of the proposed rule.

Need

Most of the 271 commenters who supported the rule stated their reasons. Their reasons are basically the same as those stated in the preamble to this rulemaking. The estimates of annual savings offered by the commenters if the proposed regulations went into effect ranged from $2,000–$250,000, depending on the size of the institution's biomedical program. Some of the organizations that supported the rule were the National Institutes of Health, the American Medical Association, the American College of Nuclear Physicians, the American College of Radiology, the American Hospital Association, the Joint Commission on Accreditation of Hospitals, the Society of Nuclear Medicine, the Endocrine Society, the American Council on Education, Scientists for Public Safety and the Intersociety Council for Biology and Medicine.

A few of the opposing comments questioned the need for the rulemaking. One of these commenters asked, "If there were no space problems, would the question of changing the regulations ever have arisen?"

The answer to this question is, yes, the regulations need changing even without the problem of space in the burial grounds because present regulations impose an economic and administrative burden on licensees that is not justified. As one commenter who favored the proposed rule observed:

"* * * My own experience is that the strict regulations now in effect have resulted in the holding of hundreds of dead carcasses until money becomes available for proper packaging of these materials for disposal. The result has been a significant reduction in research and a reluctance to undertake projects which involve low levels of radioactivity in animals. Thus, my experience indicates that present restrictions have inhibited research * * *"

There are additional reasons for the rule changes regarding safety at the burial grounds, transportation to the burial grounds and safety in the laboratory. The problems in shipping these wastes to the burial grounds and the problems that these wastes cause in the burial trenches are discussed above under *Background*. Regarding safety in the laboratory, one commenter favoring the regulation observed:

"I believe the effort expended in meeting previous regulations has been more damaging to the health of my laboratory personnel than the small amount of radiation, i.e., difficulties of lung and skin exposure to toluene-based fluids (despite the use of hoods, gloves, etc.). I hope these hazards will decrease with these rules."

Scope

While one-third of the commenters supporting the rule urged NRC to expand the scope of the rule to include other hydrogen-3 and carbon-14 waste streams or to include other radionuclides in various waste streams, several of the commenters opposing the rule urged NRC to abandon the rule because it might lead to other rulemakings identifying further waste streams or radionuclides as candidates for disposal without regard to their radioactivity. These latter comments most often cited the need for a comprehensive environmental analysis covering all possible radionuclides and all possible waste streams as their reason for opposing this present rulemaking.

The Commission is aware of the merit of having one comprehensive rulemaking to include many or perhaps all of the possible radionuclides and waste streams. This type of comprehensive rulemaking and its associated generic environmental analysis of all of the benefits and risks is theoretically an optimum approach, but as a practical matter it is an unworkable approach. The practical approach is to examine the specific waste streams which contribute a large volume to the burial grounds as candidates for alternative regulatory approaches. The U.S. Radiation Policy Council at their September 25, 1980 public meeting discussed both the generic approach and the specific waste streams approach. At that meeting the Council:

"Adopted a Federal policy acknowledging that there are concentrations of specific radionuclides in specific waste streams which pose such small risks that control for radiation protection purposes is not necessary. In accordance with this policy requested that the NRC present to the (Council's) Working Group by November 18 an interim plan for identification and analysis of specific waste streams beginning with the C–14 and H–3 (tritium) medical waste streams for which early action is appropriate and develop a proposed regulatory framework for this activity."

Single copies of that interim plan, called for by the Council, are available from John R. Cook at the above address.

Fate of Wastes

Several commenters, both for and against the proposed rule, expressed concern about the fate of these biomedical wastes if the NRC allowed disposal without regard to their radioactivity. Most of these commenters were concerned that the liquid scintillation medium toluene, which is flammable and toxic, would be poured down the drain and into the sanitary sewerage systems. The Environmental Protection Agency (EPA), while supporting NRC's amendment covering liquid scintillation media and animal carcasses, recommended that the regulation itself include a clarifying statement that disposal of scintillation media and animal carcasses without regard to their radioactivity will not relieve licensees from complying with other applicable regulations of federal, state and local government agencies regarding chemical and biological hazards. This recommendation was echoed by two other commenters. Also, a group of sanitation workers expressed concern that they might face an increased occupational hazard from the radioactive wastes, which they believed might concentrate in certain sewerage system components.

The preambles to both the proposed rule and this final rule include a statement similar to that recommended by EPA and others. However, the Commission agrees with EPA and those commenters who would like to see such a clarifying statement in the regulation itself regarding the non-radioactive hazards of liquid scintillation media and animal carcasses. Therefore, a statement has been added to the final rule at 10 CFR 20.306(d) as follows:

"(d) Nothing in this section relieves the licensee from complying with other applicable federal, state, and local regulations governing any other toxic or hazardous property of these materials."

Finally, regarding the question of a radiation hazard to sanitation workers from deposition in sewerage system components, because the hydrogen-3 and carbon-14 behave chemically the same as non-radioactive hydrogen and carbon, there is no reason to expect significant deposition or accumulation in sewerage system components. Further, hydrogen-3 and carbon-14 emit weak beta radiations, which are completely shielded by piping, conduit, ground, water, etc.

Concentration Limit

A few commenters questioned the concentration limit in the proposed rule which was set at 0.05 microcuries or less of hydrogen-3 or carbon-14, per gram of liquid scintillation medium or animal tissue. Some commenters simply asked about the basis for the 0.05 microcuries per gram value. One commenter said the concentration limit should be raised to 0.1–0.2 microcuries per gram. Another commenter said that the concentration limit should be lowered to 0.02 or 0.025 microcuries per gram.

The commenter who suggested raising the concentration limit said that this could be done on the basis of the analysis of risks due to releases at these levels. The commenter who suggested lowering the proposed concentration limit offered an analysis which shows that 0.05 microcuries per gram is too high an activity for liquid scintillation counting and that 0.02 microcuries per gram will cover most applications of liquid scintillation counting. This latter commenter pointed out that the "as low as is reasonably achievable" (ALARA) concept of radiation protection dictates going to the lower concentration limit. This same commenter argued for an overall release limit for each licensee based on his analysis which assumes that all of the 200,000–400,000 gallons of liquid scintillation media are released at the maximum 0.05 microcuries per gram level.

The 0.05 microcuries per gram concentration limit was recommended to the Commission by its expert consultants as a level that would cover most biomedical research involving tracer use in animals. The Commission adopted the same level for liquid scintillation media as an administrative simplification, recognizing that the 0.05 microcuries per gram level will be higher than that normally encountered in liquid scintillation work. If the limit were set much closer to the concentrations actually used, licensees would be required to perform more exacting calculations and analytical steps to demonstrate compliance with the rule. This adds to the cost of administration for both the licensees and NRC. Setting the concentration limit at 0.05 microcuries per gram for both animal carcasses and liquid scintillation media does not violate the ALARA principle because the concentrations actually used are controlled by the sensitivity of the counting equipment and the cost of hydrogen-3 and carbon-14 labelled compounds which typically are quite expensive.

The Commission derived its estimates of the potential quantities of hydrogen-3 and carbon-14 released to the environment as a result of this rulemaking from actual production and use data. It would be erroneous to assume that all of the liquid scintillation media would be released at the maximum 0.05 microcuries per gram concentration. This assumption leads to release estimates that exceed the total produced for such uses.

Basically, the value/impact analysis does not indicate the need for a maximum release limit for each licensee. The Commission does not believe that setting the concentration limit higher than that actually used in practice will result in unnecessary (non-ALARA) releases to the environment. The Commission does believe that these higher limits will reduce the cost of administration of these regulations.

Value/Impact Analysis

Several commenters both for and against the proposed rule commented on the preliminary value/impact analysis. A few commenters suggested that the final value/impact analysis consider the impact of multiple users on a common sewerage system disposing of hydrogen-3 and carbon-14 under the new limits. Also, the Environmental Protection Agency recommended lower dilution factors for this part of the analysis. The Commission agrees with these comments and the final value/impact analysis addresses the impact of multiple users and employs adjusted dilution factors. The conclusion of the analysis, however, has not changed, i.e., the amendment raising the limit for sanitary sewerage disposal of hydrogen-3 and carbon-14 is appropriate because it will not pose an unreasonable risk to the public.

The Environmental Protection Agency and at least one other commenter observed that the information presented in the preliminary value/impact analysis was not sufficient to support the need to raise the limits for hydrogen-3 and carbon-14 which can be discharged to sanitary sewers. The EPA also stated that the increased health risk from the release of hydrogen-3 and carbon-14 in the quantities now in use appears to be very low.

The Commission believes that raising the limits for release of hydrogen-3 and carbon-14 to the sanitary sewerage systems will benefit perhaps 20–30 NRC licensees. The dollar savings in radioactive waste burial capacity are not known; however, even some savings in the cost of medical research and some savings in radioactive waste burial capacity are a direct benefit to the public and should not be foregone because they are difficult to quantify.

Finally, the Environmental Protection Agency noted that the preliminary value/impact analysis gave estimates of the individual doses which might result from the proposed changes; however, they suggested that the final value/impact analysis include an assessment of the collective dose commitment. The preliminary value/impact analysis included a brief treatment of the collective dose commitment. The final value/impact analysis includes a more rigorous treatment of this question. However, the conclusion of the final value/impact analysis has not changed. Basically, the value/impact analysis concludes this rulemaking is non-substantive and insignificant from the standpoint of environmental impact.

Clarifications

Several commenters requested clarification on the boundaries of the rule change. Does the term liquid scintillation media include the vials containing the media? Does the term animal tissue include organs or fluids which may have been removed from the carcasses for analysis?

The regulation in 10 CFR 20.306(a) applies to the disposal of liquid scintillation media of 0.05 microcuries or less of hydrogen-3 or carbon-14 per gram of medium. Licensees may dispose of liquid scintillation media containing this concentration of hydrogen-3 or carbon-14 without regard to its radioactivity. Scintillation vials themselves are not radioactive. Rather, it is the scintillation media remaining in the vials that contains the radioactivity. The rule covers that material. Therefore, it would be permissible to dispose of the used vials along with the media.

Similarly, the regulation in 10 CFR 20.306(b) applies to the disposal of animal tissue of 0.05 microcuries or less of hydrogen-3 or carbon-14 per gram of tissue *averaged over the weight of the entire animal,* whether the tissue (or organ) is ultimately removed from the carcass or not. However, the regulation does not apply to either the radioactive chemicals before they are administered to the animals or to the animal feces or urine or contaminated bedding.

Finally, some commenters asked if the rule change would permit incineration of the scintillation media and animal carcasses without obtaining permission from NRC via a license amendment. The answer is, yes, liquid scintillation media and animal carcasses may be incinerated without a license amendment to the extent permitted by applicable non-radioactive waste disposal regulations.

This rule is being made effective on March 11, 1981, because it relieves licensees from restrictions.

Authority: Under the Atomic Energy Act of 1954, as amended, the Energy Reorganization Act of 1974, as amended, and Sections 552 and 553 of Title 5 of the United States Code, the following amendments to Title 10, Chapter I, Code of Federal Regulations, Part 20, are published as a document subject to codification.

PART 20—STANDARDS FOR PROTECTION AGAINST RADIATION

1. In § 20.301, paragraph (c) is revised to read as follows:

§ 20.301 General requirement.

* * * * *

(c) As provided in § 20.303, applicable to the disposal of licensed material by release into sanitary sewerage systems, or in § 20.306 for disposal of specific wastes, or in § 20.106 (Radioactivity in effluents to unrestricted areas).

2. In § 20.303, paragraph (d) is revised to read as follows:

§ 20.303 Disposal by release into sanitary sewerage systems.

* * * * *

(d) The gross quantity of licensed and other radioactive material, excluding hydrogen-3 and carbon-14, released into the sewerage system by the licensee does not exceed one curie per year. The quantities of hydrogen-3 and carbon-14 released into the sanitary sewerage system may not exceed 5 curies per year for hydrogen-3 and 1 curie per year for carbon-14. Excreta from individuals undergoing medical diagnosis or therapy with radioactive material shall be exempt from any limitations contained in this section.

3. Section 20.305 is revised to read as follows:

§ 20.305 Treatment or disposal by incineration.

No licensee shall treat or dispose of licensed material by incineration except for materials listed under § 20.306 or as specifically approved by the Commission pursuant to §§ 20.106(b) and 20.302.

4. A new § 20.306 is added to read as follows:

§ 20.306 Disposal of specific wastes.

Any licensee may dispose of the following licensed material without regard to its radioactivity:

(a) 0.05 microcuries or less of hydrogen-3 or carbon-14, per gram of medium, used for liquid scintillation counting; and

(b) 0.05 microcuries or less of hydrogen-3 or carbon-14, per gram of animal tissue averaged over the weight of the entire animal; provided however, tissue may not be disposed of under this section in a manner that would permit its use either as food for humans or as animal feed.

(c) Nothing in this section, however, relieves the licensee of maintaining records showing the receipt, transfer and disposal of such byproduct material as specified in § 30.51 of Part 30 of this chapter; and

(d) Nothing in this section relieves the licensee from complying with other applicable federal, state and local regulations governing any other toxic or hazardous property of these materials.

(Sec. 81, 161b, Pub. L. 83-703, 68 Stat. 935, 948 as amended (42 U.S.C. 2111, 2201), Sec. 201, Pub. L. 93-438, 88 Stat. 1242 (42 U.S.C. 5841))

Dated at Washington, D.C., this 6th day of March 1981.

For the Nuclear Regulatory Commission.

Samuel J. Chilk,

Secretary of the Commission.

AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

The following agencies have agreed to publish all documents on two assigned days of the week (Monday/Thursday or Tuesday/Friday).

This is a voluntary program. (See OFR NOTICE 41 FR 32914, August 6, 1976.)

Monday	Tuesday	Wednesday	Thursday	Friday
DOT/SECRETARY	USDA/ASCS		DOT/SECRETARY	USDA/ASCS
DOT/COAST GUARD	USDA/FNS		DOT/COAST GUARD	USDA/FNS
DOT/FAA	USDA/FSQS		DOT/FAA	USDA/FSQS
DOT/FHWA	USDA/REA		DOT/FHWA	USDA/REA
DOT/FRA	MSPB/OPM		DOT/FRA	MSPB/OPM
DOT/NHTSA	LABOR		DOT/NHTSA	LABOR
DOT/RSPA	HHS/FDA		DOT/RSPA	HHS/FDA
DOT/SLSDC			DOT/SLSDC	
DOT/UMTA			DOT/UMTA	
CSA			CSA	

Documents normally scheduled for publication on a day that will be a Federal holiday will be published the next work day following the holiday.
Comments on this program are still invited.
Comments should be submitted to the Day-of-the-Week Program Coordinator, Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408

REMINDERS

The reminders below identify documents that appeared in issues of the Federal Register 15 days or more ago. Inclusion or exclusion from this list has no legal significance.

Deadlines for Comments On Proposed Rules for the Week of March 15 through March 21, 1981

AGRICULTURE DEPARTMENT

Commodity Credit Corporation—

9618 1–29–81 / Honey; 1981 crop price support program; comments by 3–16–81

Federal Crop Insurance Corporation—

3236 1–14–81 / Canning and freezing sweet corn crop insurance regulations; comments by 3–16–81

3229 1–14–81 / Corn crop insurance regulations; comments by 3–16–81

3221 1–14–81 / Cotton crop insurance regulations; comments by 3–16–81

3232 1–14–81 / Dry bean crop insurance regulations; comments by 3–16–81

3539 1–15–81 / Flax crop insurance regulations, additional counties; comments by 3–16–81

3537 1–15–81 / Grain sorghum crop insurance regulations; additional counties; comments by 3–16–81

3536 1–15–81 / Grape crop insurance regulations; additional counties; comments by 3–16–81

3224 1–14–81 / Oat crop insurance regulations; comments by 3–16–81

3223 1–14–81 / Peanut crop insurance regulations; comments by 3–16–81

3538 1–15–81 / Potato crop insurance regulations; additional counties; comments by 3–16–81

3226 1–14–81 / Soybean crop insurance regulations; comments by 3–16–81

3540 1–15–81 / Sunflower crop insurance regulations; additional counties; comments by 3–16–81

3233 1–14–81 / Tobacco (Dollar Plan) crop insurance regulations; comments by 3–16–81

3235 1–14–81 / Tobacco (guaranteed production) crop insurance regulations; comments by 3–16–81

3234 1–14–81 / Tobacco (quota plan) crop insurance regulations; comments by 3–16–81

3541 1–15–81 / Tomato crop insurance regulations; additional counties; comments by 3–16–81

Food and Nutrition Service—

4642 1–16–81 / Food Stamp Program; 1980 amendments to the Food Stamp Act of 1977; policy interpretations, misc. technical amendments; comments by 3–17–81

3905 1–16–81 / National School Lunch Program and School Breakfast Program; Competitive foods; comments by 3–17–81

3903 1–16–81 / National School Lunch Program; Nutritional requirements; comments by 3–17–81

Rural Electrification Administration—

3906 1–16–81 / Electric loan policies and application procedures—supplemental resource financing; comments by 3–17–81

3908 1–16–81 / Loan terms and conditions and supplemental financing policies; comments by 3–17–81

3906 1–16–81 / Procedures for cable television system; comments by 3–17–81

COMMERCE DEPARTMENT

National Oceanic and Atmospheric Administration—

10182 2–2–81 / Pacific Fishery Management Council; amendments to "Fishery Management Plan for Commercial and Recreational Salmon Fisheries off the Coasts of Wash. and Oreg. and Calif. Commencing in 1978"; comments by 3–16–81

9658 12–31–80 / South Atlantic Fishery Management Council, draft fishery management plan for Atlantic Billfish; comments by 3–20–81

10182 2-3-81 / South Atlantic Fishery Management Council. Billfish Fishery Management Plan; comments by 3-20-81

COMMODITY FUTURES TRADING COMMISSION

79496 12-1-80 / Minimum financial and related reporting requirements; comments by 3-21-81

3053 1-16-81 / Terms and conditions of the three-month Domestic Certificates of Deposit Futures Contract of the Chicago Mercantile Exchange; comments by 3-17-81

3055 1-16-81 / Terms and conditions of the three-month Euro Dollar Futures Contract of the Chicago Mercantile Exchange; comments by 3-17-81

3057 1-16-81 / Terms and conditions of the 90-day Certificates of Deposit Futures Contract of the New York Futures Exchange Inc.; comments by 3-17-81

COMMUNITY SERVICES ADMINISTRATION

5032 1-19-81 / Nondiscrimination on the basis of handicap in programs and activities receiving or benefiting from financial assistance provided by CSA; comments by 3-20-81

DEPOSITORY INSTITUTIONS DEREGULATION COMMITTEE

85057 12-24-80 / Retirement accounts; comments by 3-20-81

EDUCATION DEPARTMENT

5410 1-19-81 / Centers for independent living program; comments by 3-20-81

[*See also* 46 FR 12495, 2-17-81]

5236 1-19-81 / Financial assistance to local and State agencies to meet special educational needs; and financial assistance to local educational agencies for children with special needs; comments by 3-20-81

[*See also* 46 FR 12495, 2-17-81]

4560 1-16-81 / General Education Assistance for Cuban and Haitian Refugee Children Program; comments by 3-17-81

Highlights

FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The **Federal Register** will be furnished by mail to subscribers, free of postage, for $75.00 per year, or $45.00 for six months, payable in advance. The charge for individual copies is $1.00 for each issue, or $1.00 for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the **Federal Register**.

Questions and requests for specific information may be directed to the telephone numbers listed under INFORMATION AND ASSISTANCE in the READER AIDS section of this issue.

16404 **Postal Rates** PS gives notice of changes in certain postal rates, fees and mail classifications

16452 **Recombinant DNA** HHS/NIH gives notice of actions under guidelines for research involving recombinant DNA molecules; effective 3–12–81 (Part II of this issue)

16366 **Probation and Parole** Justice/PARCOM describes procedures for granting parole on the record without in-person hearings; effective 2–12–81

16403 **Foreign Exchange** Treasury/Sec'y announces 5–31–81 is the deadline for comments on foreign exchange discussion draft issued on December 8, 1980

16282 **Transportation** DOT/Sec'y proposes comprehensive revision of minority business enterprise rule, as part of Administration's program of reducing regulatory burdens; comments by 3–26–81

16342 **Transportation** Interior/Sec'y gives notice of draft consolidated application form for transportation and utility systems in Alaska; comments by 4–13–81

16258 **Motor Vehicle Pollution** EPA publishes final rule revising motor vehicle exhaust emission standards for oxides of nitrogen (NO_x) for 1982 model year light-duty diesel vehicles; effective 4–13–81

16259 **Air Pollution** EPA publishes final rule regarding control of air pollution from new motor vehicles and new motor vehicle engines for small-volume manufacturers; effective 4–13–81

NOTICES
International atomic energy agreements; civil uses; subsequent arrangements:
16296 European Atomic Energy Community and Switzerland

Energy Research Office
NOTICES
Meetings:
16311 DOE/NSF Nuclear Science Advisory Committee

Engineers Corps
NOTICES
Environmental statements; availability, etc.:
16291 Shingle Creek flood control project, Orange and Osceola Counties, Fla.

Environmental Protection Agency
RULES
Air pollution control; new motor vehicles and engines:
16259 Emission certification procedure, optional; small-volume manufacturers of 1981 and later model year light-duty vehicles and trucks and heavy-duty engines
16258 Nitrogen oxides (NO_x) exhaust emission standards; 1982 model year light duty diesel vehicles
Air quality planning purposes; designation of areas:
16258 Utah
Pesticides; tolerances in food:
16256 Ethephon
PROPOSED RULES
Air quality implementation plans; approval and promulgation, etc.:
16280 Nonattainment area new source review; definition of "source" as being an entire plant only, construction moratorium coverage, and "reconstructions" requirement eliminated
Uranium mill tailings standards:
16278 Cleanup standards for contaminated buildings and open lands; and residual radioactive materials disposal from inactive processing sites; hearings
NOTICES
Air pollution control, new motor vehicles and engines:
16325 Nitrogen oxides (NO_x) emission standards, diesel-powered light-duty vehicles and engines; 1981–1982 model years; applications for waiver
Environmental statements; availability, etc.:
16325 Orange County, Calif.; wastewater sludge air drying and composting facilities, design and construction
Grants, contracts, and loans, administration of Clean Air Act and Federal Water Pollution Control Act:
16324 Violating facilities; list
Pesticides; emergency exemption applications:
16322 Benomyl
16322 Heptachlor
16321 Sodium cyanide
16324 Zinc phosphide
Toxic and hazardous substances control:
16319 Premanufacture notices receipts

Federal Aviation Administration
RULES
Airworthiness directives:
16247 Bell
16247 British Aerospace
16248 Frost Engineering Development Corp.
16249 Standard instrument approach procedures
PROPOSED RULES
Aircraft products and parts, certification:
16270 CASA Model C-212 series airplanes; automatic takeoff power control system; novel or unusual design features
NOTICES
Aircraft certification status, etc.:
16397, 16399 Gates Learjet; republication (2 documents)

Federal Communications Commission
RULES
Radio stations; table of assignments:
16268 Arkansas and Missouri
NOTICES
Hearings, etc.:
16329 Santa Barbara Aviation, Inc., et al.

Federal Deposit Insurance Corporation
NOTICES
16429 Meetings; Sunshine Act

Federal Election Commission
NOTICES
16429 Meetings; Sunshine Act

Federal Emergency Management Agency
PROPOSED RULES
Flood elevation determinations:
16282 Ohio; correction

Federal Energy Regulatory Commission
RULES
Natural Gas Policy Act of 1978:
16252 Incremental pricing; mechanical cogeneration facilities, exemption; effective date and exemption affidavit availability
NOTICES
Hearings, etc.:
16303 Alaskan Northwest Natural Gas Transportation Co.
16304 ANR Storage Co.
16305 Arkansas Louisiana Gas Co.
16305 Colorado Interstate Gas Co.
16305 Dayton Power & Light Co.
16305 El Paso Natural Gas Co.
16299–16301 Enagenics (3 documents)
16306 Florida Gas Transmission Co.
16307 Great Lakes Gas Transmission Co.
16307 Louisiana Intrastate Gas Corp.
16307–16309 Mississippi Power & Light Co. (4 documents)
16301 North Unit Irrigation District et al.
16310 Ohio Edison Co.
16310 Pacific Gas & Electric Co.
16310 Pacific Interstate Transmission Co.
16302 Pacific Northwest Generating Co. et al.
16310 Public Service Co. of Colorado
16310 Southern Natural Gas Co.
16303 Southland Oil Co./VGS Corp.
16303 Tacoma, Wash.
16311 Texas Eastern Transmission Corp.
16311 Tucson Electric Co.
16430 Meetings; Sunshine Act

Federal Highway Administration
NOTICES
Environmental statements; availability, etc.:
16402 Boise, Idaho; notice of intent
16402 Salt Lake County, Utah; intent to prepare

Federal Home Loan Bank Board
RULES
Federal savings and loan system:
16246 Branching of Federal associations; policy statements; consistency with provisions on undue injury considerations

Federal Maritime Commission
NOTICES
16430 Meetings; Sunshine Act (2 documents)

Federal Reserve System
NOTICES
16430 Meetings; Sunshine Act (2 documents)

Federal Trade Commission
PROPOSED RULES
Prohibited trade practices:
16274 George Irvin Chevrolet Co.

Forest Service
NOTICES
Environmental statements; availability, etc.:
16285 Bridger-Teton National Forest, land and resource management plan, Wyo.
Meetings:
16285 Gospel-Hump Advisory Committee

Health and Human Services Department

Title 3—

The President

Presidential Determination No. 81–4 of March 5, 1981

Determination To Authorize the Furnishing of Immediate Military Assistance to El Salvador

Memorandum for the Secretary of State, the Secretary of Defense

Pursuant to the authority vested in me by section 506(a) of the Foreign Assistance Act of 1961, as amended (the Act), I hereby determine that:

1) an unforeseen emergency exists which requires immediate military assistance to El Salvador; and

2) the aforementioned emergency requirement cannot be met under the authority of the Arms Export Control Act or any other law except section 506(a) of the Act.

Therefore, I hereby authorize the furnishing of up to $20,000,000 in defense articles from the stocks of the Department of Defense, defense services of the Department of Defense, and military education and training, to El Salvador under the provisions of chapters 2 and 5 of part II of the Act.

This determination, which supplements Presidential Determination No. 81–2 of January 16, 1981 (46 FR 11225), shall be published in the **Federal Register.**

Rules and Regulations

Federal Register
Vol. 46, No. 48
Thursday, March 12, 1981

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR Part 905

[Orange, Grapefruit, Tangerine and Tangelo Regulation 4, Amdt. 11]

Oranges, Grapefruit, Tangerines and Tangelos Grown in Florida; Amendment of Size Requirements

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Amendment to final rule.

SUMMARY: This action lowers the minimum diameter requirement for domestic shipments of Florida pink seedless grapefruit and imports of pink seedless grapefruit from 3$^{9}/_{16}$ inches to 3$^{5}/_{16}$ inches. The change in minimum size recognizes current and prospective demand for smaller sizes of pink seedless grapefruit and is consistent with the available crop in the interest of growers and consumers.

EFFECTIVE DATE: March 6, 1981.

FOR FURTHER INFORMATION CONTACT: William J. Doyle, Acting Chief, Fruit Branch, F&V, AMS, USDA, Washington, D.C. 20250, telephone 202–447–5975. The Final Impact Statement relative to this rule is available on request from Mr. Doyle.

SUPPLEMENTARY INFORMATION: This rule has been reviewed under USDA procedures and Executive Order 12291 and has been classified "not significant", and not a major rule. William T. Manley, Deputy Administrator, Agricultural Marketing Service, has determined that this action will not have a significant economic impact on a substantial number of small entities because this change in minimum size factors does not materially affect handler operating procedures or costs.

The regulation with respect to Florida pink seedless grapefruit is issued under the marketing agreement and Order No. 905, (7 CFR Part 905) regulating the handling of oranges, grapefruit, tangerines, and tangelos grown in Florida.

The agreement and order are effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). This action is based upon the recommendation and information submitted by the Citrus Administrative Committee, and upon other available information. The minimum size requirement for imported pink seedless grapefruit is consistent with Section 8e of the act. This section requires that whenever specified commodities, including grapefruit, are regulated under a Federal marketing order, imports of that commodity must meet the same or comparable grade, size, quality, or maturity requirements as those in effect for the domestically produced commodity. Under the terms of the regulation, size requirements for imported pink seedless grapefruit change to conform to the size requirements for domestic shipments of Florida pink seedless grapefruit. It is hereby found that this regulation will tend to effectuate the declared policy of the act.

It is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking, and postpone the effective date until 30 days after publication in the **Federal Register** (5 U.S.C. 553). It is necessary to effectuate the declared purposes of the act to make this regulatory provision effective as specified. This amendment relieves restrictions on shipments of Florida pink seedless grapefruit and imports of pink seedless grapefruit.

Accordingly, it is found that the provisions of § 905.304 Orange, Grapefruit, Tangerine and Tangelo Regulation 4 (45 FR 67047; 76851; 79002; 80269; 81199; 83192; 46 FR 5859; 1089; 11655; 11656; 14115) should be and are amended by revising Table I paragraph (a), applicable to domestic shipments, to read as follows:

§ 905.304 Orange, Grapefruit, Tangerine and Tangelo Regulation 4.

BILLING CODE 3410-02-M

7 CFR Part 907

[Navel Orange Reg. 513; Navel Orange Reg. 512, Amdt. 1]

Navel Oranges Grown in Arizona and Designated Part of California; Limitation of Handling

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This action establishes the quantity of fresh California-Arizona navel oranges that may be shipped to market during the period March 13–March 19, 1981, and increases the quantity of such oranges that may be so shipped during the period March 6–March 12, 1981. Such action is needed to provide for orderly marketing of fresh navel oranges for the periods specified due to the marketing situation confronting the orange industry.

DATES: This regulation becomes effective March 13, 1981, and the amendment is effective for the period March 6–12, 1981.

FOR FURTHER INFORMATION CONTACT: William J. Doyle, (202) 447–5975.

SUPPLEMENTARY INFORMATION: *Findings.* This rule has been reviewed under USDA procedures and Executive Order 12291 and has been classified "not significant", and is not a major rule. This regulation and amendment are issued under the marketing agreement, as

amended, and Order No. 907, as amended (7 CFR Part 907), regulating the handling of navel oranges grown in Arizona and designated part of California. The agreement and order are effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). The action is based upon the recommendations and information submitted by the Navel Orange Administrative Committee and upon other available information. It is hereby found that this action will tend to effectuate the declared policy of the act.

This action is consistent with the marketing policy for 1980–81. The marketing policy was recommended by the committee following discussion at a public meeting on October 14, 1980. A regulatory impact analysis on the marketing policy is available from William J. Doyle, Acting Chief, Fruit Branch, F&V, AMS, USDA, Washington, D.C. 20250, telephone 202–447–5975.

The committee met again publicly on March 10, 1981 at Los Angeles, California, to consider the current and prospective conditions of supply and demand and recommended a quantity of navel oranges deemed advisable to be handled during the specified weeks. The committee reports the demand for navel oranges has improved.

It is further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking, and postpone the effective date until 30 days after publication in the **Federal Register** (5 U.S.C. 553), because of insufficient time between the date when information became available upon which this regulation and amendment are based and the effective date necessary to effectuate the declared policy of the act. Interested persons were given an opportunity to submit information and views on the regulation at an open meeting, and the amendment relieves restrictions on the handling of navel oranges. It is necessary to effectuate the declared purposes of the act to make these regulatory provisions effective as specified, and handlers have been apprised of such provisions and the effective time.

1. Section 907.813 is added as follows:

§ 907.813 Navel Orange Regulation 513.

The quantities of navel oranges grown in Arizona and California which may be handled during the period March 13, 1981, through March 19, 1981, are established as follows:

(1) District 1: 1,530,000 cartons;
(2) District 2: 153,000 cartons;
(3) District 3: Unlimited cartons;
(4) District 4: 17,000 cartons.

2. Section 907.812 Navel Orange Regulation 512 (46 FR 15257), is hereby amended, by revising subparagraphs (1) through (4) to read:

§ 907.812 Navel Orange Regulation 512.

* * * * *

(1) District 1: 1,530,000 cartons;
(2) District 2: 136,000 cartons;
(3) District 3: Unlimited cartons;
(4) District 4: 34,000 cartons.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: March 11, 1981.

D. S. Kuryloski,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc. 81-7981 Filed 3-11-81; 12:03 pm]
BILLING CODE 3410-02-M

---

7 CFR Part 959

Onions Grown in South Texas; Handling Regulation

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This regulation requires fresh market shipments of onions grown in designated counties in South Texas to be inspected and meet minimum size and quality requirements. The regulation should promote orderly marketing of such onions and keep less desirable qualities and sizes from being shipped to consumers.

EFFECTIVE DATE: March 12, 1981.

FOR FURTHER INFORMATION CONTACT: Charles W. Porter, Chief, Vegetable Branch, F&V, AMS, USDA, Washington, D.C. 20250 (202) 447–2615. The Final Impact Statement relating to this final rule is available upon request from Mr. Porter.

SUPPLEMENTARY INFORMATION: This is not a major rule under E.O. 12291.

William T. Manley, Deputy Administrator, Agricultural Marketing Service, has determined that this action will not have a significant economic impact on a substantial number of small entities because it would not measurably affect costs for the directly regulated 48 handlers.

Marketing Agreement No. 143 and Order No. 959, both as amended (7 CFR Part 959) regulate the handling of onions grown in designated counties of South Texas. It is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). The South Texas Onion Committee, established under the order, is responsible for its local administration.

Notice was published in the **Federal Registers** of December 5, 1980 (45 FR 80533) and December 22, 1980 (45 FR 84070) regarding the proposal. The notice afforded interested persons an opportunity to file written comments by February 4, 1981. None was received.

This regulation is based upon recommendations made by the committee at its public meeting in Laredo, Texas, on October 23, 1980. The recommendations of the committee reflect its appraisal of the expected volume and composition of the 1981 early spring crop of South Texas onions and of the marketing prospects for the shipping season which is expected to begin about March 2, 1981.

The grade and size requirements are similar to last season's and are designed to prevent onions of poor quality or undesirable sizes from being distributed in fresh market channels.

Thus, only onions that contain not more than 20 percent defects of U.S. No. 1 grade and are not packed or loaded on Sunday except for export may be shipped from March 12 through May 9, 1981. Again this season in order to provide more orderly marketing from all districts, the inspection and container requirements are extended through June 13, 1981.

The container requirements prevent the use of off-size or deceptive containers which could adversely affect the reputation and returns of South Texas onions. However, they do not preclude the use of containers customarily packed for the retail trade. The prohibition on packaging and loading onions on Sunday is intended principally to provide more orderly marketing by tailoring shipments from the production area more closely to the ability of receiving markets to accept marketings. Again this season handlers are permitted, with the approval of the committee, to grade, package and load onions on Sunday for export, provided that they shut down packing and loading operations on the first working day after shipment for the same length of time as they operated on Sunday. This will prevent handlers who ship on Sunday for export from gaining a competitive advantage due to longer packing hours over handlers who do not have export orders.

Exceptions are provided to certain of these requirements to recognize special situations in which such requirements would be inappropriate or unreasonable. Up to 110 pounds of onions may be handled, other than for resale, per day without regard to requirements of this section in order to avoid placing an unreasonable burden on persons handling noncommercial quantities of onions.

The requirements with respect to special purpose shipments allow the shipment of onions for experimental purposes or the use of containers including bulk bins which have been the subject of test shipments during past seasons, and encourage exports by allowing the use of containers required for such purposes. Onions for canning and freezing are exempt under the legislative authority for this part. Shipments for relief or charity also are exempt since no useful purpose would be served by regulating such shipments.

Findings

After consideration of all relevant matters, including the proposal set forth in the notice, it is hereby found that the handling regulation, as hereinafter set forth, will tend to effectuate the declared policy of the act.

It is hereby further found that good cause exists for not postponing the effective date of this section until 30 days after publication in the Federal Register (5 U.S.C. 553) in that (1) shipments of onions grown in the production area will begin on or about the effective date specified herein, (2) to maximize benefits to producers, this regulation should apply to as many shipments as possible during the marketing season, and (3) compliance with this regulation, which is similar to that in effect during the previous marketing seasons, will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective date hereof.

Section 959.320 (45 FR 7243, February 1, 1980) is removed and a new § 959.321 is added as follows:

§ 959.321 Handling regulation.

During the period March 12 through June 13, 1981, no handler may package or load onions on Sunday or handle any onions except red varieties, unless they comply with paragraphs (a) through (d) or (e) or (f) of this section. However, the requirements of paragraphs (a) and (b) and the Sunday prohibition shall terminate at 11:59 p.m. on May 9, 1981.

(a) *Grade requirements.* Not to exceed 20 percent defects of U.S. No. 1 grade. In percentage grade lots, tolerances for serious damage shall not exceed 10 percent including not more than 2 percent decay. Double the lot tolerance shall be permitted in individual packages in percentage grade lots. Application of tolerances in U.S. onion standards shall apply to in-grade lots.

(b) *Size requirements.* (1) "Small"—1 to 2¼ inches in diameter, and limited to whites only;

(2) "Repacker"—1¾ to 3 inches in diameter, with 60 percent or more 2 inches in diameter or larger;

(3) "Medium"—2 to 3⅛ inches in diameter; or

(4) "Jumbo"—3 inches or larger in diameter.

(5) Tolerances for size in the U.S. onion standards shall apply except that for "repacker" and "medium" sizes not more than 20 percent, by weight, of onions in any lot may be larger than the maximum diameter specified. Application of tolerances in the U.S. onion standards shall apply.

(c) *Container requirements.* Except as provided in paragraph (f), only the following containers may be used:

(1) 25-pound bags, with an average net weight in any lot of not more than 27⅛ pounds per bag, and with inside dimensions not larger than 29 inches by 21 inches; or

(2) 50-pounds bags, with an average net weight in any lot of not more than 55 pounds per bag, and with inside dimensions not larger than 33 inches by 29⅛ inches.

(3) These container requirements shall not be applicable to onions sold to Federal agencies or for export.

(d) *Inspection.* (1) No handler may handle any onions regulated hereunder, except pursuant to paragraphs (e) or (f)(1) of this section, unless an inspection certificate has been issued by the Texas-Federal Inspection Service covering them and the certificate is valid at the time of shipment.

(2) No handler may transport by motor vehicle or cause such transportation of any shipment of onions for which an inspection certificate is required unless each such shipment is accompanied by a copy of the inspection certificate applicable thereto or by documentary evidence on forms furnished by the committee identifying truck lots to which a valid inspection certificate is applicable and a copy of such inspection certificate or committee document is surrendered upon request to authorities designated by the committee.

(3) For purposes of operation under this part each inspection certificate or committee form required as evidence of inspection is hereby determined to be valid for a period not to exceed 72 hours following completion of inspection as shown on the certificate.

(4) Handlers shall pay assessments on all assessable onions according to the provisions of § 959.221.

(e) *Minimum quantity exemption.* Any handler may handle, other than for resale, up to, but not to exceed 110 pounds of onions per day without regard to the requirements of this section, but this exemption shall not apply to any shipment or any portion thereof of over 110 pounds of onions.

(f) *Special purpose shipments.* (1) The minimum grade, size, quality, container, and inspection requirements set forth in paragraphs (a) through (d) shall not be applicable to shipments of onions for charity, relief, canning and freezing if handled in accordance with paragraph (g) of this section.

(2) Onions may be packed in 50-pound cartons or in 2, 3 or 5 pound containers customarily used for the retail trade. Such shipments shall be exempt from paragraph (c) of this section but must meet the provisions of paragraphs (a), (b) and (d) or paragraph (e) and be handled in accordance with paragraph (g) of this section.

(i) Shipments of such containers shall not exceed 10 percent of a handler's total weekly onion shipments.

(ii) The average gross weight per lot of onions packed in master containers shall not exceed 115 percent of the designated net contents.

(iii) The average net weight per lot of 50-pound cartons shall not exceed 55 pounds.

(3) *Experimental shipments.* (i) Upon approval of the committee, onions may be shipped in bulk bins with inside dimensions of 47 inches x 37⅛ inches x 36 inches deep and having a volume of 63,450 cubic inches, or containers deemed similar by the committee. Each container shall have a new perforated polyethylene liner at least 2 mils in thickness. Also, onions may be shipped in 40-pound cartons, upon approval of the committee. Such experimental shipments shall be exempt from paragraph (c) of this section but shall not exceed ten percent of a handler's total weekly onion shipments and shall be handled in accordance with safeguard provisions of § 959.54 and paragraph (g) of this section. The receiver shall furnish the committee with a report on the arrival condition of each shipment.

(ii) Upon approval of the committee, onions may be shipped for other experimental purposes exempt from regulations issued pursuant to §§ 959.42, 959.52 and 959.60, provided they are handled in accordance with safeguard provisions of § 959.54 and paragraph (g) of this section.

(4) *Export shipments.* (i) Upon approval of the committee, the prohibition against packaging or loading onions on any Sunday may be modified or suspended to permit the handling of onions for export provided such handling complies with the procedures and safeguards specified by the committee.

(ii) Following approval, if the handler grades, packages and ships onions for export on any Sunday, such handler shall on the first weekday following shipment, cease all grading, packaging and shipping operations for the same length of time as the handler operated on Sunday. Upon completion of such shipments, the handler shall report thereon as prescribed by the committee.

(iii) Export shipment shall also be exempt from all container requirements of this section.

(5) *Onions failing to meet requirements:* Onions failing to meet the grade, size and container requirements of this section, and not exempt under paragraphs (e) or (f) of this section, may be handled only pursuant to § 959.126. Such onions not handled in accordance with paragraph (g) of this section shall be mechanically mutilated at the packing shed rendering them unsuitable for fresh market.

(g) *Safeguards.* Each handler making shipments of onions for relief, charity, canning, freezing, or experimental purposes or onions packed in 50-pound cartons or 2, 3 or 5 pound containers customarily packed for the retail trade shall:

(1) Apply to the committee for and obtain a Certificate of Privilege to make such shipments;

(2) Furnish reports of each shipment made under the applicable Certificate of Privilege;

(3) Such reports, in accordance with § 959.80, shall be furnished to the committee in such manner, on such forms and at such times as it may prescribe. Each handler shall maintain records of such shipments pursuant to § 959.80(c), and the records shall be subject to review and audit by the committee to verify reports thereon.

In addition to the above, each handler making shipments for canning or freezing shall:

(4) Weigh or cause to be weighed each shipment prior to arrival at the canner or freezer.

(5) Attach a copy of the weight ticket to a completed copy of the Report of Special Purpose Onion Shipment and return both promptly to the committee office.

(6) Bill each shipment directly to the applicable processor and attach a copy of the Report of Special Purpose Onion Shipment.

(7) Each canner or freezer who receives cull onions shall weigh the onions upon receipt, complete the Report of Special Purpose Onion Shipment which accompanies each load and mail it immediately to the committee office.

(8) Each canner or freezer who receives cull onions shall make available at its business office at any reasonable time during business hours, copies of all applicable purchase orders, sales contracts, or disposition documents for examination by the Department or by the committee, together with any other information which the committee or the Department may deem necessary to enable it to determine the disposition of the onions.

(h) *Definitions.* "U.S. onion standards" mean the United States Standards for Grades of Bermuda-Granex-Grano Type Onions (7 CFR 2851.3195–2851.3209), or the United States Standards for Grades of Onions (Other Than Bermuda-Granex-Grano and Creole Types) (7 CFR 2851.2830–2851.2854), whichever is applicable to the particular variety, or variations thereof specified in this section. The term "U.S. No. 1" shall have the same meaning as set forth in these standards.

All other terms used in this section shall have the same meaning as when used in Marketing Agreement No. 143, as amended, and this part.

(i) *Applicability to imports.* Onions imported during the period March 16 through May 9, 1981, will be in most direct competition with onions produced in South Texas and regulated under Marketing Order No. 959, as amended. Therefore, under Section 8e of the act and Section 980.117 "Import Regulations" such imported onions shall have not more than 20 percent defects of U.S. No. 1 grade and be at least 1 inch in diameter for white varieties and at least 1¾ inches in diameter for all other varieties. In percentage grade lots, tolerances for serious damage shall not exceed 10 percent including not more than 2 percent decay. Double the lot tolerance shall be permitted in individual packages in percentage grade lots. Applications of tolerance in the U.S. Grade Standards shall apply to in-grade lots.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated March 6, 1981 to become effective March 12, 1981.

D. S. Kuryloski,

Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

BILLING CODE 3410-02-M

DEPARTMENT OF THE TREASURY

Comptroller of the Currency

12 CFR Part 1

[Docket No. 81-5]

Eligibility of Securities for Purchase, Dealing in Underwriting and Holding by National Banks; Rulings Issued by the Comptroller

AGENCY: Comptroller of the Currency, Treasury.

ACTION: Notice of rulings.

SUMMARY: The Comptroller is publishing those investment securities rulings issued during 1980, that are considered to be of significant public interest. The rulings were issued to advise banks on the application of federal banking law and regulations to securities which the bank holds, or desires to purchase, deal in or underwrite.

EFFECTIVE DATE: The rulings became effective when originally issued in letter form. The date of issuance is indicated in parentheses at the end of each ruling.

FOR FURTHER INFORMATION CONTACT: Radcliffe Park, Assistant Director, Legal Advisory Services Division, Comptroller of the Currency, Washington, D.C. 20219, (202) 447–1880.

SUPPLEMENTARY INFORMATION: On December 28, 1979, the Comptroller discontinued the codification of individual investment securities rulings in 12 CFR Part 1, 44 FR 76263. However, the Comptroller determined that certain individual rulings issued during the year beginning in December, 1978, but not theretofore published in the Federal Register were sufficiently significant to warrant their publication, 45 FR 8934 (February 11, 1980). He has made the same determination with respect to rulings issued during calendar year 1980.

The rulings in question were issued in response to specific requests from banks or bank counsel made in accordance with 12 CFR 1.9 relating to the application of federal banking law and regulations to securities which the bank holds, or desire to purchase, deal in, or underwrite.

The rulings are numbered in sequence to those published earlier in order to facilitate future references.

495 Health and Education Facilities Board, Shelby County, Tennessee (Methodist Hospital Project).

496 New York State Urban Development Corporation.

§ 488 Dormitory Authority of the State of New York (City University Community College).

(a) *Request.* Ruling on the eligibility of $91,450,000 Dormitory Authority of the State of New York, Revenue Bonds, City University Community College Issue, Series D, for purchase and unlimited holding by national banks under paragraph Seventh of 12 U.S.C. 24.

(b)(1) *Opinion.* The Dormitory Authority is a body corporate and politic constituting a public benefit corporation created in 1944 to provide dormitories and related facilities at colleges in the State of New York and authorized to issue bonds for that purpose. The bonds are payable primarily from the rental paid to the Authority by the City University Construction Fund, a public benefit corporation established under the provisions contained with the New York Education Law (Fund Act) to provide facilities for the City University. The payment is further secured by a refillable debt reserve fund in accordance with the provisions of the Dormitory Authority Act (Act).

(2) The State and City of New York are each required by the Fund Act to pay to the Fund one-half of the amount of the annual rental. The annual rental consists of amounts sufficient to pay for the annual debt service on the bonds, and other necessary expenses. In the event the City fails to make such annual payments, the Fund Act provides for the payment of the deficiency by the State Comptroller, but not to exceed $65,000,000 in any one City fiscal year, out of the next succeeding payment of the state per capita aid apportioned to the City. In the past decade, the State's per capita aid to the City has been increasing and in 1979 amounted to $461,569,000. It also appears that the $65,000,000 aid ceiling is approximately twice the amount of the total annual obligations of the City which would be covered by this provision.

(3) In order to ensure the payment of the capital and interest on the bonds issued by the Dormitory Authority, the Act provides that each bond issued be secured by a debt service reserve fund of an amount equal to the amount of principal and interest maturing in any succeeding calendar year. In the event of a deficiency in the fund, the Act provides that, upon the certification of the deficiency by the Chairman of the Authority the State shall annually apportion and pay to the Authority the necessary funds to restore the fund. The State has thus promised to provide funds sufficient to meet the payments on the bonds.

(4) While the State legislature cannot be compelled to make the annual rental payments, or to appropriate any per capita aid or reserve fund deficiency the failure to make such appropriations would seriously affect the state's ability to raise funds in the public market. In the past, the State legislature has not failed to refill the deficiencies in the debt service reserve fund. Thus, it appears that the State has, to the extent stated above, committed its faith and credit to provide funds for the payment of the funds.

(c) *Ruling.* It is our conclusion that the $91,450,000 Dormitory Authority of the State of New York Revenue Bonds City University Community College Issue, Series D, are general obligations of a State or a political subdivision thereof under paragraph Seventh of 12 U.S.C. 24, and are eligible for purchase and unlimited holding by national banks within their prudent banking judgment. (Letter dated January 7, 1980.)

§ 489 Jackson Redevelopment Authority (Mississippi).

(a) *Request.* Ruling on the eligibility of the $6,100,000.00 Urban Renewal Revenue Bonds, Parking Facility #3 Project, issued by the Jackson Redevelopment Authority, Jackson, Mississippi for dealing in, underwriting, and unlimited holding by national banks.

(b) *Opinion.* (1) The bond proceeds are to be used by the Redevelopment Authority to construct a parking facility in the central business district of the City of Jackson in an area determined by the City Council to be a slum area or blighted area or combination thereof and designated by the Council as appropriate for an urban renewal project. The parking facility will, in turn, be leased to the City of Jackson for a term that will be coterminous with the final maturity of the bonds. The lease, however, only becomes effective if the revenues derived from operation of the parking facility are insufficient to pay all principal and interest amounts on the bonds as they become due. The rents payable under the lease will be sufficient to meet all debt service requirements in connection with the bonds. Both the revenues derived from operation of the parking facility and the rents payable under lease are unconditionally and irrevocably pledged to the payment of principal and interest on the bonds.

(2) The Jackson Redevelopment Authority is a public body corporate and politic created by statute and called into effect at the election of the City Council of Jackson for the purpose of exercising the municipality's urban renewal project powers. Miss. Code Ann. §§ 43–35–31 and 43–35–33 (1972 & Supp. 1979). Among the general urban renewal project powers granted by Article 1 of Chapter 35 of Title 43 of the Mississippi Code to municipalities and urban renewal agencies are the powers to acquire land in a slum or blighted area and to construct improvements necessary for carrying out urban renewal objectives. Miss. Code Ann. §§ 43–35–3(j) and 43–35–15(a) (1972 & Supp. 1979). Among the additional powers granted by Article 5 of Chapter 35 to municipalities and urban renewal agencies are the powers to construct municipal parking facilities, to lease them, and, in order to defray the costs of construction, to issue bonds payable solely from revenues derived from operating or leasing the facilities. Miss. Code Ann. §§ 43–35–201, 43–35–203, and 43–35–211 (1972 & Supp. 1979). The Redevelopment Authority has determined that construction and operation of the parking facility is an appropriate urban renewal project and thus falls within its general powers as well as its additional powers.

(3) Under Miss. Code Ann. § 43–35–15(i) (Supp. 1979), there are reserved to municipalities the powers to "appropriate such funds and make such expenditures as may be necessary to carry out the purposes of [Article 1] and to levy taxes and assessments for such purposes." Further, under the same statutory provision, municipalities may "enter into agreements with . . . an urban renewal agency . . . (which agreements may extend over any period, notwithstanding any provision or rule of law to the contrary), respecting action to be taken by such municipality pursuant to any of the powers granted by this Article." A similar power, to "enter into agreements (which may extend over any period, notwithstanding any provision or rule of law to the contrary) with a municipality or other public body [including an urban renewal agency]

respecting action to be taken pursuant to any of the powers granted by [Article 1], including the furnishing of funds or other assistance in connection with an urban renewal project," is granted to all public bodies, including municipalities, in Miss. Code Ann. § 43-35-27(a)(5) (1972).

(4) Using these powers to contact, the City of Jackson has entered into its conditional lease agreement and pledged to make moneys available from its general fund, if necessary, to cover all principal and interest payments on the bonds as they become due. The City of Jackson possesses general powers of taxation in addition to the special powers set out above. While not obligated to make a special levy to cover any payments that may become due under the lease, the City may do so if it chooses or if the general fund is insufficient for that purpose. Counsel for the issuer has opined that the obligation to make payments under the lease is enforceable against the City of Jackson, and this opinion appears to be fully supported by the cited statutory provisions. Thus, a political subdivision possessing general and special powers of taxation has pledged its full faith and credit in support of the bonds.

(c) *Ruling.* It is our conclusion that the $6,100,000.00 Urban Renewal Revenue Bonds (Parking Facility #3 Project) issued by the Jackson Redevelopment Authority of Jackson, Mississippi, constitute general obligations of a State or political subdivision thereof under paragraph Seventh of 12 U.S.C. 24 and are therefore eligible for dealing in, underwriting, and unlimited holding by national banks. (Letter dated January 15, 1980.)

§ 490 Michigan Comprehensive Transportation Bonds.

(a) *Request.* Ruling on the eligibility of $106,250,000 State of Michigan Comprehensive Transportation Bonds, 1979 Series A, for purchase, dealing in, underwriting, and unlimited holding by national banks under paragraph Seventh, 12 U.S.C. 24.

(b) *Opinion.* (1) The Constitution of Michigan provides that certain gasoline and other motor vehicle taxes, aeronautical taxes, and sales taxes imposed by law shall be set aside for the payment of bonds issued for the purpose of certain comprehensive transportation projects. The bonds in question are issued in accordance with authorization in Act 51, Public Acts of Michigan, 1951, as amended, Section 18(b), and pursuant to resolutions adopted by appropriate state agencies. The proceeds of the sale of the bonds will be used for the purpose of providing funds to pay part of the costs of constructing and acquiring certain comprehensive transportation projects, thus qualifying the payment of the bonds from the taxes mentioned above.

(2) Although the State Constitution irrevocably pledges a substantial amount of funds for the payment of the bonds, such funds are limited to those derived from excise taxes. The bonds are therefore not general obligations supported by the full faith and credit of the State.

(c) *Ruling.* It is our conclusion that the $106,250,000 State of Michigan Comprehensive Transportation Bonds, 1979 Series A, are not eligible for dealing in and underwriting by national banks under paragraph Seventh of 12 U.S.C. 24. However, the bonds are eligible for investment by national banks within the 10% limitation set forth in the same paragraph and within the prudent banking judgment of the national banks. (Letter dated February 14, 1980.)

§ 491 Massachusetts Health and Educational Facilities Authority GNMA Collateralized Revenue Bonds (New England Medical Center Hospital).

(a) *Request.* Ruling on the eligibility of the $55,560,000 Massachusetts Health and Educational Facilities Authority GNMA Collateralized Revenue Bonds, New England Medical Center Hospital Issue, Series A, for underwriting, dealing in, and unlimited holding by national banks under paragraph Seventh of 12 U.S.C. 24 and by state banks which are members of the Federal Reserve System pursuant to 12 U.S.C. 335.

(b) *Opinion.* (1) The Authority is issuing these bonds to finance the construction of new facilities for the New England Medical Center Hospital in Boston, Massachusetts. The proceeds from sale of the bonds will be held by a trustee and released periodically through a mortgage banker to finance the construction of the facilities according to the procedure described below. The Hospital will request monthly advances from the mortgage banker to pay construction costs. Federal Housing Administration (FHA) will approve the advances, which will be evidenced by a note or notes and secured by a mortgage insured as to principal and interest by FHA. Concurrently with making each advance the mortgage banker will apply to Government National Mortgage Association (GNMA) for approval to issue a Construction Loan Certificate (CLC), which will be a fully modified pass-through mortgage backed security guaranteed by GNMA which guaranty is supported by the full faith and credit of the United States.

(2) The mortgage banker will use its own funds to make the first advance, and once GNMA has approved the issuance of a CLC, the mortgage banker will sell it to the trustee for the amount of the advance. Each subsequent advance will be funded by the trustee out of bond proceeds, prior to GNMA's approving the issuance of a CLC, upon presentation of certain documents by the mortgage banker, including evidence of FHA's approval of the advance and certification that the mortgage banker is in compliance with all provisions of the GNMA CLC Guaranty Agreement. GNMA has provided written assurance to the mortgage banker that it will approve the issuance of a CLC even if one or both of the following events should occur subsequent to the mortgage banker's making the advance: (1) default by the Hospital on the FHA mortgage; (2) default by the mortgage banker under its GNMA CLC Guaranty Agreement. The CLC, when approved, will be issued and transferred to the trustee.

(3) Upon making the final advance the mortgage banker will apply to GNMA for approval to issue a Permanent Loan Certificate (PLC). When issued by the mortgage banker the PLC will be exchanged with the trustee for all of the CLC's. Like the CLC's the PLC will be a fully modified pass-through security guaranteed by GNMA. The PLC will be in a face amount equal to all of the advances, which will, in turn, equal the amount of the bond issue, and which will not exceed the amount of the FHA mortgage note. The CLC's and the PLC will pay interest when due on a like amount of bonds. Upon completion of the project, the FHA mortgage note will begin to be amortized, and the principal repayments by the Hospital will be passed through to the trustee to be applied to principal repayments on the bonds.

(4) In addition to being secured by the CLC's the PLC and GNMA's assurance that issuance of CLC's will be approved, as described above, the bonds will be secured by permitted investments of undisbursed bond proceeds. These permitted investments will be limited to obligations of or guaranteed by the United States of America or repurchase agreements with large banks collateralized by such securities. The repurchase agreements must provide that the market value of the obligations serving as collateral will at all times be at least equal to the principal amount of the repurchase agreements and that the obligations serving as collateral will be segregated in a bank, other than the

bank entering into the repurchase agreements, that is acceptable to the Authority.

(c) *Ruling.* On the basis of these facts, it is my conclusion that the $55,500,000 Massachusetts Health and Educational Facilities Authority GNMA Collateralized Revenue Bonds, New England Medical Center Hospital Issue, Series A, are indirect obligations of the United States and are therefore eligible for underwriting, dealing in, and unlimited holding by national banks under paragraph Seventh of 12 U.S.C. 24 and by state banks which are members of the Federal Reserve System under 12 U.S.C. 335. (Letter dated April 23, 1980.)

§ 492 Redevelopment Agency of the City and County of San Francisco, Residential Mortgage Bonds (Opera Plaza).

(a) *Request.* Ruling on the eligibility of the $100,000,000 Redevelopment Agency of the City and County of San Francisco, California, Residential Mortgage Revenue Bonds, Issue of 1980, for dealing in and underwriting by national banks under paragraph Seventh of 12 U.S.C. 24, subject to the 10 percent limitation thereof.

(b) *Opinion.* (1) The purpose of the bond issue is to provide funds for residential mortgage loans to purchasers of housing units being constructed in redevelopment projects sponsored by the Redevelopment Agency. The loans will be originated by certain lenders, not including your bank, which will sell the loans to the trustee without recourse. These lenders will continue to service the mortgage loans, and it is expected that the payments on the loans, together with certain other funds that will be available as security for the bond issue, will be sufficient to meet all debt service requirements on the bonds.

(2) Security for the bonds will include bond proceeds awaiting investment or permitted investments thereof, revenues from mortgages and collections on insurance or sales related to the loans, the loans and mortgages themselves, certain reserve funds provided initially from bond proceeds, and a letter of credit issued by your bank. The letter of credit authorizes the trustee to draw upon the bank to cover debt service requirements if any of the loans secured by mortgages on units in Opera Plaza (the major redevelopment project benefitting from the bond issue) is in default and a deficiency relative to the bonds exists. The bank's maximum liability under its irrevocable letter of credit is the total amount of principal and interest due on the bonds allocable to the Opera Plaza mortgage loans until sheduled maturity or sinking fund redemption. Advances under the letter of credit are repayable by the Agency from revenues on all mortgage loans related to the bond issue.

(3) In addition to its involvement in the Opera Plaza project as issuer of the letter of credit, the bank will lead a group of lenders providing construction financing to the developer of the residential portion of Opera Plaza and will provide all financing for the commercial portion thereof. The bank's involvement as construction lender and as issuer of the letter of credit is fully disclosed in the official statement for the bond issue.

(4) The questions related to the irrevocable letter of credit relate first to the application of 12 U.S.C. 84 and 12 U.S.C. 82. Under Interpretive Ruling 7.1160, 12 CFR 7.1160, it is clear that the letter of credit is a standby letter of credit and therefore subject to the lending limits of 12 U.S.C. 84. The amount of the Agency's obligation, for this purpose, would be its maximum liability under the letter of credit, as that may vary from time to time. As to the application of 12 U.S.C. 82, we have in the past ruled that a standby letter of credit should come under the bank's indebtedness limitation where it is, in effect, a repurchase agreement for loans being sold out of the bank's portfolio. Since the bank is not originating any of the mortgage loans to be purchased with the bond proceeds, the standby letter of credit does not appear to be in the nature of a repurchase agreement subject to 12 U.S.C. 82. This view is not altered by the fact that the bond proceeds will, in part, be used indirectly to provide the funds for repayment of the construction loans made by the bank. However, because of the potential risk faced by the bank on its letter of credit in this type of situation, we recognize that unforeseen factors may render the letter of credit the equivalent of a repurchase agreement. Accordingly, we do not believe that this letter should be used as a precedent for any transactions other than the one before us at the moment.

(5) The final point concerning the bank's letter of credit relates to the question of whether the bank's multiple roles with respect to the securities present any conflict of interest. The bank has fully and adequately disclosed these roles. Nevertheless, we note in this regard that the Municipal Securities Rulemaking Board in its Rule G–25, prohibits municipal securities dealers from guaranteeing their customers against loss under certain circumstances in connection with the securities they sell. While we believe this provision may not be intended to reach traditional banking activities, such as the issuance of standby letters of credit covering the risk of default by a third party, we express no opinion on the proper application of this rule.

(c) *Ruling.* Your final question concerns the eligibility of these bonds for underwriting by national banks. The provisions of paragraph Seventh of 12 U.S.C. 24 indicate that a national bank may underwrite and deal in revenue securities issued by an agency of a state or political subdivision for housing purposes, subject to the limit of 10 percent of the bank's capital and surplus, provided the securities are otherwise eligible for purchase by the bank. The Redevelopment Agency of the City and County of San Francisco is a public body corporate and politic organized under the Health and Safety Code of California and is thus an agency of a state or political subdivision. The bonds are clearly issued for housing purposes, since no portion of the proceeds will be used to fund mortgage loans on the commercial portions of the redevelopment projects. Therefore, as long as the bonds are otherwise eligible for purchase by national banks, *i.e.*, as long as they satisfy the marketability and investment quality tests of the definition of investment security—they will be eligible under paragraph Seventh of 12 U.S.C. 24 for underwriting and dealing in, subject to the 10 percent limitation with respect to aggregate holdings of housing obligations issued by the Redevelopment Agency of the City and County of San Francisco. (Letter dated June 10, 1980.)

§ 493 Michigan State Hospital Finance Authority (Henry Ford Hospital).

(a) *Request.* Ruling on the eligibility of $47,000,000 Michigan State Hospital Finance Authority, Hospital Revenue and First Mortgage Bonds (Henry Ford Hospital), Series B for dealing in, underwriting and holding by national banks under paragraph Seventh of 12 U.S.C. 24 subject to the ten percent limitation thereof.

(b) *Opinion.* (1) The Michigan State Hospital Finance Authority is a public body corporate and politic of the State created by the Michigan Hospital Finance Authority Act in 1969. The Act declares that it is essential for the benefit of the people of the state and the improvement of their health, welfare and living conditions that hospitals within the state be provided with appropriate means to maintain, expand and establish health care, hospitals and other related facilities. The Authority is authorized by the Act to issue its bonds

to finance and refinance the construction of health facilities.

(2) The Authority is issuing these bonds principally to finance the construction and equipping of a seven-floor clinical services building and for the remodeling of an existing clinic building at the Henry Ford Hospital. The new building which will be adjacent and connected to an existing 17-story clinic building will include an emergency room having direct access to operating room facilities, intensive care beds, radiology and laboratory facilities, an extension of the surgical suite and recovery room.

(3) The Henry Ford Hospital is a private non-profit corporation located in the south central section of Detroit. It opened in 1918 and now serves a diverse patient population. In addition to the Main Clinic associated with the Hospital, it operates three satellite clinics at suburbs to the west, northwest and north of Detroit. It serves as a regional referral center for communities throughout Southeastern Michigan and the Midwest and engages in extensive teaching and research programs. The Hospital's medical staff consists of approximately 350 medical doctors. In addition, house staff (interns and residents) number 350. All members of the staff are full time and salaried with their practice limited to the Hospital.

(4) The Hospital is a primary affiliate of the University of Michigan, a relationship which began in 1969. As a result of the affiliation, 124 members of the Medical Staff of the Hospital currently hold faculty appointments at the University of Michigan. In addition, the Director of Medical Education is an Assistant Dean of the University of Michigan Medical School. Some third year students in the University of Michigan Medical School spend that entire year in a clinical clerkship at the Hospital. These are therefore full time University students conducting their studies at the Hospital under the direction of Hospital staff who are members of the faculty of the University of Michigan. A number of fourth year students also spend one or more months in training at the Hospital. In 1979 a total of 157 such fourth year students spent an average of two months at the Hospital.

(5) The University Hospital at the University of Michigan is not large enough to accommodate the Medical School's needs, particularly in connection with the third year clinical studies, and Henry Ford Hospital, therefore, serves a significant function in the undergraduate education program.

(6) Henry Ford Hospital is further important to the undergraduate training function in that it provides a patient population having different characteristics than the University of Michigan Hospital, or the other three hospitals with which the University has a similar affiliation. This patient population is somewhat more aged and provides a much broader spectrum of ethnic, cultural, and social backgrounds. Furthermore the Hospital probably has a more active emergency room with attendant opportunity for education and experience with trauma and trauma-related conditions.

(7) Graduate medical education is provided in the programs for interns and residents which offer 31 specialty and subspecialty areas. Approximately 350 persons are currently in these programs. Such programs are substantially similar to those available at the University of Michigan Hospital and those who successfully complete such programs take the same examination and receive the same certificate from the same national residency and/or accreditation boards as is the case with those completing such programs at the University of Michigan.

(8) The educational, clinical and research programs of the Hospital and its affiliation with the University indicates that both institutions have a common concern at the University level for the education and training of doctors and for health services education and research generally.

(c) *Ruling.* It is our conclusion that the $47,000,000 Michigan State Hospital Finance Authority, Hospital Revenue and First Mortgage Bonds (Henry Ford Hospital), Series B are issued by an agency of a State for university purposes and are eligible under paragraph Seventh of 12 U.S.C. 24 for dealing in, underwriting and holding by national banks within the ten percent limitation with respect to aggregate holdings of obligations issued by the Michigan State Hospital Finance Authority. (Letter dated July 14, 1980.)

§ 494 Granite School District Tax Anticipation Notes (Salt Lake County, Utah).

(a) *Request.* Ruling on the eligibility of the $5,000,000 Tax Anticipation Notes, Series 1980, to be issued by the Board of Education of Granite School District, Salt Lake County, Utah, for underwriting, dealing in, and unlimited holding by national banks pursuant to paragraph Seventh of 12 U.S.C. 24.

(b) *Opinion.* (1) The notes are being issued by the Board of Education for the purpose of maintaining schools within the district, purchasing school sites, and erecting school buildings during the fiscal year of the Board, beginning July 1, 1980, and ending June 30, 1981. The notes will be dated August 1, 1980, and will mature on June 30, 1981. They will be issued in anticipation of taxes to be levied and collected during the fiscal year beginning July 1, 1980. The Board will covenant to levy taxes on property within the district sufficient to pay principal of and interest on the notes as they come due and will appropriate a sufficient fund for the payment of the principal of and interest on the notes as they come due.

(2) The Constitution of the State of Utah limits debts of school district *inter alia* to the revenues of the current year unless approved by the voters. Utah Const. art. XIV, § 3; *Muir v. Murray City*, 186 P. 433 (Utah 1920). Consistent with this provision, Utah law permits school districts to borrow money and issue notes or bonds therefor "not in excess of the taxes and other estimated revenues of the school district for the current school year." Utah Code Ann. § 53-10-1. The statute provides that the borrowing may take place prior to imposition or collection of the taxes and revenues. It further states that the Board of Education of the school district may covenant to provide for "the imposition and collection of sufficient taxes and other revenues to pay such indebtedness."

(3) Judicial decisions in the State of Utah indicate that municipalities and political subdivisions in the State may, pursuant to the referenced constitutional and statutory authority, incur indebtedness in anticipation of tax and other revenues, provided such debt does not exceed the potential revenues for the current year, and provided further that the municipality or political subdivision intends to repay the debt with those current year's revenues. The legality of the debt will be determined as of the time it is incurred and will not be altered by subsequent events, such as the failure to levy or collect the requisite tax revenues. Thus, the Utah Supreme Court, in a similar context stated:

> So long as the proposed indebtedness is within the potential revenue of the city for the current year, we are unable to see any reason or lack of authority on the part of the city commissioners to create such indebtedness. Any failure on the part of the city authorities to levy a tax necessary to repay such indebtedness could not defeat the indebtedness or render it any less a legal and binding obligation against the city.

Dickinson v. Salt Lake City, 195 P. 1110, 1112 (Utah 1921). If the issuer meets the legal requirements stated above, then the debt may be repaid from income of a subsequent year even if

unforeseen events render current revenues inadequate.

State v. Spring City, 260 P.2d 527, 529 (Utah, 1953).

(4) The approved budget of the Granite School District for fiscal year 1981 provides for the payment of all current obligations, including principal of and interest on these notes, out of current revenues, including ad valorem property taxes. The district thus intends to use only its potential current revenues for repayment of the notes. Accordingly, the notes will be a legal debt of the district under the relevant Utah law and will constitute a continuing obligation on the district if, for any reason, current revenues prove inadequate for repayment of the notes.

(c) *Ruling.* It is therefore our conclusion that the $5,000,000 Tax Anticipation Notes, Series 1980, of the Board of Education of Granite School District, Salt Lake County, Utah, are a general obligation of the district and are therefore eligible for underwriting, dealing in, and unlimited holding by national banks pursuant to paragraph Seventh of 12 U.S.C. 24. (Letter dated July 28, 1980.)

§ 495 Health and Education Facilities Board, Shelby County, Tennessee (Methodist Hospital Project).

(a) *Request.* Ruling on the eligibility of the $72,700,000 Health and Education Facilities Board of the County of Shelby, Tennessee (Methodist Hospital Project) Bonds for dealing in, underwriting and holding by national banks under paragraph Seventh of 12 U.S.C. 24 subject to the ten percent limitation thereof.

(b) *Opinion.* (1) The Health and Education Facilities Board of the County of Shelby, Tennessee is a public corporation, an instrumentality of the County of Shelby, created in accordance with the Tennessee Health and Education Facilities Act of 1969. The Act declares that ". . . for the benefit of the people of the State of Tennessee, the increase of their commerce, welfare and prosperity and the improvement and maintenance of their health and living conditions, it is essential that the people of this state have access to adequate medical care and hospital facilities . . . and that the youth of this state be given the fullest opportunity to learn and to develop their intellectual and mental capacities; . . . it is the purpose of this chapter to provide a measure of assistance and an alternative method to enable hospital institutions . . . to provide facilities which are solely needed to accomplish the purposes of this chapter . . . ."

(2) The Board is issuing these bonds principally to finance the construction and equipping of a three floor base and six floor nursing tower for the Methodist Hospital. The new building will be adjacent to and connected to the other existing hospital facilities, including emergency room, operating room facilities, intensive care unit, laboratory facilities, surgical suites, and recovery rooms.

(3) The Methodist Hospital is a private non-profit corporation located in the medical center area of mid-town Memphis. The Hospital is over 50 years old and serves a diverse patient population. In addition to the main hospital facilities, it operates two satellite clinics and hospitals in suburban areas of Memphis. The Hospital's medical staff consists of approximately 850 medical doctors, plus approximately 125 interns and residents and approximately 1,800 nursing personnel.

(4) In Memphis the College of Medicine of the University of Tennessee, which has no large hospital of its own, has long used existing community facilities in educating medical students, interns and residents. Four years ago a fifty year contract expired between the University and the City of Memphis Hospital. This permitted the University to strengthen its relationship with Methodist and other community hospitals, all of which it now regards as major teaching resources for the University.

(5) The affiliation of the University with Methodist Hospital involves numerous teaching programs, including pathology, internal medicine, ophthalmology, orthopedic medicine and surgery. As a result of the affiliation, 275 members of the Medical Staff of the Hospital currently hold teaching appointments at the University of Tennessee. The University anticipates appointing in the near future a Methodist Hospital staff doctor as an Assistant Dean of the University. Third and fourth year students in the University's College of Medicine take clinical clerkship courses through hospital rotations and are assigned by University departments to the Hospital.

(6) Methodist Hospital provides extensive educational training to nurses and technicians through its allied health programs. The Hospital currently has 385 nursing students and 124 non-nursing students in the allied health programs.

(7) Allied health programs include, but are not limited to, radiologic technology, histotechnology, respiratory therapy, medical technology, and physical therapy. These programs and the associated clinical training provided by the Hospital will allow 71 of the 124 allied health students to receive college degrees. The nursing program of the Hospital will provide students with 48 college credit hours and is recognized as three semesters for credit purposes. Credit affiliation agreements are primarily with Memphis State University School of Nursing and the University of Tennessee Center for the Health Sciences. Although the exact number of students pursuing a college Bachelor of Science degree in nursing is not known, approximately 30% of the 385 Hospital nursing students continue their education at the university level after completing the Methodist Hospital nursing program.

(8) Graduate medical education is provided in the programs for interns and residents which offer numerous specialty and sub-specialty areas. Approximately 150 persons are currently in these programs.

(9) The educational, clinical and research programs of the Hospital and its affiliation with the University of Tennessee and Memphis State University indicates that these institutions have a common concern at the University level for the education and training of doctors and nurses and for health services education and research generally.

(c) *Ruling.* It is our opinion that the $72,700,000 Health and Education Facilities Board of the County of Shelby, Tennessee (Methodist Hospital Project) Bonds are issued by an agency of a political subdivision of a State for university purposes and are eligible under paragraph Seventh of 12 U.S.C. 24 for dealing in, underwriting and holding by national banks within the ten percent limitation with respect to aggregate holdings of obligations issued by such board. (Letter dated September 11, 1980.)

§ 496 New York State Urban Development Corporation.

(a) *Request.* Ruling on the eligibility of $70,470,000 New York State Urban Development Corporation, Revenue Bonds, 1980 Series A, for purchase, dealing in and holding by national banks under paragraph Seventh of 12 U.S.C. 24.

(b) *Opinion.* (1) The New York State Urban Development Corporation is a corporate governmental agency of the State, a political subdivision and a public benefit corporation created in April 1968 by the New York State Urban Development Corporation Act. Prior to 1975 UDC acted primarily as a lender to low, moderate and middle income residential projects.

(2) The proceeds of these bonds will be used to purchase certain general purpose bonds issued by UDC in 1974 which have relatively short terms to maturity and which require correspondingly higher payments of debt service in each year than bonds previously issued by UDC. The 1980 Series A bonds will have a term to maturity of approximately thirty-one years and the application of the proceeds to the purchase and cancellation of the 1974 bonds will reduce UDC's annual debt service requirements through 1984.

(3) Debt service on the 1980 bonds will be payable from pledged revenues consisting primarily of subsidy payments from the United States Department of Housing and Urban Development (HUD). Annual payments from HUD plus certain other investment income are required to at least equal 1.3 times the maximum debt service on the Bonds. The payments from HUD are interest reduction subsidy payments made pursuant to contracts between UDC and HUD under Section 236(b) of the National Housing Act with respect to a group of 34 mortgages owned by UDC which will be pledged to secure the Bonds. UDC has the right at any time to add mortgages on other projects and the related HUD subsidy contracts to the lien of the General Resolution in order to satisfy this requirement.

(c) *Ruling.* It is our conclusion that the $70,470,000 New York State Urban Development Corporation, Revenue Bonds, Series A, are issued by an agency of a State for housing purposes and are eligible under paragraph Seventh of 12 U.S.C. 24 for purchase, dealing in, underwriting and holding by national banks within the ten percent limitation with respect to the revenue obligations of UDC. (Letter dated October 28, 1980.)

Dated: March 6, 1981.

John G. Heimann,

Comptroller of the Currency.

BILLING CODE 4810-33-M

FEDERAL HOME LOAN BANK BOARD

12 CFR Part 556

[No. 81-126]

Amendment of Policy Statement on Branching

March 5, 1981.

AGENCY: Federal Home Loan Bank Board.

ACTION: Final rule.

SUMMARY: The Federal Home Loan Bank Board is correcting its recently-adopted policy statement on branching of Federal associations to be consistent with the provisions regarding undue injury considerations in the new regulations on branching of Federal associations.

EFFECTIVE DATE: March 5, 1981.

FOR FURTHER INFORMATION CONTACT: Michael D. Schley [(202) 377-6444], Attorney, Office of General Counsel, Federal Home Loan Bank Board, 1700 G Street, N.W., Washington, D.C. 20552.

SUPPLEMENTARY INFORMATION: Section 545.14(a) of the Board's Federal Savings and Loan System regulations (12 CFR 545.14(a)) provides that branch offices of Federally-chartered savings and loan associations may not be established without prior written approval of the Board or its Principal Supervisory Agent. Since 1964, the Board's regulations on branch offices have required as a condition of approval that "the branch can be established without undue injury to properly conducted existing local thrift and home-financing institutions" (12 CFR 545.14(h)(1)(i); see 29 FR 18154, Dec. 22, 1964). This "undue injury" criterion was adopted verbatim from section 5(e) of the Home Owners' Loan Act (12 U.S.C. 1464(e)), which prohibits the granting of a Federal charter unless the new institution "can be established without undue injury to properly conducted existing local thrift and home-financing institutions." The Board has historically construed this language to require consideration of undue injury solely to thrift institutions engaged in home financing. The Board's historical interpretation of the language has been consistently upheld by the courts. (See Bank of Ozark v. Federal Home Loan Bank Board, 402 F. Supp. 162 (W.D. Ark. 1975).)

On May 5, 1980, the Board adopted new regulations regarding branch offices of Federal associations (45 FR 31046, May 12, 1980). Although this action substantially revised the Board's requirements and procedures relating to branch offices, the new regulations retained verbatim the undue injury test found in the old regulations. (See 12 CFR 545.14(h) (1981).) The new regulations became effective on January 1, 1981.

The Board adopted on December 4, 1980, a policy statement on branching that appears at 12 CFR 556.5 (45 FR 83196, Dec. 16, 1980). The policy statement complements the branching regulations by interpreting their provisions and setting forth a general statement of the Board's policies regarding branching of Federal associations. The policy statement erroneously stated that § 556.5(d) provides for disapproval of a branch application if the proposed branch office would cause undue injury to "any properly conducted local thrift *or* home-financing institution" (emphasis supplied). The preamble to the policy statement explained that this language was intended to encompass non-thrift institutions, such as commercial banks, if they are sufficiently engaged in home financing. The new policy statement became effective on January 1, 1981, along with the new branching regulations.

By this action, the Board is amending § 556.5(d) of the policy statement to provide for consideration of undue injury to "thrift and home financing institutions." The effect of this amendment is to correct the inadvertent error in the policy statement, and to make the language of the policy statement consistent with that of the branching regulations to make clear that the Board is continuing its existing policy to consider undue injury solely to thrift institutions engaged in home financing and not to other types of financial institutions such as commercial banks.

The new language of the undue injury test in the policy statement has given rise to confusion because it is inconsistent with the language of the branching regulations. The policy statement requirement that the Board consider the undue injury protest of a "thrift or home-financing institution" is not consistent with the well-established meaning of the language "thrift and home-financing institutions" found in the branching regulations. This inconsistency creates uncertainty as to the state of the law regarding undue injury considerations in branching activities of Federal associations. In the interest of preventing further confusion of the public, the Board has determined that prompt correction of this inconsistency is desirable.

The Board finds that observance of the notice and comment period and 30-day delay of effective date provided by 12 CFR 508.12 and 508.14 and 5 U.S.C. 553 is unnecessary because this amendment constitutes a clarification of the Board's existing policy. The amendment becomes effective immediately in order to prevent further confusion due to the present inconsistency between the Board's policy statement and regulations on branching.

Accordingly, the Board hereby amends Part 556, Subchapter C, Chapter V of Title 12, Code of Federal Regulations, as set forth below.

SUBCHAPTER C—FEDERAL SAVINGS AND LOAN SYSTEM

PART 556—STATEMENTS OF POLICY

Amend the first sentence of subparagraph (d) of § 556.5, to read as follows:

§ 556.5 Establishment of branch offices.

* * * * *

(d) *Undue injury.* A branch will not be approved if its establishment will have a substantial adverse economic impact on any properly conducted local thrift and home-financing institution. * * *

* * * * *

(12 U.S.C. 1464; Reorg. Plan No. 3 of 1947, 12 FR 4981, 3 CFR 1943–48 Comp., p. 1071)

By the Federal Home Loan Bank Board.

J. J. Finn,

Secretary.

BILLING CODE 6720-01-M

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 39

[Airworthiness Docket No. 67-SW-66; Amdt. 39-4060]

Bell Model 47 Series Helicopters; Airworthiness Directives

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment amends an existing Airworthiness Directive (AD) applicable to certain Bell Model 47 series helicopters by extending the date for mandatory installation of the improved tail rotor blade kit. A sufficient number of parts of the kit are not available from Bell Helicopter Textron (BHT) to permit compliance with this part of the AD for many operators.

DATE: Effective February 28, 1981. Compliance required as indicated in the AD.

ADDRESS: A copy of letters and information concerning this matter may be examined in the docket file of Regional Counsel, FAA, Southwest Region, 4400 Blue Mound Road, Fort Worth, Texas.

FOR FURTHER INFORMATION CONTACT: J. H. Major or H. A. Armstrong, Airframe Section, Engineering and Manufacturing Branch, ASW-212, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Texas 76101, telephone number (817) 624–4911, extension 515.

SUPPLEMENTARY INFORMATION: This amendment amends Amendment 39–3770 (45 FR 32659), AD 80–10–04, which currently requires replacement of tail rotor blades, P/N 47–642–102, prior to or on attaining 300 hours' total time in service after June 9, 1980, on certain Bell Helicopter Textron (BHT) Model 47 and OH–13 series helicopters. The AD also requires installation of the improved tail rotor blades on or before February 28, 1981. After issuing Amendment 39–3770, BHT provided further information that an adequate supply of improved tail rotor kits may not be available to meet the actual demands for compliance by the date of February 28, 1981. Letters were also received from many Bell Model 47 operators confirming this information and requesting an extension to this date. Both standard and restricted category helicopter operators have requested this relief to allow continued operations until BHT can fulfill the demand for improved tail rotor blade kits.

Amendment 39–3770, AD 80–10–04, was issued because of tail rotor blade failures on standard and restricted category helicopters. The FAA has determined from operators and BHT that scores of helicopters could not be modified by February 28, 1981, as prescribed by the AD due to a shortage of parts. Therefore, it is in the public's interest to extend the date to November 30, 1981. Retiring blades, P/N 47–642–102, prior to or on attaining 300 hours' total time in service and complying with the frequent inspections specified in AD 70–10–6 for these blades should maintain airworthiness of the affected helicopters until installation of the improved tail rotor blade kit is accomplished. Therefore, the FAA is amending amendment 39–3770 by extending the date from February 28, 1981, to November 30, 1981, to allow continued operation until the improved tail rotor blade kits are available and installed.

Since this amendment relieves a restriction by extending the compliance date and imposes no additional burden on any person, notice and public procedure hereon are unnecessary, and the amendment may be made effective in less than 30 days.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, Section 39.13 of Part 39 of the Federal Aviation Regulation (14 CFR 39.13), Amendment 39–3770 (45 FR 32659), AD 80–10–04 paragraph (c), is amended by deleting February 28, 1981, and inserting November 30, 1981.

This amendment becomes effective February 28, 1981.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, and 1423); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); 14 CFR 11.89)

Note.—The FAA has determined that this document involves a regulation which is not significant under Department of Transportation Regulatory Policies and Procedures (44 FR 11034; February 26, 1979). In addition, the FAA has determined that this regulation is an emergency regulation under the President's memorandum of January 29, 1981, and an emergency regulation that is not major under Section 8 of Executive Order 12291. It is impracticable for the agency to follow the procedures of Order 12291 with respect to this rule since the rule must be issued immediately to prevent an undue burden on aircraft operators. It has been further determined that this document involves an emergency regulation under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979). If this action is subsequently determined to involve a significant regulation, a final regulatory evaluation or analysis, as appropriate, will be prepared and placed in the regulatory docket (otherwise, an evaluation is not required). A copy of it, when filed, may be obtained by contacting the person identified above under the caption "For Further Information Contact."

This rule is a final order of the Administrator under the Federal Aviation Act of 1958, as amended. As such, it is subject to review only by the courts of appeals of the United States, or the United States Court of Appeals for the District of Columbia.

Issued in Fort Worth, Texas, on February 27, 1981.

C. R. Melugin, Jr.,

Director, Southwest Region.

[FR Doc. 81-7527 Filed 3-11-81; 8:45 am]

BILLING CODE 4910-13-M

14 CFR Part 39

[Docket No. 21482; Amdt. 39-4065]

British Aerospace Model HS/DH/BH–125 Series Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new airworthiness directive (AD) that requires a one time inspection of the left engine fuel feed line for adequate clearance between that line and the flap control unit input lever, and correction as necessary, on certain British Aerospace HS/DH/BH–125 series airplanes. This AD requires actions to prevent interference between the flap

control unit input lever and the left engine fuel feed line which could result in restricted movement of the flap system and release of flammable fluids.

DATE: March 26, 1981.

Compliance required within 50 hours after the effective date of this AD.

ADDRESSES: The applicable service bulletin may be obtained from:

British Aerospace, Aircraft Group
Hatfield-Chester Division
Hatfield, Hertfordshire
England

A copy of the service bulletin is contained in the Rules Docket, Room 916, FAA, 800 Independence Avenue, SW., Washington, DC 20591.

FOR FURTHER INFORMATION CONTACT: C. Christie, Chief, Aircraft Certification Staff, AEU-100, Europe, Africa and Middle East Office, FAA, c/o American Embassy, Brussels, Belgium, Telephone: 513.38.30, or C. Chapman, Acting Chief, Technical Standards Branch, AWS-110, FAA 800 Independence Avenue, SW., Washington, DC 20591, Telephone: 202-426-8374.

SUPPLEMENTARY INFORMATION: There have been reports that insufficient clearance can exist between the flap control unit input lever and the left engine fuel feed line on certain British Aerospace HS/DH/BH-125 series airplanes which could restrict movement of the flap system or chafe the left engine fuel feed line and permit release of flammable fluid into unprotected zones of the airplane which could cause an uncontrollable fire. Since this condition is likely to exist or develop on other airplanes of the same type design, an airworthiness directive is being issued which requires a one time inspection for recommended clearance between the flap control unit input lever and the left engine fuel feed line, correction of any improper clearance, detected, and replacement of the left engine fuel feed line if chafing or other damage is found to exist.

Since a situation exists that requires the immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

Adoption of the Admendment

Accordingly, pursuant to the authority delegated to me by the Administrator, § 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) is amended by adding the following new airworthiness directive:

British Aerospace. Applies to Model HS/DH/BH-125 airplanes series 3A/R, -3A/RA, and -3A/RA with British Aerospace Modification 25/2600 installed; series -400A and -400A with British Aerospace Modification 25/2550 or STC SA3870WE installed; and series -600A and -600A with British Aerospace Modification 25/2668 installed, certificated in all categories.

Compliance is required as indicated, unless already accomplished.

To prevent restricted movement of the flap control unit input lever and chafing of the left engine fuel line due to possible interferences, accomplish the following:

(a) Within 50 hours time in service after the effective date of this AD, inspect:

(1) For chafing of the left engine fuel feed line; and

(2) For recommended clearance between the fuel feed line and the flap control unit input lever in accordance with paragraph 2A(1), (2), and (3) of the Accomplishment Instructions of British Aerospace Service Bulletin 28-60, Revision 1, dated June 25, 1979 (hereinafter referred to as the service bulletin) or an equivalent approved by the Chief, Aircraft Certification Staff, Federal Aviation Administration, Europe, Africa, and Middle East Office, Brussels, Belgium.

(b) If as a result of the inspections required in paragraph (a) of this AD—

(1) Chafing or other damage to the fuel line is found, before further flight, except that aircraft may be flown in accordance with FAR § 21.197 to a base where the work can be performed, replace the fuel line with a serviceable fuel line of the same P/N.

(2) Clearance between the engine fuel feed line and the flap control unit input lever is found to be less that 0.15 inches, before further flight, increase the clearance in accordance with paragraph 2A(4) of the service bulletin.

(c) Upon completion of the actions required in paragraphs (a) and (b) of this AD, return the aircraft to service in accordance with paragraphs 2A(5) and 2A(6) of the service bulletin.

This amendment becomes effective March 26, 1981.

The manufacturer's specifications and procedures identified and described in this directive are incorporated herein and made a part hereof pursuant to 5 U.S.C. 552(a)(1). All persons affected by this directive who have not already received these documents from the manufacturer may obtain copies upon request to British Aerospace, Aircraft Group, Hatfield-Chester Division, Hatfield, Hertfordshire, England. These documents may be examined at FAA Headquarters, Room 916, 800 Independence Avenue, SW., Washington, DC 20591.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, and 1423); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); 14 CFR 11.89)

Note.—The FAA has determined that this regulation is an emergency regulation under the President's memorandum of January 29, 1981, and an emergency regulation that is not major under Section 8 of Executive Order 12291. It is impracticable for the agency to follow the procedures of Order 12291 with respect to this rule since the rule must be issued immediately to correct an unsafe condition in aircraft. It has been further determined that this document involves an emergency regulation under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979). If this action is subsequently determined to involve a significant regulation, a final regulatory evaluation or analysis, as appropriate, will be prepared and placed in the regulatory docket (otherwise, an evaluation is not required). A copy of it, when filed, may be obtained by contacting the person identified above under the caption "For Further Information Contact".

This rule is a final order of the Administrator under the Federal Aviation Act of 1958, as amended. As such, it is subject to review only by the courts of appeals of the United States, or the United States Court of Appeals of the District of Columbia.

Issued in Washington, DC, on March 3, 1981.

M. C. Beard,
Director of Airworthiness.

Note.—The incorporation by reference provision in this document was approved by the Director of the Federal Register on June 19, 1967.

14 CFR Part 39

[Docket No. 81-NW-9-AD, Amdt. 39-4069]

Frost Engineering Development Corporation Emergency Descent Devices Installed on Boeing 747, Lockheed L-1011, and Airbus Industrie A-300 Airplanes; Airworthiness Directives

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This rule adopts a new Airworthiness Directive (AD) which requires inspection and replacement as necessary of Frost Engineering Development Corporation Emergency Descent Devices installed on Boeing 747, Lockheed L-1011, and Airbus Industrie A-300 airplanes. On several of these descent devices, the handle straps and descent lines were made from a type of

metal which is subject to corrosion, and instances have been reported where the corrosion progressed to the point the handle straps were broken. This action is necessary to ensure that the descent devices will function properly if used during an evacuation.

DATES: Effective date March 19, 1981.

ADDRESSES: The service bulletins specified in this directive may be obtained upon request to Frost Engineering Development Corporation, P.O. Box 1294, Englewood, Colorado 80150. These documents may be examined at FAA Northwest Region, 9010 East Marginal Way South, Seattle, Washington 98108.

FOR FURTHER INFORMATION CONTACT: Mr. Roger S. Young, Airframe Branch, ANW-120S, Seattle Area Aircraft Certification Office, FAA Northwest Region, 9010 East Marginal Way South, Seattle, Washington 98108, telephone (206) 767-2516.

SUPPLEMENTARY INFORMATION: Several Frost Engineering Development Corporation Emergency Descent Devices have been found to have broken handle straps. This breakage has been attributed to corrosion. Investigation disclosed that the straps which corroded were made from Type 420 stainless steel instead of Type 302, 304, or 316 stainless steel. Type 420 stainless steel handle straps are magnetic. The handle straps can be inspected in the airplane by using a small magnet. Type 420 stainless steel is more susceptible to corrosion than the other types. The descent lines on some of the descent devices, P/N 379103-1 serial numbers below 0134, were also made from Type 420 stainless steel.

Separation of the handle straps or descent lines could result in serious injury during an evacuation. These devices are used primarily by the flight crew, and are not utilized as an emergency means of evacuation for passengers.

It is estimated that 550 aircraft worldwide will be affected by this action, that the required inspections will take approximately ½ manhour per airplane, and that the average labor cost will be $35 per hour. Based on these assumptions the total cost of the inspections required by this Airworthiness Directive is estimated to be approximately $10,000. Of the units inspected, it is anticipated that no more than 200 will require replacement, and that replacement with an overhauled unit will cost $75. Based on these assumptions the fleetwide cost for replacement of the affected units is estimated to be no more than $15,000. The total cost impact of this action is therefore estimated to be approximately $25,000.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days. It has been determined that this regulation is an emergency regulation under the President's memorandum of January 29, 1981.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, § 39.13 of the Federal Aviation Regulations (14 CFR 39.13) is amended by adding the following new Airworthiness Directive:

Frost Engineering Development Corporation Emergency Descent Devices Installed on Boeing 747, Lockheed L-1011, and Airbus Industrie A-300 Airplanes

Compliance required as indicated. To prevent failure of emergency descent devices accomplish the following:

A. Within 30 days from the effective date of this AD, unless already accomplished, inspect Frost Engineering descent devices for broken handle straps in accordance with paragraph 2, steps (1), (2), and (4) of Frost Engineering Development Corporation Service Bulletin 379103-25-002 dated September 29, 1980, or in a manner approved by the Chief, Seattle Area Aircraft Certification Office, FAA Northwest Region.

B. Descent devices found to have a broken handle strap must be modified in accordance with paragraph 2, steps (6) through (9) of Frost Engineering Development Corporation Service Bulletin 379103-25-002 dated September 29, 1980, or in a manner approved by the Chief, Seattle Area Aircraft Certification Office, FAA Northwest Region.

C. Within 120 days from the effective date of this AD, unless already accomplished, modify the descent devices found to have a magnetic handle strap in accordance with paragraph 2, steps (5) through (9) of Frost Engineering Development Corporation Service Bulletin 379103-25-002 dated September 29, 1980, or in a manner approved by the Chief, Seattle Area Aircraft Certification Office, FAA Northwest Region.

D. Within 120 days from the effective date of this AD, replace descent devices P/N 379103-1, serial numbers 1 through 0134, with other FAA approved descent devices.

E. Upon request of the operator, and subject to prior approval by the Chief, Seattle Area Aircraft Certification Office, FAA Northwest Region, an FAA Aviation Safety Inspector may adjust the compliance times if the request contains substantiating data to justify the change.

The manufacturer's specification and procedures identified and described in this directive are incorporated herein and made a part hereof pursuant to 5 U.S.C. 552(a)(1).

All persons affected by this directive who have not already received these documents from the manufacturer, may obtain copies upon request to Frost Engineering Development Corporation, P.O. Box 1294, Englewood, Colorado 80150. These documents may also be examined at FAA Northwest Region, 9010 East Marginal Way South, Seattle, Washington 98108.

This amendment becomes effective March 19, 1981.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, and 1423); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.89)

Note.—The FAA has determined that this regulation is an emergency regulation under the President's memorandum of January 29, 1981, and an emergency regulation that is not major under Section 8 of Executive Order 12291. It is impracticable for the agency to follow the procedures of Order 12291 with respect to this rule since the rule must be issued immediately to correct an unsafe condition in aircraft. It has been further determined that this document involves an emergency regulation under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979). If this action is subsequently determined to involve a significant regulation, a final regulatory evaluation or analysis, as appropriate, will be prepared and placed in the regulatory docket (otherwise, an evaluation is not required). A copy of it, when filed, may be obtained by contacting the person identified above under the caption "For Further Information Contact".

This rule is a final order of the Administrator under the Federal Aviation Act of 1958, as amended. As such, it is subject to review only by the courts of appeals of the United States, or the United States Court of Appeals for the District of Columbia.

Issued in Seattle, Washington, on February 27, 1981.

Charles R. Foster,

Director, Northwest Region.

The incorporation by reference provisions in the document were approved by the Director of the Federal Register on June 19, 1967.

BILLING CODE 4910-13-M

---

14 CFR Part 97

[Docket No. 21372; Amdt. No. 1184]

Standard Instrument Approach Procedures; Miscellaneous Amendments

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment establishes, amends, suspends, or revokes Standard Instrument Approach Procedures (SIAPs) for operations at certain airports. These regulatory actions are needed because of the adoption of new

or revised criteria, or because of changes occurring in the National Airspace System, such as the commissioning of new navigational facilities, addition of new obstacles, or changes in air traffic requirements. These changes are designed to provide safe and efficient use of the navigable airspace and to promote safe flight operations under instrument flight rules at the affected airports.

DATES: An effective date for each SIAP is specified in the amendatory provisions.

ADDRESSES: Availability of matters incorporated by reference in the amendment is as follows:

For Examination

1. FAA Rules Docket, FAA Headquarters Building, 800 Independence Avenue, SW., Washington, D.C. 20591;
2. The FAA Regional Office of the region in which the affected airport is located; or
3. The Flight Inspection Field Office which originated the SIAP.

For Purchase

Individual SIAP copies may be obtained from:

1. FAA Public Information Center (APA-430), FAA Headquarters Building, 800 Independence Avenue, SW., Washington, D.C. 20591; or
2. The FAA Regional Office of the region in which the affected airport is located.

By Subscription

Copies of all SIAPs, mailed once every 2 weeks, may be ordered from Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. The annual subscription price is $135.00.

FOR FURTHER INFORMATION CONTACT: Donald K. Funai, Flight Procedures and Airspace Branch (AFO-730), Aircraft Programs Division, Office of Flight Operations, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, D.C. 20591; telephone (202) 426-8277.

SUPPLEMENTARY INFORMATION: This amendment to Part 97 of the Federal Aviation Regulations (14 CFR Part 97) prescribes new, amended, suspended, or revoked Standard Instrument Approach Procedures (SIAPs). The complete regulatory description of each SIAP is contained in official FAA form documents which are incorporated by reference in this amendment under 5 U.S.C. § 552(a), 1 CFR Part 51, and § 97.20 of the Federal Aviation Regulations (FARs). The applicable FAA Forms are identified as FAA Forms 8260-3, 8260-4 and 8260-5. Materials incorporated by reference are available for examination or purchase as stated above.

The large number of SIAPs, their complex nature, and the need for a special format make their verbatim publication in the **Federal Register** expensive and impractical. Further, airmen do not use the regulatory text of the SIAPs, but refer to their graphic depiction on charts printed by publishers of aeronautical materials. Thus, the advantages of incorporation by reference are realized and publication of the complete description of each SIAP contained in FAA form document is unnecessary. The provisions of this amendment state the affected CFR (and FAR) sections, with the types and effective dates of the SIAPs. This amendment also identifies the airport, its location, the procedure identification and the amendment number.

This amendment to Part 97 is effective on the date of publication and contains separate SIAPs which have compliance dates stated as effective dates based on related changes in the National Airspace System or the application of new or revised criteria. Some SIAP amendments may have been previously issued by the FAA in a National Flight Data Center (FDC) Notice to Airmen (NOTAM) as an emergency action of immediate flight safety relating directly to published aeronautical charts. The circumstances which created the need for some SIAP amendments may require making them effective in less than 30 days. For the remaining SIAPs, an effective date at least 30 days after publication is provided.

Further, the SIAPs contained in this amendment are based on the criteria contained in the U.S. Standard for Terminal Instrument Approach Procedures (TERPs). In developing these SIAPs, the TERPs criteria were applied to the conditions existing or anticipated at the affected airports. Because of the close and immediate relationship between these SIAPs and safety in air commerce, I find that notice and public procedure before adopting these SIAPs is unnecessary, impracticable, or contrary to the public interest and, where applicable, that good cause exists for making some SIAPs effective in less than 30 days.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me, Part 97 of the Federal Aviation Regulations (14 CFR Part 97) is amended by establishing, amending, suspending, or revoking Standard Instrument Approach Procedures, effective at 0901 G.m.t. on the dates specified, as follows:

1. By amending § 97.23 VOR-VOR/DME SIAPs identified as follows:

* * * *Effective April 16, 1981*

Mobile, AL—Bates Field, VOR Rwy 32, Original, cancelled
Parker, AZ—Parker Muni, VOR/DME-A, Original
St. Johns, AZ—St. Johns Muni, VOR/DME-A, Amdt. 1
Burbank, CA—Burbank-Glendale-Pasadena, VOR Rwy 7, Amdt. 2
Los Angeles, CA—Los Angeles Intl, VOR or TACAN Rwy 7L/R, Amdt. 14
Montague, CA—Siskiyou County, VOR-B, Amdt. 3
Palm Springs, CA—Palm Springs Muni, VOR Rwy 30, Original
Reedley, CA—Reedley Muni, VOR-A, Original
Ocala, FL—Ocala Muni (Jim Taylor Field), VOR Rwy 36, Amdt. 11
West Palm Beach, FL—Palm Beach County Park, VOR Rwy 15, Amdt. 2
Donalsonville, GA—Donalsonville Muni, VOR/DME-A, Amdt. 1
Jekyll Island, GA—Jekyll Island, VOR-A, Amdt. 5
East St. Louis, IL—Bi-State Parks, VOR/DME-A, Amdt. 7
Rockton, IL—Wagon Wheel, VOR-A, Amdt. 2, cancelled
New Orleans, LA—Lakefront, VOR-B, Amdt. 5
New Orleans, LA—Lakefront, VOR/DME Rwy 36, Amdt. 2
Slidell, LA—Slidell, VOR/DME-A, Amdt. 1, cancelled
Starkville, MS—Oktibbeha, VOR-B, Amdt. 6
Ava, MO—Bill Martin Memorial, VOR-A, Amdt. 1
Fallon, NV—Fallon Muni, VOR/DME-B, Amdt. 2
Greensboro, NC—Greensboro-High Point-Winston Salem Regional, VOR Rwy 5, Amdt. 8
North Lima, OH—Youngstown Elser Metro, VOR-A, Amdt. 1, cancelled
Youngstown, OH—Youngstown Elser Metro, VOR-C, Original
San Juan, PR—Puerto Rico Intl, VOR Rwy 25, Amdt. 6
Rock Hill, SC—Bryant Field, VOR-A, Amdt. 4
Rock Hill, SC—Bryant Field, VOR/DME-B, Original
Muleshoe, TX—Edward Warren Field, VOR/DME-A, Amdt. 1
Madison, WI—Morey, VOR-A, Amdt. 5
Madison, WI—Morey, VOR-B, Amdt. 4

* * * *Effective March 19, 1981*

Baudette, MN—Baudette Intl, VOR Rwy 12, Original
Baudette, MN—Baudette Intl, VOR Rwy 30, Amdt. 5

* * * *Effective February 3, 1981*

Ames, IA—Ames Muni, VOR Rwy 31, Amdt. 5

** * * Effective January 30, 1981*

Austin, TX—Bird's Nest, VOR/DME–B, Amdt. 2

2. By amending § 97.25 SDF–LOC–LDA SIAPs identified as follows:

** * * Effective April 16, 1981*

Ocala, FL—Ocala Muni (Jim Taylor Field), LOC Rwy 35, Amdt. 2

** * * Effective January 30, 1981*

Harlingen, TX—Harlingen Industrial Airpark, LOC BC Rwy 35L, Amdt. 6

3. By amending § 97.27 NDB/ADF SIAPs identified as follows:

** * * Effective April 16, 1981*

Miami, FL—Tamiami, NDB Rwy 9R, Amdt. 3
Sanford, FL—Sanford, NDB Rwy 9, Amdt. 10
Atlanta, GA—The William B. Hartsfield Atlanta Intl, NDB Rwy 9L, Amdt. 6
Atlanta, GA—The William B. Hartsfield Atlanta Intl, NDB Rwy 9R, Amdt. 6
Cairo, GA—Cairo-Grady County, NDB Rwy 12, Amdt. 1
East St. Louis, IL—Bi-State Parks, NDB Rwy 30, Amdt. 13
Litchfield, IL—Litchfield Muni, NDB Rwy 9, Original
Litchfield, IL—Litchfield Muni, NDB Rwy 27, Amdt. 2
Venice, LA—Garden Island Bay Seaplane Base, NDB–A, Original
Gothenburg, NE—Gothenburg Muni, NDB Rwy 32, Amdt. 1
Oneida, TN—Scott Muni, NDB Rwy 23, Original, cancelled
Falfurrias, TX—Brooks County, NDB Rwy 35, Original

** * * Effective February 3, 1981*

Ames, IA—Ames Muni, NDB Rwy 13, Amdt. 1
Ames, IA—Ames Muni, NDB Rwy 31, Amdt. 7

4. By amending § 97.29 ILS–MLS SIAPs identified as follows:

** * * Effective April 16, 1981*

Burbank, CA—Burbank-Glendale-Pasadena, ILS Rwy 7, Amdt. 26
Los Angeles, CA—Los Angeles Intl, ILS Rwy 6L, Amdt. 2
Los Angeles, CA—Los Angeles Intl, ILS Rwy 6R, Amdt. 8
Los Angeles, CA—Los Angeles Intl, ILS Rwy 7L, Amdt. 15
Los Angeles, CA—Los Angeles Intl, ILS Rwy 7R, Amdt. 1
Sanford, FL—Sanford, ILS Rwy 9, Amdt. 1
Lakeland, FL—Lakeland Muni, ILS/DME Rwy 5, Amdt. 1
Miami, FL—Tamiami, ILS Rwy 9R, Amdt. 1
Atlanta, GA—The William B. Hartsfield Atlanta Intl, ILS Rwy 8, Amdt. 53
Atlanta, GA—The William B. Hartsfield Atlanta Intl, ILS Rwy 26, Amdt. 14
East St. Louis, IL—Bi-State Parks, ILS Rwy 30, Amdt. 2
Hickory, NC—Hickory Muni, ILS Rwy 24, Amdt. 3
North Myrtle Beach, SC—Grand Strand, ILS Rwy 23, Amdt. 3
El Paso, TX—El Paso Intl, ILS Rwy 22, Amdt. 28
Madison, WI—Dane County Regional/Truax Field, ILS Rwy 18, Amdt. 1
Madison, WI—Dane County Regional/Truax Field, ILS Rwy 36, Amdt. 23

** * * Effective April 2, 1981*

St. Louis, MO—Lambert-St. Louis Intl, ILS Rwy 30R, Original

** * * Effective March 19, 1981*

Louisville, KY—Standiford Field, ILS Rwy 1, Amdt. 5

** * * Effective February 11, 1981*

New Haven, CT—Tweed-New Haven, ILS Rwy 2, Amdt. 9
New Beford, MA—New Bedford Muni, ILS Rwy 5, Amdt. 16

** * * Effective February 5, 1981*

Racine, WI—Horlick-Racine, ILS Rwy 4, Amdt. 1

** * * Effective January 30, 1981*

New York, NY—LaGuardia, ILS Rwy 13, Amdt. 1

5. By amending § 97.31 RADAR SIAPs identified as follows:

** * * Effective April 16, 1981*

Beaumont-Port Arthur, TX—Jefferson County, RADAR 1, Amdt. 4
Madison, WI—Morey, RADAR–1, Amdt. 3, cancelled

6. By amending § 97.33 RNAV SIAPs identified as follows:

** * * Effective April 16, 1981*

Sanford, FL—Sanford, RNAV Rwy 9, Amdt. 9
East St. Louis, IL—Bi-State Parks, RNAV Rwy 30, Amdt. 5
Ava, MO—Bill Martin Memorial, RNAV Rwy 31, Amdt. 1
Madison, WI—Morey, RNAV Rwy 13, Amdt. 1

** * * Effective February 3, 1981*

Ames, IA—Ames Muni, RNAV Rwy 13, Amdt. 2
Ames, IA—Ames Muni, RNAV Rwy 31, Amdt. 2

(Secs. 307, 313(a), 601, and 1110, Federal Aviation Act of 1958 (49 U.S.C. §§ 1348, 1354(a), 1421, and 1510); Sec. 6(c), Department of Transportation Act (49 U.S.C. § 1655(c)); and 14 CFR 11.49(b)(3))

Note.—The FAA has determined that this document involves a regulation which is not significant under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979). Since this regulatory action involves an established body of technical requirements for which frequent and routine amendments are necessary to keep them operationally current and promote safe flight operations, the anticipated impact is so minimal that this action does not warrant preparation of a regulatory evaluation. The FAA has also determined that this regulation is an emergency regulation under the President's memorandum of January 29, 1981, and an emergency regulation that is not a major rule under Executive Order 12291. It is impracticable for the agency to follow the procedures of Order 12291 with respect to this rule since the rule must be issued immediately in order to coincide with aeronautical charts which have either already been published or are in the process of publication. An unsafe flying environment would result if the effective rules are not accurately reflected in the charts used by pilots.

Issued in Washington, D.C. on February 27, 1981.

John S. Kern,
Chief, Aircraft Programs Division.

Note.—The incorporation by reference in the preceding document was approved by the Director of the Federal Register on December 31, 1980.

BILLING CODE 4910-13-M

DEPARTMENT OF COMMERCE

Office of the Secretary

15 CFR Part 4a

Classification, Declassification and Public Availability of National Security Information

AGENCY: Office of the Secretary, Department of Commerce.

ACTION: Final rule.

SUMMARY: U.S. Department of Commerce Department Administrative Order 207–2, signed by the Secretary of Commerce effective December 13, 1978, provides for the issuance of a Department of Commerce Handbook of Security Regulations and Procedures. The Handbook comprises a complete set of guidelines and instructions for implementing Executive Order 12065, "National Security Information," and the Information Security Oversight Office Directive No. 1, concerning national security information. The guidelines and instructions will enable Commerce employees to protect national security information and to make available to the public that information which is releasable under these regulations.

EFFECTIVE DATE: September 1980.

FOR FURTHER INFORMATION CONTACT: Alan F. Brown, 202–377–1722.

SUPPLEMENTARY INFORMATION:

Authority

This regulation shall be published in the **Federal Register** in accordance with Section 5–402, E.O. 12065.

Purpose

The Handbook of Security Regulations and Procedures, hereinafter called the "Handbook," prescribes the Department's security policies, procedures and minimum requirements for safeguarding national security information. The Handbook governs the Department of Commerce Information Security Program and takes precedence over all supplemental regulations which implement that program. It establishes

throughout the Department uniform policies, standards, criteria, and procedures for the classification, downgrading, declassification, and safeguarding of national security information.

Responsibility

The Director, Office of Investigations and Security, has overall responsibility for security matters throughout the Department of Commerce. The Director is responsible for implementing within the Department the provisions of Executive Order 12065. All Department of Commerce employees, components, offices, and contractors are bound by these regulations, unless specifically excepted in writing.

For the reasons set out in the Preamble, 15 CFR Part 4a is revised as follows.

PART 4a—CLASSIFICATION, DECLASSIFICATION AND PUBLIC AVAILABILITY OF NATIONAL SECURITY INFORMATION

Subpart A—Classification of National Security Information

Sec.

4a.1 General.
4a.2 Department of Commerce Information Security Program Committee.
4a.3 Classification designations.
4a.4 Classification authority.
4a.5 Duration of classification.

Subpart B—Declassification.

4a.6 Systematic review of declassification.
4a.7 Mandatory review for declassification.
4a.8 Requests under the Privacy Act and the Freedom of Information Act involving classified records.
4a.9 Public availability of declassification information.

Subpart C—Access to Classified Information

4a.10 Access by persons outside the Executive Branch.
4a.11 Access by industrial, educational and commercial entities.
4a.12 Access by historical researchers and former Presidential appointees.
4a.13 Access by foreign nationals, foreign governments, international organizations and immigrant aliens.

Authority: Sec. 5-402, D E.O. 12065.

Subpart A—Classification of National Security Information

§ 4a.1 General.

Executive Order 12065, as implemented by this Part 4a (this Handbook), provides the only basis for classifying information within the Department, except as provided in the Atomic Energy Act of 1954. It is the policy of the Department of Commerce to make available to the public as much information concerning its activities as possible consistent with the need to protect the national security. Accordingly, security classification shall be applied only to protect the national security.

§ 4a.2 Department of Commerce Information Security Program Committee.

(a) By memorandum of December 22, 1978, the Secretary has established the Department of Commerce Information Security Program Committee pursuant to Section 5-404 of E.O. 12065. The committee is chaired by the Director, Office of Investigations and Security, and composed of representatives from the Offices of the General Counsel, Organization and Management Systems, and Personnel. Additionally, the Chair may from time to time identify other organizations of the Department to furnish representation.

(b) The Committee shall have responsibility (1) to act on all suggestions, complaints, and appeals not otherwise resolved, concerning the implementation and administration of E.O. 12065 and any implementing directives, and (2) to decide all appeals from denials of requests under the Freedom of Information Act (Title 5 U.S.C., Section 552) or the Mandatory Review provision of E.O. 12065, when the proposed denial is based on continued classification under the Order.

(c) All suggestions, complaints or appeals to this Committee should be addressed to the Chair, Department of Commerce Information Security Program Committee, c/o Office of Investigations and Security, Room 5044, Main Commerce Building, 14th Street and Constitution Avenue, NW., Washington, D.C. 20230.

§ 4a.3 Classification designations.

The only information which may be classified is that which, if disclosed, would cause at least identifiable damage to the national security as determined by a designated original classifier of the Department. The designations established by E.O. 12065 (Top Secret, Secret, and Confidential) are the only terms which may be applied to national security information. These terms shall not be used, either singly or in conjunction with any other term, to identify other than national security information.

§ 4a.4 Classification authority.

Authority to classify information as Secret or Confidential may be exercised only by the Secretary of Commerce and by officials to whom such authority is specifically delegated. No official of the Department of Commerce is authorized to originally classify information as Top Secret.

§ 4a.5 Duration of classification.

Information shall be classified only so long as its unauthorized disclosure would result in at least identifiable damage to the national security. At the time a determination is made by an authorized official to originally classify information, a simultaneous decision must be made by that official as to the duration of time such classification must remain in force. In arriving at the latter decision, the classifier must exercise careful judgment as to how far in the future the basis for original classification will remain valid. Dates or events on which declassification should occur shall be no more than six years from the date of original classification. Classification may be prolonged for more than six years only by the Secretary of Commerce. Any extension beyond the six year period is a violation of the provisions of this Handbook unless authorized by the Secretary of Commerce.

Subpart B—Declassification

§ 4a.6 Systematic review for declassification.

Classified information constituting permanently valuable records of the Government, as defined by U.S.C. 2103, and information in the possession and control of the Archivist of the United States, shall be systematically reviewed for declassification by the Archivist as it becomes twenty years old. In this review, the Archivist will separate and keep protected only such Commerce-produced material as is specifically identified by the systematic review guidelines approved by the Secretary of Commerce. A determination that continued classification is warranted may be made only by the Secretary. When classification is extended beyond twenty years, a date no more than ten years later shall be set for declassification or for the next review. Subsequent reviews for declassification shall be set at no more than ten year intervals. The documents shall be marked to reflect the date for declassification or review.

§ 4a.7 Mandatory review for declassification.

(a) Upon request by a member of the public or a government employee or agency to declassify and release such information, any classified information shall be subject to review by the originating Department of Commerce component or office, or one with

primary interest, for declassification. The Director, Office of Investigations and Security, is designated as the official to whom a member of the public or another department or agency shall submit a request for mandatory review of classified information produced by or under the primary cognizance of the Department of Commerce.

(b) Requests: Requests for mandatory review of Department of Commerce classified information shall be submitted in writing and reasonably describe the information sought with sufficient particularity to enable the Department to identify documents containing that information. The request shall be reasonable in scope, e.g., not involving such a large number or variety of documents as to leave uncertain the identity of the particular information sought. Requests should be addressed as follows: Director, Office of Investigations and Security, U.S. Department of Commerce, Room 5044, Main Commerce Building, 14th Street and Constitution Avenue, NW, Washington, DC 20230.

(c) Processing Requirements: (1) Upon receipt of a mandatory review request, the recipient in the Department shall acknowledge receipt of the request directly to the requester. When a request is not complete or is unreasonable in scope, the requester shall be notified that unless additional information is provided or the scope of the request narrowed, no further action will be undertaken. The Director, Office of Investigations and Security, shall coordinate all mandatory review requests received by the Department.

(2) The Commerce component or office assigned action on the request shall complete its review within twenty working days and respond to the Director, Office of Investigations and Security. The designated office shall determine whether, under the declassification provisions of this regulation, the requested information may be declassified, and, if so, make recommendation to the Director that such information be made available to the requester unless withholding is otherwise warranted under applicable statutes. Upon the determination that continued classification is not required, the information shall be declassified and the material remarked. If the determination is made that the information may not be released in whole or in part, the reviewing official shall give a brief statement as to the reasons for denial. When the classification is a derivative decision based on classified source material of another Federal agency, the action office shall advise in writing the originator of the source information and the Director, Office of Investigations and Security. The action office will also coordinate with its legal counsel and Freedom of Information offices to determine if the information is otherwise available for public release under Title 5, U.S.C. Section 552 (The Freedom of Information Act) and implementing regulations. If the material is not releasable, the reviewing official shall advise the Director, Office of Investigations and Security, that the material has been declassified but that the information is exempt from disclosure, citing the appropriate exemption of the Freedom of Information Act and applicable regulations.

(3) The Director, Office of Investigations and Security, shall respond to the requester within thirty-five working days of initial receipt of the request. If the request for declassification is denied in whole or in part, the Director shall notify the requester of the right to appeal the determination within sixty days to the Department of Commerce Information Security Program Committee, and of the procedures for such an appeal. If the request for declassification is granted but it is determined that the information is exempt from disclosure under the Freedom of Information Act, the requester shall be advised of those procedures for appeal.

(d) Fees: If the request requires the rendering of services for which fees may be charged, the Commerce component assigned action may calculate the anticipated amount of fees to be charged and ascertain the requester's willingness to pay the allowable charges as a precondition to taking further action upon the request in accordance with Section 4.9 of the Department's Freedom of Information Act rules and Section 4b.11 of the Department's Privacy Act rules.

(e) Right of Appeal: (1) A requester may appeal to the Chair, Department of Commerce Information Security Program Committee, whenever a component or office has not acted on an initial request within sixty days, or whenever the requester has been notified that requested information may not be declassified and released in whole, or in part. Within thirty days after receipt of an appeal, the Committee shall determine whether continued classification of the requested information is required in whole or in part, notify the requester of its determination, and make available to the requester any information determined to be releasable. If continued classification is required under the provisions of this regulation, the requester shall be notified of the reasons therefor. The requester shall also be advised of the right to appeal the Committee's decision to the Information Security Oversight Office.

(2) Upon receipt of an appeal from a classification review determination based upon continued classification, the Department of Commerce Information Security Program Committee shall immediately acknowledge receipt and act on the matter within 30 days. With respect to information originally classified by or under the primary cognizance of the Department of Commerce, the Committee, acting for the Secretary, has authority to overrule previous determinations in whole or in part when, in its judgment, continued protection in the interest of national security is no longer required. When the classification of the Commerce-produced material was based upon a classification determination made by another department or agency, the Information Security Program Committee will immediately consult with its counterpart committee or the originator in that department or agency. If it is determined that the material no longer requires classification, it shall be declassified and remarked. The Committee shall advise the original reviewing office or component in Commerce of its decision.

§ 4a.8 Requests under the Privacy Act and the Freedom of Information Act involving classified records.

(a) The Freedom of Information Act (FOIA), Title 5, U.S.C., Section 552(b)(1) and the Privacy Act of 1974 (PA), Title 5, U.S.C. Section 552a(k)(1), authorize withholding of records from public availability which are "(1) specifically authorized under criteria established by an Executive order to be kept secret in the interest of national defense or foreign policy and (2) are in fact properly classified pursuant to such Executive Order."

(b) Time limits are imposed for determinations on PA/FOIA requests. A determination on an initial request must be made within ten working days after receipt of the request. In case of an appeal to an initial denial, a determination must be made within twenty working days after receipt of an FOIA appeal and within thirty working days of a PA appeal. Except for unusual circumstances, failure to make a determination within the stated time limits means that a requester has exhausted the administrative remedies and may bring suit immediately.

(c) Persons who request records from an agency under the provisions of the Act, and whose requests are denied on appeal, may petition the courts to enjoin the agency from withholding the record and, in this event, the burden is on the agency to sustain its actions.

(d) To assure that PA/FOIA requests involving classified records are subjected to a thorough classification review and that a response is made within the specified time limits, the procedures in the following paragraphs shall apply as well as those of DAO 205–14, "Processing Requests Under the Freedom of Information Act," and DAO 205–15, "Implementing the Privacy Act of 1974."

(e) Initial requests involving classified records:

(1) The office having responsibility to act upon a PA/FOIA request shall consult immediately with the appropriate security officer who shall assist in the conduct of a declassification review.

(2) If the record is declassified, the action office shall determine releasability with consideration only for the legality of release within the purview of PA/FOIA. In making such a determination, the action office will coordinate with its designated General Counsel representative. A copy of the declassification decision shall be forwarded to the Director, Office of Investigations and Security.

(3) If the record warrants continued classification, the action office shall so advise the requester, and further advise the requester of the right of appeal.

(4) If the classification review cannot be completed within the prescribed time limit, due to unusual circumstances, the action office will so advise the requester. The action office will arrange for an extension of time in accordance with the FOIA (5 U.S.C. 552 (a)(6)(B)) and implementing Departmental PA/FOIA rules.

(5) A copy of the determination to deny the request based on continued classification of the record shall be forwarded immediately to the Director, Office of Investigations and Security, through the appropriate component security officer.

(f) Receipt of an appeal for reconsideration of denial of a classified record under FOIA/PA:

(1) Appeals under this section shall be referred to the Department of Commerce Information Security Program Committee which shall conduct a declassification review. If, for any reason, such an appeal is received by another Departmental official, it shall be referred immediately to the Committee. With respect to information originally classified by or under the primary cognizance of the Department, the Committee, acting for the Secretary, has authority to overrule previous determinations in whole or in part when, in its judgment, continued protection in the interests of national security is no longer required. When the classification of the record produced in the Department is based upon a classification determination made by another department or agency, the Information Security Program Committee shall consult immediately with its counterpart committee for that department or agency. Before reaching a decision the Committee may consult with additional departments or committees as may be appropriate.

(2) If the Committee determines that the record is in fact properly classified pursuant to E.O. 12065, the Committee shall so inform the head of the Commerce component concerned and issue a final denial to the requester. The Committee will also advise of the right of appeal, for Presidential material only, to the Information Security Oversight Office.

(3) If the Committee determines that the record no longer requires classification, the head of the component concerned will be so informed. The Committee shall determine if the material is otherwise available for public release and notify the requester.

(4) In its deliberations and notification to the head of the Commerce component, the Committee shall determine, to the maximum extent possible, what portions of a requested record contain information properly classified and what unclassified portions may be reasonably segregated for the purpose of public availability.

(5) The Committee shall act upon appeals for reconsideration of requested records within ten days of receipt.

§ 4a.9 Public availability of declassified information.

It is a fundamental policy of the Department of Commerce to make information available to the public to the maximum extent permitted by law. Information which is declassified, for any reason, loses its protective status in the interest of national security. Accordingly, declassified information shall be handled in every respect on the same basis as all other unclassified information.

Subpart C—Access to Classified Information

§ 4a.10 Access by persons outside the Executive Branch.

Classified information may be made available to persons outside the Executive Branch provided that (a) such persons are engaged in historical research projects or previously have occupied policy-making positions to which they were appointed by the President, or (b) the information is necessary for their performance of a function from which the Government will derive a benefit or advantage, and (c) such release is not prohibited by the originating department or agency. The Director, Office of Investigations and Security, shall determine, prior to the release of classified information under this provision, the propriety of such action in the interest of national security and obtain assurance of the recipient's trustworthiness and need to know.

§ 4a.11 Access by industrial, educational and commercial entities.

Bidders, contractors, grantees, educational, scientific or industrial organizations may be determined to be eligible for access to classified information only when it is essential to the accomplishment of a function which is necessary in the interest of promoting the national security, provided the individuals are appropriately cleared. Requests for information shall be coordinated with the Director, Office of Investigations and Security, prior to release of such information.

§ 4a.12 Access by historical researchers and former Presidential appointees.

(a) Persons who are engaged in historical research projects or who previously have occupied policy-making positions to which they were appointed by the President may be authorized access to classified information provided that the head of the component with classification jurisdiction over the information:

(1) Makes a written determination that access is consistent with the interests of national security;

(2) Is assured by the Director, Office of Investigations and Security, or the component security officer, that the requestors have an appropriate determination of trustworthiness as a precondition to access;

(3) Obtains written agreements from requestors to safeguard the information to which they are given access in

accordance with these regulations; (Components providing information under this section shall maintain custody of classified materials at a Commerce installation or activity.)

(4) Obtains written consent to the Department's review of their resultant notes and manuscripts for the purpose of determining that no classified information is contained therein; and

(5) Limits access granted to former Presidential appointees to items that the person originated, reviewed, signed, or received while serving as a Presidential appointee.

(b) The material requested should be clearly identified so that it can be located and compiled with a reasonable amount of effort. If the access requested by historical researchers and former Presidential appointees requires the rendering of services for which fair and equitable fees may be charged, the requestor shall be so notified.

(c) The provisions of this subsection apply only to persons who are conducting research as private individuals or under private sponsorship, and do not apply to research conducted under Government contract or sponsorship. Further, the provisions are applicable only to situations where the classified information concerned, or any part of it, was originated by the Department of Commerce or where the information, if originated elsewhere, is now in the sole custody of the Department. If any person requests access to material originated in another agency or to information under the exclusive jurisdiction of the National Archives and Records Service, General Services Administration, that person should be referred to the other agency or to the National Archives and Records Service.

§ 4a.13 Access by foreign nationals, foreign governments, international organizations and immigrant aliens.

Foreign nationals employed by the Department of Commerce may be granted access to classified information originated within the Department only for the specific classified project to which they are assigned and only after they have met those requirements set forth in DAO 207-3, "Security Requirements for Research Associates, Guest Workers and Trainees," and Appendix B of DAO 207-4, "Security and Suitability Investigations of Personnel." If a need for access by foreign nationals (other than employees) is indicated, the Director, Office of Investigations and Security, shall be consulted for decision on a case-by-case basis.

William H. Randolph,
Director, Office of Investigations and Security, U.S. Department of Commerce.

SECURITIES AND EXCHANGE COMMISSION

17 CFR Part 200

[Release Nos. 33-6296; 34-17603; 35-21953; 39-614; IC-11668; IA-752; FOIA-62]

Government in the Sunshine Act; Public Observation of Commission; Meetings

AGENCY: Securities and Exchange Commission.

ACTION: Final rule.

SUMMARY: The rule being amended, which lists in hierarchical rank those persons who may certify a meeting closed in the absence of the General Counsel, fails to include a reference to the Solicitor to the Commission, upon whom, as a matter of practice, the duty of certifying a meeting closed first falls, in the absence of the General Counsel. In order to conform this rule to actual Commission practice, the Commission is amending it to first reference the Solicitor as that person on whom the duty of certifying a matter closed would fall in the absence of the General Counsel.

EFFECTIVE DATE: March 12, 1981.

FOR FURTHER INFORMATION CONTACT: Theodore S. Bloch, Office of the General Counsel, Securities and Exchange Commission, Washington, D.C. 20549, (202) 272-2454.

SUPPLEMENTARY INFORMATION: The Securities and Exchange Commission today announced an amendment to its rules under the Government in the Sunshine Act, pertaining to the public observation of Commission Meetings. The Commission has amended 17 CFR 200.21(b), which lists the persons who, in the absence of the General Counsel, may certify a meeting closed, to include the Solicitor to the Commission.

Accordingly, Part 200 of Title 17 of the Code of Federal Regulations is amended by revising paragraph (b) of § 200.21 to read as follows:

PART 200—ORGANIZATION; CONDUCT AND ETHICS; AND INFORMATION AND REQUESTS

§ 200.21 The General Counsel.

* * * * *

(b) The General Counsel also is responsible to the Commission for the administration of the Government in the Sunshine Act for publicly certifying, pursuant to § 200.406, that, in his or her opinion, particular Commission meetings may properly be closed to the public. In the absence of the General Counsel, the Solicitor to the Commission shall be deemed the General Counsel for purposes of § 200.406. In the absence of the General Counsel and the Solicitor, the most senior Associate General Counsel available shall be deemed the General Counsel for purposes of § 200.406. In the absence of the General Counsel, the Solicitor and every Associate General Counsel, the most senior Assistant General Counsel available shall be deemed the General Counsel for purposes of § 200.406. In the absence of the General Counsel, the Solicitor, every Associate General Counsel and every Assistant General

Counsel, such attorneys as the General Counsel may designate (in such order of succession as the General Counsel directs) shall exercise the responsibilities imposed by § 200.406.

The Commission finds that this amendment, concerning who, in the absence of the General Counsel, may certify that a Commission meeting properly may be closed to the public, pertains only to procedural matters; it is therefore not subject to the provisions of the Administrative Procedure Act, 5 U.S.C. *et seq.*, requiring advance notice and opportunity for comment. Accordingly, it is effective March 12, 1981.

By the Commission.

George A. Fitzsimmons,

Secretary.

March 5, 1981.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

18 CFR Part 282

[Docket No. RM80-62]

Section 206(d) Exemption for Mechanical Cogeneration Facilities From the Incremental Pricing Provisions of the Natural Gas Policy Act of 1978; Effective Date and Availability of Exemption Affidavits

Issued: March 2, 1981.

AGENCY: Federal Energy Regulatory Commission.

ACTION: Notice of Effective Date and Availability of Exemption Affidavits.

SUMMARY: On October 23, 1980, the Federal Energy Regulatory Commission (Commission) issued a rule (45 FR 71787, October 30, 1980) under Title II of the Natural Gas Policy Act of 1978 (NGPA) providing an exemption from incremental pricing surcharges for natural gas used in mechanical cogeneration facilities. The rule was transmitted to Congress for review as required by section 206(d) of the NGPA. During the period for Congressional review set forth in section 507(b) of the NGPA, neither House disapproved the submittal. The exemptive rule thus became effective on March 1, 1981, the day following expiration of the review period.

EFFECTIVE DATE: March 1, 1981.

FOR FURTHER INFORMATION CONTACT:

James Liles, Office of Regulatory Analysis, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, (202) 357-8158.

SUPPLEMENTARY INFORMATION: Affidavits for claiming an exemption from incremental pricing have been revised to reflect the mechanical cogeneration exemption and are available through the Commission's Division of Public Information, Room 1000, 825 North Capitol Street, NE., Washington, D.C. 20426. By order issued March 2, 1981, the Commission waived its regulations in § 282.204(d)(7) [18 CFR Part 282] (46 FR 15879, March 10, 1981) to provide that if the owner or operator of an industrial boiler fuel facility files, by March 25, 1981, an affidavit with the Commission claiming a mechanical cogeneration exemption, and sends a copy to the facility's natural gas supplier, the facility shall be exempt from incremental pricing as of March 1, 1981.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

ENVIRONMENTAL PROTECTION AGENCY

21 CFR Part 193

[FAP 0H5263/T61; PH-FRL 1775-6]

Tolerances for Pesticides in Food Administered by the Environmental Protection Agency; Ethephon

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: This rule establishes a food additive regulation for the plant growth regulator ethephon at 7 parts per million (ppm) in sugarcane molasses. This regulation is established in conjunction with an experimental use permit requested by Union Carbide. This rule will permit the marketing of sugarcane molasses while further data are collected on the subject on pesticide.

EFFECTIVE DATE: Effective on March 12, 1981.

ADDRESSES: Written objections may be submitted to the: Hearing Clerk, Environmental Protection Agency, Rm. M-3708 (A-110), 401 M St. SW., Washington, D.C. 20460.

FOR FURTHER INFORMATION CONTACT: Robert J. Taylor, Product Manager, (PM) 25, Registration Division (TS-767), Office of Pesticide Programs, Environmental Protection Agency, Rm. 412, CM No. 2, 1921 Jefferson Davis Highway, Arlington, VA 22202 (703-557-7066).

SUPPLEMENTARY INFORMATION: EPA issued a notice that published in the Federal Register of June 13, 1980 (45 FR 40220) that Union Carbide Agricultural Products Co., Inc., Brookside Ave., Ambler, PA 19002 had filed a food additive petition (FAP 0H5263). This petition proposed that 21 CFR Part 193 be amended by establishing a regulation permitting the residues of the plant growth regulator ethephon [(2-chloroethyl)phosphonic acid] in sugarcane molasses resulting from application of the plant growth regulator to growing sugarcane in conjunction with a proposed experimental program with a tolerance limitation of 7 parts per million (ppm). No comments were received by the agency in response to this notice of filing.

The scientific data reported and other relevant material have been evaluated, and it has been determined that the pesticide may be safely used in accordance with the provisions of the experimental use permit which is being issued concurrently under FIFRA. It has further been determined that since residues of the pesticide may result in sugarcane molasses from the agricultural uses provided for in the experimental use permit, the food additive regulation should be established and should include a tolerance limitation.

The data submitted in the petition and other relevant material have been evaluated. The toxicological data considered in support of the proposed tolerance included an acute oral toxicity study in rats with a lethal dose (LD_{50}) of 4.2 grams (g)/kilograms (kg) of body weight (bw); a 90-day rat feeding study with a NOEL of 200 ppm; a 3-generation rat reproduction study with a NOEL of greater than 1,500 ppm; a neurotoxicity study that was negative at up to 1,000 milligrams (mg)/kg/day; a 2-year dog chronic feeding study with a NOEL of 30 ppm (for cholinesterase inhibition) and a NOEL of 300 ppm for systemic effects and a rat chronic feeding/oncogenic study with a systemic NOEL of 3,000 ppm; and a NOEL of 30 ppm for cholinesterase effects and no observed oncogenic effects.

Desirable studies that are lacking or to be repeated are a teratology study and a screening battery of mutagenicity tests. The petitioner has agreed to perform these studies.

Tolerances have previously been

established for ethephon residues. The current tolerances occupy 10.15 percent of the acceptable daily intake (ADI) and the current theoretical maximal residue contribution (TMRC) is 0.4566 mg/day/1.5 kg. Granting this tolerance and PP 0G2360 (concerning cane and beet sugar) will change the percentage of the occupied ADI to 11.43 percent. The new TMRC will be 0.5144 mg/day/1.5 kg. The dog 2-year chronic feeding study with a systemic NOEL of 300 ppm was used with a safety factor of 100 to calculate the ADI.

The metabolism of ethephon is adequately understood, and an adequate analytical method is available for enforcement purposes. (A related document establishing a temporary tolerance for residues of ethephon on sugarcane appears elsewhere in this issue of the Federal Register.)

The pesticide is considered useful for the purpose for which the regulation is sought, and it is concluded that the pesticide can be safely used in the prescribed manner when such use is in accordance with the label and labeling registered pursuant to the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) as amended (86 Stat. 973; 76 U.S.C. 136 et seq.).

Therefore, the regulation establishing a tolerance of 7 parts per million of ethephon in sugarcane molasses is being established as set forth below.

Any person adversely affected by this regulation may, on or before April 13, 1981, file written objections with the Hearing Clerk, EPA, Rm. M-3708 (A-110), 401 M St. SW., Washington, D.C. 20460. Such objections should be submitted in quintuplicate and specify the provisions of the regulation deemed objectionable and the grounds for the objections. If a hearing is requested the objections must state the issues for the hearing. A hearing will be granted if the objections are legally sufficient to justify the relief sought.

Under procedures to implement Executive Order 12044, EPA is required to judge whether a regulation is "significant" and therefore subject to the requirements of the Order or whether it may follow other specialized development procedures. EPA labels these other regulations "specialized." This regulation has been reviewed, and it has been determined that it is a specialized regulation not subject to the procedural requirements of Executive Order 12044.

Effective date: March 12, 1981.

(Sec. 409(c)(1), 72 Stat. 1786, 21 U.S.C. 348(c)(1))

Dated: February 12, 1981.

Edwin L. Johnson,

Deputy Assistant Administrator for Pesticide Programs.

Therefore, Subpart A of 21 CFR Part 193 is amended by adding § 193.186 to read as follows:

§ 193.186 Ethephon.

(a) A tolerance of 7.0 parts per million is established for residues of ethephon [(2-chloroethyl)phosphonic acid] in sugarcane molasses, resulting from application of the plant growth regulator to growing sugarcane in accordance with an experimental use permit that expires February 12, 1983.

(b) Residues in sugarcane molasses not in excess of 7.0 ppm resulting from the use described in paragraph (a) of this section remaining after expiration of the experimental program will not be considered to be actionable if the plant growth regulator is legally applied during the term of and in accordance with the provisions of the experimental use permit and food additive regulation.

(c) Union Carbide Co. shall immediately notify the Environmental Protection Agency of any findings from the experimental use that have a bearing on safety. The firm shall also keep records of production, distribution, and performance, and on request make the records available to any authorized officer or employee of the Environmental Protection Agency or the Food and Drug Administration.

[FR Doc. 81-7745 Filed 3-11-81; 8:45 am]

BILLING CODE 6560-32-M

DEPARTMENT OF STATE

22 CFR Part 51

[Departmental Regulation 108.804]

Diplomatic and Official Passport Applications

AGENCY: Department of State.

ACTION: Final rule.

SUMMARY: The Department of State is amending its passport regulations to allow persons eligible to receive diplomatic and official passports to apply for such passports on the same terms as applicants for other types of U.S. passports.

EFFECTIVE DATE: June 1, 1981.

FOR FURTHER INFORMATION CONTACT: Sharon Palmer-Royston, Office of Citizenship and Legal Assistance, Bureau of Consular Affairs, (202) 632-3721.

SUPPLEMENTARY INFORMATION: Under the provisions of 22 CFR 51.21(c) and 51.21(d), certain persons previously issued United States passports are not required to appear personally before authorized officials to execute applications for new passports. As amended, applicants for diplomatic and official passports now may use that simplified application procedure if otherwise qualified.

Compliance with the provisions of Title 5, Section 553, requiring general publication of proposed rulemaking and delayed effective date is unnecessary because the amendment effected by this rule will improve passport operations and service, as well as benefit the class affected.

Accordingly, Title 22 of Code of Federal Regulations, § 51.21(e) is removed.

(Sec. 1, 44 Stat. 887; Sec. 4, 63 Stat. 111, as amended (22 U.S.C. 211a, 2658); E.O. 11295, 36 FR 10603; 3 CFR 1966-70 Com., P. 507)

Dated: March 3, 1981.

Diego C. Asencio,

Assistant Secretary for Consular Affairs.

Temporary Excise Tax Regulations Under the Crude Oil Windfall Profit Tax Act of 1980; Windfall Profit Tax Administrative Provisions

Corrections

In FR Doc. 81-1850 appearing at page 4873 in the issue of Monday, January 19, 1981, make the following changes:

(1) On page 4878, third column, § 150.4995-2(c)(3), the subdivision designated "(i) *Contents of Certificate.*" should read "(ii) *Contents of Certificate.*"

(2) On page 4879, second column, § 150.4995-3(a), subparagraph (2) should be deleted and also the first nine lines in the third column.

(3) On page 4880, third column, § 150.4995-3(g)(2)(ii), fifteenth line from the top, insert a comma between "1" and "A".

(4) On page 4881, first column, § 150.4995-4(a), fourth line from the bottom, "§ 150.4995-4" should read "§ 150.4995-3"; second column, paragraph designated 6, third line, delete "§"; third column, § 150.4995-5(b)(1), second line, "§ 150.4995-1(j)" should read "§ 150.4996-1(j)".

(5) On page 4883, first column, § 150.4995–1(g)(1), fourth line, "i.e." should read *"i.e."*.

(6) On page 4884, third column, § 150.4997–2(c)(2), second line from the bottom, insert *"in"* after *"information"*.

(7) On page 4886, first column, § 150.6050c–1(e), second line, "§ 150.4995–1" should read "§ 150.4995–5".

BILLING CODE 1505-01-M

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 81

[A-6-FRL 1772-5]

Designation of Areas for Air Quality Planning Purposes; Attainment Status Designations—Utah

AGENCY: Environmental Protection Agency.

ACTION: Final rulemaking.

SUMMARY: This notice decreases the nonattainment area boundaries for sulfur dioxide in Tooele County and for total suspended particulates in Davis, Salt Lake, Utah, and Weber Counties. These modifications were requested by the State on the basis of the most recent ambient monitoring or diffusion modeling estimates.

DATES: This action is effective March 12, 1981.

ADDRESSES: Copies of the request from the State are available for public inspection between 8:00 a.m. and 4:00 p.m., Monday through Friday at the following offices:

Environmental Protection Agency, Region VIII, Air Programs Branch, 1860 Lincoln Street, Denver, Colorado 80295.

Environmental Protection Agency: Public Information Reference Unit, Waterside Mall, 401 M Street, SW., Washington, D.C. 20460.

FOR FURTHER INFORMATION CONTACT: David S. Kircher, Air Programs Branch, Environmental Protection Agency, 1860 Lincoln Street, Denver, Colorado 80295, (303) 837–3711.

SUPPLEMENTAL INFORMATION: On March 3, 1978 (40 CFR 81.345), EPA published the nonattainment area designations for Utah. In that publication, along with other designations, David County was shown to be in violation of the secondary standard for total suspended particulates (TSP), Salt Lake, Utah, and Weber Counties were in violation of the primary standards for TSP and Tooele County was in violation of the primary standards for sulfur dioxide.

On March 11, 1980, the Governor of Utah submitted a SIP revision for TSP in Davis, Salt Lake and Weber Counties. Included in the revision was a request to change the nonattainment area boundaries in these counties on the basis of ambient monitoring or diffusion modeling conducted by the State. EPA has reviewed the boundaries proposed by Utah and believes that the modifications would result in a more accurate definition of the nonattainment areas in these counties.

On May 27, 1980, the Governor submitted a request to redesignate Tooele County as an attainment area for sulfur dioxide with the exception of a portion of the Oquirrh Mountains above the 5600 foot contour and north of Middle Canyon. At EPA's request, the Governor submitted a map of the proposed nonattainment area on July 7, 1980. EPA has reviewed the proposed change to the nonattainment boundary and believes that the State's action is consistent with EPA's modeling estimates for the area.

On November 13, 1980, the Governor submitted a request to revise the boundaries of the TSP nonattainment area in Utah County. As with the other proposed redesignations for TSP, the revised boundaries were based on ambient monitoring or diffusion modeling conducted by the State. EPA believes that the requested revision is acceptable.

On January 29, 1981 (46 FR 9661), EPA proposed to approve all of Utah's requests and asked for public comment. No comments were received. On the basis of its review, EPA is amending the TSP nonattainment area boundaries in Davis, Salt Lake, Utah and Weber Counties, and the SO_2 nonattainment area boundary in Tooele County. Maps showing the revised boundaries are available for public inspection at the addresses indicated above.

EPA finds good cause exists for making the action taken in this notice immediately effective for the following reasons:

(1) This action removes a regulatory burden;

(2) This action removes the moratorium on stationary source construction currently in effect for the portions affected.

"Pursuant to the provisions of the Regulatory Flexibility Act (5 U.S.C. 605(b)), I hereby certify that this action will not have a significant economic impact on a substantial number of small entities. This action imposes no regulatory requirements but only changes area air quality designations. No regulatory requirements will become necessary as a result of this action.

Under section 307(b)(1) of the Clean Air Act, judicial review of this action is available only by the filing of a petition for review in the United States Court of Appeals for the appropriate circuit within 60 days of today. Under section 307(b)(2) of the Clean Air Act, the requirements which are the subject of today's notice may *not* be challenged later in civil or criminal proceedings brought by EPA to enforce these requirements.

This rulemaking is issued under the authority of section 107 of the Clean Air Act (42 U.S.C. 7407).

Dated: March 6, 1981.

Walter Barber,

Acting Administrator.

Title 40, Part 81 of the Code of Federal Regulations is amended as follows:

Subpart C—Section 107 Attainment Status Designations

§ 81.345 [Amended]

1. In § 81.345 the sulfur dioxide table is amended by changing the nonattainment area of Tooele County to read "portions of Tooele County."

2. In § 81.345 the particulate matter table is amended by preceding the designated areas Davis, Salt Lake, Utah, and Weber Counties with the term "portions of."

BILLING CODE 6560-38-M

[EN-FRL 1770-3]

40 CFR Part 86

Revised Motor Vehicle Exhaust Emission Standards for Oxides of Nitrogen (NO_x) for 1982 Model Year Light-Duty Diesel Vehicles

AGENCY: Environmental Protection Agency.

ACTION: Final rule.

SUMMARY: This regulation revises the oxides of nitrogen (NO_x) emission standards for 1982 model year light-duty vehicles belonging to certain diesel vehicle classes to be manufactured by Volkswagen of America (VW) for which I have granted waivers from the standard otherwise applicable under section 202(b)(6)(B) of the Clean Air Act, 42 U.S.C. 7521(b)(6)(B). I have determined that these VW vehicles qualify under the statutory criteria for waivers of the NO_x standard in model year 1982. Specifically, VW has shown me that waivers are necessary to permit it to use diesel engines in these vehicle classes in the 1982 model year; that granting the waivers will not endanger

public health; and that the vehicle classes have the potential for long-term fuel economy and air quality benefits. This rule has the effect of setting an interim NO_x standard at the most stringent level that will still permit VW to market its diesel vehicles in model year 1982.

EFFECTIVE DATE: April 13, 1981.

ADDRESS: Information relevant to this rule is contained in Public Docket EN–80–21 at the Central Docket Section of the Environmental Protection Agency (EPA), Gallery I, 401 M Street, S.W., Washington, D.C. 20460 and is available for review between the hours of 8:00 a.m. and 4:00 p.m. As provided in 40 CFR Part 2, EPA may charge a reasonable fee for copying services.

FOR FURTHER INFORMATION CONTACT:
Deborah Schloss, Attorney/Advisor, Manufacturers Operations Division (EN–340), U.S. Environmental Protection Agency, 401 M Street, S.W., Washington, D.C. 20460, (202) 472–9421.

SUPPLEMENTARY INFORMATION: Section 202(b)(1)(B) of the Clean Air Act (Act), 42 U.S.C. 7521(b)(1)(B) requires that regulations applicable to NO_x emissions from light-duty vehicles or engines manufactured during or after the 1981 model year shall contain standards which provide that such emissions from vehicles or engines shall not exceed 1.0 gram per vehicle mile. Regulations implementing this requirement have established this NO_x standard.

Section 202(b)(6)(B) of the Act authorizes the Administrator, upon application by any manufacturer, to waive the statutory NO_x standard for the 1981 through 1984 model years for any class or category of light-duty diesel vehicles or engines for which the Administrator can make the required statutory findings. I must promulgate interim NO_x standards applicable to the subject light-duty diesel classes for those model years for which I have granted waivers.

Volkswagen of America Corp. (VW) submitted a request for waivers covering several diesel vehicle classes which its latest plans schedule for marketing in the 1982 model year. The statutory criteria, my determinations with respect to the vehicle models covered by the waiver applications, and my decision to grant the waiver applications appear in the decision published along with this notice. In that decision, I granted waivers covering the following vehicle classes for the 1982 model year:

Manufacturer	Engine family
VW	1.6 Liter (L)-naturally aspirated (NA)-2750 pound, inertia weight class (I.W.).
VW	1.6L-NA-2500 I.W.
VW	1.6L-Turbocharged (TC)-2750 I.W.

Having decided to grant waiver applications for these diesel vehicle classes, I am simultaneously promulgating regulations adopting emission standards not permitting NO_x emissions from 1982 model year vehicles of these vehicle classes to exceed the prescribed levels. The public has received an opportunity to comment on the waiver applications at issue, and I have considered those comments in making the decision which requires the promulgation of this rule. For this reason, I find that providing notice and an opportunity to comment on this rulemaking before final promulgation is impracticable and unnecessary.

Note.—Because the decision accompanying this rulemaking is based on a detailed analysis indicating this rulemaking will have a negligible effect on air quality, the Environmental Protection Agency has not prepared an Environmental Impact Statement to accompany this rulemaking.

In addition, under the Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.*, EPA is required to determine whether a regulation will have a significant economic impact on a substantial number of small entities so as to require a regulatory analysis. The interim NO_x emission standards established by this rulemaking only directly impact VW, which is not a "small entity" under the Regulatory Flexibility Act. Therefore, pursuant to 5 U.S.C. 605(b) I hereby certify that this rule will not have a significant economic impact on a substantial number of small entities.

Dated: March 6, 1981.

Walter C. Barber, Jr.,
Acting Administrator.

40 CFR Part 86 is amended as follows:

40 CFR 86.082–8(a)(1)(iii), is revised to read as follows:

Subpart A—General Provisions for Emission Regulations for 1977 and Later Model Year New Light-Duty Vehicles, 1977 and Later Model Year New Light-Duty Trucks and 1977 and Later Model Year New Heavy-Duty Engines

§ 86.082–8 Emissions standards for 1982 model year light-duty vehicles.

(a) * * *

(1) * * *

(iii) Oxides of nitrogen—1.0 grams per vehicle mile, except that: (A) oxides of nitrogen emissions from 1982 model year light-duty vehicles manufactured by American Motors Corporation shall not exceed 2.0 grams per vehicle mile; (B) oxides of nitrogen emissions from light-duty diesel vehicles of the following 1982 model year engine families shall not exceed the prescribed levels:

Manufacturer	Engine family	Standard (gpm)
General Motors Corp	5.7 liter (L)	1.5
	1.6L	1.5
Daimler-Benz AG	2.4L	1.25
	3.0L naturally aspirated (NA).	1.5
	3.0L turbocharged (TC)	1.5

40 CFR Part 86

[AMS FRL 1741–7]

Control of Air Pollution From New Motor Vehicles and New Motor Vehicle Engines Small-Volume Manufacturers

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: This action establishes an optional emission certification procedure for 1981 and later model years for small-volume manufacturers of light-duty vehicles, light-duty trucks, and heavy-duty engines. Manufacturers must receive EPA's permission to participate in the optional procedures. This rulemaking defines small-volume manufacturers as those whose projected combined U.S. sales of all vehicles and engines is fewer than 10,000 units for the model year in which they seek certification. EPA believes that this action will reduce certification compliance costs for both the small-volume manufacturer and EPA. In addition, the modified certification procedure will make it less complicated for new small-volume manufacturers to certify their product lines. We intend to propose mandatory small-volume manufacturers' certification procedures for 1983 and later model years. The voluntary program being established here will remain in effect until

specifically amended or until the mandatory program is adopted.

EFFECTIVE DATE: April 13, 1981.

FOR FURTHER INFORMATION CONTACT: Charles D. Cole, Certification Policy and Support Branch, Certification Division, 2565 Plymouth Road, Ann Arbor, Michigan 48105, Telephone: (313) 668–4444.

SUPPLEMENTARY INFORMATION: EPA believes the changes in the certification procedure resulting from this rule will reduce certification compliance costs for small-volume manufacturers and will improve the use of EPA resources. This rulemaking does not affect the stringency of the emission standards because small-volume manufacturers will still be required to complete emission tests and comply with the applicable emission standards before a certificate of conformity is granted. Also, light-duty vehicles and light-duty trucks will remain subject to selective enforcement auditing (subpart G of Part 86), thereby assuring compliance with emission standards. This action does not change the small-volume manufacturer's responsibility for providing fuel economy data or providing vehicles for fuel economy confirmatory testing, if requested, as required by 40 CFR Part 600.

For a manufacturer that has obtained EPA approval to participate in the small-volume manufacturers' certification procedures, EPA does not contemplate requiring the manufacturer to routinely submit vehicles[1] to EPA for confirmatory testing. However, confirmatory testing will continue to be performed at EPA's discretion.

EPA is also significantly reducing the reporting requirements for the manufacturers participating in this optional program. The manufacturer must continue to affirm that the vehicles (engines) have been tested in accordance with the applicable regulations and will conform to applicable emission standards. The manufacturer must also submit to EPA a brief description of its product line and emission test data and other information necessary to demonstrate compliance. The manufacturer must also retain in its records, for six years, all the data and information that EPA requests in the application for certification format for the model year in which certification is sought. This documentation need not be retained in any specific format or submitted to EPA unless specifically requested by EPA. The sections of this preamble entitled "Small-Volume Manufacturer Certification Procedure" and "Reporting Requirements" provide more detail on the information requirements placed on the participating small-volume manufacturers.

[1] For ease of presentation, this preamble specifically references the light-duty vehicle and light-duty truck certification procedures wherein *vehicles* are tested for emission compliance after being driven for a number of *miles*. The references are equally applicable to the heavy-duty engine certification procedures wherein *engines* are tested after being operated on an engine dynamometer test stand for a number of *hours*. Therefore, unless otherwise specifically noted, references in this preamble to "vehicles" or "miles" also pertain to the heavy-duty engine certification procedure references of "engine" or "hours."

Applicability

The optional provisions of these regulations apply to 1981 and later model year light-duty vehicles, light-duty trucks, and heavy-duty engines.

Background

Section 203(a)(1) of the Clean Air Act (Act) prohibits the sale, offering for sale, the introduction into commerce, the delivery for introduction into commerce, or the importation of any new motor vehicle unless the vehicle is covered by a certificate of conformity issued under regulations prescribed under sections 202 and 206 of the Act. Section 206(a)(1) of the Act directs the EPA Administrator each year to test or "require to be tested in such manner as he deems appropriate" any new vehicle submitted by the manufacturer to determine it the vehicle conforms with the regulations.

The certification program in 40 CFR Part 86 currently provides two possible procedures which manufacturers can use to certify vehicles. The two procedures are: (1) the complete EPA review (the original full certification procedure) and (2) the voluntary abbreviated certification review.

1. Complete EPA Review: Under the complete EPA review, the manufacturer submits an application for certification describing its anticipated product line to EPA. Upon review and approval of the application, EPA selects a test fleet representing the product line. The manufacturer then accumulates mileage on the durability-data vehicles and performs emission tests for the purpose of establishing deterioration factors (d.f.'s). Upon establishing d.f.'s the manufacturer accumulates mileage on emission-data vehicles and performs emission tests. Compliance with emission standards is determined by adjusting the emission-data vehicle test results by the d.f. The manufacturer is continously contacting EPA, and EPA is reviewing and approving or disapproving the manufacturer's action.

2. Abbreviated Certification Review: Manufacturers who participate in the abbreviated certification review procedure (the program is optional): (a) conduct a complete certification program with limited or no day-to-day interaction with EPA, (b) prepare and maintain a full, up-to-date, and complete application, (c) make many of the decisions normally made by EPA to accomplish the certification process (such as durability-data vehicle selection, emission-data vehicle selection, unscheduled maintenance decisions, etc.), and (d) upon completion of the certification process, including manufacturer testing, submit an application plus appropriate documentation to EPA along with a request for certification. EPA audits the manufacturers to check for continued compliance with the certification regulations during the certification process. EPA reserves the option of selectively requiring confirmatory testing at EPA's laboratory. Upon receipt of final applications and supporting documentation, EPA assesses the eligibility of each engine family for certification and issues a certificate of conformity if all requirements are met.

The manufacturers' response to the optional abbreviated certification review procedure has been favorable. As a result, nearly 100 pecent of all manufacturers requesting certification participate in the abbreviated certification review procedure. Therefore, the abbreviated certification review procedure is essentially EPA's current certification program. Any comparison in this rulemaking to the small-volume manufacturers' certification procedure is a comparison with the abbreviated certification review procedure.

Small-Volume Manufacturer Certification Procedures

The certification procedures for small-volume manufacturers reduce the number of test vehicles, the associated service accumulation requirements, and the paperwork manufacturers must submit to EPA under the current abbreviated certification procedure. The small-volume manufacturers' certification procedures allow the manufacturer to select its test vehicles, accumulate any mileage up to a maximum of 4,000 miles on emission-data vehicles (125 hours on emission-data engines), complete emission testing, and submit a simplified application for certification to EPA.

The small-volume manufacturers' certification procedures are described below:

1. Participation is voluntary on the part of the manufacturer. The

manufacturer must obtain EPA's approval to participate in the small-volume manufacturers' certification procedure.

2. The manufacturer has the option to: (1) use assigned d.f.'s provided by the Administrator (because of the cost savings involved) in lieu of running durability-data vehicles or engines or (2) run durability-data vehicles or engines to establish d.f.'s.

3. The manufacturer will select emission-data vehicles, accumulate mileage on the vehicles up to a maximum of 4,000 miles (125 hours), complete emission tests and provide the emission test results to EPA with an abbreviated-type (see No. 5) application for certification.

4. The manufacturer may accumulate less than 4,000 miles (125 hours) on the emission-data vehicles. However, the emission test results when adjusted by a deterioration factor must be equal to or below the emission standards before a certificate of conformity will be issued.

5. The application for certification the small-volume manufacturer submits must contain:

(a) A brief description of the vehicles to be covered by the certificate of conformity (the manufacturer's sales data book or advertising including specifications may satisfy this requirement for most manufacturers). The description must include, at a minimum, information identifying the vehicles (model names, etc.), projected sales, engine specifications (displacement, number of cylinders, etc.) and emission control system components (number of catalytic converters, volume, and composition, etc.). For 1982 and later model year light-duty vehicles and light-duty trucks, the description must also include vehicle adjustments or modifications necessary to assure that they conform to high-altitude emission standards.

(b) The results of all emission tests completed by the manufacturer.

(c) Statements signed by an authorized representative on conformance with the requirements of Subparts A, B, D, or I, whichever are applicable. These statements concern adjustable parameters, unregulated emissions, defeat devices, high-altitude emission compliance and the emission testing procedure.

6. EPA suggests that the small-volume manufacturer include in the application for certification the emission warranties required by sections 207 (a) and (b) of the Act. However, issuance of the certificate of conformity is in no way affected by or conditioned on the inclusion or content of the emission warranties.

Issues Considered

EPA considered the following issues in developing a modified certification procedure for small-volume manufacturers:

1. Definition of a small-volume manufacturer: The individual manufacturer's annual U.S. sales of light-duty vehicles, light-duty trucks and heavy-duty engines for the 1979 and recent prior model years ranged from under 20 vehicles to over 1 million vehicles per model year. The combined total sales of vehicles and engines for the 1979 model year exceeded 10 million. Currently, approximately 68 percent of the manufacturers requesting certification account for over 99 percent of the vehicles or engines sold in or imported into the U.S. Further analysis indicates that the manufacturers who account for less than 1 percent of the annual U.S. sales, sell or import less than 10,000 vehicles or engines per model year.

Establishing a cutoff point of an annual U.S. sales volume of fewer than 10,000 units will allow EPA to concentrate its resources on those manufacturers who have the largest potential air quality impact. Therefore, annual U.S. sales volume of fewer than 10,000 total units (combined sales for light-duty vehicles, light-duty trucks, and heavy-duty engines) was chosen as the cutoff point for determining a manufacturer's size.

When a manufacturer applies for certification, its eligibility to be included in the small-volume procedure will be based on projected sales. In judging whether a manufacturer may certify vehicles using the small-volume procedure, EPA will consider the likelihood that actual sales will exceed 10,000 units. If EPA is not reasonably assured that the manufacturer's actual sales will remain under 10,000 units (for example, based on previous model year sales or other information), EPA will not approve the manufacturer's participation. However, EPA recognizes that a sales projection very near 10,000 units or a rapidly shifting sales situation may cause a manufacturer's actual sales to exceed 10,000 units. As long as EPA is satisfied that the original sales projection was valid at that time, the Agency will take no action against the manufacturer. However, EPA will use this information in judging the manufacturer's eligibility for the next year.

Importers or distributors often certify their product line instead of the original manufacturer certifying its product. If more than one importer or distributor is handling a manufacturer's product line, it is possible that more than one importer or distributor may request certification of the same product. Therefore, when more than one importer or distributor requests certification of vehicles or engines manufactured by the same person, EPA will use the combined projected or actual sales of vehicles and/or engines by all importers or distributors to determine eligibility for participation in the small-volume manufacturers' certification procedure. Total projected sales of vehicles and engines manufactured by the same person exceeding 10,000 will preclude certification under the small-volume manufacturer certification procedure.

2. Number of Emission-Data Vehicles: 40 CFR 86.061–24(b) specifies the selection requirements for emission-data vehicles and engines. In general, these requirements result in the selection of one vehicle of the highest selling combination (engine displacement-emission control system) within the engine family and up to four additional emission-data vehicles (two additional engines in the case of heavy-duty gasoline and one in the case of heavy-duty diesel) based on features indicating that they may have the highest emission levels. Manufacturers who would qualify for the small-volume certification procedure have, in past certification years, had normally only two emission-data vehicles, one selection based on sales and one selection based on features indicating it may have the highest emissions.

EPA is reducing the number of emission-data vehicles required for the small-volume manufacturers' certification procedure. This can be accomplished without increasing the risk of inappropriately certifying an engine family if we can determine that all the untested designs are expected to have the same or lower emission levels than the tested designs. Thus, one test vehicle per engine family will be selected based on features indicating that it will have the highest emissions (worst-case) of all vehicles within the engine family. If this worst-case vehicle meets emission standards then it can be assumed that all other vehicles within the family will meet emission standards.

3. Emission-Data Test Vehicle Selection: Test vehicle selection has, in the past, been performed by EPA (complete EPA review procedure) or by the manufacturer (abbreviated review procedure). The manufacturer's vehicle selections were based on written guidelines which were issued by EPA. Small-volume manufacturers' product lines normally contain a limited number of models and few, if any, options.

Because of the limited product line and the availability of written guidelines, EPA believes that there is a very minimal risk in small-volume manufacturers selecting an emission-data test vehicle incorrectly. Therefore, the small-volume manufacturer shall select its test vehicles based on the criteria provided by EPA.

The small-volume manufacturers will select emission-data vehicles which are expected to exhibit the highest (worst-case) emissions within the engine family. The selection will be based on such items as weight, frontal area, displacement, fuel flow, and axle ratio in the order of priority established by EPA in the small-volume manufacturers; certification regulations.

4. Deterioration Factors: Compliance with emission standards is determined by adjusting the emission test results from emission-data vehicles by deterioration factors. In the existing program deterioration factors are obtained by the manufacturer either by running a durability-data vehicle to generate a deterioration factor or by using an assigned deterioration factor [Ref: 40 CFR 86.061–24(e) if projected sales are less than 2,000 units] which is generated by EPA based on the average of deterioration factors generated by similar durability-data vehicles run in previous model years. The use of an assigned deterioration factor provides a deterioration factor without the necessity of running a durability-data vehicle, thereby reducing the manufacturers' certification program costs. Because of this cost savings, EPA is expanding the use of assigned deterioration factors to include all manufacturers meeting the revised definition of a small-volume manufacturer (less than 10,000 projected sales) and electing to participate in this voluntary program. However, a small-volume manufacturer may desire to run a durability-data vehicle or engine because it believes that a particular design will result in a lower deterioration factor. Therefore, EPA is also allowing small-volume manufacturers to use deterioration factors established by running durability-data vehicles (engines).

5. Defeat Devices: 40 CFR 86.080–2 defines a "defeat device" as meaning an Auxiliary Emission Control Device (AECD) that reduces the effectiveness of the emission control system under conditions which may reasonably be expected to be encountered in normal urban vehicle operation and use, unless (1) such conditions are substantially included in the Federal emission test procedure, or (2) the need for the AECD is justified in terms of protecting the vehicle against damage or accident, or (3) the AECD does not go beyond the requirements of engine starting.

Under the current certification program EPA reviews the manufacturer's vehicle description and determines if any AECD is a prohibited defeat device. In establishing a small-volume manufacturer's certification procedure EPA could still continue to require that descriptions of the AECD's be submitted for review and make any necessary determinations based on EPA review, or hold the manufacturer responsible for not including defeat devices in its design even though EPA will not positively make determinations. Should EPA continue to make the review and determinations, the small-volume manufacturer would have to submit descriptions of all AECD's utilized in its design. This would not reduce to a minimum the information required of the manufacturer nor would it decrease substantially the EPA time required to review the manufacturer's application for certification.

Based on the Part 86 definition of a defeat device and other existing EPA guidelines on defeat devices, the small-volume manufacturer can accurately determine if it employs defeat devices. Therefore, for small-volume manufacturers participating in this voluntary program, the manufacturer will be fully responsible for determining prior to certification that its designs do not include defeat devices. The manufacturer will have to make a statement in its application for certification that its vehicles or engines do not have defeat devices installed. The sanctions involving certificate suspension or revocation in 40 CFR 86.079–30(c) will apply to manufacturers that falsely state in their applications for certification that their vehicles do not contain defeat devices. EPA will be available for consultation should questions arise.

6. Service Accumulation: 40 CFR Part 86 currently requires light-duty vehicle and light-duty truck manufacturers to accumulate 4,000 miles on the emission-data test vehicles (125 hours on heavy-duty emission-data engines). Four thousand miles was selected as a point where both EPA and the manufacturers could be assured that a new engine has been broken in and emission performance stabilized. The manufacturers have, in the past, requested EPA to consider reducing the service accumulation requirements because of the belief that the test vehicles' and engines' emission levels had stabilized at some point prior to the required mileage or hours. Therefore, EPA considered reducing service accumulation requirements for small-volume manufacturers' emission-data vehicles or engines.

The alternatives EPA considered include (1) establishing lower required mileage (e.g., 2,000 instead of 4,000 miles) or hour requirements, (2) maintaining the current requirements, (3) establishing minimum-maximum requirements (e.g., 2,000 to 4,000 miles), and (4) providing the manufacturer the option of accumulating any mileage less than 4,000 miles. Establishing lower requirements was not adopted because some vehicles may not be stabilized at a fixed lower point. Conversely, maintaining the current requirements would not benefit those manufacturers whose vehicles or engines stabilized prior to the required operating mileage or hours. Therefore, the manufacturer, at its discretion, may optionally accumulate any amount less than the 4,000 miles. The emission test results from a stabilized vehicle or engine when adjusted by the applicable deterioration factor must be below or equal to the applicable emission standard before EPA will grant certification. This procedure benefits those manufacturers whose vehicles attain stabilized emission performance prior to the 4,000-mile point while maintaining assurance that the vehicles meet emission standards. This alternative is further supported by the comments submitted by those manufacturers commenting on the selective enforcement audit rulemaking. In the comments, the manufacturers made basically the same suggestions that they be allowed to accumulate on the vehicles selected for testing as few miles as they thought necessary to stabilize emissions, and that the results so measured be treated as the 4,000-mile results. The selective enforcement audit regulation adopted a procedure which allows manufacturers to accumulate as few miles as they wish, up to a maximum of 4,000 miles (Ref: 41 FR 31477, July 28, 1976).

7. Confirmatory Testing: Section 206(a)(1) of the Clean Air Act as amended in 1977 states, "The Administrator shall test, or require to be tested in such manner as he deems appropriate, any new motor vehicle or new motor vehicle engine submitted by a manufacturer to determine whether such vehicle or engine conforms with the regulations prescribed under section 202 of this Act." Under the current 40 CFR Part 86 certification procedure, EPA conducts confirmatory testing on either a routine basis (full certification review) or on a selected basis (voluntary

abbreviated certification review). EPA typically tests a small portion of the emission-data vehicles and no durability-data vehicles to confirm the manufacturer's test results under the abbreviated certification review program. In the small-volume manufacturers' certification program EPA considered either continuing to perform selective confirmatory testing as under the abbreviated certification review program or accepting manufacturer's test data.

EPA could continue, under the small-volume manufacturers' certification procedure, to perform some confirmatory testing to verify emission compliance and the accuracy of the manufacturers' test data. However, there would be very little benefits from more routinely confirmatory testing small-volume manufacturers' test vehicles for emissions because of the minimal potential impact on air quality of the small number of vehicles and engines involved.

The expected reduction in confirmatory testing of small-volume manufacturers' test vehicles would further reduce certification compliance costs and allow EPA to utilize its testing capabilities to test vehicles from other manufacturers representing considerably larger production volumes while not substantially increasing the risk of inappropriate certification. However, the complete elimination of confirmatory testing may increase the possibility of a manufacturer attempting to certify a non-conforming vehicle or engine.

To reduce the possibility of a manufacturer attemping to certify a non-conforming vehicle or engine, EPA is retaining the option of performing confirmatory tests. As explained earlier, EPA will usually only confirmatory test when we suspect that a manufacturer's test vehicles may not comply with the applicable emission standards. Limiting confirmatory testing in this manner will reduce certification compliance costs for the majority of small-volume manufacturers while maintaining a minimum risk of inappropriate certification. EPA is continuing to require that small-volume manufacturers affirm in writing that test vehicles have been tested according to 40 CFR Part 86 and comply with the applicable emission standards.

8. High-Altitude Certification: 40 CFR Part 86 contains specific requirements concerning high-altitude emission performance for 1982 and later model year light-duty vehicles and light-duty trucks. In establishing the small-volume manufacturers' certification procedure EPA considered alternative methods of demonstrating compliance at high-altitude.

The combined small-volume manufacturers' high-altitude sales will be minimal. Therefore any impact on air quality of vehicles or engines produced by these manufacturers will be minimal. Considering the very small potential impact on high-altitude air quality, EPA will not require small-volume manufacturers to test certification vehicles under high-altitude conditions if they participate in these small-volume manufacturer procedures. However, this does not relieve the manufacturer of its responsibility to comply with all other high-altitude certification requirements and to produce vehicles which will meet emission standards at high-altitude.

EPA will require the manufacturer to submit the following information in the application for certification: (1) a description of any vehicle adjustments or modifications necessary to assure that vehicles conform to emfssion standards when operated at high-altitude locations, (2) a statement that the vehicles described in the manufacturer's application comply with high-altitude emission regulations (based on either the manufacturer's engineering evaluation documented in writing or emission tests), and (3) a description of the light-duty vehicles and 1982 model year light-duty trucks which are exempted from the high-altitude emission standards.

9. Running changes: Manufacturers often make design changes (running changes) during the model year to make improvements, reduce costs or use alternative suppliers. Under the current certification procedures, manufacturers are required to obtain approval for running changes prior to incorporating those changes into production that are expected to affect emission performance. EPA then evaluates the requested change to determine if the changed vehicles still comply with emission standards. The determination is based on engineering judgment, test data submitted by the manufacturer, or confirmatory tests conducted by EPA.

Considering that small-volume manufacturers, as a group, submit less than 3 percent of the total running changes per model year, and that manufacturers are capable of determining the emission performance effect of their own running changes, resources can be saved and reporting requirements reduced by allowing small-volume manufacturers to evaluate their own running changes to assure that the certificate of conformity is still valid after the running change. Therefore, small-volume manufacturers participating in this voluntary program may put running changes into production without prior EPA approval. However, manufacturers are responsible for determining that all vehicles will still comply with emission regulations with the running change in effect. This determination, either emission tests or engineering analysis, must be made before the running change is incorporated into production. They are then required to notify EPA of the running change, thus updating their application information on file with EPA.

Reporting Requirements

A manufacturer making application for certification is required by 40 CFR Part 86 to submit an application containing certain information describing its product line. This information is essential to EPA when the manufacturer is certifying its product line under the current certification programs. However, under the small-volume manufacturer certification program, the manufacturers will perform many of the functions (e.g., determining the appropriate emission-data vehicle) previously performed by EPA. Therefore, EPA no longer needs all the information previously required and has consequently reduced to a minimum the information a small-volume manufacturer must submit to EPA in its application for certification. Each year, EPA publishes a recommended application format which details the information EPA requires in order to determine that the manufacturer has complied with the regulations. While the participating small-volume manufacturer need not submit all this information nor maintain it in the recommended format (only the information specifically requested in these regulations need be routinely submitted), it must all be maintained and made available to EPA on request. We recommend, therefore, that early in the certification process for a model year, the manufacturers request a copy of the applicable recommended format from EPA and review it for necessary documentation.

Public Participation

The Agency finds that good cause exists for omitting as unnecessary a notice of proposed rulemaking and public comment. This finding is based on the facts that (1) the program is voluntary on the part of the regulated industry, (2) the action reduces the economic burden of the emission regulations on the regulated industry and EPA, (3) no adverse environmental impacts are anticipated, and (4) immediate implementation of the

program will permit it to be utilized on a limited basis for certification for the 1981 model year.

Interested parties will be invited to comment on the proposed amendments anticipated for 1983 and later model years which EPA will publish as a notice of proposed rulemaking in the near future.

Regulatory Analysis

The EPA has determined that this is not a "Major" regulation and, therefore, does not require a Regulatory Impact Analysis. However, EPA has evaluated the potential impact of this action.

This action will reduce the reporting and test vehicle service accumulation requirements currently imposed on small-volume manufacturers. Therefore, small-volume manufacturers' certification program costs should be reduced. The actual cost reduction will vary from manufacturer to manufacturer depending on the number of engine families involved, the amount of reduction in service accumulation chosen by the manufacturer, and the number of durability-data vehicles no longer required. EPA estimates that all small-volume manufacturers combined will save more than $1 million per year as a result of this action.

Due to the relatively few vehicles and engines affected by this rulemaking, EPA expects no environmental impact from these administrative changes. Emission standards are unchanged. Small-volume manufacturers will still be required to complete low altitude emission tests (high altitude tests are optional) and comply with the applicable emission standards before a certificate of conformity is granted. However, due to the decrease in reporting requirements and relaxation in emission-data vehicle and engine requirements, this action could result in an increased risk to EPA of certifying vehicles which would not have complied with standards if subjected to the current certification program. However, we expect that small-volume manufacturers will be fully capable of following the remaining procedural requirements of the regulations. Furthermore, due to the relatively limited product line typical of a small-volume manufacturer, the relaxation in emission-data vehicle and engine requirements should not decrease the emission representativeness of the data obtained or the technical validity of the resultant certification decisions when compared to the current program.

Note.—Under the Regulatory Flexibility Act, 5 U.S.C. 601 *et. seq.*, EPA is required to determine whether a regulation will have a significant economic impact on a substantial number of small entities so as to require a regulatory analysis. The optional small-volume certification procedure established by this rulemaking should reduce the burden, including costs, of compliance with certification requirements for small-volume manufacturers. Therefore, pursuant to 5 U.S.C. 605(b), I hereby certify that this rule will not have a significant economic impact on a substantial number of small entities.

Date: March 5, 1981.

Walter C. Barber,

Acting Administrator.

EPA amends 40 CFR Part 86 as follows:

1. The table of contents of Subpart A of Part 86 is amended by adding the following sections:

Subpart A—General Provisions for Emission Regulations for 1981 and Later Model Year New Light-Duty Vehicles, 1981 and Later Model Year New Light-Duty Trucks, and for 1981 and Later Model Year New Heavy-Duty Engines

* * * * *

Section

86.081–14 Small-volume manufacturers certification procedures.

86.082–14 Small-volume manufacturers certification procedures.

* * * * *

2. Section 86.081–1 is amended by adding paragraph (e).

§ 86.081–1 General applicability.

* * * * *

(e) *Small-volume manufacturers.* Special certification procedures are available for any manufacturer whose projected combined U.S. sales of light-duty vehicles, light-duty trucks, and heavy-duty engines in its product line is fewer than 10,000 units for the model year in which the manufacturer seeks certification. In order to certify its product line under these optional procedures, the small-volume manufacturer must first obtain the Administrator's approval. Vehicles produced at facilities leased, operated, controlled, supervised, or in ten percent or greater part owned by the manufacturer shall be counted in calculating the total sales of the manufacturer. The small-volume manufacturer's certification procedures are described in § 86.081–14.

3. A new section, 86.081–14, is added.

§ 86.081–14 Small-volume manufacturers certification procedures.

(a) The small-volume manufacturers certification procedures described in paragraphs (b) and (c) of this section are optional. Small-volume manufacturers may use these optional procedures to demonstrate compliance with the general standards and specific emission requirements contained in this subpart.

(b)(1) The optional small-volume manufacturers certification procedures apply to light-duty vehicles, light-duty trucks, and heavy-duty engines produced by manufacturers with projected U.S. sales (for the model year in which certification is sought) of fewer than 10,000 units (LDV, LDT and HDE combined).

(2) For the purpose of determining the applicability of paragraph (b)(1) of this section, where there is more than one importer or distributor of vehicles and/or engines manufactured by the same person, the sales the Administrator shall use shall be the aggregate of the projected or actual sales of those vehicles and/or engines by all of the importers and distributors.

(c) Small-volume manufacturers shall demonstrate compliance with the applicable sections of this subpart as follows:

(1) Sections 86.081–1 through 86.081–11 of this subpart are applicable.

(2) Section 86.081–12 of this subpart is not applicable.

(3) Sections 86.081–13 through 86.081–20 of this subpart are applicable.

(4) Section 86.081–21. Small-volume manufacturers are covered by the following:

(i) The manufacturers shall include in its records all of the information that EPA requires in § 86.081–21 of this subpart. This information will be considered part of the manufacturer's application for certification. However, the manufacturer is not required to submit the information to the Administrator unless the Administrator requests it.

(5) Section 86.081–22 is applicable except as noted below.

(i) Small-volume light-duty vehicle and light-duty truck manufacturers may satisfy the requirements of § 86.081–22(e) by including a statement of compliance on adjustable parameters in the application for certification. In the statement of compliance the manufacturer shall state that the limits, stops, seals, or other means used to inhibit adjustment have been designed to accomplish their intended purpose based on good engineering practice and past experience. If the vehicle parameter is adjustable the vehicle must meet emission standards with the parameter set any place within the adjustable range (reference § 86.081–21).

(ii) Paragraphs (a), (b), (c), and (d) of § 86.081–22 are not applicable.

(6) Section 86.081–23 is applicable except that small-volume light-duty vehicle manufacturers may test emission-data vehicles at any service accumulation distance less than the

6,436-kilometer (4,000-mile) test point. Small-volume heavy-duty manufacturers may provide compliance emission data at less than 125 hours of operation instead of the 125-hour test point.

(7) Section 86.081–24 of this subpart is applicable except as noted below.

(i) Small-volume manufacturers may satisfy the requirements of paragraph (b) and (c) of § 86.081–24 by:

(A) Selecting emission-data test vehicles (engines) by the worst-case emissions criteria as follows:

(*1*) *Light-duty vehicles and light-duty trucks.* The test vehicle shall be selected based on the following criteria: The manufacturer shall select the heaviest (including options) vehicle within the family. Then within that vehicle it shall select, in the order listed, the largest frontal area, largest displacement, highest fuel flow per stroke at the speed of maximum rated torque and the highest numerical axle ratio with the largest tire offered in that engine family.

(*2*) *Heavy-duty gasoline fueled engines.* The manufacturer shall select the worst case emission-data engine first based on the largest displacement within the engine family. Then within the largest displacement the manufacturer shall select, in the order listed, highest fuel flow per stroke at the speed of maximum rated torque, the engine with the most advanced spark timing, no EGR or lowest EGR flow, and no air pump or lowest actual flow air pump.

(*3*) *Heavy-duty diesel engines.* The manufacturer shall select the worst case emission data engine based on the highest fuel feed per stroke, primarily at the speed of maximum rated torque and secondarily at rated speed.

(B) Using assigned deterioration factors that the Administrator determines and prescribes. However, the manufacturer may, at its option, accumulate miles (hours) on a durability-data vehicle (engine) and complete emission tests for the purpose of establishing its own deterioration factor.

(iv) Paragraphs (d) and (e) of § 86.081–24 are not applicable.

(8) Section 86.081–25 of this subpart is applicable to durability-data light-duty vehicles, light-duty trucks, and heavy-duty engines if the manufacturer does not use assigned deterioration factors.

(9) Sections 86.081–26 and 86.081–27 of this subpart are not applicable.

(10) Sections 86.081–28 and 86.081–29 of this subpart are applicable.

(11)(i) Section 86.081–30 of this subpart is applicable, except for paragraphs (a)(2) and (b) of that section. In the place of these paragraphs, small-volume manufacturers shall comply with paragraphs (c) (11)(ii) through (11)(v) of this section, as shown below.

(ii) Small-volume manufacturers shall submit an application for certification containing the following:

(A) The names, addresses, and telephone numbers of the persons the manufacturer authorizes to communicate with EPA.

(B) A brief description of the vehicles (or engines) covered by the certificate (the manufacturer's sales data book or advertising, including specifications, may satisfy this requirement for most manufacturers). The description shall include, as a minimum, the following items as applicable:

(*1*) Engine families and vehicle (or engine) configurations.

(*2*) Vehicle or engine models to be listed on the certificate of conformity.

(*3*) The test weight and horsepower setting for each vehicle or engine configuration.

(*4*) Projected sales.

(*5*) Engine combustion cycle.

(*6*) Engine cooling mechanism.

(*7*) Number of engine cylinders.

(*8*) Engine displacement.

(*9*) Fuel system type.

(*10*) Number of catalytic converters, volume, and composition.

(*11*) Method of air aspiration.

(*12*) Thermal reactor characteristics (if applicable).

(*13*) Suppliers' and/or manufacturer's name and model number of any emission related items of the above items if purchased from a supplier who uses the items in its own certified vehicle(s) or engine(s).

(*14*) A list of emission component parts numbers.

(*15*) Drawings, calibration curves, and descriptions of emission related components, including those components regulated under § 86.081–22(e) of this subpart, and schematics of hoses and other devices connecting these components.

(C) The results of all emission tests the manufacturer performs.

(D)(*1*) The following statement signed by the authorized representative of the manufacturer: "The vehicles (or engines) described herein have been tested in accordance with the [list of applicable subparts: A, B, D, or I] of Part 86, Title 40, United States Code of Federal Regulations, and on the basis of those tests are in conformance with that subpart. All of the data and records required by that subpart are on file and are available for inspection by the EPA Administrator. We project the total U.S. sales of vehicles (engines) subject to this subpart to be fewer than 10,000 units."

(*2*) A statement as required by and contained in paragraph 86.081–14(c)(5) of this subpart signed by the authorized representative of the manufacturer.

(*3*) A statement that the vehicles or engines described in the manufacturers application for certification are not equipped with auxiliary emission control devices which can be classified as a defeat device as defined in § 86.081–2 of this subpart.

(*4*) A statement of compliance with section 206(a)(3) of the Clean Air Act.

(iii) If the manufacturer meets requirements of this subpart, the Administrator will issue a certificate of conformity for the vehicles described in the application for certification.

(iv) The certification will be issued for such a period not to exceed one model year as the Administrator may determine and upon such terms as he may deem necessary to assure that any new vehicle or engine covered by the certificate will meet the requirements of the Act and of this subpart. Each such certificate shall contain the following language:

"The certificate covers only those new motor vehicles (or new motor vehicle engines) which conform, in all material respects, to the design specifications that applied to those vehicles (or engines) described in the application for certification required by 40 CFR 86.081–14(c)(11)(ii), and the records required by 40 CFR 86.081–14(c) and which are produced during the ——— model year production period of the said manufacturer, as defined in 40 CFR 86.081–2.

"It is a term of this certificate that the manufacturer shall consent to all inspections described in 40 CFR 86.078–7(c) which concern either the vehicle (or engine) certified, or any production vehicle (or production engine) which when completed will be claimed to be covered by this certificate. Failure to comply with all the requirements of § 86.078–7(c) with respect to any such vehicle (or engine) may lead to revocation or suspension of this certificate as specified in 40 CFR 86.081–30(c). It is also a term of this certificate that this certificate may be revoked or suspended for the other reasons stated in § 86.081–30 (c) or (d)."

(v)(A) If, after a review of the statements and descriptions submitted by the manufacturer, the Administrator determines that the manufacturer has not met the applicable requirements, the Administrator shall notify the manufacturer in writing, setting forth the basis for his determination. The manufacturer may request a hearing on the Administrator's determination.

(B) If the manufacturer does not request a hearing or present the required information the Administrator will deny certification.

(12) Sections 86.081–31 through 86.081–32 of this subpart are not applicable.

(13) Section 86.081–33. Small-volume manufacturers are covered by the following:

(i) Small-volume manufacturers may make production changes (running changes) without receiving the Administrator's prior approval. The manufacturer shall assure (by conducting emission tests as it deems necessary) that the affected vehicles (engines) remain in compliance with the requirements of this part.

(ii) The manufacturer shall notify the Administrator within seven days after implementing any production change (running changes) that could affect vehicle emissions. This notification shall include any changes to the information required under paragraph (c)(11)(ii) of this section. The manufacturer shall also amend as necessary its records required under paragraph (c)(4) of this section to conform with the production change.

(14) Section 86.081–34 of this subpart is not applicable.

(15) Sections 86.081–35 through 86.081–39 of this subpart are applicable.

4. A new § 86.082–14, is added.

§ 86.082–14 Small-volume manufacturers certification procedures.

(a) The small-volume manufacturers certification procedures described in paragraphs (b) and (c) of this section are optional. Small-volume manufacturers may use these optional procedures to demonstrate compliance with the general standards and specific emission requirements contained in this subpart.

(b)(1) The optional small-volume manufacturers certification procedures apply to light-duty vehicles, light-duty trucks, and heavy-duty engines produced by manufacturers with U.S. sales (for the model year in which certification is sought) of fewer than 10,000 units (LDV, LDT and HDE combined).

(2) For the purpose of determining the applicability of paragraph (b)(1) of this section, where there is more than one importer or distributor of vehicles and/or engines manufactured by the same person, the sales the Administrator shall use shall be the aggregate of the projected or actual sales of those vehicles and/or engines by all of the importers and distributors.

(c) Small-volume manufacturers shall demonstrate compliance with the applicable sections of this subpart as follows:

(1) Sections 86.082–1 through 86.082–11 of this subpart are applicable.

(2) Section 86.082–12 of this subpart is not applicable.

(3) Sections 86.082–13 through 86.082–20 of this subpart are applicable.

(4) Section 86.082–21. Small-volume manufacturers are covered by the following:

(i) The manufacturer shall include in its records all of the information that EPA requires in § 86.082–21 of this subpart. This information will be considered part of the manufacturer's application for certification. However, the manufacturer is not required to submit the information to the Administrator unless the Administrator requests it.

(5) Section 86.082–22 is applicable except as noted below.

(i) Small-volume light-duty vehicle and light-duty truck manufacturers may satisfy the requirements of § 86.082–22(e) by including a statement of compliance on adjustable parameters in the application for certification. In the statement of compliance the manufacturer shall state that the limits, stops, seals, or other means used to inhibit adjustment have been designed to accomplish their intended purpose based on good engineering practice and past experience. If the vehicle parameter is adjustable the vehicle must meet emission standards with the parameter set any place within the adjustable range (Reference § 86.081–21).

(ii) Paragraphs (a), (b), (c), and (d) of § 86.082–22 are not applicable.

(6) Section 86.082–23 is applicable except that small-volume light-duty vehicle manufacturers may test emission-data vehicles at any service accumulation distance less than the 6,436-kilometer (4,000-mile) test point. Small-volume heavy-duty manufacturers may provide compliance emission data at less than 125 hours of operation instead of the 125-hour test point.

(7) Section 86.082–24 of this subpart is applicable except as noted below.

(i) Small-volume manufacturers may satisfy the requirements of paragraph (b) and (c) of § 86.082–24 by:

(A) Selecting emission-data test vehicles (engines) by the worst-case emissions criteria as follows:

(*1*) *Light-duty vehicles and light-duty trucks.* The test vehicle shall be selected based on the following criteria: The manufacturer shall select the heaviest (including options) vehicle within the family. Then within that vehicle it shall select, in the order listed, the largest frontal area, largest displacement, highest fuel flow per stroke at the speed of maximum rated torque and the highest numerical axle ratio with the largest tire offered in that engine family.

(*2*) *Heavy-duty gasoline fueled engines.* The manufacturer shall select the worst case emission-data engine first based on the largest displacement within the engine family. Then within the largest displacement the manufacturer shall select, in the order listed, highest fuel flow per stroke at the speed of maximum rated torque, the engine with the most advanced spark timing, no EGR or lowest EGR flow, and no air pump or lowest actual flow air pump.

(*3*) *Heavy-duty diesel engines.* The manufacturer shall select the worst case emission data engine based on the highest fuel feed per stroke, primarily at the speed of maximum rated torque and secondarily at rated speed.

(B) Using assigned deterioration factors that the Administrator determines and prescribes. However, the manufacturer may, at its option, accumulate miles (hours) on a durability-data vehicle (engine) and complete emission tests for the purpose of establishing its own deterioration factor.

(iv) Paragraphs (d) and (e) of § 86.082–24 are not applicable.

(8) Section 86.082–25 of this subpart is applicable to durability-data light-duty vehicles, light-duty trucks, and heavy-duty engines if the manufacturer does not use assigned deterioration factors.

(9) Sections 86.082–26 and 86.082–27 of this subpart are not applicable.

(10) Sections 86.082–28 and 86.082–29 of this subpart are applicable.

(11)(i) Section 86.082–30 of this subpart is applicable, except for paragraph (a)(2) and (b) of that section. In the place of these paragraphs, small-volume manufacturers shall comply with paragraphs (c)(11)(ii) through (11)(v) of this section, as shown below.

(ii) Small-volume manufacturers shall submit an application for certification containing the following:

(A) The names, addresses, and telephone numbers of the persons the manufacturer authorizes to communicate with us.

(B) A brief description of the vehicles (or engines) covered by the certificate (the manufacturers' sales data book or advertising, including specifications, may satisfy this requirement for most manufacturers). The description shall include, as a minimum, the following items as applicable:

(*1*) Engine families and vehicles (or engine) configurations

(*2*) Vehicle or engine models to be listed on the certificate of conformity

(*3*) The test weight and horsepower setting for each vehicle or engine configuration.

(*4*) Projected sales.

(*5*) Combustion cycle.

(*6*) Cooling mechanism.

(*7*) Number of cylinders.

(*8*) Displacement.

(*9*) Fuel system type.

(*10*) Number of catalytic converters, volume, and composition.

(*11*) Method of air aspiration.

(*12*) Thermal reactor characteristics.

(*13*) Suppliers' and/or manufacturer's name and model number of any emission related items of the above, items if purchased from a supplier who uses the items in its own certified vehicles(s) or engine(s).

(*14*) A List of emission component part numbers.

(*15*) Drawings, calibration curves, and descriptions of emission related components, including those components regulated under § 86.082–22(e) of this subpart, and schematics of hoses and other devices connecting these components.

(*16*) Vehicle adjustments or modifications necessary for light-duty vehicles and light-duty trucks, to assure that they conform to high-altitude standards.

(*17*) A description of the light-duty vehicles and 1982 model year light-duty trucks which are exempted from the high-altitude emission standards.

(C) The results of all emission tests the manufacturer performs.

(D)(*1*) The following statement signed by the authorized representative of the manufacturer: "The vehicles (or engines) described herein have been tested in accordance with the [list of the applicable subparts; A, B, D, or I] of Part 86, Title 40, United States Code of Federal Regulations, and on the basis of those tests are in conformance with that subpart. All of the data and records required by that subpart are on file and are available for inspection by the EPA Administrator. We project the total U.S. sales of vehicles (engines) subject to this subpart to be fewer than 10,000 units."

(*2*) A statement as required by and contained in § 86.081–14(c)(5) of this subpart signed by the authorized representative of the manufacturer.

(*3*) A statement that the vehicles or engines described in the manufacturers application for certification are not equipped with auxiliary emission control devices which can be classified as a defeat device as defined in § 86.082–2 of this subpart.

(*4*) A statement of compliance with section 206(a)(3) of the Clean Air Act.

(*5*) A statement that based on the manufacturers engineering evaluation and/or emission testing the vehicles sold for principle use at designated high-altitude locations comply with the high-altitude emission requirements and that all other vehicles are at least capable of being modified to meet high-altitude standards unless exempt under § 86.082–9(g)(2) and § 86.082–9(g)(2).

(iii) If the manufacturer meets requirements of this subpart, the Administrator will issue a certificate of conformity for the vehicles described in the application for certification.

(iv) The certificate will be issued for such a period not to exceed one model year as the Administrator may determine and upon such terms as he may deem necessary to assure that any new vehicle or engine covered by the certificate will meet the requirements of the Act and of this subpart. Each such certificate shall contain the following language:

"This certificate covers only those new motor vehicles (or new motor vehicle engines) which conform, in all material respects, to the design specifications that apply to those vehicles (or engines) described in the application for certification required by 40 CFR 86.082–14(c)(11)(ii), and the records required by 40 CFR 86.082–14(c) and which are produced during the ——— model year production period of the said manufacturer, as defined in 40 CFR 86.082–2."

"It is a term of this certificate that the manufacturer shall consent to all inspections described in 40 CFR §§ 86.078–7(c), and 86.608, and authorized in a warrant or court order. Failure to comply with the requirements of such a warrant or court order may lead to revocation or suspension of this certificate as specified in 40 CFR § 86.082–30(c), and (d). It is also a term of this certificate that this certificate may be revoked or suspended for the other reasons stated in § 86.082–30(c), and (d)."

(v)(A) If, after a review of the statements and descriptions submitted by the manufacturer, the Administrator determines that the manufacturer has not met the applicable requirements, the Administrator shall notify the manufacturer in writing, setting forth the basis for his determination. The manufacturer may request a hearing on the Administrator's determination.

(B) If the manufacturer does not request a hearing or present the required information the Administrator will deny certification.

(12) Sections 86.082–31 through 86.082–32 of this subpart are not applicable.

(13) Section 86.082–33. Small-volume manufacturers are covered by the following:

(i) Small-volume manufacturers may make production changes (running changes) without receiving the Administrator's prior approval. The manufacturer shall assure (by conducting emission tests as it deems necessary) that the affected vehicles (engines) remain in compliance with the requirements of this part.

(ii) The manufacturer shall notify the Administrator within seven days after implementing any production related change (running change) that would affect vehicle emissions. This notification shall include any changes to the information required under paragraph 86.082–14(c)(11)(ii) of this section. The manufacturer shall also amend as necessary its records required under paragraph 86.082–14(c)(4) of this section to conform with the production design change.

(14) Section 86.082–34 of this subpart is not applicable.

(15) Sections 86.082–35 through 86.082–39 of this subpart are applicable.

(Secs. 206 and 301(a) of the Clean Air Act, as amended at 42 U.S.C. 7525 and 7601–(a))

BILLING CODE 6560–26–M

LEGAL SERVICES CORPORATION

45 CFR Part 1612

Restrictions on Certain Activities

AGENCY: Legal Services Corporation.

ACTION: Final rule.

SUMMARY: Section 1007(a)(5)(A) of the Legal Services Corporation Act, 42 U.S.C. 2996f, requires the Corporation to ensure that funds awarded to recipients are not used for legislative advocacy except as part of the representation of an eligible client, at the request of a legislative body, or in connection with a measure which directly affects the activities under the provisions of the Act of the recipient or the Corporation. On July 28, 1978, the Corporation promulgated Part 1612, § 1612.4, in order to implement the limitations of the Act. After some experience with these provisions, it has become necessary to impose new requirements in order to ensure that day-to-day observance of these limitations by recipients.

DATES: Effective April 13, 1981.

ADDRESS: Legal Services Corporation, 733 15th Street NW., Suite 700, Washington, D.C. 20005.

FOR FURTHER INFORMATION CONTACT: Linda Hanten, 202–272–4010.

SUPPLEMENTARY INFORMATION: On December 31, 1980 (46 FR 86511) these requirements were published for comment in the **Federal Register**. All comments received supported their adoption. The Board of Directors of the Legal Services Corporation authorized the publication of these requirements as final at their March 6, 1981 meeting.

These requirements are part of an overall effort to ensure that all recipient legislative advocacy is conducted in compliance with the congressionally imposed restrictions. In addition to

promulgating these regulatory changes, the Corporation is focusing on monitoring and training to ensure that recipients are aware of and understand congressional limitations on legislative advocacy. Further, a formal complaint procedure is being initiated so that complaints of impermissible legislative advocacy will be resolved in a consistent and timely manner.

The first addition to Part 1612, § 1612.4(b), will require recipients to implement a system under which appropriate documentation will be secured before any legislative advocacy is undertaken by an employee. If legislative advocacy is to be undertaken on behalf of an eligible client, the recipient will secure an agreement in writing or other appropriate documentation specifically authorizing such representation. Similarly, if the recipient has been requested by a member or a committee of the legislature to engage in legislative advocacy, the request must be appropriately documented. Finally, if legislative advocacy is undertaken because of possible legislation directly affecting the activities of a recipient, the executive or program director will authorize the initiation of such advocacy in writing. Recipients will further be required to notify their staff of this system of prior authorization for legislative advocacy and to insure that it is complied with.

A second addition to Part 1612.4, §1612.4(c) will prohibit programs from establishing legislative offices until the recipient's board of directors, primarily composed of attorneys, approves such an action consistent with the programs' priorities, the attorneys' professional responsibility and as an economical and efficient approach to meeting clients' needs for legislative representation.

Finally, because of the amendments, it will be necessary to redesignate current § 1612.4(b) as § 1612.4(d).

Section 1612.4 is amended by redesignating paragraph (b) as (d) and adding new paragraphs (b) and (c) to read as follows:

§ 1612.4 Legislative and administrative representation.

* * * * *

(b) Recipients shall adopt appropriate procedures and forms to document that the legislative activities in which they engage fall within the activities permitted in § 1612.4(a).

(c) Recipients may not establish full time legislative offices unless the decision to establish such an office is formally made by the Board of Directors of the recipient consistent with the provisions of Section 1620, provided that the legislative activities of these offices are solely activities permitted under § 1612.4(a).

BILLING CODE 6820-35-M

FEDERAL COMMUNICATION COMMISSION

47 CFR Part 73

[BC Docket No. 80-177; RM-3373, 3495]

Radio Broadcast Services; FM Broadcast Stations, in Springdale, Ark. and Washburn, Mo.

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: Action taken herein assigns Channel 237A to Washburn, Missouri, in response to a request from William Carney. A separate request to assign Channel 237A to Springdale, Arkansas, by Robert R. Estes, has been denied.

DATE: Effective April 27, 1981.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Kathy A. Grant, Broadcast Bureau, (202) 632-7792.

SUPPLEMENTARY INFORMATION:

By the Chief, Policy and Rules Division:

In the matter of an amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations (Springdale, Arkansas, and Washburn, Missouri); BC Docket No. 80-177, RM-3373, RM-3495; Report and Order (Proceeding Terminated).

Adopted: February 24, 1981.

Released: March 4, 1981.

1. The Commission has under consideration the *Notice of Proposed Rule Making*, 45 FR 29665, published May 6, 1980, which proposed to assign Channel 237A to either Springdale, Arkansas, or Washburn, Missouri. The *Notice* was adopted in response to two separate petitions for rule making. The first was filed by Robert R. Estes ("Estes") and requested the assignment of Channel 237A to Springdale, Arkansas. The second, filed by William Carney ("Carney"), proposed assignment of the same channel to Washburn, Missouri. Since the distance between Springdale and Washburn is 47 kilometers (30 miles) and the required separation for co-channel Class A assignments is 104 kilometers (65 miles), the proposals are mutually exclusive. No other channels are available for assignment to either community.[1] Both petitioners filed comments restating their intent to file for the channel, if assigned to their respective communities. Monett Communications, Inc. ("Monett"), licensee of radio Stations KRMO(AM) and KKBL(FM), Monett, Missouri, filed comments in support of the Springdale proposal. Numerous letters supporting each proposal were submitted with the respective petitions. Estes, Carney and Monett all filed reply comments.

2. Springdale (pop. 20,100)[2] is located in Washington County (pop. 77,370), approximately 232 kilometers (145 miles) northwest of Little Rock, Arkansas. Springdale is being served locally by FM Station KCIZ, fulltime AM Station KBRS, and daytime-only AM Station KSPR. Washburn (pop. 233) is located in Barry County (pop. 19,597), approximately 92 kilometers (57 miles) south of Springfield, Missouri. Washburn has no local aural broadcast service. In the case of Springdale, this assignment would provide the second FM service to a community of over 20,000 persons. In the case of Washburn, this assignment would provide the community with its first local aural broadcast service.

3. The option of assigning a different channel (249A) to Washburn was raised in Carney's comments. A Channel 249A assignment to Washburn is limited by Channel 247 in Springfield (KWFC) and presently unused Channel 252A in Bentonville, for which there are two applications pending. Depending on which application is granted, a Channel 249A assignment to Washburn would require site restrictions of either 10.7 or 11.3 miles southeast. Both locations are too far removed from Washburn to provide the 70 dBu signal required under § 73.315 of the Commission's Rules. This possible assignment would be further limited by a pending application to move the site for FM Station KLUP, Poteau, Oklahoma (Channel 250). Therefore, Channel 249A is not a viable option for assignment to Washburn.

4. Comments and reply comments filed by Estes and Carney focused on the relative desirability of the proposals. Estes emphasized that Springdale has recorded substantial and steady growth in population, income, retail sales, bank resources, and residential building and utilities use. According to Estes, Springdale experienced a fifty percent

[1] *See* paragraph 3, *infra*.

[2] Population figures are taken from the 1970 U.S. Census.

population growth between 1970 and 1980, and 300 percent increase in per capita income over the same period. Assignment of Channel 237A to Washburn, Estes contends, would deprive 20,000 people of a second local FM broadcast outlet, and create the anomalous result foreseen in *Anamosa, Iowa*, 46 F.C.C. 2d 520, 525 (1974), of favoring the much smaller community. Estes also claims that at least three FM stations "serve a substantial portion of the proposed Washburn coverage area" and that "no portion of the Washburn primary coverage area is without a minimum of five existing daytime aural broadcast services." [3] In his comments and reply comments, Carney contests Estes' statements regarding the broadcast services provided to Washburn, and claims that no FM station provides a 60 dBu contour over Washburn. In addition, Carney pointed out that agriculturally related industry is the most prevalent occupation in Washburn, creating a need for a local broadcast service to provide accurate and current weather information. Carney argues that provision of first local service to a community should outweigh provision of an additional outlet to a community already sufficiently served, regardless of size.

5. In its comments, Monett expressed the opinion that an additional outlet to a community of over 20,000 should take precedence over assignment of a channel to a small community which, it claims, already receives substantial attention from stations licensed to other communities. Monett stated that its own station, KKBL, Monett, Missouri, places a "particularly strong signal" over Washburn and does some programming for the community.[4] In reply, Carney contested Monett's claims, stating that Monett's Station KKBL places only a .25 mV/m signal over Washburn.

6. In the *Notice* we requested the petitioners to submit information about the extent of aural services received in each community from nearby stations. Information submitted in response to the request, and a staff study of the service provided to both Springdale and Washburn show that at least six FM stations place a 60 dBu or better signal over all or parts of Springdale and that there are seven AM stations operating within twenty miles of the community.[5] With regard to Washburn, only one FM station (KKEG, Fayetteville) places a 60 dBu signal over the community, and two AM stations operate within twenty miles of Washburn.

7. In the *Notice*, we stated a preference for a first local aural service over a second FM service to a community in accordance with established Commission priorities. However, because of the sizes of the communities and the small population of Washburn, we expressed a belief that additional factors should be taken into account, namely estimates of population growth and the extent of aural services from nearby stations. Such information has been carefully considered and we believe it fully supports our initial inclination favoring the first local service to Washburn. While Springdale is a much larger community than Washburn, it is adequately served by three local and 5 other FM stations. Washburn, on the other hand, has no local broadcast service and receives service from only one FM station in Fayetteville, Arkansas.

8. In order to comply with the Commission's minimum distance separation requirements, a site restriction of approximately 10 kilometers (6.3 miles) is required.

9. Accordingly, it is ordered, That effective April 27, 1981, § 73.202(b) of the Commission's Rules, the FM Table of Assignments, is amended for the community listed below, as follows:

City	Channel No.
Washburn, Mo	237A

10. Authority for the action taken herein is contained in Sections 4(i), 5(d)(1), 303 (g) and (r) and 307(b) of the Communications Act of 1934, as amended, and Section 0.281 of the Commission's Rules and Regulations.

11. It is further ordered, That the petition of Robert R. Estes to assign Channel 237A to Springdale, Arkansas, is denied.

12. It is further ordered, That this proceeding is terminated.

13. For further information concerning this proceeding, contact Kathy A. Grant, Broadcast Bureau, (202) 632–7792.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

Federal Communications Commission.

Henry L. Baumann,

Chief, Policy and Rules Division, Broadcast Bureau.

BILLING CODE 6712-01-M

[3] Comments of Robert R. Estes, Docket No. 80-177, at 3-4.

[4] Comments of Monett Communications, Inc., Docket No. 80-177, at 1-2.

[5] The six FM stations are: KNWA and KKEG (Fayetteville, Ark.), KISR (Fort Smith, Ark.), KAMO (Rogers, Ark.), KCIZ (Springdale, Ark.), and KMCK (Siloam Springs, Ark.). In addition, depending on site location, a station authorized in Bentonville (Channel 252A) may also place a 60 dBu signal over Springdale. There are two applications presently pending for the Bentonville channel.

Proposed Rules

Federal Register
Vol. 46, No. 48
Thursday, March 12, 1981

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Extension of time for filing exceptions to proposed rule.

SUMMARY: This action extends the time for filing exceptions to a recommended decision concerning proposed amendments to 29 milk orders. The additional time was requested by several cooperative associations.

DATE: Exceptions now are due on or before March 24, 1981.

ADDRESS: Exceptions (four copies) should be filed with the Hearing Clerk, Room 1077, South Building, U.S. Department of Agriculture, Washington, D.C. 20250.

FOR FURTHER INFORMATION CONTACT: Martin J. Dunn, Marketing Specialist, Dairy Division, U.S. Department of Agriculture, Washington, D.C. 20250, 202-447-7311.

SUPPLEMENTARY INFORMATION: Prior documents in this proceeding:

Notice of Hearing: Issued July 10, 1980; published July 15, 1980 (45 FR 47432).

Supplemental Notice of Hearing: Issued July 21, 1980; published July 25, 1980 (45 FR 49594).

Recommended Decision: Issued February 11, 1981; published February 18, 1981 (46 FR 12709).

Notice is hereby given that the time for filing exceptions to the above listed recommended decision is hereby extended to March 24, 1981.

This notice is issued pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 *et seq.*), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900).

Signed at Washington, D.C., on: March 9, 1981.

William T. Manley,

Deputy Administrator, Marketing Program Operations.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 21

[Docket No. 21491, Notice No. SC-81-1]

Special Conditions: CASA Model C-212 Series Airplanes; Type Certification Basis

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed special conditions.

SUMMARY: This notice proposes special conditions for the modified CASA Model C-212 series airplane which is to be manufactured in Spain and imported into the United States. This airplane will have novel or unusual design features, associated with an automatic takeoff power control system (ATPCS) for which the applicable airworthiness regulations do not contain adequate or appropriate safety standards. This notice contains the safety standards which the Administrator finds necessary to establish a level of safety equivalent to that established in the regulations by reason of the novel or unusual features.

DATES: Comments must be received by April 13, 1981.

ADDRESS: Comments on this proposal may be mailed in duplicate to: Federal Aviation Administration, Office of the Chief Counsel, Attn: Rules Docket (AGC-204), Docket No. 21491, 800 Independence Avenue SW., Washington, D.C. 20591; or delivered in duplicate to: Room 916, 800 Independence Avenue SW., Washington, D.C. 20591. All comments must be marked: Docket No. 21491. Comments may be inspected in the Rules Docket weekdays, except Federal holidays, between 8:30 a.m. and 5:00 p.m.

FOR FURTHER INFORMATION CONTACT: James Walker, Lead Region Staff, FAA Northwest Region, FAA Building, Boeing Field, Seattle, Washington 98108. Telephone (206) 767-2565.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested persons are invited to participate in the making of these special conditions by submitting such written data, views, or arguments as they may desire. Communications should identify the regulatory docket or notice number and be submitted in duplicate to the address specified above. All communications received on or before the closing date for comments specified above will be considered by the Administrator before taking action on this proposal. The proposals contained in this notice may be changed in the light of comments received. All comments submitted will be available both before and after the closing date in the Rules Docket for examination by interested persons.

Type Certification Basis

The applicable airworthiness standards for import products are those regulations designated in accordance with § 21.29 and are known as the "type certification basis" for the airplane design. Special conditions may be issued and amended, as necessary, as a part of the type certication basis if the Administrator finds that the airworthiness standards designated in accordance with § 21.17(a)(1) do not contain adequate or appropriate safety standards because of novel or unusual design features of the airplane. Special conditions, as appropriate, are now issued after public notice in accordance with §§ 11.28 and 11.29(b), effective October 14, 1980, and will become part of the type certification basis in accordance with § 21.17(a)(2).

Background

On July 23, 1980, Construcciones Aeronautics, S.A., Rey Francisco, 4, Madrid 8 Spain, applied for an amendment to United States Import Type Certificate No. A43EU for its CASA Model C–212 series airplane. The Model C–212 is a twin-engine, pressurized transport category airplane having a high wing and a maximum takeoff weight of 16,427 pounds. The airplane is equipped with two Airesearch TPE331–10–501C turbo-propeller engines, each producing 900 shaft horsepower; it has a maximum seating capacity of 30 persons, including the crew, and has a maximum altitude of 25,000 feet.

The modification covered under the amendment ot the type certificate is the installation of an automatic takeoff power control system (ATPCS). With the ATPCS installed, takeoffs would normally be made with engine power set at less than the maximum takeoff power approved for the airplane under existing conditions. In the event of an engine failure on takeoff, the automatic system will reset the fuel control fuel metering schedule on the operating engine to provide the maximum takeoff power. Provisions are also made for the manual selection of the maximum takeoff power. The application of maximum takeoff power, whether set by the automatic system or manually, will not result in the takeoff operating limits of the engine being exceeded.

The type certification basis for the CASA Model C–212 airplane with the ATPCS installed to be incorporated in the type certificate is Part 25, Amendments 25–1 through 25–35; Part 36, Amendments 36–1 through 36–4; § 21.29; and the special conditions that may result from this notice.

The type design of the Model C–212 series airplane, with the automatic system installed, contains a number of novel or unusual design features for an airplane type certificated under the airworthiness requirements incorporated by reference in Type Certificate No. A43EU or under the applicable airworthiness requirements in effect on the date of application for change to that type certificate. In either case, the applicable airworthiness requirements do not contain adequate or appropriate safety standards. Special conditions are necessary to provide a level of safety equal to that established by the regulations incorporated by reference in the type certificate and to support a finding by the Administrator that no feature or characteristic of the airplane with the automatic system installed makes it unsafe for the category in which certification is requested. These special conditions specify limits on the maximum power increment which may be applied to the operating engines by the automatic takeoff power control system, prescribe system reliability and status monitoring requirements, require provisions for manual selection of the maximum takeoff power approved for the airplane under existing conditions, prohibit approval of the system if the automatic or manual application of maximum takeoff power would result in an engine operating limit being exceeded, and require the installation of an independent engine failure warning system if the inherent characteristics of the airplane do not provide a clear warning to the crew.

The FAA developed special conditions for an Automatic Takeoff Thrust Control System (ATTCS) for current turbine-powered transport category airplanes, and sent the proposal to U.S. user groups and various foreign Civil Air Authorities for review and comment in November 1977. Comments were received, reviewed, and the special conditions were revised and sent to the same groups in May 1978. This procedure was repeated again in November 1978. Cooperating with the FAA in this development were the Aerospace Industries Association (AIA), Air Transport Association of America (ATA), Air Line Pilots Association (ALPA), Allied Pilots Association (APA), Rolls Royce (RR), Hawker Siddeley Aviation Ltd. (HS), British Civil Air Authority (BCAA), the Civil Air Authorities of Australia and Japan, the French Technical Commission Navigation (FTCN) and the French Civil Air Authorities (FCAA), Lockheed, Boeing, McDonnell Douglas, and Rockwell International.

Based on the comments received and on further review by the FAA, a number of changes were made to the special conditions (SC) proposal. These provide for consideration of the following specific matters:

1. For the fail-operational (able to perform its intended function after a single failure or combination of failures not shown to be extremely improbable within the ATTCS system) system proposed, a reduction of the ATTCS failure probability from extremely improbable to improbable for the ATTCS alone, the addition of an extremely improbable failure probability for the combined ATTCS and engine failure, and deletion of the all-engine performance criteria.

2. For the nonfail-operational system proposed, a reduction in the failure probability from improbable to 10^{-3} for the ATTCS alone, introduction of a climb gradient for the combined ATTCS and engine failure case, and deletion of an engine failure warning means if the inherent characteristics of the engine failure are clearly made known to the pilot; and

3. Clarifying changes, including a graphical presentation to clarify the definition of the term "Critical Time Interval."

The proposed special conditions differ in one major respect from similar special conditions previously issued for other airplane models. The certification basis for the CASA C–212 includes Amendment 25–23 to FAR Part 25 which includes the requirements of § 25.1309(b)(2). Previous model airplanes to which special conditions for an ATTCS were applied do not have to meet the current requirements of § 25.1309(b)(2). The current rules in § 25.1309(b)(2) are more stringent than the previous special condition requirements; therefore, the option to provide an ATPCS with reduced reliability if an specific level of minimum performance is available with both the ATPCS and an engine failed has been deleted from these special conditions.

The modification covered under the amendment to the type certificate is the installation of an ATPCS (ATTCS) system. ATTCS special conditions issued to date for other airplanes without automatic limiters that prevent engine limits from being exceeded require the ATTCS be designed to allow manual decrease or increase in thrust (power) up to the maximum takeoff thrust approved for the airplane under existing conditions through the use of

power levers. The ATPCS system installed on the engines of the C–212 airplane contains an automatic "torque and gas temperature limiting" system which automatically limits the torque and exhaust gas temperature to a predetermined limit and prevents the engine operating limits from being exceeded under normal conditions associated with the takeoff power setting procedures. In the event of an engine failure, the ATPCS system, when "armed" or "ON", will automatically increase the fuel flow and increase the exhaust gas temperature (EGT) as maintained by the SRL (single red line limit). In the event of an ATPCS failure with an engine failure, the crew would be required to deactivate the system to achieve maximum takeoff power. Because of this design feature where the pilot must move his hand off the throttle to activate the maximum power available, the agency has determined that the special conditions for aircraft with automatic limiters should be modified under "Powerplant Controls—General" to provide that such activation is allowed providing that the means to increase power is located on or forward of the power levers, is easily operated by either pilot, and meets the requirement of § 25.777. These special conditions incorporate that provision.

The Proposed Special Conditions

Accordingly, the Federal Aviation Administration proposes the following special conditions for the CASA C–212 series airplanes equipped with an automatic takeoff power control system installed:

A. General

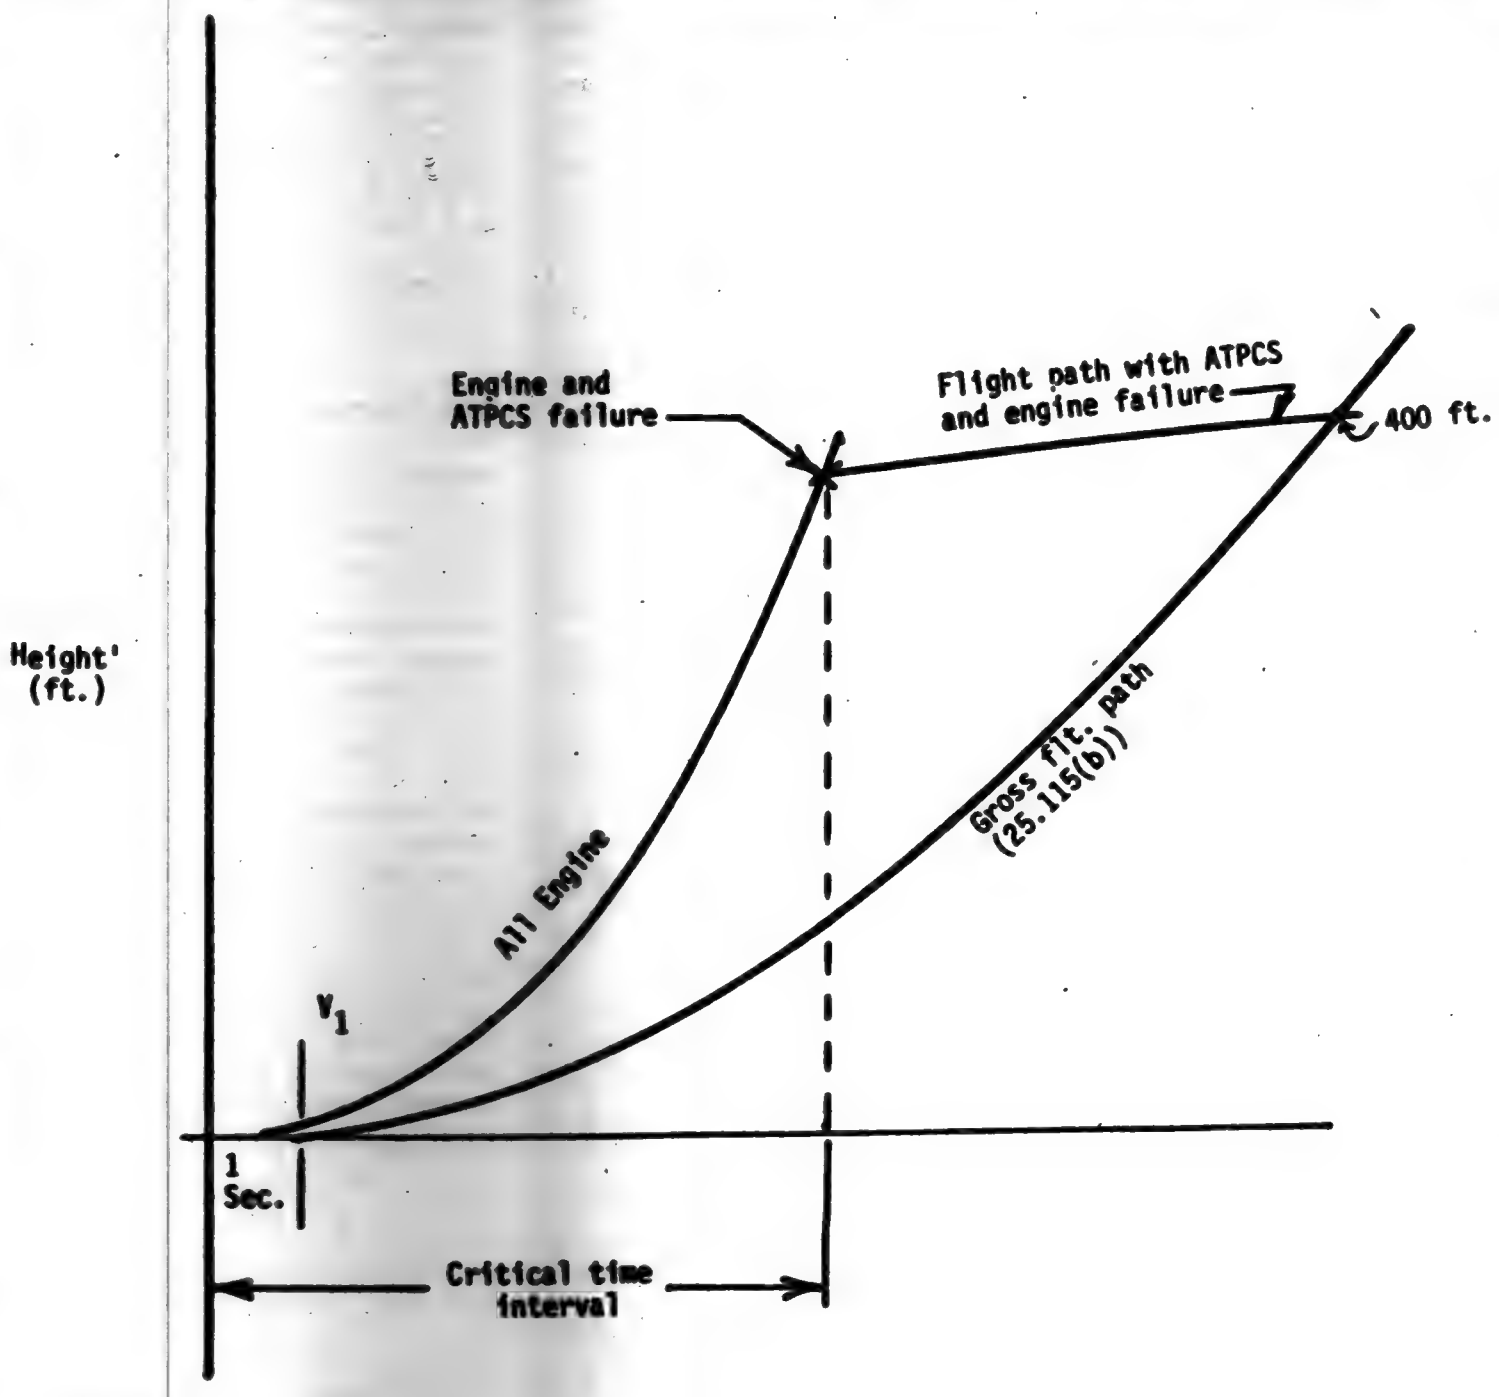
With the automatic takeoff power control system (ATPCS) and associated systems functioning normally as designed, all applicable requirements of FAR Part 25, except as provided in these special conditions, must be met without requiring any action by the crew to increase power. In addition, the ATPCS system must meet the following special conditions:

B. Definitions

An Automatic Takeoff Power Control System (ATPCS) is defined as the entire automatic system used on takeoff, including all devices, both mechanical and electrical, that sense engine failure, transmit signals, actuate fuel controls or power levers on operating engines to achieve scheduled power increase, and furnish cockpit information on system operation.

1. *Critical Time Interval.* When conducting an ATPCS takeoff, the critical time interval is the time interval between V_1 minus 1 second and a point on the minimum performance all-engine flight path where, assuming a simultaneous engine and ATPCS failure, the resulting minimum flight path thereafter intersects the FAR Part 25 required gross flight path at not less than 400 feet from the takeoff surface. This definition is shown in the following graph:

BILLING CODE 4910-13-M



BILLING CODE 4910-13-C

2. *Takeoff Power.* Notwithstanding the definition of "Takeoff Power" in Part 1 of the Federal Aviation Regulations, "Takeoff Power" means each power obtained from each initial power setting approved for takeoff under these special conditions.

C. Performance Requirements

The following reliability and performance criteria apply:

1. An ATPCS system failure during the critical time interval must be shown to be improbable.

2. The concurrent existence of an ATPCS failure and an engine failure during the critical time interval must be shown to be extremely improbable.

3. All applicable performance requirements of FAR Part 25 must be met with an engine failure occurring at the most critical point during takeoff with the ATPCS system functioning.

D. Power Setting

The initial takeoff power set on each engine at the beginning of the takeoff roll may not be less than—

1. Ninety (90) percent of the power level set by the ATPCS (the maximum takeoff power approved for the airplane under existing conditions);

2. That required to permit normal operation of all safety-related systems and equipment dependent upon engine power or power level position; or

3. That shown to be free of hazardous engine response characteristics when power is advanced from the initial takeoff power level to the maximum approved takeoff power.

E. Powerplant Controls—General

1. In addition to the requirements of § 25.1141, no single failure or malfunction, or probably combination thereof, of the ATPCS system, including associated systems, may cause the failure of any powerplant function necessary for safety.

2. The ATPCS must be designed to—

(a) Apply power on the operating engine following an engine failure during takeoff to achieve the selected takeoff power without exceeding engine operating limits;

(b) Allow manual decrease or increase in power up to the maximum takeoff power approved for the airplane under existing conditions through the use of the power levers. For aircraft equipped with limiters that automatically prevent engine operating limits from being exceeded under existing conditions, however, other means may be used to increase the maximum level of power controlled by the power levers in the event of an ATPCS failure. In this case, the means must be located on or forward of the power levers, it must be easily identified and operated under all operating conditions by a single action of either pilot with the hand that is normally used to actuate the power levers, and must meet the requirements of § 25.777 (a), (b), and (c).

(c) Provide a means to verify to the flightcrew before takeoff that the ATPCS is in a condition to operate; and

(d) Provide a means for the flightcrew to deactivate the automatic function. This means must be designed to prevent inadvertent deactivation.

F. Powerplant Instruments.

In addition to the requirements of § 25.1306—

1. A means must be provided to indicate when the automatic takeoff power control system is in the armed or ready condition; and

2. If the inherent flight characteristics of the airplane do not provide adequate warning that an engine has failed, a warning system that is independent of the ATPCS must be provided to give the pilot a clear warning of any engine failure during takeoff.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958, as amended, (49 U.S.C. 1354(a), 1421, and 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.28 and 11.29(b))

Note.—This action is not a proposed rule of general applicability and is therefore not covered under Executive Order 12291 or the Regulatory Flexibility Act. The FAA has determined that this document is not considered to be significant as defined in Department of Transportation Regulatory Policies and Procedures (44 FR 11034; February 26, 1979). A copy of the regulatory evaluation prepared for this action is contained in the docket. A copy of it may be obtained by contacting the person identified as the information contact.

Issued in Washington, DC, on March 6, 1981.

M. C. Beard,

Director of Airworthiness.

BILLING CODE 4910-13-M

FEDERAL TRADE COMMISSION

16 CFR Part 13

[File No. 9124]

George Irvin Chevrolet Co.; Proposed Consent Agreement With Analysis to Aid

AGENCY: Federal Trade Commission.

ACTION: Proposed consent agreement.

SUMMARY: In settlement of alleged violations of federal law prohibiting unfair acts and practices and unfair methods of competition, this consent order, accepted subject to final Commission approval, would require, among other things, a Denver, Colorado motor vehicle dealer to cease failing to make all the credit disclosures required by federal law. Further, the firm would be prohibited from using certain credit terms in advertisements promoting credit sales, unless those advertisements also include statutorily required information in the manner prescribed by law.

DATE: Comments must be received on or before May 11, 1981.

ADDRESS: Comments should be directed to: Office of the Secretary, Federal Trade Commission, 6th St. and Pennsylvania Ave., N.W., Washington, D.C. 20580.

FOR FURTHER INFORMATION CONTACT:

Sharon J. Devine, Assistant Director, 6R, Denver Regional Office, Federal Trade Commission, Suite 2900, 1405 Curtis Street, Denver, Colo. 80202. (303) 837-2271.

SUPPLEMENTARY INFORMATION: Pursuant to Section 6(f) of the Federal Trade Commission Act, 38 Stat. 721, 15 U.S.C. 46 and § 3.25(f) of the Commission's Rules of Practice (16 CFR 3.25(f)), notice is hereby given that the following consent agreement containing a consent order to cease and desist and an explanation thereof, having been filed with and accepted, subject to final approval, by the Commission, has been placed on the public record for a period of sixty (60) days. Public comment is invited. Such comments or views will be considered by the Commission and will be available for inspection and copying at its principal office in accordance with § 4.9(b)(14) of the Commission's Rules of Practice (16 CFR 4.9(b)(14)).

United States of America—Before Federal Trade Commission

In the matter of George Irvin Chevrolet Co., a corporation; Docket No. 9124, Agreement Containing Consent Order To Cease and Desist.

The agreement herein, by and between George Irvin Chevrolet Co., a corporation, hereafter sometimes referred to as respondent, and its duly authorized officer, and its attorney, and counsel for the Federal Trade Commission, is entered into in accordance with the Commission's Rule governing consent order procedures. In accordance therewith the parties hereby agree that:

1. Respondent George Irvin Chevrolet Co. is a corporation organized, existing and doing business under and by virtue of the laws of the State of Colorado, with its office and principal place of business located at 300 South Colorado Boulevard, in the City of Denver, State of Colorado.

2. Respondent has been served with a copy of the complaint issued by the Federal Trade Commission charging it with violation of §§ 226.6(a), 226.10, and 226.10(d)(2) of Regulation Z, the implementing regulation of the Truth-in-Lending Act and Section Five of the Federal Trade Commission Act, and has filed an answer to said complaint denying said charges.

3. Respondent admits all the jurisdictional facts set forth in the Commission's complaint in this proceeding.

4. Respondent waives:

(a) Any further procedural steps;

(b) The requirement that the Commission's decision contain a statement of findings of fact and conclusions of law; and

(c) All rights to seek judicial review or otherwise to challenge or contest the validity of the order entered pursuant to this agreement.

5. This agreement shall not become a part of the public record of the proceeding unless and until it is accepted by the Commission. If this agreement is accepted by the Commission, it will be placed on the public record for a period of sixty (60) days and information in respect thereto publicly released. The Commission thereafter may either withdraw its acceptance of this agreement and so notify the respondent, in which event it will take such action as it may consider appropriate, or issue and serve its decision, in disposition of the proceeding.

6. This agreement is for settlement purposes only and does not constitute an admission by respondent that the law has been violated as alleged in the said copy of the complaint issued by the Commission.

7. This agreement contemplates that, if it is accepted by the Commission, and if such acceptance is not subsequently withdrawn by the Commission pursuant to the provisions of § 3.25(f) of the Commission's Rules, the Commission may without further notice to respondent, (1) issue its decision containing the following order to cease and desist in disposition of the proceeding, and (2) make information public in respect thereto. When so entered, the order to cease and desist shall have the same force and effect and may be altered, modified or set aside in the same manner and within the same time provided by statute for other orders. The order shall become final upon service. Delivery by the U.S. Postal Service of the decision containing the agreed-to order to respondent's address as stated in this agreement shall constitute service. Respondent waives any right it might have to any other manner of service. The complaint may be used in construing the terms of the order, and no agreement, understanding, representation, or interpretation not contained in the order or in the agreement may be used to vary or to contradict the terms of the order.

8. Respondent has read the complaint and the order contemplated hereby. It understands that once the order has been issued, it will be required to file one or more compliance reports showing that it has fully complied with the order. Respondent further understands that it may be liable for civil penalties in the amount provided by law for each violation of the order after it becomes final.

Order

It is ordered that respondent George Irvin Chevrolet Co., a corporation, its successors and assigns, and respondent's officers, agents, representatives and employees, directly or through any corporation or other device, in connection with any advertisement to aid, promote, or assist, directly or indirectly, any extension of consumer credit, as "advertisement" and "consumer credit" are defined in Regulation Z (12 CFR 226) of the Truth-in-Lending Act (Pub. L. 90-321, 15 U.S.C. 1601 *et seq.*), do forthwith cease and desist from:

1. Stating that no downpayment is required, or stating the amount of the downpayment or of any installment payment required (either in dollars or as a percentage), the dollar amount of any finance charge, the number of installments or the period of repayment, or stating that there is no charge for credit, unless all of the following items are also clearly and conspicuously set forth in terminology prescribed by § 226.8 of Regulation Z, as required by § 226.10(d)(2) of Regulation Z:

(a) The cash price;

(b) The amount of the downpayment required or that no downpayment is required, as applicable;

(c) The number, the amount, and due dates or period of payments scheduled to repay the indebtedness if the credit is extended;

(d) The amount of the finance charge expressed as an annual percentage rate; and

(e) The deferred payment price.

2. Failing in connection with all television and radio advertisements in which cost of credit disclosures must be made pursuant to § 226.10(d)(2) of Regulation Z, to make such disclosures clearly, conspicuously, and in meaningful sequence, as required by § 226.6(a) of Regulation Z. The following standards shall be met in order for a television advertisement to be deemed a "clear and conspicuous" disclosure within the meaning of this order:

(a)(i) The finance charge expressed as an annual percentage rate shall be presented simultaneously in both the audio and video portions of the television advertisement;

(ii) The remaining disclosures required by § 226.10(d)(2) of Regulation Z shall be presented in the video portion of the television advertisement;

(iii) Any of the remaining disclosures required by § 226.10(d)(2) of Regulation Z may be presented in the audio portion of the television advertisement, but if so presented, shall be presented simultaneously and in identical sequence in both the audio and video portions of the television advertisement;

(b) The video portion of the required credit disclosures shall contain letters large enough to be easily seen and read with reasonable ease on all television sets, regardless of picture tube size, that are commercially available to the consuming public;

(c) The video portion of the required credit disclosures shall contain letters of a color or shade that readily contrasts with the background on both color and black and white television sets. The background shall consist of only one color or shade;

(d) During the video portion of the required credit disclosures, no words or images shall appear on the television screen which are not part of the required disclosures; provided however, that during said disclosures two-thirds of the television screen may contain images which do not obscure or detract attention from the required disclosures;

(e) The video presentation of the required credit disclosures shall be no less than ten seconds' duration;

(f) During the audio portion of the required credit disclosures, no sounds which obscure or detract attention from the required disclosures may be presented;

(g) The audio portion of the required credit disclosures shall be spoken with sufficient deliberateness, clarity, and volume, so as not to obscure or detract attention from the required disclosures made in either the video or audio portion;

(h) The audio and video portions of the required credit disclosures shall immediately follow the specific representation which triggers the affirmative disclosure requirement contained in § 226.10(d)(2) of Regulation Z;

(i) the audio and video portion of the required credit disclosures shall not give such emphasis to any disclosure as to obscure or detract attention from the other credit disclosures.

It is further ordered that respondent, its successors and assigns, shall forthwith distribute a copy of this order to each of its operating divisions and to each person responsible for or connected with preparation of its television advertisements and secure from each such person a signed statement acknowledging receipt of said order.

It is further ordered that respondent notify the Commission at least 30 days prior to any proposed change in respondent such as dissolution, assignment, or sale resulting in the emergence of a successor corporation, or any other circumstances which may affect any compliance obligation arising out of this order.

It is further ordered that respondent George Irvin Chevrolet Co., shall, within sixty (60) days after this order becomes final, file with the Commission a report in writing setting forth in detail the manner and form in which it has complied with this order.

Analysis of Proposed Order To Aid Public Comment

The Federal Trade Commission has accepted an agreement to a proposed consent order from George Irvin Chevrolet Co.

The proposed consent order has been placed on the public record for sixty (60) days for reception of comments by interested persons. Comments received during this period will become part of the public record. After sixty (60) days, the Commission will again review the agreement and the comments received and will decide whether it should withdraw from the agreement or make final the agreement's proposed order.

The complaint alleges that the respondent, a Denver automobile dealer, televised advertisements that promoted

credit sales of its automobiles. The advertisements allegedly failed to:

1. Disclose all of the credit terms required by § 226.10(d)(2) of Regulation Z, the regulation that implements the Truth-in-Lending Act;

2. Disclose all of the credit terms required by § 226.10(d)(2) of Regulation Z in terminology prescribed by the regulation; and

3. Disclose all of the credit terms required by § 226.10(d)(2) of Regulation Z clearly, conspicuously, and in meaningful sequence.

According to the complaint, these failures violated the Truth-in-Lending Act, Regulation Z, which implements that act, and the Federal Trade Commission Act.

The order in this matter requires the respondent to cease and desist from stating in its television and radio advertisements that no downpayment is required, the amount of the downpayment, the amount of any installment payment, the amount of any finance charge, the number of installment payments, the period of repayment, or that there is no charge for credit without stating all of the following terms, in the prescribed terminology clearly, conspicuously and in meaningful sequence:

1. The cash price of the product;

2. The amount of the downpayment or that no downpayment is required (as appropriate);

3. The number and amount of installment payments, together with the due dates of the installment payments or the period required to repay the debt;

4. The annual percentage rate applicable to the extension of credit; and

5. The deferred payment price of the product.

The order also defines the standards that respondent must adhere to so that its television credit advertisements will be deemed "clear and conspicuous:"

1. The annual percentage rate must be displayed in print on the television screen and, at the same time, an announcer must state the annual percentage rate orally.

2. The other credit terms required to be disclosed must be presented in print on the television screen. If an announcer orally states any of these terms, the oral statement must be made at the same time the credit term appears in print on the television screen.

3. The print in which the credit terms appear must be large enough to be easily seen and read by the viewer, regardless of the size of the viewer's television screen.

4. The print in which the credit terms appear must be a color or shade that contrasts with the background on the television screen. The background must be only one color or shade.

5. While the credit terms are being displayed in print, no words or pictures that are not part of those terms may appear on the television screen. There is an exception to this rule, however: two-thirds of the television screen may be used to show pictures that do not obscure the credit terms or detract the viewer's attention from the credit terms.

6. The credit terms must be displayed in print for at least ten seconds.

7. When the announcer orally states a credit term, whether it be the annual percentage rate or any other term, there must not be any sounds made that obscure the announcer's statement of the term, or detract the viewer's attention from the announcer's statement.

8. The announcer must state a credit term with sufficient care, clarity and volume so as not to obscure the other terms, or detract the viewer's attention from the other terms.

9. If the announcer states, or the advertisement displays in print, that no downpayment is required, the amount of any downpayment that is required, the amount of any finance charge, the number of installment payments, or the time required for repayment, or that there is no charge for credit, all of the credit terms required to be disclosed by Regulation Z must be displayed in print immediately after the announcer's statement or the advertisement's print display. In addition, the applicable annual percentage rate must be stated by the announcer when it appears in print on the television screen. Therefore, each time one of the credit terms noted above appears in print or is stated orally, all of the required credit terms must be disclosed in the appropriate way.

10. No credit term required to be disclosed may be stated by the announcer, or displayed in print, in a way that emphasizes that term so that the other terms are obscured or the viewer's attention is distracted from the other credit terms.

The purpose of this analysis is to facilitate public comment on the proposed order, and it is not intended to constitute an official interpretation of the agreement and proposed order or to modify in any way their terms.

Carol M. Thomas,

Secretary.

[FR Doc. 81-7748 Filed 3-11-81; 8:45 am]

BILLING CODE 6750-01-M

DEPARTMENT OF THE INTERIOR

Office of Surface Mining Reclamation and Enforcement

30 CFR Part 808

Surface Coal Mining and Reclamation Operations Permanent Program Regulations; Performance Bonding

AGENCY: Office of Surface Mining Reclamation and Enforcement (OSM), Interior.

ACTION: Announcement of receipt of petition for rulemaking and request for public comment.

SUMMARY: OSM seeks comments and recommendations regarding the granting or denying of a petition, submitted pursuant to Section 201(g) of the Surface Mining Control and Reclamation Act, 30 U.S.C. 1211(g), to amend the bonding forfeiture regulations. The requested change would modify the present authorization in 30 CFR 808.12(c). Presently, the regulation allows a reclamation bond posted for an increment of a permit area to be used for reclamation on any part of the permit area for which a forfeiture has been declared. The change would limit use of the proceeds of a bond posted for an increment of the permit area to just that increment.

DATE: Comments must be received no later than 5:00 p.m. on April 13, 1981 at the address indicated below.

ADDRESS: Written comments must be mailed or hand-delivered to: Office of Surface Mining, U.S. Department of the Interior, Room 153, South Building, 1951 Constitution Avenue, N.W., Washington, D.C. 20240; phone: (202) 343-4728.

FOR FURTHER INFORMATION CONTACT: Mr. Russell Price, Division of Technical Services, Office of Surface Mining, Washington, D.C. 20240; phone: (202) 343-4022.

SUPPLEMENTARY INFORMATION: OSM received a letter dated January 13, 1981, from the President of the Mining and Reclamation Council of America presenting a petition for revision of the bonding regulation found at 30 CFR 808.12(c). Pursuant to the Surface Mining Act, § 201(g); 30 U.S.C. 1211(g), any person may petition for a change in the permanent program rules, 30 CFR Chapter VII. The Act allows for a period of 90 days within which to decide to grant or deny a petition. Section 201(g)(4); 30 U.S.C. 1211(g)(4). Under the applicable regulations for rulemaking petitions, 30 CFR 700.12(c), the Director must first determine whether the petition has a reasonable basis. If it has,

notice is to be published in the Federal Register seeking comments on the petition. The Acting Director has determined that the petition for amendment of the bonding regulation has a reasonable basis. The basis for the determination is that the petition seeks a change in the present regulation so that it may be limited in the manner it was as originally proposed in the permanent program regulations. See 43 FR 41662, 41673 (September 18, 1978), as discussed below under background.

This notice seeks public comments on the proposed amendment. At the close of the comment period and within 90 days of the receipt of the petition, a decision will be made whether to grant or deny it. If the decision is made to grant the petition, rulemaking proceedings will be initiated in which public comment will again be sought before a final rulemaking notice appears. If the decision is made to grant the petition, a decision may be made to suspend the regulation pending final rulemaking.

Public Comment Period: The comment period on the petition will extend until April 13, 1981. All written comments must be received at the address listed above by 5:00 p.m. on that date. Comments received after that date will not be considered or included in the administrative record on the petition. The Office cannot insure that written comments received or delivered during the comment period to any location other than that specified above will be considered and included in the administrative record on this petition.

Availability of copies: In addition to its publication here, copies of the petition and copies of 30 CFR Subchapter J on bonding are available for inspection and may be obtained at the address indicated above.

Public meetings: No public hearing is being set. However, the headquarters staff of the Office will be available to meet with members of the public during business hours, 7:45 a.m. to 4:15 p.m., during the comment period. In order to arrange such a meeting, the person listed above for further information should be contacted.

Background

The genesis of the current provision which the petition seeks to revise may be of help in understanding the basis for the petition.

The initial proposed permanent program bonding regulations, 43 FR 41662, 41673 (September 18, 1978) provided for forfeiture of bonds in order to satisfy completion of reclamation. They did not specify, as the regulation now sought to be changed does, that a bond covering any increment in the permit area could be used for reclamation work on another increment of the permit area where reclamation had failed.

The final rulemaking notice of the permanent program regulations, 44 FR 14902, 15123, 15393 (March 13, 1979), saw the addition of a provision which allowed for the forfeiture of all bonds for a permit area *with respect to the hydrologic balance*. The rationale for the extension of bond liability beyond that for the particular area for which it was posted is that the Surface Mining Act in § 515(b)(10) and § 516(b)(9), 30 U.S.C. §§ 1265(b)(10) and 1266(b)(9), require that the hydrologic balance be protected not just within the immediate permit area but also in associated offsite areas. Furthermore, because of the nature of a hydrologic regime damage to the hydrologic balance is a matter that cannot be confined to particular increments within a permit area. If such damage occurs, it in all likelihood extends to the whole of the permit area.

In litigation concerning the permanent program regulations, *In Re: Permanent Surface Mining Regulations Litigation*, No. 79–1144, U.S.D.C. D.C., the issue was raised of the limitation of the final sentence of § 808.12(c) to the hydrologic balance. Litigation of bonding issues was pretermitted, however, so that the Office could consider broad-based revision of the bonding regulations. As a result of the review prompted by the litigation, a notice was published suspending the with-respect-to-hydrologic-balance phrase of § 808.12(c). *See* 44 FR 67942 (November 27, 1979).

On January 24, 1980, a notice of rulemaking proposing the broad-based revision of the bonding regulations appared. 45 FR 6028. The notice proposed deletion of the qualifying phrase "with respect to hydrologic balance" in the last sentence of § 808.12(c) as the court in the regulations litigation had been advised earlier. In the final rulemaking notice for the amendment of the bonding regulations, 45 FR 52308 (August 6, 1980), the only comment received with respect to the section requested the deletion of all of the last sentence. 45 FR at 52317. However, the comment was not adopted so that the only change made as a result of the re-evaluation of the bonding regulations in this regard was to expand the availability of a bond beyond the particular increment within the permit area for which it is posted and beyond the protection of the hydrologic balance to which the regulation was originally limited. Thus, what appears to have been an attempt to limit liability on a bond beyond the increment for which it is posted to just hydrologic consequences, resulted in potentially unlimited liability with deletion of the qualifying phrase in the final rulemaking notice.

Publication of this notice of the receipt of the petition for rulemaking is not a major rulemaking. This is a preliminary step in the rulemaking process. If a decision is made to grant the petition, a formal rulemaking process will be commenced. Thus, no regulatory analysis is needed at this stage; nor is a regulatory impact analysis necessary under Executive Order No. 12291.

It is determined that publication of this notice does not constitute a major Federal action having a significant effect on the human environment for which an environmental impact statement under the National Environmental Policy Act, 42 U.S.C. § 4322(2)(C), is needed.

Dated: March 7, 1981.

Andrew V. Bailey,

Deputy Director, Office of Surface Mining.

The text of the petition attached to the January 13, 1981, letter from the President of the Mining and Reclamation Council of America is as follows:

Department of the Interior, Office of Surface Mining Reclamation and Enforcement

Mining and Reclamation Council of America, and The Surety Association of America, Petitioners.

Petition to Initiate Rulemaking.

Petition

Pursuant to the provisions of Section 201(g) of the Surface Mining Control and Reclamation Act of 1977, 30 U.S.C. 1201–1328 (supp. 1980) (the "Act") and the requirements of 30 CFR 700.12 (1977), the Mining and Reclamation Council of America and the Surety Association of America hereby petition the Director of the Office of Surface Mining Reclamation and Enforcement to amend Section 808.12(c) of the Performance Bond Forfeiture Criteria and Procedures Regulations (45 FR 52.324 (1980) to be codified at 30 C.F.R. 808.12(c)) issued pursuant to the Act.

Petitioner Mining and Reclamation Council of America (MARC) is the national trade organization in Washington representing the surface mining industry. Through its 400 corporate members and 31 affiliated state and regional coal associations, MARC represents more than 3,000 coal operators and industry suppliers nationwide.

These companies account for more than 70% of our nation's total coal production. MARC's primary goals are to reestablish coal as the keystone of America's energy supply and to achieve a healthy regulatory atmosphere which will encourage expanded production and utilization of domestic coal.

Petitioner the Surety Association of America (SSA) is a nonprofit trade association of more than 490 member

companies which write fidelity and surety bonds in the United States. It is licensed as a writing organization in 48 states, the District of Columbia and Puerto Rico, and as an advisory organization in Hawaii and Illinois. The SAA has also been designated by all states as a statistical agent for the reporting of experience developed by fidelity and surety bonds.

Section 808.12(c), as it is currently written, effectively prevents sureties from writing reclamation bonds on an incremental basis. Specifically, this section extends to the entire permit area liability under bonds posted to cover only those discrete increments of the permitted acreage set forth in the mine operator's reclamation plan. Accordingly, the regulatory authority can hold one surety liable for a reclamation failure on an increment bonded by another surety, or, conceivably, on parts of the permit for which no bond at all has been deposited.

Petitioners seek an amendment to Section 808.12(c) which would enable sureties to limit their liability to the bonded increment; therefore, paragraph 808.12(c) would be amended to read:

808.12(c) Upon default, the regulatory authority may forfeit any or all bonds deposited to complete those reclamation operations for which bonds were posted.

. . . in lieu of the existing paragraph which reads:

808.12(c) The regulatory authority may forfeit any or all bonds deposited for an entire permit area or any increment thereof in order to satisfy 30 CFR 808.11–808.14. Liability under any bond covering any increment of the permit area shall extend to the entire permit area.

This change would ensure that 808.12(c) complies with the requirements of the Act and the intent of Congress, and supports sound reclamation and protection of the environment.

Justification

The Language and Legislative History of the Act Prohibit the Regulatory Authority from Extending Liability on Incremental Bonds to the Entire Permit Area.

The Act specifically provides for incremental bonds, carefully distinguishing them from bonds deposited for the entire permit area. Section 509 provides that the bond "cover *that area of land within the permit area* upon which the operator will initiate and conduct surface coal mining and reclamation operations within the initial term of the permit. As succeeding *increments* of surface coal mining and reclamation operations are to be initiated and conducted *within the permit area*, the permittee shall file with the regulatory authority an additional bond or bonds to *cover such increments*. . . ." (Emphasis added.) The drafters intended that incremental bonds cover a limited area, not the entire permit.

A further example of the Act's intent to distinguish between incremental bonds and bonds deposited for the entire permit area can be found in Section 509(a), which discusses the amount required for each bonded area but concludes by setting a minimum amount for a bond for the entire permit area.

Finally, just as Section 509 authorizes the bonding of discrete increments, so does Section 519 allow the release of the entire pedrformance bond before the permit is fully reclaimed. In seeking a release, the operator must place a newspaper advertisement which contains, among other things, the precise location of the land affected. Because this release can occur well before the entire permit area is reclaimed or even disturbed, the "land affected" must be less than the whole permit.

The Report of the House Committee of Interior and Insular Affairs on H.R. 25, a predecessor of the Act, contains an explanation of Section 509 which is consistent with the foregoing interpretation. Specifically, the drafters saw Section 509 as authorizing bonds which cover *part or all of the area under permit* so long as they cover that land on which the operator is conducting surface mining operations. If the bond is for *only part of a permit area*, the Report explains, it must be adjusted and increased as new portions of the permit area are disturbed or affected.[1]

This interpretation allows bonds to be limited to a particular geographical area within the permit. Indeed, the purpose behind allowing incremental bonds—to limit the surety's liability and accordingly ease the financial burden on the operator—would be defeated were the provision read otherwise.

Limiting Surety Liability to the Bonded Increment Will Support Sound Reclamation and Protection of the Environment.

Since Section 808.12(c) was originally promulgated, rulemaking and official guidance have cleared the way for a variety of bonding options, including "phased" bonds, which may be limited to an increment or encompass the entire permit. The idea behind these changes was to "fine tune" the regulations so that all parties involved—mine operators, regulators and sureties—could more precisely define their obligations and more wisely allocate their financial resources.

Section 808.12(c) as written diminishes the value of these efforts to provide bonding flexibility as it is almost wholly inconsistent with reasonable control of liability. Once a bond has been deposited for part of a permit, however discrete, the regulatory authority can forfeit it to reclaim any of the permitted acreage.[2]

Quick action is necessary since the time has passed for approval of state plans or implementation of the federal program. Kentucky's Department of Natural Resources recently issued revised incremental bonding guidelines setting forth the principle of liability emobdied in Section 808.12(c). As more states adopt the mandatory language of Section 808.12(c), it will become increasingly difficult to reverse the trend and attempt to keep the bond market open.

---

[1] H.R. Rep. No. 94-45, 94th Cog., 1st Sess. 107 (1975).

[2] Mine operators and sureties could conceivably limit their liability consistent with Section 808.12(c) by undertaking the substantial administrative burden of treating each increment as a permit area. The need to repermit each succeeding increment, all agree, would be cumbersome, time-consuming and expensive, and confer no greater benefit than is available through this proposed amendment.

Petitioner does not require a public hearing.

BILLING CODE 4310-84-M

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 192

[RH-FRL-1773-7]

Proposed Remedial Action Standards for Inactive Uranium Processing Sites; Instructions and Schedule for Public Hearings

AGENCY: Environmental Protection Agency.

ACTION: Information regarding public hearings.

SUMMARY: In the Federal Register of April 22, 1980 (45 FR 27370–75), and January 9, 1981 (46 FR 2556–2563), EPA published proposed standards for the cleanup and disposal of residual radioactive materials (mainly tailings) from inactive uranium processing sites. EPA developed these proposed standards (40 CFR Part 192) pursuant to Section 275(a) of the Atomic Energy Act, 42 U.S.C. Section 2022(a), as added by Section 206(a) of Pub. L. 95–604, the Uranium Mill Tailings Radiation Control Act of 1978. Pub. L. 95–604 requires the Department of Energy to conduct remedial actions for designated inactive uranium processing sites in accordance with standards promulgated by EPA.

We are now announcing the dates and addresses of public hearings on these proposed standards. In addition, we describe the purpose and form of the hearings, and the procedures for submitting and presenting information and comments regarding the proposed standards.

DATES: The hearings will be held on April 24, 25, 27 and 28, and May 14 and 15, 1981.

ADDRESSES: Following is the schedule for public hearings to be held in April and May 1981:

a. Salt Palace Convention Center, Room 220, Salt Lake City, Utah 84101
Friday, April 24, 9:00 AM–5:00 PM
Saturday, April 25, 9:00 AM–5:00 PM (as required)

b. Strater Hotel, 699 Main Avenue, Durango, Colorado 81301
Monday, April 27, 9:00 AM–5:00 PM
7:00 PM–10:00 PM (as required)
Tuesday, April 28, 9:00 AM–5:00 PM (as required)

c. General Services Administration Auditorium, 18th and F Streets NW., Washington, D.C. 20405
Thursday, May 14, 9:00 AM–5:00 PM
7:00 PM–10:00 PM (as required)

Friday, May 15, 9:00 AM–5:00 PM (as required)

FOR FURTHER INFORMATION CONTACT: Dr. Stanley Lichtman, Criteria and Standards Division (ANR–460), Office of Radiation Programs, U.S. Environmental Protection Agency, Washington, D.C. 20460; telephone number (703) 557–8977.

SUPPLEMENTARY INFORMATION: Public hearings on 40 CFR Part 192 (proposed) will be held as indicated above under the headings "Dates" and "Addresses." The following conditions and procedures will govern the conduct of the hearings.

1. Purpose, Type, and Scope

These hearings are to provide opportunities for people to present facts, views, and arguments to aid EPA in developing final remedial action standards under Pub. L. 95–604. The hearings will be informal and legislative in nature rather than adjudicatory or formal rulemaking hearings. Technical rules of evidence, discovery, subpoena powers, testimony under oath, and similar formalities will not apply.

Participants should confine their remarks to issues that are directly related to EPA's responsibility under section 275(a) of the Atomic Energy Act, as added by Section 206 of Pub. L. 95–604. In brief, this responsibility is to " * * * promulgate standards of general application * * * for the public health, safety, and the environment from radiological and nonradiological hazards associated with residual radioactive materials located at inactive uranium mill tailings sites and depository sites for such materials * * * ." Therefore, the hearings should focus on the adequacy and appropriateness of the standards EPA has proposed.

2. Presiding Officer and Panel

The hearings will be conducted by a presiding officer, who may be assisted by panelists. A principal responsibility of panelists will be to assist the presiding officer to clarify the testimony by eliciting views, comments, and information from participants. Panelists will not present views or respond to questions. The panelists may vary from time to time.

The presiding officer and panelists shall have the joint responsibility to assure a fair and impartial hearing and encourage the development of testimony that will contribute to informed decision-making. It will not be the function of the presiding officer or panelists to issue an opinion or to make decisions at the conclusion of the hearings. The presiding officer shall conduct the hearings in an orderly, fair, and expeditious manner and make procedural decisions. His/her functions shall include, but not be limited to, the following:

a. Regulating the course of the hearings and the conduct of participants, including establishing reasonable time limits for the hearings, establishing the sequence and length of presentations and questioning, and opening and closing each hearing session;

b. Making determinations concerning procedure and similar matters;

c. Assuring that questioning of speakers by panelists and others is consistent with the nature and purpose of these hearings;

d. Making determinations, in consultation with the panelists, of the relevance of oral testimony and questions to the purposes and scope of the hearings and, as necessary, terminating irrelevant presentations;

e. Ruling on late requests to participate;

f. Deciding how long the hearing record will remain open for written comments and additional data after the end of the oral proceedings.

3. Participation in the Hearings

Persons or organizations who wish to give presentations longer than ten minutes or present extensive data and evidence must give written notice to the Director, Criteria and Standards Division (ANR–460), Office of Radiation Programs, U.S. Environmental Protection Agency, Washington, D.C. 20460, no later than 21 days prior to the scheduled date of a hearing. The notice should include: (1) The name, address, and telephone number of the participant; (2) the hearing at which they wish to testify; (3) the organization (if any) that they will represent; (4) the amount of time requested; and (5) which aspects of the proposed standards or other issues they want to address. Oral presentations by individuals or organizations will generally be restricted to 30 minutes. Detailed or lengthy material should be summarized orally and presented in full in written submissions. Requests for longer times for oral presentations will be considered only on the basis of a detailed summary of the material to be presented. The Agency will notify participants in advance if their allocated time is less than that requested.

An opportunity will be provided each day of the hearings for persons who have not submitted a notice as specified above to make brief oral statements. A minimum period will be set aside for such statements in the agenda for each hearing, and the presiding officer may allocate additional time, as necessary. The maximum time allowed for each such statement will depend on the number of registrants and the availability of time, but will generally be no more than 5 to 10 minutes. We advise persons wishing to make such statements to register promptly at the beginning of the hearing at a facility that will be provided for that purpose.

Attendance at the hearings will be open to all members of the public, and seating will be on a first-come first-served basis.

4. Testimony and Written Submissions

a. The oral proceedings will be recorded verbatim and a transcript made available promptly for inspection and copying, as specified below under the heading "The Public Hearing Record." It will help the panelists if speakers supply written copies of their oral testimony before they give it. This is not required however.

b. Two copies of any written statements and documents on which speakers intend to base their oral statements must be submitted to the Director (see item 3, above) no later than 10 days before the beginning of the hearing in which they will testify. We would appreciate it if speakers would also provide three additional copies for the use of the panelists.

c. At the discretion of the presiding office, questions may be directed to speakers by panelists, by other speakers, and by other members of the public. Speakers may respond or not, as they wish. Such informal questioning should be designed to elicit relevant information and not repeat questions asked by others. The views of questioners should be expressed in their statements and not as prefaces to questions.

d. Members of the public who are not able to attend the hearings or prefer not to ask questions themselves may suggest questions for the presiding officer to ask of speakers. These must be submitted to the Director (see item 3, above) no later than 10 days before any hearing. The presiding officer will decide whether or not to ask these questions.

e. Members of the public may also submit comments during the post-hearing comment period set by the presiding officer. These post-hearing comments should be confined to responses to information and comments submitted at the hearings or to written comments received by the Agency.

f. In addition to these public hearings, we would appreciate any written comments on the proposed standards. Oral and written comments will be

given equal consideration in formulating final recommendations. The procedure for submitting such written comments was given in each of the **Federal Register** notices in which the proposed standards were announced (see "Summary," above). Participants in the hearings may refer to and comment on such written comments, which will be available for public inspection and copying as specified below under "The Public Hearing Record."

5. Opening Statement

At the opening of each hearing, EPA will provide a summary statement of the proposed recommendations and of the major issues involved. At that time speakers and other members of the public may ask questions of the EPA representatives in order to clarify the proposed standards and the reasons why EPA is proposing them.

6. The Public Hearing Record

The procedures for filing documents in these hearings will be specified by the presiding officer, except as already provided herein. The hearing record will include the transcript of oral statements, the questions and answers, and all written materials filed in connection with these hearings. Items in this public hearing record will be filed under EPA Docket No. A–79–25. They will be available for public inspection and copying, as soon as possible following their receipt, as the U.S. Environmental Protection Agency's Central Docket Section, West Tower Lobby, Gallery 1, 401 M Street SW., Washington, D.C. 20460.

Dated: March 4, 1981.

Edward F. Tuerk,

Acting Assistant Administrator for Air, Noise, and Radiation.

40 CFR Parts 51 and 52

[AD–FRL 1775–2]

Requirements for Preparation, Adoption, and Submittal of Implementation Plans; Approval and Promulgation of Implementation Plans

AGENCY: Environmental Protection Agency.

ACTION: Proposed rules.

SUMMARY: EPA regulations published on August 7, 1980 (45 FR 52676) adopted a different definition of "source" for the PSD rules (which require review of new or modifed major sources in clean air areas) than for the nonattainment area new source review rules (which govern review of new or modified major sources in area where air quality does not meet Federal standards). Under the PSD rules a source is, in essence, an entire plant. Under the current nonattainment area rules a source is *either* an entire plant *or* an individual piece of process equipment within the plant. EPA is now proposing to conform the nonattainment area definition of source to that contained in the PSD rules by changing the nonattainment area definition of source to be an entire plant only. The practical significance of this change will be to reduce the coverage of nonattainment area new source review. The same change will also apply to the rules governing the construction moratorium under Section 110(a)(2)(I) of the Act (which prohibits major new construction in nonattainment area lacking EPA-approved State Implementation Plans), which will similarly shrink the coverage of the moratorium. In addition, EPA proposes to drop its current requirement that "reconstructions" be subject to nonattainment area new source review.

DATES: The deadline for submitting comments is April 13, 1981.

ADDRESS: Comments should be addressed to Michael Trutna, Standards Implementation Branch (MD–15), Office of Air Quality Planning and Standards, Research Triangle Park, N.C. 27711, 919–541–5292.

FOR FURTHER INFORMATION CONTACT: Michael Trutna (919–541–5292) or Eric Smith (202–755–0788).

SUPPLEMENTARY INFORMATION: On August 7, 1980 EPA published amended rules affecting PSD new source review, nonattainment area new source review and the construction noratorium. 45 FR 52676. The Prevention of Significant Air Quality Deterioration (PSD) program requires new or modified "major" [1] air pollution sources locating in areas where national ambient air quality standards (NAAQS) are being attained (or where air quality data is insufficient to determine whether or not NAAQS are being attained) to obtain construction permits which meet the requirements of Part C of Title I of the Clean Air Act. The basic purpose of the PSD program is to protect air quality in clean air areas. In areas where NAAQS are not being attained new or modified "major" [2] sources which would emit the pollutant(s) for which the area is nonattainment must obtain construction permits under Section 173 of the Act. In addition, where a nonattainment area lacks an EPA-approved State Implementation Plan (SIP) that meets the requirements of Part D of Title I of the Act, new or modified major sources that would emit the nonattainment pollutant(s) may not construct at all. This "construction moratorium" is required by Section 110(a)(2)(I) of the Act. See 40 CFR 52.24. The definitions in EPA's regulations governing the applicability of the construction moratorium are the same as those used in the nonattainment new source review rules. 40 CFR 52.24(f).

EPA's amended rules define "source" differently for PSD and nonattainment purposes. The difference revolves around the treatment of a plant that contains a number of individual pieces of process equipment that themselves each emit more than 100 tons per year. For PSD, EPA generally defines "source" in terms of an entire plant. For the nonattainment program, however, EPA defines "source" as both the entire plant and each of those "major" pieces of process equipment within it.

An example will show how these different definitions work. Suppose that a plant has three pieces of process equipment each of which has a potential to emit about 400 tons per year. The owners of the plant decide to expand operations at one piece of equipment resulting in an increase of 70 tons per year of a criteria pollutant,[3] and they further intend to curtail operations at another piece of equipment so as to reduce emissions of the same pollutant by 70 tons per year. If the plant were subject to PSD requirements, these changes would not "modify" any "source". The plant as a whole is the source, and since the reduction at the second piece of equipment balances the increase at the first, there is no significant plant-wide increase in emissions. As noted earlier, a change at a source is not a modification subject to review unless it results in a significant overall increase in emissions. Thus, no permit would be needed. But if the plant were located in an area which is nonattainment for the pollutant involved, then each piece of process

---

[1] "Major" sources for PSD purpose are those which emit more than either 100 tons per year or 250 tons per year (depending on the type of source) of any pollutant. See Section 169(1) of the Act, 40 CFR 51.24(b)(1), 52.21(b)(1)).

Each new "major" source must get a permit. In addition, any modification to a major source that causes a "significant" increase in emissions must get a permit. "Significant" increases in emissions are specified at 40 CFR 51.24(b)(23)(i), 52.21(b)(23)(i).

[2] "Major" sources for nonattainment purpose are those which emit more than 100 tons per year. 40 CFR 51.18(j)(1)(v).

The "modification" test for nonattainment areas is the same as for PSD. See 40 CFR 51.18(j)(1)(xii).

[3] A criteria pollutant is one for which EPA has established a NAAQS.

equipment is independently viewed as a source and the change at the first piece of equipment would have to undergo preconstruction review, because the piece of equipment is *itself* a major source and there is a significant net increase in emissions at that source. Compensating reductions obtained elsewhere at the plant could not be used to escape review, because these reductions did not occur at the same "source."

There would be a similar potential for differing results if the plant added a new piece of equipment with a potential to emit 300 tons per year. For PSD purposes, the relevant "source" is the plant, so that if the plant reduced emissions by 300 tons per year at the existing equipment, there would be no net increase at the source. But for nonattainment purposes, the new piece of equipment is itself a major source and so would be subject to review (or the construction moratorium) even if there had been no significant increase in emissions from the plant as a whole.

These different definitions of source mean that more new construction projects are subject to review in nonattainment areas (or, if there is no EPA-approved Part D SIP, more new construction projects are subject to the construction moratorium) than in areas subject to PSD requirements.

EPA also requires new source review in nonattainment areas based on a capital investment test of "reconstruction". Specifically, whenever a company rebuilds a "source" so that more than 50% of the capital in it represents new investment, EPA will require new source review no matter how emissions are affected.

The Proposed Amendment

EPA today is proposing to change the definition of "source" contained in the rules governing nonattainment area new source review and the construction moratorium so as to make that definition conform to that contained in the PSD rules. The result will be to eliminate the differences in coverage between the PSD and nonattainment programs that were described above. The change is being carried out by amending the definition of the terms "building", "structure", "facility" and "installation", which are the components of the term "source." EPA is also proposing to delete the definition of "reconstruction."

Discussion

The decision to reconsider the scope of nonattainment area new source review has been made in the context of a Government-wide reexamination of regulatory burdens and complexities that is now in progress. EPA has also reevaluated all of the arguments on all sides of these definitional issues. The Agency has concluded that the amendments to the August 7 rules being proposed today will substantially reduce the burdens imposed on the regulated community without significantly interfering with timely achievement of the goals of the Clean Air Act.

The issue of the proper scope of the nonattainment area definition of "source" is not a clear-cut legal question. The statute does not provide an explicit answer, nor is the issue squarely addressed in the legislative history. The D.C. Circuit (in *Alabama Power Co.* v. *Costle*) has stated by implication that EPA has substantial discretion to define the constituent elements of this term.

The question thus involves a judgment as to how to best carry out the Act. Two issues have been reexamined here. The first is whether the definition of "source" in nonattainment areas should be modified to conform to the one in PSD areas. The second is whether new source review based on "reconstruction" should be required at all.[*]

EPA believes for the following reasons that the proposed change in the definition of "source" is appropriate.

1. The August 7 definition forbids *any* construction or modification of major pieces of process equipment in areas where the construction moratorium is in effect, even where no increase in emissions at a plant would result. There are a substantial number of such nonattainment areas nationwide at present.

2. Even outside of these "construction moratorium" areas under the present regulatory scheme the August 7 definition can act as a disincentive to new investment and modernization by discouraging modifications to existing facilities.

3. For both these reasons, under the current overall regulatory system, the August 7 definition can actually retard progress in air pollution control by discouraging replacement of older, dirtier processes or pieces of equipment with new, cleaner ones.

4. The proposed definition would simplify EPA's rules by using the same definition of "source" for PSD, nonattainment new source review and the construction moratorium. This reduces confusion and inconsistency.

5. States will remain subject to the requirement that for all nonattainment areas they demonstrate attainment of NAAQS as expeditiously as practicable and show reasonable further progress toward such attainment. Thus, the proposed change in the mandatory scope of nonattainment new source review should not interfere with the fundamental purpose of Part D of the Act.

6. New Source Performance Standards (NSPS) will continue to apply to many new or modified facilities and will assure use of the most up-to-date pollution control techniques regardless of the applicability of nonattainment area new source review.

7. In order to avoid nonattainment area new source review, a major plant undergoing modification must show that it will not experience a significant net increase in emissions. Where overall emissions increase significantly, review will continue to be required.

For these reasons EPA has reconsidered the concerns it expressed in the August 7 preamble (See 45 FR 52697–8) and has decided that the "dual definition" is excessively and unnecessarily burdensome.

In light of the change to the nonattainment area definition of source, there is good reason to abandon the "reconstruction" test for nonattainment area new source review. That test by itself only requires review in cases where there is reconstruction, but a "significant" increase in emissions is absent. With a plant-wide definition of source, the reconstruction provision would only trigger review in cases of plant-wide reconstruction. Few instances of plant-wide reconstruction are expected. Thus, there is little justification for the added complexity this provision entails. Moreover, this change will further reduce inconsistency with the PSD rules which do not have a reconstruction provision.

The Clean Air Act, in Section 111, recognizes an independent, long-term interest in making sure that new facilities install state-of-the-art pollution controls when they are built. This results in the most cost-effective long-term air quality improvement by controlling pollution at the design stage, rather than requiring costly retrofits. Of course, this approach, unlike the nonattainment area requirements of Part D, is not based on the location of particular sources.

For these reasons, EPA believes that a "reconstruction" definition is appropriate for the new source performance standards under Section 111. However, the arguments for it are

[*] Of course, States always retain the right to choose to impose more stringent new source requirements than Federal rules mandate.

considerably weaker where a program of review basically designed to meet air quality standards in particular places is at issue, and EPA proposes to drop it there.

EPA solicits comments on the proposed rule. All such comments will be carefully considered prior to any final action.

Pursuant to the provisions of 5 U.S.C. 605(b), I hereby certify that the attached proposed rule will not, if promulgated, have a significant economic impact on a substantial number of small entities. This proposal will reduce regulatory burdens since fewer sources will be subject to new source review and the construction moratorium.

The Director of the Office of Management and Budget, acting under Section 8(b) of Executive Order 12291, has granted this proposal an exemption from the provisions of that order because of its burden-relieving and deregulatory nature.

This Notice of Proposed Rulemaking is issued under Section 301 of the Clean Air Act, 42 U.S.C. Sec. 7601.

Dated: March 6, 1981.

Walter C. Barber, Jr.,

Acting Administrator.

1. Section II, Subsection A of the Emissions Offset Interpretative Ruling, 40 CFR Part 51 Appendix S, as revised 44 FR 3274 (January 16, 1979), 45 FR 31307 (May 13, 1980), and 45 FR 52741 (August 7, 1980) is proposed to be amended as follows:

a. By changing the words "Building, structure or facility" at the beginning of paragraph 2 to read "Building, structure, facility or installation";

b. By removing paragraph 3 and renumbering the succeeding paragraphs accordingly, and

c. By removing paragraph 9 and renumbering the succeeding paragraphs accordingly.

§ 51.18 [Amended]

2. Section 40 CFR 51.18(j)(1) is proposed to be amended as follows:

a. By changing the words "Building, structure or facility" at the beginning of subparagraph (ii) to read "Building, structure, facility or installation";

b. By removing subparagraph (iii) and renumbering the succeeding subparagraphs accordingly, and

c. By removing subparagraph (ix) and renumbering the succeeding subparagraphs accordingly.

§ 52.24 [Amended]

3. Section 40 CFR 52.24(f) is proposed to be amended as follows:

a. By changing the words "Building, structure or facility" at the beginning of subparagraph (2) to read "Building, structure, facility or installation";

b. By removing subparagraph (3) and renumbering the succeeding subparagraphs accordingly, and

c. By removing subparagraph (9) and renumbering the succeeding subparagraphs accordingly.

Correction

In FR Doc. 81-4035, published at page 10754, on Wednesday, February 4, 1981, make the following corrections:

(1) On page 10759, in the table under "Ohio", in the seventh line under "Gregory Creek", in the last column "*298" should be corrected to read "*606".

(2) On page 10760, in the table under "Indian Creek", in the last line, in the last column should appear "*754".

BILLING CODE 1505-01-M

DEPARTMENT OF TRANSPORTATION

Office of the Secretary

Participation by Minority Business Enterprise in Department of Transportation Programs

49 CFR Part 23

[Docket 64a]

AGENCY: Office of the Secretary of Transportation.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Department of Transportation intends to propose a comprehensive revision of its minority business enterprise rule, as part of the Administration's program of reducing regulatory burdens. The Department expects to publish a notice of proposed rulemaking in the near future to effect this comprehensive revision. At this time, the Department is proposing to amend certain provisions of the existing rule on an interim basis. Comments are invited on the interim amendment.

DATE: Comment closing date: Comments are requested on or before March 26, 1981.

ADDRESS: Comments should be sent to the following address: Docket Clerk (Docket 64a), 400 7th Street, S.W., Room 10421, Washington, D.C., 20590. Comments are available for public inspection between 9:00 a.m. and 5:30 p.m. Monday through Friday at this address. Persons wishing to have their comments acknowledged should send a stamped, self-addressed card along with their comments. The docket clerk will return these cards when the comments are docketed.

FOR FURTHER INFORMATION CONTACT: Robert C. Ashby, Office of the Assistant General Counsel for Regulation and Enforcement, Room 10421, 400 7th Street, S.W., Washington D.C., 20590. 202-426-4723.

SUPPLEMENTARY INFORMATION:

Background

The Department of Transportation (DOT) published a final minority business enterprise (MBE) regulation on March 31, 1980 (49 CFR Part 23; 45 FR 21172). The regulation requires recipients of DOT financial assistance to prepare and submit for DOT approval MBE affirmative action programs. The rule requires that these programs contain several elements. Among these are provisions requiring prospective contractors to submit the names of and other information about their MBE subcontractors (§ 23.45(h)) and requiring recipients to ensure that contracts are awarded to bidders that meet MBE goals or make sufficient reasonable efforts to do so (§ 23.45(i)). The latter provision establishes a conclusive presumption that, if one bidder meets the goal and offers a reasonable price, bidders that did not meet the goal did not exert sufficient reasonable efforts, and hence are ineligible to receive the contract.

Sections 23.45 (h) and (i) have been criticized as establishing an illegal quota system, conflicting with the principle of awarding contracts to the lowest bidder, and unnecessarily raising costs. A significant number of state transportation agencies and other recipients have requested exemptions from these provisions. Seventeen lawsuits have been filed in various federal district courts challenging the regulations.

In Executive Order 12291 and other directives, President Reagan has told Federal agencies to review their existing regulations to determine which among them can be modified or rescinded to reduce regulatory burdens. The Department of Transportation has identified the MBE rule as one of the costly or controversial rules deserving priority review. After reviewing the rule

and the controversy and litigation surrounding it, the Department has concluded that the rule should be changed. The Department intends to publish a notice of proposed rulemaking (NPRM) to revise the rule comprehensively in the near future.

Proposed Interim Amendment

Given the requirements of the rulemaking process, it will be at least three to four months before the Department can promulgate a final rule based on this planned NPRM. Consequently, the Department intends to take steps to deal with the problems created by the present rule in the meantime.

To this end, as an interim measure, the Department proposes to amend 49 CFR Part 23 by deleting sections 23.45 (h) and (i). In their place, the Department proposes to promulgate a new § 23.45(h). This new § 23.45(h) would require that recipients' MBE programs require bidders and contractors, as a condition of participation in DOT-assisted contracts, to make good faith efforts to meet MBE contract goals.

Under the proposed interim provision, the apparent successful bidder or offeror, as a condition of being awarded a contract for which MBE contract goals have been established, would have to submit to the recipient information concerning the MBE participation it has obtained for the contract. This information, including the names of the MBE firms involved, a description of the work they will be doing on the contract, and the dollar amount of their participation, would have to be submitted at a time before contract award designated by the recipient. In the event that the apparent successful bidder or offeror had not met the MBE goals, the firm would have to demonstrate that it had made good faith efforts to do so. If the efforts were inadequate, the contractor would be ineligible to be awarded the contract.

Under this proposal, the basic judgment that would have to be made in evaluating the adequacy of a contractor's efforts is whether they really represent a good, hard try to meet MBE goals or whether the efforts were merely *pro forma*. Mere *pro forma* efforts should not be regarded as satisfying the requirement of good faith. The Department is not including in the proposed amendment a mandatory checklist of documentation that contractors would have to provide to demonstrate good faith efforts.

However, the following factors are illustrative of matters which, under the proposal, the Department suggests that states should consider in judging whether contractors have made adequate good faith efforts:

(1) Whether the contractor attended any pre-bid meetings that were scheduled by the recipient to inform MBEs of subcontracting opportunities;

(2) Whether the contractor advertised in general circulation, trade association, and minority-focus media concerning the subcontracting opportunities;

(3) Whether the contractor provided written notice to a reasonable number of specific MBEs that their interest in the contract is being solicited;

(4) Whether the contractor followed up initial solicitations of interest by contacting MBEs to determine with certainty whether the MBEs were interested;

(5) Whether the contractor selected portions of the work to be performed by MBEs in order to increase the likelihood of meeting the MBE goals;

(6) Whether the contractor provided interested MBEs with adequate information about the plans, specifications and requirements of the contract;

(7) Whether the contractor negotiated in good faith with interested MBEs, not rejecting MBEs as unqualified without sound reasons based on a thorough investigation of their capabilities; and

(8) Whether the contractor made efforts to assist interested MBEs in obtaining bonding or insurance required by the recipient or contractor.

The Department intends this proposed amendment solely as an interim measure to relieve the problems associated with the existing sections 23.45 (h) and (i). It is not intended to propose a comprehensive or permanent revision of the regulation. The subsequent proposed rule that the Department plans to publish will undertake this larger task. While other parts of the existing regulation, such as goal-setting mechanisms, dual goals for minority and women-owned businesses, the certification system, the definition of "Hispanic," the application of the rule to MBE banks, and so forth, have also been the subject of comment, these and other portions of the existing rule will remain in effect during this interim period.

As a result of the proposed change, the Department, in the interim period during which this amendment would be in force, would be able to approve all recipients' MBE plans that provide for setting overall and contract goals for the use of MBEs, that require contractors to make good faith efforts to meet these goals, and otherwise conform to applicable provisions of the regulation. Consequently, the Department expects to be able to give formal approval to a number of recipients' MBE programs, approval of which has been withheld or denied for failure to comply with current § 23.45 (h) and (i). These recipients, as well as others who are implementing programs that conform to the current § 23.45 (h) and (i), could use the approach contained in this amendment without seeking an exemption from the Department. Recipients would be free, at their discretion, to continue to use existing MBE programs conforming to § 23.45 (h) and (i), although they would no longer be required to do so.

Request for Comments

Under section 12(b) of the Department of Transportation's Regulatory Policies and Procedures, the public is normally provided 60 days to comment on proposed significant regulations. When a shorter comment period is to be provided, the Procedures require a statement of the reasons for the shorter time period. In this case, the Department's reasons for a two-week comment period are the following:

1. If existing § 23.45 (h) and (i) were to remain in effect pending the completion of a 60-day comment period on this interim amendment, a number of problems would arise. Believing that a change is likely to be made following a comment period, recipients and contractors would be likely to postpone procurement actions or seek delays in bidding or resolicitations. This would delay the initiation of needed DOT-assisted transportation projects and, because of the effect of inflation on delayed projects, result in higher costs for these projects. Confusion and uncertainty in the administration of the MBE program by DOT and recipients would also be likely to result. The Department believes that it is necessary to mitigate the effect of these problems by shortening the comment period.

2. The Department has kept the public comment docket on its MBE rule open since the publication of the rule. The Department has received numerous comments from recipients, contractors, members of Congress, and other organizations and individuals requesting that § 23.45 (h) and (i) be changed or withdrawn. The many exemption requests from recipients have made, in effect, this same request. In other words, the Department has already received a significant number of public comments recommending action similar to that which the Department proposes to take in this interim amendment. Under these circumstances, the Department believes that a 60-day opportunity for comment before the interim amendment goes into effect would probably not be productive

of enough additional information essential to the Department's decision about interim measures to justify the additional time before an interim change went into effect.

3. Many of the most serious challenges to the affected provisions of the current rule are legal in nature, including allegations in the various lawsuits that the provisions are unconstitutional or outside the Department's statutory authority. While the Department remains convinced of the legal validity of the rule, the Department believes that it is highly advisable, while the revised rule is being prepared, to cure or mitigate what is widely perceived to be a legal defect in the existing regulation by changing § 23.45 (h) and (i). Particularly in the context of ongoing litigation, waiting 60 days to take interim action would be contrary to the interest of the public and the Department.

For all these reasons, the Department will accept comments for 14 days following the publication of this notice. Comments on the existing regulation will continue to be accepted for Docket No. 64. Suggestions for what the revision of the regulation as a whole should include should be sent to Docket No. 64.

The Department has considered the economic effect this proposed rule would have on small entities (i.e., small businesses, small organizations, and small governments) pursuant to the Regulatory Flexibility Act (5 U.S.C. 601 et seq.). Based upon a review of the comments received after issuance of the existing MBE regulation in March 1980, it is possible that the interim rule changes proposed in this notice could result in some lower contract prices to certain small governments. However, at this time, there is no evidence that would lead the Department to believe that the economic impact would be significant. Furthermore, the Department does not believe that the overall effect, if any, on small businesses or organizations would be large, particularly in view of the interim nature of the proposal. For these reasons, the Department finds that the interim amendment proposed in this notice, if promulgated, will not have a significant economic impact upon a substantial number of small entities.

(Sec. 905 of the Railroad Revitalization and Regulatory Reform Act of 1976 (45 U.S.C 803); Sec. 30 of the Airport and Airway Development Act of 1970, as amended (49 U.S.C. 1730); Sec. 19 of the Urban Mass Transportation Act of 1964, as amended (49 U.S.C. 1615); Title 23, U.S. Code; Federal Property and Administrative Services Act of 1949 (40 U.S.C. 471 et seq.); Title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d et seq.); Department of Transportation Act (49 U.S.C. 1651 et seq.))

Accordingly, it is proposed to amend 49 CFR Part 23 as follows: § 23.45 is amended by revising paragraphs (h) and (i).

§ 23.45 Required MBE program components.

* * * * *

(h) *A means to ensure that contractors make good faith efforts to meet MBE contract goals.* (1) In all solicitations for DOT-assisted contracts in which there are subcontracting possibilities and for which contract goals have been established, the recipient shall inform the competitors for the contract that the apparent successful competitor will be required to submit, at a time before award of the contract designated by the recipient, the following information:

(i) Information concerning the MBE participation in the contract:

(A) The names and addresses of MBE firms that will participate in the contract;

(B) A description of the work each named MBE firm will perform;

(C) The dollar amount of participation by each named MBE firm.

(ii) If the MBE participation submitted in response to subparagraph (A) does not meet MBE contract goals, information sufficient to satisfy the recipient that the competitor made good faith efforts to meet these goals.

(2) Meeting MBE goals or making good faith efforts to do so is a condition of being awarded a DOT-assisted contract for which contract goals have been established.

(i) (reserved)

Issued at Washington, D.C. on March 9, 1981.

CIVIL AERONAUTICS BOARD

[Order 81-3-38; Docket 37943]

Excess-Baggage Charges Proposed by Qantas Airways Limited; Tentative Decision

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 6th day of March, 1981.

On August 10, 1979 and September 12, 1979, Qantas Airways Limited (Qantas) filed tariffs proposing a charge for excess-baggage transported between Hawaii and California. The charge applies solely to passengers en route between Australia and California making a stop-over in Hawaii. By Order 80-3-145, we instituted an investigation to determine whether the excess-baggage tariff proposed by Qantas violated section 1108(b) of the Act. We acknowledged that the tariff might be unlawful but allowed it to take affect pending the resolution of our investigation. Since the issues were legal in nature and no material issues of fact were in dispute, we saw no reason to convene an oral hearing.[1] We did, however, request that interested parties file briefs on the issue of the lawfulness of Qantas' tariff.

Pan American, Qantas, and DHL have filed initial and reply briefs. DHL joins Qantas in support of the excess-baggage tariff. Pan American argues for cancellation.

In support of its argument, Pan American distinguishes between the right of Qantas to carry personal baggage and courier items. It does not claim that these fares could not apply to personal excess-baggage; rather, that since courier shipments are essentially property, their carriage between U.S. points on a foreign air carrier pursuant to the proposed tariff would violate section 1108(b) of the Act. Pan American admits that if courier shipments were construed as passenger baggage accompanying legitimate stop-over traffic, Qantas would be entitled to accommodate them on the domestic leg of an international journey. Pan American, however, urges the Board to find that courier shipments are property, since they are indistinguishable from cargo, and not incident to passenger transportation. Pan American alleges that the international passenger is merely a subterfuge to circumscribe the prohibition against transportation of traffic between U.S. points by foreign air carriers.

Qantas disagrees with Pan American's characterization of courier items as cargo. It claims that any items moved via a baggage service by a stop-over passenger are incident to the international transportation of passengers and therefore not violative of section 1108(b). Quantas states that the legality of transporting a stop-over passenger's baggage is unaffected by the quality or quantity of the baggage and that no legal basis exists to differentiate between courier and other passenger traffic. The carrier alleges that Pan American has failed to substantiate its claim that courier items should be classified as "property" for purposes of section 1108(b). Qantas asserts as justification for its tariff that it provides a reasonable rate for excess-baggage moved only on the Hawaii-California segment of an Australia-California journey. Finally, the carrier requests an opportunity to present these arguments before the Board by oral argument.

DHL also disagrees with Pan American's characterization of courier baggage as property or cargo. It agrees with Qantas that courier shipments are identical to any other baggage carried by an international passenger and should be treated as incident to the movement of passengers. DHL states that if courier shipments are classified as cargo, it would effectively destroy the courier industry which was established and has relied upon the airline industry's representation that courier items are baggage. DHL says that an interpretation which equates courier shipments with cargo would violate the due process protections of the Administrative Procedure Act. It states that further notice and procedures are required to alert all foreign air carriers with stop-over rights and all U.S. and

[1] On April 8, 1980, Pan American filed a motion requesting an oral evidentiary hearing. By Order 80-6-98, we deferred a decision on this motion pending the submission of briefs in this docket.

foreign air carriers which transport courier shipments of the restrictions which would result from cancellation of Qantas' tariff.

Based upon the original pleadings submitted in Dockets 36473 and 36715 by Pan American and Qantas, we initially described the issue to be resolved in this investigation as whether Qantas' tariff violated section 1108(b) of the Act. If excess-baggage were construed to be property for purposes of section 1108(b), carriage of these items by a foreign air carrier between two U.S. points would be unlawful. On the other hand, if the items were identified with passenger movement, then a foreign air carrier could hold sufficient authority for this air transportation.[2]

After a thorough review of the pleadings and all relevant facts of record, we have tentatively decided that Qantas' tariff is unlawful. However, after considering the arguments raised by the parties, we have concluded that the lawfulness of the proposed tariff does not depend upon whether its acceptance would violate section 1108(b) of the Act, but whether Qantas holds Board authority pursuant to its section 402 permit to provide the proposed service. We tentatively find that since Qantas does not possess the requisite authority under its foreign air carrier permit, its tariff is unlawful. [3]

Qantas provides service between Australia and California via Hawaii pursuant to a foreign air carrier permit issued under section 402 of the Act. This permit retricts Qantas to operations in foreign air transportation between the U.S. points and the foreign points described in the permit. However, the Board generally allows a foreign air carrier to move traffic between U.S. points listed in its permit where the same carrier transports that traffic to or from a foreign point. This is generally referred to as the "stop-over right" and is considered to be a privilege inherent in foreign air carrier permits unless otherwise restricted. This interpretation is consistent with the legislative history of the Act and comports with customary international aviation law practiced by our trading partners.[4] Accordingly, Qantas can move passengers between California and Hawaii that it transports either to or from Australia.

Contrary to Qantas' contention, however, the privilege accorded to foreign air carriers to move stop-over passengers and their accompanying baggage between U.S. points does not entitle such carriers to establish charges for only the domestic segment of an international journey. Indeed, such charges published for an international journey between a foreign point and a U.S. point of origin or destination encompass the stop-over passenger's carriage between two U.S. points since that portion of the trip is considered to be in foreign air transportation.[5] The proposed tariff would allow Qantas to carry the excess-baggage of a stop-over passenger between two U.S. points at a charge substantially different from that associated with the international fare. This would constitute a new and valuable service which has never before been authorized by the Board nor by any foreign government of which we are aware. We do not find this economic opportunity included in the penumbra of privileges inherent in foreign air carrier permits. In view of this conclusion we find that it is unnecessary, at this time, to determine whether the Board could, as a matter of law, amend Qantas' permit to authorize this service and accept this tariff proposal. Moreover, we perceive no factors of international reciprocity and comity that would currently warrant a grant of this valuable economic right to Qantas should we determine that such an award would not be unlawful.

We also disagree with DHL's assertion that our investigation procedures violate the due process rights of other parties. First, our order of investigation invited any interested party to participate in this proceeding. The absence of numerous participants does not indicate inadequate notice but rather demonstrates that the issues may not impact as heavily on the industry as DHL claims. Second, our action does not impose any additional limitations on either U.S. or foreign direct air carriers. As explained above, foreign direct air carriers have never held authority to file tariffs for the domestic segments of international journeys. Our provisional acceptance of Qantas' tariff is an inadequate basis to cite as precedent.

Since our order of investigation focused the attention on legal issues that we have tentatively decided are not dispositive of the lawfulness of Qantas' tariff, and since the comments only discussed the Section 402 issue tangentially to the Section 1108(b) issues, we have decided to allow an additional round of comments. We will give the participating parties and all other interested persons 10 days from the service date of this order (*i.e.* March 16, 1981) to file comments to our tentative findings and conclusions. Replies will be due five days thereafter.

By Order 80-6-99, we deferred Pan American's motion for an oral hearing until after briefs were submitted in this investigation to better evaluate whether any factual issues would be raised which required an oral hearing for their resolution. Since no such issues have surfaced, we have tentatively decided to deny that carrier's motion. Similarly, we have tentatively decided to deny the request of Qantas for an oral argument. We see no reason to use those procedures because the question at issue is legal in nature, and no material issues of fact are in dispute. However, based upon our tentative decision, any person may request an oral hearing if its motion is filed within 10 days of the service date of this order. The request must detail why such hearing is considered necessary and what relevant material facts would be established in an oral evidentiary hearing that could not be resolved in written pleadings. The Chief, Legal Division, Bureau of International Aviation, retains delegated authority to regulate the course and conduct of all procedural motions and requests filed in this docket (except for motions or requests for oral hearing).

Accordingly,

1. Any interested person may file comments concerning the lawfulness of Qantas' tariff within 10 days of service of this order; replies are due five days thereafter;

2. Requests for an oral evidentiary hearing shall be filed within 10 days of service of this order; and

3. We shall serve this order on Pan American World Airways, Inc., DHL Corporation, Qantas Airways Limited, Japan Air Lines Company, Ltd., and Philippine Airlines.

This order will be published in the **Federal Register**.

By the Civil Aeronautics Board.

Phyllis T. Kaylor,[6]

Secretary.

DEPARTMENT OF COMMERCE

International Trade Administration

Team Corp.; Consent Agreement

The Office of Export Administration, United States Department of Commerce,

having initiated administrative proceedings pursuant to Section 11(c) of the Export Administration Act of 1979, (Pub. L. 96–72, 50 U.S.C. app. 2401, *et seq.*) (the "Act") and the Export Administration Regulations [15 CFR part 368, *et seq.* (1980)] (the "Regulations") against Team Corporation ("Team"), 9949 Hayward Way, South El Monte, CA, 91733, based on allegations that Team violated Sections 387.2, 387.4 and 387.6 of the Regulations; and

The Department and Team having entered into a Consent Agreement whereby each has agreed to settle this matter (1) by a denial of all exporting privileges for a three-month period terminating on May 31, 1981, (2) by payment of a civil penalty in the amount of $10,000, and (3) by undertaking certain corrective measures to ensure compliance with the Regulations; and

The terms of the Consent Agreement having been approved by me, *Now*, pursuant to the authority vested in me, 15 CFR, Part 388:

It is therefore ordered;

First, that Team, is denied all export privileges and shall not export any goods, commodities or technical data for a period terminating on May 31, 1981. However, (a) shipments pursuant to the contracts specified in the attached letter (mailed to the respondent) will be permitted and (b) shipments in connection with service and repairs may be permitted, upon notification to and authorization by the undersigned;

Second, that a civil penalty in the amount of $10,000 is assessed against respondent. The penalty shall be paid as follows:

(a) Pursuant to Section 11(c)(1) of the Act, Team shall pay to the Department, in the manner specified in the attached instructions, a civil penalty in the sum of $5,000, payable in installments of $1,000 each on the first day of the first five months of calendar year 1982;

(b) Payment of the remaining $5,000 shall be suspended during a probation period which is hereby imposed for the period June 1, 1981 to May 31, 1982 at which time such payment will be waived provided that respondent is then in full compliance with all terms and conditions of the Order;

Third, The terms of probation are:

(a) Respondent shall comply fully with all export laws and the Regulations and the terms of this Order;

(b) Team shall effect the corrective measures specified in the Consent Agreement, and

(c) Team shall submit a report in duplicate, to the Director, Compliance Division, Office of Export Administration, within six months after the date of entry of this Order specifying in detail the steps it has taken to implement the corrective measures specified in the Consent Agreement; and

Fourth, that because such report and accompanying documents will be available for public inspection and copying, one copy shall be submitted intact and another copy, marked "Public Inspection Copy," may be edited by Team to delete information which it believes would be properly exempt from public disclosure under 5 U.S.C. 552.

Entered this 3rd day of March 1981.

Bertram Freedman,

Hearing Commissioner.

BILLING CODE 3510-25-M

Natural Menthol From the People's Republic of China, Antidumping; Extension of Period for Final Determination

March 9, 1981.

AGENCY: United States Department of Commerce.

ACTION: Extension of period for final determination.

SUMMARY: We are extending by 30 days the period for final determination in the antidumping investigation of natural menthol from the People's Republic of China. We will make a final determination by April 22, 1981.

EFFECTIVE DATE: March 12, 1981.

FOR FURTHER INFORMATION CONTACT: Mary S. Clapp, Office of Investigations, International Trade Administration, U.S. Department of Commerce, Washington, D.C. 20230 (202–377–5498).

SUPPLEMENTARY INFORMATION: On January 7, 1981, we determined preliminarily that natural menthol from the People's Republic of China was being, or was likely to be, sold in the United States at less than fair value within the meaning of section 731 of the Tariff Act of 1930 (19 U.S.C. 1673) ("the Act"). We announced our determination in the **Federal Register** on January 14, 1981. (46 FR 3258).

The China National Native Produce & Animal By-Products Import & Export Corporation (CNEC) in the sole exporter of natural menthol from the People's Republic of China. On February 19, 1981, counsel for CNEC requested that we extend by 30 days the period for final determination, in accordance with section 735(a)(2) of the Act. We are granting this request and extending the period for final determination to April 22, 1981.

John D. Greenwald,

Deputy Assistant Secretary for Import Administration.

March 6, 1981.

BILLING CODE 3510-25-M

Unrefined Montan Wax From the German Democratic Republic, Antidumping; Preliminary Determination, Sales at Less Than Fair Value

AGENCY: U.S. Department of Commerce.

ACTION: Preliminary affirmative determination of sales at less than fair value.

SUMMARY: We have determined that there is a reasonable basis to believe that unrefined montan wax from the German Democratic Republic (GDR) is being, or is likely to be, sold in the United States at less than fair value. Therefore, we have directed the U.S. Customs Service to suspend the liquidation of entries of this merchandise. A cash deposit, bond, or other security in an amount equal to the estimated dumping margin of 29.5 percent will be required at the time of each entry, or withdrawal from warehouse for consumption in the United States. Unless there is an extension of the investigation, we will make our final determination by May 18, 1981.

EFFECTIVE DATE: March 12, 1981.

FOR FURTHER INFORMATION CONTACT: Francis R. Crowe, Office of Investigations, Import Administration, U.S. Department of Commerce, 14th Street & Constitution Avenue NW., Washington, D.C. 20230 (202–377–3003).

SUPPLEMENTARY INFORMATION:

Case History

On September 5, 1980, we received an antidumping petition from the American Lignite Products Company (ALPCO) of Ione, California. The petition alleged that unrefined montan wax from the GDR is being, or is likely to be, sold in the United States at less than the fair value and that the sales were causing material injury to an industry in the United States within the meaning of section 731 of the Tariff Act of 1930, as amended (19 U.S.C. 1673) ("the Act").

After reviewing the petition, we determined it contained sufficient grounds to initiate an antidumping investigation. Therefore, on September 30, 1980, we announced the initiation in the **Federal Register** (45 FR 64611).

On October 23, 1980, the U.S. International Trade Commission found that there is a reasonable indication that these imports are materially injuring or are threatening to materially injure a U.S. industry. It published its determination in the **Federal Register** on November 6, 1980 (45 FR 73921–26).

On January 30, 1981, we published a notice in the **Federal Register** (46 FR 9982) that we were postponing, under section 733(c)(2) of the Act, our preliminary determination. The extension was necessary since the case is extraordinarily complicated and the Department needed additional time to collect and analyze data needed for the preliminary determination.

Product Description

Currently classifiable under item 494.20 of the Tariff Schedules of the United States, unrefined montan wax is a nonoxidized mineral wax extracted from lignite, not advanced beyond extraction or cleansing by solvent. This product is primarily used in the United States as a flow agent in one-time carbon ink formulas. It is also used for producing polishes, mold release agents and for casting.

Nature of the Industry

Commercial production of montan wax requires deposits of lignite with a high wax content. Such deposits occur in very few places in the world. The world's major producer (accounting for some 85% of total production) is VEB Braunkohlenkombinat of the GDR. The petitioner in this case, ALPCO produces between 3 and 5% of world supply. These two firms are the only producers that sell unrefined montan wax in the U.S. market.

VEB Braunkohlenkombinat is part of a state owned combine. It exports montan wax through AHB Chemie-Export-Import of East Berlin, a government Foreign Trade Organization responsible for exporting chemical products. The sole U.S. importer of the product is Strohmeyer and Arpe of Millburn, New Jersey. Imports of unrefined montan wax from the GDR represented 56 percent of the U.S. consumption of the product in 1979.

The GDR is a major world producer of lignite, using it to supply more than 80 percent of its power and fuel requirements. The plant that produces montan wax is part of a vertically integrated power production facility. Lignite is mined primarily to provide both fuel for generating electricity and fuel in the form of compressed briquettes for other requirements. The on-site electric generation plant supplies commercial power for the surrounding area, for the mining operation, for the wax extraction plant, and for the briquette plant. The lignite briquettes that are produced are shipped throughout the GDR And also exported to other European countries.

When wax-bearing strata are encountered during the mining operation, the lignite with a high wax content is diverted from the production of other fuels to the wax plant. After the wax is extracted the residual lignite flows back into the production of briquettes. The plant produces approximately 80–110 million pounds of montan wax per year. This is less than one percent by weight of the plant's total production, which includes the lignite burned directly on site and the lignite used for briquette production.

Production of montan wax in the GDR contrasts sharply with production by petitioner. ALPCO does not mine its own lignite and does not produce montan wax as a co-product in the production of electric power and lignite briquettes. Rather, ALPCO purchases its lignite, must use purchased natural gas for energy in the process of extracting wax from the lignite, and depends almost entirely on montan wax sales for income since there is virtually no market for the residual lignite.

ALPCO produced approximately 4.1 million pounds of unrefined montan wax in 1979 and sold 3.2 million pounds domestically (44% of total U.S. consumption).

Methodology Fair Value Comparison

In this preliminary determination, we have made fair value comparisons by comparing the purchase price to the constructed value of comparable merchandise produced in the United States adjusted for certain differences in the costs of production in the GDR.

Purchase Price

We used purchase price as defined in section 772(b) of the Act, because the price to the unrelated customer was agreed to before the montan wax was imported. We calculated purchase price by deducting the cost of inland freight within the GDR and within the Federal Republic of Germany and the cost of harbor charges from the f.o.b. Humburg price.

Foreign Market Value

We have decided that the economy of the GDR is state controlled to the extent we are unable to determine the foreign market value of unrefined montan wax by normal standards. As a result, we are required by Section 773(c) of the Act to use prices, or the constructed value, of such or similar merchandise in a non-state-controlled country or countries. Our regulations establish a clear preference for a foreign market value based upon sales prices and stipulate that, to the extent possible, sales prices or constructed value should be determined on the basis of prices or costs in a non-state-controlled-economy country at a stage of economic development comparable to the state-controlled-economy country.

An immediate difficulty in this case is the limited worldwide production of unrefined montan wax. The wax is produced in the Federal Republic of Germany, but is used for further processing. We do not, at this stage, have a price or constructed value for wax produced in the FRG.

We have received pricing information on certain substitute products, in particular an oxidized microcrystalline wax with a high melting point (OMW) which is produced in the Netherlands. We understand that OMW has essentially identical (for commercial purposes) chemical and physical properties to montan wax, and, like montan wax, is a fossil fuel derivative, is a residual co-product in the production of fuel, and is used as an extender in higher value waxes and as a flow and coating agent in one-time carbon paper.

However, given the fact that OMW is derived from petroleum, not lignite, and there are likely to be differences in the manufacturing processes, we are not, at this point, willing to declare the products "similar" as within the meaning of the antidumping law.

Counsel for the importer has argued forcefully that since there is no commercial production of unrefined montan wax in a non-state-controlled-economy country (other than the United States), we must construct a fair value based on specific components or factors of production in the GDR, valued on the basis of prices in a non-state-controlled-economy country or countries "reasonably comparable" in economic development to the GDR. Counsel maintains that for purposes of valuing GDR production factors we should use U.K. prices for all but lignite and energy costs and, for those inputs, Canadian prices.

Laying aside the assertion that unrefined montan wax is not produced commercially in any non-state-controlled-economy country other than the U.S. (as noted above, we know of limited captive FRG production), we cannot, at this point, accept the use of a constructed value as urged by counsel for the importer.

First, we have not had an opportunity to fully analyze the U.K. data which was submitted on February 23, 1980. Second, and more importantly, on the basis of a preliminary review, we have concluded that if we were to construct a value for montan wax based on a non-state-controlled-economy valuation of the GDR factors of production, we would select values in the Federal Republic of Germany—not the U.K. and Canada.

We strongly believe that this factor analysis is to be performed in a single, non-state-controlled-economy country where all factors can be valued rather than to seek values in two or more countries. Unlike the UK, FRG produces lignite and montan wax. Furthermore, the FRG and the GDR are not only developed industrialized countries with a large manufacturing sector, but they also share a common cultural and ethnic heritage and remain linked economically.

Counsel for the importer contends that, notwithstanding these points, the disparity between the GDR and the FRG in per capita GNP and wages in the manufacturing sector is such as to invalidate FRG for purposes of developing surrogate values. Their arguments merit further analysis. We will continue examination of the issues involved in the use of surrogate non-state-controlled-economy values in preparation of our final determination.

Since we are, at this point, not in a position to construct a value for unrefined montan wax based on GDR factors of production valued at surrogate non-state-controlled-economy prices, we have, for purposes of this preliminary determination, established foreign market value on the basis of the constructed value of montan wax as produced in the U.S., adjusted for certain known differences in costs of production in the GDR.

The adjustments to the U.S. constructed value have been for the costs of lignite, direct labor, thermal energy and solvents. Of these, the most significant are economies in the use of lignite and energy in GDR production.

In California, the lignite left after the extraction of the wax has virtually no commercial value. Only a small portion of the lignite is sold for agricultural purposes. Thus, almost the entire cost of the lignite should be allocated to ALPCO's cost of production of the wax. In the GDR, however, the residual lignite is a commercially viable co-product. Because the lignite not consumed in the production of montan wax is used in the manufacture of lignite briquettes, the cost allocated to wax production only includes the value of lignite lost by briquette production.

The GDR producer's energy consumption is significantly lower than that of the California producer. This situation is the result of differences in the quality of the lignite input into the extraction process and in the operation of the respective plants. The lignite in the GDR has a much higher wax content and so less of the available wax is extracted in the GDR. The higher percent of wax extraction in California requires proportionally more thermal energy than is needed in the GDR. In addition, the plant in the GDR is run continuously, 365 days per year, 24 hours per day, whereas the California plant operates in response to specific orders. The high start up costs resulting from this non-continuous operation are reflected in high energy usage in California.

Verification

Although we have verified no information to date, all information relied on in making the final determination will be verified in accordance with section 776 of the Act (19 U.S.C. 1677e).

Negative Determination of Critical Circumstances

The petitioner asserts that "critical circumstances" exist with respect to imports of unrefined montan wax from the GDR. To determine that critical circumstances exist, we must find that there is a reasonable basis to believe that (1) there is a history of dumping of montan wax in the United States or elsewhere, *or* the importers knew or should have known that the exporter was selling montan wax at less than fair value, and (2) there have been massive imports of montan wax over a relatively short period.

We are unaware of any antidumping order concerning montan wax from the GDR. That the petitioner has alleged massive imports of montan wax from 1977 through 1979 does not establish a history of dumping by the foreign manufacturer. Consequently, the petitioner's information does not offer a reasonable basis to believe that importers knew, or should have known, that the GDR exporter was selling montan wax in the United States at less than fair value. Therefore, we have concluded that critical circumstances do not exist. Accordingly, we will not suspend liquidations retroactively.

Preliminary Determination

We have preliminarily determined that exports of unrefined montan wax from the GDR are being, or are likely to be, sold in the United States at less than fair value within the meaning of section 731 of the Act (19 U.S.C. 1673). We found that the margins ranged from 23.3 percent to 39.3 percent and the weighted average margin was 29.5 percent.

Public Comment

As required by 19 CFR 353.47, we will hold a public hearing to afford interested parties an opportunity to comment orally on this preliminary determination. If requested, this hearing is scheduled to begin at 10:00 a.m. on April 9, 1981, at the U.S. Department of Commerce, room 6802, 14th Street and Constitution Avenue, NW., Washington, D.C. 20230. Interested parties who desire such a conference should so inform the Deputy Assistant Secretary for Import Administration, room 2800, at the address shown above. This request should contain: (1) the party's name, address, and telephone number; (2) the number of participants; and (3) a list of the issues to be discussed. All requests must be received by the Deputy Assistant Secretary no later than March 22, 1981.

Any written views should be filed at the above address in at least 10 copies, on or before April 13, 1981 (19 CFR 353.46(a)).

Suspension of Liquidation

In accordance with section 733(d)(1) and (2) of the Act (19 U.S.C. 1673b), we are directing the U.S. Customs Service to suspend, upon this notice's publication, the liquidation of this merchandise entered into the United States, or withdrawn from warehouse, for U.S. consumption. As of that date, a cash deposit, bond, or other security in the amount of 29.5 percent of the f.o.b. value of unrefined montan wax must be posted. This suspension of liquidation will remain in effect until further notice.

ITC Notification

As section 733(d)(3) of the Act requires, we are making available to the U.S. International Trade Commission all nonprivileged and nonconfidential information relating to this investigation. We will allow the ITC access to all privileged and confidential information in our files, provided it confirms that it will not disclose such information either publicly or under an administrative protective order without the written consent of the Deputy Assistant Secretary for Import Administration.

This determination is published in accordance with § 353.39, Commerce regulations (19 CFR 353.39).

John D. Greenwald,

Deputy Assistant Secretary for Import Administration.

March 6, 1981.

BILLING CODE 3510-25-M

Minority Business Development Agency

Financial Assistance Application Announcement

AGENCY: Department of Commerce, Minority Business Development Agency.

ACTION: Notice.

SUMMARY: The Minority Business Development Agency (MBDA) announces that it is seeking applications under its Construction Service Program to operate one project for 12 month period beginning June 15, 1981 within the states of Illinois, Indiana, Wisconsin, Michigan, Ohio and Missouri. The project will operate at a cost not to exceed $455,000 and the Project I.D. Number is 05-10-00107-00.

Program Description

The Construction Service Program of the Minority Business Development Agency (MBDA) provides management consulting services to minority construction businesses for the purpose of improving their stability by increasing their management and marketing capabilities. MBDA offers competitive grants to consulting firms (either "not for profit" of "commercial entities"). These firms must be capable of providing such services as:

—Preparation of business plans
—Capital development (financial)
—Management assistance
—Personnel management services
—Marketing planning

and a broad range of other business services excluding legal services.

Eligibility Requirements

Any for-profit firm or non-profit institution is eligible to submit an application. If an award is made, continuation awards for up to two additional years may be made to the successful recipient without competition, provided that funds have been appropriated for a project of this kind, and MBDA has determined that such funds are available, there is a continuing need for a project of this kind, and the recipient has performed satisfactorily.

Application Materials

An application kit for this project may be requested by writing to the following address: U.S. Department of Commerce, Minority Business Development Agency, Grants Administration Unit, 55 East Monroe Street, Suite 1440, Chicago, Illinois 60603. Self-addressed mailing labels should be forwarded with written request. In requesting an application kit the applicant must specify its profit status; i.e., State or Local government, Federally recognized Indian tribal unit, educational institution or other type of profit or non-profit institution. This information is necessary to enable MBDA to include the appropriate cost principles in the application kit.

Award Process

All applications that are submitted in accordance with the instructions in the application kit will be submitted to a panel for review and ranking. Specific criteria by which applications will be evaluated is included in the application kit.

Closing Date

Applicants are encouraged to obtain an application kit as soon as possible in order to allow sufficient time to prepare and submit an application before the closing date of April 17, 1981. Applications received after April 17, 1981 will not be considered.

Pre-application Conference

A pre-application conference for all interested applicants will be held on March 24, 1981 at 10:30 a.m. at the John C. Kluczynski Federal Building, 230 S. Dearborn, Room 1098, Chicago, Illinois.

(11.800 Minority Business Development, Catalog of Federal Domestic Assistance. This program is not subject to the requirements of OMB Circular A-95)

Dated: March 3, 1981.

Stanley W. Tate,

Regional Director.

BILLING CODE 3510-21-M

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

Announcing Officials of the Government of Pakistan Authorized To Issue Export Visas for Cotton Textiles and Cotton Textile Products

AGENCY: Committee for the Implementation of Textile Agreements.

ACTION: Announcing the list of officials currently authorized by the Government of Pakistan to issue visas for cotton textiles and cotton textile products exported to the United States.

SUMMARY: The Government of Pakistan has notified the Government of the United States that a new list of officials is authorized to issue export visas. A complete list of those officials follows this notice and cancels and supersedes all previous lists.

EFFECTIVE DATE: March 9, 1981.

FOR FURTHER INFORMATION CONTACT: Carl J. Ruths, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, Washington, D.C. 20230 (202/377-5423).

SUPPLEMENTARY INFORMATION: On July 7, 1972 a letter dated June 28, 1972 from the Chairman of the Committee for the Implementation of Textile Agreements to the Commissioner of Customs was published in the **Federal Register** (37 FR 13365) which established an export visa requirement for cotton textiles and cotton textile products, produced or manufactured in Pakistan and exported to the United States. The letter published below from the Chairman of the Committee for the Implementation of Textile Agreements further amends the directive of June 28, 1972.

Paul T. O'Day,

Chairman, Committee for the Implementation of Textile Agreements.

Officials of the Government of Pakistan Authorized To Issue Export Visas for Certain Cotton Textiles and Cotton Textile Products Exported to the United States

Abid Javed Akbar
Shaikh Bashir Ahmed

March 9, 1981.

Commissioner of Customs, Department of the Treasury, *Washington, D.C. 20229.*

Dear Mr. Commissioner: This directive further amends, but does not cancel, the directive of June 28, 1972 from the Chairman, Committee for the Implementation of Textile Agreements, that directed you to prohibit, under certain specified conditions, entry into the United States for consumption and withdrawal from warehouse for consumption, of cotton textiles and cotton textile products, produced or manufactured in Pakistan, for which the Government of Pakistan had not issued an appropriate export visa.

Under the terms of the Arrangement Regarding International Trade in Textiles

done at Geneva on December 20, 1973, as extended on December 15, 1977; pursuant to the Bilateral Cotton Textile Agreement of January 4 and 9, 1978, as amended, between the Governments of the United States and Pakistan; and in accordance with the provisions of Executive Order 11651 of March 3, 1972, as amended by Executive Order 11951 of January 6, 1977, the final sentence of paragraph 2 of the June 28, 1972 letter is further amended, effective on March 9, 1981, to read as follows: "A facsimile of the stamp is enclosed".

The actions taken with respect to the Government of Pakistan and with respect to imports of cotton textile products from Pakistan have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, these directions to the Commissioner of Customs, which are necessary for the implementation of such actions, fall within the foreign affairs exception to the rule-making provisions of 5 U.S.C. 553. This letter will be published in the Federal Register.

Sincerely,

Paul T. O'Day,

Chairman, Committee for the Implementation of Textile Agreements.

BILLING CODE 3510-25-M

DEPARTMENT OF DEFENSE

Department of the Air Force

USAF Scientific Advisory Board; Ad Hoc Committee on Turbine Engine Monitoring Systems; Meeting

February 25, 1980.

The USAF Scientific Advisory Board Ad Hoc Committee on Turbine Engine Monitoring Systems will meet at Headquarters Tactical Air Command, Langley Air Force Base, Virginia on April 13–14, 1981. The meeting will convene at 8:30 a.m. and adjourn at 5:00 p.m. on both days.

The Committee will review and evaluate the F100 Engine Diagnostic System Program. The briefings and discussions will be closed to the public in accordance with 552b(c) of Title 5, U.S.C., specifically subparagraph (4).

For further information, contact the Scientific Advisory Board Secretariat at (202) 697–8845.

Carol M. Rose,

Air Force Federal Register Liaison Officer.

[FR Doc. 81-7966 Filed 3-11-81; 8:45 am]

BILLING CODE 3910-01-M

USAF Scientific Advisory Board; Strategic Cross-Matrix Panel; Meeting

2 March 1981.

The USAF Scientific Advisory Board Strategic Cross-Matrix Panel will meet at the North American Air Defense Command, Peterson Air Force Base, Colorado on 1–2 April 1981. The meeting will convene at 8:30 a.m. and adjourn at 5:00 p.m. on both days.

The Panel will review the present U.S. air defense capability and the Air Force's future plans to improve that capability to meet the projected threat. The briefings and discussions will be closed to the public in accordance with Section 552b(c) of Title 5, United States Code, specifically subparagraph (1).

For further information, contact the Scientific Advisory Board Secretariat at (202) 697–8845.

Carol M. Rose,

Air Force Federal Register Liaison Officer.

BILLING CODE 3910-01-M

Corps of Engineers, Department of the Army

Intent To Prepare Draft Environmental Impact Statement on Proposed Flood Control Project for Shingle Creek in Orange and Osceola Counties, Florida

AGENCY: U.S. Army Corps of Engineers, DoD.

ACTION: Notice of Intent to prepare a Draft Environmental Impact Statement (DEIS).

SUMMARY: 1. The project consists of enlarging a portion of the existing flood control channel and the construction of a water control stucture in the upper basin near the urban area of northwest Orlando, Florida. An upland bypass channel would be built in the lower basin near Lake Tohopekaliga in the area where Reedy Creek joins Shingle Creek.

2. Preliminary alternatives include:

a. Construction of a sheetpile weir across the natural channel immediately north of a large mid basin wetland area to encourage sheetflow through the existing cypress strand.

b. Construction of water control structures in the southerly discharge points of the cypress strand to regulate water surface elevations in the wetland.

3. a. Comments on alternatives and environmental concerns will be solicited by letters to Federal, State, and local agencies and private organizations. Participation in invited from any interested parties. Public meetings will be held as issues and alternatives are more clearly defined.

b. Significant issues to be analyzed in depth in the DEIS are preliminarily as follows:

1. Impact of channel improvements on water quality in Lake Tohopekaliga.

2. Effect of altered water regime on the biota.

3. Impact of possible new development in the floodplain due to improved flood control.

c. Consultation with appropriate Federal and State agencies will be performed under provisions of the Endangered Species Act, Section 404(b) of the Clean Water Act, and the National Historic Preservation Act.

4. The scoping process will be conducted by mail. A scoping meeting is not contemplated.

5. The DEIS is expected to be available for review in September 1981.

ADDRESS: Questions about the proposed action and DEIS may be referred to Dr. Lloyd Saunders; Chief, Environment and Resources Branch; U.S. Army Corps of Engineers; P.O. Box 4970; Jacksonville, Florida 32232; telephone (904) 791–2202.

Dated: March 3, 1981.

James W. R. Adams,

Colonel, Corps of Engineers, District Engineer.

BILLING CODE 3710-AJ-M

Department of the Army

Army Science Board; Closed Meeting

In accordance with Section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463), announcement is made of the following Committee meeting:

Name of the committee: Army Science Board (ASB).

Dates of meeting: 2–3 April 1981.

Place: The Pentagon, Washington, D.C. (exact location can be obtained by contacting H. Pipon, 697–9703).

Time: 0830–1700 hours, 2–3 April 1981 (Closed).

Proposed agenda:

The ASB 1981 Summer Study participants will receive classified briefings, hold discussion, and provide progress reports on "Equipping the Army in 1990–2000". Specifically, items to be presented will provide information to address these Terms of Reference:

1. What existing and emerging technologies could be exploited to significantly enhance the fighting capability of Army forces in the 1990's with emphasis given to exploiting those technologies in which the United States excels.

2. In an era of decreasing potential military manpower, how might technology be applied to produce a more manpower-economical force structure with increased combat potential? Which technologies appear to offer the highest payoff in hardware/people trade offs?

3. Considering each level of Army forces (e.g., Division, Battalion) as a mission oriented system, what weapons, support, and netting C^3 contribute most to efficient,

integrated combat capability with desired characteristics of deployability, survivability, flexibility, and sustainability?

This meeting will be closed to the public in accordance with Section 552b(c) of Title 5, U.S.C., specifically subparagraph (1) thereof. The classified and non-classified matters to be discussed are so inextricably intertwined so as to preclude opening any portion of the meeting.

Helen Pipon,

Administrative Officer.

[FR Doc. 81-7729 Filed 3-11-81; 8:45 am]

BILLING CODE 3710-08-M

Office of the Secretary of Defense

DoD Advisory Group on Electron Devices; Advisory Committee Meeting

Working Group A (Mainly Microwave Devices) of the DoD Advisory Group on Electronic Devices (AGED) will meet in closed session on 7 April 1981, at the Palisades Institute for Research Services, AGED, 1925 N. Lynn St., Arlington, Virginia, 22209.

The mission of the Advisory Group is to provide the Under Secretary of Defense for Research and Engineering, the Director, Defense Advanced Research Projects Agency, and the Military Departments with technical advice on the conduct of economical and effective research and development programs in the area of electron devices.

The Working Group A meeting will be limited to review of research and development programs which the military propose to initiate with industry, universities or in their laboratories. This microwave device area includes programs on developments and research related to microwave tubes, solid state microwave, electronic warfare devices, millimeter wave devices, and passive devices. The review will include classified program details throughout.

In accordance with 5 U.S.C. App 1, § 10(d)(1976), it has been determined that this Advisory Group meeting concerns matters listed in 5 U.S.C. 552(b)(c)(1976), and that accordingly, this meeting will be closed to the public.

Dated: March 9, 1981.

M. S. Healy,

OSD Federal Register Liaison Officer, Washington Headquarters Services, Department of Defense.

BILLING CODE 3810-70-M

DEPARTMENT OF EDUCATION

International Research and Studies Program; Application Notice for New and Non-Competing Continuation Projects for Fiscal Year 1981

Applications are invited for new and/or continuation projects under the International Research and Studies Program.

Authority for this program is contained in Section 605 of the Higher Education Act of 1965, as amended.

(20 U.S.C. 1125)

This program issues awards to qualified institutions, organizations, and individuals.

The purpose of the awards is to assist researchers (1) to conduct studies and surveys to determine the need for increased or improved instruction in modern foreign languages and related fields; (2) to conduct research on methods of teaching foreign languages; (3) to develop testing procedures to evaluate the foreign language competence of studies; (4) to develop specialized materials for use in training and evaluating students and teachers; and (5) to conduct study, survey and materials development projects which contribute to the purposes of the Citizens' International Understanding Act (authorized under Part N of Title III of the Elementary and Secondary Education Act of 1965).

Closing Date for Transmittal of Applications

An application for a new grant must be mailed or hand delivered by April 27, 1981.

To be assured of consideration for funding, an application for a non-competing continuation award should be mailed or hand delivered by April 13, 1981. If the application is late, the Department of Education may lack sufficient time to review it with other non-competing continuation applications and may decline to accept it.

Applications Delivered by Mail

An application sent by mail must be addressed to the U.S. Department of Education, Application Control Center, Attention: 84.017, Washington, D.C. 20202.

An applicant must show proof of mailing consisting of one of the following:

(1) A legibly dated U.S. Postal Service postmark.

(2) A legible mail receipt with the date of mailing stamped by the U.S. Postal Service.

(3) A dated shipping label, invoice, or receipt from a commercial carrier.

(4) Any other proof of mailing acceptable to the Secretary of Education.

If an application is sent through the U.S. Postal Service, the Secretary does not accept either of the following as proof of mailing: (1) a private metered postmark, or (2) a mail receipt that is not dated by the U.S. Postal Service.

An applicant should note that the U.S. Postal Service does not uniformly provide a dated postmark. Before relying on this method, an applicant should check with its local post office.

An applicant is encouraged to use registered or at least first class mail. Each late applicant will be notified that its application will not be considered.

Applications Delivered by Hand

An application that is hand-delivered must be taken to the U.S. Department of Education, Application Control Center, Room 5673, Regional Office Building 3, 7th and D Streets, S.W., Washington, D.C.

The Application Control Center will accept a hand-delivered application between 8:00 a.m. and 4:30 p.m. (Washington, D.C. time) daily, except Saturdays, Sundays, and Federal holidays.

An application that is hand-delivered will not be accepted after 4:30 p.m. on the closing date.

Program Information

Information regarding activities supported by this program and the selection criteria are set forth in the program regulations, 34 CFR Parts 655 and 660, which were published in the **Federal Register** on December 31, 1980, 45 FR 86872 and 86882.

Funding Priorities

Section 660.34 of the regulations governing the administration of this program provide for the establishment of priorities by the Secretary in any given year. This year the Secretary has not chosen to establish formal priorities. However, projects are encouraged in the following categories:

(1) Research which will lead to (a) improved methods of evaluating foreign language proficiency, with an emphasis on oral proficiency, and (b) appropriate test and measurement procedures and specialized testing materials;

(2) Studies and surveys, inlcuding conferences, to assess the state of the art of foreign language, foreign area and related studies, to determine the need for new emphases, and to identify needs for specialized materials;

(3) Research which will increase understanding about how foreign languages are learned and which shows promise of immediate application to improved language teaching methods;

(4) The preparation of specialized instructional materials for (a) modern foreign languages which are not widely taught in the United States and for which there is only a limited commercial market, and (b) foreign area and international studies concerned with the non-Western world (such as general reference works, specialized research tools, syllabi, or basic materials—particularly those for use in the elementary and secondary schools and undergraduate college programs).

In preparing applications under (4)(a) applicants may wish to consult the recommendations on language study needs resulting from national conferences (such as the Conference on Uncommonly-taught Languages held in Columbia, Maryland, from September 29 to October 2, 1974, which produced the report, *Materials Development Needs in the Uncommonly-taught Languages: Priorities for the Seventies*, published by the Center for Applied Linguistics, 3520 Prospect Street, N.W., Washington, D.C. 20007. Applicants may also wish to consult with the Department of Education in regard to any findings of conferences of language specialists representing a geographic or linguistic world area.

(5) Survey, study, and materials development projects which contribute to the effectiveness of the International Education programs under Title VI of the Higher Education Act of 1965, as amended, and the Citizens' International Understanding program under Part N of Title III of the Elementary and Secondary Education Act of 1965.

Available Funds

It is expected that approximately $1,200,000 will be available for the International Research and Studies program in fiscal year 1981.

It is estimated that these funds could support 28 new projects and 5 continuing projects.

The anticipated award for new projects is estimated at an average cost of $35,000 each. (Projects which exceed eighteen months should be planned and budgeted in yearly phases.)

However, these estimates do not bind the U.S. Department of Education to a specific number of grants or to the amount of any grant unless that amount is otherwise specified by statute or regulations.

Application Forms

Application forms and program information packages are available.

They may be obtained by writing to the Research Section, International Studies Branch, Office of International Education, U.S. Department of Education, (Room 3669, ROB–3), 400 Maryland Avenue, S.W., Washington, D.C. 20202.

Applications must be prepared and submitted in accordance with regulations, instructions, and forms included in the program information package. The Secretary strongly urges that the narrative portion of the application not exceed 10 pages in length. The Secretary further urges that applicants not submit information that is not requested.

Applicable Regulations

Regulations applicable to this program include the following:

(a) Regulations governing the International Research and Studies program (34 CFR Parts 655 and 660) which were published in the Federal Register on December 31, 1980, 45 FR 85372; and

(b) Education Department General Administrative Regulations (EDGAR), 34 CFR Parts 75 and 77. These parts were previously codified as 45 CFR Part 100a and 45 CFR Part 100c respectively.

Further Information

For further information contact Julia A. Petrov, Research Branch, Office of International Education, U.S. Department of Education (Room 3669, ROB–3), 400 Maryland Avenue SW., Washington, D.C. 20202. Telephone: (202) 245–9819.

(20 U.S.C. 1122)

(Catalog of Federal Domestic Assistance Number: 84.017—International Research and Studies Program)

Dated: March 4, 1981.

T. H. Bell,

Secretary of Education.

[FR Doc. 81-7824 Filed 3-11-81; 8:45 am]

BILLING CODE 4000-01-M

National Resource Centers and Fellowships Program; Application Notice for New Projects for Fiscal Year 1981

Applications are invited for new projects under the National Resource Centers and Fellowships Program.

Authority for this program is contained in Section 602 of the Higher Education Act of 1965, as amended. (20 U.S.C. 1122)

This program issues awards to institutions of higher education.

The purpose of the awards under the National Resource Centers portion of the program is to provide general assistance for nationally significant programs in language and area studies and in language and international studies. The purpose of the awards under the fellowship portion of the program is to assist individuals undergoing advanced training in modern foreign languages and related area studies through awards to approved institutions.

Closing Date for Transmittal of Applications

An application for a grant must be mailed or hand-delivered by April 27, 1981.

Applications Delivered by Mail

An application sent by mail must be addressed to the U.S. Department of Education, Application Control Center, Attention: 84.015, Washington, D.C. 20202.

An applicant must show proof of mailing consisting of one of the following:

(1) A legibly dated U.S. Postal Service postmark.

(2) A legible mail receipt with the date of mailing stamped by the U.S. Postal Service.

(3) A dated shipping label, invoice, or receipt from a commercial carrier.

(4) Any other proof of mailing acceptable to the Secretary of Education.

If an application is sent through the U.S. Postal Service, the Secretary does not accept either of the following as proof of mailing: (1) a private metered postmark, or (2) a mail receipt that is not dated by the U.S. Postal Service.

An applicant should note that the U.S. Postal Service does not uniformly provide a dated postmark. Before relying on this method, an applicant should check with its local post office.

An applicant is encouraged to use registered or at least first class mail. Each late applicant will be notified that its application will not be considered.

Applications Delivered by Hand

An application that is hand-delivered must be taken to the U.S. Department of Education, Application Control Center, Room 5673, Regional Office Building 3, 7th and D Streets, S.W., Washington, D.C.

The Application Control Center will accept a hand-delivered application between 8:00 a.m. and 4:30 p.m. (Washington, D.C. time) daily, except Saturdays, Sundays and Federal Holidays.

An application that is hand-delivered will not be accepted after 4:30 p.m. on the closing date.

Program Information

The eligibility requirements for National Resource Centers are set forth in § 656.2 of the program regulations while the selection criteria are set forth in §§656.31 656.32 of the regulations. (34 CFR 656.2 and 656.31–656.32). The institutional eligibility requirements for fellowships are set forth in CFR 656.3(a) of the program regulations while the selection criteria are set forth in §§656.31 and 656.33 (34 CFR 656.3(a), 656.31 and 656.33). These regulations were published in the **Federal Register** on December 31, 1980 at 45 FR 86876–86878.

Priorities for National Resource Fellowships

The regulations governing the administration of this program have changed. The previous regulations establishing priorities for selected disciplines and languages are no longer in effect. The new regulations provide for the establishment of priorities for languages and disciplines as well as the assignment of a lower priority for certain languages levels of instruction, and categories of applicant. (34 CFR 656.35)

With regard to the establishment of priorities for languages and disciplines, available information on the need for trained specialists in modern foreign languages and area studies suggests that the supply of specialists in certain languages, disciplines, and world areas (such as Latin American Anthropology, East Asian History, and East European and Russian Language and Literature) may be exceeding the demand, while in other languages, discipline, and world areas the demand may be exceeding the supply (such as East European and Soviet Economics, Middle East Anthropology and Sociology and African Humanities). However definitive data on this subject are not yet available. therefore for this cycle we have not formally established any priorities for selected disciplines or languages.

With respect to § 656.35(b) of the regulations governing the National Resource Fellowships Program, 34 CFR 656.35(b), institutions are advised that although the Secretary has not assigned priorities, institutions are encouraged to give other than primary consideration to candidates:

(a) Who already have the equivalent fluency of native speakers in the language for which the award is sought, since the program seeks to increase American capability in language and international studies;

(b) Who are taking the first 18 semester hours (27 quarter hours) or their equivalent in Latin American Spanish, and Russian language instruction, since basic instruction in these languages is comparatively well-established and there is a greater need to encourage study of these languages at the more advanced levels;

(c) Who are taking the first 12 semester hours (18 quarter hours) in Chinese and Japanese language instruction, because instruction within these levels is well-established and the need is greater at the more advanced levels; and

(d) Who are studying French, Iberian Spanish, German or Italian, since these languages are already comparatively widely available and the need is therefore deemed to be less.

In accordance with the regulations governing the National Resource and Fellowships Program, (34 CFR 656.33) evaluators take into account the relationships between the applicant's proposed program of instruction and national needs and priorities; and the institution's recent record of placement of graduate students. Because the Secretary has not announced what the national needs and priorities are for this funding cycle, the first criterion will not be used to evaluate applications for this cycle. Therefore, strong emphasis will be placed on the second criterion. Applicants are thus advised to provide information concerning the placement of graduates at the masters and doctorate levels for the past three years.

The Department of Education expects that approximately five percent of the awards will be used to assist students from the professional fields who are willing to undertake joint degree programs at the Master's level or who are otherwise enrolled in cooperative programs involving the study of a language and area.

Available Funds

It is anticipated that approximately $10,500,000 will be available for the Centers Program in FY 81. These funds could support approximately 80 awards to Centers at an average level of approximately $130,000. It is anticipated that up to 20 percent of the awards will be used to established undergraduate centers and up to 20 percent of the awards will be used for centers in comparative area studies, or for international affairs or topic-oriented centers.

The Secretary anticipates that funds will be available for 8 to 15 centers for each of the following world areas: East Asia (including Japan, China, and Korea), South Asia, (India, Sri Lanka, Pakistan, Bangladesh, and Nepal), the Middle East, (includung North Africa), the Soviet Union and Eastern Europe, Africa, and Latin America.

The Secretary anticipates that assistance will also be available for approximately three centers in each of the following areas: Southeast Asia (including Indonesia and the Philippines as well as Thailand, Vietnam, Cambodia, Laos, Malaysia, and Burma) and contemporary Western Europe. In addition, proposals for approximately two centers in other world areas such as Canada, Inner Asia, and the Pacific Islands will be considered. Approximately $5,558,000 will be available for academic year fellowships in FY 1981. An additional $512,000 will be available for intensive summer language fellowships. This will permit stipends levels of $4,000 for an academic year fellowship and $1,000 for a summer intensive language fellowship.

The tentative allocation for fellowships by world area is as follows: Africa, 87 academic year and 28 summer; East Asia, 193 academic year and 62 summer; Inner Asia, 9 academic year and 3 summer; Eastern Europe and USSR; 120 academic year and 39 summer; Latin America, 73 academic year and 23 summer; Middle East, 145 academic year and 46 summer; South Asia, 96 academic year and 30 summer; Southeast Asia, 67 academic year and 23 summer; and Western Europe, 8 academic year and 2 summer.

These estimates do not bind the U.S. Department of Education except as may be required by the applicable statute and regulations.

Application Forms

Application forms and program information packages are available.

They may be obtained by writing to the Division of International Research and Studies, Office of International Education, U.S. Department of Education, (Room 3671, ROB–3) 400 Maryland Avenue, S.W., Washington, D.C. 20202.

Applications must be prepared and submitted in accordance with the regulations, instructions and forms included in the program information package. The Secretary urges that the narrative portion of the application not exceed 60 pages in length.

Applicable Regulation

Regulations applicable to this program include the following:

(a) Regulations governing the National Resource Centers and Fellowships

Program for Language and Area or Language and International Studies (34 CFR Parts 655 and 656) that were published in the **Federal Register** on December 31, 1980 at 45 FR 86872; and

(b) Education Department General Administrative Regulations (EDGAR), 34 CFR Parts 75 and 77. These parts were previously codified as 45 CFR Part 100a and 45 CFR Part 100c respectively.

Further Information

For further information contact Joseph F. Belmonte, Centers and Fellowships Branch, Office of International Education, U.S. Department of Education (Room 3923, ROB–3), 400 Maryland Avenue, S.W., Washington, D.C. 20202. Telephone (202) 245–2356.

Secretary of Education.

[FR Doc. 81-7625 Filed 3-11-81; 8:45 a.m.]

BILLING CODE 4000-01-M

Capacity-Building for Statistical Activities in State Agencies

AGENCY: Department of Education.

ACTION: Application Notice.

Applications are invited for new projects under the Capacity-Building for Statistical Activities in State Agencies program.

Authority for this program is contained in section 406(b)(3) and (e) of the General Education Provisions Act as amended (20 U.S.C. 1221e–1(b)(3) and (e)).

Eligible applicants are State agencies as defined in the applicable program regulations, cited in this notice.

The purpose of these grants is to develop or enhance the long-term capability of the State agency to collect, process, analyze, or report statistical data about education.

CLOSING DATE FOR TRANSMITTAL OF APPLICATIONS: Applications must be mailed or hand delivered by April 27, 1981.

APPLICATIONS DELIVERED BY MAIL: An application sent by mail must be addressed to the U.S. Department of Education, Application Control Center, Attention: 84.114, Washington, D.C. 20202.

An applicant must show proof of mailing consisting of one of the following:

(1) A legibly dated U.S. Postal Service postmark.

(2) A legible mail receipt with the date of mailing stamped by the U.S. Postal Service.

(3) A dated shipping lable, invoice, or receipt from a commercial carrier.

(4) Any other proof of mailing acceptable to the Secretary of Education.

If an application is sent through the U.S. Postal Service, the Secretary does not accept either of the following as proof of mailing: (1) a private metered postmark, or (2) a mail receipt that is not dated by the U.S. Postal Service.

An applicant should note that U.S. Postal Service does not uniformly provide a dated postmark. Before relying on this method, an applicant should check with its local post office.

An applicant is encouraged to use registered or at least first class mail. If an application is determined late, the applicant will be notified that its application will not be considered.

APPLICATIONS DELIVERED BY HAND: An application that is hand-delivered must be taken to the Department of Education Application Control Center, Room 5673, Regional Office Building 3, 7th and D Streets, SW., Washington, D.C.

The Application Control Center will accept hand-delivered applications between 8 a.m. and 4:30 p.m. (Washington, D.C. time) daily, except Saturdays, Sundays, and Federal holidays. Applications that are hand-delivered will not be accepted after 4:30 p.m. on the closing date.

Program Information: Grants under the program are intended to develop or enhance the long-term capability of a State agency to collect, process, analyze or report statistical data about education. Proposed projects may focus on reducing data burden; improving the timeliness of data reporting; improving the quality, comparability, or utility of data; increasing analytical capability; improving the flow of information to local educational agencies or other agencies of the States; or similar statistical objectives.

The following types of States agencies are eligible for grants:

(1) A State Educational Agency (elementary/secondary education). This is Category (A).

(2) An agency with Statewide responsibility for post-secondary education. This is Category (B).

(3) The State Board or agency responsible for the administration, or for the supervision of the administration, of programs authorized by Part A, Title I of the Vocational Education Act of 1963, as amended by Pub. L. 94–482. This is Category (C).

Applicants are requested to designate the appropriate category on their application.

Available Funds: The Department of Education has allocated the available funds in the following manner:

(1) For Category (A) approximately $250,000 is available for five (5) new projects in Fiscal Year 1981 with an average expected award of $50,000.

(2) For Category (B) approximately $250,000 is available for five (5) new projects in Fiscal Year 1981 with an average expected award of $50,000.

(3) For Category (C) approximately $800,000 is available for sixteen (16) new projects for Fiscal Year 1981 with an average award of $50,000.

These figures are only estimates and do not bind the U.S. Department of Education to a specific number of grants or to the amount of any grant, unless the amount is otherwise specified by statute or regulations.

Application Forms: Application forms and instructions are mailed to all eligible agencies known to the Department when the Application Notice is published in the **Federal Register**.

Applications must be prepared and submitted in accordance with the regulations, instructions, and forms included in the program application package.

Applicable Regulations: The regulations applicable to this program are:

(1) The interim final regulations for Capacity-Building for Statistical Activities in State Agencies in 34 CFR Part 726 (redesignated from 45 CFR Part 164, November 21, 1980, 45 FR 77368), as published in the **Federal Register** on July 11, 1979 (44 FR 40613) and revised and republished in the **Federal Register** on January 19, 1981 (46 FR 5390) for the purpose of incorporating new selection criteria.

(2) Education Department General Administrative Regulations (EDGAR) in 34 CFR Parts 75 (Direct Grant Programs) and (Definitions).

BILLING CODE 4001-01-M

DEPARTMENT OF ENERGY

Proposed Subsequent Arrangements

Pursuant to Section 131 of the Atomic Energy Act of 1954, as amended (42 U.S.C. 2160) notice is hereby given of proposed "subsequent arrangements" under the Additional Agreement for Cooperation Between the Government of the United States of America and the European Atomic Energy Community (EURATOM) Concerning Civil Uses of Atomic Energy, as amended, and the Agreement for Cooperation Between the Government of the United States of America and the Government of Switzerland Concerning Civil Uses of Atomic Energy, as amended.

The subsequent arrangements to be carried out under the above mentioned agreements involve approval of the following retransfers from Belgium to Switzerland:

RTD/SD(EU)-35, 0.003 grams of plutonium-242
RTD/SD(EU)-36, 0.0001 grams of plutonium-241
RTD/SD(EU)-37, 0.0005 grams of plutonium-240

The above listed materials are to be used for reaction rate measurements in the zero-energy research reactor Proteus by the Swiss Federal Institute for Reactor Research, at Wurenlingen, Switzerland. Upon completion of measurements, the materials will be sent to waste disposal.

In accordance with Section 131 of the Atomic Energy Act of 1954, as amended, it has been determined that approval of these retransfers will not be inimical to the common defense and security.

These subsequent arrangements will take effect no sooner than fifteen days after the date of publication of this notice.

For the Department of Energy.

Dated: March 9, 1981.

Harold D. Bengelsdorf,

Director for Nuclear Affairs, International Nuclear and Technical Programs.

BILLING CODE 6450-01-M

Economic Regulatory Administration

J.M. Huber Corp.; Proposed Consent Order

AGENCY: Economic Regulatory Administration, Department of Energy.

ACTION: Notice of Proposed Consent Order and opportunity for comment.

SUMMARY: The Economic Regulatory Administration (ERA) of the Department of Energy (DOE) announces a proposed Consent Order and provides an opportunity for public comment on the proposed Consent Order and on potential claims against the refunds deposited in an escrow account established pursuant to the Consent Order.

Comments by: April 13, 1981.

ADDRESS: Send comments to Alan L. Wehmeyer, Chief, Crude Products Program Management Branch, Central Enforcement District, 324 East 11th Street, Kansas City, Missouri 64106.

FOR FURTHER INFORMATION CONTACT: Alan L. Wehmeyer, Chief, Crude Products Program Management Branch, Central Enforcement District, 324 East 11th Street, Kansas City, Missouri 64106. Phone (816) 374-5932.

SUPPLEMENTARY INFORMATION: On February 23, 1981, the Office of Enforcement of the ERA executed a proposed Consent Order with J.M. Huber Corporation ("Huber"). Under 10 CFR 205.199J(b), a proposed Consent Order which involves a sum of $500,000 or more in the aggregate, excluding penalties and interest, becomes effective only after the DOE has received comments with respect to the proposed Consent Order. Although the ERA has signed and tentatively accepted the proposed Consent Order, the ERA may, after consideration of the comments it receives, withdraw its acceptance and, if appropriate, attempt to negotiate an alternative Consent Order.

I. The Consent Order

Huber, with its home office located in Houston, Texas, is engaged in the processing and sale of natural gas liquids (NGL) and NGL products, and is subject to the Mandatory Petroleum and Allocation and Price Regulations at 10 CFR Parts 210, 211, and 212. To resolve certain civil actions which could be brought by the Office of Enforcement of the Economic Regulatory Administration as a result of its audit of Huber, the ERA Office of Enforcement and Huber entered into a Consent Order, the significant terms of which are as follows:

The Office of Enforcement has examined Huber's books and records and reviewed all pertinent matters relating to Huber's compliance with the DOE petroleum price regulations in effect during the period from September 1, 1973 through January 28, 1981. All civil matters pertaining to compliance with the DOE petroleum price regulations and prices charged by Huber in sales of NGL and NGL products during the period September 1, 1973 through January 28, 1981 are resolved by this Consent Order.

2. Huber will refund the aggregate amount of $718,000, which includes interest through the date on which the Consent Order becomes effective.

3. Execution of the Consent Order constitutes neither an admission by Huber nor a finding by DOE that Huber has violated any statutes or applicable regulations of the Cost of Living Council, the Federal Energy Office, the Federal Energy Administration or the Department of Energy.

4. The provisions of 10 CFR 205.199J, including the publication of this Notice, are applicable to the Consent Order.

II. Disposition of Refunded Overcharges

In this Consent Order, Huber agrees to refund, in full settlement of any civil liability with respect to actions which might be brought by the Office of Enforcement, ERA, arising out of the transactions specified in I.1. above, the sum of $207,000 within 30 days after the Consent Order becomes effective.

Such refund will be made to the United States Department of Energy and will be delivered to the Assistant Administrator for Enforcement, ERA. These funds will remain in a suitable account pending the determination of their proper disposition.

The DOE intends to distribute the refund amounts in a just and equitable manner in accordance with applicable laws and regulations. Accordingly, distribution of such refunded overcharges requires that only those "persons" (as defined at 10 CFR 205.2) who actually suffered a loss as a result of the transactions described in the Consent Order receive appropriate refunds. Because of the petroleum industry's complex marketing system, overcharges may have been passed through as higher prices to subsequent purchasers or offset through devices such as the Old Oil Allocation (Entitlements) Program, 10 CFR 211.67. In fact, the adverse effects of the overcharges may have become so diffused that it is a practical impossibility to identify specific, adversely affected persons, in which case disposition of the refunds will be made in the general public interest by an appropriate means such as payment to the Treasury of the United States pursuant to 10 CFR 205.199I(a).

In addition Huber has voluntarily made previous refunds to various purchasers of NGL products in the amount of $511,000.

III. Submission of Written Comments

A. *Potential Claimant:* Interested persons who believe that they have a claim to all or a portion of the refund amount should provide written notification to the ERA at this time. Proof of claims is not now being required. Written notification to the ERA at this time is requested primarily for the purpose of identifying valid potential claims to the refund amount. After potential claims are identified, procedures for the making of proof of claims may be established. Failure of a person to provide written notification of a potential claim within the comment period for this notice may result in the DOE irrevocably disbursing the funds to other claimants or to the general public interest.

B. *Other Comments:* The ERA invites interested persons to comment on the terms, conditions, or procedural aspects of this Consent Order. You should submit your comments or written notification of a claim within 30 days after publication of this notice to Alan L. Wehmeyer, Chief, Crude Products Program Management Branch, ERA Central Enforcement District, U.S. Department of Energy, 324 East 11th Street, Kansas City, Missouri 64106. You may obtain a free copy of the Consent Order by writing to the same address.

You should identify your comments or written notification of a claim on the outside of your envelope and on the documents you submit with the designation, "Comments on Huber Consent Order." We will consider all comments we receive on or before April 13, 1981. You should identify any information or data which is, in your opinion, confidential and submit it in accordance with the procedures in 10 CFR 205.9(f).

Issued in Kansas City, Missouri on the 26th day of February 1980.

William D. Miller,

District Manager, Economic Regulatory Administration.

Concurrence:

David H. Jackson,

Chief Enforcement Counsel.

[FR Doc. 81-7728 Filed 3-11-81; 8:45 am]

BILLING CODE 6450-01-M

[ERA Case No. 65016-9153-27-22]

Owatonna Public Utilities, Unit No. 7; Decision and Order Granting Exemption From the Prohibitions of the Powerplant and Industrial Fuel Use Act of 1978

The Economic Regulatory Administration (ERA) of the Department of Energy (DOE) hereby issues this Decision and Order to Owatonna Public Utilities (Owatonna) granting a permanent peakload exemption from the prohibitions against (1) the use of petroleum or natural gas as a primary energy source by new powerplants and (2) the construction of new powerplants without the capability to use an alternate fuel as a primary energy source, which are contained in Section 201 of the Powerplant and Industrial Fuel Use Act of 1978, 42 U.S.C. 8301 *et seq.* (FUA or the Act).

Background

On April 21, 1980, Owatonna filed a petition with ERA for a permanent peakload powerplant exemption to enable it to use oil/natural gas as a primary energy source in a 25,000 kilowatt oil/natural gas-fired combustion turbine powerplant to be known as Unit No. 7 and which is to be located in Owatonna, Minnesota. Additional information required by ERA pursuant to 10 CFR 503.41 was submitted by Owatonna on July 10, 1980. ERA accepted the petition on August 15, 1980, and published a Notice of Acceptance, together with a statement of the reasons set forth in the petition for requesting the exemption, in the Federal Register on August 25, 1980 (45 FR 56363). Publication of the Notice of Acceptance commenced a 45-day public comment period pursuant to section 701 of FUA. During this period, which ended on October 9, 1980, interested parties were also afforded an opportunity to request a public hearing.

Comments on Owatonna's petition were received from the United States Environmental Protection Agency-Region V (EPA). No public hearing was requested.

ERA's staff reviewed the information contained in the record of the proceeding. A Tentative Staff Analysis (TSA) recommended that ERA issue an order granting Owatonna a permanent peakload powerplant exemption to use oil/natural gas in Unit No. 7 subject to certain terms and conditions. A Notice of Availability of the TSA was published in the Federal Register on January 19, 1981 (46 FR 5045). The publication of the Notice of Availability opened a 14-day public comment period which ended February 2, 1981 and during which no comments were received.

On the basis of ERA's review of the entire record of this proceeding, including a review of the public comments received after publication of the Notice of Acceptance, ERA has determined to grant the exemption requested by Owatonna to use oil/natural gas in Unit No. 7, subject to the terms and conditions enumerated below.

On August 11, 1980, DOE published in the Federal Register (45 FR 53199) a notice of proposed amendments to the guidelines for compliance with the National Environmental Policy Act of 1969 (NEPA). Pursuant to the guidelines, the grant or denial of certain FUA permanent exemptions, including the permanent exemption by certification for a peakload powerplant, was identified as an action which normally does not require an Environmental Impact Statement or an Environmental Assessment pursuant to NEPA (categorical exclusion).

This classification raises a rebuttable presumption that the grant or denial of the exemption will not significantly affect the quality of the human environment. Owatonna has certified that it will secure all applicable permits and approvals prior to commencement of operation of the new unit under exemption. The Environmental Checklist completed and certified to by Owatonna pursuant to 10 CFR 503.15(b) has been reviewed by DOE's Office of Environment, in consultation with the Office of the General Counsel. Owatonna's responses to the questions contained therein indicate that the operation of the peakload powerplant will have no impact on those areas regulated by specified laws that impose consultation requirements on DOE, and otherwise affirm the applicability of the categorical exclusion to this FUA action. ERA has not received any public comments relating to this action which raise a substantial question regarding the categorical exclusion status in this case. Therefore, no additional environmental review is deemed to be required.

DATES: This order will not take effect earlier than May 11, 1981.

ADDRESSES: For further information contact:

Jack C. Vandenberg, Office of Public Information, Economic Regulatory Administration, Department of Energy, 2000 M Street NW., Room B-110 Washington, D.C. 20461, Phone (202) 653-4055

Louis T. Krezanosky, Office of Fuels Conversion Economic Regulatory Administration, Department of Energy, 2000 M Street NW., Room 3012 B, Washington, D.C. 20461, Phone (202) 653-4208

Douglas F. Mitchell Office of General Counsel, Department of Energy 1000 Independence Avenue S.W., Room 6B-178, Washington, D.C. 20585 Phone (202) 252-2967.

SUPPLEMENTARY INFORMATION:

The Powerplant and Industrial Fuel Use Act of 1978, 42 U.S.C. 8301 *et seq.* (FUA or the Act), prohibits the use of natural gas or petroleum in certain new major fuel burning installations and powerplants unless an exemption for such use has been granted by ERA.

Owatonna Public Utilities (Owatonna) plans to install a 25,000 KW natural gas/oil-fired combustion turbine unit to be called Unit No. 7 on the western edge of the city of Owatonna, approximately two miles from Owatonna's present plant site. Based upon estimates by Owatonna, the proposed unit is expected to consume approximately 54,000 barrels of No. 2 fuel oil per year (118 bbl/day). Unit No. 7 is scheduled for commercial operation in May 1982.

Owatonna submitted a sworn statement with the petition signed by Mr. David M. Martin, General Manager of Owatonna, as required by 10 CFR 503.41(b)(1). In his statement, Mr. Martin certified that Unit No. 7 will be operated solely as a peakload powerplant only to meet peakload demand for the life of the plant. He also certified that the maximum design capacity of the unit is 25,000 KW and that the maximum generation that the unit will be allowed during any 12-month period is the design capacity times 1,500 hours or 37,500,000 Kwh.

On November 13, 1980, the EPA-Region V advised ERA that EPA anticipates no problem if the turbine is operated on natural gas, but additional information should be developed, including a Prevention of Significant Deterioration applicability determination for Owatonna's boiler and an emissions inventory if No. 2 fuel oils with 0.3 percent and 0.5 percent sulfur content are used. Pursuant to 10 CFR 503.15(b)(1), Owatonna submitted to ERA on October 16, 1980, a certification that Owatonna will, prior to operating the unit under the exemption, secure all applicable environmental permits and approvals. A copy of EPA's comments have been transmitted to Owatonna.

ERA's staff reviewed the information contained in the record of this proceeding. A Tentative Staff Analysis recommended that ERA issue an order granting Owatonna a permanent peakload powerplant exemption to use oil/natural gas in Unit No. 7, subject to certain terms and conditions.

A Notice of Availability of the Tentative Staff Analysis was published in the **Federal Register** on January 19, 1981 (46 FR 5045). The publication of the Notice of Availability opened a 14-day public comment period which ended February 2, 1981. No additional comments were submitted during this period nor were any requests for a public hearing received.

Order

ERA hereby grants to Owatonna a permanent exemption from the prohibitions of FUA with respect to the use of oil/natural gas in Unit No. 7 provided that the powerplant is operated solely as a peakload powerplant and to meet peakload demand subject to the following terms and conditions imposed pursuant to the authority granted to ERA by section 214(a) of the Act:

Terms and Conditions

A. Owatonna shall not produce more than 37,500,000 KWH during any 12-month period with the proposed unit. Owatonna shall provide annual estimates of the expected periods (hours during specific months) of operation of Unit No. 7 for peakload purposes (e.g., 8:00–10:00 a.m. and 3:00–6:00 p.m. during the June-September period, etc.). Estimates of the hours during which Owatonna expects to operate Unit No. 7 during the first 12-month period shall be furnished within 30 days from the date of this order.

B. Owatonna shall comply with the reporting requirements set forth in 10 CFR 503.41(d).

C. The quality of any petroleum to be burned in this unit will be the lowest grade available which is technically feasible and capable of being burned consistent with applicable environmental requirements.

D. This order shall not take effect earlier than May 11, 1981.

Issued in Washington, D.C. on March 5, 1981.

Robert L. Davies,

Assistant Administrator, Office of Fuels Conversion, Economic Regulatory Administration.

BILLING CODE 6450-01-M

[Docket No. ERA-FC-80-036; OFC Case No. 55039-2348-01-12]

Brown Co.; Order Granting Exemption From Prohibitions of the Powerplant and Industrial Fuel Use Act of 1978

AGENCY: Economic Regulatory Administration Department of Energy.

ACTION: Order Granting Exemptions from the Prohibitions of the Powerplant and Industrial Fuel Use Act of 1978.

SUMMARY: On October 15, 1980, Brown Company (Brown) filed a petition with the Economic Regulatory Administration (ERA) of the Department of Energy (DOE) seeking a permanent exemption for one new major fuel burning installation (MFBI) from the prohibitions of the Powerplant and Industrial Fuel Use Act of 1978, 42 U.S.C. 8301 *et seq.* (FUA or the Act), which prohibits the use of petroleum or natural gas as a primary energy source in certain new MFBIs. Criteria for petitioning for exemptions from the prohibitions of FUA are published at 10 CFR Parts 501 and 503 (45 FR 38276, June 6, 1980).

Brown requested a permanent fuels mixture exemption in order to burn petroleum in a mixture with bark and wood waste in one 253 million Btu's per hour boiler to be installed at Brown's Kraft Pulp Mill in Berlin, New Hampshire.

Pursuant to Section 212(d) of the Act, and 10 CFR § 503.38, and subject to specified terms and conditions stated therein, ERA hereby issues this order granting a permanent fuels mixture exemption to Brown to permit the use of petroleum (No. 6 oil) in a mixture with bark and wood waste. As specified in the terms and conditions, the amount of petroleum used in the exemption unit shall not exceed 25 percent of the total annual Btu heat input of the primary energy source used in the unit.

FOR FURTHER INFORMATION CONTACT:

Ellen Russell, Case Manager, New MFBI Branch, Office of Fuels Conversion, Economic Regulatory Administration, 2000 M Street NW., Room 3128, Washington, DC 20461, (202) 653-4477

Christina Simmons, Office of the General Counsel, Department of Energy, 1000 Independence Avenue SW., Forrestal Building, Room 6B-178, Washington, DC 20585, (202) 252-2967.

The public file containing a copy of all documents and supporting materials on this proceeding is available upon request at: ERA, Room B-110, 2000 M Street, NW, Washington, DC, Monday through Friday, 8:00 a.m.—4:30 p.m.

SUPPLEMENTARY INFORMATION: Brown's petition for a permanent fuels mixture exemption for the 253 million Btu per hour field-erected boiler certified that the unit would not burn more than 25 percent petroleum in a mixture with bark and wood waste (alternate fuels)

In accordance with the procedural requirements of FUA and ERA's regulations, ERA accepted Brown's petition and published notice of its acceptance in the **Federal Register** on December 1, 1980 (45 FR 74531). The Notice of Acceptance provided a 45-day public comment period during which interested persons could submit written comments on the petitions for exemption and could request that a public hearing

be convened. This period expired on January 15, 1981.

ERA's staff reviewed the information contained in the record of this proceeding and based on that review completed a Tentative Staff Analysis on February 6, 1981. This analysis recommended that an order be issued to grant a permanent fuels mixture exemption to the Brown boiler permitting the use of petroleum and bark and wood waste, with the proviso that the amount of petroleum used in the unit will not exceed 25 percent of the total annual Btu heat input of the primary energy source used in the unit. Notice of the availability of the Tentative Staff Analysis on Brown's petition was published in the Federal Register on February 13, 1981 at 46 FR 12284. In that notice a 14-day period was provided for interested persons to submit written comments on the Tentative Staff Analysis or to request a public hearing. No comments were received nor was a public hearing requested.

As required by section 701(f) and (g) of the Act, ERA provided a copy of Brown's petition to the Environmental Protection Agency and the Federal Trade Commission for their comment. No comments have been received from either of these agencies.

ERA has determined that Brown has satisfied the requirements of 10 CFR 503.38(c). Accordingly, pursuant to section 212(d) of FUA, and subject to the terms and conditions stated below, ERA hereby grants Brown Company one permanent fuels mixture exemption to permit, in a mixture with bark and wood waste, the use of No. 6 fuel oil in the new boiler in an amount not to exceed 25 percent of the total annual Btu heat input of the primary energy source used in the boiler.

TERMS AND CONDITIONS: Section 214(a) of the Act gives ERA the authority to attach terms and conditions to any order granting an exemption. ERA has determined that the conclusions reached in the Tentative Staff Analysis are consistent with the provisions of the final rule with the exception of the recommended terms and conditions. Accordingly, this order is granted subject to the following terms and conditions:

1. The amount of petroleum used in Boiler No. 14 shall not exceed 25 percent of the total annual Btu heat input of the primary energy source of the unit.

2. In accordance with the reporting requirement in 10 CFR 503.38(g) Brown shall submit an annual report to the Economic Regulatory Administration (ERA), Case Control Unit (Fuel Use Act), Box 4629, Room 3214, 2000 M Street, NW, Washington, DC 20461, each year on the anniversary of the boiler being placed in service. The certified statement should contain the following information and be presented in the format below.

Boiler No.	Fuel type	Amount used (tons/bbls)	Percent of annual fuel consumption
14	No. 6 Fuel Oil		
	Bark or wood waste		

3. The quality of any petroleum to be burned in the unit will be the lowest grade available, which is technically feasible, and capable of being burned consistent with applicable environmental requirements.

The exemptions granted by this order shall become effective May 11, 1981.

Pursuant to section 702(c) of the Act, any person aggrieved by this order may at any time on or before May 11, 1981, petition for judical review in accordance with the procedures outlined in 10 CFR 501.69.

Issued in Washington, D.C., on March 3, 1981.

Robert L. Davies,

Assistant Administrator, Office of Fuels Conversion, Economic Regulatory Administration.

[FR Doc. 81-7757 Filed 3-11-81; 8:45 am]

BILLING CODE 6450-01-M

Federal Energy Regulatory Commission

[Project No. 3994-000]

Enagenics; Application for Preliminary Permit

March 6, 1981.

Take notice that Enagenics (Applicant) filed on January 13, 1981, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. 791(a)–825(r)] for proposed Project No. 3994 to be known as Kentucky River Lock and Dam No. 2 located on the Kentucky River in Henry County, Kentucky. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Mr. Thomas H. Clarke, Jr., President, Enagenics, 1727 Q Street, N.W., Washington, D.C. 20009. Any person who wishes to file a response to this notice should read the entire notice and must comply with the requirements specified for the particular kind of response that person wishes to file.

Project Description—The proposed project would utilize an existing U.S. Army Corps of Engineer's lock and dam. Project No. 3994 would consist of: (1) a proposed intake structure in the left end of the existing dam; (2) a proposed powerhouse located on the left (east) bank of the river; (3) transmission lines; and (4) appurtenant facilities. Applicant estimates the capacity of the project would be 3.8 MW, and the annual energy output would be 24.3 Gwh.

Purpose of Project—Energy produced at the proposed project would be sold to the residential, commercial and industrial consumers of the Kentucky Utilities Company, or to nearby public institutions or industries.

Proposed Scope and Cost of Studies Under Permit—Applicant has requested a 36 month permit to prepare a definitive project report, including preliminary design and economic feasibility studies, hydrological studies, environmental and social studies, and soil and foundation data. The cost of the aforementioned activities along with obtaining agreements with other Federal, State and local agencies is estimated to be $50,000.

Purpose of Preliminary Permit—A preliminary permit does not authorize construction. A permit, if issued, gives the Permittee, during the term of the permit, the right of priority of application for license while the Permittee undertakes the necessary studies and examinations to determine the engineering, economic and environmental feasibility of the proposed project, the market for power, and all other information necessary for inclusion in an application for a license.

Agency Comments—Federal, State, and local agencies that receive this notice through direct mailing from the Commission are invited to submit comments on the described application for preliminary permit. (A copy of the application may be obtained directly from the Applicant.) Comments should be confined to substantive issues relevant to the issuance of a permit and consistent with the purpose of a permit as described in this notice. No other formal request for comments will be made. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Applications—Anyone desiring to file a competing application must submit to the Commission, on or before May 7, 1981, either the competing application itself or a notice of intent to file a competing application. Submission of a timely notice of intent allows an interested person to file the competing application no later than July 6, 1981. A

Notice of intent must conform with the requirements of 18 CFR 4.33(b) and (c) (1980). A competing application must conform with the requirements of 18 CFR 4.33(a) and (d) (1980).

Comments, Protests, or Petitions To Intervene—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protests, or petition to intervene must be received on or before May 7, 1981.

Filing and Service of Responsive Documents—Any comments, notices of intent, competing applications, protests, or petitions to intervene must bear in all capital letters the title "COMMENTS," "NOTICE OF INTENT TO FILE COMPETING APPLICATION," "COMPETING APPLICATION," "PROTEST," or "PETITION TO INTERVENE," as applicable. Any of these filings must also state that it is made in response to this notice of application for preliminary permit for Project No. 3994. Any comments, notices of intent, competing applications, protests, or petitions to intervene must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208, 400 First Street, N.W., Washington, D.C. 20426. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-7609 Filed 3-11-81; 8:45 am]

BILLING CODE 6450-85-M

[Project No. 4133-000]

Enagenics; Application for Preliminary Permit

March 6, 1981.

Take notice that Enagenics (Applicant) filed on February 6, 1981, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. 791(a)–825(r)] for proposed Project No. 4133 to be known as Cagles Mill Lake located on Mill Creek River in Putnam County, Indiana. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to Mr. Thomas H. Clarke, Jr., President, Enagenics, 1727 Q Street NW., Washington, D.C. 20009. Any person who wishes to file a response to this notice should read the entire notice and must comply with the requirements specified for the particular kind of response that person wishes to file.

Project Description—The proposed project would utilize the existing U.S. Army Corps of Engineers' Cagle Mill Dam and Reservoir. Project No. 4133 would consist of: (1) a proposed penstock extending from the existing outlet conduit; (2) a proposed powerhouse located on the north bank of the river; (3) transmission lines; and (4) appurtenant facilities. The Applicant estimates the capacity of the project would be 7.2 MW, and the annual energy output would be 9,820,000 Kwh.

Purpose of Project—Energy produced by the Applicant at the proposed site would be sold to Public Service Company of Indiana.

Proposed Scope and Cost of Studies Under Permit—Applicant has requested a 36-month permit to prepare a definitive project report, including preliminary design and economic feasibility studies, hydrological studies, environmental and social studies, and soils and foundation data. The cost of the aforementioned activities along with the obtaining agreements with other Federal, State and local agencies is estimated to be $45,000.

Purpose of Preliminary Permit—A preliminary permit does not authorize construction. A permit, if issued, gives the Permittee, during the term of the permit, the right of priority of application for license while the Permittee undertakes the necessary studies and examinations to determine the engineering, economic, and environmental feasibility of the proposed project, the market for power, and all other information necessary for inclusion in an application for a license.

Agency Comments—Federal, State, and local agencies that receive this notice through direct mailing from the Commission are invited to submit comments on the described application for preliminary permit. (A copy of the application may be obtained directly from the Applicant.) Comments should be confined to substantive issues relevant to the issuance of a permit and consistent with the purpose of a permit as described in this notice. No other formal request for comments will be made. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Applications—This application was filed as a competing application to Continental Hydro Corporation Project No. 3389 filed on August 27, 1980, under 18 CFR 4.33 (1980), and, therefore, no further competing applications or notices of intent to file a competing application will be accepted for filing.

Comments, Protests, or Petitions To Intervene—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protest, or petition to intervene must be received on or before April 1, 1981.

Filing and Service of Responsive Documents—Any comments, protests, or petitions to intervene must bear in all capital letters the title "PROTEST," or "PETITION TO INTERVENE," as applicable. Any of these filings must also state that it is made in response to this notice of application for preliminary permit for Project No. 4133. Any comments, protests, or petitions to intervene must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory

Commission, Room 208, 400 First Street NW., Washington, D.C. 20426. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Project No. 4172]

Enagenics; Application for Preliminary Permit

March 6, 1981.

Take notice that Enagenics (Applicant) filed on February 18, 1981, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. 791(a)–825(r)] for proposed Project No. 4172 to be known as the Easton Diversion Dam Project located on Yakima River in Kittitas County, Washington. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Mr. Thomas H. Clarke, Jr., President, Enagenics, 1727 Q Street NW., Washington, DC 20009. Any person who wishes to file a response to this notice should read the entire notice and must comply with the requirements specified for the particular kind of response that person wishes to file.

Project Description—The proposed project would consist of: (1) a power plant at the base of the existing U.S. Water and Power Resources Service's Easton Dam with a rated capacity of 3.2 MW; and (2) approximately 3 miles of 115-kV transmission line to connect to an existing Pudget Sound Power and Light Company transmission line. The Applicant estimates that the average annual energy output would be 12.5 million kWhs.

Purpose of Project—Applicant states that the power generated at the project would be sold to the Bonneville Power Administration, the Pudget Sound Power and Light Company, or other local electric users.

Proposed Scope and Cost of Studies Under Permit—Applicant seeks a preliminary permit for a period of 36 months during which it would conduct environmental, engineering, and economical studies to determine the feasibility of constructing and operating the proposed project. Applicant estimates that the cost of the feasibility studies would be about $35,000..

Purpose of Preliminary Permit—A preliminary permit does not authorize construction. A permit, if issued, gives the Permittee, during the term of the permit, the right of priority of application or license while the Permittee undertakes the necessary studies and examinations to determine the engineering, economic, and environmental feasibility of the proposed project, the market for power, and all other information necessary for inclusion in an application for a license.

Agency Comment—Federal, State, and local agencies that receive this notice through direct mailing from the Commission are invited to submit comments on the described application for preliminary permit. (A copy of the Application may be obtained directly from the Applicant.) Comments should be confined to substantive issues relevant to the issuance of a permit and consistent with the purpose of a permit as described in this notice. No other formal request for comments will be made. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Applications—This application was filed as a competing application to the Kittitas County PUD No. 1 Project No. 3486 filed on September 18, 1980, under 18 CFR 4.33 (1980), and, therefore, no further competing applications or notices of intent to file a competing application will be accepted for filing.

Comments, Protests, or Petitions To Intervene—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protest, or petition to intervene must be received on or before April 1, 1981.

Filing and Service of Responsive Documents—Any comments, protests, or petitions to intervene must bear in all capital letters the title "COMMENTS," "PROTEST," or "PETITION TO INTERVENE," as applicable. Any of these filings must also state that it is made in response to this notice of application for preliminary permit for Project No. 4172. Any comments, protests, or petitions to intervene must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, DC 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications, Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208, 400 First Street NW., Washington, DC 20426. A copy of any petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-7588 Filed 3-11-81; 8:45 am]

BILLING CODE 6450-85-M

[Project No. 3560-000; Project No. 3998-000]

North Unit Irrigation District; Enagenics; Application for Preliminary Permit

March 6, 1981.

Take notice that North Unit Irrigation District (District) filed on October 14, 1980, and Enagenics filed on January 13, 1981, competing applications for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. 791(a)–825(r)] for proposed Project Nos. 3560 and 3998, respectively, to be known as the Wickiup Dam Project located on the Deschutes River in Deschutes County, Oregon. The applications are on file with the Commission and are available for public inspection. Correspondence with the District should be directed to: Mr. Robert Wagner, Manager, North Unit Irrigation District, Airport Road, Madras, Oregon 97741. Correspondence with Enagenics should be directed to: Mr. Thomas H. Clarke, Jr., President, Enagenics, 1727 Q Street, N.W., Washington, D.C. 20009. Any person who wishes to file a response to this notice should read the entire notice and must comply with the requirements specified for the particular kind of response that person wishes to file.

Project Description—The proposed projects would utilize an existing government dam known as the Wickiup Dam and owned by the United States Water and Power Resources Service. The proposed Project No. 3560 would consist of a power plant with a total installed capacity of 7 MW that would generate an average annual energy output of 30 GWh. The proposed Project No. 3998 would consist of a power plant with a total installed capacity of 6.6 MW that would generate an average annual energy output of 20.6 GWh.

Purpose of Project—The District intends to market the power generated by the project to a local utility. Enagenics intends to market the power generated by the project to the Mid-state Electric Co-op, nearby public institutions, or other industrial users.

Proposed Scope and Cost of Studies Under Permit—The proposed studies would include economic analysis, preliminary engineering, and environmental impact assessment. Based on the results of the studies, the Permittee would decide whether to proceed with more detailed studies and an application for a license to construct and operate the project. The District estimates the costs of the studies would be $47,955 and Enagenics estimates the costs of the studies would be $45,000.

Purpose of Preliminary Permit—A preliminary permit does not authorize construction. A permit, if issued, gives the Permittee, during the term of the permit, the right of priority of application for license while the Permittee undertakes the necessary studies and examinations to determine the engineering, economic, and environmental feasibility of the proposed project, the market for power, and all other information necessary for inclusion in an application for a license.

Agency Comments—Federal, State, and local agencies that receive this notice through direct mailing from the Commission are invited to sumbit comments on the described application for preliminary permit. (A copy of the application may be obtained directly from the Applicant.) Comments should be confined to substantive issues relevant to the issuance of a permit and consistent with the purpose of a permit as described in this notice. No other formal request for comments will be made. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Applications—The applications were filed as competing applications to Cascade Waterpower Development Corporation's Project No. 3460, filed on September 12, 1980, under 18 CFR 4.33 (1980), and, therefore, no further competing applications or notices of intent to file a competing application will be accepted for filing.

Comments, Protests, or Petitions To Intervene—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protests. In determining the appropriate action to take, the Commission will consider all protests of other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protest, or petition to intervene must be received on or before April 1, 1981.

Filing and Service of Responsive Documents—Any comments, protests, or petitions to intervene must bear in all capital letters the title "COMMENTS," "PROTEST," or "PETITION TO INTERVENE," as applicable. Any of these filings must also state that it is made in response to this notice of application for preliminary permit for Project Nos. 3560 and 3998. Any comments, protests, or petitions to intervene must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208, 400 First Street, N.W., Washington, D.C. 20426. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-7980 Filed 3-11-81; 8:45 am]

BILLING CODE 6450-85-M

[Project No. 4071]

Pacific Northwest Generating Co. and Arnold Irrigation District; Application for Preliminary Permit

March 6, 1981.

Take notice that Pacific Northwest Generating Company and Arnold Irrigation District (Applicant) filed on January 29, 1981, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. 791(a)–825(r)] for proposed Project No. 4071 to be known as the Arnold Flume Hydroelectric Project located on the Deschutes River in Deschutes County, near Bend, Oregon. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Mr. Thomas R. Howard, Mr. David E. Piper, Pacific Northwest Generating Company, 8383 N.E., Sandy Blvd., Suite 330, Portland, Oregon 97220 with copies to CH2M HILL, Attention: Mr. Curtis L. Bagnall, 200 S.W. Market Street, 12th Floor, Portland, Oregon 97201. Any person who wishes to file a response to this notice should read the entire notice and must comply with the requirements specified for the particular kind of response that person wishes to file.

Project Description—The proposed project would consist of: (1) an existing diversion dam (a natural rock barrier); (2) a new 10-foot by 6-foot radial gate; (3) approximately 7000 feet of new pipeline; (4) 150 feet of penstock leading to; (5) a new powerhouse to operate under a head of 100 feet and to contain one turbine-generating unit with a rated capacity of 3.5 MW; (6) a tailrace channel; (7) approximately 0.75 mile of 12.5-kV transmission line; and (8) a step-up substation.

The proposed project would use excess flow generally available during the non-irrigation season, and during the spring and fall months of the irrigation season when demand is not at its peak. The 7000-foot long pipeline is to replace the existing Arnold Flume which is owned and operated by the Arnold Irrigation District.

The Applicant estimates that the average annual energy output would be 27.5 million kWhs.

Purpose of Project—The power output would be used to meet the Pacific Northwest Generating Company's (Company) load growth and to offset power purchases now being made by the Company to supply its customers.

Proposed Scope and Cost of Studies Under Permit—The Applicant has conducted some reconnaissance studies of the site. The Applicant now seeks issuance of a preliminary permit for a period of 36 months, during which time it would prepare a definitive project report that would include engineering, economic, and environmental data. The cost of the feasibility studies is estimated by the Applicant to be about $41,500.

Purpose of Preliminary Permit—A preliminary permit does not authorize construction. A permit, if issued, gives the Permittee, during the term of the permit, the right of priority of application for license while the Permittee undertakes the necessary studies and examinations to determine the engineering, economic, and environmental feasibility of the proposed project, the market for power, and all other information necessary for inclusion in an application for a license.

Agency Comments—Federal, State, and local agencies that receive this notice through direct mailing from the Commission are invited to submit comments on the described application for preliminary permit. (A copy of the application may be obtained directly from the Applicant). Comments should be confined to substantive issues relevant to the issuance of a permit and consistent with the purpose of a permit as described in this notice. No other formal request for comments will be made. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Applications—Anyone desiring to file a competing application must submit to the Commission, on or before May 7, 1981, either the competing application itself or a notice of intent to file a competing application. Submission of a timely notice of intent allows an interested person to file the competing application no later than July 6, 1981. A notice of intent must conform with the requirements of 18 CFR 4.33 (b) and (c) (1980). A competing application must conform with the requirements of 18 CFR 4.33 (a) and (d) (1980).

Comments, Protests, or Petitions To Intervene—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protest, or petition to intervene must be received on or before May 7, 1981.

Filing and Service of Responsive Documents—Any comments, notices of intent, competing applications, protests, or petitions to intervene must bear in all capital letters the title "COMMENTS," "NOTICE OF INTENT TO FILE COMPETING APPLICATION," "COMPETING APPLICATION," "PROTEST," or "PETITION TO INTERVENE," as applicable. Any of these filings must also state that it is made in response to this notice of application for preliminary permit for Project No. 4071. Any comments, notices of intent, competing applications, protests, or petitions to intervene must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, N.W., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208, 400 First Street, N.E., Washington, D.C. 20426. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Docket No. RA80-9]

Southland Oil Co./VGS Corp.; Further Extension of Time

March 6, 1981.

On March 2, 1981, Southland Oil Company/VGS Corporation filed a request for an extension of time to file comments on the Proposed Order of Presiding Officer issued January 9, 1981, in the above-docketed proceeding. On March 4, 1981, the Commission issued a Notice of Extension of Time in this proceeding which extended the date for filing comments to and including March 9, 1981.

Upon further consideration of the March 2, 1981 motion, notice is hereby given that an extension of time for the filing of comments is granted to and including March 16, 1981.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-7682 Filed 3-11-81; 8:45 am]

BILLING CODE 6450-85-M

[Project No. 2016]

City of Tacoma, Washington; Application for Approval of Exhibit R

March 6, 1981.

Take notice that the City of Tacoma, Washington (City) filed on January 6, 1981, an application for approval of a revised Exhibit R (Recreational Use Plan) for its Cowlitz River Project No. 2016. The project is located on the Cowlitz River in Lewis County, Washington. Correspondence with the City should be directed to: Paul J. Nolan, Director of Utilities, City of Tacoma, P.O. Box 11007, Tacoma, WA 98411.

The Exhibit R, filed in accordance with the Commission's order issued February 15, 1979, describes existing facilities and proposes to provide additional and upgraded facilities consisting of picnic units, camping units, beach areas, comfort and sanitary facilities, and a boat ramp. The ultimate recreational development would include an additional 496 acres of project land. The amended Exhibit R filed on January 6, 1981 and the Exhibit R drawings filed on June 13, 1979 would supercede all prior Exhibit R filings.

Comments, Protests or Petitions To Intervene—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Federal Energy Regulatory Commission, in accordance with the requirements of the Commission's Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1979). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protest, or petition to intervene must be filed on or before May 7, 1981. The Commission's address is: 825 North Capitol Street NE., Washington, D.C. 20426. The application is on file with the Commission and is available for public inspection.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-7683 Filed 3-11-81; 8:45 am]

BILLING CODE 6450-85-M

[Docket No. CP78-123-012, et al.]

Alaskan Northwest Natural Gas Transportation Co.; Amendment to Application

March 6, 1981

Take notice that on February 13, 1981, Alaskan Northwest Natural Gas Transportation Company (Applicant), Suite S-700, 1120 20th Street, N.W., Washington, D.C. 20036, filed in Docket No. CP 78-123-012, *et al.* an amendment to its application filed in the instant docket pursuant to the Alaskan Natural Gas Transportation Act of 1976 (ANGTA), the Natural Gas Act, and the Commission's Order Vacating Prior Proceedings and Issuing Conditional Certificate of Public Convenience and Necessity issued December 16, 1977, so

as to reflect inclusion in the rate base the pre-partnership qualified expenditures of Tetco Four, Inc. (Tetco Four) and the Columbia Alaskan Gas Transmission Corporation (Columbia Alaskan), all as more fully set forth in the amendment which is on file with the Commission and open to public inspection.

Applicant states that it made an original filing on February 2, 1979, seeking review and approval of preliminary construction expenditures incurred prior to the date of formation of a partnership for four companies which were part of the Arctic Gas Consortium and are now members of the Applicant partnership, and $17,800,000 (excluding AFUDC) expended by Northwest Alaskan Pipeline Company to prosecute its successful application prior to the formation of the Applicant partnership.[1]

Applicant submits that on September 19, 1980, it filed an amendment to its application including a request for approval of $8,000,000 (excluding AFUDC) pre-partnership expenditures of American Natural Alaskan Company (American Natural Alaskan). American Natural Alaskan was part of the Arctic Gas Consortium and became a member of the Applicant partnership effective January 1, 1980, as approved by Commission Order issued December 15, 1980.

Applicant further states that on August 1, 1980, Tetco Four and Columbia Alaskan became members of the Applicant partnership as approved by Commission Order issued December 15, 1980. It is submitted that affiliates of both Tetco Four and Columbia Alaskan were members of the Arctic Gas Consortium.

Applicant hereby requests the review and approval of the prepartnership expenditures, excluding AFUDC, of $7,900,000 (Appendix A) for Tetco Four and $8,000,000 (Appendix B) for Columbia Alaskan.

Applicant asserts that the legal authority for the Commission's ability to grant the requested approval is detailed in the Applicant partnership's original application and subsequent amendments to application.

Any person desiring to be heard or to make any protest with reference to said amendment should on or before March 30, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules. All persons who have heretofore filed need not file again.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[1] This application also requested review and approval of the Applicant partnership's expenditures for the period February 1, 1978, through July 31, 1978. Applicant made additional filings on August 14, 1979, July 16, 1980, and September 19, 1980, covering the actual expenditures of Applicant covering the periods January 1, 1979, through March 31, 1980.

[Docket No. RP81-41-000]

ANR Storage Co.; Proposed Changes in FERC Gas Tariff of ANR Storage Company

March 6, 1981.

Take notice that ANR Storage Company (ANR), on Feb. 27, 1981, tendered for filing proposed changes in its FERC Gas Tariff, Original Volume No. 2. The proposed changes would increase the charges of ANR to its storage service customer, Southern Natural Gas Company, soley by reason of reflecting in its rates, the increase in interest cost level incurred since its Initial Rates were approved. All elements used to compute the rates proposed in the subject filing, other than interest rate, are the same as those used to compute the Initial Rates. The proposed changes would increase revenues from ANR's service to Southern by $2,013,000 per year.

Copies of the filing were served upon Southern Natural Gas Company.

Any party desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capital Street, N.E., Washington, D.C. 20426, in accordance with Sections. 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before March 20, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file

with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Docket No. TA81-2-31-000 (PGA 81-2, IPR81-2, LFUT81-2)]

Arkansas Louisiana Gas Co.; Filing of Revised Tariff Sheets Reflecting Tariff Adjustment

March 6, 1981.

Take notice that on February 27, 1981 Arkansas Louisiana Gas Company (Arkla) tendered for filing 28th Revised Sheet No. 4 and 3rd Revised Sheet No. 4A to its FERC Gas Tariff First Revised Volume No. 1, Rate Schedule No. G-2, to become effective April 1, 1981.

Arkla states that the purpose of 28th Revised Sheet No. 4 is to (1) reflect the cost of purchased gas for the six months period commencing April 1, 1981, (2) recover the accumulated deferred gas costs as of December 31, 1981, (3) set forth the reduced PGA and estimated incremental pricing surcharges to be billed during the PGA period as contained on 3rd Revised Sheet No. 4A and (4) to reflect a revision in the Louisiana First Use Tax Adjustments effective April 1, 1981.

Arkla also states that copies of the revised tarriff sheet and supporting data are being mailed to Arkla's jurisdictional customers and other interested parties affected by this tariff change.

Any person desiring to be heard or to protest said filing should file a Petition to Intervene or Protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before March 20, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a Petition to Intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Docket No. TA81-2-32-000 (PGA81-2)]

Colorado Interstate Gas Co.; Proposed Changes in Rates Under Purchased Gas Adjustment Clause Provision

March 6, 1981.

Take notice that Colorado Interstate Gas Company, on February 27, 1981, tendered for filing proposed changes in its FERC Gas Tariff, Original Volume No. 1. The proposed changes would decrease the commodity rate under each of CIG's jurisdictional rate schedules by 2.41 cents per Mcf and decrease the demand rate by 6.00 cents per Mcf.

The filing was made to enable CIG to reflect in its rates, pursuant to Section 21 of CIG's FERC Gas Tariff, Original Volume No. 1, net decreased purchased gas costs it will experience as of April 1, 1981, as the result of rate filings made by certain of its pipeline suppliers.

CIG requests that the instant filing be made effective on April 1, 1981.

Copies of the filing have been served upon the Company's jurisdictional customers and other interested persons, including public bodies.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before March 20, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Docket No. ER81-304-000]

The Dayton Power and Light Co.; Filing

March 6, 1981.

The filing company submits the following:

Take notice that on February 26, 1981, the Dayton Power and Light Company (DP&L) tendered for filing a proposed revision to its FERC Electric Tariff, Original Volume No. 1. The proposed revision is to recognize a temporary increase in the excise tax on gross receipts imposed by Section 5727.38 of the Ohio Revised Code pursuant to the Tax Adjustment Clause contained in DP&L's FERC Electric Tariff. The temporary increase in the excise tax is for one year and the proposed revision which shall become effective May 1, 1981 is limited to the recovery of this temporary increase.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington D.C. 20426, in accordance with Section 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before March 27, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Docket No. TA81-2-33-000]

El Paso Natural Gas Co.; Proposed Change in Rates and Tariff Sheet Cancellations

March 6, 1981.

Take notice that on February 27, 1981, El Paso Natural Gas Company ("El Paso") tendered for filing a notice of:

(i) a change in rates, effective as of April 1, 1981, for jurisdictional gas service rendered to customers served by its interstate gas transmission system under rate schedules affected by and subject to Section 19, Purchased Gas Cost Adjustment Provision ("PGAC"), contained in the General Terms and Conditions of El Paso's FERC Gas Tariff, Original Volume No. 1;

(ii) a change in rates, effective as of April 1, 1981, for sales occurring under applicable rate schedules affected by and subject to Section 22, Louisiana First-Use Tax Tracking Provision ("LFUT"), contained in said General Terms and Conditions of El Paso's FERC Gas Tariff, Original Volume No. 1;

(iii) a change in rates, effective as of April 1, 1981, attributable to advance payments, transportation costs and gas well royalty and production tax costs, pursuant to the adjustment mechanisms designed to track such costs provided for in El Paso's Stipulation and

Agreement as Restated and Amended dated and filed on January 16, 1980, at Docket No. RP79–12 (Extension), as approved by Commission order dated May 30, 1980; and

(iv) cancellation of the PGAC—Clean High Pressure Gas Provision ("PGAC–CHPG") contained in El Paso's FERC Gas Tariff, Original Volume No. 2A, and the rates associated therewith, effective as of April 1, 1981.

El Paso states that the total proposed net change in its currently effective rates attributable to the PGAC, LFUT and Docket No. RP79–12 (Extension) tracking mechanism adjustments is an increase of 16.41¢ per Mcf.

To implement the instant notice of change in rates (items (i), (ii) and (iii) above), El Paso filed the following revised tariff sheets to its FERC Gas Tariff, Original Volume No. 1, Third Revised Volume No. 2 and Original Volume No. 2A:

Tariff volume	Tariff sheet
Original Volume No. 1	Fourth Substitute Twenty-seventh Revised Sheet No. 3–B.
	Third Revised Sheet No. 156.
Third Revised Volume No. 2	Fourth Substitute Eighteenth Revised Sheet No. 1–D
Original Volume No. 2A	Fourth Substitute Nineteenth Revised Sheet No. 1–C.

As to item (iv) above, El Paso tendered Third Substitute Fourteenth Revised Sheet No. 1–D and Fourth Revised Sheet No. 1–E to its FERC Gas Tariff, Original Volume No. 2A, which tariff sheets serve to give notice of cancellation of the tariff sheet containing the PGAC–CHPG Statement of Rates and the tariff sheets containing the PGAC–CHPG provision, respectively. El Paso states that the special rate schedules affected by and subject to the PGAC–CHPG provision have been cancelled by superseding service agreements between El Paso and the respective parties, with the service continued under said superseding agreements which are subject to El Paso's Original Volume No. 1 Tariff. Therefore, El Paso has proposed to cancel the tariff sheets containing the PGAC–CHPG provision and PGAC–CHPG Statement of Rates effective April 1, 1981.

In connection with the cancellations, El Paso states that as of December 31, 1980, $56,220 remained in its Account 191, Unrecovered Purchased Gas Cost, applicable to the subject PGAC–CHPG rate schedules, including the applicable carrying charges. Because of the cancellation of all remaining special rate schedules subject to the PGAC–CHPG and the continuation of service under El Paso's Original Volume No. 1 Tariff, El Paso believes it appropriate to transfer such remaining PGAC–CHPG Account 191 balance to its regular PGAC Account 191. El Paso states that the estimated volumes associated with these customers whose service is being converted from Original Volume No. 2A to service agreements under Original Volume No. 1 have been included as a part of the total estimated jurisdictional sales volumes utilized in the calculation of its PGAC Account 191 surcharge rate. Therefore, in order to clear the PGAC–CHPG Account 191 balance, El Paso has requested the Commission to grant such waivers of its regulations and the applicable provisions of El Paso's currently effective FERC Gas Tariff, as may be deemed necessary, in order to permit the transfer of such remaining amount to the regular PGAC Account 191 balance, as of December 31, 1980.

El Paso has requested that waiver be granted of all applicable rules, orders and regulations of the Commission, as may be deemed necessary, to permit the effectiveness of its tendered revised tariff sheets on April 1, 1981.

El Paso states that copies of the filing and enclosures thereto have been served upon all interstate pipeline system customers of El Paso and interested state regulatory commissions.

Any person desiring to be heard or to make any protest with reference to said tariff filing should, on or before March 20, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C., 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations Under the Natural Gas Act (18 CFR 157.10). Protests filed with the Commission will be considered by it in determining the appropriate action to be taken, but will not serve to make any protestants parties to the proceeding. Any person wishing to become a party to a proceeding must file a petition to intervene in accordance with the Commission's Rules. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81–7775 Filed 3–11–81; 8:45 am]

BILLING CODE 6450–85–M

[Docket No. TA81–2–34–000 (PGA)(IP)(LFUT)]

Florida Gas Transmission Co.; Proposed Changes in Rates and Charges Under Purchased Gas Adjustment and Incremental Pricing Provisions and the Louisiana First Use Tax Provision

March 6, 1981.

Take notice that on February 27, 1981 Florida Gas Transmission Company (FGT), P.O. Box 44, Winter Park, Florida 32790, tendered for filing the following tariff sheets to its F.E.R.C. Gas Tariff:

Original Volume No. 1

Second Substitute 25th Revised Sheet No. 3–A

Third Revised Sheet No. 3–B

Original Volume No. 2

Substitute 15th Revised Sheet No. 128

The aforementioned tariff sheets contain changes in its resale rates in Rate Schedules G and I and in Rate Schedule T–3 resulting from adjustment provisions in the Company's tariff for (i) cost of purchased gas, (ii) Incremental Pricing Provision, and (iii) Louisiana First Use Tax. FGT proposes to make the rate changes effective April 1, 1981.

According to FGT, the changes contained on Second Substitute 25th Revised Sheet No. 3–A and Substitute 15th Revised Sheet No. 128 are made in accordance with the purchased gas cost adjustment and incremental pricing provision in its tariff (Section 15, General Terms and Conditions) and adjust the currently effective rates for Rate Schedules G and I to reduce the Louisiana First Use Tax provision in accordance with Section 20 of the General Terms and Conditions of FGT's Gas Tariff, Original Volume No. 1. FGT also states that Third Revised Sheet No. 3–B contains the estimated incremental pricing surcharges by customer by month for the adjustment period.

The net effect of the above-mentioned adjustments for Rate Schedule G and I is to increase the currently effective rate by .676¢/therm. Based on estimated G and I sales for the next 12 months this results in an annual revenue increase of approximately $6,027,000. Below is a table comparing the G and I rates before and after the April 1, 1981 change.

	Cents per therm	
	Effective prior to April 1, 1981.	To be effective April 1, 1981
Rate Schedule G	23.856	24.532
Rate Schedule I	23.056	23.732

The net effect of the above-mentioned adjustments for Rate Schedule T–3 is a decrease of 1.46¢/Mcf. The rate for Rate Schedule T–3 in effect immediately prior to April 1, 1981 is 39.46¢/Mcf. The rate to be effective on April 1, 1981 is 38.00¢/Mcf. The annual effect on revenues from Rate Schedule T–3 is a decrease of $1,066,000.

FGT states that a copy of its filing has been served on all customers receiving gas under its FERC Gas Tariff, Original Volume Nos. 1 and 2 and the Florida Public Service Commission and is being posted.

Any person desiring to be heard or to protest said application shoiuld file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before March 20, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Docket No. TA81-2-51-000]

Great Lakes Transmission Co.; Proposed Changes in PGA Gas Tariff Under Purchased Gas Adjustment Clause Provisions

March 6, 1981.

Take notice that Great Lakes Gas Transmission Company ("Great Lakes"), on February 26, 1981, tendered for filing Thirty-Eighth Revised Sheet No. 57, to its FERC Gas Tariff, First Revised Volume No. 1, proposed to be effective April 1, 1981.

Great Lakes states that its sole supplier of natural gas, TransCanada PipeLines Limited ("TransCanada"), will increase the rates for gas purchased by Great Lakes effective April 1, 1981. The increase is the result of the announcement by the Canadian Government that the border price of natural gas exported shall be at the rate of $4.94 per MMBtu in United States currency effective April 1, 1981. Great Lakes is seeking waiver of the Commission's Regulations in order to make the increase effective April 1, 1981.

Great Lakes also states that copies of this filing have been served upon its customers and the Public Service Commissions of Minnesota, Wisconsin and Michigan.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.3, 1.10). All such petitions or protests should be filed on or before March 20, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Docket No. ST81-165-000]

Louisiana Intrastate Gas Corp.; Application

March 6, 1981.

Take notice that on February 13, 1981, Louisiana Intrastate Gas Corporation (Applicant), P.O Box 1352, Alexandria, Louisiana 71301, filed in Docket No. ST81–165–000 an application pursuant to Section 284.123(b)(2) of the Commission's Regulations under the Natural Gas Policy Act of 1978 for approval of rates charged for the transportation of natural gas for Columbia Gas Transmission Corporation (Columbia), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that on January 23, 1981, it entered into a transportation agreement with Columbia to provide transportation service for gas owned by Columbia. It is stated that pursuant to the agreement, Applicant would accept gas from Columbia or for its account at specified points of delivery and redeliver a volume of gas having an equal thermal content less Columbia's *pro rata* part of fuel, company use and unaccounted for gas, as that delivered at the plant point(s) of delivery. Applicant herein proposes to charge Columbia a fee of 20.0 cents per million Btu, (i) redelivered by Applicant to Columbia at the point(s) of redelivery specified in the transportation agreement, and (ii) for the difference between the volume delivered to Columbia at the plant point(s) of delivery and the volume redelivered to Applicant at specified delivery points.

Applicant states that the transportation service would be for a term of two years from initial deliveries and that the gas to be transported hereunder is owned by Columbia and is for Columbia's system supply for resale.

Any person desiring to be heard or to make any protest with reference to said application should on or before March 30, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be condidered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to a proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Docket No. ER81-300-000]

Mississippi Power & Light Co.; Filing

March 6, 1981.

The filing Company submits the following:

Take notice that on February 26, 1981, Mississippi Power & Light Company (MP&L) tendered for filing an Assignment and Operating Agreement and an Amendment to this Agreement between it and Southern Pine Electric Power Association dated as of June 1, 1980. This Assignment served to release MP&L from its obligations under MP&L's Agreements for Purchase of Power at each separate Southern Pine Electric Power Association delivery point and assigned those certain Agreements for Purchase of Power to South Mississippi Electric Power Association (SMEPA). With this transfer of power supply responsibility from MP&L to SMEPA, MP&L commenced providing SMEPA with transmission service under MP&L Rate Schedule FERC No. 251 with supplements as accepted for filing by the Commission in Docket No. ER79–250 (now terminated).

Consistent with the rearrangement of rights and obligations agreed to in the

Assignment, MP&L proposes that its Agreements for Purchase of Power (designated as MP&L Rate Schedules, FERC Nos. 245, 226.1, 226.2, 226.3, and 226.5) be cancelled as of June 1, 1980. Under Section 9 of each Assignment, MP&L retained a contingent right to demand reassignment of the related assignments for Purchase of Power if SMEPA and Middle South Energy, Inc. (MSE) had not held a closing on the proposed acquisition by SMEPA of an ownership interest in the Grand Gulf Nuclear Station by June 1, 1981 pursuant to the Joint Construction, Acquisition, and Ownership Agreement between MSE and SMEPA, dated as of May 1, 1980. On October 31, 1980, however, the contemplated closing was held. Therefore, the rearrangements made by the June 1, 1980 Assignments are no longer subject to change. MP&L delayed the tender of this filing until this representation could be made. Accordingly, MP&L, with the concurrence of SMEPA and Southern Pine Electric Power Association, requests waiver of the Commission's notice requirements to permit an effective cancellation date of June 1, 1980.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before March 27, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Docket No. ER81-301-000]

Mississippi Power & Light Co.; Filing

March 6, 1981.

The filing Company submits the following:

Take Notice that on February 26, 1981, Mississippi Power & Light Company (MP&L) tendered for filing an Assignment and Operating Agreement and an Amendment to this Agreement between it and Magnolia Electric Power Association (Magnolia) dated as of June 1, 1980. This Assignment served to release MP&L from its obligations under MP&L's Agreements for Purchase of Power at each separate Magnolia delivery point and assigned those certain Agreements for Purchase of Power to South Mississippi Electric Power Association (SMEPA). With this transfer of power supply responsibility from MP&L to SMEPA, MP&L commenced providing SMEPA with transmission service under MP&L Rate Schedule FERC No. 251 with supplements as accepted for filing by the Commission in Docket No. ER79-259 (now terminated).

Consistent with the rearrangement of rights and obligations agreed to in the Assignment, MP&L proposes that its Agreements for Purchase of Power (designated as MP&L Rate Schedules, FERC Nos. 244, 213, 185, 250, 227, 188, 186, 182, and 224) be cancelled as of June 1, 1980. Under Section 9 of each Assignment, MP&L retained a contingent right to demand reassignment of the related assignments for Purchase of Power if SMEPA and Middle South Energy, Inc. (MSE) had not held a closing on the proposed acquisition by SMEPA of an ownership interest in the Grand Gulf Nuclear Station by June 1, 1981 pursuant to the Joint Construction, Acquisition, and Ownership Agreement between MSE and SMEPA, dated as of May 1, 1980. On October 30, 1980, however, the contemplated closing was held. Therefore, the rearrangements made by the June 1, 1980 Assignments are no longer subject to change. MP&L delayed the tender of this filing until this representation could be made. Accordingly, MP&L, with the concurrance of SMEPA and Magnolia, requests waiver of the Commission's notice requirements to permit an effective cancellation date of June 1, 1980.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before March 27, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

BILLING CODE 6450-85-M

[Docket No. ER81-302-000]

Mississippi Power & Light Co.; Filing

March 6, 1981.

The filing Company submits the following:

Take notice that on February 26, 1981, Mississippi Power & Light Company (MP&L) tendered for filing an Assignment and Operating Agreement and an Amendment to this Agreement between it and Yazoo Valley Electric Power Association dated as of June 1, 1980. This Assignment served to release MP&L from its obligations under MP&L's Agreements for Purchase of Power at Yazoo Valley Electric Power Association delivery points of Midway, Redwood and Little Yazoo and assigned those certain Agreements for Purchase of Power to South Mississippi Electric Power Association (SMEPA). With this transfer of power supply responsibility from MP&L to SMEPA, MP&L commenced providing SMEPA with transmission service under MP&L Rate Schedule FERC No. 251 with supplements as accepted for filing by the Commission in Docket No. ER79-259 (now terminated).

Consistent with the rearrangement of rights and obligations agreed to in the Assignment, MP&L proposes that its Agreements for Purchase of Power (designated as MP&L Rate Schedules, FERC Nos. 237, 211, and 205) be cancelled as of June 1, 1980. Under Section 9 of each Assignment, MP&L retained a contingent right to demand reassignment of the related assignments for Purchase of Power if SMEPA and Middle South Energy, Inc. (MSE) had not held a closing on the proposed acquisition by SMEPA of an ownership interest in the Grand Gulf Nuclear Station by June 1, 1981 pursuant to the Joint Construction, Acquisition, and Ownership Agreement between MSE and SMEPA, dated as of May 1, 1980. On October 31, 1980, however, the contemplated closing was held. Therefore, the rearrangements made by the June 1, 1980 Assignments are no longer subject to change. MP&L delayed the tender of this filing until this representation could be made. Accordingly, MP&L, with the concurrence of SMEPA and Yazoo Valley Electric Power Association, requests waiver of the Commission's

notice requirements to permit an effective cancellation date of June 1, 1980.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before March 27, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

March 6, 1981.

The filing Company submits the following:

Take notice that Ohio Edison Company, on February 27, 1981, tendered for filing an application to effect the operation of the tax adjustment clause contained in its FERC Electric Schedules Nos. 123 through 142 and in its FERC Electric Tariff Original Volume No. 1.

The application would have the tax adjustment provisions effected to recover additional gross receipts taxes imposed by the State of Ohio on December 19, 1980. The exact amount of the tax increase is unknown at this time, but is estimated to be $353,000. Ohio Edison proposes to begin recovering the additional taxes effective May 1, 1981 by a percentage added to customers monthly invoices. Ohio Edison states that the effect of the application would be a one percent (1%) increase in the amount collected for the year ended April 30, 1981. There would be no change in return to Ohio Edison as such dollars collected will be paid out to the State of Ohio.

Copies of the Application were served upon The Public Utilities Commission of Ohio and the Municipal Wholesale Customers of Ohio Edison.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before March 27, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Docket No. ER81-308-000]

Pacific Gas and Electric Co.; Filing

March 6, 1981.

The filing Company submits the following:

Take notice that on February 27, 1981 Pacific Gas and Electric Company (PGandE) tendered for filing a contract dated November 10, 1980 entitled "Agreement for Sale of Electric Capacity and Energy by Pacific Gas and Electric Company to City of Biggs" (Agreement). The agreement provides for supplemental power deliveries from PGandE to City of Biggs (Biggs) in the event that Biggs' current supplier, United States of America, Department of Energy (Department), is unable to satisfy Biggs full electric power requirements.

Copies of the filing were served upon Biggs, Department, and the California Public Utilities Commission.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before March 27, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-7784 Filed 3-11-81; 8:45 am]

BILLING CODE 6450-85-M

[Docket No. TA81-2-39-000]

Pacific Interstate Transmission Co.; Proposed Changes in FERC Gas Tariff Pursuant to Purchased Gas Cost Adjustment Provision and Incremental Pricing Provision

March 6, 1981.

Take notice that Pacific Interstate Transmission Company (Pacific Interstate) on February 27, 1981 tendered for filing as part of its FERC Gas Tariff, Original Volume No. 2, the following sheets:

Seventeenth Revised Sheet No. 4
Second Revised Sheet No. 4–A
Fourteenth Revised Sheet No. 5

Pacific Interstate states that these tariff sheets are issued pursuant to the Purchased Gas Cost Adjustment (PGCA) Provision and Incremental Pricing Provision as set forth in Sections 16 and 17, respectively, of the General Terms and Conditions of its FERC Gas Tariff, Original Volume No. 2. The proposed effective date of these tendered tariff sheets and the rates reflected thereon is April 1, 1981.

Pacific Interstate further states that the tendered tariff sheets reflect a proposed S–G–1 commodity rate of 189.89¢ per decatherm, an increase of 20.01¢ from the 169.88¢ per decatherm rate effective October 1, 1980, the date of the last S–G–1 commodity rate change and that such increase reflects a Current Gas Cost Adjustment and a change in the Surcharge Adjustment.

Pacific Interstate states that the Current Gas Cost Adjustment is based on an annualized gas cost increase of $96,490 and that the Surcharge Adjustment is designed to amortize, over a six-month period beginning April 1, 1981, an amount of ($119,481), which is the amount of Pacific Interstate's Unrecovered Purchased Gas Cost account at December 31, 1980. Furthermore, Pacific Interstate states that there is no incremental pricing surcharge adjustment applicable to this filing, since there only customer has no surcharge absorption capability.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before Mar. 20, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Docket No. ER81-307-000]

Public Service Co. of Colorado; Proposed Tariff Change

March 6, 1981.

The filing Company submits the following:

Take notice that Public Service Company of Colorado (PSCo) on February 27, 1981, tendered for filing a proposed change in its FERC Electric Service Tariff. PSCo states that the proposed change is a Supplement to an Agreement between Colorado-Ute Electric Association, Inc., (Colorado-Ute), and PSCo. PSCo further states that the Supplement modifies the PSCo-Colorado-Ute Transmission Interconnection and License Agreement (Agreement) on file with the Commission under Company's FERC Rate Schedule No. 12 as Supplement No. 10 to said Rate Schedule.

PSCo indicates that the Supplement changes the in-service date for rebuilding the Boone-Midway 115 KV line for 230 KV operation to a date no later than December 31, 1981, and further defines cost responsibility, methods of payment, ownership, and maintenance of the associated 230 KV terminal facilities.

PSCo states that copies of the filing were served upon all parties to the Agreement and affected state commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Section 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such protest or petitions should be filed on or before March 27, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Docket No. CP79-397-002]

Southern Natural Gas Co.; Petition to Amend

March 6, 1981.

Take notice that on February 17, 1981, Southern Natural Gas Company (Applicant), P.O. Box 2563, Birmingham, Alabama 35202, filed in Docket No. CP 79–397–002 a petition to amend the order issued November 9, 1979, in the instant docket pursuant to Section 7(c) of the Natural Gas Act so as to authorize an additional delivery point for the transporation of natural gas for the account of United Gas Pipe Line Company (United), all as more fully set forth in the petition to amend which is on file with the Commission and open to public inspection.

Petitioner states that by order issued November 9, 1979, it was authorized to transport for United Approximately 90 billion Btu of natural gas per day which United purchases from Blocks 72, 73, and 74 (Block 72 field), offshore, Louisiana, pursuant to a transportation agreement between the parties dated May 9, 1979. Petitioner proposes herein to include as an additional delivery point the point of interconnection between Petitioner's and United's pipeline facilities at or near milepost 12.601 on Petitioner's 18-inch South Main Pass 60 Line in Main Pass Block 148, offshore Louisiana, pursuant to a letter agreement dated November 3, 1980.

It is asserted that United has entered into a contract with Exxon, U.S.A. for a new gas supply in Main Pass Block 72. It is further asserted that United has constructed pursuant to its budget authorization a pipeline extending from the producer's platform in Main Pass Block 72 to Petitioner's existing facilities in Main Pass Block 148. Petitioner states that it would redeliver the gas to United at its Shadyside compressor station, St. Mary Parish, Louisiana.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before March 30, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act 918 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make te protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-7787 Filed 3-11-81; 8:45 am]

BILLING CODE 6450-85-M

[Docket No. TA81-2-17-000]

Texas Eastern Transmission Corp.; Proposed Changes in FERC Gas Tariff

March 6, 1981.

Take notice that Texas Eastern Transmission Corporation (Texas Eastern) on February 27, 1981, tendered for filing as a part of its FERC Gas Tariff, Fourth Revised Volume No. 1, the following tariff sheets:

Fifty-eighth Revised Sheet No. 14
Fifty-eighth Revised Sheet No. 14A
Fifty-eighth Revised Sheet No. 14B
Fifty-eighth Revised Sheet No. 14C
Fifty-eighth Revised Sheet No. 14D

Texas Eastern is reducing its rates pursuant to Article VI, Rate Reductions for Repayments of Advance Payments, of the Stipulation and Agreement in Docket No. RP78-67, as approved by Commission Order issued April 4, 1980. According to the terms and conditions of Article VI of the Stipulation and Agreement Texas Eastern is required to file any rate reduction pursuant to this article by the end of the month following the month during which repayments, requiring a rate reduction, are received. This filing is based on the balance of advance payments outstanding as of January 31, 1981.

The proposed effective date of the above tariff sheets is April 1, 1981.

Copies of the filing were served on Texas Eastern's jurisdictional customers and interested state commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before March 20, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Docket No. ER81-296-000]

Tucson Electric Co; Cancellation

March 6, 1981.

The filing Company submits the following:

Take notice that on February 23, 1981, Tucson Electric Power Company (Tucson) tendered for filing a Notice of Cancellation of Supplement No. 3 to Rate Schedule FERC No. 15, which became effective on May 1, 1978.

Tucson states that the aforementioned Rate Schedule is identified as Amendment No. 2 to the PNM-TGE 1978?-1979 Power Sale Agreement between Public Service Company of New Mexico and Tucson. Tucson requests and effective dare of April 30, 1981.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8 and 1.10). All such petitions or protests should be filed on or before March 27, 1981. Protests will be considered by the Commission in determing the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

Office of Energy Research

DOE/NSF Nuclear Science Advisory Committee; Open Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (Public Law 92-463, 86 Stat. 770), notice is hereby given of the following meeting:

Name: DOE/NSF Nuclear Science Advisory Committee

Date and time: Monday, March 30, 1981—9:00 a.m.–5:00 p.m.; Tuesday, March 31, 1981—9:00 a.m.–5:00 p.m.

Place: Department of Energy, Forrestal Building, Room 4A104, 1000 Independence Avenue, S.W., Washington, D.C. 20585

Contact: Enloe Ritter, ER-23, Division of Nuclear Physics, M.S. G-256, GTN, U.S. Department of Energy, Washington, D.C. 20545. Telephone: 301-353-3613

Purpose of committee: To provide advice to the Department of Energy and the National Science Foundation on the management of and long range planning for basic nuclear research programs.

Tentative Agenda

- Discussion of NSF and DOE budget situations for FY 1982
- Final review and discussion of FY 1983 facility proposals and formulation of recommendations
- Discussion of procedures for updating Long Range Plan for Nuclear Science
- Discussion of charge to Subcommittee on Electromagnetic Interactions
- Reports from Subcommittees on Heavy Ion Facilities, Manpower, Universities, and Computational Needs of Nuclear Theorists
- Public Comment (10 minute rule)

Public participation: The meeting is open to the public. The Chairperson of the Committee is empowered to conduct the meeting in a fashion that will, in this judgment, facilitate the orderly conduct of business. Any member of the public who wishes to file a written statement with the Committee will be permitted to do so, either before or after the meeting. Members of the public who wish to make oral statements pertaining to agenda items should contact the Advisory Committee Management Office at 202-252-5187. Requests must be received at least 5 days prior to the meeting and reasonable provision will be made to include the presentation on the agenda.

Transcripts: Available for public review and copying at the Public Reading Room, Room 1E190, Forrestal Building, 1000 Independence Avenue, S.W., Washington, D.C., between 8:00 a.m. and 4:30 p.m.,

Monday through Friday, except Federal holidays.

Executive summary: Available approximately 30 days following the meeting from the Advisory Committee Management Office.

Issued at Washington, D.C. on March 5, 1981.

Georgia Hildreth,

Deputy Advisory Committee Management Officer.

[FR Doc. 81-7739 Filed 3-11-81; 8:45 am]

BILLING CODE 6450-01-M

Office of Hearings and Appeals

Issuance of Decisions and Orders; Week of February 2 Through February 6, 1981

During the week of February 2 through February 6, 1981, the decisions and orders summarized below were issued with respect to appeals and applications for exception or other relief filed with the Office of Hearings and Appeals of the Department of Energy. The following summary also contains a list of submissions that were dismissed by the Office of Hearings and Appeals.

Appeals

Bracewell & Patterson, Washington, D.C.; BFA-0569, freedom of information

Bracewell & Patterson filed and Appeal from a denial by the Assistant General Counsel for Legal Counsel of the Department of Energy of A Request for Information which the firm had submitted under the Freedom of Information Act. In considering the Appeal, the DOE found that the withheld document was predecisional and recommendatory in character and was therefore exempt from mamdatory disclosure under Exemption 5. The DOE further found that disclosure of the document would be contrary to the public interest. The Appeal was accordingly denied.

Elk Trading Company, Mobile, Alabama; BFA-0535, freedom of information

Elk Trading Company filed an Appeal from partial denials by the ERA's Office of Enforcement (OE) of the Economic Regulatory Administration and the Special Investigation Division of the Office of General Cousel (OGC/SID) of a request for information which the firm had submitted under the Freedom of Information Act. In considering the Appeal, the DOE found that the request should be remanded in order that (i) the OE and the Division of Petroleum Price Regulations of the Office of Regulations and Emergency Planning conduct a search for responsive documents, (ii) OGC/SID process certain parts of Elk's request which had not been processed initially, and (iii) OGC/SID provide Elk with a detailed index with respect to certain categories of withheld documents or provide and explanation of how providing Elk with such and index would interfere with a pending enforcement proceeding.

National Treasury Employees Union, Washington, D.C., BFA-0571, freedom of information

The National Treasury Employees Union (NTEU) filed and Appeal from a partial denial by the DOE Inspector General of a request for information which the firm had submitted under the Freedom of Information Act. In considering the Appeal, the DOE found that the request should be remanded to the Inspector General in order that he (i) conduct a futher search for responsive documents and (ii) either release to the NTEU a copy of the report contained in Case File 8-1 with only the names of person interviewed deleted or issue a determination to the NTEU explaining why other names were deleted.

Pray, Walker, Jackman, Williamson & Marlar, Tulsa, Oklahoma; BFA-0586, freedom of information

Pray, Walker, Jackman, Williamson & Marlar filed an Appeal from a partial denial by the Director of the Division of Petroleum Allocation Regulations of the Office of Regulatory Policy of a request for information which the firm had submitted under the Freedom of Information Act. In considering the Appeal, the DOE found that several offices within the DOE had incorrectly determined that the firm's request was not one for reasonably described documents and that these offices would be required to conduct searches for documents responsive to the firm's request.

Alan Ramo, Berkeley, California; BFA-0567, freedom of information

Alan Ramo (Ramo) filed an Appeal from a determination issued to him by the Director, Office of Safeguards and Security, Defense Program (Security Director) of the DOE in response to a Request for Information which Ramo had submitted under the Freedom of Information Act (the FOIA). In that determination, the Security Director released to Ramo twelve documents responsive to an amended request filed by Ramo on August 27, 1980. In his Appeal, Ramo alleged that the search performed pursuant to his request was inadequate, that unjustified deletions were made in two of the documents which were released to him, and that four documents referred to in materials previously released to him should also have been released. In considering the Appeal, the DOE found that the search performed by the DOE was adequate. However, in consultation with the Office of Safeguards and Security, it was determined that there was no agency objection to disclosing undeleted versions of the two documents specified in Ramo's Appeal, nor was there any apparent reason to withhold the four documents which had been referred to in the materials already released to Ramo. Accordingly, it was determined that the two documents specified by Ramo as containing deletions would be disclosed in undeleted form as an Appendix to the Decision and Order. It was further determined that the four documents referred to in previously released materials would also be released to Ramo by the Security Director, or a reasoned legal justification would be furnished for their non-disclosure.

Louis T. Rosenberg, San Antonio, Texas; BFA-0568, freedom of information

Louis T. Rosenberg appealed from a denial by the Director of DOE's Division of Freedom of Information and Privacy Acts Activities of a request for a waiver of fees submitted in connection with a Freedom of Information Act request. In considering the Appeal, the DOE found that a waiver of fees was not appropriate in this case. The DOE determined that there was no indication that the public at large would benefit from the release of the information sought or that Mr. Rosenberg's client does not plan to exploit the commercial potential of information contained in documents requested. The Appeal was therefore denied.

Sydney Morning Herald Limited, Washington, D.C.; BFA-0580, freedom of information

The Sydney Morning Herald Limited filed an Appeal from a denial by the Acting Chief Historian of the Department of Energy of a request for information which the firm had submitted under the Freedom of Information Act. In considering the Appeal, the DOE found that the Acting Chief Historian's determination that the DOE did not have any documents concerning Australian research and development on nuclear weapons was based on an adequate search. Accordingly, the appeal was denied.

Request for Exception

Dr. Hooper Oil & Royalty Company, Montgomery County, Texas; BXE-1514, crude oil

Dr. Hooper Oil & Royalty Company (Dr. Hooper) filed an Application for Exception from the provisions of 10 C.F.R. Part 212, Subpart D. Exception relief was granted to permit Dr. Hooper to sell at market prices 39.46 percent, and at upper tier prices 60.54 percent of the crude oil produced at the W.P. McComb Lease.

Hogan's Marathon, Louisville, Kentucky, BEE-1438; East 60 Marathon, Henderson, Kentucky, BEE-1454; Dave's Marathon (Lansing), Lansing, Michigan, BEE-1458; Leon's Marathon, Dayton, Ohio, BEE-1462; Dry Ridge Marathon, Dry Ridge, Kentucky, BEE-1471; Motor Gasoline

Marathon Oil Company filed Applications for Exception from the provisions of 10 C.F.R. Part 211 on behalf of Hogan's Marathon, East 60 Marathon, Dave's Marathon (Lansing), Leon's Marathon and Dry Ridge Marathon. If the exception requests were granted, the applicants, branded independent retailers of gasoline, would receive increases in their base period allocations of gasoline. In considering the requests, the DOE found that the applicants were small, independent marketers that would incur a gross inequity and serious hardship, and might well have to close their businesses, in the absence of exception relief. Accordingly, exception relief was granted.

Pennzoil Producing Company, Houston, Texas; BXE-1527; crude oil

Pennzoil Producing Company filed an Application for Exception from the Provisions of 10 C.F.R. Part 212, Subpart D. Exception relief was granted to permit Pennzoil Producing Company to continue to sell at

market prices 100 percent of the crude oil produced from the Woodruff Sand Waterflood Unit located in Yazoo County, Mississippi through January 27, 1981.

Pennzoil Producing Company, Houston, Texas; EXE–1526, crude oil

Pennzoil Producing Company filed an Application for Exception from the provisions of 10 C.F.R. Part 212, Subpart D. Exception relief was granted to permit Pennzoil to sell at upper tier prices 100 percent of the crude oil produced from the McGraw-Stevens Waterflood Unit located in the Tinsley Field in Mississippi.

Philip Sloan Oil Company, North Miami Beach, Florida, DEE–6280; Exxon Company, U.S.A., Washington, D.C. BEA–0138; Marathon Oil Company, Washington, D.C., BEA–0139, motor gasoline

Philip Sloan Oil Company filed an Application for Exception from the provisions of 10 C.F.R. Part 211 in which the firm requested that the DOE assign an alternate supplier(s) to provide it with additional volumes of motor gasoline. In considering the firm's request, the DOE found that Philip Sloan Oil Company had demonstrated that it was suffering a serious hardship and a gross inequity as a result of its base period supplier's inability to supply it with adequated volumes of motor gasoline. The DOE further found that Exxon Company, U.S.A. and Marathon Oil Company had not demonstrated (i) that they would be adversely affected to a significant degree if the proposed adversely affected to a significant degree if the proposed exception relief was made final, or (ii) that assignment orders issued to them were procedurally or substantively deficient. Accordingly, exception relief was granted.

T & H Automotive Enterprises, Inc., Indianapolis, Indiana, BEE–1468; Grogan's Marathon Service, Speedway, Indiana, BEE–1428, motor gasoline

Marathon Oil Company filed Applications for Exception from the provisions of 10 CFR Part 211 on behalf of T & H Automotive Enterprises, Inc. and Grogan's Marathon Service in which the firm sought increases in the stations' base period allocations of motor gasoline. In considering the request, the DOE found that the applicants would be unable to realize the benefits of substantial capital investments made in their facilities and, as a result, would incur a gross inequity and serious hardship in the absence of exception relief. Accordingly, exception relief was granted.

Young Refining Corporation, Washington, D.C.; BXE–0005, BED–0090, crude oil

Young Refining Corporation requested entitlement exception relief for the period October 1979 through March 1980. In considering the Young request under the *Delta* exception relief standards, the DOE concluded that Young would require a total of $6,193,037 in entitlements exception relief in order to achieve its historical profit margin. Accordingly, Young was granted $745,368 per month in relief from its entitlement obligations from October 1979 through March 1980.

Request for Stay

Thriftway Company, Bloomfield, New Mexico, BES–0129, crude oil

Thriftway Company filed an Application for Stay from the requirement that it meet its outstanding entitlement purchase obligation which the firm incurred during March 1980. In considering the Application, the DOE determined that a partial stay of the purchase obligation was warranted in view of Thriftway's cash flow difficulties. Accordingly, the stay request was granted in part.

Motion for Evidentiary Hearing

Energy Reserves, Group, Inc., Houston, Texas; BRH–0020, crude oil

Energy Reserves Group, Inc. filed a Motion for Evidentiary Hearing which, if granted, would have permitted the firm to present testimonial evidence from two of its employees concerning the levels of production from a number of wells on a crude oil producing property. The DOE denied the Motion, finding that the undocumented proffered testimony of the two employees was so completely unsubstantiated that the presentation of such evidence to controvert documentary evidence prepared contemporaneously with the production of crude oil would not "substantially assist" the DOE in determining whether to issue in final firm a Proposed Remedial Order which cited the form for crude oil pricing violations. However, the firm was granted twenty calendar days within which to submit into the record additional relevant documentary evidence.

Interim Order

Navajo Refining Company, Artesia, New Mexico; BEN–0082, BEN–0083, BEN–0084, crude oil

Navajo Refining Company filed a Request for Interim Relief in connection with three Proposed Decisions and Orders issued to the firm on December 12, 1980 (Case Nos. BEX–0131, BEX–0014, and DEX–0122). In considering the request, the DOE noted that there is a strong probability that the exception relief granted to the firm in the three Proposed Decisions will ultimately be approved. The DOE further determined that the expeditious implementation of the relief is appropriate in view of the impending termination of the Entitlements Program. Accordingly, the exception relief granted in the December 12 Proposed Decisions was implemented on an interim basis.

Interlocutory Order

Office of Special Counsel, Washington, D.C., BRZ–0080, crude oil

The DOE Office of Special Counsel filed a motion to compel Atlantic Richfield Company (ARCO) to file a Statement of Factual Objections to a Proposed Remedial Order which was issued to the firm on May 1, 1979 (Case No. DRO–0193). In considering the motion, the DOE determined that ARCO possesses sufficient information to file a comprehensive Statement of Factual Objections. Accordingly, the OSC's motion was granted, and ARCO was ordered to file a Statement of Factual Objections by May 1, 1981.

Dismissals

The following submissions were dismissed without prejudice to refiling at a later date:

Copies of the full text of these decisions and orders are available in the Public Docket Room of the Office of Hearings and Appeals, Room B–120, 2000 M Street, N.W., Washington, D.C. 20461, Monday through Friday, between the hours of 1:00 p.m. and 5:00 p.m., except Federal holidays. They are also available in *Energy Management: Federal Energy Guidelines*, a commercially published loose leaf reporter system.

Dated: March 6, 1981.

George B. Breznay,
Director, Office of Hearings and Appeals.

[FR Doc. 81–7758 Filed 3–11–81; 8:45 am]
BILLING CODE 6450–01–M

Issuance of Decisions and Orders; Week of December 8 Through December 12, 1980

During the week of December 8 through December 12, 1980, the decisions and orders summarized below were issued with respect to appeals and applications for exception or other relief filed with the Office of Hearings and Appeals of the Department of Energy. The following summary also contains a list of submissions that were dismissed by the Office of Hearings and Appeals.

Appeals

Arent, Fox, Kintner, Plotkin & Kahn, Washington, D.C., Freedom of Information, BFA–0508

Arent, Fox, Kintner, Plotkin & Kahn filed an Appeal from a partial denial by the Freedom of Information Officer of the Strategic Petroleum Reserve Management Project Office of a request for information which the firm had submitted under the Freedom of Information Act. In considering the Appeal, the DOE found that certain of the requested documents containing commercial information relating to a pending dispute between a DOE contractor and its former subcontractor were properly withheld from the public at this time. Additionally, the DOE determined that certain of the documents initially withheld from the requester under Exemption 5 should be released because they did not contain either confidential commercial information or material reflecting the deliberative process.

Blum & Nash, Washington, D.C., Freedom of Information, BFA–0521

Blum & Nash filed an Appeal from a denial by the Acting Assistant Administrator for Enforcement of the Economic Regulatory Administration of a request for information which the firm had submitted under the Freedom of Information Act. In considering the Appeal, the DOE found that the sole document which was initially withheld under Exemption 5 was not responsive to the request and, therefore, it was unnecessary to determine whether it was releasable. In addition, the DOE found that the request should be remanded for a determination concerning further responsive documents.

Duncan, Allen & Mitchell, Washington, D.C., Freedom of Information, BFA–0520

Duncan, Allen & Mitchell filed an Appeal from a denial by the General Counsel of Request for information which the firm had submitted under the Freedom of Information Act. In considering the Appeal, the DOE found that one of the documents which was initially withheld under Exemption 5 should be released to the public. The DOE also found that the remaining documents were properly found to fall within Exemption 5 and that in view of pending litigation, it would not be in the public interest to release them.

Fulbright & Jaworski, Washington, D.C., Freedom of Information, BFA–0518

Fulbright & Jaworski filed an Appeal from a partial denial by the Disclosure Officer for the Office of Special Counsel of a request for information which the firm had submitted under the Freedom of Information Act. In considering the Appeal, the DOE found that certain of the documents that were withheld under Exemption 5 of the FOIA should be released to the public. Important issues that were considered in the Decision and Order were (i) the adequacy of the search for responsive documents, (ii) the adequacy of the document description and (iii) the applicability of Exemptions 4 and 5 to the documents withheld.

Lucky Four Ltd. #2, Dexter, Missouri, BEA–0243, motor gasoline

Lucky Four Ltd. #2 filed an Appeal from a denial of its request for assignment issued by the Region VII Office of Petroleum Operations, ERA, on January 18, 1980. In considering the Appeal, the DOE found that ERA misinterpreted Section 205.35(b) of the DOE regulations with regard to the evaluation of Applications for Assignment of Supplier and Base Period use for new gasoline retail outlets. The DOE therefore concluded that the January 18 Order should be rescinded and that ERA Region VII should be directed to assign Lucky Four Ltd. #2 a supplier and base period volume of motor gasoline. An important issue discussed in the Decision and Order is whether the ERA can deny assignments to new independent outlets on the basis of competitive harm to existing independent markers.

Miller & Chevalier, Washington, D.C., Freedom of Information, BFA–0516

The law firm of Miller & Chevalier filed an Appeal from a denial by the Office of Special Counsel for Compliance (OSC) of the Department of Energy of a request for information which the firm had submitted under the Freedom of Information Act. In considering the Appeal, the DOE found that the Disclosure Office of the OSC had conducted an adequate search in response to the request. The DOE further determined that it was not necessary to require the Disclosure Officer to submit affidavits concerning the scope of the search.

Smith's Petroleum Marketing Company, Inc., West Plains, Missouri, BEA–0397, motor gasoline

Smith's Petroleum Marketing Company, Inc. filed an Appeal of a March 21, 1980 Decision and Order issued by the Economic Regulatory Administration's Region VII

Office of Petroleum Operations (OPO). That Decision and Order concluded that Getty Refining and Marketing Company should supply directly the Ava, Missouri bulk plant owned by Orval Davis Tire Company with the plant's annual base period allocation of motor gasoline, rather than supplying it through Smith's Petroleum. Both Smith's and Davis claimed to have acquired the ongoing business and allocation entitlement of a former Getty jobber in Ava.

The DOE found that the OPO decision was neither procedurally deficient nor in excess of the authority of that Office. The DOE also concluded that the OPO had correctly determined that the Orval Davis Tire Company was the successor to the Ava wholesale business pursuant to 10 C.F.R. § 211.11(d). Accordingly, the DOE denied the Appeal filed by Smith's Petroleum Marketing Company.

Texaco, Inc., White Plains, New York, DEA–0607, crude oil

Texaco, Inc. filed an Appeal from a Decision and Order issued by the Economic Regulatory Administration to Golden Eagle Refining Company, Inc. In its decision the ERA granted Golden Eagle an emergency allocation of crude oil under the provisions of the Buy-Sell Program, 10 C.F.R. § 211.65(c)(2). In its Appeal, Texaco argued that it was precluded from making meaningful comments on Golden Eagle's application for an emergency allocation of crude oil because material had been deleted from the copy served on Texaco. In considering Texaco's Appeal, the DOE found that where applicable regulations do not provide for notice, there is nevertheless an implied obligation to provide potentially aggrieved parties with notice of a proceeding in some fashion. However, the DOE also found that this determination did not mean that all potentially aggrieved parties must be served with an applicant's entire written submission prior to DOE action. Texaco's Appeal was therefore denied.

Vickers Petroleum Corporation, Wichita, Kansas, DEA–0522 through DEA–0526, DES–0522 through DES–0526, motor gasoline

Vickers Petroleum Corporation appealed five redirection orders that had been issued to the firm by the Office of Fuels Regulation pursuant to 10 C.F.R. § 211.107(c). Vickers also requested that the orders be stayed. In considering the appeals, the Department of Energy determined that the orders at issue did not include the findings required by *Exxon Co., U.S.A.*, 4 DOE ¶ 80,193 (1979). The appeals were therefore granted and the applications for stay dismissed as moot.

Johnson Oil Company, Salt Lake City, Utah, Freedom of Information, BFA–0519

Johnson Oil Company filed an Appeal from a partial denial by the Deputy General Counsel for Enforcement and Litigation of a request for information which the firm had submitted under the Freedom of Information Act. In considering the Appeal, the DOE found that the Deputy General Counsel correctly determied that memoranda consisting of opinions and recommendations concerning the processing of an investigation and a draft of a Remedial Order for Immediate Compliance were exempt from disclosure pursuant to Exemption 5 and that their disclosure would be contrary to the public interest.

Remedial Orders

Jones & Pellow Oil Co., Oklahoma City, Oklahoma, DRO–0074, crude oil

The Jones & Pellow Oil Co. objected to a Proposed Remedial Order which the Department of Energy Region VI Office of Enforcement issued to the firm on January 18, 1979. In the Proposed Remedial Order, the Region VI Office of Enforcement found that during the September 1, 1973 through September 30, 1975 audit period, Jones & Pellow erroneously sold crude oil at prices which were in excess of the applicable ceiling prices. In considering the firm's objections, the DOE found that Jones & Pellow had improperly grouped three wells as single property for purposes of the DOE price regulations and that the firm therefore overcharged the purchaser of crude oil from one of these wells by $35,006.07. The DOE therefore concluded that the Proposed Remedial Order should be issued as a final Order.

Kenneth H. White d.b.a. Kenneth H. White Company, Kenneth H. White Company Inc., Birmingham, Michigan, DRO–0341, petroleum products

Kenneth H. White d.b.a. Kenneth H. White Company (White, the sole proprietorship) and Kenneth H. White Company, Inc. (White, Inc., the corporation) objected to a Proposed Remedial Order which was issued by the Central Enforcement District of the ERA Office of Enforcement on July 30, 1979. In the Proposed Remedial Order, the ERA determined that during the period November 1, 1973 through December 31, 1974 White had sold No. 2 fuel oil and residual fuel oil to its customers at prices which exceeded the firm's maximum lawful selling prices. In considering the objections of White, Inc. and White, the DOE determined that the corporation was a continuation of the sole proprietorship and could therefore be held liable for its predecessor's overcharges. The DOE dismissed White from the enforcement proceeding, finding that the sole proprietorship had not received adequate legal representation. In addition, the DOE found that the ERA had properly determined White's classes of purchaser and had correctly computed White's maximum lawful selling prices, based on the records available to the agency's auditors. However, the DOE also determined that the Proposed Remedial Order contained several minor errors relating to White's sales to specific firms. Accordingly, the Statements of Objections to the Proposed Remedial Order were granted in part, and the modified Proposed Remedial Order was issued as a final Order of the DOE.

United Petroleum, Inc., Tampa, Florida, DRO–0035, motor gasoline, diesel fuel

United Petroleum, Inc. (United) objected to a Proposed Remedial Order which the Region IV Office of the Economic Regulatory Administration (ERA) issued to the firm on March 30, 1978. In the Proposed Remedial Order, ERA found that United had charged prices to certain customers of motor gasoline and diesel fuel that exceeded the firm's maximum legal selling prices for those products as set forth in 10 CFR Part 212. In considering the firm's objections, the DOE found that during the period November 1, 1973 through March 31, 1974, the firm did not compute its prices in accordance with the provisions of 10 C.F.R. § 212.93, and consequently overcharged its customers of motor gasoline and diesel fuel by $150,222.12. The DOE therefore concluded that the Proposed Remedial Order should be issued as a final Order. Important issues discussed in the Decision and Order include (i) applicability of the regulations, and (ii) the use of "netting" in determining the overcharges.

W. B. Osborn, San Antonio, Texas, DRO–0107, crude oil

W. B. Osborn objected to a Proposed Remedial Order which the Department of Energy Region VI Office of Enforcement issued to the firm on August 15, 1978. In the Proposed Remedial Order, the Region VI Office of Enforcement found that during the audit period Osborn sold crude oil produced from a number of properties at prices which exceeded the applicable ceiling price levels. In considering the firm's objections, the DOE found that Osborn had improperly treated a portion of its production as stripper well oil and had also improperly computed the "posted price" for crude oil produced from several properties. The DOE therefore concluded that the Proposed Remedial Order should be issued as a final Order. The important issues discussed in the Decision and Order include whether an alleged offer by the Inexco Oil Company to purchase crude oil in the Wyoming fields constituted a "posted price."

Petition for Special Redress

Falcon Oil Company; Malco Petroleum Corporation; Malco Industries, Inc., Cleveland, Ohio, BSG–0032, motor gasoline

Falcon Oil Company, Malco Petroleum Corporation, and Malco Industries, Inc. filed a Petition for Special Redress with the DOE Office of Hearings and Appeals. The firms stated that they were being audited for the third time by the DOE Office of Enforcement and asked that the Office of Enforcement be enjoined from reauditing their prices and classes of purchaser during the base period. In considering the petitioners' request, the DOE determined that it was proper for the Office of Enforcement to reexamine the firms' base period data during the course of the new audit. The Petition for Special Redress was therefore denied.

Requests for Exception

Barnacle II, DEE–7112; Earman Oil Co., Inc., BEE–0642; E. L. Yeager Construction Co., Inc., DEE–5939; King and King Enterprises, Inc., DEE–2240; McCulloch Corporation, BEE–0429; Menard & Holmberg, DEE–8155; Mike Monahan, d.b.a. Dixie Automotive Service, DEE–

4380; Modern Oil Co., Inc., DEE-6295; Mousa's Gulf Service Center, DEE-7304; National Car Rental, DEE-6576; Ronald O. Stecht, DEE-6068, motor gasoline

On December 10, 1980, the Office of Hearings and Appeals of the Department of Energy issued an Order to Barnacle II *et al.* which finalized all the Proposed Decisions and Orders listed in Appendix A of that Order. The proposed decisions pertained to requests for increased allocations of motor gasoline or the assignment of new suppliers to furnish base period allocations of motor gasoline.

Bell's Service, Rialto, CA, DEE-5293, motor gasoline

Bell's Service filed an Application for Exception from the provisions of 10 C.F.R. Part 211 in which the firm sought an increased base period allocation of motor gasoline. In considering the request, the DOE found that exception relief was necessary to enable the firm to realize the intended benefits of an alteration it had made in its ongoing business practices. Accordingly, exception relief was granted.

Bennett's Amoco, West Palm Beach, Florida, BEO-0294, motor gasoline

Bennett's Amoco filed an Application for Exception from the provisions of 10 C.F.R. Part 211, Subpart F in which the firm sought an increase in its base period allocation of motor gasoline. In considering the request, the DOE found that the firm had failed to demonstrate that it was experiencing a serious hardship or a gross inequity as a result of the DOE Allocation Regulations. Accordingly, exception relief was denied.

Brock Exploration Corp., Washington, D.C., BEE-1351, BEL-1351, crude oil

Brock Exploration Corporation filed an Application for Exception from the provisions of 10 C.F.R. Part 212, Subpart D. The exception request, if granted, would permit the firm to classify the crude oil that it produces from a unitized property that it operates as "imputed newly discovered crude oil." In addition, Brock requested retroactive exception relief in this matter. A Decision and Order was issued to the firm that determined that prospective exception relief should be granted to the unitized property.

Cornell Oil Company, Washington, D.C., BEE-1151, crude oil

Cornell Oil Company filed an Application for Exception from the provisions of 10 C.F.R. Part 212, Subpart D. The exception request, if granted, would permit the firm to utilize the provisions of 10 C.F.R. § 212.78 in calculating the base production control level for a unitized property that it operates. On July 15, 1980, the DOE regulations were amended in a manner favorable to the position advanced by Cornell. As a result, exception relief was no longer necessary and the petition was dismissed.

GOLD OIL COMPANY, BELLEVILLE, ILLINOIS, DEE-4364, MOTOR GASOLINE

Gold Oil Company filed an Application for Exception from the provisions of 10 C.F.R. Part 211 in which the firm requested that it be assigned a new lower priced supplier of motor gasoline. In considering the request, the DOE found that exception relief was necessary to enable the firm to purchase competitively priced motor gasoline and thereby preserve its viability as an ongoing business entity.

Hempstead Resources, BEE-1407; Recovery Corporation; Arizona Chemical Company, BEE-1273; Powerine Oil Company, BEE-1289; Laketon Asphalt Refining, BEE-1312; Peerless Petrochemicals, BEE-1251; Giant Industries, Inc., BEE-1406; Coastal Petroleum Refiners, Inc., BEE-1405; Colonial Oil Industries, Inc., BEE-1364; Cadence Chemical Resources, BEE-1360; Milwaukee Metropolitan Sewerage District, BEE-1361; Northeast Petroleum Industries, Inc., BEE-1350; County Sanitation District of Orange County, California, BEE-1374; Nashville Thermal Transfer Corp, BEE-1371; American Can Company, BEE-1372; Yetter Oil Company, BEE-1367; Midwest Solvents Co., Inc., BEE-1370; Irving Oil Corporation, BEE-1366; Western Refining Co., BEE-1408; Coral Petroleum, Inc., BEE-1387; City of Los Angeles, BEE-1388; Val Verde International, Inc., Washington, D.C., BEE-1380 crude oil

Hempstead Resoruces Recovery Corp., *et al.* filed Applications for Exception from the provisions of 10 C.F.R. 211.67 (the Entitlements Program) in which the firms requested that the DOE issue them additional entitlements because of the failure of Sector Refining, Inc. (Sector) to consummate its entitlement purchase obligations to them. In considering the requests, the DOE found that exception relief was necessary to alleviate the economic burdens which could result from Sector's default. Accordingly, exception relief was granted

Ingram Creek Service, Westly, California, DEE-4547, motor gasoline

Ingram Creek Service filed an Application for Exception from the provisions of 10 C.F.R. Part 211 in which the firm sought an increase in its base period allocation of motor gasoline. In considering the requests, the DOE found that the firm failed to show that it or its customers were experiencing a gross inequity as a result of the application of the current DOE regulations. Accordingly, exception relief was denied.

Kuhl, Edward, Highland, Illinois, BEO-1095, motor gasoline

Edward Kuhl filed an Application for Exception from the provisions of 10 C.F.R. Part 211 in which the firm sought an increase in its allocation of motor gasoline. In considering the request, the DOE found that the firm was not suffering a serious hardship or unfair distribution of burdens as a result of the application of its supplier's allocation fraction to its gasoline allocation. Accordingly, exception relief was denied.

Maxwell Oil Company, Olympia, Washington, DEE-6658, motor gasoline

Maxwell Oil Company filed an Application for Exception in which the firm sought an increase in its base period allocation of gasoline. In considering the request, the DOE found that the firm had failed to submit evidence sufficient to demonstrate that it was experiencing a gross inequity under the criteria set forth in *Harrison Gas & Oil*, 4 DOE ¶ 81,033 (1979). Accordingly, the Application for Exception was denied.

Jerome P. McHugh, Denver, Colorado, DEE-2217, form EIA-23

Jerome P. McHugh filed an Application for Exception from reporting requirements in Form EIA-23 (Annual Survey of Domestic Oil and Gas Reserves). In considering the request, the DOE found that, contrary to the firm's contention, compliance with Form EIA-23 reporting requirements would not place an inordinate burden upon the firm. In particular, the DOE determined that (i) the required data should already exist in the firm's records, thus eliminating the alleged necessity for additional efforts to compile it and (ii) any inconvenience which the applicant may experience in supplying the information is outweighed by the substantial benefits which may be expected to result from the use of the data in the furtherance of national energy policy. Accordingly, exception relief was denied.

Montgomery Oil Co., Leeds, Alabama, BEE-0689, gasohol

Montgomery Oil Co. filed an Application for Exception from the provisions to 10 C.F.R. Part 211 in which the firm sought an increased allocation of unleaded gasoline with which to blend gasohol. In considering the request, the DOE found that the firm had not taken the necessary steps to ensure the viability of its gasohol marketing program. Accordingly, exception relief was denied.

Navajo Refining Co., Dallas, Texas, BXE-0811, crude oil

Navajo Refining Company filed an Application for Exception from the provisions of 10 C.F.R. § 211.67 in which the firm sought exception relief from its entitlement purchase obligations. In considering the request, the DOE found that exception relief was necessary to alleviate the adverse impact of the entitlement purchase obligations on Navajo's return on invested capital. Accordingly, exception relief was granted.

Raypak, Inc., Westlake Village, California, DEE-3439; Teledyne Laars, North Hollywood, California, DEE-3950

Raypak, Inc. and Teledyne Laars filed Applications for Exception in which the firms sought to be relieved of their obligations under the energy efficiency test procedures specified in 10 C.F.R. Part 430, the Energy Conservation Program for Consumer Appliances. In considering the requests, the DOE determined that the test procedures specified in 10 C.F.R. Part 430 do not properly measure the energy efficiency and fuel utilization of the copper tubed boilers with modulated inputs manufactured by the two firms. Accordingly, the two firms were granted exception relief until such time as 10 C.F.R. Part 430 is amended to provide energy efficiency and fuel utilization measures for copper tubed hydronic boilers with modulated inputs or until the DOE determines that the issue of modulation is not relevant to the determination of energy efficiency and fuel utilization for this type of boiler.

Region Oil Company, Bloomsburg, Pennsylvania, BEE-0405, gasohol

Region Oil Company filed an Application for Exception from the provisions of 10 C.F.R. Part 211 in which the firm sought to receive an increased allocation of unleaded motor gasoline for use in blending gasohol. On July 1, 1980, the DOE issued a Proposed Decision and Order which tentatively concluded that the firm's request should be granted. Subsequent to the issuance of the Proposed Decision, however, Region informed the DOE that it was not willing at that time to fulfill the requirements of the Proposed Decision and Order. The firm therefore requested that the DOE suspend any further action on its request. The DOE determined, however, that it could not hold the Region application in abeyance indefinitely, and that in view of Region's reluctance to honor the terms of the Proposed Decision, the firms's Application for Exception would be dismissed without prejudice to a refiling at a later date.

Roland's Exxon, Ojai, California, DEE-5392, motor gasoline

Roland's Exxon filed an Application for Exception from the provisions of 10 C.F.R. Part 211 in which the firm sought an increase in its base period allocation of motor gasoline. In considering the request, the DOE found that the firm had failed to show that the residents of its community were unable to meet their gasoline requirements with purchases at the retail outlets currently operating in the area. Accordingly, exception relief was denied.

Texas Electric Service Co., Fort Worth, Texas, BEO-0718, motor gasoline

Texas Electric Service Co. filed an Application for Exception from the provisions of 10 C.F.R. Part 211 in which the firm sought an increase in its allocation of motor gasoline. In considering the request, the DOE found that the firm failed to demonstrate that it was suffering a gross inequity or unfair distribution of burdens as a result of the application of DOE regulations. Accordingly, exception relief was denied.

Texas Gas Exploration, Washington, D.C., DEE-2118, propane

On January 19, 1979, the Texas Gas Exploration Corporation filed an Application for Exception from the provisions of Subpart K of the Mandatory Petroleum Price Regulations, 10 C.F.R. §§ 212.161 through 212.173. In its Application, the firm requested that it be permitted to use an imputed May 1973 acquisition cost for purchased propane and the propane content of natural gas liquids acquired for further processing. In considering the request, the DOE found that an imputed acquisition cost for these products was necessary in order for the firm to obtain a profit margin on their resale. Accordingly, exception relief was granted.

Urbano Service Station, Sunnymead, California, BEE-0613, motor gasoline

Urbano Service Station filed an Application for Exception from the provisions of 10 C.F.R. § 211.102 in which the firm sought to increase its base period allocation of motor gasoline to 100,000 gallons per month. In considering the request, the DOE found that the firm failed to provide any evidence which indicates that it is suffering any serious hardships as a result of the DOE allocation program.

Village of Schaumburg, Schaumburg, Illinois; BEO-0988, motor gasoline

The Village of Schaumburg filed an Application for Exception from the provisions of 10 CFR Sec. 211.102 in which it requested an increase in its base period allocation of motor gasoline. The Village claimed that it needed additional gasoline to fuel new fire engines, police cars and public buses. The DOE found that in order to insure public health and safety, additional gasoline should be provided for the Village's emergency vehicles. The DOE further found that additional gasoline should be provided for new Village buses, as this would result in conservation of gasoline supplies.

Ward's Service Station, Johnson City, New York; BEO-0350, motor gasoline

Ward's Service Station filed an Application for Exception from the provisions of 10 CFR Part 211, in which the firm sought an increase in its base period allocation of motor gasoline. In considering the request, the DOE found that the applicant failed to explain why it had not been able to realize during the base period the benefits of an investment it undertook in April 1978. The DOE therefore determined that the firm had not demonstrated that any hardship that it was experiencing was primarily attributable to the DOE allocation regulations. Exception relief was therefore denied.

Walt's Arco, Everett, Washington; BEO-0817, motor gasoline

Walt's Arco filed an Application for Exception from the provisions of 10 CFR Part 211 in which the firm sought an increase in its allocation of motor gasoline. In considering the request, the DOE found that the firm had failed to demonstrate that its allocation was not representative of its normal operating level. Accordingly, exception relief was denied.

1-2-3 Messenger Service, Los Angeles, California; BEO-0599, motor gasoline

On August 22, 1979 1-2-3 Messenger Service filed an Application for Exception from the provisions of 10 CFR § 211.102 in which the firm sought an increased base period allocation of motor gasoline. In considering the request, the DOE found that the firm had failed to show that it was experiencing a serious hardship or gross inequity as a result of the DOE motor gasoline allocation regulations. Accordingly, exception relief was denied.

Supplemental Orders

Bill's Amoco, Lima, Pennsylvania; BEX-0068, motor gasoline

On October 22, 1979, the Office of Hearings and Appeals approved the extension of exception relief to a class of applicants, including Bill's Amoco, which had previously been found to meet the criteria for relief set forth in *Leo Anger, Inc.*, 4 DOE ¶ 81,037 (1979). The October 22 Decision required that each member of the class file a statement with the Office of Hearings and Appeals by July 31, 1980, providing a detailed accounting of the firm's operations for the period July 1, 1979 through June 30, 1980. In considering the submission which was filed by Bill's Amoco on July 30, 1980, the DOE found that the firm's operations would not be adversely affected to a significant degree in the absence of exception relief. Accordingly, the exception relief granted to Bill's Amoco in the October 22 Decision and Order was terminated on a prospective basis.

Hydrocarbon Trading and Transport Company, Inc., Houston, Texas; BEX-0124, motor gasoline

Hydrocarbon Trading and Transport Company, Inc. (Hydrocarbon) filed a Motion to Participate in connection with an enforcement action brought against Exxon Company, U.S.A. by the DOE Office of Special Counsel (Case number BRO-1271). In its Motion, Hydrocarbon sought to participate in all aspects of the Exxon enforcement proceeding. In considering the Motion, the DOE determined that Hydrocarbon had demonstrated that it had a significant interest in the enforcement proceeding and would substantially contribute to the resolution of the issues involved. Accordingly, Hydrocarbon's Motion was granted.

Kern County Refinery, Inc., Bakersfield, California; DEX-0008, crude oil

The DOE conducted a year-end review of the exception relief from the provisions of 10 CFR 211.67, the Entitlements Program, granted to Kern County Refinery, Inc. during its fiscal year ending June 30, 1978. In this Decision and Order, the DOE determined that the amount of relief that the firm received in its 1978 fiscal year was excessive, and that Kern should return $283,251 through the purchase of entitlements.

San Joaquin Refining Co., Newport Beach, California; DEX-0101, crude oil

The DOE conducted a year-end review of the exception relief from the provisions of 10 CFR 211.67, the Entitlements Program, granted to San Joaquin Refining Co. during its fiscal year ending April 30, 1978. In this Decision and Order, the DOE determined that the exception relief that San Joaquin received in its 1978 fiscal year was excessive, and that the firm should return $150,213 through the purchase of entitlements.

Protective Orders

The following firms filed Applications for Protective Orders. The applications, if granted, would result in the issuance by the DOE of the proposed Protective Orders submitted by the firms. The DOE granted the following applications and issued the requested Protective Orders as Orders of the Department of Energy:

Name, Case No., and Location

Little America Refining Co., Inc./Marathon Oil, BEJ-0162; Wash., D.C.
Oklahoma Ref. Co., Mobil Oil Corp., BEJ-0160; Wash., D.C.

Interlocutory Order

Ft. Pierce Utilities, Gainsville Regional, Sebring Utilities, City of Homestead,

City of Kissimmee, City of Leesland, City of Starke, City of Tallahassee, Braintree Electric, Washington, D.C.; BRZ-0065 through 0071

Pursuant to the order of the United States District Court for the District of Columbia, the petitioners listed above were admitted as full parties in cases No. DRO-0193 through 0197, DRO-0192, and EFF-0007 pending before the Office of Hearings and Appeals.

Petition Involving the Motor Gasoline Allocation Regulations

The following firm filed an Application for Exception from the provisions of the Motor Gasoline Allocation Regulation. The request, if granted, would result in an increase in the firm's base period allocation of motor gasoline. The DOE issued a Decision and Order which determined that the request be denied.

Company Name, Case No., and Location

Concrete Coring Co., BEO-0193; Waipahu, HI.

Dismissals

The following submissions were dismissed without prejudice to refiling at a later date:

Name and Case No.

Caribou Four Corners, Inc., BEE-1416
Fulbright & Jaworski, BEG-0040
Good Hope Refineries, Inc., BEE-0250
Inter-Americas Oil Co, BEE-1545
R.A. Irwin & J.R. Buck, BEE-1468
Walter B. Jayred, DEE-1992, DEE-1993
Natural Resources Defense Council, Inc., BFA-0517
Russell Stewart Oil Company, BEE-0570
Stuckey's Inc., DEE-0570, DES-0570, DST-0570
Texaco Inc., BSD-0060, BSJ-0060
Texas Standard Refining Co., Inc., BEE-1088
Wally Hutter Oil Co., DEE-2715
Wolter Wholesale Co., BEE-0697

Copies of the full text of these decisions and orders are available in the Public Docket Room of the Office of Hearings and Appeals, Room B-120, 2000 M Street, NW., Washington, D.C. 20461, Monday through Friday, between the hours of 1 p.m. and 5 p.m., except federal holidays. They are also available in *Energy Management: Federal Energy Guidelines* a commerical published loose leaf reporter system.

Dated: March 6, 1981.

George B. Breznay,
Director, Office of Hearings and Appeals.

BILLING CODE 6450-01-M

ENVIRONMENTAL PROTECTION AGENCY

[OPTS-51232; TSH-FRL 1775-3]

Certain Chemicals; Premanufacture Notices

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: Section 5(a)(1) of the Toxic Substances Control Act (TSCA) requires any person who intends to manufacture or import a new chemical substance to submit a premanufacture notice (PMN) to EPA at least 90 days before manufacture or import commences. Section 5(d)(2) requires EPA to publish in the Federal Register certain information about each PMN within 5 working days after receipt. This Notice announces receipt of four PMN's and provides a summary of each.

DATES: Written comments by:
81-49, 81-51—April 4, 1981.
81-53, 81-54—April 10, 1981.

ADDRESS: Written comments to: Document Control Officer (TS-793), Management Support Division, Office of Pesticides and Toxic Substances, Environmental Protection Agency, Rm. E-401, 401 M St., SW., Washington, D.C. 20460, (202-755-2610).

FOR FURTHER INFORMATION CONTACT:
For PMN Number 81-49; Notice Manager Rick Green; Telephone (202-426-8816); Rm. No. E-208
For PMN No. 81-51; Notice Manager Carolyn Brown; Telephone (202-426-3960); Rm. No. E-221
For PMN No. 81-53; Notice Manager George Bagley; Telephone (202-426-3936); Rm. No. E-210
For PMN No. 81-54; Notice Manager Rachel Diamond; Telephone (202-426-3960); Rm. No. E-221
Mail Address of notice managers: Chemical Control Division (TS-794), Office of Toxic Substances, Environmental Protection Agency, 401 M St., SW., Washington, D.C. 20460.

SUPPLEMENTARY INFORMATION: Section 5(a)(1) of TSCA [90 Stat. 2012 (15 U.S.C. 2604)], requires any person who intends to manufacture or import a new chemical substance to submit a PMN to EPA at least 90 days before manufacture or import commences. A "new" chemical substance is any substance that is not on the Inventory of existing substances compiled by EPA under section 8(b) of TSCA. EPA first published the Initial Inventory on June 1, 1979. Notices of availability of the Inventory were published in the Federal Register of May 15, 1979 (44 FR 28558-Initial) and July 29, 1980 (45 FR 505444-Revised). The requirement to submit a PMN for new chemical substances manufactured or imported for commercial purposes became effective on July 1, 1979.

EPA has proposed premanufacture notification rules and forms in the Federal Register issues of January 10, 1979 (44 FR 2242) and October 16, 1979 (44 FR 59764). These regulations, however, are not yet in effect. Interested persons should consult the Agency's Interim Policy published in the Federal Register of May 15, 1979 (44 FR 28564) for guidance concerning premanufacture notification requirements prior to the effective date of these rules and forms. In particular, see page 28567 of the Interim Policy.

A PMN must include the information listed in section 5(d)(1) of TSCA. Under section 5(d)(2) EPA must publish in the Federal Register nonconfidential information on the identity and use(s) of the substance, as well as a description of any test data submitted under section 5(b). In addition, EPA has decided to publish a description of any test data submitted with the PMN and EPA will publish the identity of the submitter unless this information is claimed confidential.

Publication of the section 5(d)(2) notice is subject to section 14 concerning disclosure of confidential information. A company can claim confidentiality for any information submitted as part of a PMN. If the company claims confidentiality for the specific chemical identity or use(s) of the chemical, EPA encourages the submitter to provide a generic use description, a nonconfidential description of the potential exposures from use, and a generic name for the chemicl. EPA will publish the generic name, the generic use(s), and the potential exposure descriptions in the Federal Register.

If no generic use description or generic name is provided, EPA will develop one and after providing due notice to the submitter, will publish an amended Federal Register notice. EPA immediately will review confidentiality claims for chemical identity, chemical use, the identity of the submitter, and for health and safety studies. If EPA determines that portions of this information are not entitled to confidential treatment, the Agency will publish an amended notice and will place the information in the public file, after notifying the submitter and complying with other applicable procedures.

After receipt, EPA has 90 days to review a PMN under section 5(a)(1). The section 5(d)(2) Federal Register notice indicates the date when the review period ends for each PMN. Under section 5(c), EPA may, for good cause, extend the review period for up to an additional 90 days. If EPA determies that an extension is necessary, it will publish a notice in the Federal Register.

Once the review period ends, the submitter may manufacture the substance unless EPA has imposed restrictions. When the submitter begins to manufacture the substance, he must report to EPA, and the Agency will add the substance to the Inventory. After the substance is added to the Inventory, any company may manufacture it without providing EPA notice under section 5(a)(1)(A).

Therefore, under the Toxic Substances Control Act, summaries of the data taken from the PMN's are published herein.

Interested persons may, on or before the dates shown under "Dates", submit to the Document Control Officer (TS-793), Management Support Division, Office of Pesticides and Toxic Substances, Environmental Protection Agency, Rm. E-401, 401 M St., SW., Washington, DC 20460, written comments regarding these notices. Three copies of all comments shall be submitted, except that inividuals may submit single copies of comments. the comments are to be identifid with the document control number "[OPT-51232]" and the specific PMN number. Comments received may be seen in Rm. E-106 at the above office between 8:00 a.m. and 4:00 p.m., Monday through Friday, excluding legal holidays.

(Sec. 5, 90 Stat. 2012 (15 U.S.C. 2604))

Dated: March 5, 1981.

Edward A. Klein,

Director, Chemical Control Division.

PMN 81-49

The following information is taken from data submitted by the manufacturer in the PMN.

Close of Review Period. May 4, 1981.

Manufacturer's Identity. Claimed confidential business information.

Specific Chemical Identity. Claimed confidential business information. Generic name provided: Sodium poly-4-vinyl-phenol-formaldehyde condensate.

Use. Claimed confidential business information.

Production estimates. Claimed confidential business information.

Physical/Chemical Properties. No data were submitted.

Toxicity Data. No data were submitted.

Exposure. The manufacturer states that because the PMN substance is manufactured and drummed in a closed system, exposure and contact cannot occur under normal conditions. A maximum of three workers manufacturing the new chemical for 8 hr/da could be accidentally exposed to the new chemical in liquid solution during drumming and cleanup.

The manufacturer also states that, at the site of a typical user, one worker using the new substance will have inhalation exposure 7 hr/da, 260 da/yr, during transfer of the solution containing the PMN chemical.

Environmental Release/Disposal. Because the substance is prepared in a closed system, no release to the environment from the manufacturing site is anticipated by the submitter. Amounts of the new substance released accidentally from the closed system could be precipitated in a polymer that would then be disposed by landfill or incineration.

The manufacturer states that disposal by a typical user would be to a publicly owned treatment works (POTW) with 20 percent into the land by landfill or the air after incineration.

PMN 81-51

The following information is taken from data submitted by the manufacturer in the PMN.

Close of Review Period. May 4, 1981.

Manufacturer's Identity. Claimed confidential business information. Organizational description provided:

Annual sales—$100 million to $499,000,000

Manufacturing site—Northeastern U.S.

Standard Industrial Classification Code—285, "Paints, Varnish, Enamels, Allied Products".

Specific Chemical identity. Polymer of tall oil fatty acids, neopentyl glycol, pentaerythritol, isophthalic acid, and benzoic acid.

Use. Resin for low volatile organic content coatings.

Production Estimates

	Kilograms per year	
	Minimum	Maximum
1981	5,000	25,000
1982	15,000	50,000
1983	25,000	100,000

Physical/Chemical Properties

Color—10 maximum
Viscosity—z-3 to z-4
Molecular weight (by GPC):
Minimum—1,758
Average—14,496
Acid value—10-12
Weight/gallon—8.9 lbs.
Non-volatile by weight—75%.
Volatile—Xylene.
Water solubility by 24-hour extraction—.073%.

Toxicity data. No data were submitted.

Exposure. The manufacturer states that 11 manufacturing workers would have skin exposure to the new chemical for 8 hr/da, 18 da/yr. Skin exposure to the PMN substance and exposure to solvent vapors could occur during sampling, filling drums or tank trucks, and cleaning the filter press. At a second site, 12 processing workers would have skin exposure for 8 hr/da, 100 da/yr.

At a user's site, 30 workers would have inhalation, skin, and eye exposure for 8 hr/da, 250 da/yr, when using the new substance during spray application.

Environmental Release/Disposal. The manufacturer states that at both the manufacturing and processing sites, less than 20 kg/yr, will be released into the air 12-24 hr/da, 18-100 da/yr; 200-2,000 kg/yr to land; and less than 20 kg/yr, 12 hr/da, 100 da/yr to water. Wastes disposal will either be by incineration, landfill or to a POTW.

At a user's site, 20 to 200 kg/yr of the new substance will be released into the air and water 8 hr/da, 250 da/yr, and more than 10,000 kg/yr into the land.

PMN 81-53

The following information is taken from data submitted by the importer in the PMN.

Close of Review Period. May 10, 1981.

Importer's Identity. Claimed confidential business information.

Specific Chemical Identity. Claimed confidential business information. Generic name provided: Ester of salicylic acid.

Use. Claimed confidential business information.

Import Estimates.

	Kilograms per year	
	Minimum	Maximum
1st year	10	100
2d year	10	1,000
3d year	100	2,000

Physical/Chemical Properties. No data were submitted.

Toxicity Data. No data were submitted.

Exposure. The importer states that the use of the substance by the importer or importer's customers may result in inhalation exposure at average concentration of 1 to 10 ppm. At the importer's site, two workers may be exposed for less than 1 hr/da, 20 da/yr.

Environmental Release/Disposal. The importer states that less than 10 kg/yr of the new substance will be released into the air less than 1 hr/da, less than 20 da/yr.

PMN 81–54

The following information is taken from data submitted by the manufacturer in the PMN.

Close of Review Period. May 10, 1981.

Manufacturer's Identity. Claimed confidential business information.

Organizational description provided: Manufacturing site—South Atlantic U.S.

Standard Industrial Classification Code—286, "Industrial Organic Chemicals."

Specific Chemical Identity. Claimed confidential business information.

Generic name provided: Disazo dye.

Use. Textile dye for carpets.

Production Estimates. Claimed confidential business information.

Physical/Chemical Properties.

Physical form—Aqueous solvent solution

Specific gravity—1.06 at 25°C

Flash point—>200°F (closed cup)

Boiling point—102°C.

Toxicity Data

Acute oral toxicity LD_{50} (rates)—88.0 mg/kg

Skin irritation (albino rabbits)—Non-irritating

Eye irritation (albino rabbits)—Non-irritating

Acute dermal LD_{50} (albino rabbits)—>2,000 mg/kg.

Exposure. The manufacturer states that because the PMN substance is manufactured in a closed system, workers will not be exposed under normal conditions. One worker manufacturing the new substance could have accidental skin exposure 8 hr/da, 45 da/yr, while drumming out, quality control sampling, and reactor cleaning operations.

The manufacturer also states that, at each of approximately eight customers' textile dyeing plants two persons per shift using the new substance would have skin exposure for less than 1 hr/da, 250 da/yr.

Consumers of carpets dyed with the PMN substance will have daily skin exposure with the finished carpet containing from 0.05 to 2 percent of the PMN substance on the weight of the dyed fiber.

Environmental Release/Disposal. The manufacturer states during manufacture, less than 20 kg/yr of the new substance will be released into the air and land; waste water from equipment cleaning or spills will be disposed by an on-site biological waste-treatment facility.

At the approximately eight customers' textile dyeing plants, less than 100 kg/yr will be released into the air and land; from 80 to 800 kg/yr will be released into a POTW.

[FR Doc. 81-7720 Filed 3-11-81; 8:45 am]

BILLING CODE 6560-01-M

[OPP-180581; PH-FRL 1775-7]

Department of the Interior; Specific Exemption for Sodium Cyanide in M–44 Device

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA has issued a specific exemption to the Fish and Wildlife Service, U.S. Department of the Interior (hereafter referred to as the "Applicant") to use sodium cyanide-loaded M–44 devices to control coyotes and red foxes which are threatening an endangered species, the whooping crane, in the Grays Lake National Wildlife Refuge in Idaho.

DATE: This specific exemption ends on September 30, 1981.

FOR FURTHER INFORMATION CONTACT: Donald R. Stubbs, Registration Division (TS–767C), Office of Pesticide Programs, Environmental Protection Agency, Rm. 502C, CM#2, 1921 Jefferson Davis Highway, Arlington, VA 22202, (703–557–7123).

SUPPLEMENTARY INFORMATION: According to the Applicant, a recovery project for restoring the endangered whooping crane populations began in 1975 at the Grays Lake National Wildlife Refuge in Idaho. It appears that the recovery program has been successful except for the predation of eggs and chicks by coyotes and red foxes. According to the Applicant, control methods such as calling, trapping, and aerial hunting have failed to provide adequate control. Failure to control these predators will result in a setback to the recovery program or its end. There is no registered pesticide for controlling coyotes and red foxes preying on wildlife populations.

A 1972 Presidential Order (Executive Order 11643) prohibits the use of chemical toxicants, such as the sodium cyanide-loaded M–44 device, on Federal lands except in emergency conditions. One of these conditions is for protection of one or more wildlife species threatened with extinction or likely within the foreseeable future to become so threatened. The U.S. Fish and Wildlife Service has the responsibility for restoration of endangered species under the Endangered Species Act of 1973. Since the whooping crane is an endangered species, there would be compliance with the Presidential Order.

In addition, the EPA has issued a registration to the Applicant for the use of the M–44 device to control coyotes, foxes, and feral dogs which prey upon livestock. Thus, issuance of the specific exemption is justified from the standpoint that the M–44 device is being employed under emergency conditions and by a qualified agency experienced in the use of this device for predator control.

Adverse effects resulting from the use of the sodium cyanide-loaded M–44 device in the Grays Lake National Wildlife Refuge area are unlikely. This refuge consits of approximately 15,000 acres of marsh and upland and is primarily a waterfowl refuge area. The M–44 device will be placed on only 3,000 acres in this refuge. Coyote control is considered necessary particularly because of the high avian population; thus, the use of the M–44 device here would also fit into the overall wildlife management program. Since refuge personnel and one grazier are the only persons permitted on the site, the chanes of humans accidentally discharging the M–44 devices are remote.

After reviewing the application and other available information, EPA has determined that the criteria for an exemption have been met. Accordingly, the Applicant has been granted a specific exemption to use the pesticide noted above until September 30, 1981, to the extent and in the manner set forth in the application. The specific exemption is also subject to the following conditions:

1. The use of a maximum of 40 M–44 devices and 1,020 sodium cyanide capsules containing approximately 905.56 grams of sodium cyanide is authorized.

2. The M–44 devices are to be placed on 3,000 acres of land and marsh at Grays Lake National Wildlife Refuge in Idaho.

3. Only trained Fish and Wildlife personnel shall hand place the M–44 devices.

4. All unused sodium cyanide capsules shall be recovered at the end of the season.

5. All precautions shall be taken to avoid or minimize hazards to nontarget species that may result from this program.

6. All applicable label precautions for M–44 cyanide capsules (EPA Reg. No. 6704–75), including the posting of warning signs, must be adhered to.

7. Any adverse effects resulting from the use of M–44 devices in connection with this specific exemption must be reported to the EPA immediately.

8. A report summarizing the results of this program must be submitted to the EPA by January 31, 1982.

(Sec. 18, as amended, 92 Stat. 819; (7 U.S.C. 136))

Dated: February 27, 1981.

Edwin L. Johnson,

Deputy Assistant Administrator for Pesticide Programs.

BILLING CODE 6560-32-M

[OPP-180567; PH-FRL 1775-8]

Florida; Issuance of Specific Exemption for Heptachlor on Ornamental Plants and Nonbearing Citrus

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA has granted a specific exemption to the Florida Department of Agriculture and Consumer Services (hereafter referred to as the "Applicant") to use a 5 percent granular heptachlor formulation as a soil treatment to control the West Indian Sugarcane Rootstalk Borer Weevil on ornamental plants and nonbearing citrus nursery stock on a maximum of 200 acres in 13 counties in Florida. The specific exemption is issued under the Federal Insecticide, Fungicide, and Rodenticide Act.

DATE: The specific exemption expires on November 1, 1981.

FOR FURTHER INFORMATION CONTACT: Edward Gross, Registration Division (TS-767C), Office of Pesticide Programs, Environmental Protection Agency, Rm. 509C, CM#2, 1921 Jefferson Davis Highway, Arlington, VA 22202 (703-557-7123).

SUPPLEMENTARY INFORMATION: According to the Applicant, the West Indian Sugarcane Rootstalk Borer Weevil (*Diaprepes abbreviatus*) poses a serious threat to the citrus, ornamental, and sugarcane industries in the State of Florida. Most of the damage is done when the weevil is in the larval stage and feeds on root tissue. No pesticide is registered for use on *D. abbreviatus*. Heptachlor has been found to be effective in controlling the pest.

On March 6, 1978, the Administrator cancelled all uses of chlordane and heptachlor except for use as a subsoil treatment for termites and a root and top dip for nonfood plants. Notice of this action appeared in the **Federal Register** of March 24, 1978 (43 FR 2372). Under Subpart D, 40 CFR 164.131, the Administrator must hold hearings before permitting the use of a cancelled registration of a pesticide unless he determines to waive hearings as provided for in 40 CFR 164.133. However, heptachlor was not registered to control the West Indian Sugarcane Rootstalk Borer Weevil and its use to control this pest was determined to be beyond the scope of the hearing and thus the cancellation notice.

The Applicant reports that the judicious use of heptachlor as a potting soil amendment, as authorized by previous specific exemptions, has contained the pest within the quarantine areas of Broward, Orange, and Seminole Counties. In addition to the problem of infested plants from Puerto Rico, there is also in existence a present infestation in areas of Florida, completely independent of the problem of imported plants, the Applicant further reported.

The Applicant proposed to apply up to 40,000 pounds of heptachlor 5-percent granular on a maximum of 200 acres using ground equipment. EPA has imposed appropriate restrictions to minimize the exposure of applicators to heptachlor. The proposed use is not expected to pose a significant hazard to the environment.

After reviewing the application and other available information, EPA has determined that the criteria for an exemption have been met. Accordingly, the Applicant has been granted a specific exemption to use the pesticide noted above until November 1, 1981, to the extent and in the manner set forth in the application. The specific exemption is also subject to the following conditions:

1. Treatment shall be limited to nurseries located in the regulated areas in Broward, Orange, and Seminole Counties, and to nurseries located in the unregulated areas in Brevard, Broward, Charlotte, Collier, Dade, Lake, Manatee, Orange, Palm Beach, Polk, Sarasota, Seminole, and Volusia Counties, once infestations of the pest have been confirmed.

2. Heptachlor shall be used at a rate of 0.2 ounce active ingredient (a.i.) per cubic yard or 10 pounds a.i. per acre.

3. The maximum quantity of heptachlor authorized to be used is limited to 2,000 pounds a.i. (40,000 pounds of a 5 percent granular heptachlor formulation).

4. The use of heptachlor shall be restricted to use as a soil treatment for bedded, nonbearing, citrus nursery stock which is at least 2 years from commercial fruit production and as an amendment to planting medium for potted ornamentals.

5. Application of heptachlor shall be restricted to bedded nursery stocks and shall not be applied to fieldgrown nursery stock.

6. Applicators shall wear protective clothing and use proper equipment to minimize their exposure to heptachlor; these shall consist of a respirator, goggles, helmet, face protector, gloves, and waterproof boots.

7. The Florida Division of Plant Industries and the U.S. Department of Agriculture will supervise the application of heptachlor.

8. The Applicant shall continue vigorously to pursue research to develop alternative products to control this pest.

9. A final report shall be submitted to EPA by January 31, 1982, summarizing the results of this program including:

a. Time and place of application.

b. Location, quantity, and extent of use.

c. Adverse effects (if any) on man and the environment.

d. Final outcome of the program.

10. The EPA shall be informed immediately of any adverse effects to man or the environment resulting from this program.

11. The Applicant shall be responsible for ensuring that all the provisons of this specific exemption are observed.

(Sec. 18 as amended 92 Stat. 819; (7 U.S.C. 136))

Dated: February 24, 1981.

Edwin L. Johnson,

Deputy Assistant Administrator for Pesticide Programs.

[FR Doc. 81-7740 Filed 3-11-81; 8:45 am]

BILLING CODE 6560-32-M

[OPP-180545; PH-FRC 1775-4]

Idaho, Oregon, and Washington; Issuance of Specific Exemptions for Benomyl on Wheat

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA has granted specific exemptions to the Idaho, Oregon, and Washington State Departments of Agriculture (hereafter referred to as "Idaho," "Oregon," and "Washington," or the "Applicants") for the use of benomyl to control *Cercosporella* foot rot on 200,000 acres of fall seeded wheat in Idaho, 250,000 acres in Oregon, and 500,000 acres in Washington. These specific exemptions were issued under the Federal Insecticide, Fungicide, and Rodenticide Act.

DATE: Idaho's specific exemption expires May 31, 1981, Oregon's and Washington's specific exemptions expire June 30, 1981.

FOR FURTHER INFORMATION CONTACT:
Libby Welch, Registration Division (TS-767C), Office of Pesticide Programs, Environmental Protection Agency, Rm. 502C, CM#2, 1921 Jefferson Davis Highway, Arlington, VA 22202, (703-557-7123).

SUPPLEMENTARY INFORMATION:
According to the Applicants, *Cercosporella* foot rot, caused by the fungal pathogen *Cercosporella herpotrichlorides*, is a chronic problem on wheat in the Northwest, and is most damaging to fall-seeded wheat. The severity of the infection is dependent upon climatic conditions, such as temperature and humidity. Because of heavy rains this year, conditions are conducive to the development of *Cercosporella* foot rot inoculum.

There are no pesticides registered for control of this disease and wheat strains resistant to this pathogen are not available. Specific exemptions for the use of benomyl to control this wheat disease have been issued annually since 1976 to Idaho, Oregon, and Washington. Estimated economic losses are put at nearly $1 million in Idaho, more than $5 million in Oregon, and $4,100,100 in Washington if an effective pesticide is not used.

The Applicants proposed to make a single application of benomyl, manufactured by E. I. du Pont de Nemours and Company as Benlate (EPA Reg. No. 352-354), at one-half pound active ingredient (lb. a.i.) per acre with ground equipment in 20 to 30 gallons of water or by aircraft in 5 to 10 gallons of water. The Applicants have also requested permission to apply benomyl in a tank-mix with nitrogen fertilizer solutions and with other pesticides registered for use on wheat providing that such mixtures are not prohibited by the various product labels. Idaho will make applications in the northern counties of Benewah, Clearwater, Kootenai, Latah, Lewis, and Nez Perce. Applications will be made in the eastern Oregon counties of Baker, Gilliam, Morrow, Sherman, Umatilla, Union, Wallowa, and Wasco, and in the Willamette Valley Counties of Benton, Clackamas, Lane, Linn, Marion, Polk, Yamhill, and Washington. Washington will make applications in the counties east of the crest of the Cascade Mountains.

EPA has determined that residues of benomyl are not likely to exceed 0.2 part per million (ppm) in or on wheat grain and 15 ppm in or on wheat straw from the proposed use. These levels have been judged adequate to protect the public health. Secondary residues transferring to meat, milk, poultry, and eggs would be covered by existing tolerances. Appropriate precautions have been imposed to protect employees working with benomyl. Based on past experiences, when no adverse effects were reported under similar specific exemptions, EPA does not anticipate any adverse effects to the environment from these specific exemptions.

It should be noted that notice of a rebuttable presumption against registration of pesticide products containing benomyl was published in the Federal Register of December 6, 1977 (42 FR 61788). As developed in Position Document % on benomyl, notice of availability of which was published in the Federal Registrer of August 30, 1979 (44 FR 51100), EPA has made a preliminary determination that information submitted is insufficient at this time to remove the agency's concern that benomyl poses risks of mutagenicity (as a spindle poison), teratogenicity, and spermatogenic depression to humans and acute toxicity to aquatic organisms. EPA has concluded that the potential to produce point mutations and the risk presumption for significant population reductions to nontarget organisms have been rebutted. Modification of labeling of benomyl pesticide products packaged in 5-pound or larger bags or with aerial application directions will be required in lieu of cancellation and denial.

After reviewing the applications and other available information, EPA has determined that the criteria for exemptions have been met. Accordingly, the Applicants have been granted specific exemptions to use the pesticide noted above until May 31, 1981, in Idaho, and until June 30, 1981, in Oregon and Washington, to the extent and in the manner set forth in the applications. The specific exemptions are also subject to the following conditions:

1. Use of the du Pont product Benlate 50W, EPA Reg. No. 352-354, containing the active ingredient benomyl, is authorized at a dosage rate of 1 pound of product (0.5 lb. a.i.) per acre in either 5 to 10 gallons of water (if applied aerially) or in 20 to 30 gallons of water (if applied by ground equipment). If an unregistered label is used in connection with this product, it must contain the identical, applicable precautions and restrictions which appear on the registered label.

2. A maximum of 100,000 lbs. a.i. may be applied in Idaho; a maximum of 125,000 lbs. a.i. may be applied in Oregon; and a maximum of 250,000 lbs. a.i. may be applied in Washington.

3. Benomyl may be applied in a tank-mix with nitrogen fertilizer solutions and with other pesticides registered for use on wheat providing that such mixtures are not prohibited by the various product labels and provided that all other conditions of these specific exemptions are followed.

4. Only one application per acre is authorized.

5. The pesticide may be used in the areas noted above.

6. Application may be made by State-licensed commercial applicators or growers.

7. The presence of *Cercosporella* foot rot must be verified by qualified State extension agents before any treatment with benomyl is made.

8. Wheat grain with residues of benomyl not exceeding 15 ppm may enter interstate commerce. The Food and Drug Administration, U.S. Department of Health and Human Services, has been advised of these actions.

9. All applicable directions precautions, and restrictions appearing on the EPA-registered label must be followed.

10. The EPA shall be immediately informed of any adverse effects resulting from the use of benomyl in connection with these exemptions.

11. All applicators involved in the preparation of spray suspension must wear protective gloves and masks.

12. All clothing worn during the preparation of spray suspension must be removed and cleaned after each day of use.

13. All individuals must wash immediately upon dermal contact with benomyl or the spray suspension.

14. EPA has made a preliminary determination that benomyl causes birth defects and reduced sperm production in laboratory animals. Exposure to benomyl might cause a depressed sperm count. In case of accidental spills or other unusual exposure, work must cease immediately and directions for contact with benomyl must be followed.

15. Idaho, Oregon, and Washington are each responsible for ensuring that all of the provisions of its specific exemption are met and must submit a full report on the results of its specific exemption to the EPA by December 31, 1981.

(Sec. 18 as amended 92 Stat. 819; (7 U.S.C. 136)).

Dated: March 3, 1981.

Edwin L. Johnson,

Deputy Assistant Administrator for Pesticide Programs.

[FR Doc. 81-7082 Filed 3-11-81; 8:45]
BILLING CODE 6560-32-M

[OPP-180578; PH-FRL 1775-5]

Vermont, Crisis Exemption for Zinc Phosphide in Sugar Maple Orchards

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA gives notice that on January 27, 1981, the Vermont Department of Agriculture (hereafter referred to as "Vermont") availed itself of a crisis exemption for the use of zinc phosphide to control the red squirrel on approximately 18,000 acres of sugar maple orchards. Because the need for treatment will last longer than 15 days, Vermont requested a specific exemption for continuation of this program.

DATE: The emergency condition is expected to last until June 1, 1981.

FOR FURTHER INFORMATION CONTACT: Jack E. Housenger, Registration Division (TS-767C), Office of Pesticide Programs, Environmental Protection Agency, Rm. 502C, CM#2, 1921 Jefferson Davis Highway, Arlington, VA 22202, (703-557-7123).

SUPPLEMENTARY INFORMATION: According to Vermont, red squirrels are an extremely damaging problem to plastic pipelines in sugar maple orchards. Vermont reported that there is no pesticide registered for the control of red squirrels in maple orchards. Vermont had applied for a specific exemption before invoking the crisis exemption procedure but stated that there was insufficient time to wait for a specific exemption since treatment had to begin immediately.

The pesticides being used are Zinc Phosphide Mouse Bait 200 and Blue Ribbon Orchard Mouse Bait-Coated and are manufactured by the FMC Chemical Corp. and Agway, Inc. The active ingredient (a.i.) is zinc phosphide at 2 percent a.i. on cracked corn bait. Zinc phosphide treated bait is being applied at a rate of 4.5 pounds treated bait per acre. A maximum of 8 applications will be made during the baiting season. At the end of the baiting period, all applicators will be required to collect bait stations and properly dispose of the remaining unused bait. All applicators will be certified private or commercial applicators. Personnel of the Vermont Department of Forests, Parks and Recreation, University of Vermont Extension Service, and Vermont Department of Agriculture will make periodic checks on the applications. Vermont estimates that high losses in tubing systems requiring replacement of tubing, additional labor costs, and loss of the first run of sap could result without this program. Vermont anticipates no adverse effects on man and the environment from this program and will monitor applications to be sure that the environment is being adequately protected during the applications. Vermont indicates that the bait will not come in contact with the harvested commodity or the pipeline that harvests the commodity, and therefore, feels that the establishment of an action level or tolerance on maple sap is not necessary.

(Sec. 18 as amended, 92 Stat. 819; (7 U.S.C. 136)).

Dated: March 5, 1981.

Edwin L. Johnson,

Deputy Assistant Administrator for Pesticide Programs.

BILLING CODE 6560-32-M

List of Violating Facilities

[En FRL-1775-1]

AGENCY: Environmental Protection Agency.

ACTION: Notice of placement of facility on EPA list of violating facilities.

SUMMARY: The EPA Listing Review Panel decided on January 29, 1981, to add to Sublist 1 of the EPA's List of Violating Facilities the Nitro, West Virginia facility of Chemical Formulators, Inc. based upon a criminal conviction under the Clean Water Act.

Accordingly, no Agency shall enter into, renew, or extend any non-exempt contract, subcontract, grant, subgrant, loan or subloan where the facility listed would be utilized for the contract, subcontract, grant, subgrant, loan or subloan.

FOR FURTHER INFORMATION CONTACT: Deborah Vitale, Listing Official, Office of Enforcement, Environmental Protection Agency, Rm. 1125, 401 M Street, SW., Washington, D.C. 20460. Telephone: 202-472-3065.

SUPPLEMENTARY INFORMATION: Pursuant to Section 306 of the Clean Air Act (42 U.S.C. 1857 *et seq.*, as amended by Public Law 91-604), Section 508 of the Federal Water Pollution Control Act (33 U.S.C. 1251 *et seq.*, as amended by Public Law 92-500), and Executive Order 11738, EPA has been authorized to provide certain prohibitions and requirements concerning the administration of the Clean Air Act and Federal Water Pollution Control Act with respect to Federal contracts, grants, or loans. On April 16, 1975, regulations implementing the requirements of the statutes and the Executive Order were promulgated in the **Federal Register** (see 40 C.F.R. Part 15, 40 F.R. 17124, April 16, 1975, as amended at 44 FR 6911, February 5, 1979). Section 15.20 of the regulations provides for the establishment of a List of Violating Facilities which will reflect those facilities ineligible for use in nonexempt Federal contracts, grants or loans.

The List of Violating Facilities is contained in two sublists. Sublist 1 includes those facilities listed on the basis of a conviction under section 113(c)(1) of the Clean Air Act or section 309(c) of the Federal Water Pollution Control Act. Sublist 2 includes those facilities listed on the basis of: any injunction, order, judgment, decree or other form of civil ruling by a Federal, State or local court issued as a result of noncompliance with clean air or water standards; a conviction in a State or local court for noncompliance with clean air or water standards; noncompliance with an order under section 113(a) of the Clean Air Act or section 309(a) of the Federal Water Pollution Control Act; the initiation of court action under section 113(b) of the Clean Air Act or section 309(b) of the Federal Water Pollution Control Act; or equivalent State or local proceedings to enforce clean air or water standards.

No agency shall enter into, renew, or extend any nonexempt contract, subcontract, grant, subgrant, loan or subloan where a facility listed would be utilized for the contract, subcontract, grant, subgrant, loan or subloan.

The purpose of this Notice is to add to Sublist 1 the Nitro, West Virginia facility of Chemical Formulators, Inc. based upon its conviction under section 309(c) of the Federal Water Pollution Control Act.

Pursuant to the above-referenced authority, the Assistant Administrator for Enforcement, U.S. Environmental Protection Agency, certifies that the following facility is on the List of Violating Facilities as of January 29, 1981. The List of Violating Facilities will be revised periodically as any listings or delistings occur.

List of Violating Facilities

Sublist 1: Chemical Formulators, Inc., Nitro, West Virginia.

Sublist 2: No facilities listed.

Dated: February 11, 1981.

Jeffrey G. Miller,

Acting Assistant Administrator for Enforcement.

[FR Doc. 81-6980 Filed 3-11-81; 8:45 am]

BILLING CODE 6560-32-M

[ER-FRL 1774-8]

Intent To Prepare a Draft Environmental Impact Statement

AGENCY: U.S. Environmental Protection Agency (EPA).

ACTION: Notice of intent to prepare a draft supplemental environmental impact statement (EIS).

PURPOSE: To fulfill requirements of Section 102(2)(c) of the National Environmental Policy Act, EPA has identified a need to prepare an EIS and therefore issues this Notice of Intent pursuant to 40 CFR 1501.7..

FOR FURTHER INFORMATION CONTACT: Ms. Barbara Bruzas, Construction Grants Section, California Branch, Water Division, U.S. Environmental Protection Agency, Region IX, 215 Fremont Street, San Francisco, CA 94105. Telephone: (415) 556–2834.

SUMMARY:

1. Description of proposed action: The EPA action would be the approval of a facilities plan and the issuance of grant monies pursuant to Section 201 of the Clean Water Act for the design and construction of wastewater sludge air drying and composting facilities at a site in Orange County, California.

2. Public and private participation in the EIS Process: Full participation by intended Federal, State and local agencies as well as other interested private organizations and parties is invited. The public will be involved to the maximum extent possible and is encouraged to participate in the planning process.

3. Scoping: The final EIS for the Los Angeles/Orange County Metropolitan Area issued December 5, 1980, studied alternatives for sludge management within the major sanitation agencies. Air drying and composting was identified as the best alternative for the Orange County Sanitary Districts. Consequently, the focus of the supplemental EIS will be on site selection for the sludge management facilities. EPA Region IX will be holding meetings to discuss alternative sludge management sites. For additional information, contact the person indicated above. Public notice will be given prior to all subsequent meetings.

4. Timing: EPA estimates the draft supplemental EIS will be available for public review and comment around July 1981.

5. Requests for copies of Draft EIS: All interested parties are encouraged to submit their name and address to the person indicated above for inclusion on the distribution list for the draft supplemental EIS and related public notices.

Dated: March 6, 1981.

William N. Hedeman, Jr.,

Director, Office of Environmental Review (A-104).

[FR Doc. 81-7081 Filed 3-11-81; 8:45 am]

BILLING CODE 6560-37-M

[EN-FRL-1770-3a]

Application for Waiver of the 1981-1982 Model Year Oxides of Nitrogen Emission Standard for Light-Duty Diesel Motor Vehicles—Sixth Decision of the Administrator

I. Introduction

This is the sixth decision issued under section 202(b)(B) of the Clean Air Act, as amended (Act),[1] regarding applications from automobile manufacturers for waiver of the 1.0 gram per mile (gpm) oxides of nitrogen (NO_x) emission standard scheduled to apply to 1981 and subsequent model year light-duty diesel vehicles and engines.[2]

As the introductions to previous NO_x waiver decisions explain, section 202(b)(1)(B) of the Act establishes the standards applicable to NO_x emissions from light-duty vehicles and engines manufactured during and after model year 1977.[3] This section requires the Administrator of the Environmental Protection Agency (EPA) to promulgate regulations containing standards which provide that NO_x emissions may not exceed 2.0 gpm for model years 1977 through 1980, and may not exceed 1.0 gpm for 1981 and later model years. Section 202(b)(6)(B) of the Act provides that, upon the petition of a manufactuer, the Administrator may waive the 1.0 gpm NO_x standard to a level not to exceed 1.5 gpm, for any class or category of diesel-powered light-duty vehicles and engines manufactured during the four-model-year period beginning with model year 1981. In order to obtain a waiver, the manufacturer must show that the waiver is necessary to permit the use of diesel engine technology in the class or category of vehicles or engines for which it has requested a waiver. Moreover, the Administrator must determine:

(i) that such waiver will not endanger public health,

(ii) that such waiver will result in significant fuel savings at least equal to the fuel economy standard applicable in each year under the Energy Policy and Conservation Act (EPCA), and

(iii) that the technology has a potential for long-term air quality benefit and has the potential to meet or exceed the average fuel economy standard applicable under EPCA at the expiration of the waiver.[4]

On November 5, 1980, EPA received an application from VW for waiver of the 1982 model year 1.0 gpm NO_x standard for three diesel vehicle classes.[5] The engines VW uses in these vehicle classes are the same as the engines VW planned to use in the vehicle classes for which EPA granted waivers in the second consolidated NO_x waiver decision. However, VW had to submit new waiver requests for several reasons which are discussed more fully below.

EPA held a public hearing to consider VW's waiver requests on November 17, 1980 at which it provided interested parties with an opportunity to present oral testimony. Because no parties presented oral testimony concerning VW's requests at this hearing, I have made my waiver decisions on VW's requests on the basis of all relevant information available to me, including VW's written submissions, and the record from the previous diesel NO_x waiver decisions. The materials submitted by the applicant in its waiver request, as well as other relevant documents, are included in EPA Public Docket EN-80-21. The records for the previous decisions on diesel NO_x waiver requests from VW are incorporated by reference in the record for this decision and may be found in EPA Public Dockets EN-79-3 and EN-80-3.[6]

---

[1] 42 U.S.C. 7521(b)(6)(B) (Supp. I 1977).

[2] The first consolidated decision was published at 45 FR 5480 (January 23, 1980) (hereinafter "Original decision"). The second consolidated decision was published at 45 FR 34718 (May 22, 1980) (hereinafter "Second decision"). The third decision was published at 45 FR 65990 (October 2, 1980) (hereinafter "Third decision"). The fourth and fifth decisions were signed and sent to the Federal Register for publication on December 23, 1980 (hereinafter "Fourth decision" and "Fifth decision").

[3] 42 U.S.C. 7521(b)(1)(B) (Supp. I 1977). See the first diesel NO_x waiver decision for a discussion of the statutory history leading up to this provision. Original decision at 5480, n. 1.

[4] For a discussion of the Congressional purpose behind this provision, see the discussion accompanying notes 2 and 3 of the original decision at 5480. EPA published guidelines for the submission of applications under this waiver provision at 43 FR 30341 (July 14, 1978) (hereinafter "Guidelines").

[5] The three vehicle classes for which VW requested a waiver are the 1.6 liter (L)-naturally aspirated (NA)-2750 pound inertia weight class (I.W.), the 1.6L-NA-2500 I.W., and the 1.6L-turbocharged (TC)-2750 I.W.

[6] EPA Public Dockets EN-79-3, EN-80-3 and EN-80-21 can be found in EPA's Central Docket Section, Gallery I, 401 M St., S.W., Washington, D.C. 20460. Copies of materials in these dockets may be obtained by writing to this address at Mail Code (A-130).

II. Summary of Decision

I have decided to grant VW's waiver request covering the following vehicle classes for the model years specified:

Waiver Application Granted

Manufacturer	Engine family	Model year	Interim standard (gram per mile)
VW	1.6L-NA-2750 LW.	1982	1.4
VW	1.6L-NA-2500 LW.	1982	1.4
VW	1.6L-NA-2750 LW.	1982	1.4

As discussed more fully below, I have concluded that applications covering these vehicle classes meet each of the statutory criteria for receiving a waiver for the year noted. I am prescribed an interim NO_x standard of 1.4 gpm for each of these vehicle classes for the 1982 model year as shown in the chart above.

III. Discussion

A. Assessing the Need for Waivers

Section 202(b)(6)(B) of the Act expressly assigns to an applicant the burden of showing that the waiver is necessary to permit the use of diesel engine technology in a particular class or category of vehicles or engines. The major issue I must address under this criterion is whether the applicant has shown that unless I grant the waiver, the engine family which the waiver request covers will not be able to meet applicable emission standards, even with the addition of any device, equipment or aspect of diesel engine technology presently available or expected to become available during the period covered by the waiver request.[7]

VW's most recent application requests waivers of the 1982 model year NO_x standard for three classes of its light-duty diesels: 1.6L-NA-2500 I.W., 1.6L-NA-2750 I.W., and 1.6L-TC-2750 I.W.[8] VW sought a 1.4 gpm interim NO_x standard for each vehicle class. The standard chosen reflects VW's assessment of the lowest NO_x levels it can achieve in 1982 for these vehicle classes.

VW first applied for waivers of the 1.0 gpm NO_x standard for 1981 through 1984 for three classes of vehicles in May of 1979.[9] EPA denied those waiver requests on the grounds that the record for those requests contained insufficient data upon which the Administrator could base a determination to grant any of the requests.[10] On February 11, 1980, VW submitted a reapplication for waivers for its diesel vehicle classes.[11] In its reapplication, VW split the vehicle classes for which it requested waivers in its original application into smaller classes according to method of aspiration, engine displacement, and vehicle model. VW's purpose in distinguishing among vehicle models was to show the best emissions control capability for the different inertia weight classes associated with each model, and to make it clear that VW believed that vehicles with a higher inertia weight required a higher NO_x standard.[12] In response to VW's request, and because EPA concluded that setting lower interim standards for lighter inertia weight classes on the basis of their respective NO_x control capabilities would result in increased NO_x emissions control, EPA distinguished between VW's diesel classes on the basis of inertia weigh for the purposes of the second waiver decision.[13] EPA granted VW waivers of the 1.0 gpm NO_x standard to different interim NO_x standards for the 1981 and 1982 model year diesels of the specific intertia weight classes which VW described in its second waiver application.[14]

Due to several changes in VW's production and marketing plans for the 1982 model year, VW found that the waivers previously granted would not cover vehicles it planned to sell and it therefore was necessary to submit a third application for NO_x waivers.

The vehicle classes for which VW requested waivers in its present applicaton employ engines of the same design as those of the vehicle classes for which EPA granted waivers in the second decision, but because of several developments, the waivers then granted are not broad enough to cover the vehicles VW now plans to sell.

VW desires the three waivers now under consideration for the following reasons.[15] One requested waiver would cover in model year 1982 the naturally-aspirated 1.6L engine in the 2500 I.W. class that VW had originally planned to market only in model year 1981 and for which EPA granted a waiver for the 1981 model year in the earlier decision. The second requested waiver would cover the use of the 1.6L turbocharged engine in a slighly heavier 1982 model year vehicle than VW originally planned. The weight difference is enough to place the vehicle out of the 1.6L-TC-2500 I.W. class, for which EPA granted a waiver for the 1982 model year in the second decision, and into the 1.6L-TC-2750 I.W. class.[16] The third requested waiver would cover in model year 1982 the 1.6L-NA engine for which EPA granted a waiver in the 2500 I.W. vehicle class for model year 1981 and would accommodate VW's decision to install the engine in the slightly heavier (2750 I.W.) vehicle class slated for 1982 model year production.

VW's application indicates that it has reached a state in its development of NO_x emission controls at which it has narrowed the range of strategies it contemplates employing to meet applicable emission standards,[17] including the statutory 1.0 gpm NO_x standard, to, at most, a few alternative systems. To support its contention that waivers are necessary to permit the use of diesel technology for the vehicle classes in question, VW incorporated by reference in its present waiver application descriptions of the systems it has been using to meet 1981 and later model year emission standards that it provided in its earlier application.[18] VW also has provided additional information concerning the efforts it has made towards developing emission control technology since the May 22, 1980 waiver decision.

VW has concentrated its development efforts on the following two NO_x emission control techniques: engine modification, with emphasis on improvements in fuel injection and combustion chamber design, and exhaust gas recirculation (EGR).

The technical analysis of the data submitted by VW in its second waiver application showed the 1.6L-NA-2500 I.W. vehicle class to be incapable of meeting the 1981 model year NO_x standard, and the 1.6L-TC-2500 I.W. vehicle class to be incapable of passing

[13] Id.

[14] Id. See 45 FR 78123 (November 25, 1980) and 46 FR 81202 (December 5, 1980) for corrections to the chart of vehicle classes for which EPA granted waivers in the second decision.

[15] VW App., 5.1.

[16] The Second decision granted waivers for a number of engine families including the 1.6L-TC engine in the 2500 inertia weight class for 1981 and 1982, and the 1.6L-NA engine in the 2500 inertia weight class for 1982. An 80-pound difference in the weight of the 1982 model year Dasher into which VW now plans to install both the naturally-aspirated and turbocharged versions of the 1.6L diesel engine pushes both the 1.6L-NA and the 1.6L-TC diesel classes into the 2750 inertia weight class.

[17] In the 1982 model year the applicable emission standards will be 0.41 gpm hydrocarbons (HC), 3.4 gpm carbon monoxide (CO), 1.0 gpm NO_x, and 0.6 gpm particulates for light-duty diesels. The particulate standard becomes 0.2 gpm in the 1985 model year. 45 FR 14496 (March 5, 1980).

[18] VW App., 1.

the NO_x and HC standards in the 1982 model year.[20] The analysis projected that the 1.6L–TC–2500 l.W. vehicle class would be capable of meeting the 1.0 NO_x standard using a catalyzed trap oxidizer, but not until after the 1982 model year.[23] Although in its second application VW did not ask for a waiver in model year 1982 for the 1.6L–NA–2500 l.W. vehicle class covered in its latest application, the technical analysis of data then submitted showed that that vehicle class would not be able to meet the NO_x standard in model year 1982, even considering the effects of potentially available NO_x control improvements.[21]

The 80-pound weight increase that VW now plans for the two other 1982 model year 1.6L NA and TC Dasher models covered by VW's latest waiver application moves these models into the 2750 l.W. class. The weight increase is not a change that would alter the inability of these Dasher vehicle classes, as demonstrated by the record for VW's second waiver application, to attain a 1.0 gpm NO_x emission level in the 1982 model year. If anything, an increase in vehicle weight tends to put upward pressure on NO_x emissions. If, as the technical analysis for the second NO_x waiver decision shows, VW is unable to meet the 1.0 gpm NO_x standard in model year 1982 with the 1.6L NA and TC engines used in the 2500 l.W. Dasher, there is no reason to believe that it would be any more able to meet the standard with the same engines installed in a heavier Dasher which is otherwise of identical design.[22]

As a result, I may conclude that unless any additional NO_x control techniques have become available for the three 1982 model year VW vehicle classes at issue here since EPA rendered the second decision, these vehicle classes also are incapable of meeting the 1982 model year emission standards.

In its present application, VW submitted emission data generated since the last waiver decision on prototype vehicles tested over extended mileage for which VW submitted data in the prior waiver proceedings, as well as similar emission data on two new Dasher 1.6L–NA test vehicles. The data indicate that although the EGR-equipped vehicles tend to produce lower levels of NO_x than non-EGR-equipped vehicles with otherwise identical engine designs, the EGR vehicles still do not meet a 1.0 gpm NO_x standard.[25] Catalyzed trap oxidizer technology may permit VW to meet the 1.0 gpm NO_x standard by permitting the use of more EGR on its 1.6L engine families without increasing particulates or HC and without reducing fuel economy.[26] However, VW reiterated in its application that it is improbable that any add-on technology such as EGR, catalysts or trap oxidizers could be developed and installed on production vehicles by the 1982 model year.[27] In its application, VW described research that Ricardo, a private contractor, carried out on combustion chamber modifications.[28] This research was carried out as part of VW's effort to reach the 1.0 gpm NO_x standard in steps by improving combustion. VW has already incorporated the results of the Ricardo study, as well as the results of its own examination of fuel injection equipment modifications, into the designs for its development engines.[29] Even with combustion chamber design optimization, VW asserted that the data collected from a development vehicle fitted with the optimized calibrations indicate that the vehicle would still not, according to a Monte Carlo analysis, demonstrate an adequate likelihood of being able to meet 1982 model year statutory emission standards.[30]

VW has requested waivers to an interim level of 1.4 gpm NO_x for the vehicle classes in question.[29] No information contained in the record indicates that VW can employ any other technological improvements which might enable these vehicle classes to meet a 1.0 gpm NO_x standard in conjunction with other applicable emission standards in the 1982 model year. Further, granting these waivers will give VW the opportunity to use California as a "pilot market" in model year 1982 for emission control technology it will use nationally in model year 1983.[30] Therefore, I conclude after an analysis of the information in the record that effective emissions control technology is not available in model year 1982 for these vehicle classes to meet interim NO_x standards below 1.4 gpm.[31] As a result, I have determined that VW needs waivers of the 1982 model year statutory NO_x standard to 1.4 gpm in order to permit marketing of the three vehicle classes that are the subject of this decision.

B. Endangerment to Public Health

In order to grant a waiver request, section 202(b)(6)(B)(i) requires me to determine that a waiver of the statutory NO_x standard of 1.0 gpm would not endanger public health. Congress intended my assessment of this criterion to include consideration of the potential health effects of unregulated pollutants from diesel engines as well as the health effects associated with increased NO_x emissions.[32]

1. *Oxides of Nitrogen (NO_x).* In the first two decisions, the Administrator concluded that the potential impact on ambient NO_x levels resulting from NO_x waivers which EPA granted to VW would not be significant.[33] Granting waivers for the vehicle classes listed above will not alter this conclusion. The potential impact on NO_x levels resulting from granting these additional waivers, even when combined with the impact from the waivers granted earlier, will not be significant.

2. *Particulates.* My main health concern in these proceedings relating to emissions from diesel engines is the potential increase in emissions of diesel particulates. A Federal light-duty diesel particulate standard of 0.6 gpm goes into effect in model year 1982. However, in assessing health risks in this waiver proceeding, I do not terminate my analysis with a determination that the vehicle classes for which VW requested a waiver will not exceed the 1982 model year particulate standard, since the particulate standard was set on the basis of available technology rather than on the basis of public health.[34]

As discussed in the prior NO_x waiver decisions, there are serious concerns over the carcinogenic potential of diesel

[20] Second decision at 34720.

[21] See Appendix A, Table II–2 of my Second decision at 34738 and Appendix A, § IV, at 34737–34743.

[22] Appendix A, § V of the Second decision at 34748.

[23] In applying for a waiver to an interim standard of 1.4 gpm NO_x, VW is agreeing to a standard that is likely to be slightly more difficult to meet with heavier Dasher classes that fall in the 2750 l.W. class than with the lighter model in the 2500 l.W. 1.6L vehicle classes which EPA granted waivers in the second decision.

[29] VW App., 10.

[30] VW App., 6, 28.

[30] VW app., 6, 25. The Monte Carlo analysis is a statistical technique EPA has used to determine the likelihood, based on available extended-mileage emission data, that a given vehicle design will, for a given pollutant, pass EPA's "durability" testing requirements for certification purposes. For a more complete explanation, see Orig. decision at 5484. The particular Monte Carlo analysis noted here was performed by VW as part of its own emissions control research, rather than by EPA.

[29] VW App., 5.1. VW still does not plan on using EGR on its 49-state vehicles to achieve its requested interim standard in model year 1982. VW App., 10.

[32] See Second decision at 34722.

[31] See Second decision at Appendix A, § V, 34747–34749.

[32] See, e.g., H.R. Rep. No. 294, 95th Cong. 1st Sess, 19, 237, 250–51 (1977); S. Rep. No. 127, 95th Cong., 1st Sess. 70 (1977).

[33] Original decision at 5488–88; Second decision at 34722.

[34] 45 FR 14496 (March 5, 1980).

particulates, as well as their potential for increasing the incidence and severity of respiratory ailments.[36] It is also undisputed that the projected increase in light-duty diesel vehicle production will increase ambient total suspended particulates and consequently human exposure to respirable particulates.[36] These factors have convinced me to take action, where appropriate, that would minimize particulate emissions from light-duty diesels.

In the original decision the Administrator noted that to the extent waivers are granted, the applicants will be able to market diesel vehicles that emit more particulates than would gasoline powered vehicles. However, my assessment of the risk presented by these emissions must be made in light of the greater risk posed by the particulate emission levels that might result from waiver denial.[37]

If I deny a waiver, an applicant may attempt to manufacture the diesels and successfully certify them in compliance with the 1.0 gpm NO_x standard. Given the large sums that have been invested to develop and market these vehicles, a manufacturer might make a concentrated effort to meet the 1.0 gpm NO_x standard using technology such as EGR that has the potential to place upward pressure on particulate emissions.[38] This could result in total particulate emissions being greater if a wavier were denied than if one were granted.

EPA concluded in the second decision that granting VW's NO_x waiver requests was more protective of the public health than waiver denial, since VW had significant incentives to go ahead with production utilizing emission control technology that employed EGR, which exhibited significantly higher particulate emissions than the non-EGR technology VW planned to introduce if a waiver were granted.[39] This conclusion remains valid in the present waiver proceeding, since VW still cannot achieve 1.0 gpm NO_x for its 1.6L vehicle classes using combustion chamber modification techniques alone.[40]

C. Fuel Economy and Long-Term Air Quality Benefit

Under section 202(b)(6)(B), in order to grant a waiver of the NO_x standard I must find that granting the waiver will result in significant fuel savings, and that the diesel engine technology employed has the potential for long-term air quality benefit.[41] EPA concluded in the second decision that VW's 1.6L vehicle classes would be capable of meeting or bettering the fuel economy standards in both the long and the short term.[42] EPA also concluded that there was a substantial likelihood that the VW engine families for which waivers were granted would meet all applicable Federal emission standards at the end of the waiver period.[43] There is no substantive difference in the vehicle classes which I am now considering from the 1.6L-TC and 1.6L-NA vehicle classes discussed in the second decision that would alter these conclusions.

IV. Final Decision and Amended Rule

Section 202(b)(6)(B) of the Act grants me the authority to waive the statutory standard of 1.0 gpm NO_x and to prescribe interim standards which provide that NO_x emissions may not exceed 1.5 gpm for any class or category of diesel light-duty vehicles or engines manufactured during model years 1981, 1982, 1983 and/or 1984 which meet the statutory waiver criteria. VW requested that I modify the waiver "designation scheme" to prevent further problems such as those which prompted the present waiver application.[44]

VW suggested that the waiver designation scheme should be modified in the following manner so that any VW engine family whose entire sales are within a given range of inertia weight classes could be certified to the same waived standard: [45]

Model year	I.W.C. range	Standard
1981, 1982	<2250	1.3
1981, 1982	2400–2750 (inclusive)	1.4
1981, 1982	>3000	1.5

I have decided not to change the VW waiver designations as VW suggested for a number of reasons. First, VW does not provide any limits (other than inertia weight class) on the engine families which waivers would cover under its suggested waiver designation scheme. As a result, if I make the suggested modifications, VW might be able to market an engine family with a different displacement in one of the specified inertia weight class ranges that could achieve emission levels lower than the waived standard. Second, VW's suggested scheme would cover vehicles in inertia weight classes below 2250 pounds. I do not have any data before me on the emissions characteristics of light weight vehicles that would fall in inertia weight classes below 2250 pounds. VW might produce vehicles in that range which would be capable of achieving better NO_x control than VW showed could be achieved by vehicles at the heavier end of the same inertia weight class range.

Despite VW's suggestion that its scheme could avoid the need for conducting new waiver proceedings should VW again modify the inertia weights of some of its vehicle classes in a manner that would not improve the emission control capabilities of those classes, I am not adopting VW's suggestion due to the potential that the waivers then might also extend to vehicle classes that would not be entitled to waivers if examined individually. Further, there is no evidence that VW indeed plans any further design changes which would affect only inertia weight and would not improve emission control capabilities. Thus, the benefits from VW's suggestion are still hypothetical at this point and do not outweigh the suggestion's potential disadvantages, which I have discussed above.

Based upon the foregoing discussion of the classes or categories for which VW requested waivers, I am granting waivers and simultaneously promulgating interim standards for light-duty diesel vehicle classes for model year 1982 as follows:

Manufacturer	Engine family	Interim standard (gram per mile)
VW	1.6L-NA-2750 I.W.	1.4
VW	1.6L-NA-2500 I.W.	1.4
VW	1.5L-TC-2750 I.W.	1.4

[35] For example, See Original decision at 5489. As EPA has said previously, the uncertainty surrounding the potential health risk posed by diesel particulates warrants a cautious approach in regulating the vehicles which produce them.

[36] See Original decision at 5489.

[37] See Original decision at 5490.

[38] This is a real possibility, notwithstanding EPA's evaluation of VW's technological capabilities. The Monte Carlo evaluation is purposely conservative to assure that an engine classified as a "pass" would almost certainly meet certification requirements. In fact, VW planned to produce several vehicle classes at the 1.4 gpm interim standard it requested and received in my second decision even though the engines "failed" the Monte Carlo analysis at 1.4. Second decision at 34722 n. 38.

[39] Second decision at 34723.

[40] VW App., 20.

[41] For a full discussion of these criteria, see Original decision at 5493, Second decision at 34723.

[42] Second decision at 34723.

[43] Second decision at 34724.

[44] VW App., 5.1–5.2.

[45] Id. Presumably VW wishes to avoid having to reapply for waivers if it should decide in the future to modify inertia weights of some of its vehicle classes in a manner that would not improve the emission capabilities of those classes, but would remove them from the category for which waivers had already been granted.

Dated: March 6, 1981.
Walter C. Barber, Jr.,
Acting Administrator.

FEDERAL COMMUNICATIONS COMMISSION

[PR Docket No. 81-128, File Number 537-A-L-70 and PR Docket No. 81-129, File Number 540-A-L-80]

Santa Barbara Aviation, Inc., and Apollo Airways, Inc.; Application for an Aeronautical Advisory Station To Serve Santa Barbara Municipal Airport, Goleta, Calif.

Adopted: February 26, 1981.
Released: March 5, 1981.

1. Santa Barbara Aviation, Inc. (hereafter Santa Barbara) and Apollo Aviation, Inc. (hereafter Apollo) have filed applications for a new Aeronautical Advisory Station at Santa Barbara Municipal Airport, Goleta, California. Since § 87.251(a) of our rules provides that only one aeronautical advisory station may be authorized at an airport, the above-captioned applications are mutually exclusive. Accordingly, it is necessary to designate these applications for comparative hearing in order to determine which, if any, should be granted.

2. In view of the foregoing, it is ordered, That pursuant to the provisions of Section 309(e) of the Communications Act of 1934, as amended, and § 0.331 of the Commission's Rules, the above-captioned applications are hereby designated for hearing in a consolidated proceeding at a time and place to be specified in a subsequent Order on the following comparative issues:

(a) To determine which applicant would provide the public with better aeronautical advisory service based on the following considerations:

(1) Location of the aviation service organization and the proposed radio station in relation to the landing area and traffic patterns;

(2) Hours of operation;

(3) Personnel available to provide advisory service;

(4) Experience of applicant and employees in aviation and aviation communications, including but not limited to operation of stations in the Aviation Services (Part 87) that may be or have been authorized to the applicant;

(5) Ability to provide information pertaining to primary and secondary communications as specified in § 87.257 of the Commission's rules;

(6) Proposed radio system including control and dispatch points; and

(7) The availability of the radio facilities to other aviation service organizations;

(b) To determine in light of the evidence adduced on the foregoing issues which of the applications should be granted.

3. It is further ordered, That the burden of proof and the burden of proceeding with the introduction of evidence is on each applicant with respect to its application except issue (b) which is conclusory.

4. It is further ordered, That to avail themselves of an opportunity to be heard, Santa Barbara and Apollo pursuant to § 1.221(c) of the Commission's rules, in person or by attorney, shall within 20 days of the mailing of this Order, file with the Commission, in triplicate, a written appearance stating an intention to appear on the date set for hearing and present evidence on the issues specified in this Order. Failure to file a written appearance within the time specified may result in dismissal of the application with prejudice.

By the Federal Communications Commission.
Carlos V. Roberts,
Chief, Private Radio Bureau.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Health Care Financing Administration

Pharmaceutical Reimbursement Board; Suspension of Maximum Allowable Cost Limits on Specific Drug Products

AGENCY: Health Care Financing Administration (HCFA), HHS.

ACTION: Suspension of maximum allowable cost limit on griseofulvin, microcrystalline, oral tablets, 500 mg.

SUMMARY: The Pharmaceutical Reimbursement Board hereby suspends the Maximum Allowable Cost (MAC) limit on griseofulvin, microcrystalline, oral tablets, 500 mg. The limit for this drug product was published October 24, 1980, (FR 70574–70584) and the effective date of the limit was to be December 8, 1980.

The suspension of the MAC limit for griseofulvin, microcrystalline, oral tablets, 500 mg, results from a recent price increase for this product by Ayerst Laboratories, the only approved alternate supplier for this product whose price was within the established MAC limit.

The Pharmaceutical Reimbursement Board may reinstitute procedures to establish a new MAC limit on this product.

FOR FURTHER INFORMATION CONTACT: Mr. Charles Spalding, Acting Executive Secretary, Pharmaceutical Reimbursement Board, 1–D–5 East Low Rise, 6401 Security Boulevard, Baltimore, Maryland 21235 (301) 594–5403.

Dated: March 6, 1981.
Peter J. Radler,
Chairman, Pharmaceutical Reimbursement Board.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. D–81–640]

Acting Area Manager, Region IV (Atlanta); Designation for Greensboro Area Office

AGENCY: Department of Housing and Urban Development.

ACTION: Designation.

SUMMARY: Updates the designation of officials who may serve as Acting Area Manager for Greensboro Area Office. The revision is necessary in order to expand the coverage in the absence of the Area Manager.

EFFECTIVE DATE: December 15, 1980.

FOR FURTHER INFORMATION CONTACT:
George A. Milburn, Jr., Director, Management and Budget Division, Office of Regional Administration, Atlanta Regional Office, Department of Housing and Urban Development, Room 664, Richard B. Russell Federal Building, 75 Spring Street, SW., Atlanta, Georgia 30303, 404–221–5199.

Designation of Acting Area Manager for Greensboro Area Office

Each of the officials appointed to the following positions is designated to serve as Acting Area Manager during the absence of, or vacancy in the position of, the Area Manager, with all the powers, functions, and duties redelegated or assigned to the Area Manager: Provided, That no official is authorized to serve as Acting Area Manager unless all officials listed before him/her in this designation are unavailable to act by reason of absence or vacancy in the position:

1. Deputy Area Manager.
2. Director, Housing Division.
3. Director, Community Planning and Development Division.
4. Area Counsel.
5. Deputy Director of Housing for Development.
6. Deputy Director of Housing for Management.

This designation supersedes the designation effective June 18, 1978 (43 FR 39859, September 17, 1978).

(Delegation of Authority by the Secretary effective October 1, 1970 (36 FR 3380, February 23, 1971))

This designation shall be effective as of December 15, 1980.

Betsy H. Stafford,
Area Manager, Greensboro Area Office.

Geraldine G. Thompson,
Regional Administrator Region IV (Atlanta)

Office of the Assistant Secretary for Neighborhoods, Voluntary Associations and Consumer Protection

[Docket No. N–81–1062]

Consumer Forum on "Women and Affordable Housing in the '80s"

AGENCY: Department of Housing and Urban Development (HUD).

ACTION: Notice is given announcing a National Consumer Forum.

SUMMARY: The General Deputy Assistant Secretary for Neighborhoods, Voluntary Associations, and Consumer Protection is announcing a consumer forum on the topic of "Women and Affordable Housing in the '80s." The forum is scheduled for March 26–27, 1981 and the description of forum is stated in the Supplementary Information section below.

DATE OF FORUM: A Consumer Forum on "Women and Affordable Housing in the '80s" is scheduled to be held on Thursday and Friday, March 26–27, 1981 from 9:00 a.m. to 5:00 p.m. at the Capitol Holiday Inn, 550 C Street, SW, Washington, D.C.

ADDRESS: Joseph Smith, Director, Consumer Liaison Division, Office of Consumer Affairs, Room 4144, Department of Housing and Urban Development, 451 7th Street, SW, Washington, D.C. 20410.

FOR FURTHER INFORMATION CONTACT:
Alonzella Sneed, (202) 755–6996.

SUPPLEMENTARY INFORMATION: The two-day forum will focus on the special housing needs of female-headed families which are not being met either by the open housing market or by social programs aimed at assisting disadvantaged groups. Workshops will provide information on current HUD housing programs, and how low- and moderate-income women and women's organizations can better utilize them. Alternate financing strategies for increasing the supply of low cost housing will also be discussed.

The forum on "Women and Affordable Housing in the '80s" will be open to the public.

Issued at Washington, D.C., March 5, 1981.

William O. Anderson,
General Deputy Assistant Secretary for Neighborhoods, Voluntary Associations and Consumer Protection.

BILLING CODE 4210–01–M

Office of the Secretary

[Docket No. N–81–1063]

Privacy Act of 1974; New System of Records

AGENCY: Department of Housing and Urban Development.

ACTION: Notification of new system of records.

SUMMARY: The Department is giving notice of a new system of records it intends to maintain which is subject to the Privacy Act of 1974.

EFFECTIVE DATE: The system shall become effective without further notice on April 11, 1981, unless comments are received on or before that date which would result in a contrary determination.

ADDRESS: Rules Docket Clerk, Room 5218, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

FOR FURTHER INFORMATION CONTACT:
Robert English, Departmental Privacy Act Officer; Telephone 202–557–0605. This is not a toll free number.

SUPPLEMENTARY INFORMATION: The system is Elderly Home Maintenance Demonstration Evaluation Data Files which will contain information about Elderly Home Maintenance Demonstration participants and their homes. The purposes for collecting this information are threefold: (1) to determine how the cost of providing repair services are affected by the type of local agency and the characteristics of elderly participants and their homes; (2) to determine the local agencies' priorities for the repairs performed and how these compare with the perceived needs of participants; and (3) to determine participant perceptions of and satisfaction with the demonstration. All of the information contained in reports produced from the system will be representative and will not identify specific individuals. Appendix A, which lists the addresses of HUD's Offices was published at 45 FR 67626 (October 10,

1980). A new system report was filed with the Speaker of the House, the President of the Senate and the Office of Management and Budget on February 5, 1981.

HUD/PD&R-6

SYSTEM NAME:

Elderly Home Maintenance Demonstration Evaluation Data Files.

SYSTEM LOCATION:

Urban Systems Research & Engineering, Inc. (USR&E), Cambridge, Massachusetts.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

The system will contain data on Elderly Home Maintenance Demonstration (EHMD) participants and their homes from seven local service agencies.

CATEGORIES OF RECORDS IN THE SYSTEM:

Pre-demonstration and post-demonstration interview files will contain the following types of data on program applicants and their homes: name and address and identifier code number, home repair needs, income amount by source, housing characteristics, health status, household composition and family status. Interviews will also record disability type, disability status, and race. All these data are used by the local service agencies to assist with and improve service delivery and will be used to produce demonstration evaluation reports to the Department of Housing and Urban Development.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Sections 501 and 502 of the Housing Act of 1970.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To the HUD contractor for program evaluation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

In file folders and on magnetic tape/disc.

RETRIEVABILITY:

Records will be retrieved by identifier code number. Lists with names and addresses and identifier code will be provided separately by the local agencies and maintained separately. These lists are necessary to identify participants for the post-demonstration interview.

SAFEGUARDS:

System manual files will be kept in locked cabinets in a secured area; computer records will be maintained in a secured area. Access to either type of record will be restricted to authorized personnel. Lists with names and addresses and identifier codes will be kept separate from the manual files under lock and key. In all cases, name and address will be detached from the manual files and stored in a separate locked cabinet.

RETENTION AND DISPOSAL:

Once pre and post-demonstration interviews have been merged, names and addresses will be destroyed. Any stored data will not contain identifying names and/or addresses. Manual and automated records will be retained in accordance with officially approved mandatory standards contained in HUD Handbooks 2225.6 and 2228.2.

SYSTEM MANAGERS AND ADDRESS:

Director, Division of Housing Management and Special Users Research, TRS, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

NOTIFICATION PROCEDURE:

For information, assistance or inquiry about existence of records, contact the Privacy Act Officer at the Headquarters location, in accordance with 24 CFR Part 16. This location is given in Appendix A.

RECORD ACCESS PROCEDURES:

The Department's rules for providing access to records to the individual concerned appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at Headquarters. This location is given in Appendix A.

CONTESTING RECORD PROCEDURES:

The Department's rules for contesting the contents of records and appealing initial denials, by the individual concerned appear in 24 CFR Part 16. If additional information or assistance is needed, it may be obtained by contacting: (i) in relation to contesting contents of records, the Privacy Act Officer at the Headquarters location. This location is given in Appendix A, (ii) in relation to appeals in initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

RECORD SOURCE CATEGORIES:

Demonstration participants.

(5 U.S.C. 552a, 88 Stat. 1896; Sec. 7(d), Department of HUD Act (42 U.S.C. 3535(d)))

Issued at Washington, D.C., March 6, 1981.

Vincent J. Hearing,

Deputy Assistant Secretary for Administration.

INTERNATIONAL COMMUNICATION AGENCY

Culturally Significant Objects Imported for Exhibition

Determination

Notice is hereby given of the following determination: Pursuant to the authority vested in me by the act of October 19, 1965 (79 Stat. 985, 22 U.S.C. 2459) and Executive Order 12047 of March 27, 1978 (43 FR 13359, March 29, 1978), I hereby determine that the objects in the exhibit, "Renaissance of Islam: Art of the Mamluks" (included in the list [1] filed as a part of this determination) imported from abroad for the temporary exhibition without profit within the United States are of cultural significance. These objects are imported pursuant to loan agreements between foreign lenders and the Smithsonian Institution, Washington, D.C. I also determine that the temporary exhibition or display of the listed exhibit objects at various museums in the United States beginning on or about May 14, 1981, to on or about May 29, 1983, is in the national interest.

Public notice of this determination is ordered to be published in the Federal Register.

Dated: March 9, 1981.

John W. Shirley,

Acting Director.

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

Irrigation Operation and Maintenance Charges; Water Charges and Related Information on Fort Hall Irrigation Project, Idaho

This Notice of operation and maintenance rates and related information is published under the authority delegated by the Secretary of the Interior to the Assistant Secretary—Indian Affairs in 230 DM 1 and redelegated by the Assistant Secretary—Indian Affairs to the Area Directors in 10BIAM 3. The authority to

[1] An itemized list of objects included in the exhibit is filed as part of the original document.

issue regulations is vested in the Secretary of the Interior by 5 U.S.C. 301 and Sections 463 and 465 of the Revised Statutes (25 U.S.C. 2 and 9), and also under 25 CFR 191.1(e).

On January 8, 1981, in 46 FR 2194, there was published a notice of proposed assessment rates and related provisions on the Fort Hall Irrigation Project for Calendar Year 1981 and subsequent years until further notice. These assessment rates were proposed pursuant to the authority contained in the Acts of August 1, 1914, (38 Stat. 583), and March 7, 1928 (45 Stat. 210).

Interested persons were given 30 days in which to submit written comments, views or arguments regarding the proposed rates and related provisions. During this period no comments, suggestions, or objections were submitted. Therefore, the assessment rates and related provisions as set forth below are adopted effective April 13, 1981.

Fort Hall Irrigation Project—Regulations and Charges

Administration

The Fort Hall Irrigation Project, which consists of the Fort Hall Unit including ceded area south of the Fort Hall Indian Reservation, the Michaud Unit and the Minor Units on the Fort Hall Indian Reservation, Idaho, is administered by the Bureau of Indian Affairs. The Superintendent of the Fort Hall Agency is the Officer-in-Charge and is fully authorized to carry out and enforce the regulations, either directly or through employees designated by him. The general regulations are contained in Part 191, Operation and Maintenance, Title 25—Indians, Code of Federal Regulations (42 FR 30362, June 14, 1977).

Irrigation Season

Water will be available for irrigation purposes from April 15 to September 30 of each year. These dates may be varied by 15 days depending on weather conditions and the necessity for doing maintenance work.

Methods of Irrigation

Where soil, topography, and other physical conditions are unfavorable for surface irrigation, and the project facilities are designed to deliver water to farm units for sprinkler irrigation, the Officer-in-Charge may limit deliveries to this type of irrigation.

Distribution and Apportionment of Water

(a) *Delivery:* Water for irrigation purposes will be delivered throughout the irrigation season by either the continuous flow or rotation method at the discretion of the Officer-in-Charge. If during a time when delivery is by the rotation method, a water user desires to loan his turn to another eligible water user, he shall notify either the watermaster or the ditch rider who may permit such exchange, if feasible.

(b) *Preparation and Submission of a Water Schedule:* If the decision of the Officer-in-Charge is to deliver water by the rotation method, the watermaster will assist the water users on each lateral in preparing a rotation schedule should they choose to get together and prepare the schedule. In cases where the water users fail to exercise this right before March 1, the watermaster will prepare the schedule which shall be final for the season. Owners of 120 acres or more in one farm unit may elect between the continuous flow and rotation method of delivery, provided such choice does not interfere with delivery to other lands served by the lateral.

(c) *Application for Deliveries of Irrigation Water:* Requests for water changes will be made at least 24 hours in advance. Not more than one change will be made per day. Changes will be made only during the ditch rider's regular tour. Pump shut-down, regardless of duration, without the required notice will result in the delivery being closed and locked. Repeated violations of this rule will result in strict enforcement of rotation schedules. Water users will change their sprinkler lines without shutting off more than one-half of their lines at one time. Sudden and unexpected changes in ditch flow results in operating difficulties and waste of water.

Duty of Water

Dependent upon available supplies of water for each unit of the Project, the duty of water is based on the delivery to the farm unit of 3.5 acre-feet of water per acre per irrigation season. This duty of water may be varied at the discretion of the Officer-in-Charge depending on supplies available, but each irrigable acre shall be entitled to its pro-rata share of the total water supply.

Charges

Bill covering irrigation charges will be issued to the owner of record taken from the Bannock, Bingham or Power County records as of December 31, preceding the due date. In the case of Indian-owned land leased to a non-Indian, when an approved lease contract is on file with the Superintendent of the Fort Hall Agency, operation and maintenance charges will be billed to the lessee of record.

Basic and Other Water Charges

(a) The annual basic water charges for the operation and maintenance of the Fort Hall Irrigation Project lands in non-Indian ownership, and assessable Indian-owned lands leased to a non-Indian or a non-member of the Shoshone-Bannock Tribes of the Fort Hall Indian Reservation, Idaho, are fixed for the Calendar Year 1981 and subsequent years until further notice as follows:

(1) Fort Hall Unit basic rate, $15.35 per acre;

(2) Michaud Unit basic rate, $19.15 per acre; additional rate for sprinkler when pressure is supplied by project, $8.35 per acre; and

(3) Minor Units basic rate, $13.50 per acre.

(b) In addition to the foregoing charges there shall be collected a minimum charge of $5 for the first acre, or fraction thereof, on each tract of land for which operation and maintenance bills are prepared. The minimum bill issued for any area will, therefore, be the basic rate per acre plus $5.

Payments

The water charges become due on April 1 of each year and are payable on or before that date. To all assessments on lands in non-Indian ownership, and lands in Indian ownership which do not qualify for free water, remaining unpaid on or after July 1 following the due date, there shall be added a penalty of one and one-half percent per month, or fraction thereof, from the due date until paid. No water shall be delivered to any farm unit until all irrigation charges have been paid.

Assessments on Indian Owned Land

When land owned by members of the Shoshone-Bannock Tribes of the Fort Hall Indian Reservation is first leased to non-Indians or non-members of the tribe, and an approved lease is on file at the Fort Hall Agency, the leased land is not subject operation and maintenance assessments for three years. The three years the land is not subject to assessment need not run consecutively. When land has been leased for a total of three years, the land, when under lease to non-Indians or non-members of the tribe, is subject to operation and maintenance assessments the same as lands on non-Indian ownership and lands owned by non-members of the tribe within the project. (See Solicitor's Opinion M 28701, approved September 24, 1936, and the instructions of September 19, 1938, approved September 24, 1938, and instructions of

December 1, 1938, approved December 17, 1938).

Richard M. Baisiger,

Acting Area Director.

BILLING CODE 4310-02-M

Irrigation Operation and Maintenance Charges; Water Charges and Related Information on the Wapato Irrigation Project, Washington

This notice of operation and maintenance rates and related information is published under the authority delegated by the Secretary of Interior to the Assistant Secretary—Indian Affairs in 230 DM 1 and redelegated by the Assistant Secretary—Indian Affairs to the Area Directors in 10BIAM 3. The authority to issue regulations is vested in the Secretary of the Interior by 5 U.S.C. 301 and Section 463 and 465 of the Revised Statutes (25 U.S.C. 2 and 9), and also under 25 CFR 191.1(e).

On November 26, 1980, in 45 FR 78611, there was published a notice of proposed assessment rates and related provisions on the Wapato Irrigation Project for Calendar Year 1981 and subsequent years until further notice. These assessment rates were proposed pursuant to the authority contained in the Acts of August 1, 1914, (38 Stat 583), and March 7, 1928, (45 Stat. 210).

Interested persons were given 30 days in which to submit written comments, views or arguments regarding the proposed rates and related provisions. During this period no comments, suggestions, or objections were submitted. Therefore, the assessment rates and related provisions as set forth below are adopted effective April 13, 1981.

Wapato Irrigation Project—General

Administration

The Wapato Irrigation Project, which consists of the Ahtanum Unit, Toppenish-Simcoe Unit, and Wapato-Satus Unit within the Yakima Indian Reservation, Washington, is administrated by the Bureau of Indian Affairs. The Project Engineer of the Wapato Irrigation Project is the Officer-in-Charge and is fully authorized to carry out and enforce the regulations, either directly or through employees designated by him. The general regulations are contained in Part 191, Operation and Maintenance, Title 25—Indians, Code of Federal Regulations (42 FR 30362, June 14, 1977).

Irrigation Season

Water will be available for irrigation purposes from April 1 to September 30 each year. These dates may be varied as much as 20 days when weather conditions and the necessity for doing maintenance work warrants doing so.

Request for Water Delivery and Changes

Requests for water delivery and changes will be made at least 24 hours in advance. Not more than one change will be made per day. Changes will be made only during the ditchrider's regular tour. Pump shut-down, regardless of duration, without the required notice will result in the delivery being closed and locked. Repeated violations of this rule will result in strict enforcement of rotation schedules. Water users will change their sprinkler lines without shutting off more than one-half of their lines at one time. Sudden and unexpected changes in ditch flow results in operating difficulties and waste of water.

Time for Payment of Water Charges

The assessments fixed by these regulations shall become due April 1 of each year and are payable on or before that date. To all charges assessed against lands in patent in fee ownership, and those paid by lessees of Indian lands direct to the project office, remaining unpaid on July 1 following the due date, there shall be added a penalty of one and one-half percent for each month, or fraction thereof, from the due date until the charges are paid.

Charges for Special Services

Charges will be collected for various special services requested by the general public, water users and other organizations during the Calendar Year 1981 and subsequent years until further notice, as detailed below:

(1) Requests for irrigation accounts and status reports, per report, $15;

(2) Requests for verification of account delinquency status, per report, $10;

(3) Requests for splitting of operation and maintenance bills (in addition to minimum billing fee), per bill, $10;

(4) Requests for billing of operation and maintenance to other than owner or lessee of record (in addition to minimum billing fee), per bill, 10;

(5) Requests for other special services similar to the above, when appropriate, per report, $10; and

(6) Requests for elimination of lands from the Project. In the event that the elimination is approved, a portion of the fee will be used to pay the Yakima County Recording Fee ($10).

Ahtanum Unit

Charges

(a) The operation and maintenance rate on lands of the Ahtanum Irrigation Unit for the Calendar Year 1981 and subsequent years until further notice is fixed at $6.25 per acre per annum for land to which water can be delivered from the project works.

(b) In addition to the foregoing charges there shall be collected a minimum charge of $5 for the first acre, or fraction thereof, on each tract of land for which operation and maintenance bills are prepared. The minimum bill issued for any area will, therefore, be the basic rate per acre plus $5.

Toppenish-Simcoe Unit

Charges

(a) The operation and maintenance rate for the lands under the Toppenish-Simcoe Irrigation Unit for the Calendar Year 1981 and subsequent years until further notice, is fixed at $6.25 per acre per annum for land for which an application for water is approved by the Project Engineer.

(b) In addition to the foregoing charges there shall be collected a minimum charge of $5 for the first acre, or fraction thereof, on each tract of land for which operation and maintenance bills are prepared. The minimum bill issued for any area will, therefore, be the basic rate per acre plus $5.

Wapato-Satus Unit

Charges

(a) The basic operation and maintenance rates on assessable lands under the Wapato-Satus Unit are fixed for the Calendar Year 1981 and subsequent years until further notice as follows:

(1) Minimum charge for all tracts, $20.50;

(2) Basic rate upon all farm units or tracts for each assessable acre except Additional Works lands, $20.50;

(3) Rate per assessable acre for all lands with storage water rights, known as "B" lands, in addition to other charges per acre, $2.20; and

(4) Basic rate upon all farm units or tracts for each assessable acre of Additional Works lands, $21.60.

(b) In addition to the foregoing charges there shall be collected a minimum charge of $5 for the first acre, or fraction thereof, on each tract of land for which operation and maintenance bills are prepared. The minimum bill issued for any area will, therefore, be the basic rate per acre plus $5.

Assessable Lands

The Assessable lands of the Wapato-Satus Unit are classified under these regulations as follows:

(a) All Indian trust (A and B) land designated as assessable by the Secretary of the Interior, except land which has never been cultivated if in the opinion of the Project Engineer the cost of preparing such land for irrigation is so high as to preclude its being leased at this time for agricultural purposes.

(b) All Indian trust (A or B) land not designated as assessable by the Secretary of the Interior for which application for water is pending or on which assessments had been charged the preceding year.

(c) All patent in fee land covered by a water right contract, except on land that because of inadequate drainage is no longer productive. The adequacy of the drainage is determined by the Project Engineer.

(d) At the discretion of Project Engineer and upon the payment of charges, patent in fee land for which an application for a water right or modification of a water right contract is pending.

Richard M. Balsiger,

Acting Area Director.

BILLING CODE 4310-02-M

Bureau of Land Management

Coal Exploration License Application M 50086(ND), North Dakota; Invitation

March 6, 1981.

Members of the public are hereby invited to participate with The Nokota Company in a program for the exploration of coal deposits owned by the United States of America in the following-described lands located in Dunn County, North Dakota:

T. 144 N., R. 93 W., 5th P.M.,
Sec. 6, Lots 3,4,5,6,7, SE¼NW¼, E½SW¼.
T. 145 N., R. 93 W., 5th P.M.,
Sec. 32, SE¼;
Sec. 34, NE¼.
T. 144 N., R. 94 W., 5th P.M.,
Sec. 12, S½;
Sec. 14, SW¼;
Sec. 22, E½.

Any party electing to participate in this exploration program shall notify, *in writing*, both the State Director, Bureau of Land Management, P.O. Box 30157, Billings, Montana 59107, and The Nokota Company, 316 North 5th Street, P.O. Box 1633, Bismarck, North Dakota 58502. Such written notice must refer to serial number M 50086(ND) and be received no later than April 11, 1981 or 10 calendar days after the last publication of this Notice in this newspaper, whichever is later. This Notice will be published for two consecutive weeks.

The proposed exploration plan is fully described and will be conducted pursuant to an exploration plan to be approved by U.S. Geological Survey and the Bureau of Land Management. Copies of the exploration plan as submitted by The Nokota Company may be examined during normal business hours at the Bureau of Land Management State Office, Granite Tower Building, 222 North 32nd Street, Billings, Montana.

Roland F. Lee,

Chief, Branch of Lands and Minerals Operations.

BILLING CODE 4310-84-M

Amended Notice of Intent To Prepare a Vegetative Allocation Environmental Impact Statement for the Big Dry Resource Area, Montana

1. Purpose of the Action

The Bureau of Land Management, Miles City District Office, will be preparing a Vegetation Allocation Environmental Impact Statement (EIS) for the Big Dry Resource area within the central portion of eastern Montana to analyze the environmental consequences of allocating vegetation to each competing use on approximately 1,750,000 acres of public lands. Supportive measures for implementation of an allocation process consist of fencing and water developments, and may include mechanical or chemical land treatments.

Potential alternatives being considered for analysis include: (1) No Action—This is defined as freezing the existing range program as it is today. No new range improvements would be constructed. Changes in levels of livestock use would not be allowed, regardless of need. (2) No Grazing—This is the exclusion of all domestic livestock grazing from Public lands within the Resource Area. (3) Enhanced Watershed Value and Wildlife Habitat—The major emphasis would be placed on watershed, wildlife, and to a limited degree, recreation. (4) Enhanced Livestock Forage—This would emphasize forage production for domestic livestock through the development of range improvements wherever they are feasible. (5) Enhanced Combined Vegetation Uses—This alternative would allow the Bureau to analyze the consequences of a middle course between alternatives 3 and 4 by analyzing a "mix" of vegetation allocations and accelerated range management activities. (6) Continuation of Present Management—This would examine what would happen to the environment on 1.1 million acres with continued use of the existing range management program on 759 allotments.

A preferred action will be chosen by the Miles City District Manager for discussion in the draft EIS.

2. Scoping Process

The following steps will be utilized to accomplish the scoping process:

(a) Open House planning and scoping meetings for the purpose of soliciting public input to issue identification and selection of alternative approaches for analysis in the EIS will be conducted. Meetings will be held March 24 in the Fallon County Library in Baker at 1 p.m. and March 23 in the Prairie County Grazing District Building in Terry at 2 p.m. A news release regarding public input to the EIS process will be issued by the Miles City District Office.

(b) Letters of invitation to participate in the EIS scoping process will be mailed to all affected federal, state and local agencies, public interest groups, and other interested persons concerning the issues of the Environmental Impact Statement.

Written comments on scoping will be accepted until April 1, 1981. Correspondence should be addressed to: Ray Brubaker, District Manager, P.O. Box 940, Miles City, Montana 59301.

Robert A. Teegarden,

Acting District Director.

BILLING CODE 4310-84-M

[INT DEIS 81-11]

Hualapai-Aquarius Grazing Management Program, Mohave and Yavapai Counties, Ariz.; Availability of Draft Environmental Impact Statement

Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969, the Bureau of Land Management has prepared a draft environmental impact statement for the Hualapai-Aquarius Planning Area. The proposal involves implementing a grazing management program on public lands within the Hualapai-Aquarius Planning Area of the Phoenix District in west central Arizona.

The Bureau of Land Management invites written comments on the draft statement to be submitted within 60 days of filing the statement with the Environmental Protection Agency, to the State Director, Bureau of Land Management, 2400 Valley Bank Center,

Phoenix, Arizona 85073. Comments will be accepted through May 7, 1981.

A limited number of copies are available upon request to the State Director at the above address or the District Manager, Bureau of Land Management, 2929 W. Clarendon Avenue, Phoenix, Arizona 85017.

Public reading copies will be available for review at the following locations:

Office of Public Affairs, Bureau of Land Management, Interior Building, 18th and C Streets, NW., Washington, D.C. 20240; Telephone (202) 343–5717

Arizona State Office, Bureau of Land Management, 2400 Valley Bank Center, Phoenix, Arizona 85073, Telephone (602) 261–3706

Phoenix District Office, Bureau of Land Management, 2929 W. Clarendon Avenue, Phoenix, Arizona 85017, Telephone (602) 241–2501

Oral and/or written comments will also be received at the formal public hearings to be held in Phoenix and Kingman, Arizona. The locations and time of the hearings will be published later.

A solicitor from the Department of the Interior will preside over the public hearings. Witnesses presenting oral comments should limit their testimony to ten (10) minutes. Written request to testify orally should be sent to the District Manager, Phoenix District Office, 2929 W. Clarendon Avenue, Phoenix, Arizona 85017.

Comments received on the draft environmental impact statement, whether written or oral, will be given equal consideration during preparation of the final environmental impact statement on the Proposed Grazing Management for the Hualapai-Aquarius Planning Area.

Clair M. Whitlock,

State Director.

BILLING CODE 4310-84-M

Resource Management Plan; Shoshone-Eureka Resource Area, Intent To Commence Land Use Planning

Description of the Proposed Planning Action

The Bureau of Land Management's Battle Mountain District Office is in the process of initiating the development of a comprehensive land use plan for the Shoshone-Eureka Resource Area as required by Section 202 of the Federal Land Management Act of 1976. The resource management plan is scheduled for completion in September of 1984. The resource management plan will be designed to direct programs and management practices for approximately a ten year period of time. In order to determine the impacts of the recommendations made in the plan, an Environmental Impact Statement will be prepared in conformance with the National Environmental Policy Act of 1969. Several complete, reasonable alternatives will be analyzed in the statement. A no action alternative will assess the consequences of continuing present resource uses and management. Other alternatives will provide a range of choices from those favoring resource protection to those favoring resource production.

The Geographic Area Covered by the Resource Management Plan

The Shoshone-Eureka Resource Area contains approximately 4,399,000 acres of public land located in north-central Nevada. It contains the towns of Austin, Eureka, and Battle Mountain. The area includes most of Lander and Eureka counties and a portion of Nye County.

General Types of Issues Anticipated

The major issues to be addressed in the plan will be identified after consultation with state and local government officials, Indian tribes, other Federal agencies, and interested members of the public. It is anticipated that the following issues will be addressed in the plan: the allocation of vegetation to wildlife, wild horses, and livestock, the disposition of lands identified as Wilderness Study Areas, and the designation of off-road vehicle use areas. Other issues may be identified through public participation.

Disciplines Represented on the Planning Team

The planning team will consist of individuals with expertise in the following disciplines: (1) range management, (2) environmental planning, (3) wildlife biology, (4) geology, (5) archaeology, (6) outdoor recreation, (7) wilderness management, (8) fire management, (9) forestry, (10) wild horse management, (11) soils, and (12) watershed management.

Public Participation

Public comment will be solicited during the identification of issues, the development of the criteria to guide the planning process, and upon publication of the draft plan and environmental impact statement. The time, dates, and locations of public meetings and other public participation opportunities have yet to be determined. Persons interested in participating in the planning process should submit their name and address for inclusion on the Shoshone-Eureka RMP mailing list to the address given below.

A complete file of the resource management plan documents will be maintained at both the Battle Mountain District Office and the Bureau of Land Management's Nevada State Office in Reno.

For more information about the planning effort please contact Mr. Richard Depaoli, Acting Shoshone-Eureka Area Manager, Bureau of Land Management, P.O. Box 194, Battle Mountain, Nevada 89820. Phone (702) 635–5181.

Date signed: March 2, 1981.

Michael C. Mitchell,

Acting District Manager, Battle Mountain District, Nevada.

Dinosaur National Monument; Lifting of Segregative Effect of Withdrawal for Project No. 524 in Utah

By order issued October 3, 1973 the Federal Energy Regulatory Commission vacated the land withdrawal for Project No. 524 insofar as it pertains to lands in Dinosaur National Monument.

Under the authority delegated by Bureau of Land Management Order No. 701, dated July 23, 1964 (29 FR 10526), as amended, notice is hereby given that the segregative effect of the withdrawal for Project No. 524 is lifted subject to the withdrawal for the Dinosaur National Monument insofar as it pertains to the following described lands.

Salt Lake Meridian, Utah

T. 4 S., R. 23 E.,
- Sec. 24, E½NE¼, SE¼SW¼ and SE¼;
- Sec. 25;
- Sec. 26, NE¼SE¼ and S½SE¼;
- Sec. 35, Lot 7, SE¼NE¼.

T. 4 S., R. 24 E.,
- Sec. 1, Lots 3, 4, 7, 8, 10, 11, SW¼NW¼;
- Sec. 2, Lots 1, 2, 5, S½NE¼, N½SE¼ and SW¼SE¼;
- Sec. 11, Lots 1–5, Area B, Part of Area A excluding W½SW¼, and E½NW¼;
- Sec. 12, N½NW¼;
- Sec. 14;
- Sec. 15, Area B, Part of Area A excluding N½;
- Sec. 16, Area B, Part of Area A excluding N½ & N½S½;
- Sec. 17, S½S½;
- Sec. 18, S½S½;
- Sec. 19;
- Sec. 20, Area A, Part of Area B excluding S½SW¼ & SE¼;
- Sec. 21, Area B, Part of Area A excluding S½ & S½N½;
- Sec. 22, N½N½;

Sec. 23, N½N½;
Sec. 30;
Sec. 31, Lots 1–4, NE¼NW¼.
T. 3 S., R. 25 E.,
Sec. 29, S½S½;
Sec. 30, Lots 1–8, N½SE¼;
Sec. 31;
Sec. 32;
Sec. 33, Lots 2–7, Area A.
T. 4 S., R. 25 E.,
Sec. 6, Lots 1–10, SE¼NE¼, NE¼SW¼ and E½SE¼.

The area aggregate 8,100 acres in Uintah County.

Dean E. Stepanek,

Acting State Director.

Colorado; Craig District Grazing Advisory Board; Meeting

Notice is hereby given in accordance with Public Law 92-463, that a meeting of the Craig District Grazing Advisory Board will be held on April 30, 1981. The meeting will convene at 10 a.m. in the conference room at the Bureau of Land Management Office, 455 Emerson Street, Craig, Colorado.

The agenda for the meeting will include: (1) the status of the district's wild horse program; (2) the status of the implementation of the White River Range program; (3) the status of the Kremmling Resource Management Plan; (4) discussion of the inventory process in the Little Snake Resource area; (5) a review of range improvement projects being constructed in fiscal year 1981; (6) the expenditures of advisory board funds for range improvements; and (7) arrangements for the next meeting.

The meeting is open to the public. Interested persons may make oral statements to the board between 10 and 11 a.m. on April 30, 1981, or file written statements for the board's consideration. Anyone wishing to make an oral statement must notify the District Manager, Bureau of Land Management, P.O. Box 248, Craig, Colorado 81626, by April 24, 1981. Depending on the number of persons wishing to make oral statements, a person time limit may be established by the District Manager.

Summary minutes of the board meeting will be maintained in the District Office and be available for public inspection and reproduction (during regular business hours) within 30 days following the meeting.

Dated: March 5, 1981.

David J. Walter,

Acting District Manager.

BILLING CODE 4310-84-M

[OR 20230]

Oregon; Proposed Continuation of Withdrawal

The Bureau of Land Management, U.S. Department of the Interior, proposes that the existing land withdrawal made by the Executive Order of April 15, 1922, be continued in part as to the following described lands for a 20-year period, pursuant to Section 204 of the Federal Land Policy and Management Act of October 21, 1976, 90 Stat. 2751, 43 U.S.C. 1714:

Willamette Meridian

Public Water Reserve No. 83

T. 24 S., R. 45 E.,
Sec. 14, SE¼SW¼.
T. 24 S., R. 46E.,
Sec. 11, NW¼SW¼.

Containing 80.00 acres in Malheur County, Oregon.

The purpose of the withdrawal is to protect existing permanent water sources. The lands are currently segregated from operation of the public land laws generally, including non-metalliferous mineral location, under the mining laws, but not the mineral leasing laws. No change is proposed in the purpose or segregative effect of the withdrawal, except that the segregative effect is proposed to be expanded to include all mineral location under the mining laws.

Notice is hereby given that an opportunity for a public hearing is afforded in connection with the proposed withdrawal continuation. All interested persons who desire to be heard on the proposal must submit a written request for a hearing to the undersigned on or before April 20, 1981. Upon determination by the State Director, Bureau of Land Management, that a public hearing will be held, a notice will be published in the **Federal Register** giving the time and place of such hearing. In lieu of or in addition to attendance at a scheduled public hearing, written comments or objections to the proposed withdrawal continuation may be filed with the undersigned officer on or before April 20, 1981.

The authorized officer of the Bureau of Land Management will undertake such investigations as are necessary to determine the existing and potential demand for the land and its resources. He will review the withdrawal rejustification to insure that continuation would be consistent with the statutory objectives of the programs for which the land is dedicated; the area involved is the minimum essential to meet the desired needs; the maximum concurrent utilization of the land is provided for; and an agreement is reached on the concurrent management of the land and its resources. He will also prepare a report for consideration by the Secretary of the Interior, the President, and Congress, who will determine whether or not the withdrawal will be continued and if so, for how long. The final determination on the continuation of the withdrawal will be published in the **Federal Register**. The existing withdrawal will continue until such final determination is made.

All communications in connection with this proposed withdrawal continuation should be addressed to the undersigned officer, Bureau of Land Management, U.S. Department of the Interior, P.O. Box 2965, Portland, Oregon 97208.

Dated: March 5, 1981.

Harold A. Berends,

Chief, Branch of Lands and Minerals Operations.

[ORE 20220]

Oregon; Proposed Continuation of Withdrawal

The Bureau of Land Management, U.S. Department of the Interior, proposes that the existing land withdrawal made by the Executive Order of February 27, 1917, be continued in part as to the following described land for a 20-year period, pursuant to Section 204 of the Federal Land Policy and Management Act of October 21, 1976, 90 Stat. 2751, 43 U.S.C. 1714:

Willamette Meridian

Public Water Reserve No. 48

T. 37 S., R. 11 E.,
Sec. 27, NE¼SW¼.

Containing 40.00 acres in Klamath County, Oregon.

The purpose of the withdrawal is to protect an existing permanent water source. The land is currently segregated from location and entry under the public land laws generally, including non-metalliferous mineral location under the mining laws, but not the mineral leasing laws. No change is proposed in the purpose or segregative effect of the withdrawal.

Notice is hereby given that an opportunity for a public hearing is afforded in connection with the proposed withdrawal continuation. All interested persons who desire to be heard on the proposal must submit a written request for a hearing to the undersigned on or before April 20, 1981. Upon determination by the State Director, Bureau of Land Management, that a public hearing will be held, a notice will be published in the **Federal Register** giving the time and place of such hearing. In lieu of or in addition to attendance at a scheduled public hearing, written comments or objections to the proposed withdrawal continuation may be filed with the undersigned officer on or before April 20, 1981.

The authorized officer of the Bureau of Land Management will undertake such investigations as are necessary to determine the existing and potential demand for the land and its resources. He will review the withdrawal rejustification to insure that continuation would be consistent with the statutory objectives of the programs for which the land is dedicated; the area involved is the minimum essential to meet the desired needs; the maximum concurrent utilization of the land is provided for; and an agreement is reached on the concurrent management of the land and its resources. Ukiah District Advisory Council Meeting

Notice is hereby given in accordance with the Federal Land Policy and Management Act of 1976 (P. L. 94-579, Sec. 603 as amended; 90 Stat. 2743-2794) that a meeting of the Ukiah District Advisory Council will be held beginning at 9 a.m. on Thrusday, April 9, 1981, in the Conference Room of the Bureau of Land Management, Ukiah District Office, 555 Leslie, Ukiah, California.

Purpose: Substantive briefing on SYU-13 Timber Management Environmental Statement by the BLM staff for the Council—9 a.m. to 12 noon.

At 1:30 p.m., the Council will view a videotape on the sagebrush rebellion, to be followed by discussion.

All Advisory Council meetings are open to the public.

Public Comment Period: 3:30 p.m. to 4:30 p.m. Oral statements will be limited to 10 minutes each. Written statements may be filed with the District Manager by April 8. Only new information, not heretofore presented, will be accepted by the Council.

For further information, contact Van Manning, District Manager, P.O. Box 940, Ukiah, CA 95482, (707) 462-3873.

Dated: March 4, 1981.

Van Manning,

District Manager.

BILLING CODE 4310-84-M

[OR 20640 (Wash.)]

Washington: Public Land in Walla Walla County, Washington; Realty Action—Sale

The following described land has been identified as suitable for disposal by sale under section 203 of the Federal Land Policy and Management Act of 1976, 43 U.S.C. 1716, at no less than the fair market value shown:

Township 7 North, Range 31 East, Willamette Meridian, Walla Walla County, Washington Adjacent to the Wallula Townsite

Parcel No.	Legal description	Acreage	Value
1	Section 14: Lot 1	25.89	$31,368.00
2	Lot 2	5.08	6,206.00
3	Lot 5	8.67	8,152.00
4	Lot 6	28.02	34,244.00
Total		66.46	80,000.00

The sale will be held on May 18, 1981, in the County Commissioners Chambers at the Walla Walla County Court House, 315 West Main Street, Walla Walla, Washington. Registration of bidders will begin at 10:30 a.m. and the sale will start upon completion of registration.

These lots are small and irregularly shaped isolated parcels which are difficult and uneconomic to manage as part of the public lands. They are unsuitable for management by another federal agency. There are no significant resource values which will be affected by this disposal. The sale of these lots will serve the important public objectives of expansion and economic development of the adjacent community of Wallula. The Bureau of Land Management (BLM) plans to dispose of the tracts since they do not complement BLM programs. Legal access is available to these parcels by U.S. Highway 395 and county roads.

The sale is consistent with the BLM's planning for the lands involved and has been discussed with the Walla Walla County Commissioners, Walla Walla County Planning Commission, Wallula Townsite Association, Washington State Department of Natural Resources, Washington State Game Department, residents of Wallula, and the State clearinghouse.

The terms and conditions applicable to this sale are:

1. The land will be subject to a reservation to the United States for ditches and canals constructed by the authority of the United States, pursuant to the Act of August 30, 1890, 26 Stat. 391; 43 U.S.C. 945.

2. All mineral rights in the land to be patented will be reserved to the United States pursuant to the Act of October 21, 1976, 90 Stat. 2751, 43 U.S.C. 1713.

3. Patents will be issued subject to one or more of the following valid existing rights:

a. Pipeline right-of-way OR 15049(W) to Two Rivers Partnership.

b. Telephone line right-of-way SPO 19070 to Pacific Northwest Bell.

c. Transmission line right-of-way OR 12602(W) to Pacific Power and Light.

d. Road right-of-way OR 14662(W) to Washington State Department of Natural Resources.

e. Pipeline right-of-way OR 13203(W) to Wallula Water District No. 1.

Detailed information concerning the sale, including the planning documents, environmental assessment, and the record of public discussions, is available for review at the BLM Spokane District Office, Room 551, U.S. Court House, W. 920 Riverside, Spokane, Washington.

No bid will be accepted for less than the appraised price and bids for a parcel must include all the lands in the parcel. Federal law requires that bidders be U.S. citizens or, in the case of a corporation, subject to the laws of any State of the United States.

Bids must be made by the principal or his agent, by either: (1) Sealed bids mailed or delivered to the Spokane District Office, or (2) oral bids made at the sale. Bids delivered or sent by mail must be received at the Bureau of Land Management, Spokane District Office, Room 551, U.S. Court House, West 920 Riverside, Spokane, WA 99201, before 4:00 p.m., May 7, 1981, to be considered. These bids must be in sealed envelopes accompanied by a certified check, money order, or cashier's check, made payable to the Bureau of Land Management for the full amount of each bid. The envelopes must be marked in the lower left-hand corner as follows: "Bid Parcel No. ———, Sale to be held May 11, 1981."

The highest sealed bid on each parcel will determine the base of the oral bidding conducted the day of the sale. In the case of identical sealed bids of the same amount for the same parcel, the one with the earliest time stamped on it either by the U.S. Postal Service, or, if hand delivered, by the Bureau of Land Management Office, will be determined the high sealed bid. The highest bid price, either by sealed or oral bid, will establish the sale price. The highest bidder will be required to pay the full bid price immediately at the sale.

All bids will be either returned, accepted, or rejected within 30 days of the sale date.

For a period of 30 days from the date of this notice, interested parties may submit comments to the Secretary of the Interior (LLM–320), Washington, D.C. 20240. Any adverse comments will be evaluated by the Secretary of the Interior who may vacate or modify this realty action and issue a final determination. In the absence of any action by the Secretary of the Interior, this realty action will become the final determination of the Department of the Interior.

Roger W. Burwell,

District Manager.

Cedar City District Multiple Use Advisory Council; Meeting

Notice is hereby given in accordance with Pub. L. 92–463, that a meeting of the Cedar City District Multiple Use Advisory Council will be held on April 15, 1981.

The meeting will begin at 9:30 a.m. at the Cedar City District Office, 1579 North Main, Cedar City, Utah 84720. The agenda will include a report on recommendations from the last meeting, discussions on geothermal development, MX, wild horses and the new Bureau planning system. There will also be updates on the Black Mountain ski proposal and the Allen-Warner Valley Energy System proposal.

A major portion of the day will involve a tour in the Milford area. Those wishing to make the tour must furnish their own transportation. There will be a lunch stop scheduled in Milford.

All Advisory Council meetings are open to the public. Interested persons may make oral statements or file written statements for the council's consideration. Oral statements will be accepted at 1:30 p.m. in the Hong Kong Cafe, Milford, Utah. Anyone wishing to make oral statements must notify the District Manager, P.O. Box 724, Cedar City, Utah 84720 by April 14, 1981. Depending on the number of persons wishing to make a statement, a per person time limit may be established by the District Manager.

Morgan S. Jenson,

District Manager.

March 5, 1981.

BILLING CODE 4310–84–M

Grand Junction District Grazing Advisory Board; Meeting

Notice is hereby given in accordance with Pub. L. 92–463 that a meeting of the Grand Junction District Grazing Advisory Board will be held on April 30 and May 1, 1981.

On April 30 the meeting will begin at 1:00 p.m. in the third floor conference room of the Bureau of Land Management Office at 764 Horizon Drive, Grand Junction, Colorado. On May 1 the meeting will convene at 9:00 a.m. at the Oddfellows Hall in DeBeque, Colorado. Attendees will then tour an allotment under an allotment management plan.

The agenda for the meeting will include (1) the minutes of the previous meeting, (2) election of officers, (3) review of the new project accounting system, (4) review of current status of advisory board projects and funds, (5) new project proposals, (6) problems and prospective solutions associated with the Sunnyside Allotment Management Plan and (8) arrangements for the next meeting.

The meeting is open to the public. Interested persons may make oral statements to the board between 3:00 and 3:30 p.m. on April 30 or file written statements for the board's consideration. Anyone wishing to make an oral statement must notify the District Manager, Bureau of Land Management, 764 Horizon Drive, Grand Junction, Colorado 81501, by April 24, 1981. Depending on the number of persons wishing to make oral statements, a per person time limit may be established by the District Manager. Persons desiring to make the tour should furnish their own transportation, food, and drink.

Summary minutes of the board meeting will be maintained in the District Office and be available for public inspection and reproduction (during regular business hours) within 30 days following the meeting.

Further information on the meeting may be obtained at the above address or by calling (303) 243–6552.

Lee Carle,

Acting District Manager.

Airport Lease Application; Idaho

March 3, 1981.

Notice is hereby given that pursuant to the Act of May 24, 1928 (49 U.S.C. 211–214) Chet Brackett, Rogerson, Idaho, has applied for an airport lease for the following land:

Boise Meridian, Idaho

T. 16 S., R. 11 E.
Sec. 6, E½SE¼;
Sec. 7, NE¼NE¼.

The purpose of this notice is to inform the public that the filing of this application segregates the described land from all other forms of use or disposal under the public land laws.

Interested persons desiring to express their views should promptly send their name and address to the District Manager, Bureau of Land Management, 3948 Development Avenue, Boise, Idaho 83705.

Eugene E. Babin,

Acting Chief, Branch of L&M Operations.

Utah; Decision on Protests to State Director's November 14, 1980, Decisions on Statewide Inventory; Republication

Note.—This document, FR Doc. 81–7013, originally appeared in the **Federal Register** for Thursday, March 5, 1981 (46 FR 15332). In the summary, certain material was inadvertently published in paragraphs one and two. Therefore, these paragraphs are corrected and the entire document is being republished for the convenience of the reader.

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: The State Director's final decisions on the statewide wilderness intensive inventory in Utah was published in the **Federal Register** on November 14, 1980. The decision was on individual inventory units. In that notice, it was stated that any person(s) who had disagreements with the individual unit decision(s) and had information which would influence the decision(s), could file a protest with the Bureau of Land Management, Utah State Director by 4:30 p.m., December 15, 1980.

During the protest period, the Utah State Director received 69 protests to decisions announced in the statewide notice. These protests affected 61 inventory units. Each protestant is receiving, by certified mail, a decision responding in detail to the points of his/her protest. This notice summarizes the results of the decisions. The following protests are denied and the decisions remain consistent with those published in the November 14, 1980, **Federal Register:**

Protestant	Unit No.	Unit name	Protestant wanted	State director's decision on protest
Organized group	UT–020–037	Newfoundland Mountains	Unit added as WSA	No change from 11–14–80 final decision.
Do	UT–020–129/UT–050–130A	Dugway Mountains	——do	Do.
Do	UT–040–075	Horse Spring Canyon	——do	Do.
Do	UT–040–075	——do	——do	Do.
Do	UT–040–076	Carcass Canyon	12,180 acres added to WSA	Do.
Local government	UT–040–076	——do	Unit dropped from WSA status	Do.
Organized group	UT–040–077	Mud Spring Canyon	Unit added as WSA	Do.

[1] Protest received Utah portion of Interstate Unit—reviewed by Utah.

Any person(s) who has information which he/she believes will show that the November 14, 1980, decision which is changed as a result of the protest decision is incorrect, may appeal to the Interior Board of Land Appeals. Also, each protestant is allowed the right of appeal to the Interior Board of Land Appeals within 30 days from the date of service on his/her individual decision(s). In the event no appeal is filed, the decision will become final as of 4:30 p.m., April 6, 1981.

The right of appeal to the Interior Board of Land Appeals, Office of the Secretary, on these units is allowed in accordance with the regulations in 43 CFR Part 4, Subpart E. Any notice of appeal must be filed with the Utah State Director (930), Bureau

of Land Management, 136 East South Temple, Salt Lake City, Utah 84111 (not with the board) so that the case file(s) can be transmitted with the appeal to the Interior Board of Land Appeals. To avoid summary dismissal of the appeal, these must be in strict compliance with the regulations found in 43 CFR 4.411. The rules of practice require that a copy of the notice of appeal, any statement of reason, written arguments, or briefs must be served on the Regional Solicitor, Intermountain Region, U.S. Department of the Interior, Suite 6201 Federal Building, 125 South State Street, Salt Lake City, Utah 84138, and provide proof of service in accordance with 43 CFR 4.401(c) within 15 days of filing any document in connection with an appeal.

No protests were received concerning 120 other units listed in the November 14, 1980, decision. The decision on these units became final at 4:30 p.m., December 15, 1980. Those units or portions of units, dropped from the wilderness review process on which no protest was received, were released from the management restrictions imposed by Section 603(c) of the Federal Land Policy and Management Act (FLPMA) as of 4:30 p.m., December 15, 1980.

Dated: February 26, 1981.

Dean Stepanek,

Acting Utah State Director.

BILLING CODE 4310-70-M

Upper Delaware Citizens Advisory Council; Upper Delaware National Scenic and Recreation River; Meeting

AGENCY: National Park Service, Interior.

ACTION: Notice of meeting.

SUMMARY: This notice sets forth the date of the forthcoming meeting of the Upper Delaware Citizens Advisory Council. Notice of this meeting is required under the Federal Advisory Committee Act.

DATE: March 27, 1981, 7:00 p.m.

ADDRESS: Arlington Hotel, Narrowsburg, New York.

FOR FURTHER INFORMATION CONTACT: John T. Hutzky, Superintendent, Upper Delaware National Scenic and Recreation River, Drawer C, Narrowsburg, N.Y. 12764 (914/252-3947).

SUPPLEMENTARY INFORMATION: The Advisory Council was established under section 704(f) of the National Parks and Recreation Act of 1978, Pub. L. 95-625, 16 U.S.C. 1274 note, to encourage maximum public involvement in the development and implementation of the plans and programs authorized by the Act. The Council is to meet and report to the Delaware River Basin Commission, the Secretary of the Interior, and the Governors of New York and Pennsylvania in the preparation of a management plan and on programs which relate to land and water use in the Upper Delaware region. The agenda for the meeting will include (1) implementation of section 704 of Pub. L. 95-625, and (2) new business.

The meeting will be open to the public. Any member of the public may file with the Council a written statement concerning agenda items. The statement should be addressed to the Council c/o Upper Delaware National Scenic and Recreation River, Drawer C, Narrowsburg, N.Y. 12764. Minutes of the meeting will be available for inspection four weeks after the meeting at the temporary headquarters of the Upper Delaware National Scenic and Recreational River at the above address.

James W. Coleman, Jr.,

Regional Director, Mid-Atlantic Region.

Draft Consolidated Application Form for Transportation and Utility Systems in Alaska

AGENCY: Department of the Interior.

ACTION: Notice of draft Federal consolidated application form for transportation and utility systems in Alaska and request for comments.

SUMMARY: This notice publishes a draft consolidated application form for use in applying for federal approval of transportation or utility systems in the State of Alaska if any portion of the proposed system is within a Federal conservation system unit, national recreation area or national conservation area. Comments on the proposed application form are requested from the public.

DATE: Comments are due by April 13, 1981.

[1] Map filed with the original document, Office of the Federal Register.

ADDRESSES:
Bureau of Land Management, Division of Rights-of-Way and Project Review, Room 506, 1129 20th Street, Washington, D.C. 20036.
Bureau of Land Management, P.O. Box 13, Anchorage, Alaska 99513.

FOR FURTHER INFORMATION CONTACT:
John Hafterson or Bob Mollohan, Room 506, 1129 20th Street, Washington, D.C. 20036 (202) 343–5537.

SUPPLEMENTARY INFORMATION: Title XI of the Alaska National Interest Lands Conservation Act, Pub. L. 96–487, 94 Stat. 2371, ("the Act") directs the Secretary of the Interior, the Secretary of Agriculture, and the Secretary of Transportation, in consultation with the heads of other appropriate Federal agencies, jointly to prescribe and publish, within 180 days of enactment, a consolidated application form to be used for applying for the approval of all proposed transportation or utility systems in Alaska if any portion of the system is proposed to be within any Federal conservation system unit, national recreation area or national conservation area. The form is to be used by all federal agencies which have jurisdiction to grant any authorization, including any right-of-way, permit, license, lease, or certificate, without which a transportation or utility system cannot, in whole or in part, be established. A "conservation system unit" is any unit in Alaska of the National Park System, National Wildlife Refuge System, National Wild and Scenic Rivers Systems, National Trails System, National Wilderness Preservation System, or a National Forest Monument.

The consolidated application is required to be used for the following types of systems:

1. Canals, ditches, flumes, laterals, pipes, pipelines, tunnels, and other systems for the transportation of water.
2. Pipelines and other systems for the transportation of liquids other than water, including oil, natural gas, synthetic liquid and gaseous fuels, and any refined product produced therefrom.
3. Pipelines, slurry and emulsion systems and conveyor belts for the transportation of solid materials.
4. Systems for the transmission and distribution of electric energy.
5. Systems for transmission or reception of radio, television, telephone, telegraph, and other electronic signals, and other means of communication.
6. Improved rights-of-way for snow machines, air cushion vehicles, and all-terrain vehicles.
7. Roads, highways, railroads, tunnels, tramways, airports, landing strips, docks, and other systems of general transportation.

All of the systems listed above include related structures and facilities, temporary and permanent, along the routes of such system.

Once a consolidated application form is adopted, no action by any Federal agency under applicable law with respect to the approval or disapproval of the authorization of any of the listed transportation or utility systems shall have any force or effect unless this consolidated application form procedure established in Title XI of the Act is used.

The applicant will be required to file the consolidated application form with each Federal agency having jurisdiction to grant the authorizations needed for the proposed system. Title XI of the Act provides a special procedure, including time limitations, for the review and approval or disapproval of these systems. The use of the application initiates these time limitations. Other applicable law, however, including existing agency regulations, applies with respect to the authorization and administration of the transportation and utility systems in the same way it applies to non-Title XI applications.

Both regulatory and land managing Federal agencies are included in the consolidated application procedure. After consultation with the following agencies, the Departments of Interior, Transportation and Agriculture developed the proposed consolidated application form: the Departments of Defense, Energy, Commerce and State, the Interstate Commerce Commission, the National Aeronautics and Space Administration, the Federal Communications Commission and the Environmental Protection Agency.

An attempt has been made to solicit only basic information which is required under current applicable law in determining whether to authorize a proposed system. The scope of response to the questions will vary for each applicant, depending on the simplicity or complexity of the project. In many instances, if the proposed form is completed properly, little or no further information will be required in order for the agency to approve or disapprove the system. However, because of the highly specialized nature of most regularly agency responsibility, in many instances, these agencies will require additional information from the applicant. The final application form will include, through the use of attachments, further regulatory agency requirements which are identified as being particularly applicable to systems in Alaska. Applicants will also be urged to contact all relevant agencies prior to an application submission to learn of any additional or unique submission requirements which have not been incorporated into the consolidated form. The ultimate goal is to develop a form which will meet the needs of most applicants but which can be supplemented when necessary.

By publication of this notice, the Departments of Interior, Transportation and Agriculture are seeking public involvement in the development of this consolidated application form. Accordingly, interested persons may submit written comments or suggestions to the address noted above. After reviewing the comments received, a final form will be developed and published in the Federal Register. The form will also be submitted to the General Services Administration for approval. The final form will include an explanation of each Federal agency's jurisdiction in Alaska, along with each agency's filing address and contact person for pre-application meetings.

Dated: March 6, 1981.

Donald P. Hodel,

Under Secretary, Department of the Interior.

BILLING CODE 4310-10-C

INTERSTATE COMMERCE COMMISSION

Motor Carrier Permanent Authority Decisions; Decision-Notice

The following applications, filed on or after February 9, 1981, are governed by Special Rule of the Commission's Rules of Practice, see 49 CFR 1100.251. Special Rule 251 was published in the Federal Register of December 31, 1980, at 45 FR 86771. For compliance procedures, refer to the Federal Register issue of December 3, 1980, at 45 FR 80109.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.252. A copy of any application, including all supporting evidence, can be obtained from applicant's representative upon request and payment to applicant's representative of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings:

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, water carrier dual operations, or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated its proposed service warrants a grant of the application under the governing section of the Interstate Commerce Act. Each applicant is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication, (or, if the application later becomes unopposed) appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

Note.—All applications are for authority to operate as a common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract".

Volume No. OP4-81

Decided March 5, 1981.

By The Commission, Review Board No. 2, Members Carleton, Fisher and Williams.

MC 59858 (Sub-67), filed February 5, 1981. Applicant: MOTOR FREIGHT EXPRESS, P.O. Box 1029, York, PA 17405. Representative: James W. Patterson, 1200 Western Savings Bank Bldg., Philadelphia, PA 19107 (215) 735-3090. Over regular routes transporting *general commodities* (except classes A and B explosives), (1) between Savannah, GA, and Montgomery, AL, over U.S. Hwy 80, (2) between Montgomery, AL, and Louisville, KY; from Montgomery over U.S. Hwy 31 to Nashville, TN, then over U.S. Hwy 31E and 31W to Louisville, (3) between Macon, GA, and Henderson, KY, over U.S. Hwy 41; (4) between Charleston, SC, and Memphis, TN, over U.S. Hwy 78; (5) between Petersburg, VA and Swainsboro, GA, over U.S. Hwy 1; (6) between Memphis, TN, and St. Louis, MO, over U.S. Hwy 61; (7) between Hagerstown, MD, and Tuscaloosa, AL, (a) from Hagerstown, over U.S. Hwy 11 to Bristol, VA, then over U.S. Hwy 11W to Knoxville, TN, then over U.S. Hwy 11 to Tuscaloosa, (b) from Hagerstown, over U.S. Hwy 11 to Bristol, VA, then over U.S. Hwy 11E to Knoxville, TN, then over U.S Hwy 11 to Tuscaloosa; (8) between Beaufort, SC, and Cambridge, OH, over U.S. Hwy 21; (9) between Augusta, GA, and Cincinnati, OH, from Augusta over U.S. Hwy 25 to Newport, TN, then over U.S. Hwy 25E and 25W to junction of U.S. Hwy 25E and U.S. Hwy 25 (near Corbin, KY), then over U.S. Hwy 25 to Cincinnati; (1) between Columbia, SC, and Savannah, GA, from Columbia over U.S. Hwy 321 to junction U.S. Hwy 321 and U.S. Hwy 17 (near Hardeeville, SC), then over U.S. Hwy 17 to Savannah; (11) between Savannah, GA and Fredericksburg, VA, over U.S. Hwy 17; (12) between Tupelo, MS, and Effingham, IL, from Tupelo over U.S. Hwy 45 to junction of U.S. Hwy 45, 45W and 45E (near Fairview, TN), then over U.S. Hwy 45W to Fulton, KY, then over U.S. Hwy 45 to Effingham; (13) between Tuskegee, AL, and Washington, DC, over U.S. Hwy 29; (14) between New Bern, NC, and Memphis, TN, over U.S. Hwy 70; (15) between Wilmington, NC, and Asheville, NC, over U.S. Hwy 74; (16) between Chattanooga and Memphis, TN, over U.S. Hwy 72; (17) between Williamston, NC, and Memphis, TN, over U.S. Hwy 64; (18) between the junction of Interstate Hwy 20 and Interstate Hwy 95 (near Florence, SC), then over Interstate Hwy 20 to Tuscaloosa; (19) between Greensboro, NC, and Memphis, TN, over Interstate Hwy 40; (20) between Cincinnati, OH, and Macon, GA, over Interstate Hwy 75; (21) between Richmond, VA, and the junction of Interstate Hwy 95 and U.S. Hwy 80 (near Savannah, GA), over Interstate Hwy 95; (22) between the junction of Interstate Hwy 85 and 95 (near Petersburg, VA), and Montgomery, AL, over Interstate Hwy 85; (23) between Charleston, SC, and Asheville, NC, over Interstate Hwy 26; and (24) between Louisville, KY, and Washington, PA, from Louisville over Interstate Hwy 64 to Charleston, WV, then over Interstate Hwy 79 to Washington, serving all intermediate points in routes (1) through (24) and serving, off-route points in Autauga, Calhoun, Colbert, Elmore, Etowah, Jefferson, Lauderdale, Limestone, Madison, Marshall, Montgomery, Russell, St. Clair, Shelby, Tuscaloosa, and Walker Counties, AL, points in Crittenden County, AR, Bibb, Cryan, Butts, Catoosa, Chatham, Chattahoochee, Cherokee, Clayton, Cobb, Columbia, Columbus, Dade, DeKalb, Douglas, Effingham, Fayette, Forsyth, Fulton, Givinnet, Henry, Houston, Jones, Muscogee, Newton, Paulding, Richmond, Rockdale, Twiggs, Walker, and Walton Counties, GA, points in DeSoto County, MS, points in Franklin, Jefferson, St. Charles, and St. Louis Counties, MO, and points in NC, SC, and TN.

MC 138197 (Sub-4), filed February 6, 1981. Applicant: L. SURRATT TRUCKING, INC., 7900 Old Rockside Rd., Cleveland, OH 44131. Representative: Earl N. Merwin, 85 East Gay St., Columbus, OH 43215. Transporting *general commodities* (except classes A and B explosives), between points in the U.S., under continuing contract(s) with Alpha Concrete Corp., of S. Euclid, OH, and The Cleveland Builders Supply Company, of Cleveland, OH.

MC 147007 (Sub-6) (M1), (notice of filing of petition to add an additional contracting shipper), filed February 6, 1981. Petitioner: EVERFRESH TRANSPORTATION COMPANY, a corporation, 6431 East Palmer, Detroit, MI 48211. Representative: John S. Barbour, 2711 East Jefferson, Suite 202, Detroit, MI 48207. BILLING CODE 7035-01-M

Motor Carrier Permanent Authority Decision; Decision-Notice

The following applications, filed on or after February 9, 1981, are governed by Special Rule 251 of the Commission's Rules of Practice, see 49 CFR 1100.251. Special Rule 251 was published in the **Federal Register** on December 31, 1980, at 45 FR 86771. For compliance procedures, refer to the **Federal Register** issue of December 3, 1980, at 45 FR 80109.

Persons wishing to oppose an application must follow the rule under 49 CFR 1100.252. Applications may be protested *only* on the grounds that applicant is not fit, willing, and able to provide the transportation service or to comply with the appropriate statutes and Commission regulations. A copy of any application, including all supporting evidence, can be obtained from applicant's representative upon request and payment to applicant's representative of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, water carrier dual operations, or jurisdictional questions) we fine, preliminarily, that each applicant has demonstrated its proposed service warrants a grant of the application under the governing section of the Interstate Commerce Act. Each applicant is fit, willing, and able to perform the service proposed, and to conform to the rquirements of Title 49, Subtitle IV, United States Code, and the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulation. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later become unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract".

Volume No. OPY2-607

Decided March 6, 1981.

By the Commission, Review Board No. 1, members Parker, Chandler and Taylor.

MC 154193, filed February 9, 1981. Applicant: LEP TRANSPORT, INC., One World Trade Center, New York, NY 10048. Representative: George A. Olsen, P.O. Box 357, Gladstone, NJ 07934, 201-234-0301. As broker of general commodities (except household goods), between points in the U.S.

BILLING CODE 7035-01-M

Motor Carrier, Permanent Authority Decisions; Decision-Notice

The following applications, filed on or after March 1, 1979, are governed by Special Rule 247 of the Commission's *Rules of Practice* (49 CFR 1100.247). These rules provide, among other things, that a petition for intervention, either in support of or in opposition to the granting of an application, must be filed with the Commission within 30 days after the date notice of the application is published in the **Federal Register**. Protests (such as were allowed to filings prior to March 1, 1979) will be rejected. A petition for intervention without leave must comply with Rule 247(k) which requires petitioner to demonstrate that it (1) holds operating authority permitting performance of any of the service which the applicant seeks authority to perform, (2) has the necessary equipment and facilities for performing that service, and (3) has performed service within the scope of the application either (a) for those supporting the application, or, (b) where the service is not limited to the facilities of particular shippers, from and to, or between, any of the involved points.

Persons unable to intervene under Rule 247(k) may file a petition for leave to intervene under Rule 247(l) setting forth the specific grounds upon which it is made, including a detailed statement of petitioner's interest the particular facts, matters, and things relied upon, including the extent, if any, to which petitioner (a) has solicited the traffic or business of those supporting the application, or, (b) where the identity of those supporting the application is not included in the published application notice, has solicited traffic or business identical to any part of that sought by applicant within the affected marketplace. The Commission will also consider (a) the nature and extent of the property, financial, or other interest of the petitioner, (b) the effect of the decision which may be rendered upon petitioner's interest, (c) the availability of other means by which the petitioner's interest might be protected, (d) the extent to which petitioner's interest will be represented by other parties, (e) the extent to which petitioner's participation may reasonably be expected to assist in the development of a sound record, and (f) the extent to which participation by the petitioner would broaden the issues or delay the proceeding.

Petitions not in reasonable compliance with the requirements of the rule may be rejected. An original and one copy of the petition to intervene shall be filed with the Commission indicating the specific rule under which the petition to intervene is being filed, and a copy shall be served concurrently upon applicant's representative, or upon applicant if no representative is named.

Section 247(f) provides, in part, that an applicant which does not intend to timely prosecute its application shall promptly request that it be dismissed, and that failure to prosecute an application under the procedures of the Commission will result in its dismissal.

If an applicant has introduced rates as an issue it is noted. Upon request, an applicant must provide a copy of the tentative rate schedule to any protestant.

Further processing steps will be by Commission notice, decision, or letter which will be served on each party of record. *Broadening amendments will not be accepted after the date of this publiction.*

Any authority granted may reflect administrative acceptable restrictive amendments to the service proposed below. Some of the applications may have been modified to conform to the

Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g., unresolved common control, unresolved fitness questions, and jurisdictional problems) we find, preliminarily, that each common carrier applicant has demonstrated that its proposed service is required by the present and future public convenience and necessity, and that each contract carrier applicant qualifies as a contract carrier and its proposed contract carrier service will be consistent with the public interest and the transportation policy of 49 U.S.C. 10101. Each applicant is fit, willing, and able properly to perform the service proposed and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulation. Except where specifically noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In those proceedings containing a statement or note that dual operations are or may be involved we find, preliminarily and in the absence of the issue being raised by a petitioner, that the proposed dual operations are consistent with the public interest and the transportation policy of 49 U.S.C. 10101 subject to the right of the Commission, which is expressly reserved, to impose such terms, conditions or limitations as it finds necessary to insure that applicant's operations shall conform to the provisions of 49 U.S.C. 10930(a) [formerly section 210 of the Interstate Commerce Act].

In the absence of legally sufficient petitions for intervention, filed within 30 days of publication of this decision-notice (or, if the application later becomes unopposed), appropriate authority will be issued to each applicant (except those with duly noted problems) upon compliance with certain requirements which will be set forth in a notification of effectiveness of the decision-notice. To the extent that the authority sought below may duplicate an applicant's other authority, such duplication shall be construed as conferring only a single operating right.

Applicants must comply with all specific conditions set forth in the following decision-notices within 30 days after publication, or the application shall stand denied.

Note.—All applications are for authority to operate as a common carrier, by motor vehicle, in interstate or foreign commerce, over irregular routes, except as otherwise noted.

Volume No. OP2–039

Decided March 6, 1981.

By the Commission, Review Board No. 1, Members Chandler, Parker, and Taylor.

MC 138313 (Sub-62), filed October 1, 1979. Applicant: BUILDERS TRANSPORT, INC., 409 14th Street S.W., Great Falls, MT 59404. Representative: Irene Warr, 430 Judge Building, Salt Lake City, UT 84111. Transporting *insulation board*, from Nephi, UT to the facilities of Sun Wise, Inc. at or near Great Falls, MT.

Agatha L. Mergenovich,

Secretary.

BILLING CODE 7035-01-M

Motor Carrier Permanent Authority Decisions; Decision-Notice

The following applications, filed on or after February 9, 1981, are governed by a Special Rule of the Commission's Rules of Practice, see 49 CFR 1100.251. Special Rule 251 was published in the **Federal Register** of December 31, 1980, at 45 FR 86771. For compliance procedures, refer to the **Federal Register** issue of December 3, 1980, at 45 FR 80109.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.252. A copy of any application, including all supporting evidence, can be obtained from applicant's representative upon request and payment to applicant's representative of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings:

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, water carrier dual operations, or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated its proposed service warrants a grant of the application under the governing section of the Interstate Commerce Act. Each applicant is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication, (or, if the application later becomes unopposed) appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract".

Volume No. OPY–4–17

Decided: March 5, 1981.

By the Commission, Review Board No. 2, members Carleton, Fisher, and Williams.

MC 12806 (Sub-194), filed February 26, 1981. Applicant: WEST MOTOR FREIGHT, INC., 740 S. Reading Ave., Boyertown, PA 19512. Representative: Alan Kahn, 1430 Land Title Bldg., Philadelphia, PA 19110 (215) 561–1030. Transporting *metal products*, between points in Allegheny County, PA, on the one hand, and, on the other, those points in the U.S., in and east of ND, SD, KS, NE, OK, and TX.

MC 147636 (Sub-16), filed February 26, 1981. Applicant: LARRY E. HOCKOX, d.b.a. LARRY E. HICKOX TRUCKING, Box 95, Casey, IL 62420. Representative: Michael W. O'Hara, 300 Reisch Bldg., Springfield, IL 62701 (217) 544–5468. Transporting *food and related products*, between points in the U.S.

MC 154046, filed February 17, 1981. Applicant: YELLOW TRANSPORTATION SERVICES OF BROOME COUNTY, INC., 385 State St., Binghamton, NY 13902. Representative:

Guy H. Postell, Suite 713, 3384 Peachtree Rd., NE., Atlanta, GA 30326. Transporting *such commodities* as are dealt in or used by the manufacturers and distributors of cosmetics, between points in the U.S., under continuing contract(s) with Avon Products, Inc., of New York, NY.

Volume No. OPY–4–18

Decided: March 5, 1981.

By the Commission, Review Board No. 2, Members Carleton, Fisher, and Williams.

MC 40446 (Sub-4), filed February 9, 1981. Applicant: BARON MOTOR CARRIERS, INC., 145 Blanchard St., Newark, NJ 07105. Representative: George A. Olsen, P.O. Box 357, Gladstone, NJ 07934, (201) 435–7140. Transporting *general commodities* (except classes A and B explosives), between points in NJ, NY, PA, CT, and DE.

MC 60406 (Sub-1), filed February 24, 1981. Applicant: ANTHONY AUGLIERA, INCORPORATED, 410 Boulevard, New Haven, CT 06519. Representative: Sidney L. Goldstein, 109 Church St., New Haven, CT 06510, (203) 787–1288. Transporting *household goods*, between points in New Haven and Fairfield Counties, CT, on the one hand, and, on the other, points in NY, NJ, MA, RI, ME, VT, NH, PA, MD, VA, DE and DC.

MC 91306 (Sub-39), filed February 20, 1981. Applicant: JOHNSON BROTHERS TRUCKERS, INC., 1858 9th Ave., NE., Hickory, NC 28601. Representative: Eric Meierhoefer, Suite 423, 1511 K St., NW., Washington, DC 20005, (202) 347–8332. Transporting *such commodities* as are dealt in or used by the manufacturers and distributors of health-care products, between points in Union County, NJ, on the hand, and, on the other, points in Cobb and Newton Counties, GA.

MC 109026 (Sub-31), filed February 23, 1981. Applicant: MANNING MOTOR EXPRESS, INC., Route 4, P.O. Box 665, Glasgow, KY 42141. Representative: Henry E. Seaton, 929 Pennsylvania Bldg., 425 13th St. NW., Washington, DC 20004, (202) 347–8862. Transporting *general commodities* (except classes A and B explosives), between points in Barron County, KY, on the one hand, and, on the other, points in the U.S.

Note.—Applicant intends to tack this authority with its existing operations.

MC 138126 (Sub-46), filed February 10, 1981. Applicant: WILLIAMS REFRIGERATED EXPRESS, INC., Old Denton Rd., P.O. Box 47, Federalsburg, MD 21632. Representative: Chester A. Zyblut, 366 Executive Bldg., 1030 Fifteenth St., N.W., Washington, DC 20005, (202) 296 3555. Transporting *food and related products*, between Louisville, KY, and points in New Castle County, DE, and Cecil County, MD, on the one hand, and, on the other, points in AL, CT, DE, FL, GA, IL, IN, KY, MA, MD, MI, MS, NJ, NC, NY, OH, PA, RI, SC, TN, VA, WV, WI, and DC.

MC 139906 (Sub-148), filed February 20, 1981. Applicant: INTERSTATE CONTRACT CARRIER CORPORATION, P.O. Box 30303, Salt Lake City, UT 84127. Representative: Richard A. Peterson, P.O. Box 81849, Lincoln, NE 68501, (404) 476–1144. Transporting *food and related products*, between points in Montgomery County, NY, San Jose, CA and Dallas, TX, on the one hand, and, on the other, points in the U.S.

MC 151136 (Sub-1), filed February 10, 1981. Applicant: CYCLE TRANSPORT, INC., 1418 E. Lake St., Minneapolis, MN 55407. Representative: James B. Hovland, Suite M-20, 400 Marquette Ave., Minneapolis, MN 55401, (612) 340 0606. Transporting *transportation equipment*, between points in the U.S., under continuing contract(s) with Kawasaki Motor Corp., U.S.A., of Lincoln, NE.

MC 153786, Filed February 9, 1981. Applicant: S. & W. WASTE, INC., 53 Pennsylvania Ave., South Kearny, NJ 07032. Representative: Michael R. Werner, 167 Fairfield Rd., P.O. Box 1409, Fairfield, NJ 07006, (201) 575–7700. Transporting (1) *waste or scrap materials not identified by industry producing* and (2) *hazardous materials*, between points in and east of ND, SD, NE, KS, OK, and TX.

MC 154296, Filed February 9, 1981. Applicant: S. R. SICILIA, INC., N. 10105 Wellen Lane, Spokane, WA 99218. Representative: Jim Pitzer, 15 S. Grady Way, Suite 321, Renton, WA 98055, (206) 235–1111. Transporting *ores and minerals, clay, concrete, glass or stone products*, and *machinery*, between Spokane County, WA and Boundary, Bonner, Kootenai Counties, ID.

BILLING CODE 7035-01-M

Motor Carrier Permanent Authority Decisions; Decision-Notice

The following applications, filed on or after July 3, 1980, are governed by Special Rule 247 of the Commission's Rules of Practice, see 49 CFR 1100.247. Special Rule 247 was published in the Federal Register of July 3, 1980, at 45 FR 45539. For compliance procedures, refer to the Federal Register issue of December 3, 1980, at 45 FR 80109.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.247(B). A copy of any application, together with applicant's supporting evidence, can be obtained from any applicant upon request and payment to applicant of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy or simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, water carrier dual operations, or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated its proposed service warrants a grant of the application under the governing section of the Interstate Commerce Act. Each applicant is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient interest in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed) appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

Note.—All applications are for authority to operate as a motor common carrier in

interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract".

BILLING CODE 7035-01-M

[Disaster Relief Decision No. 16]

South Pacific Transportation Co.; Reduced Rates for Shippers Affected by Fire in Tunnel Between Searles and Mojave, Calif.

Decided: March 6, 1981.

An application has been filed by Southern Pacific Transportation Company, on its own behalf, seeking authority under 49 U.S.C. 10724 [1] to publish allowances in order to provide reduced rates for persons who would normally ship via and SP but who cannot do so because of a fire in a tunnel at mileage post 427 between Searles and Mojave, CA.

It is ordered:

The applicant is authorized to publish and file allowances to afford reduced rates under 49 U.S.C. 10724 in the manner prescribed in 49 U.S.C. 10762 [2] except that publication may be made effective on one day's notice instead of ten, and includes authority to publish in blanket supplements with relief from rule 9(e) of the Commission's Tariff Circular 20 (49 CFR 1300.9) to publish in a separate non-counting supplement, all the authority granted herein to expire with June 4, 1981, unless otherwise ordered by the Commission.

The class of persons entitled to such allowance are shippers or receivers via and SP who, because of the fire in the tunnel, assume the cost of transporting freight by highway to the railroad stations of Mojave and/or Los Angeles, CA, on the SP.

During the period in which any reduced rates authorized by this order are effective the carriers may, notwithstanding the provisions of 49 U.S.C. 10726, [3] maintain higher rates to directly intermediate points and maintain through rates in excess of the aggregate of intermediate rates over the same routes if one or more of the factors of such aggregate rates is a reduced rate established under authority of this order.

Any tariffs or tariff provisions published under this authority shall make reference to this decision by number and date.

Notice to the affected railroads and the general public shall be given by depositing a copy of this decision in the Office of the Secretary of the Commission and by filing a copy with the Director, Office of the Federal Register. Copies will be mailed to the Chairman of the Traffic Executive Association—Eastern Railroads, New York, NY; the Chairman of the Southern Freight Association, Atlanta, GA; the Chairman of the Executive Committee, Western Railroad Traffic Association, Chicago, IL; and the Vice President, Economics and Finance Department of the Association of American Railroads, Washington, DC.

By the Commission, Special Docket Board; Members Llewellyn, Walker and Chesiock.

Agatha L. Mergenovich,
Secretary.

Motor Carriers; Decision-Notice

As indicated by the findings below, the Commission has approved the following applications filed under 49 U.S.C. 10924, 10926, 10931 and 10932.

We find:

Each transaction is exempt from section 11343 (formerly section 5) of the Interstate Commerce Act, and complies with the appropriate transfer rules.

This decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the

Energy Policy and Conservation Act of 1975.

Petitions seeking reconsideration must be filed within 20 days from the date of this publication. Replies must be filed within 20 days after the final date for filing petitions for reconsiderations; any interested person may file and serve a reply upon the parties to the proceeding. Petitions which do not comply with the relevant transfer rules at 49 CFR 1132.4 may be rejected.

If petitions for reconsideration are not timely filed, and applicants satisfy the conditions, if any, which have been imposed, the application is granted and they will receive an effective notice. The notice will indicate that consummation of the transfer will be presumed to occur on the 20th day following service of the notice, unless either applicant has advised the Commission that the transfer will not be consummated or that an extension of time for consummation is needed. The notice will also recite the compliance requirements which must be met before the transferee may commence operations.

Applicants must comply with any conditions set forth in the following decision-notices within 30 days after publication, or within any approved extension period. Otherwise, the decision-notice shall have no further effect.

By the Commission, Review Board Number 5, Members Krock, Taylor, and Williams.

MC 78772. By decision of September 19, 1980, issued under 49 U.S.C. 10928 and the transfer rules of 49 CFR 1132, Review Board No. 5 approved the transfer to FANCHER TRUCKING TEXCAVATING, INC. of Certificate MC 101269, issued October 9, 1941 to CHARLES LORENZ and ROBERT LORENZ, d.b.a. CHARLES LORENZ AND SON authorizing the transportation over irregular routes of *slag and cinders*, from steel mills in South Chicago, Ill., to points and places in Lake, LaPorte, and Porter Counties, Inc.; *flagstone and flagging*, from Joliet, Ill., to the above-specified Indiana points; *crushed stone, screenings, and limestone*, from Thornton, Ill., to the above-specified Indiana points; *coal*, from Wilmington, Ill., to the above-specified Indiana points; *clay*, (loam), from Chesterton, Inc., to Chicago, Ill. return, with no transportation for compensation, to the above-specified origin points. Transferee holds no permanent authority from the Commission. Application seeking temporary authority has been filed. Applicant's representative: Warren C. Moberly, Esquire, 320 N. Meridian Street, No. 777, Indianapolis, IN 46204.

MC-FC-78834. By decision of November 13, 1980 issued under 49 U.S.C. 10928 and the transfer rules at 49 CFR Part 1132. Review Board Number 5 approved the transfer of SMART CARRIERS, INC., of Beaumont, TX, of Permit MC 135435 and subnumbers 2 and 3 thereunder issued July 6, 1973, March 3, 1976, and February 7, 1977, to either transferor Smart Transportation Company or its predecessor in interest DALE SMART, d.b.a. DALE SMART TRUCKING, both of Beaumont, TX, authorizing the transportation of *forgings* (a) from Beaumont and Houston, TX, to points in Illinois, Missouri, Ohio, Oklahoma, and Pennsylvania, and (2) from Beaumont, TX, to points in Louisiana, under continuing contract(s) with Beaumont Well Works Company, Inc., of Beaumont, TX. Applicant's representative is: James R. Boyd, 1000 Perry Brooks Building, Austin, TX 78701. Transferee presently holds no authority from this Commission.

MC-FR-78858. By decision of November 17, 1980, issued under 49 U.S.C. 10928 and the transfer rules at 49 CFR 1132, the Interstate Commerce Commission, Review Board Number 5, Members Krock, Williams, and Taylor approved the transfer to GEETINGS, INC., of various authorities issued to THE ROCK ISLAND MOTOR TRANSIT COMPANY. The Board's action was published in the December 17, 1980, issue of the Federal Register at 45 FR 83044-83047. Its decision was affirmed by Appellate Division of the Commission, February , 1981. The following authority contained in Certificate MC 29130, issued November 23, 1964 to the Rock Island Motor Transit Company, was misdescribed in the Federal Register notice of transfer approval: 1(h) Route No. 45, authorizing the transportation over regular routes of *general commodities* except those of unusual value, nitroglycerine, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, between Muscatine, IA, and Eldon, IA, serving the intermediate points of Columbus Junction, Cotter, Ainsworth, Washington, Brighton and Fairfield, IA, and the off-route points of Letts, Columbus City, Pleasant Plain, and Libertyville, IA: From Muscatine over U.S. Hwy 61 to junction IA Hwy 92, then over IA Hwy 92 to Washington, IA, then over Iowa Hwy 1 to Fairfield, IA, then over U.S. Hwy 34 to junction Iowa Hwy 16, and then over Iowa highway 16 to Eldon, and return over the same route; and 1(i) described as Route No. 46, authorizing the transportation, over regular routes of *general commodites*, except those of unusual value, nitroglycerine, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, between Eldon, IA, and Des Moines, IA, serving the intermediate points of Ottumwa, Eddyville, Fremont, Cedar, Oskaloosa, Pella, Ortley, Monroe, and Prairie City, IA, and the off-route points of Evans, Leighton, Given, and Beacon, IA: From Eldon over Iowa Hwy 16 to junction U.S. Hwy 35, then over U.S. Hwy 34 to Ottumwa, IA, then over U.S. Hwy 63 to Oskaloosa, IA (also from Ottumwa over Iowa Hwy 15 to Eddyville, IA, then over Iowa Hwy 137 to Oskaloosa), and then over Iowa Hwy 163 to Des Moines, and return over the same routes. Notations: (1) To the extent affected by this misdescription interested persons may file petitions to reopen the proceeding within 20 days following publication of this corrected Federal Register notice. Replies must be filed within 20 days after the final date for filing these petitions. Petitions which do not comply with the relevant transfer rules at 49 CFR 1132.4 may be rejected. (2) Applicants have sought temporary authority under 49 U.S.C. 11349 from transferee to lease the rights, which was granted by a decision of the Commission, Division 2. Applicant's representative is: Larry D. Knox, Esq., 600 Hubbell Building, Des Moines, IA 50309.

MC-FC-78971. By decision of February 13, 1981, issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR 1132, Review Board Number 5 approved the transfer to BETTER TRUCK LINE CO., of Cleveland, OH, of Certificate MC 99597 (Sub-2F) issue July 1, 1980, to CLEVELAND FREIGHT LINES, INC., of Cleveland, OH authorizing the transportation, over irregular routes, of *general commodities* (except those of unusual value, classes A and B explosives, commodites in bulk, and those requiring special equipment), between Cleveland, OH, on the one hand, and, on the other, points in Ohio. Applicant's representative is: Kevin L. Shoemaker, Suite 1800, 100 E. Broad St., Columbus, OH 43215.

MC-FC-78996. By decision of February 13, 1981, issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR 1132, Review Board Number 5 approved the transfer to ASSEMBLY AND DISTRIBUTION TERMINALS OF MA, INC., Portland, OR of Certificate MC 52983 (Sub-4) issued January 2, 1975, to

CAPE COD OVERLAND EXPRESS, INC., Avon, MA authorizing the transportation of General commodities, except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading. Irregular routes: Between points within five miles of Boston, MA; including Boston, MA on the one hand, and, on the other, points in Rhode Island. Between points in Massachusetts. Regular routes: Between Boston, MA and Providence, RI, serving no intermediate points, From Boston, over U.S. Hwy 1 to Providence, and return over the same route. From Boston over Massachusett's Hwy 1A to junction U.S. Hwy 1, thence over U.S. Hwy 1 to Providence and return over the same route. *Shoes.* Irregular routes: Between Holbrook, MA and points in Massachusetts within 10 miles of Holbrook, on the one hand, and, on the other, Providence, RI. Applicant's representative is: John F. O'Donnell, Barret and O'Donnell, 60 Adams Street, P.O. Box 238, Milton, MA 02187.

MC–FC–79003. By decision of February 19, 1981, issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR 1132, Review Board Number 5 approved the transfer to RICHARD A. QUICK and JAMES C. QUICK, d.b.a. QUICK TRANSPORTATION OF GENEVA, NE; of Certificates MC 126489 (Subs-12 and 23) issued April 12, 1973 and October 15, 1975, respectively, to GASTON FEED TRANSPORTS, INC. of Hutchinson, KS, authorizing the transportation of (1) *dry cottonseed products,* from points in TX and OK to points in NM, KS, CO and NE and (2) *processed grain products* (except feed and feed ingredients and edible flour), from the facilities of McPherson Custom Products, Inc. at or near McPherson, KS to points in MN, IA, CO, NE, WY, ND, SD, and MT. Applicant's representative: Bradford E. Kistler, P.O. Box 82028, Lincoln, NE 68501. Transferee holds no authority but is affiliated with G. Kay, Inc. who holds authority as a common carrier under Docket MC 148564 and as a contract carrier under Docket MC 52556. Application has been filed for temporary authority under 49 U.S.C. 11349.

Agatha L. Mergenovich,
Secretary.

BILLING CODE 7035-01-M

Motor Carriers; Decision Notice

As indicated by the findings below, the Commission has approved the following applications filed under 49 U.S.C. 10924, 10926, 10931 and 10932.

We find:

Each transaction is exempt from section 11343 (formerly section 5) of the Interstate Commerce Act, and complies with the appropriate transfer rules.

This decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

Petitions seeking reconsideration must be filed within 20 days from the date of this publication. Replies must be filed within 20 days after the final date for filing petitions for reconsiderations; any interested person may file and serve a reply upon the parties to the proceeding. Petitions which do not comply with the relevant transfer rules at 49 C.F.R. 1132.4 may be rejected.

If petitions for reconsideration are not timely filed, and applicants satisfy the conditions, if any, which have been imposed, the application is granted and they will receive an effective notice. The notice will indicate that consummation of the transfer will be presumed to occur on the 20th day following service of the notice, unless either applicant has advised the Commission that the transfer will not be consummated or than extension of time for consummation is needed. The notice will also recite the compliance requirements which must be met before the transferee may commence operations.

Applicants must comply with any conditions set forth in the following decision-notices with 30 days after publication, or within any approved extension period. Otherwise, the decision-notice shall have no further effect.

By the Commission, Review Board Number 5, Members Krock, Taylor, and Williams.

MC–FC–78369. By decision of February 2, 1980 issued under 49 U.S.C. 10926 and the transfer rules at 49 C.F.R. 1132, The Motor Carrier Board approved the transfer to GERALD D. HUSER, d.b.a. HUSER TRUCKING, of Frederic, WI, of Certificate MC 110379, issued April 3, 1972 to DON KOEPP TRUCKING, of Frederic, WI, authorizing the transportation interstate or foreign commerce, over irregular routes, (1) *general commodities,* between points in the Towns of Sterling and Laketown, Polk County, WI, and the Towns of Trade Lake and Anderson, Burnett County, WI, on the one hand, and, on the other, Minneapolis, St. Paul, South St. Paul, Stillwater, and Newport, MN; (2) *general commodities,* except those of unusual value, classes A and B explosives, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading, (a) between points in the Towns of Bone Lake, Luck, Georgetown, and Milltown, Polk County, WI, on the one hand, and, on the other, South St. Paul, St. Paul, and Minneapolis, MN, and (b) from Minneapolis, St. Paul, and South St. Paul, MN, to points in the Towns of West Sweden and Laketown, Polk County, WI, and the Towns of Trade Lake, Burnett County, WI; and (3) livestock and agricultural commodities, from points in the Towns of West Sweden and Laketown, Polk County, WI, and the Town of Trade Lake, Burnett County, WI, to Minneapolis, St. Paul, and South St. Paul, MN, subject to the condition that any repetition in the statement of the authority granted shall not be construed as conferring more than one operating right. Applicant's representative is: John Grindell, Box 585, Frederic, WI 54837.

MC–FC–78606. By decision of November 14, 1980 issued under 49 U.S.C. 10926 and the transfer rules at 49 C.F.R. 1132, Review Board Number 5 approved the transfer to Mustand Trucking, Inc., of Manson, WA, of Certificate MC 145256 (Sub-1F) issued October 14, 1980 to LKM COMPANY, INC., of Seattle, WA, authorizing the transportation of (1) *wearing apparel,* and (2) *materials, equipment, and supplies* used in the manufacture of wearing apparel, (except commodities in bulk) between points in Washington and Utah, on the one hand, and, on the other, points in the United States (except Alaska and Hawaii). Applicants' representative is: Jack R. Davis; Eart, Allison, Davis & Baldwin; 1100 IBM Building, Seattle, WA 98101.

Supplemental

MC–FC–78740. By decision of February 10, 1981 issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR 1132, Review Board Number 5 approved the transfer to PIGGYBACK TRANSPORTATION SERVICE, INC., Greenwood, IN of Certificate MC 146686 (Sub-1F) issued May 19, 1980 to G.M.G. EXPRESS, INC. of Jeffersonville, IN authorizing the *common carrier* transportation over irregular routes transporting *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment) between those points in Indiana on and south of U.S. Highway 40 (including points in Marion County,

IN), on the one hand, and on the other, Louisville, KY, restricted to the transportation of traffic having a prior or subsequent movement by rail or water. Applicant's representative is: Stephen M. Gentry, 1502 Main St., Speedway, Indiana 46224.

MC-FC-78874. By decision of February 5, 1981 issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR 1132, Review Board Number 5 approved the transfer to C-WOLFE, INC., Granite Falls, WA of Certificate MC 107541 and subs thereunder issued April 4, 1978 and thereafter to WASHINGTON OREGON LUMBER FREIGHTERS, INC. d.b.a. WOLF, Vancouver, WA authorizing the *common carrier* the transportation over regular and irregular routes transporting general and specified commodities, and household goods, between points in Washington, Oregon, Indiana, Montana, Wyoming, North Dakota, South Dakota, Nebraska, New Mexico, Colorado, Arizona, Nevada, Utah, and California. Subject to the following conditions. Applicant's representative is: Boyd Hartman, P.O. Box 3641, Bellevue, Washington 98009.

Note.—Transfer of temporary authority is not permitted. Instead, transferee must file a motion to be submitted as applicant in each of those proceedings where transferor is applying for permanent authority.

MC-FC-78918. By decision of January 28, 1981 issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR 1132, Review Board Number 5 approved the transfer to EAST TEXAS REFRIGERATED EXPRESS, INC., of Grand Saline, TX, of Certificate MC 133095 (Sub-1, 2, 4, 10, 15, 27, 30, 38, 53, 59, 60, 70, 84, 91, 134, 135, 137, 145, 156, 164, 180, 186, 187, 188, 201, 208, 216, 222, and 228), issued to TEXAS CONTINENTAL EXPRESS, INC. of Ft. Worth, TX, authorizing generally the transportation of (1) meats, meat products, meat by-products from Liberal, KS, to points in Kentucky, West Virginia, Pennsylvania, New York, New Jersey; (2) foodstuffs, from various plant sites in Texas to CT, MS, VT, NH, MA; (3) cured hams, from Hannibal, MO, to Watertown, MA; (4) shoes from and to various points throughout the United States; (5) canned goods from certain plant sites in ME and NJ to points in AR, LA, TX, OK, KS, NM, CO, UT, AZ, NV, and CA; (6) of human blood plasma, blood typing serums, and bovine serum from Arlington, TX to Raritan, NJ; (7) kidney dialysis equipment from McAllen, TX, to Cinnaminson, NJ and from Piscataway, NJ to McAllen, TX; (8) drugs, soap capsules, toilet preparations, from certain plant sites at Allen Park, MI to plant sites in Dallas, TX. Transferee is not affiliated with an ICC carrier and holds no authority.

MC-FC-78931. By decision of January 28, 1981 issued under 49 U.S.C. 10931 or 10932 and the transfer rules at 49 CFR 1132, Review Board Number 5 approved the transfer to THE McCORD-LANE COMPANY, of Tyler, TX, of Certificate of Registration MC 121662, issued July 10, 1970, to FRANK TURNER, of Gilmer, TX, evidencing a right to engage in transportation in interstate commerce corresponding to scope to Certificate No. 35085, dated December 1, 1980, issued by the Railroad Commission of Texas Transportation Division. The Certificate authorizes the transportation as summarized, of oilfield equipment and pipe when moving as oilfield equipment, and commodities, the transportation of which because of size and weight require the use of special equipment, between all points within a 150-mile radius of Nacogdoches, TX. Applicant's representative is: Mike Cotten, P.O. Box 1148, Austin, TX 78767.

Notes.—Application for TA has not been filed. Transferee is a non-carrier.

MC-FC-78936. By decision of February 3, 1918 issued under 49 U.S.C. 10926 and the transfer rules at 49 C.F.R. 1132, Review Board Number 5 approved the transfer to S & R WRECKER SERVICE, INC., of Charlotte, NC, of Certificate MC 123628 (Sub-5) issued May 25, 1978 to S & R AUTO AND TRUCK SERVICE, INC., of Charlotte, NC, authorizing the transportation of (1) *disabled, repossessed, and impounded motor vehicles,* from points in that part of the United States, located in and east of Wisconsin, Illinois, Missouri, Arkansas, and Texas, to points in North Carolina and South Carolina, and (2) *replacement motor vehicles for disabled motor vehicles in (1) above* (except trailers designed to be drawn by passenger automobiles), from points in North Carolina and South Carolina, to points in that part of the United States located in and east of Wisconsin, Illinois, Missouri, Arkansas, and Texas, restricted in parts (1) and (2) to the use of wrecker equipment only. Applicants' representative is: William B. Elmer, 624 Third Street, Traverse City, MI 49684. Transferee presently holds no authority from the Commission.

MC-FC-78952. By decision of January 28, 1981 issued under 49 U.S.C. 10926 and the transfer rules at 49 C.F.R. 1132 Review Board Number 5 approved the transfer to RUSSELL W. PARSONS of Dallas, PA of Certificates MC 136480 (Sub-1) issued December 5, 1978 to WALTER J. LUBINSKI and KENNETH E. KOCHER, d.b.a. L & K TRANSPORTATION of Dallas, PA authorizing transportation by common carrier over irregular routes transporting (1) *foodstuffs* (except in bulk) from Penn Yan, Long Island City, Maspeth, and New York, NY, Bridgeton, East Rutherford, Elizabeth, and Vineland, NJ, and La Grange, IL, to the warehouse facilities of Robert Sosnick located at Los Angeles and South San Francisco, Ca, Portland, OR, and Seattle, WA; (2) *wax candles,* from Newburgh and Brooklyn, NY, and Farmingdale, NJ, to the warehouse facilities of Robert Sosnick located at Los Angeles and South San Francisco, CA, Portland, OR, and Seattle, WA, (3) *wine* (except in bulk), from points in the New York, NY, Harbor Limits as defined in 49 CFR 1070.1(a) to the warehouse facilities of Robert Sosnick located at Los Angeles And South San Francisco, CA, Portland, OR, and Seattle, WA; (4) *foodstuffs* (except in bulk and except frozen), from Farmingdale, NJ, to the facilities of J. Sosnick & Son at Los Angeles and South San Francisco, CA, Portland, OR, and Seattle, WA, restricted in (1), (2), (3) and (4), above to the transportation of shipments originating at the named origins and destined to the named destinations; (5) *anthracite filter media,* from points in Wyoming, Lackawanna and Luzerne Counties, PA, to points in that part of the United States Lying on and west of a line beginning at the mouth of the Mississippi River to its junction with the western boundary of Itasca County, MN, thence northward along the western boundaries of Itasca and Koochiching Counties, MN, to the International Boundary line between the United States and Canada subject in (4) and (5) above to the right of the Commission to impose terms, conditions, or limitations in the future as it may find necessary to assure conformance with section 10930 of the Interstate Commerce Act. Applicant's representative is: Joseph A. Keating, Jr., 121 So. Maine Street, Taylor, PA 18517.

MC-FC-78956. By decision of January 26, 1981, issued under 49 U.S.C. 10926 and the transfer rules at 49 C.F.R. 1132. Review Board Number 5, approved the transfer to PORFIRIO D. CASTRUITA, d.b.a. CASTRUITA TRUCKING COMPANY of Certificate MC 146721 (Sub-2F), issued December 9, 1981 to JESSE F. BURNETT; d.b.a. BURNETT TRUCKING INC., authorizing the irregular-route transportation of cement asbestos or pipe, plastic pipe and fittings and insulating materials, from the facilities of Johns-Manville Sales Corp., at points in CA to points in Arizona, Colorado, New Mexico and Texas. Applicant's representatives are: Jesse S. Burnett, 2626 E. 219th Place,

Long Beach, CA 90810, and Portirio D. Castruita, 593 Charmingdale Road, Diamond Bar, CA 91765, 714–595–0441.

MC–FC–78961. By decision of February 6, 1981 issued under 49 U.S.C. 10926 and the transfer rules at 49 C.F.R. 1132, Review Board Number 5 approved the transfer to ROBERT S. FOWLER, d.b.a. JOHN F. FOWLER MOVING & STORAGE, INC., Philadelphia, PA, of Certificate MC 30396 issued April 28, 1944 to JOHN F. FOWLER, d.b.a. JOHN F. FOWLER MOVING & STORAGE, Philadelphia, PA, authorizing the *common carrier* transportation of *Household goods*, as defined by the Commission, over irregular routes, Between Philadelphia, PA., on the one hand, and on the other, points and places in New York, New Jersey, Delaware, Maryland, and the District of Columbia. *Office Furniture and equipment and store fixtures*, over irregular routes, Between Philadelphia, PA., on the one hand, and, on the other, points and places in Delaware, Maryland, New Jersey, New York, and the District of Columbia. Applicants' representative is: John F. Fowler, (215) 739–4992, 1905–07 East Clearfield Street, Philadelphia, Pennsylvania 19134.

BILLING CODE 7035–01–M

[Permanent Authority Decisions Vol. No. 36]

Restriction Removals; Decision-Notice

Decided: March 9, 1981.

The following restriction removal applications, filed after December 28, 1980, are governed by 49 CFR 1137. Part 1137 was published in the **Federal Register** of December 31, 1980, at 45 FR 86747.

Persons wishing to file a comment to an application must follow the rules under 49 CFR 1137.12. A copy of any application can be obtained from any applicant upon request and payment to applicant of $10.00.

Amendments to the restriction removal applications are not allowed.

Some of the applications may have been modified prior to publication to conform to the special provisions applicable to restriction removal.

Findings:

We find, preliminarily, that each applicant has demonstrated that its requested removal of restrictions or broadening of unduly narrow authority is consistent with 49 U.S.C. 10922(h).

In the absence of comments filed within 25 days of publication of this decision-notice, appropriate reformed authority will be issued to each applicant. Prior to beginning operations under the newly issued authority, compliance must be made with the normal statutory and regulatory requirements for common and contract carriers.

By the Commission, Restriction Removal Board, Members Sporn, Alspaugh, and Shaffer.

Agatha L. Mergenovich,

Secretary.

MC 4761 (Sub-29)X, filed February 20, 1981. Applicant: LOCK CITY TRANSPORTATION CO., 3213 10th Street, Menominee, MI 49858. Representative: James A. Spiegel, Olde Towne Office Park, 6425 Odana Road, Madison, WI 53719. Applicant seeks to remove restrictions in a position of its lead, and (Sub-14, 18, 20, 21, 22, 23, 26, 27 and 28) certificates to (1) broaden the commodity descriptions to (a) "chemicals and related products" from alumina sulphate, sulphur dioxide, methyl chloride, in its lead; from chemicals in bulk (except sulphur dioxide and methyl chloride), and liquid chemical, in bulk, in (Sub-21); from sulphur dioxide and methyl chloride and sulphur dioxide in (Sub-27); and (b) to "petroleum, natural gas and related products" from petroleum products, in bulk, in its lead; from petroleum products, asphalt and residual fuel oils, asphalt, in bulk, in tank vehicles, in (Sub-14); from petroleum products (except asphalt), in bulk, in tank vehicles, in (Sub-14, 20 and 28); from asphalt and residual fuel oils, in bulk, in tank vehicles, in (Sub-18); from residual fuel oils, in bulk, in tank vehicles, in (Sub-23); and petroleum and petroleum products, in bulk, in (Sub-26); (2) remove in bulk restriction, in (Sub-22); (3) broaden the territorial authority by removing restrictions to traffic originating at or destined to a plantsite, substitute some county-wide authority in place of specified cities and plantsites in its irregular route authorities, and change one-way service to authorize radial service: in the irregular route portion of the lead certificate, between Winnebago County, MI (Menasha, WI) and Menominee County, MI (Menominee, MI); between Brown County, WI (Green Bay) and a portion of WI; between Menominee County, MI (Menominee, MI), and points in WI; and between Marinette County, WI (Marinette, WI), and points in 15 States; in (Sub-14, between Houghton, Delta, and Marquette Counties, MI (Dollar Bay, Gladstone, and Marquette, MI) and points in a described portion of WI; and between Brown, Kewaunee, Manitowoc, and Sheboygan Counties, WI (Kewaunee, Green Bay, Sheboygan, and Two Rivers, WI and points in the Upper Peninsula of MI (with exceptions); in (Sub-18), between Delta County, MI (Gladstone, MI), and points within 10 miles of Gladstone, MI and the port of entry on the U.S. Canada Boundary line at or near Sault T. Marie, MI; in (Sub-20), between Portage County, WI (facility at Junction City, WI), and points in the Upper Peninsula of MI; in (Sub-21), between Marinette County, WI (Marinette, WI), and points in 37 States and DC; in (Sub-22), between Menominee County, MI (Menominee, MI) and points in 17 States; in (Sub-23), between Brown, Kewaunee, Manitowoc, and Sheboygan Counties, WI (Kewaunee, Green Bay, Sheboygan, and Two Rivers, WI), and a described portion of MI; in (Sub-26), between Oneida County, WI (Rhinelander, WI), and points in MN and the Upper Peninsula of MI; in (Sub-27), between Marinette County, WI (facility at Marinette, WI) and points in 24 States and DC; and, in (Sub-28), between points in Delta and Marquette Counties, WI, and points in Alger and Marquette Counties, WI.

MC 24943 (Sub-3)X, filed February 23, 1981. Applicant: WOODBURN TRUCK LINE, INC., 1365 N. Front St., Woodburn, OR 97071. Representative: Lawrence V. Smart, Jr., 419 N.W. 23rd Ave., Portland, OR 97210. Applicant seeks to remove restrictions in its lead authority to (1) change general commodities with exceptions to "general commodities (except classes A and B explosives)" and (2) authorize service at all intermediate points on its regular routes between Portland and Gervais, OR.

MC 62110 (Sub-19)X, filed February 10, 1980, previously noticed in the **Federal Register** of February 24, 1981, republished as corrected this issue. Applicant: BILLINGS TRUCKING CORPORATION, 509 Cherry St., North Wilkesboro, NC 28659. Representative: Terrell C. Clark, P.O. Box 25, Stanleytown, VA 24168. Applicant seeks to remove restrictions from its (Sub-8, 10, and 12) certificates which authorize the transportation of new furniture and general commodities (with certain exceptions) from and to specified points, to (1) change the commodity description to "furniture and fixtures" in all Sub Nos. and "general commodities (except classes A and B explosives)" in (Sub-10), (2) authorize radial authority primarily between points in eastern and southern States where only one-way exists in each (Sub-No.), and (3) replace authority to serve named cities with

authority to serve the county: Wilkes County, NC, for North Wilkesboro, NC, and Surry County, NC for Elkin, NC in (Sub-8 and 10); Caldwell County, NC, for Lenoir, NC, Mercer County, NJ, for Trenton, NJ, Alleghany County, MD, for Cumberland, MD, Washington County, MD, for Hagerstown, MD, Cumberland County, NJ, for Bridgeton, NJ, Berks County, PA, for Reading, PA, York County, PA, for York, PA in (Sub-10); and McDowell County, NC, for Marion, NC, in (Sub-12). The purpose of this republication is to correct a typographical error in the original Federal Register publication on February 24, 1981.

MC 67666 (Sub-40)X, filed February 24, 1981. Applicant: FILM TRANSIT, INC., 3931 Homewood Road, Memphis, TN 38118. Representative: Warren A. Goff, 2008 Clark Tower, 5100 Poplar Avenue, Memphis, TN 38137. Applicant seeks to remove restrictions in its (Sub-15) certificate which authorizes the transportation of general commodities (with the usual exceptions) to (1) remove all exceptions in its general commodity authority except classes A and B explosives, and (2) remove the restriction limiting service to the transportation of traffic having an immediately prior or subsequent movement by air.

MC 75192 (Sub-9)X, filed February 20, 1981. Applicant: CHAS. T. BROWN TRUCK LINES, INC., 1206 Buff Street, Greensboro, NC 27406. Representative: Terrell C. Clark, P.O. Box 25, Stanleytown, VA 24168. Applicant seeks to remove restrictions in its (Sub-5F and 8F) certificates to broaden the commodity description from iron and steel articles, in (Sub-5F), and iron and steel articles and aluminum articles, in (Sub-8F), to "metal products".

MC 85970 (Sub-50)X, filed February 24, 1981. Applicant: SARTAIN TRUCK LINE INC., 1625 Hornbrook Street, Dyersburg, TN 38024. Representative: Warren A. Goff, 2008 Clark Tower, 5100 Poplar Avenue, Memphis, TN 38137. Applicant seeks to remove restrictions in its (Sub-38F) certificate to (1) remove all exceptions in its general commodities authority except "classes A and B explosives"; (2) authorize radial authority in lieu of existing one-way service between Dresden, TN, and points in the U.S.; and (3) eliminate the restriction against service to AK and HI.

MC 93186 (Sub-12)X, filed February 23, 1981. Applicant: EUDELL WATTS, III, d.b.a. WATTS TRANSFER CO., 825 First Avenue, Rock Island, IL 61201. Representative: L. Steven Platt, 10 South LaSalle Street, Suite 1600, Chicago, IL 60603. Applicant seeks to remove restrictions in its (Sub-2F, and 7F) certificate and its permit in MC 148156F to (1) eliminate from its general commodity authority all exceptions except classes A and B explosives in (Sub-2F); (2) remove the restrictions "except commodities in bulk" in (Sub-6 and 7F); (3) broaden the territorial description by removing the facilities restrictions in (Sub-6 and 7F); (4) change one-way authority to radial authority between Davenport and Bettendorf, IA and Rock Island and Moline, IL and points in Illinois and Iowa in (Sub-7F); (5) remove a restriction limiting service to transportation of traffic having a prior or subsequent movement by rail in (Sub-2F); and (6) expand its territorial authority between points in the US under contining contract(s) with a named shipper in MC 148156F.

MC 96841 (Sub-2)X, filed February 20, 1981. Applicant: STEWART TRUCKING, INC., Rural Delivery No. 3, McDonald, PA 15057. Representative: William A. Gray, 2310 Grant Building, Pittsburgh, PA 15219. Applicant seeks to remove restrictions in its MC 125385 (Sub-1) permit to (a) broaden the commodity description to "chemicals and related products, and metal products" from plasticizer, foundry binders, flours, sands, and core compounds, reclaimed solvents and oils, steel fluxing and purifying compounds, chemicals, oils and waste solvents, in bags and/or in drums, and hot top castings, and (b) broaden its territorial authority to between points in the United States, under continuing contract(s) with a named shipper.

MC 111302 (Sub-178)X, filed February 26, 1981. Applicant: HIGHWAY TRANSPORT, INC., P.O. Box 10108, Knoxville, TN 37919. Representative: David A. Petersen (same address as applicant). Applicant seeks to remove restrictions in its (Sub-37) certificate to (1) broaden the commodity description from uninhibited methyl methacrylate, in bulk, to "chemicals and related products", (2) remove the "in tank vehicles" restriction, (3) remove the facilities limitation from Knoxville, TN, (4) replace one-way with radial authority between Knoxville, TN, and Los Angeles and Orange Counties, CA, and (5) remove the originating at or destined to restriction.

MC 113310 (Sub-3)X, filed February 23, 1981. Applicant: C & J TRANSPORT, INC., 639 E. Polk St., Milwaukee, WI 53202. Representative: Eugene C. Ewald, 100 West Long Lake, Suite 102, Bloomfield Hills, MI 48013. Applicant seeks to remove restrictions in its lead and (Sub-2) certificates to (1) change the commodity description from automobiles, trucks, cabs and chassis, new automobiles to "transportation equipment" in its lead and from farm tractors to "machinery" in (Sub-2); (2) remove (a) the secondary movement restriction in its lead and (Sub-2), (b) the seasonal restriction in its lead, and (c) the facilities limitation and the restriction requiring a prior or subsequent movement by rail in (Sub-2); (3) replace Duluth, MN with St. Louis County, MN in its lead; and (4) change one-way to radial authority (a) between WI and Louisville, KY, Toledo, OH, Memphis, TN, and points in IL, IN, IA, MI, MO and WI, in paragraph 1 of its lead, (b) between St. Louis County, MN and specified portions of WI and MI, in paragraph 2 of its lead, and (c) between Milwaukee, WI and WI and named counties in IL, IA, and MN.

MC 116073 (Sub-383)X, filed February 23, 1981. Applicant: BARRETT MOBILE HOME TRANSPORT, INC., 1825 Main Avenue, Moorhead, MN 56560. Representative: Paul D. Borghesani, 300 Communicana Bldg., 421 S. Second St., Elkhart, In 46516. Applicant seeks to remove restrictions in its (Sub-365) certificate to (1) broaden its commodity description by removing "in secondary movements" from its authority to transport automobiles; (2) eliminate the restrictions prohibiting transportation to AK and HI; and (3) change its one-way authority to radial authority, between IN, OH, and MI, and points in the U.S.

MC 118838 (Sub-78)X, filed February 20, 1981. Applicant: GABOR TRUCKING, INC., Rural Route 4, Detroit Lakes, MN 56501. Representative: Robert D. Gisvold, 1600 TCF Tower, 121 So. 8th St., Minneapolis, MN 55402. Applicant seeks to remove restrictions from its (Sub-33F) certificate to (1) broaden the commodity description from gypsum and gypsum products, and materials and supplies used in the distribution and installation thereof, to "building materials"; (2) expand the territorial authority from the named origin facility at Blue Rapids, KS to Marshall County, KS; (3) authorize radial authority between Marshall County, KS, and, points in 11 western states.

MC 119702 (Sub-83)X, filed February 26, 1981. Applicant: STAHLY CARTAGE CO., 119 South Main St., Edwardsville, IL 62025. Representative: E. Stephen Heisley, 805 McLachlen Bank Bldg., 666 Eleventh St., N.W., Washington DC 20001. Applicant seeks to remove restrictions in its Sub-34, 37, and 74 certificates to (1) broaden the commodity description in all certificates to "commodities in bulk" from calcium

chloride, in bulk, and liquid calcium chloride and petroleum products, in bulk, in tank vehicles, and (2) substitute county-wide authority in lieu of specified cities and plantsites, and change one-way service to authorize radial service, as follows: Sub-34, between Dubuque County, IA (Dubuque, IA), and points in MN, WI, IA, and IL (except the St. Louis, MO/East St. Louis, IL commercial zone), and between Cook and La Salle Counties, IL (Lemont and Peru, IL), and points in WI; Sub-37, between Cook County, IL (plantsite at Lemont, IL), and points in three States; and, Sub-74, between Madison County, IL (facilities at Wood River, IL), and points in 19 States. Applicant also seeks to remove the exception to transportation of traffic from a plantsite at Peru, IL in Sub-34.

MC 119789 (Sub-729)X, filed February 17, 1981. Applicant: CARAVAN REFRIGERATED CARGO, INC., P.O. Box 226188, Dallas, TX 75226. Representative: James K. Newbold, Jr. (same as applicant). Applicant seeks to remove restrictions in its Sub-36, 153, 174, 254, 279, 298, 326, 354, 360, 362, 395, 441, 459, 484F, 499F, 508F, 602F, 624F, 690F, and 708F certificates, which authorize the irregular-route transportation generally of foodstuffs, to broaden the territorial description by removing restrictions limiting service to the transportation of shipments originating at the named plantsites and destined to the named destinations, and substituting some county-wide authority in place of specified plantsites and cities, as follows: Sub-36, Grayson County, TX (plantsite at Denison, TX); Sub-153, Los Angeles, CA (plantsite at Terminal Island, CA); Sub-174, Pittsburgh and Leetsdale, PA, Salem County, NJ (Salem, NJ), Sandusky and Wood Counties, OH (Fremont and Bowling Green, OH), and Toledo, OH; Sub-254, Chester County, SC (Chester, SC); Sub-279, Ottawa County, MI (facilities near Holland, MI); Sub-298, Kansas City, KS (facilities near Kansas City, KS); Sub-326, Wyandotte County, KS (facilities at Bonner Springs, KS); Sub-354, Chicago, IL (plantsite at Chicago, IL); Sub-360, Sheboygan County, WI (Plymouth, WI); Sub-382, St. Louis County, MO (facilities near Hazelwood, MO); Sub-395, Columbus, OH (facilities at Columbus, OH); Sub-441, Lima and Cincinnati, OH (facilities at Lima and Cincinnati, OH); Sub-459, La Porte County, IN (facilities near La Porte, IN); Sub-484F, Noble County, IN and Champaign County, IL (facilities at Kendallville, IN and Champaign, IL); Sub-499F, Campbell County, VA (facilities near Altavista, VA); Sub-508F, Memphis, TN (facilities near Memphis, TN); Sub-602F, Orange, San Joaquin, Monterey, and Santa Cruz Counties, CA (Fullerton, Ripon, Salinas, and Watsonville, CA); Sub-624F, Louisville, KY, and Newark, DE (facilities at Louisville, KY and Newark, DE); Sub-690F, Dallas, TX (facilities at Dallas, TX); Sub-708F, (a) La Porte County, IN (facilities near La Porte, IN), and (b) Solano County, CA (facilities near Vacaville, CA).

Applicant also seeks to remove restrictions in its Sub-186, 209, 236, 310, 334, 340, 346, 373, 396, 409, 450F, 455F, 527F, 530F, 589F, and 648F certificates, which authorize the irregular-route transportation generally of meats and packinghouse products, by removing restrictions limiting service to the transportation of shipments originating at the named plantsites and destined to the named destinations, and substituting some county-wide authority in place of specified cities and plantsites, as follows: Sub-209, Amarillo, TX (facilities near Amarillo, TX); Sub-236, Wichita, KS (facilities at Wichita, KS); Sub-310, Freeborn County, MN (facilities at Albert Lea, MN); Sub-340, Solano County, CA (facilities near Dixon CA); Sub-346, St. Joseph, MO (facilities at St. Joseph, MO); Sub-373, Omaha and Grand Island, NE (facilities at Omaha and Grand Island, NE), Polk, Mills, Marshall and Woodbury Counties, IA (Des Moines, Glenwood, Marshalltown, and Sioux City, IA); Sub-396, Linn, Cherokee, and Polk Counties, IA (facilities at Cedar Rapids, Cherokee, and Des Moines, IA); Sub-450F and 455, Denver, CO (facilities near Denver, CO); Sub-527, Kansas City, KS, Kansas City, MO (facilities at Kansas City, KS/MO), and Grand Island, NE (facilities at Grand Island, NE); Sub-530F, Ford County, KS (facilities near Dodge City, KS); Sub-589F, Freeborn County, MN (Albert Lea, MN) and Linn County, IA (Cedar Rapids, IA); Sub-684F, Madison County, NE (facilities near Madison, NE). Applicant also seeks to remove restriction in its Sub-46, 58, 64, 103, 131, 133, 183, 234, 247, 257, 268, 289, 282, 332, 374, 379, 380F, 405, 408, 457F, 470F, 477F, 479F, 498F, 503F, 538F, 540 (regular-route), 551F, 620F, 625, 636F, 664F, and 675F irregular-route certificates, which authorize the transportation of miscellaneous specific and general commodities, by removing restrictions limiting service to the transportation of shipments originating at the named plantsites and destined to the named destinations, and substituting some county-wide authority in lieu of specified plantsites and cities, as follows: Sub-46, Los Angeles County, CA (plantsite at North Hollywood, CA); Sub-58, Chambers, Lee, and Henry Counties, AL (Lanett, Huguley, Opelika, Shawmut, Abbeville, Fairfax, River View, and Langdale, AL); Sub-64, Los Angeles, CA (facilities at Los Angeles, CA); Sub-103, Columbus, OH (facilities at Columbus, OH); Sub-131, Jay County, IN (Dunkirk, IN); Sub-133, Dallas, TX (plantsites and facilities in Dallas, TX; Sub-183, Howard County, TX (facilities near Big Spring, TX); Sub-234, (a) Dallas, TX (facilities in Dallas County, TX), in both parts; Sub-268, Hunterdon County, NJ (Saddle Brook, NJ); Sub-289, Hancock County, WV (Newell, WV); Sub-282, Elkhart County, IN (Elkhart, IN); Sub-332, Baldwin County, GA (Milledgeville, GA); Sub-374, Jay County, IN (facilities at Dunkirk, IN); Sub-379, Richland and Summit Counties, OH (facilities at Barberton and Mansfield, OH); Sub-380, Erie, Jackson, Auglaize, Coshocton, Stark, Highland, Madison and Muskingum Counties, OH (Sandusky, Jackson, Wapakoneta, Coshocton, Massillon, Leesburg, Mt. Sterling, and Roseville, OH); Sub-408, Middlesex and Somerset Counties, NJ (New Brunswick, South Plainfield, and Somerset, NJ, Michigan City, IN, to King County, WA (Eastgate, WA), and La Porte County, IN (Michigan City, IN; Sub-457F, Middlesex and Somerset Counties, NJ (New Brunswick, Somerset, and South Plainfield, NJ); Sub-470F, Middlesex and Somerset Counties, NJ (New Brunswick, Somerset, and South Plainfield, NJ); Sub-477F, (a) Kearny and Bayonne, NJ (facilities near Kearny and Bayonne, NJ); Sub-479F, Athens, TN (facilities at Athens, TN and Los Angeles County, CA (Cerritos, CA); Sub-498F, Paducah, KY (facilities near Paducah, KY); Sub-503F, Sedgwick County, KS (Wichita, KS); Sub-538F, Howard County, TX (facilities near Big Spring, TX); Sub-551F, Dallas, TX (facilities at Dallas, TX); Sub-620F, NJ, Milwaukee, WI, Peoria, IL and Houston County, GA (facilities at Newark, NJ, Milwaukee, WI, Peoria, IL, and Pabst (Houston County) GA, and Portland, OR (facilities at Portland, OR); Sub-625F, Paducah, KY (facilities near Paducah, KY); Sub-638F, Los Angeles, CA (facilities near Los Angeles, CA); Sub-664F, Dallas County, TX (Addison, TX); Sub-675F, Orange County, CA (facilities near Tustin, CA).

MC 121496 (Sub-63)X, filed February 25, 1981. Applicant: CANGO CORPORATION, 2727 North Loop West, Houston, TX 77008. Representative: E. Stephen Heisley, 805 McLachlen Bank Bldg., 666 Eleventh St., N.W., Washington, DC 20001. Applicant seeks to remove restrictions in its Sub-43F certificate to (1) broaden the commodity

description to "commodities in bulk" from liquid petroleum oils and petrochemicals, in bulk, in tank vehicles, (2) substitute county-wide authority in place of Natchez, MS, and change one-way service to authorize radial service between Adams County, MS, and points in AR, IL, IN, KS, LA, MO, OH, TN and TX.

MC 121566 (Sub-82)X, filed February 24, 1981. Applicant: HUMBOLDT EXPRESS, INC., 345 Hill Avenue, Nashville, TN 37211. Representative: Warren A. Goff, 2008 Clark Tower, 5100 Poplar Avenue, Memphis, TN 38137. Applicant seeks to remove restrictions in its Sub-10, 18F, and 28F certificates to (1) broaden its commodity descriptions from general commodities (with exceptions), to "general commodities, (except classes A and B explosives)," in each certificate; (2) broaden its territorial description by removing all service for joinder only restrictions and by authorizing service at all intermediate points, where service is limited to specified intermediate points or no intermediate point service (a) in Sub-10, part (6), between Memphis, TN, and Nashville, TN; in part (7), between Memphis, TN, and Brownsville, TN; in part (10), between Nashville, TN, and Bristol, TN; in part (17), between Knoxville, TN, and Greeneville, TN; in part (21), between junction of Interstate Highways 40 and 81 (in Jefferson County, TN) and Newport, TN; and in part (22), between Memphis, TN, and Fort Smith, AR; (b) in Sub-18F, part (6), between Memphis, TN, and Nashville, TN; in part (7), between Memphis, TN, and Brownsville, TN; in part (9), between Nashville and Bristol, TN; in part (16), between Knoxville and Greeneville, TN; in part (20), between the junction of I–40 and I–81 (in Jefferson County) and Newport, TN; and in part (21) between Memphis, TN, and Harrison, AR; and (3) in Sub-10, eliminate the restrictions (a) against service at points in the commercial zones of Bristol, Kingsport, and Memphis, TN, lying outside of TN, and (b) prohibiting transportation to traffic originating at, destined to, or received from or delivered to a connecting carrier at Memphis, TN, and points in the commercial zone of Memphis, TN.

MC 123667 (Sub-13)X, filed January 19, 1981, previously noticed in the Federal Register of February 3, 1981, republished as corrected this issue. Applicant: L. J. NAVY TRUCKING CO., a WV corporation, 2300 Eighth Ave., Huntington, WV 25703. Representative: John M. Friedman, 2930 Putnam Ave., Hurricane, WV 25526. Applicant seeks to remove restrictions from its lead and Sub-7, 9, and 12F certificates in order to broaden the commodity description in each certificate from malt beverages to "food and related products;" in addition, in its lead certificate, part (A), applicant seeks to expand its one-way city authority to in some instances county-wide authority and to serve radially between Peoria, IL, Allen County, IN, Louisville, KY, Campbell County, KY, Detroit, MI, St. Louis, MO, Cincinnati, Cleveland, and Columbus, OH, and Milwaukee, WI, to Cabell and Wayne Counties, WV, and in part (B) applicant seeks to expand its one-way authority to serve radially between Cabell and Wayne Counties, WV and points in 48 named counties in OH, Cabell, Wayne, and Mingo Counties, WV, and a described portion of KY; in Sub-7, applicant seeks to broaden its base point in Pabst, GA, to Houston County, GA, and to expand its one-way authority to serve radially between Houston County, GA, and points in WV; in Sub-9F applicant seeks (A) to broaden its one-way authority to serve radially between Louisville, KY, and a described portion in Ohio, and (B) expand its destination point of Logan, WV, to Logan County, WV, and to serve radially between Peoria, IL, and points in Logan County, WV; in Sub-12F applicant seeks to expand its limited service points in some cases to county-wide authority and to broaden its one-way authority to serve radially (a) between Rockingham County, NC, and points in Kanawha and Mingo Counties, WV, (b) between Newark, NJ, and points in Cabell and Wayne, Counties, WV, Lawrence and Scioto Counties, OH, and (c) between Peoria, IL, and Milwaukee, WI, and points in Lawrence and Scioto, OH. The purpose of this republication is to correct the scope of the removal sought to more closely represent that requested by applicant.

MC 125506 (Sub-38)X, filed February 20, 1981. Applicant: JOSEPH ELETTO TRANSFER, INC., 33 W. Hawthorne Avenue, Valley Stream, NY 11580. Representative: Morton E. Kiel, 2 World Trade Center, Suite 1832, New York, NY 10048. Applicant seeks to remove restrictions in its lead and Sub-2, 3, 5, 7, 9, 12, 13, 16, 17, 21, 23, 26, 28, 31, 34, 35, and 37 permits to (1) broaden the commodity descriptions in all Subs (except 23 and 26) from such merchandise as is dealt in by retail department or specialty (some dealing primarily with wearing apparel) stores, displays, advertising materials, store fixtures, furniture, wearing apparel, etc. (with exceptions) to "such merchandise as is dealt in or used by department stores"; and in Sub-23 and 26 from such merchandise as is dealt in by retail clothing stores or retail specialty shops (except appliances and furniture) and store fixtures and supplies not for resale to "such merchandise as is dealt in or used by clothing stores"; (2) to remove "in bulk" restrictions in Sub-34, 35 and 37 and (3) authorize service between points in the U.S. under continuing contract(s) with named shippers in all the permits named above.

MC 127306 (Sub-16)X, filed February 20, 1981. Applicant: M. W. McCURDY & CO., INC., 401 Nora's Lane, Houston, TX 77022. Representative: Daniel O. Hands, Suite 200, 205 W. Touhy Ave., Park Ridge, IL 60068. Applicant seeks to remove restrictions in its Sub-9F and 12F certificates to (1) broaden the commodity descriptions to (a) "chemicals and related products, and petroleum, natural gas and their products" from chemicals, cleaning compounds, petroleum, and petroleum products, in containers, in Sub-9F; (b) "food and related products" from precooked rice, and rice which is otherwise exempt from economic regulation, (2) replace named plantsites at or near Houston, TX with city-wide authority in both sub-numbers, (3) change the one-way authorities to radial authorities between Houston, TX, and AZ, CA, CO, ID, NV, NM, OR, UT, and WA, in Sub-9F and Houston, TX, and, AZ, CA, ID, NV, OR, UT, and WA in Sub-12F, and (4) remove the restriction limiting service to the transportation of traffic originating at the named facilities in Sub-12F.

MC 135070 (Sub-183)X, filed February 18, 1981. Applicant: JAY LINES, INC., Box 61467, DFW Airport, TX 75261. Representative: Gailyn L. Larsen, P.O. Box 82816, Lincoln, NE 68501. Applicant seeks to remove restrictions in its Sub-18F, 21F, 35F, 43F, 50F, 68F, 82F, 102F, 126F, 145F, and 148F certificates to (1) broaden the commodity description to allow transportation of commodities named in all Sections of Appendix I in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 from limited authority to serve only certain Sections, and, remove the commodity restrictions "except hides and commodities in bulk" in all of the above Sub-Nos.; (2) replace plantsite facilities with county-wide authority: Saint Clair County for National Stockyards, IL, in Sub-18; Rock Island County for Joslin, IL, in Sub-21; Ford County for Dodge City, KS, in Sub-35; Rock Island County for Joslin, IL, and Scott County for Davenport, IA, in Sub-43; Montgomery County for Montgomery, AL, in Sub-50; Obion and Gibson Counties for Union

City and Humboldt, TN, in Sub-66; Jim Wells, Bexar, and Nueces Counties for Alice, San Antonio and Corpus Christi, TX, in Sub-102; Carroll, Crawford, Hardin, Polk and Webster Counties, IA for Carroll Denison, Iowa Falls, Des Moines, and Ft. Dodge, IA, Saline and Lancaster Counties, NE for Crete and Lincoln, NE and Sioux City, IA and Omaha, NE for named facilities, in Sub-126; Freeborn County for Albert Lea, MN, and, Linn, Cherokee, and Polk Counties for Cedar Rapids, Cherokee and Des Moines, IA, in Sub-145; and Saint Clair County for Stockyards, IL, in Sub-148; (3) remove the exceptions of AK And HI in Sub-35, 82, 102; (4) delete the restriction limiting traffic to that originating at named origins and destined to named destinations in Sub-18, 21, 43, 50, 102, 126, 145; (5) authorize radial service in lieu of existing one-way authority in all referenced Sub-Nos. between the named counties and various States in the eastern and midwestern United States.

MC 138035 (Sub-127)X, filed February 20, 1981. Applicant: CAROLINA WESTERN EXPRESS, INC., Box 3995, Gastonia, NC 28052. Representative: Eric Meierhoefer, Suite 423, 1511 K Street, N.W., Washington, D.C. 20005. Applicant seeks to broaden the commodity description of Sub-21, 32, 39, 51F, 52F, 53F, 56F, 59F, 63F, 65F, 66F, 67F, 69F, 79F, 91F, and 101F, from wine (except in bulk); wine and brandies (except in bulk, in tank vehicles); frozen foods; frozen foods (except in bulk); confectionery; foods (except in bulk); foodstuffs (except commodities in bulk, in tank vehicles); non-alcoholic cocktail mixes; non-alcoholic beverage mixes; frozen foods; and materials and supplies used in the manufacture and distribution of frozen foods (except commodities in bulk), "to food and related products;" Sub-16, 19, 47, 48, 57F, 82F and 90F, from woven fiberglass and mechanically bonded fiberglass mat; fiberglass; glass fiber, glass fiber rovings; yarn, strand, mats, matting, fabric and waste; yarn; textiles and textile products, and materials and supplies used in the manufacture and sale of texittles and textile products (except commodities in bulk), to "textile mill products;" Sub-27 and 30, from new furniture and new furniture parts; vanities; vanity tops, shower doors, marble tops and kitchen cabinets, to "furniture and fixtures; "Sub-74F and 75 F, from plastic pipe and plastic pipe fittings, and accessories; rubber articles, plastic articles, and rubber and plastic products, and materials and supplies used in the manufacture thereof, to "rubber and plastic products;" Sub-58F and 77F, from materials and supplies used in the manufacture of ball and roller bearings; household appliances and electric appliances, and materials and supplies used in the manufacture and distribution thereof, to "machinery;" Sub-34 and 78F, from heating and cooling units for temperature-controlled commercial trailers, containers, or rail cars, and parts and accessories for heating and cooling units; electrical goods, and materials and supplies used in the manufacture and sale thereof (except commodities in bulk, and those which because of size or weight require the use of special equipment), to "machinery and metal products;" Sub-93F, from general commodities (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), to "general commodities (except class A and B explosives);" Sub-99F, from general commodities (except in bulk), to "general commodities;" Sub-45, from such commodities as are used in the construction, maintenance and operation of amusement facilities and theatrical productions (except in bulk), to "such commodities as are used in the construction, maintenance and operation of amusement facilities and theatrical productions;" Sub-19, from methyl ethyl ketone peroxide in dibutyl phthalate (except in bulk); dry chemical pigments (except in bulk); and polyester resin (except in bulk), to "chemicals and related products;" Sub-33 and 61F, from wood slat products, shades, draperies, dividers and doors, and materials and supplies used in the manufacture, marketing and sale of commodities described above, to "furniture and fixtures, textile mill products, and lumber and wood products;" Sub-43, from insulators, electric wiring and pottery, and parts thereof, to "clay, concrete, glass or stone products, and machinery;" Sub-55F, from straw florist forms, to "straw products;" Sub-64F, from such commodities as are dealt in or used by manufacturers of rubber and rubber products (except commodities in bulk), to "such commodities as are dealt in or used by manufacturers of rubber and rubber products;" Sub-73F, from lamps, lighting fixtures, and lampshades, to "machinery, metal products, rubber and plastic products, and clay, concrete, glass or stone products;" Sub 76F, from materials and supplies used in the manufacture and distribution of venetian blinds (except in bulk), to "such commodities as are used in the manufacture and distribution of venetian blinds;" Sub-80F, from petroleum, petroleum products, vehicle body sealer and sound deadener compounds (except commodities in bulk, in tank vehicles); filters, and materials, supplies and equipment used in the manufacture, sale and distribution thereof, to "petroleum, natural gas and their products, machinery, and chemicals and related products;" Sub-81F, from such commodities as are dealt in by chain grocery and food business houses (except commodities in bulk, in tank vehicles), to "such commodities as are dealt in by chain grocery and food business houses." Applicant seeks to broaden the territorial description of the below designated Sub-Nos. from city-wide authority and from authority restricted to facilities to either city-wide or county-wide authority: Sub-16, from Graham, TX, to Young County, TX; Sub-17, from Burbank, North Hollywood, Sun Valley and Mountain View, CA, to Los Angeles and Santa Clara Counties, CA; Sub-18, from Elyria, OH, to Lorain County, OH; from Burt, NY, to Niagara County, NY; from Auburn, Kirkland and Spokane, WA, to King and Spokane Counties, WA; from Grants Pass and Medford, OR, to Josephine and Jackson Counties, OR; from Boise, ID, to Ada County, ID; from Laurel, MD, to Prince Georges County, MD; from Graham, TX, to Young County, TX; from West Shelby, NC, to Cleveland County, NC; and from Amsterdam, NY, to Montgomery County, NY; Sub-30, from Van Nuys, CA, to Los Angeles County, CA; Sub-33, from Westminster, CA, to Orange County, CA; Sub-34, from Montebello, CA, to Los Angeles County, CA; Sub-38, from Ridgely, MD, to Caroline County, Md; Sub-43, from Sandersville, GA, to Washington County, GA; Sub-47, from South Lexington and West Shelby, NC, to Davidson and Cleveland Counties, NC; Sub-48, from Westminster, CA, to Orange County, CA; Sub-51F, from Plover, WI, to Portage County, WI; Sub-52F, from Forest, MS, to Scott County, MS; Sub-53F, from Sullivan, IL, to Moultrie County, IL; Sub-55F, from Dallas, NC, to Gaston County, NC; Sub-59F, from Cleveland, TN, to Bradley County, TN; Sub-61F, from Westminster, CA, to Orange County, CA; Sub-63F, from Stockton and Modesto, CA, to San Joaquin and Stanislaus Counties, CA; Sub-64F, from Lawton, OK, to Comanche County, OK; from Rockmart, Carterville and Cedartown, GA, to Polk and Bartow Counties, GA; Sub-66F, from Tucker, GA, to DeKalb County, GA; Sub-68F, from Rialto, CA, to San Bernardino County, CA; Sub-73F, from Pacoima, CA, to Los Angeles County, CA; Sub-74F, from Sun Valley, Santa Ana and Bakersfield, CA, to Los Angeles, Orange and Kern Counties, CA; Sub-75F, from

Irving, TX, to Dallas County, TX; Sub-76F, from Montoursville, PA, to Lycoming County, PA; and from Westminster, CA, to Orange County, CA; Sub-77F, from Asheboro, NC, to Randolph County, NC; from Mansfield, MA, to Bristol County, MA; from Edison, NJ, to Middlesex County, NJ; from Laurel, MD, to Prince Georges County, MD; from San Leandro, Garden Grove and San Pedro, CA, to Almeda and Los Angeles Counties, CA; from Lenexa, KS, to Johnson County, KS; and from Muskogee, OK, to Muskogee County, OK; Sub-78F, from Ontario, CA, to San Bernardino County, CA; from Lenexa, KS, to Johnson County, KS; from Grand Prairie, TX, to Dallas County, TX; from Edison, NJ, to Middlesex County, NJ; from Mansfield, MA, to Bristol County, MA; from Laurel, MD, to Prince Georges County, MD; from Tukwila, WA, to King County, WA; and from San Leandro, CA to Alameda County, CA; Sub-79F, from Byhalia, MS, to Marshall County, MS; Sub-82F, from Monroe, Balfour, Greensboro and Salisbury, NC, to Union, Henderson, Guilford and Rowan Counties, NC; Sub-91F, from Murfreesboro, TN, to Rutherford County, TN; Sub-101F, from Albany, GA, to Dougherty County, GA; and Sub-106F, from Gallatin, TN, to Summer County, TN. Applicant seeks to remove from the following authorities restrictions limiting service either to the facilities, plantsites, or to traffic originating at or destined to the facilities of, the named shipper: Sub-17, 39, 45, 51F, 52F, 53F, 58F, 59F, 63F, 69F, 75F, 80F, 81F, 82F, 91F, 93F, 101F. Applicant seeks radial authority in lieu of existing one-way authority for the below designated authorities: Sub-16, 19, 21, 27, 30, 32, 33, 34, 39, 43, 47, 48, 51F, 52F, 53F, 55F, 58F, 59F, 61F, 63F, 64F, 65F, 66F, 67F, 69F, 73F, 74F, 75F, 76F, 77F, 78F, 79F, 80F, 82F, 93F, 101F, and 106F between various combinations of States throughout the United States. Applicants also seeks to remove restrictions limiting service to vehicles equipped with mechancial refrigeration from the following authorities: Sub-21, 59F, 69F, and 81F.

MC 146129 (Sub-1)X, filed February 24, 1981. Applicant: DIRECT DELIVERY, INC., 900 W. Florence, Los Angeles, CA 90301. Representative: Milton W. Flack, 8383 Wilshire Blvd., Suite 900, Beverly Hills, CA 90211. Applicant seeks to remove restrictions in its lead certificate to (1) broaden the commodity description from general commodities (with exceptions) to "general commodities (except classes A and B explosives) and (2) remove a restriction requiring traffic to have an immediately prior or subsequent movement by air.

MC 149206 (Sub-8)X, filed February 26, 1981. Applicant: BREWTON EXPRESS, INC., P.O. Box 508, Winnfield, LA 71483. Representative: Brian E. Brewton, P.O. Box 508, Winnfield, LA 71483. Applicant seeks to remove restriction from its MC 145363F and Sub-8F permits to (1) broaden the commodity descriptions from lumber, lumber products, lumber mill products and forest products, in the lead, and building materials (except commodities in bulk, in tank vehicles) in Sub-8F, to "building materials"; (2) broaden the territorial scope in both authorities to allow service between points in the U.S., under continuing contract(s) with named shippers.

BILLING CODE 7035-01-M

INTERNATIONAL DEVELOPMENT COOPERATION AGENCY

Agency for International Development

Advisory Committee on Voluntary Foreign Aid; Meeting

Pursuant to Executive Order 11769 and the provisions of Section 10(a)(2), Pub. L. 92-463, Federal Advisory Committee Act, notice is hereby given of the meeting of the Advisory Committee on Voluntary Foreign Aid which will be held on April 7, 1981 (from 8:30 a.m. to 5:30 p.m.), at the Dean Acheson Auditorium in the Department of State Building, 2201 C Street NW., Washington, D.C. 20520.

The topic of the meeting will be "The United States and Third World Development: What Role for the U.S. Government? What Role for Private and Voluntary Organizations?" The agenda will include presentations and sharing of views on these issues by top officials of the new Administration and Congress and by members of the private and voluntary agency community.

The meeting will be open to the public. Any interested person may attend, appear before, or file statements with the Committee in accordance with procedures established by the Committee. Written statements should be filed prior to the meeting and should be available in twenty copies.

Mr. John G. Sommer will be the A.I.D. representative at the meeting. It is suggested that those desiring further information contact Mr. Sommer at 703-235-2708, or by mail c/o the Advisory Committee on Voluntary Foreign Aid, Agency for International Development, Washington, D.C. 20523.

Dated: March 4, 1981.

Gordon K. Pierson,

Acting Assistant Administrator, Bureau for Private and Development Cooperation.

[FR Doc. 81-7839 Filed 3-11-81; 8:45 am]

BILLING CODE 4710-02-M

Advisory Committee on Voluntary Foreign Aid; Registration Subcommittee; Meeting

Pursuant to Executive Order 11769 and the provisions of Section 10(a)(2), Public Law 92-463, Federal Advisory Committee Act, notice is hereby given of the meeting of the Registration Subcommittee of the Advisory Committee on Voluntary Foreign Aid which will be held on April 8, 1981 (from 9:00 to 11:30) a.m.), in Room 1105 of the Department of State Building, 2201 C Street NW., Washington, D.C. 20520.

The entire agenda will be devoted to discussion of A.I.D.'s proposed new PVO registration policy.

The meeting will be open to the public. Any interested person may attend, appear before, or file statements with the Committee in accordance with procedures established by the Committee. Written statements should be filed prior to the meeting and should be available in twenty copies.

Mr. John G. Sommer will be the A.I.D. representative at the meeting. It is suggested that those desiring further information contact Mr. Sommer at 703-235-2708, or by mail c/o the Advisory Committee on Voluntary Foreign Aid, Agency for International Development, Washington, D.C. 20523.

Dated: March 4, 1981.

Gordon K. Pierson,

Acting Assistant Administrator, Bureau for Private and Development Cooperation.

[Delegation of Authority No. 140]

Korea; Delegation of Authority With Respect to Administration of AID Program

Pursuant to the authority delegated to me by Delegation of Authority No. 1 of October 1, 1979 from the Director of the United States International Development Cooperation Agency and Executive Order No. 12163 of September 29, 1979, I hereby delegate to the principal diplomatic officer of the United States in Korea, with respect to the administration of the foreign assistance program residual activities within the country to which he is accredited, the authorities delegated to Directors of

Missions of the Agency for International Development (AID) in AID. Handbooks, manual orders, regulations (published or otherwise), policy directives, policy determinations, memoranda, or other instructions as these may be amended, supplemented or superseded from time to time.

The exercise of the authorities delegation herein shall be subject to the limitations applicable to the exercise of such authorities by AID. Mission Directors.

The authority delegated herein may be redelegated to the officer at the post principally responsible for AID. activities and may be exercised by persons who are performing the functions of such officer in an "acting" capacity.

Dated: February 27, 1981.

Joseph C. Wheeler,

Acting Administrator, Agency for International Development.

BILLING CODE 4710-02-M

DEPARTMENT OF JUSTICE

Parole Commission

Paroling, Recommitting, and Supervising Federal Prisoners

AGENCY: U.S. Parole Commission.

ACTION: Notice.

SUMMARY: This notice describes the U.S. Parole Commission's experimental procedure for granting parole on the record without in-person hearings to those selected prisoners whom the Commission would release on parole at the earliest possible date permitted by their sentence.

DATE: These procedures were put into effect on February 12, 1981.

FOR FURTHER INFORMATION CONTACT: Toby Slawsky, Staff Attorney, Office of General Counsel, 320 First Street, NW, Washington, D.C., telephone (202) 724-7567.

SUPPLEMENTARY INFORMATION: The U.S. Parole Commission is presently implementing an experimental procedure in its regional offices under which, prior to their initial hearings at federal correctional institutions, prisoners' files are reviewed on the record for completeness of essential information and for preparation of parole guideline calculations. In conjunction with these "pre-hearing reviews," and pursuant to the provisions of 18 U.S.C. 4206(a), the Commission has authorized "parole on the record" for selected prisoners where it appears that: (1) parole upon completion of the minimum sentence (at parole eligibility) is clearly warranted by applicable Commission standards and that (2) an in-person hearing does not appear necessary for further examination of the case.

The experimental "parole on the record" procedure applies only to prisoners for whom a minimum term has been set by the sentencing court (sentencing under 18 U.S.C. 4205(a) or 4205(b)(1)) and for whom the Commission would render a decision to parole on the earliest possible date permitted by the sentence. As no more favorable decision can be rendered, the prisoner will be notified that this decision is not appealable. For the same reason, a prisoner paroled at his minimum eligibility date under the experimental procedure will not be accorded a personal institutional hearing by the Commission, unless his/her case is reopened for consideration of disciplinary infractions or other new information. See 28 CFR 2.28 (b), (c), and (f).

The "parole on the record" procedure is intended to reduce the Commission's workload by eliminating the need for in-person hearings where parole at eligibility is clearly warranted and no purpose will be served by a hearing.

Dated: March 6, 1981.

Cecil C. McCall,

Chairman, U.S. Parole Commission.

BILLING CODE 4410-01-M

NATIONAL TRANSPORTATION SAFETY BOARD

[N-AR 81-11]

Reports, Recommendations and Responses; Availability

Aircraft Accident Reports

Air Canada McDonnell Douglas DC-9-32 (CF-TLU), East of Boston, Massachusetts, September 17, 1979 (NTSB-AAR-80-13).—National Transportation Safety Board investigation established that about 14 minutes after takeoff from Boston's Logan International Airport, and at an altitude of about 25,000 ft m.s.l., the tailcone along with the aft cabin pressure access door and a portion of the aft cabin pressure bulkhead separated from the aircraft causing rapid decompression of the passenger and flightcrew compartments.

The Safety Board determined that the probable cause of the accident was a fatigue fracture of the aft cabin pressure bulkhead which resulted in a rapid decompression of the aircraft's cabin area. This fracture initiated from a crack below the aft bulkhead access door which was discernible on the X-rays taken during the aircraft's last maintenance inspection but was not detected by the inspectors.

Air Pennsylvania 501, Piper PA-31-350, N54S, Philadelphia, Pennsylvania, July 25, 1980 (NTSB-AAR-81-1). The aircraft crashed while making a visual approach to runway 27R at Philadelphia's International Airport. Witnesses stated that, when Flight 501 was about ½ mile on final approach, it rolled from side to side, pitched up, rolled inverted to the left, and flew into the ground nose first. All 3 persons aboard the aircraft were killed and the aircraft was destroyed.

The Safety Board determined that the probable cause of the accident was the loss of aircraft control due to an encounter with wake turbulence from the preceding aircraft at an altitude too low for recovery and the pilot's failure to follow established separation and flightpath procedures for wake turbulence avoidance.

Safety Recommendation Letters

Aviation: A-81-19 and -20, to the Federal Aviation Administration, February 27, 1981.—Citing 2 Boeing 727 crashes—one on May 8, 1978, near Pensacola, Florida; the other at Tenerife, Grand Canary Islands, April 25, 1980—the Safety Board recommends that FAA:

Instruct all air carriers to include in their flightcrew procedures instructions which require an immediate response to the ground proximity system's terrain closure "pull-up" warning when proximity to the terrain cannot be verified instantly by visual observation. The required response to this warning should be that the maximum available thrust be applied and that the aircraft be rotated to achieve the best angle climb without delay. (A-81-19)

Instruct air carriers to include in their initial and recurrent simulator training curricula situations involving radar controlled as well as noncontrolled flight wherein ground proximity warning system alarms are given and flightcrew response to those warning system alarms are evaluated. (A-81-20)

Aviation: A-81-23, to the Federal Aviation Administration, March 3, 1981.—Safety Board investigation of the crash last June 12 of Air Wisconsin Flight 965 near Valley, Nebraska, indicated that Air Traffic Control Handbook 7110.65B does not contain procedures for handling Center Weather Advisors (CWA's) which are prepared by meterorologists in the Air Route Traffic Control Centers (ARTCC). The Safety Board recommends that FAA:

Publish procedures in Air Traffic Control Handbook 7110.65B covering the handling of Center Weather Advisories. (A–81–23)

Pipeline; P–80–74, to the Research and Special Programs Administration, U.S. Department of Transportation, November 14, 1980.—On August 7, 1978, in Lafayette, Louisiana, natural gas at 15 psig pressure escaped from a corrosion leak in an inactive 1-inch steel service line and migrated beneath a concrete slab and into a building where it ignited. The resulting explosion and fire injured 6 persons and destroyed the building and its contents.

Investigation of an explosion and fire on June 17, 1975, in a house in Stroudsburg, Pennsylvania, disclosed that gas had been leaking into the basement of the house from a corrosion hole in an inactive gas service line that had been capped, but was still under pressure. As a result of these accidents, the Board recommends that RSPA:

Initiate rulemaking to prescribe a time limit when an inactive service line would be required to be abandoned and physically disconnected from the main. (P–80–74)

Each of the above 3 aviation and one pipeline safety recommendations is designated "Class II, Priority Action."

Responses to Safety Recommendations

Aviation

A–78–42, from the Federal Aviation Administration, February 19, 1981.—FAA provides a copy of its final rule, Certification and Operation Rules for Certain Large Airplanes, published in the Federal Register, October 9, 1980. FAA states that the amendment to 14 CFR Part 91 completes the regulatory action outlined in its letters of September 11 and October 4, 1978 (43 FR 46080 and 43 FR 46743, respectively).

A–81–1 through –5 from the Federal Aviation Administration, February 11, 1981.—Initial response to recommendations issued January 6 resulting from investigation of a Lockheed L–1011–200 airplane operated by a foreign carrier which experienced an inflight failure of a main landing gear outboard wheel flange on December 22, 1980. (See 46 FR 7113, January 22, 1981.)

Following an evaluation of Board recommendation A–81–1 to require early identification and removal of "thinner flange wheels" from "heavier airplanes," FAA finds no significant difference in safety between thinner wheels and other wheels and is unable to justify initiating recommended action. With respect to requiring appropriate inspections of wheels at each wheel disassembly, however, FAA will issue an appropriate Airworthiness Directive to require application of eddy current wheel flange radius inspections at appropriate intervals.

Re A–81–2, FAA completed a special Quality Assurance System Analysis Review (QASAR) audit of Goodrich wheel manufacturing facility at Troy, Ohio, January 12–14, emphasizing review of production and quality control procedures for manufacturing wheels for L–1011's. The QASAR team leader found no significant safety deficiencies that could have contributed to the subject wheel failure, or that would affect the safety of wheels being manufactured at the facility.

FAA does not plan to implement A–81–3, since experience with prior cracks in L–1011 wheels indicates that surface anomalies (corrosion pits, etc.) are the principal initiators of wheel flange fatigue cracks, which may occur at any wheel service life and are independent of variations in operational stress level due to differences in tire pressure. FAA is studying the wheel fatigue phenomenon on all U.S. manufactured transport category airplane types. FAA is concerned that the premature dissemination of the tire pressure effects information per the Board's recommendation could cause operators to reduce tire pressure wheel fatigue and this action could lead to a false sense of security without improving wheel safety.

FAA will implement A–81–4 as an integral part of the above-noted study. Details of the inspection procedure must be tailored to the principal failure causes and modes of each wheel type. Interim maintenance bulletins will be published and final results of the FAA study will be published in an Advisory Circular.

Re A–81–5, on January 9 FAA's Director of Airworthiness sent an "Urgent Maintenance Alert" telegraphically to airworthiness authorities of all countries having L–1011's on their registry. The alert, copied to ATA and International Air Transport Association for dissemination to member carriers, emphasized the importance of an eddy current inspection of the critical wheel flange area at each tire change. The information in that alert will be upgraded in FAA's AD referenced in A–81–1. FAA will make available to foreign authorities and all operators on a priority basis any new information gained as a result of its wheel study.

FAA believes that the preamble to recommendations A–81–1 through –5 contained a number of factual errors that need to be corrected for the record. A detailed statement is provided in the response letter.

M–80–5, from the U.S. Coast Guard, January 26, 1981.—Coast Guard does not concur in the recommendation to amend 46 CFR, Subpart 95.05–1, to require installation of a fire detection system in accommodation spaces of U.S. vessels that do not meet current structural fire protection standards. M–80–4 stemmed from investigation of the fire June 5, 1979, on board the Canadian bulk carrier M/V CARTIERCLIFFE HALL, Lake Superior. (See 45 FR 8390, Feb. 7, 1980.) Coast Guard, however, recognizes that the earliest possible detection provides the best response to a fire, and on April 2, 1980, published Navigation and Vessel Inspection Circular 7–80 urging voluntary installation of certain types of fire detection devices

Note.—Single copies of Board reports are available without charge as long as limited supplies last. Copies of recommendation letters and responses are also free of charge. All requests must be in writing, identified by recommendation or report number. Address requests to: Public Inquiries Section, National Transportation Safety Board, Washington, D.C. 20594.

Multiple copies of Board reports may be purchased from the National Technical Information Service, U.S. Department of Commerce, Springfield, Va. 22161.

(49 U.S.C. 1903(a)(2), 1906)

Margaret L. Fisher,
Federal Register Liaison Officer.
March 6, 1981.

BILLING CODE 4910–58–M

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50–387 and 50–388]

Pennsylvania Power and Light Co. and Allegheny Electric Cooperative, Inc.; Susquehanna Steam Electric Station Units 1 and 2; Order Extending Construction Completion Date

Pennsylvania Power and Light Company and Allegheny Electric Cooperative, Inc. are the holders of Construction Permit Nos. CPPR–101 and CPPR–102, issued by the Atomic Energy Commission [1] on November 2, 1973 for construction of the Susquehanna Steam Electric Station. This facility is presently under construction at a site in Northeastern Pennsylvania in the Salem Township, Luzerne County, Pennsylvania.

[1] Effective January 19, 1975, the Atomic Energy Commission became the Nuclear Regulatory Commission and permits in effect on that day were continued under the authority of the Nuclear Regulatory Commission.

On January 23, 1981, the applicants requested an extension of the latest completion dates because construction has been delayed by the following events:

1. Changes in the scope of the project including increases in the amount of material and engineering required resulting in part from the accident at Three Mile Island Unit 2 and subsequent regulatory actions.

2. Construction delays and lower than estimated productivity which resulted in delays in installation of material and equipment and delays in completion of systems required to support plant testing.

3. Changes in plant design.

4. Delays in delivery of equipment and material.

5. Shortages of certain highly skilled workers and similar construction related factors.

This action involves no significant hazards consideration; good cause has been shown for the delays; and the requested extension is for a reasonable period, the bases for which are set forth in the staff's evaluation of the request for extension.

The Commission has determined that this action will not result in any significant environmental impact and, pursuant to 10 CFR 51.5(d)(4), an environmental impact statement, or negative declaration and environmental impact appraisal, need not be prepared in connection with this action.

The NRC staff evaluation of the request for extension of the construction permit is available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. 20555 and at the Osterhout Free Library, 71 South Franklin Street, Wilkes-Barre, Pennsylvania 18701.

It is hereby-ordered that the latest completion date for Construction Permit No. CPPR-101 is extended from March 1, 1981 to December 31, 1982 and the latest completion date for Construction Permit No. CPPR-102 is extended from September 1, 1982 to March 31, 1984.

Date of Issuance: February 28, 1981.

For the Nuclear Regulatory Commission.

Darrell G. Eisenhut,

Director, Division of Licensing, Office of Nuclear Reactor Regulation.

[FR Doc. 81-7080 Filed 3-11-81; 8:45 am]

BILLING CODE 7590-01-M

[Docket No. 50-247; EA 81-11]

Consolidated Edison Co. of New York, Inc. (Indian Point Nuclear Power Station, Unit 2), Order Imposing Civil Monetary Penalties

I

The Consolidated Edison Company of New York, Inc. (the "licensee") is the holder or Operating License No. DPR-26 (the "license"), issued by the Nuclear Regulatory Commission (the "Commission"). The license authorizes operations of the Indian Point Nuclear Power Station, Unit 2 (the "facility"). The facility consists of a pressurized light water moderated and cooled reactor (PWR), located at the licensee's site in Buchanan, New York. The license was issued on October 19, 1971.

II

On October 17, 1980, the Indian Point Unit 2 Nuclear Power Plant experienced a flooding of the vapor containment. The Nuclear Regulatory Commission's Office of Inspection and Enforcement conducted an investigation of this incident during the period October 22 through November 21, 1980. The objectives of this investigation were: (1) to gather facts concerning the incident, its cause, effect(s), and the licensee's response to the incident; and (2) to evaluate these facts as a basis for corrective or enforcement action, as appropriate. The investigation findings are stated in Investigation Report 50-247/80-19, December 4, 1980. As a result of this investigation, it appears the licensee has not conducted its activities in full compliance with the conditions of its license and the requirements of the Commission. A written Notice of Violation and Proposed Imposition of Civil Penalties was served upon the licensee by letter dated December 11, 1980, stating the nature of the items of noncompliance and the provisions of NRC requirements with which the licensee was in noncompliance and identifying the items of noncompliance for which civil penalties were imposed and the amount thereof. A letter dated January 5, 1981, with enclosures, in response to the Notice of Violation and Proposed Imposition of Civil Penalties, was received from the licensee. In addition, the licensee submitted additional information to the NRC in a letter dated February 11, 1981.

III

Upon consideration of Consolidated Edison's responses (January 5, 1981 and February 11, 1981) and the statements of fact, explanation and argument in denial or mitigation contained therein, as set forth in Appendix A to this order, the Director of the Office of Inspection and Enforcement has determined that the penalties proposed for the items of noncompliance designated in the Notice of Violation should be imposed.

IV

In view of the foregoing and pursuant to Section 234 of the Atomic Energy Act of 1954, as amended (42 U.S.C. 2282) and 10 CFR 2.205, it is hereby ordered that:

The licensee pay civil penalties in the total amount of Two Hundred Ten Thousand Dollars ($210,000) for Items IA, IIA, IIB, IIC, IID, IIE, IIIA, and IIIB as set forth in Appendix A to this order (No civil penalties were assessed for Items IB, IIF, IV or for the deviation) within twenty-five (25) days of the date of this Order, by check, draft, or money order payable to the Treasurer of the United States and mailed to the Director of the Office of Inspection and Enforcement.

The licensee may, within twenty-five (25) days of the date of this Order, request a hearing. A request for a hearing shall be addressed to the Secretary to the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555. A copy of the hearing request shall also be sent to the Executive Legal Director, USNRC, Washington, D.C. 20555. If a hearing is requested, the Commission will issue an Order designating the time and place of hearing. Upon failure of the licensee to request a hearing within twenty-five (25) days of the date of this Order, the provisions of this Order shall be effective without further proceedings and, if payment has not been made by that time, the matter may be referred to the Attorney General for collection.

V

In the event the licensee requests a hearing as provided above, the issues to be considered at such a hearing shall be:

(a) whether the licensee was in noncompliance with the Commission's regulations and the conditions of the license for which civil penalties were imposed as set forth in the Notice of Violation referenced in Section II above; and

(b) whether on the basis of such items of noncompliance the Order should be sustained.

Dated at Bethesda, Maryland this 2nd day of March, 1981.

For the Nuclear Regulatory Commission.
Victor Stello, Jr.,
Director Office of Inspection and Enforcement.

Appendix A Evaluations and Conclusions

For each item of noncompliance and associated civil penalty identified in the Notice of Violation (dated December 11, 1980), the original item of noncompliance is restated and the Office of Inspection and Enforcement's evaluation and conclusions regarding the licensee's responses to each item (dated January 5, and February 11, 1918) are presented.

Item I

The Commission regulations and the facility license require the licensee to report occurrences important to safety as indicated below:

Item I.A

Statement of Noncompliance. 10 CFR 50.72(a), "notification of significant events", requires that: "Each licensee of a nuclear power reactor, licensed under para. 50.21 or para. 50.22 shall notify the NRC Operations Center as soon as possible and in all cases within one hour by telephone of the occurrence of any of the following significant events and shall identify that event as being reported pursuant to this section:

(3) Any event that results in the nuclear power plant not being in a controlled or expected condition while operating or shutdown."

Contrary to the above, the following condition was not reported within one hour of identification:

The discovery on October 17, 1980 of unexpected conditions not specifically considered in the safety analysis report or technical specifications that required remedial action to prevent existence or development of an unsafe condition, specifically the existence of: a flooded reactor vessel pit, about four inches of river water on the vapor containment floor, and steam exiting the instrument thimble holes.

The containment flooding condition was found on October 17, 1980, but not reported to the NRC until October 20, 1980, which did not comply with the one hour reporting requirements of 10 CFR 50.72. Each day that the violation continued constitutes a separate violation for the purpose of computing the civil penalty.

This is a Severity Level III violation (Supplement I.C.2 of the Interim Enforcement Policy). Applying the civil penalty for each day that the violation continued results in a civil penalty of—$120,000.

Evaluation of Licensee Response. The licensee has argued that the standards by which the NRC considers a facility to be in an "unexpected" or "uncontrolled" condition are undefined by 10 CFR 50.72. In the licensee's view, it never considered the facility to be in an "unexpected" or "uncontrolled" condition and therefore, it did not consider the presence of water on the containment floor to be reportable to the NRC. Nevertheless, the licensee has conceded that it has violated 10 CFR 50.72 of the Commission's regulations. The licensee stated in its response of January 5, 1981 that:

Although the accumulation of water on the containment floor is to be expected, the actual amount of water discovered in the containment by plant personnel on October 17, 1980 did nonetheless represent, in the language of the regulation, an "unexpected condition," and in retrospect should have been promptly reported to the NRC. On this basis, we do not contest that a violation occurred as stated in paragraph I.A of the Notice of Violation, as the Office of Inspection and Enforcement has here interpreted 10 CFR 50.72.

The licensee contends, however, that the violation should be classified as Severity Level VI rather than Severity Level III and cites the vagueness of the regulation, the intent of the regulation as explained in Information Notice (IN) 80–06, the firm conviction of plant personnel that a "serious event" did not occur, and the contention that the flooding event had minor safety significance.

Despite its contention that the regulation is vague as to what must be reported to the NRC, the licensee has in fact conceded that the amount of water found on the containment floor was "unexpected" and therefore reportable under the meaning of the regulation.

Information Notice (IN) 80–06, issued on February 27, 1980 and a Supplement to IN 80–06, issued on July 29, 1980, both emphasize that "serious events that could result in an impact on the public health and safety" are the types of events that the NRC requires to be reported under 10 CFR 50.72. The wetting of the hot reactor vessel with cold river water had the potential of overstressing the reactor vessel, a condition that could cause vessel failure. The wetting of the stainless steel Incore Instrument Conduits with brackish river water had the potential for causing chloride stress corrosion and breeching of a component which is part of the Primary Coolant Pressure Boundary. The flooding of the Reactor Vessel Pit and Containment Floor had the potential for causing post-LOCA water levels to disable safety related equipment. The leaking Fan Cooler Units (FCUs), with faulty containment isolation valves, constituted a loss of Primary Containment Integrity. Each of these potential events could have resulted in a substantial safety hazard to the public. Hence this event does qualify for reporting under 10 CFR 50.72.

The fact that plant personnel erroneously concluded that the event was not potentially serious does not change the basic requirement to report the unexpected event. It should again be emphasized that the licensee has conceded that the amount of water on the containment floor was unexpected.

The licensee also maintains the event would not require an "open, continuous communication channel" with NRC as described in 50.72(b) and hence implies it need not be reported per 50.72(a). Had the licensee reported the event on 10/17/80, while water was still covering a portion of the Reactor Vessel, the NRC would, in all likelihood, have required that an open continuous communication channel be maintained. Furthermore, the fact that the NRC may receive a 50.72(a) report and decide to not maintain an open continuous communications channel, in no way negates the requirement to make the report in the first place.

The licensee contends that the event which was not reported had minor safety significance. This contention is based on information not known and in some cases unavailable to the licensee at the time the decision to not report was made. That the licensee initially considered the event of more than minor safety significance is illustrated by the licensee's decision to shutdown the reactor on the morning of October 20, 1980. That subsequent analysis and inspection has indicated no significant damage has occurred from this event is indeed fortunate, but not sufficient justification for failure to report the unexpected condition, which at the time had unknown significance.

The licensee contends that failure to report this event should be considered a Severity Level VI violation and argues that the Notice of Violation does not explain "which serious safety mitigative or preventive system was unable to perform" its functions. The NRC Interim Enforcement Policy (45 FR at 66754) (October 7, 1980) states that the "severity level of a violation involving the failure to make a required report to the NRC will be based upon the significance of and the circumstances surrounding the matter not reported." The proposed enforcement policy also states that violations that are not specifically identified in the

Supplements will be placed at the level best suited to the significance of the particular matter. The particular event not reported was considered significant and therefore placed at Severity Level III because of:

(1) the unreviewed safety question, which existed at the time, of operating a hot reactor vessel and stainless steel conduits in contact with cold brackish river water;

(2) the actual safety problems which existed, namely: loss of containment integity, post-LOCA loss of at least one FCU, some post-LOCA boron dilution of recirculated water, and post-LOCA submergence and hence potential failure of safety related valves; and

(3) the potential safety problem which would have existed had flooding continued for a short additional period of time; namely post-LOCA submergence of the recirculation pump motors.

Finally, the licensee states that there is no "appropriate basis for accruing separate violations for each day of licensee misinterpretation." Under Section 234 of the Atomic Energy Act, as amended (42 U.S.C. 2282), the Commission is authorized to impose civil penalties for each day that a violation continues. The containment flooding condition was reportable to the NRC as of October 17, 1980 yet was not reported until October 20, 1980. Thus, the licensee violated the reporting requirement for three days (October 17, 18, and 19) and is, therefore, subject to a civil penalty for each day of the violation. Civil penalties for each day the violation continued are particularly appropriate in this case, because during each of the three days the incident was not reported, the licensee's management were alerted again and again to the existing situation, had the opportunity to report the occurrence and yet did not conclude that a report to the NRC should be made.

Conclusion. The item as stated is an item of noncompliance. The information provided in the licensee's response does not provide a basis for modification of the enforcement action or for remission or mitigation of the proposed penalty.

Item I.B

Statement of Noncompliance. Technical Specification 6.9.1.7.1 states, in part, that: "The types of events listed below shall be reported within 24 hours of identification . . .

c. Abnormal degradation discovered in . . . primary containment. . . ."

Contrary to the above on October 17 and 18, 1980, leaks were discovered in several fan cooler units. These leaks constituted abnormal degradation of primary containment and were not reported to the NRC until October 20, 1980. This violates the 24 hour reporting requirement.

In accordance with Footnote 17 to Section B of the Interim Enforcement Policy this is categorized as a Severity Level III violation.

Evaluation of Licensee Response. The licensee contends that plant design features described in the FSAR to monitor and isolate the fan cooler units (FCUs) were operable on October 17 and 18, 1980, and that consequently, the requirements for containment integrity were satisfied. Thus, according to the licensee, no report pursuant to Technical Specification 6.9.1.7.c was required.

Although some of these features were operable, not all of them were. The outlet service water containment isolation valve for FCU #22 has been tested by the licensee and shown to be unable to hold pressure. The containment isolation valves for the other four FCUs were also tested and the licensee was unable to demonstrate their leak tight integrity. Thus primary containment integrity was clearly not maintained as evidenced by:

(1) multiple service water leaks inside containment in the piping and tubing to the FCUs;

(2) leaky containment isolation valves on the inlet and/or outlet service water lines for the FCUs; and

(3) service water system pressure to the FCUs in containment that is significantly below peak accident pressure in containment.

The licensee knew of the service water leaks on October 17, 1980 and was also aware of the status of the containment isolation valves, because personnel entering containment after the FCU service water valves were closed noted continued flow from the FCU condensate leak detection devices. Thus, upon identification of this abnormal degradation in primary containment, the licensee was required to report this fact to the NRC within 24 hours.

The licensee argues that prior to the flooding event at Indian Point 2 on October 17, 1980, service water leaks of the type experienced during this event were not considered reportable by the NRC. In support of this proposition, the licensee cites IE Bulletin 80-24 (November 21, 1980) and argues that the bulletin, as a result of the Indian Point 2 event, imposed the new requirement to report any service water system leaks within containment. The licensee argues that the NRC cannot apply this requirement retrospectively in order to sustain a violation against Consolidated Edison.

Despite this contention, IE Bulletin No. 80-24, "Prevention of Damage Due to Water Leakage Inside Containment (October 17, 1980, Indian Point 2 Event)," did not impose any new requirements but rather emphasized existing ones. Item 2.f of this Bulletin reemphasized the NRC's interest in receiving reports on degradation of primary containment. The NRC decided to emphasize in the Bulletin this already existing reporting requirement because at least one licensee (Consolidated Edison) had not considered it necessary to promptly report such leakage. This event should have been reported in accordance with technical specifications as described above, and is not a new requirement established in Bulletin 80-24 as the licensee contends.

The licensee contends that a separate violation for failure to report abnormal degradation in primary containment under Technical Specification 6.9.1.7.1.c is inappropriate, in light of the earlier cited violation for failure to report the plant in an unexpected condition under 10 CFR 50.72(a)(3). The licensee is required by TS 6.9.1.7.1 to report orally and in writing to the Director of Region I abnormal degradation in primary containment. The licensee is required by 10 CFR 50.72 (a) and (b) to report orally to the NRC Operations Center the discovery of an event that results in the plant being in an unexpected condition and, until notified otherwise, to maintain a continuous communication channel to the NRC Operations Center. Thus, despite the licensee's contention, the licensee committed two acts of non-reporting and violated two separate reporting requirements. Even if the items to be reported had been the same, which they were not in this case, neither reporting requirement can be substituted for the other, since the chain and mode of communications is different for each of the requirements.

Finally, the licensee argues that this violation, as well as the violation described in Item I.A of the Notice of Violation dated December 11, 1980, cannot be classified as a Severity Level III because neither violation involved actual or high potential impact on the public. The justification for assigning Severity Level III to Item I.A has been previously addressed. Item I.B. is associated with Item I.A in that together they indicate a problem with the licensee's lack of concern for NRC reporting requirements. Consequently, in accordance with footnote 17 of the Interim Enforcement Policy (45 FR at 66757), Item I.B has properly been assigned the same severity level as that of Item I.A.

Conclusion. The item as stated is a violation. The information provided in the licensee's response does not provide a basis for modification of the proposed enforcement action.

Item II

The station Technical Specifications and Quality Assurance Program prescribe the management controls designed to prevent or mitigate a serious safety event. A number of violations of management controls required in these documents occurred. The highest severity level associated with these violations is Severity Level III. Because you could reasonably have been expected to have taken effective measures to prevent this occurrence, civil penalties for these violations have been increased by 25%. Therefore a Civil Penalty—$50,000 is proposed. The civil penalty has been distributed to the separate violations as indicated below:

Item II.A

Statement of Noncompliance. Technical Specification 6.5.1.6 states in part that, "The Station Nuclear Safety Committee shall be responsible for: . . .

f. Review of facility operations to detect potential safety hazards . . .".

Contrary to the above, the Station Nuclear Safety Committee did not review, prior to a reactor startup on October 20, 1980, the potential safety hazards associated with the flooding event of October 17, 1980 during which the hot reactor vessel and various stainless steel components were wetted with cold, brackish river water.

This is a Severity Level III violation (Supplement I.C.2 of the Interim Enforcement Policy). Civil Penalty—$20,000.

Evaluation of Licensee Response. Although the licensee argues that "the accumulation of water on the containment floor was not considered a significant event from a safety standpoint requiring Station Nuclear Safety Committee review," it concedes that a Violation of Technical Specification 6.5.1.6 occurred. The licensee states:

> Even though there were no actual safety problems, and even though the Safety Committee was unaware of the vessel wetting at the time of this alleged violation, Consolidated Edison nonetheless agrees that the Committee should have reviewed all relevant safety considerations—however remote—after the discovery of substantial amounts of water inside containment and prior to reactor startup. We thus acknowledge that a violation occurred as set forth in paragraph II.A of the Notice of Violation.

The licensee does, however, dispute the severity level assigned to this violation. It argues that during the leakage event, there were no instances of actual or high potential impact on the public and that there was no deficiency in any "system" as that term is used in Supplement I.C.2 of the Interim Enforcement Policy.

Despite the licensee's contention that there was no actual or high potential impact on the public, there were potential safety problems in the following areas that could have had an impact on the public:

1. Degradation of service water piping and tubing creates the possibility of post-LOCA leakage from containment, particularly considering the approximately 15 psig service water pressure in the FCUs and a peak accident containment pressure of 47 psig. This was compounded by the excessive leak rates through the service water containment isolation valves. Also, if the leaking FCUs are isolated this renders them inoperable.

2. A LOCA coincident with the flooded containment would have submerged and made inoperable safety injection valves, as described by the licensee on page 11 of its response, thus reducing the redundancy and reliability of portions of the Safety Injection System.

Continued leakage after 10/17/80 would have further raised post-LOCA water levels, e.g.:

125,000 gallons, Elev. 51'7½".
150,000 gallons, Elev. 51'711".

The licensee depends on the next float level switch (in the recirculation sump) and subsequent operator action to prevent the flood from continuing. Both of these are subject to question since the operators did not react to the abnormal condition of a continuously actuated 51' level switch and apparently the 91' level switch did not actuate even though under water. Additionally, none of these switches had audible alarms, only white lights on a side panel in the control room. Thus, without early discovery, post-LOCA water levels could have easily reached 52'5", the bottom of the recirculation pump motors, or higher.

As to the licensee's contention that there was no deficiency in the "system", as that term is used in Supplement I.C.2 of the Interim Enforcement Policy, it should be emphasized that the term "system" is not restricted merely to hardware systems. Rather, "system" encompasses both hardware and management systems. In this instance, the violations for which the licensee was cited in Items II A–F represent violations of the licensee's Technical Specifications and Quality Assurance program. Both of these are management control systems that are by nature designed to prevent or mitigate serious safety events. As to the licensee's contention that isolated instances of personnel error have been characterized as a system breakdown, the large number of violations cited in Items II A–F emphasize that there were not "isolated instances" of errors, but rather a serious breakdown of the licensee's management control system.

The licensee also contends that it is inappropriate to increase the civil penalties assigned to the violations in Item II in that no basis is stated in the Notice of Violation for the NRC's finding that the licensee could reasonably have been expected to have taken effective preventive measure. In addition, the licensee contends that the Interim Enforcement Policy indicates that civil penalties will be increased by 25% only in cases "where the licensee disregards actual knpowledge of a condition gained from prior NRC license audits and the like." The standard for increasing civil penalties by 25% is described in the interim Enformcemnt Policy (45 FR at 66756) as when "the licensee could reasonably have been expected to have taken effective preventive measures." Thus, civil penalties can be increased by 25% any time the NRC determines the standard has been violated. Knowledge of a problem through various means of prior notice is just one example of the manner in which the standard can be violated. In this instance the NRC's basis for concluding that the licensee could reasonably have been expected to have taken effective measures to prevent the flooding incident is discussed in Investigation Report 50–247/80–19, paragraph 11, Meeting Report 50–247/80–19A, paragraph 2.c and is illustrated in Figures 4 and 6 of both reports. Specifically, the frequency of fan cooler unit leakage increased over the years and the licensee performed unqualified repairs of these leaks without adequate evaluation of their causes and took no particular care to ensure that systems were available or inspections performed to detect any failures or leaks that might develop. Thus, the licensee had prior notice of the potential for the flooding incident. Had proper attention been paid to these items upon their occurence, it is reasonable to expect that the flooding incident could have been avoided.

The licensee also contends that violations based on a failure in its management control system should be dismissed because an IE inspection report dated September 2, 1980 indicated that licensee management had the

proper regard for safe operation of the plant. However, the three day inspection conducted by the NRC was not all encompassing and in particular did not review management controls in the reporting, maintenance, surveillance and quality assurance areas, which constitute a significant portion of the areas identified above and cited in the Notice of Violation. Also, while no significant problems or noncompliances were found in the areas inspected in September 1980 this did not in any way grant the licensee immunity from subsequent adverse findings in these areas.

Corrective action commitments provided by the licensee are incomplete. It does not appear that items 1–4 of the licensee's response, if implemented prior to 10/17/80, would have resulted in a proper review of the facts by the SNSC prior to plant startup. A supplemental response is requested which will specify what additional changes and/or actions are planned to ensure that further similar violations will be avoided.

Conclusion. The item as stated is an item of noncompliance. The information provided by the licensee does not provide justification for modification of the enforcement action or for remission or mitigation of the proposed penalty.

Item II.B

Statement of Noncompliance. Technical Specification 6.8.1 requires that procedures shall be established, implemented and maintained to meet the requirements and recommendations of Appendix A to Regulatory Guide 1.33–1972, and ANSI N18.7–1972, sections 5.1 and 5.3.

1. Regulatory Guide 1.33–1972, Appendix A, paragraph H.1, calls for procedures of a type appropriate to the circumstances to assure that instruments and controls are properly calibrated and adjusted to maintain accuracy.

2. Regulatory Guide 1.33, Appendix A, paragraph H.2 calls for procedures to implement each surveillance test, inspection or calibration listed in the Technical Specifications. Technical Specification 3.1.F.1 requires a safety evaluation whenever reactor coolant system leakage is indicated by the means available.

3. ANSI N18.7–1972, Section 5.3, states that procedures shall provide an approved preplanned method of conducting operations. Section 5.3.2.6 states that limitations on parameters being controlled and appropriate corrective measures to return the parameter to the normal control band should be specified.

4. ANSI N18.7–1972, Section 5.1.6.1, states that maintenance or modifications that may affect functioning of safety related systems shall be performed to assure quality and that maintenance shall be properly preplanned and performed in accordance with written procedures appropriate to the circumstances.

Contrary to the above, procedures were not established, implemented and maintained in that, respectively:

1. No setpoints for containment sump pump operation were included in the surveillance test, PT–R2A, "Containment Sump Level Analog Test," Revision 2, which verified sump pump operability; and

2. Procedures were not established or implemented for the condensate flow leak detection system or the containment humidity detectors which would satisfactorily implement Technical Specification 3.1.F.1 to detect reactor coolant system leakage; and

3. Procedures were not established which would provide for a preplanned method of controlling the containment sump level. Specifically, no control band or maximum sump level was specified, nor were corrective measures detailed; and

4. Site administrative procedures were not established, implemented and maintained to provide guidance as to when written approved procedures were required for maintenance activities or as to when maintenance activities would constitute a modification, both of which require review and concurrence by the Station Nuclear Safety Committee.

In accordance with Footnote 17 to Section B of the Interim Enforcement Policy this is categorized as a Severity Level III. Civil Penalty—$10,000.

Evaluation of Licensee Response.

Paragraph II.B.1 and 3

The licensee contends that "ANSI N18.7–1972 states in Section 1 that the requirements of this Standard apply to all activities affecting the safety-related functions of nuclear powerplant structures, systems, and components." This statement is found in ANSI N18.7–1976, but not in the 1972 edition, which is pertinent here. The licensee further states that the containment sump pumps are not defined as safety-related and uses this to justify its lack of procedural coverage for those pumps. Technical Specification (TS) 6.8.1 calls for procedures in accordance with Regulatory Guide 1.33–1972 (RG 1.33–1972) and ANSI 18.7–1972, and not just for "safety-related" components. There are many important components and systems listed in these documents which require written approved procedures and that are not defined as "safety-related" by licensee Quality Assurance Programs. RG 1.33–72, Appendix A, paragraph G.1. a calls for procedures for Liquid Radwaste Collection Systems. This would include the Containment Sump and Sump Pumps. ANSI N18.7–1972 and paragraph H.1 of RG 1.33–72 give some of the types of items that these procedures should contain; this is what the licensee's procedures lacked in Items II.B.1 and II.B.3.

Relative to item II.B.1 the licensee states that appropriate procedures did exist for the sump pumps in that float settings for starting and stopping the pumps were set so as not to allow the level in the sump to reach the 46' elevation and that the absence of a float setpoint procedure did not contribute to the flooding. The intent to keep the level in the sump from the 46' elevation clearly was not met, since prior to 10/17/80 the 46' elevation was flooded. The lack of a float setpoint calibration value in the procedure contributed to this flooding by allowing the turn-on point for the sump pumps to be above the last sump level light (i.e. the 51" light) which could provide warning before the 46' elevation was flooded.

With respect to paragraph II.B.3, the licensee contends that a procedure was established to provide a pre-planned method of controlling the containment sump level. The licensee argues that level control switch settings were physically present and that licensee procedure PT–R2A was implemented to verify operability. Contrary to this implication, procedure PT–R2A is inadequate in that it does not specify any setpoints for pump operation.

The licensee also contends that the item of noncompliance is improperly assigned a Severity Level III because the item does not contain a violation which involves actual or high potential impact on the public and because the violations described in Item II.B are not in any way related to the violations contained in Item II.A. In Item II.A the licensee was assessed a civil penalty for its failure to have the Station Nuclear Safety Committee review potential safety hazards associated with the flooding incident prior to restarting the facility. The potential safety significance of the violation contained in Item II.A, and thus the justification for classifying the item as a Severity Level III violation, has been previously discussed. Item II.B. is associated with Item II.A. in that both constitute examples of the breakdown in the licensee's management control system. Accordingly, Item II.B., like all the violations contained in Items II.B–F, is assigned the same severity level as

that assigned to Item II.A pursuant to footnote 17 of the Interim Enforcement Policy (45 FR at 66756). The licensee has misinterpreted footnote 17 to mean that each violation in a series of items must be causally connected to the first violation in that series. The correct view is that each violation in a series of items must all relate to the same "event" or "problem" before they can be assigned the same severity levels pursuant to footnote 17. In this instance, the "problem" identified in Items II A–F, is the licensee's breakdown in the management control system. Throughout its response to Items II A–F, the licensee has made the same arguments pertaining to the assigned severity levels for each item of noncompliance. The above discussion with respect to severity levels is applicable to each of these items and accordingly will not be repeated under each item.

Paragraph II.B.2

Technical Specification (TS) 3.1.F.1 requires the licensee to conduct a safety evaluation within four hours of identification of reactor coolant system leakage. The methods used by the licensee to indicate such leakage are two systems of different principles, one of which is sensitive to radioactivity. The other system consists of humidity detectors and a condensate flow leak detection system. The licensee contends that its procedure SOP 1.7 adequately implements the TS applicable to reactor coolant system (RCS) leakage with regard to its dew point and fan cooler unit (FCU) flow monitoring systems. The NRC considers the procedures inadequate to implement the Technical Specifications as described in the Notice of Violation with respect to the FCU condensate leak detection system in that:

(a) Procedure SOP 1.7 has no required action level for weir water level;

(b) Procedure SOP 1.7 does suggest a water level of 2" and increasing in a weir as an action level, but this water level could correspond to an already significant RCS leak (between 7 and 14 gpm) and this suggested level was not used when exceeded (e.g., September 1980 data);

(c) The maximum water level limit of 4" identified in the control room log and the actual alarm setpoint of approximately 4" correspond to an already significant RCS leakage (greater than 14 gpm);

(d) No calibration procedures were established to calibrate or set the high level alarms for the FCU weir level detectors; and,

(e) In SOP 1.7, when evaluating weir levels, it was not clear what to use for initial values (step 4.1.A) or final values (step 4.1.B). Usually baseline data from October 25, 1979 were used, but not always. When these data were used, due to the length of time since established, it provided a baseline of questionable usefulness.

The procedures are inadequate with respect to the dew point system in that:

(a) The Procedure SOP 1.7 action level for dew point of 89°F and increasing and the control room log sheet's maximum dew point of 95°F, combined with a normal reading of 70°F or lower corresponded to an already significant RCS leakage (greater than 4 gpm per NRC calculations).

(b) The humidity detectors were not sensitive to incremental increases of water leakage as described in the FSAR and TS Bases, because they were normally off scale low (less than 70°F) as show in the control room logs for the majority of September 1980;

(c) No calibration procedures were established to calibrate or set the alarms for the humidity detectors; and,

(d) Graph RCS–8, which is used to quantitatively determine an RCS leak rate based on observed dew points, is not accurate since it apparently assumes a baseline dew point near 85°F, while actual baseline values are at or below 70°F.

The licensee's "Planned Actions to Modify Maintenance and Surveillance Program" does not address the specific inadequacies of Item II.B.2 as detailed above. A supplemental response is requested which specifies how RCS leak detection procedures and equipment will be upgraded to address Item II.B.2.

Paragraph II.B.4

The licensee contends that its site administrative procedures were adequate to provide guidance as to when written approved procedures were required for maintenance activities and when maintenance activities would constitute a modification, both of which require review and concurrence of the Station Nuclear Safety Committee (SNSC). The NRC considers these procedures inadequate. The licensee's maintainence practices onsite are performed using either an investigative checklist, a steplist or a maintenance procedure. Each of these is more formalized than the preceding one; each can be used on safety-related equipment; yet, only the maintenance procedure receives SNSC review and approval. ANSI N18.7–1972, paragraph 5.1.8.1 allows maintenance to be performed without a step by step written procedure where the skills required are possessed by qualified maintenance personnel. MAD–4, Rev. 1, as the licensee states, does give some examples of skills normally possessed by maintenance personnel. The examples given can be categorized as either troubleshooting or replacement of various parts in kind. However, maintenance activities other than troubleshooting or replacement in kind are performed using the steplists and checklists, such as the epoxy repairs to the FCUs. The licensee's administrative controls do not define when it is appropriate, for these types of circumstances, to perform the maintenance without written approved procedures.

Additionally, although the licensee's procedures require SNSC review of modifications, the administrative procedures established do not detail when a maintenance activity is to be considered a repair and when it is to be considered a modification. The licensee's response discusses the general guidance given in Site Administrative Directives but does not indicate that any specific guidance of the type discussed above exists.

The licensee's commitments for corrective action are incomplete. A supplemental response is requested which should indicate what corrective action will be taken to provide detailed guidance as to when written approved procedures are required for maintenance activities and as to when a maintenance activity constitutes a modification.

Conclusion. The item as stated is an item of noncompliance. The information provided by the licensee does not provide a basis for modification of the enforcement action or for remission or mitigation of the proposed penalty.

Item II.C

Statement of Noncompliance. 10 CFR 50, Appendix B, Criterion II requires that:

". . . The quality assurance program shall provide control over activities affecting the quality of the identified . . . systems, and components. . . ."

FSAR Volume A, Attachment A–2, "Quality Assurance Program (ANSI N18.7 Format) Revised June, 1977," Foreword, states that:

"The following quality assurance program conforms to the requirements of 10 CFR 50, Appendix B. Additionally, Con Edison commits to have a Quality Assurance Program satisfying the requirements and guidelines of the following ANSI Standards and complying with the regulatory position in the Regulatory Guides as modified by Table A and Table B.

ANSI Standards. ANSI N18.7–1976 'Administrative Control and Quality

Assurance for Operational Phase of Nuclear Power Plants'."

ANSI N18.7, Paragraph 5.2.7.1, "Maintenance Programs" states that "The causes of malfunctions shall be promptly determined, evaluated and recorded. . . ."

Contrary to the above, despite continued malfunctions (i.e., leaks) in the fan cooler units between 1973 and October 1980, the causes of the malfunctions had not been determined or recorded, and evaluations of the causes had not been completed.

In accordance with Footnote 17 to Section B of the Interim Enforcement Policy this is categorized as a Severity Level III Violation. Civil Penalty—$10,000.

Evaluation of Licensee Response. The licensee denies this violation although admitting that the evaluation of the cause of the leaks had not been completed. The licensee's contention is based in part on a documented evaluation performed in 1973 on the original ECU motor cooler heat exchangers (HXs) that developed leaks in brazed joints and were destructively examined. The licensee maintains that since the main ECU HXs are similar in design and fabrication to the motor cooler HXs, the main ECU HXs would be expected to fail in the same manner. Hence, the licensee indicates that he understood the failure mechanisms at work in the main ECU HXs and had no need to perform and record evaluations beyond the 1973 document. The investigation did not support this conclusion. During the time period 10/23/80 through 12/3/80, despite repeated requests by the investigation team of licensee personnel responsible for the design, performance and maintenance of the ECUs, the licensee was unable even to remember, much less provide, documentation of the 1973 failure analysis. Hence the use of the 1973 information and its significance in any decisions made by the licensee prior to the flooding event cannot be supported. Nevertheless the licensee never confirmed that the failure mechanism for the main ECU HXs brazed joints was in fact the same as that of the previously analyzed motor cooler HXs. Additionally, the licensee never evaluated the causes of the mid-tube failures on ECU #25. Finally the licensee's statement that all leaks were "promptly identified and corrected" is not accurate in that the estimated 10 gpm leak discovered on 10/17/80 was not identified and corrected until at least 110,000 gallons of water had accumulated on the Vapor Containment floor. Further, the temporary repairs and pipe clamps utilized over the years cannot be viewed as "correction" of the problem.

The licensee's proposed corrective action is unacceptable in that the licensee does not specify how and by whom the requirements of ANSI N18.7 to promptly determine, evaluate and record the causes of malfunctions will be accomplished. A supplemental response is requested to provide this information.

Conclusion. Item II.C, as stated, is an item of noncompliance. The information provided by the licensee does not provide a basis for modification of the enforcement action or for remission or mitigation of the proposed penalty.

Item II.D

Statement of Noncompliance. 10 CFR 50, Appendix B, Criterion II, states ". . . The quality assurance program shall provide control over activities affecting the quality of the identified . . . systems, and components . . ."

FSAR Volume A, Attachment A–2, "Quality Assurance Progam (ANSI N18.7 Format) Revised June 1977," Foreword, states "The following quality assurance program conforms to the requirements of 10 CFR 50, Appendix B. Additionally, Con Edison commits to have a Quality Assurance Program satisfying the requirements and guidelines of the following ANSI Standards . . .

ANSI STANDARDS. ANSI N18.7–1976 'Administrative Control and Quality Assurance for the Operational Phase of Nuclear Power Plants'."

ANSI 18.7–1976, Paragraph 5.2.7.1, Maintenance Programs, states in part, "A maintenance program shall be developed to maintain safety related . . . systems . . . at the quality required for them to perform their intended functions . . . Planning for maintenance shall include evaluation of the use of . . . materials in the performance of the task. . . ."

10 CFR 50.59(b) states, in part, that the licensee shall maintain records of changes in the facility which include a written safety evaluation that provides the bases for the determination that a change does not involve an unreviewed safety question.

Technical Specification 6.5.1.6 requires that "The Station Nuclear Safety Committee (SNSC) shall be responsible for: . . .

d. Review of all proposed changes or modifications to plant systems or equipment that affect nuclear safety . . ."

Contrary to the above, modifications were made to the fan cooler unit cooling coils and service water lines during maintenance performed between 1978 and July 1979 without review by the SNSC and without an evaluation being conducted to demonstrate that an unreviewed safety question was not involved or to demonstrate the suitability of epoxy sealant material to perform its intended function under loss of coolant accident (LOCA) conditions. In August 1979 an evaluation of the epoxy sealant material was made, which did not consider all of the post-LOCA conditions or the specific mode in which the sealant was used. Subsequent to this, the plant was operated at power and additional repairs were made on July 7 and 25, 1980 and on October 3, 18 and 19, 1980.

In accordance with Footnote 17 to Section B of the Interim Enforcement Policy this is categorized as a Severity Level III Violation. Civil Penalty—$5,000.

Evaluation of Licensee Response. The licensee indicates that the epoxy fixes performed on the Fan Cooler Units (FCUs) were "repairs", not modifications, which returned the equipment to its original leak tight condition without changing its safety function. The licensee has identified a number of historical documents which could, when taken together, appear to provide an adequate basis for the use of epoxy under controlled application conditions. The licensee did not state or otherwise demonstrate that licensee personnel had reviewed and evaluated the cited documents to determine the acceptability of the techniques used prior to applying epoxy to correct tube leaks.

The substitution of epoxy-bonded tube-to-header joints for brazed joints and the use of epoxy as pressure retaining fixes for leaky tubes is considered to be a modification because it changes or alters the basic joint and tube design, rather than merely repairing the component to its original design. As such, the modification should have received proper review by the SNSC for its suitability and an evaluation by the licensee to determine if an unreviewed safety question was involved. Documents reviewed by the investigation team do not demonstrate that the licensee had reviewed or evaluated available documents prior to use of epoxy. The fact that the licensee has subsequently identified documents which support the use of epoxy or that the licensee, after the incident, performed tests to qualify its use, does not excuse the licensee from the requirement to perform an evaluation of the materials to be used and the changes to be made. In 1979 the licensee's first documented evaluation of the suitability

of the epoxy (ESR No. I2-9019) concluded that "epoxy will not perform satisfactorily under certain application and operating procedures, and should therefore not be considered for use as a permanent repair."

The licensee also stated that a temporary repair was capable of 1 to 3 years satisfactory service, as documents in paragraph 11.f.(4) of the investigation report. It should be noted that in 1979 some of the epoxy modifications were already over 3 years old and that the basis for allowing an unsatisfactory use of epoxy to exist, even for 3 years, is unclear. Additionally, the NRC does not believe that a good method exists to verify the acceptability of epoxy to determine its margin of safety or operational life. None of the test results cited by the licensee document the lifetime of an epoxy modification. This is particular important considering the adverse conditions under which the modifications were sometimes made (reactor at power, ambient temperature around 120° F and maintenance personnel in respirators). Finally, contrary to the licensee's claim that no epoxy "repair" ever failed in service, MWR 25-2057, dated July 7, 1980 indicates that at least one application of epoxy to a cooling coil leak failed in service.

The licensee's proposed preventive action consists of general statements about new programs and as such could very well be acceptable and provide good controls for evaluating repairs, materials, changes and modifications. However, to properly evaluate the adequacy of the new programs with respect to the violation more information is needed. A supplemental response detailing the licensee's new program for evaluating repairs, materials, changes and modifications is requested.

Conclusion. The item as stated is a violation. The information provided by the licensee does not provide a basis for modification of the enforcement action or for remission or mitigation of the proposed penalty.

Item II.E

Statement of Noncompliance. 10 CFR 50, Appendix B, Criterion XVI requires that "Measures shall be established to assure that conditions adverse to quality, such as failures, malfunctions, deficiencies, deviations, defective material and equipment, and nonconformances are promptly identified and corrected."

FSAR Volume A, Attachment A-2, "Quality Assurance Program (ANSI N18.7 Format) Revised June, 1977", Section 5.2.11, "Corrective Actions", states "Measures have been established which ensure that conditions adverse to plant safety which may occur during work, e.g. maintenance, are promptly identified in a Quality Control Inspection Report (QCIR) or a Deficiency Report (DR) and corrected. . . . The action addressee on the Quality Control Inspection Report (QCIR) . . . is responsible for either correcting the nonconformance or designating the organization responsible for completing the necessary corrective actions. The managements of these designated organizations are responsible for taking the necessary corrective actions." Implementing Procedure SAO-113, Quality Control Reports and Stop Work Authority, Revisions 0 and 1, Paragraph 2.7, states in part, "In any case where the recipient of a QCIR is unable to make a schedule . . . or does not agree with the specific action called for, he will so inform the . . . QA Engineer in writing. Feedback to the QA Engineer per the requirements above should be provided promptly, i.e., generally within three (3) working days of the QCIR receipt."

Contrary to the above, the measures established did not assure prompt correction in that:

1. The following QCIRs had not been responded to promptly as no response has been received as of October 29, 1980.

—79-2-14, issued April 2, 1979.
—79-2-27, issued May 27, 1979.
—79-2-43, issued July 17, 1979.
—79-2-44, issued July 20, 1979.
—79-2-74, issued September 17, 1979.
—80-2-17, issued February 16, 1980.
—80-2-19, issued March 17, 1980.
—80-2-33, issued September 4, 1980.

2. The following QCIRs were closed by the Quality Assurance Engineer based on various types of followup action but had never been responded to in writing.

—78-2-27, issued February 23, 1978.
—79-2-66, issued August 27, 1979.
—79-2-77, issued November 29, 1979.
—79-2-75, issued September 20, 1979.
—80-2-13, issued February 14, 1980.
—80-2-28, issued July 25, 1980.
—80-2-29, issued July 25, 1980.
—80-2-39, issued October 2, 1980.

3. The following QCIRs which are closed had not been responded to promptly.

—73-2-184, issued November 15, 1973; responded to May 5, 1974.
—76-2-001, issued January 19, 1976; responded to March 9, 1976.
—77-2-89, issued June 9, 1977; responded to August 3, 1977.
—80-2-25, issued May 13, 1980; responded to July 17, 1980.

In accordance with Footnote 17 to Section B of the Interim Enforcement Policy this is categorized as a Severity Level III Violation. Civil Penalty—$5,000.

Evaluation of Licensee Response. The licensee denies this violation and argues that its procedures did not require a response to be filled within three days.

The violation was issued because the measures established to assure prompt correction were not effective (e.g. their QA Program requirements) and not merely because the three-day time limit had expired. The 10 CFR 50, Appendix B, Criteria XVI requirement is to establish measures to assure prompt identification and correction of conditions adverse to quality. The licensee did establish the written controls, but the envidence indicates that the measures were such that they did not assure prompt correction. The length of time involved in the examples given, particularly where no responses had been made and no corrective action accomplished or stipulated, was excessive. Further, the licensee's claim that some QCIRs were used only to track repairs ignores the fact that those QCIRs had designated and "Action Addressee."

The licensee's proposed corrective action is a general statement and as such appears to be acceptable. However, based on the lack of effectiveness of the previous written controls discussed herein, the NRC reserves full acceptance of the proposed corrective action until the implementing procedures can be reviewed and their effectiveness determined.

Conclusion. This item, as stated, is an item of noncompliance. The information provided by the licensee does not provide a basis for modification of the enforcement action or for remission or mitigation of the proposed penalty.

Item II.F

Statement of Noncompliance. 10 CFR 50, Appendix B, Criterion VIII, "Identification and Control of Materials, Parts, and Components", states that:

"Measures shall be established for the identification and control of materials, parts, and components, including partially fabricated assemblies. These measures shall assure that identification of the item is maintained by heat number, part number, serial number, or other appropriate means, either on the item or on records traceable to the item, as required throughout fabrication, erection, installation, and use of the item. These identification and control measures shall be designed to prevent

the use of incorrect or defective material, parts, and components."

FSAR Volume A, Attachment A–2, "Quality Assurance Program (ANSI N18.7 Format) Revised June, 1977", Foreward, states that "The following quality assurance program conforms to the requirements of 10 CFR 50, Appendix B. Additionally, Con Edison commits to have a Quality Assurance Program satisfying the requirements and guidelines of the following ANSI standards. . .

ANSI Standards. ANSI N18.7–1976 'Administrative Control and Quality Assurance for the Operational Phase of Nuclear Power Plants'."

ANSI N18.7–1976, paragraph 5.2.7 states that:

> Maintenance or modifications which may affect functioning of safety-related structures, systems, or components shall be performed in a manner to ensure quality at least equivalent to that specified in original design bases. . . Maintenance or modification of equipment shall be preplanned and performed in accordance with written procedures, documented instructions or drawings appropriate to the circumstances which conform to applicable codes.

Contrary to the above, maintenance repairs on the fan cooler unit water heat exchanger flexible hoses were not conducted in a preplanned manner and did not provide for the control identification of materials in that: MWR 4156 and MWR 6508 completed in 1978 failed to identify the as installed flexible hoses as Inconel 625 per Addendum No. 1 (dated September 2, 1972) to Specification 9321–01–248–76, assumed the materials to be austenitic stainless steel, removed the center section of the existing hose leaving a short 2 inch stub section of the original hose and installed a stainless steel replacement. A P8 to P8, austenitic stainless steel welding procedure was utilizied for the P8 to Inconel dissimilar metal joint. An austenitic stainless steel flexible hose was substituted for the Inconel 625 hose required by the design specification.

In accordance with Footnote 17 to Section B of the Interim Enforcement Policy this is categorized as a Severity Level III violation.

Evaluation of Licensee Response. The licensee has admitted the violation. It concedes that "since there was an incorrect material identification, there was a violation as set forth in paragraph II.F of the Notice of Violation." The licensee contests the severity level of the violation. The assignment of severity levels for items II.A–F has been discussed previously under the NRC's *Evaluation of Licensing Response, Paragraph II.B.1 and 3.*

The NRC further notes that this violation is an example of measures not ensuring adequate control and identification of materials. In its response the licensee has not described what allowed this particular misidentification or what will ensure proper control so that misidentifications will be avoided in the future. A supplemental response is needed to provide this information.

Conclusion. The item as stated is a violation. The information provided by the licensee does not provide a basis for modification of the enforcement action.

Item III

NRC's Confirmatory Order to Consolidated Edison Company of New York, Inc., dated February 11, 1980 ordered the licensee to establish and man the Shift Technical Advisor (STA) position within ninety days.

NRC's letter to All Operating Nuclear Power Plants, dated September 13, 1979, titled "Followup Actions Resulting From The NRC Staff Reviews Regarding The Three Mile Island Unit 2 Accident," stated that licensees should establish the Shift Technical Advisor position by January 1, 1980, and that ". . . in order to provide both perspective in assessment of plant conditions and dedication to the safety of the plant, this function (Accident Assessment Function) should have a clear measure of independence from duties associated with the commercial operation of the plant."

Item III.A

Statement of Noncompliance. NUREG–0578, "TMI–2 Lessons Learned Task Force Status Report and Short-Term Recommendations," states: ". . . that additional technical and analytical capability, dedicated to concern for the safety of the plant, needs to be provided in the control room to support the diagnosis of off-normal events and to advise the shift supervisor on actions to terminate or mitigate the consequences of such events. . ."; that the position of Shift Technical Advisor (STA) be established to fulfill this function; and that ". . . when assigned as shift technical advisor, these personnel are to have no duties or responsibilities for manipulation of controls or command of operations."

During the investigation, from October 22, 1980 to November 21, 1980, the NRC interviewed STAs who performed duties during the period from 11:00 P.M. on October 16, 1980 to 07:00 A.M. on October 20, 1980. The STAs stated that, contrary to the above, they are not always called to the Control Room when problems are identified and that operations personnel utilize STAs for routine activities not involving engineering review or evaluation of plant safety, once the plant is shutdown.

Also, the STAs, on their shift, had not evaluated the propriety of a return to power when it occurred twice on October 17, 1980 and once on October 20, 1980, nor did they evaluate the potential significance of the degraded plant conditions involving leakage from the fan cooler units, wetting of the reactor vessel with cold brackish river water and steam exiting from the instrument thimble holes.

This is a Severity Level III violation (Supplement 1.C.2 of the Interim Enforcement Policy) Civil Penalty—$30,000. The civil penalty of $40,000 for Severity Level III violation has been distributed between this item of noncompliance and the following one, both of which together comprise an event.

Evaluation of Licensee Response. The licensee, in denying this violation, argues that its procedures regarding the use of Shift Technical Advisors (STAs) are consistent with NRC requirements, that STAs are not required to be on duty during cold shutdown or refueling, and that the STAs on duty during the flooding incident performed adequately and in a manner "consistent with their specified functions and the extent to which they had completed their ongoing training program."

The licensee's Operational Administrative Directive, OAD–9, Rev. 3, establishes the Shift Technical Advisors (STAs) responsibilities, authorities, position guides and job descriptions. NRC's confirmatory order to the licensee, dated 2/11/80, requires the STA to be on shift at all times, regardless of plant mode. By letters to the licensee dated 9/13/79, and 10/30/79, NRC required that STAs be dedicated to concern for safety and have independence from duties associated with commercial operations of the plant, thereby avoiding distractions from their primary functions, those being to perform engineering evaluations and assessments of the safety of operations and operational experiences. Since paragraph 7.4.4 of OAD–9 assigns to the STA as a major job function and responsibility, the ". . . coordination of activities during major outages . . .," a duty not specifically dedicated to concern for safety and one associated with expediting commercial operations, OAD–9, Rev. 3, is not consistent with NRC requirements.

The licensee contends that ". . . the use of the STAs for other than their

specified functions during cold shutdown outages is consistent with the intended use of the STA, as specified in NRC's own documents . . . " NRC's confirmatory order to the licensee, dated 2/11/80, requires the STA to be on shift at all times, regardless of plant mode. The implication that the plant was in cold shutdown for the period of violation, when the licensee used the STAs for other than their intended function, is false, since the plant was maintained in hot shutdown from 10/17/80 to 10/21/80.

Although the licensee argues that the STAs performed adequately during the period of the flooding incident, the NRC considers the actions of the STAs and the use of them by plant personnel to be unacceptable during this period. For example, the licensee contends that the STA is called to the Control Room when problems are identified that require his expertise. Contrary to the implication of the licensee's statements, the STA on shift the morning of 10/17/80 was not called to the Control Room upon discovery of a problem with nuclear instrumentation channel N42; this STA discovered the condition upon observing shift personnel evaluating the problem during one of his routine tours of plant areas.

The licensee also contends that STAs were aware of the accumulation of water on the containment floor, plant conditions, and future plans. As a result of interviews of individuals assigned as STAs from 1230 hours on 10/17/80 to 0700 hours on 10/20/80, the NRC determined that:

(1) All STAs were aware of fan cooler unit leaks and that service water had flowed to the vapor containment floor;

(2) Only the Chief Operations Engineer, when he acted as STA, was aware of the maximum extent of floor and reactor vessel pit flooding;

(3) Two STAs who were on shift while water was still in the reactor vessel pit, and thus should have been aware of this fact, did not learn of it until after their shifts; and,

(4) No STA was aware that the reactor vessel had been wetted.

The licensee did not directly respond to the NRC's allegation that STAs, on their shift, had not evaluated the propriety of a return to power when it occurred twice on 10/17/80. The licensee did acknowledge that ". . . the STA did not recognize the full range of possible effects of the water on reactor systems. . . ."

The licensee contends paragraph III.A of the Notice of Violation is incompatible with the findings contained in NRC Region I Inspection Report 50-247/80-11, dated September 2, 1980. A reading of the text selected by the licensee to support his contention shows that those findings were related to the adequacy and scheduling of the STA training program. The violation for which the licensee was cited related to the use and performance of the STAs and not their training program. Further, a satisfactory evaluation in an area does not in any way grant the licensee immunity from future adverse findings in that area.

The licensee also contests the severity level assigned to this violation. The licensee argues that "deficiencies in the STA program . . . could not properly be considered Security Level III, since there were no 'violations which involve actual or high potential impact on the public.' (45 FR at 86755)."

Supplement I.C.2 of the Interim Enforcement Policy, describes a Severity Level III violation as:

> A system designed to prevent or mitigate a serious safety event not being able to perform its intended function under certain conditions. . . .
>
> The STA position is an integral part of a system designed to prevent or mitigate the consequences of serious safety events. Personnel assigned to this position are expected to (1) prevent serious safety events by engineering review and evaluation of operating experience, plant conditions, and future plans; and, (2) mitigate the consequences of serious safety events by assessing accident conditions and providing advice for corrective actions to the shift supervisor. To minimize possible distractions from safety judgments and dedication to assurance of safety, a clear measure of independence from the demands for continued commerical operations is required for the individuals assigned STA duties.

The licensee's failure to require STAs to be called to the Control Room when problems were identified, and its failure to ensure that operations personnel did not use STAs for routine activities not involving engineering review or evaluation of plant safety, once the plant was shutdown, allowed the creation of conditions which prevented the STAs from performing their intended function of mitigating or preventing the consequences of serious safety events.

Conclusion. The item as stated is an item of noncompliance. The information provided in the licensee's response does not provide a basis for modification of the enforcement action or for remission or mitigation of the proposed penalty.

Item III.B

Statement of Noncompliance. NRC's letter to All Operating Nuclear, Power Plants, dated October 30, 1979, titled "Discussion of Lessons Learned Short Term Requirements," provided additional clarification of these requirements, and stated ". . . it is not acceptable to assign a person, who is normally the immediate supervisor of the shift supervisor to STA (Shift Technical Advisory) duties. . . ."

Contrary to the above, the Chief Operations Engineer, the immediate supervisor of the Senior Watch Supervisor, the licensee's equivalent title to a shift supervisor, was assigned to perform STA duties in the 7:00 AM to 3:00 PM shift of October 17, 1980.

This is a Severity Level III violation. (Supplement I.C.2 of the Interim Enforcement Policy) Civil Penalty—$10,000.

Evaluation of Licensee Response. The licensee concedes that a violation occurred. The licensee's response states:

> . . . Consolidated Edison admits that this person, in fulfilling the STA function from 7:00 AM to 3:00 PM on October 17, 1980, was not supposed to be doing so according to an NRC letter dated October 30, 1979. We thus acknowledge that a violation is stated by Paragraph III.B of the Notice of Violation.

The licensee denies, however, that the item is a Severity Level III violation because there was "no safety significance, much less 'actual or high potential impact on the public,' resulting from this individual having served as STA on October 17. . . ." The importance of the STA position to safety has been described under the NRC's *Evaluation of Licensee Response* to Item III.A and is incorporated here. In addition, the potential impact on safety that could have resulted from this violation is illustrated by the fact that the leaking Fan Cooler Units, the steam vapor exiting the nuclear instrument detector thimble hole, and the flooded Vapor Containment were first discovered on the 7:00 AM to 3:00 PM shift on 10/17/80, but the extent of the discovered problems and their potential safety consequences was not recognized. The Chief Operations Engineer (COE) was assigned as STA during this period, but continued to perform his normal duties.

Conclusion. The item as stated is an item of noncompliance. The information provided in the licensee's response does not provide a basis for modification of the enforcement action or for remission or mitgation of the proposed penalty.

Item IV

Statement of Noncompliance. Technical Specification 6.8.1 requires that: "Written procedures shall be established, implemented and maintained . . .". Procedure E–12, "Nuclear Instrument Malfunction", Rev. 3 dated 7/5/78, step C–4.1.3 requires as "Immediate Operator Action", if one channel fails, that reactor power level be reduced and maintained at 70% or below. Step C–5.5 of Procedure E–12 subsequently requires that all the nuclear bistables associated with the defective channel be tripped by removing the control power fuses.

Contrary to the above: On October 17, 1980, the licensee removed the control power fuses associated with the defective channel N42, with reactor power level at about 90%. This resulted in an automatic runback to less than 75% reactor power.

This is a Severity Level V Violation (Supplement I.E of the Interim Enforcement Policy).

Evaluation of Licensee Response. The licensee acknowledges that a violation is stated in paragraph IV of the Notice of Violation. The licensee maintains, however, that the violation should not be categorized as Severity Level V. Severity Level V violations are described in Supplement I.E to the Interim Enforcement Policy as "Other violations, such as failure to follow procedures, that have other than minor safety or environmental significance." (45 FR 66758). The example given in the supplement of failure to follow procedures is precisely what this violation is. Additionally, it is of more than minor safety significance. Arbitrary decisions by operators to omit steps in approved procedures negates the value of having such procedures for all significant matters and of having operators trained in these procedures. Further, the plant was required to respond to an unnecessary transient. The turbine runback transient resulted in a rapid reactor downpower transient, along with primary pressure and temperature increases.

Conclusion. The item as stated is an item of noncompliance. The information provided in the licensee's response does not provide a basis for modification of the proposed enforcement action.

Deviation.

Statement of Deviation. Based on the results of an NRC investigation conducted during the period October 22, 1980 to November 21, 1980, it appears that one of your activities was not conducted in accordance with standard industry practice or manufacturer's recommendations as indicated below:

Contrary to standard industry practice and the manufacturer's Technical Manual, "Goulds Installation, Operation, and Maintenance Instructions for Vertical Sump Pumps, Models 3171, 3172, 3173, 3174", the containment sump pump float rods were not attached or guided at the bottom from October 17, 1980 through October 20, 1980. This contributed to sump pump inoperability during the containment flooding incident. Also, contrary to guidance on page 9 of the manufacturer's Technical Manual, the pumps were not prevented from running against a shutoff head on September 14, 1980 and September 15, 1980 and at various times from October 17, 1980 to October 19, 1980 when the pump discharge valves were shut and power to the pumps was not secured.

Evaluation of Licensee Response. The licensee denies that a deviation has occurred. The licensee states in his response that the containment sump pumps were originally installed with only a single upper guide and does not indicate if there was ever any modification to add a lower guide. The investigation team was informed, by Mr. C. Jackson of Con Ed by phone on 11/24/80 that a lower guide had existed but became dislodged at some time. Additionally, the manufacturer's technical manual for the pump series installed at Indian Point pictures both lower and upper guides on the float mechanisms. The licensee further states that there are eleven other sump pumps at the Indian Point Station which have no lower guides and maintains that this is not contrary to standard industry practice. Investigation team experience with common sump pumps is that they typically have upper and lower guides. This was verified by examining two series of vertical sump pumps with float rods and balls: Pedestal Sump Pumps, Model PM–3600, PB–3600 and PC–3600 by Flotec, Inc.; and Flood Guard Sump Pumps Model P30, P31, and P32 by All Power Machine and Manufacturing Company. Both series of pumps had upper and lower guides and both sets of instructions referred to installing the guides. Additionally a technical representative recommended by the Sump Pump Manufacturer's Association (S.P.M.A.) of Chicago, Ill. told the investigation team on 2/19/81 that most vertical sump pumps with float rod controllers have both upper and lower rod guides. Thus by failing to attach lower guides to the float mechanisms, the licensee has deviated from standard industry practice. The NRC further requests that the licensee specify which systems at its facility currently contain sump pumps without lower guides and justify continued operation in this manner.

The licensee further maintains that prior to this incident the pumps have operated satisfactorily since initial plant operation. Given the sketchy records maintained for the maintenance of these pumps by the licensee, it is not clear that trouble free operation can be supported nor the original status of the guides determined. With only a single guide for the float ball and rod, the potential exists for the rod becoming cocked. This could cause sticking as the rod passes through the sump grating as occurred during the incident. The fact that the sump pump would not operate due to the stuck float rod allowed the water to accumulate in containment and removed the primary means of detecting service water leaks into containment (i.e. Waste Holdup Tank inleakage calculations). Thus it appears that the licensee, in accordance with standard industry practice and the manufacturer's technical manual, should have provided and maintained an upper and lower guide for the float rod assembly.

The licensee has admitted that there is potential harm in running the sump pumps against a shutoff head and that the pump vendor recommends a minimum flow. In this case no damage actually occurred, as shown by examination of the pumps.

Conclusion. The item as stated is a deviation. The information presented by the licensee does not provide a basis for modification of the enforcement action.

[FR Doc. 81–7589 Filed 3–11–81; 8:45 am]
BILLING CODE 7590–01–M

[Docket No. 50–335]

Florida Power & Light Co.; Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 38 to Facility Operating License No. DPR–67, issued to Florida Power and Light Company, which revised Technical Specifications for operation of the St. Lucie Plant, Unit No. 1 (the facility) located in St. Lucie County, Florida. The amendment is effective as of its date of issuance.

The amendment modifies the Technical Specifications to increase the limits on secondary containment bypass leakage and Control Room outside air intake.

The Application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the

Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4), an environmental impact statement, or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated April 18, 1980, (2) Amendment No. 36 to License No. DPR-67, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. and at the Indian River Community College Library, 3209 Virginia Avenue, Ft. Pierce, Florida. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland, this 25th day of February, 1981.

For the Nuclear Regulatory Commission.

Robert A. Clark,

Chief, Operating Reactors Branch No. 3, Division of Licensing.

[FR Doc. 81-7883 Filed 3-11-81; 8:45 am]

BILLING CODE 7590-01-M

[Docket Nos. 50-250 and 50-251]

Florida Power & Light Co.; Issuance of Amendments to Facility Operating Licenses

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 63 to Facility Operating License No. DFR-31, and Amendment No. 55 to Facility Operating License No. DPR-41 issued to Florida Power and Light Company (the licensee), which revised Technical Specifications for operation of Turkey Point Plant, Unit Nos. 3 and 4 (the facilities) located in Dade County, Florida. The amendments are effective as of the date of issuance.

The amendments move a precipitation sample station to an uncontaminated area and are administrative in nature.

The application for the amendments complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendments. Prior public notice of these amendments was not required since the amendments do not involve a significant hazards consideration.

The Commission has determined that the issuance of these amendments will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of these amendments.

For further details with respect to this action, see (1) the application for amendments dated December 31, 1980, (2) Amendment No. 63 and 55 to License Nos. DPR-31 and DPR-41, and (3) the Commission's related letter dated February 23, 1981. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. and at the Environmental and Urban Affairs Library, Florida International University, Miami, Florida 33199. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland, this 23rd day of February, 1981.

For the Nuclear Regulatory Commission.

BILLING CODE 7590-01-M

[Docket No. 50-302]

Florida Power Corp., et al.; Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 37 to Facility Operating License No. DPR-72, issued to the Florida Power Corporation, City of Alachua, City of Bushnell, City of Gainesville, City of Kissimmee, City of Leesburg, City of New Smyrna Beach and Utilities Commission, City of New Smyrna Beach, City of Ocala, Orlando Utilities Commission and City of Orlando, Sebring Utilities Commission, Seminole Electric Cooperative, Inc., and the City of Tallahassee (the licensees) which revised the Technical Specifications for operation for the Crystal River Unit No. 3 Nuclear Generating Plant (the facility) located in Citrus County, Florida. The amendment is effective as of the date of issuance.

This amendment modifies the Appendix B Technical Specifications to delete certain nonradiological surveillance requirements that are adequately covered by Section 402 of the National Pollutant Discharge Elimination System (NPDES) Permit.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that since the surveillance requirements are covered by the NPDES Permit, the issuance of this amendment will not result in any environmental impact and that pursuant to 10 CFR 51.5(d)(4), an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated April 23, 1980, as supplemented December 31, 1980, (Change Request No. 62), (2) Amendment No. 37 to License No. DPR-72, and (3) the Commission's letter to the licensee dated February 25, 1981. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C., and at the Crystal River Public Library, Crystal River, Florida. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, DC 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland, this 25th day of February 1981.

For the Nuclear Regulatory Commission.

Robert W. Reid,

Chief, Operating Reactors Branch No. 4, Division of Licensing.

[FR Doc. 81-7882 Filed 3-11-81; 8:45 am]

BILLING CODE 7590-01-M

[Docket Nos. 50-321 and 50-366]

Georgia Power Co., et al.; Issuance of Amendments to Facility Operating Licenses

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendments Nos. 81 and 22 to Facility Operating Licenses Nos. DPR-57 and NPF-5, issued to Georgia Power Company, Oglethorpe Power Corporation, Municipal Electric Authority of Georgia, and City of Dalton, Georgia, which revised Technical Specifications for operation of the Edwin I. Hatch Nuclear Plant, Units Nos. 1 and 2 (the facility) located in Appling County, Georgia. The amendments are effective as of the date of issuance.

These amendments revise the Administrative Controls section of the Technical Specifications to modify the requirements for inspections and audits performed by the plant's Safety Review Board.

The application for the amendments complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendments. Prior public notice of these amendments was not required since the amendments do not involve a significant hazards consideration.

The Commission has determined that the issuance of these amendments will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement, or negative declaration and environment impact appraisal need not be prepared in connection with issuance of these amendments.

For further details with respect to this action, see (1) the application for amendments dated February 9, 1981, (2) Amendments Nos. 81 and 22 to Licenses Nos. DPR-57 and NPF-5, and (3) the Commission's letter to Georgia Power Company dated February 27, 1981. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. and at the Appling County Public Library, 301 City Hall Drive, Baxley, Georgia 31513. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland, this 27th day of February 1981.

For the Nuclear Regulatory Commission.

Robert W. Reid,

Chief, Operating Reactors Branch No. 4, Division of Licensing.

BILLING CODE 7590-01-M

[Docket No. 50-263]

Northern States Power Co.; Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 1 to Facility Operating License No. DPR-22, issued to Northern States Power Company, which revises the license conditions for operation of the Monticello Nuclear Generating Plant (the facility) located in Wright County, Minnesota. The amendment is effective as of its date of issuance.

The amendment modifies the license conditions relating to the completion of facility modifications for fire protection in accordance with the requirements of 10 CFR 50.48 and 10 CFR 50, Appendix R.

The Commission has made appropriate findings as required by the Atomic Energy Act of 1954, as amended, and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) Amendment No. 1 to License No. DPR-22, and (2) Supplement 1 to the Commission's Fire Protection Safety Evaluation. Both of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. and at the Environmental Conservation Library, Minneapolis Public Library, 300 Nicollet Mall, Minneapolis, Minnesota. A copy of items (1) and (2) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland, this 12th day of February 1981.

For the Nuclear Regulatory Commission.

[Docket Nos. 50-282 and 50-306]

Northern States Power Co.; Issuance of Amendments to Facility Operating Licenses

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 46 to Facility Operating License No. DPR-42, and Amendment No. 40 to Facility Operating License No. DPR-60 issued to Northern States Power Company (the licensee), which revised Technical Specifications for operation of Prairie Island Nuclear Generating Plant, Unit Nos. 1 and 2 (the facilities) located in Goodhue County, Minnesota. The amendments are effective as of the date of issuance.

The amendments revise the Technical Specifications to incorporate additional requirements as a result of reviews and modifications accomplished to satisfy the Category "A", TMI-2 Lessons Learned recommendations.

The application for the amendments complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendments. Prior public notice of these amendments was not required since the amendments do not involve a significant hazards consideration.

The Commission has determined that the issuance of these amendments will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of these amendments.

For further details with respect to this action, see (1) the application for amendments dated December 19, 1980, (2) Amendment Nos. 46 and 40 to License Nos. DPR-42 and DPR-60, and (3) the Commission's related letter dated March 2, 1981. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. and at the Environmental Conservation

Library, 300 Nicollet Mall, Minneapolis, Minnesota 55401. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

[Docket No. 50-333]

Power Authority of the State of New York; Extension of Completion Dates

By letters dated February 11, 1981 and February 18, 1981, Power Authority of the State of New York (the licensee) requested that the U.S. Nuclear Regulatory Commission (the Commission) extend completion dates for the fire protection modifications for the James A. Fitzpatrick Nuclear Power Plant located in Oswego County, New York.

The modifications and extension dates are as follows: (1) Total Flooding CO_2 Suppression System—4/31/81; (2) Fire Detection and Signaling Systems—11/1/81; (3) Fire Door Supervision—11/1/81; (4) Signaling Circuits Supervision—11/1/81; (5) Exposed Structural Steel—11/1/81; (6) Electrical Cable, End of Fall 1981 Refueling Outage; (7) Pipe Penetrations—7/1/81; and (8) Crescent Area Fire Protection—HPCI by 4/1/81 and RCIC by 11/1/81.

The Commission's Director of Nuclear Reactor Regulation has concluded that good cause has been shown and that such postponement will not adversely affect the public health and safety. Accordingly, pursuant to 10 CFR 50.48(d), the request has been granted.

For further details with respect to this action, see (1) the licensee's requests dated February 11 and 18, 1981, and (2) The Director's letter to the licensee dated February 19, 1981, which are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. and at the Penfield Library, State University College at Oswego, Oswego, New York 13126.

Dated at Bethesda, Maryland, this 24th day of February 1981.

For the Nuclear Regulatory Commission.

Edson G. Case,

Deputy Director, Office of Nuclear Reactor Regulation.

[Docket Nos. 50-259, 50-260 and 50-296]

Tennessee Valley Authority; Issuance of Amendments to Facility Operating Licenses

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 67 to Facility Operating License No. DPR-33, Amendment No. 63 to Facility Operating License No. DPR-52, and Amendment No. 39 to Facility Operating License No. DPR-68 issued to Tennessee Valley Authority (the licensee), which revised Technical Specifications for operation of the Browns Ferry Nuclear Plant, Units Nos. 1, 2 and 3, located in Limestone County, Alabama. The amendments are effective as of the date of issuance.

These amendments change the Technical Specifications to modify the bases for scram insertion times by specifying 290 milliseconds as the time period to be used in the analytical treatment of transients for the start of control rod motion.

The application for the amendments complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendments. Prior public notice of these amendments was not required since the amendments do not involve a significant hazards consideration.

The Commission has determined that the issuance of these amendments will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of these amendments.

For further details with respect to this action, see (1) the application for amendments dated September 24, 1980, (2) Amendment No. 67 to License No. DPR-33, Amendment No. 63 to License No. DPR-52, and Amendment No. 39 to License No. DPR-68, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. and at the Athens Public Library, South and Forrest, Athens, Alabama 35611. A copy of items (2) and (3) may be obtained upon rquest addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland, this 24th day of February 1981.

[Docket Nos. 50-259, 50-260, and 50-296]

Tennessee Valley Authority; Issuance of Amendments to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 66 to Facility Operating License No. DPR-33, Amendment No. 64 to Facility Operating License No. DPR-52, and Amendment No. 40 to Facility Operating License No. DPR-68 issued to Tennessee Valley Authority (the licensee), which revised Technical Specifications for operation of the Browns Ferry Nuclear Plant, Units Nos. 1, 2, and 3, located in Limestone County, Alabama. The amendments are effective as of the date of issuance.

These amendments change the Technical Specifications to clarify calibration requirements for the Local Power Range Monitor, reduce the pressure at which scram time surveillance testing may be conducted and remove a preoperational startup test requirement which is no longer applicable.

The application for the amendments complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendments. Prior public notice of these amendments was not required since the amendments do not involve a significant hazards consideration.

The Commission has determined that the issuance of these amendments will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in

connection with issuance of these amendments.

For further details with respect to this action, see (1) the application for amendments dated March 1, 1979, as supplemented by letter dated August 7, 1979, (2) Amendment No. 68 to License No. DPR–33, Amendment No. 64 to License No. DPR–52, and Amendment No. 40 to License No. DPR–68, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. and at the Athens Public Library, South and Forrest, Athens, Alabama 35611. Virginia Electric & Power Co.; Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment Nos. 66 and 65 to Facility Operating License Nos. DPR–32 and DPR–37 issued to Virginia Electric and Power Company, which revised Technical Specifications for operation of the Surry Power Station, Unit Nos. 1 and 2 (the facility) located in Surry County, Virginia. The amendments are effective as of the date of issuance.

The amendments revise the Technical Specifications to allow an increase in enrichment for new and spent fuel from 3.6 weight percent of U–235 to 3.7 weight percent of U–235.

The application for the amendments comply with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in these license amendments. Prior public notice of these amendments were not required since the amendments do not involve a significant hazards consideration.

The Commission has determined that the issuance of these amendments will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement, or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of these amendments.

For further details with respect to this action, see (1) the application for amendment dated May 15, 1980, as supplemented September 15, 1980, and December 4, 1980, (2) Amendment Nos. 66 and 65 to License Nos. DPR–32 and DPR–37, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. and the Swem Library, College of William and Mary, Williamsburg, Virginia. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Development of a Safety Goal; Workshop

AGENCY: U.S. Nuclear Regulatory Commission.

ACTION: Workshop on Frameworks for Developing a Safety Goal.

SUMMARY: The United States Nuclear Regulatory Commission is holding a workshop April 1–3 in Palo Alto, California to discuss frameworks for developing a safety goal for the agency. The meeting will be at: Rickey's Hyatt House, 4219 El Camino Real, Palo Alto, California 94306. The meeting times (subject to change) are 8:00 a.m. to 5:30 p.m. on April 1 and 2 and 8:00 a.m. to 11:30 a.m. on April 3.

The meeting will be open to members of the public for attendance as observers. (Participation in the workshop discussions will be by individual invitation only.)

The Commission has contracted with Brookhaven National Laboratory to make arrangements for accommodations and meeting facilities. For further information on these matters contact: Mr. Anthony Romano, Brookhaven National Laboratory, Upton, New York 11973, Telephone: (516) 345–4024.

Members of the public wishing to attend are urged to register in advance with Mr. Romano, since only a limited number of observers can be accommodated.

For further information on the project for development of a safety goal contact: Mr. George Sege, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Telephone: (202) 634–3295.

Background Discussion

In October 1980 the United States Nuclear Regulatory Commission instituted a project to define more clearly the level of protection of the public health and safety that it believes is adequate. The Commission issued a Plan for Developing a Safety Goal (45 FR 71023, October 27, 1980). Subsequently, in accordance with the Plan, the Commission's Office of Policy Evaluation submitted for Commission consideration a preliminary policy paper indicating the kinds of considerations which may enter into an articulation of the agency's safety goal. A report reflecting those considerations is being issued as NUREG–0764, entitled "Toward a Safety Goal: Discussion of Preliminary Policy Considerations."

The Commission's Advisory Committee on Reactor Safeguards has prepared for Commission consideration "An Approach to Quantitative Safety Goals for Nuclear Power Plants" (NUREG–0739). The ACRS has described its study as "intended to serve as one focus of discussion" and "only one step in an iterative process."

The workshop on April 1–3 is designed to illuminate the important issues of safety goal formulation, including both quantitative and qualitative elements and economic, ethical, social, and political issues as well as technical considerations. It will be a discussion workshop, involving invited knowledgeable persons representing a broad range of viewpoints, drawn from technical and social disciplines, from industry, public interest groups, universities, and elsewhere. Participants will be organized into three panels: (1) Quantitative Safety Goal; (2) Qualitative Safety Goal; and (3) Economic, Ethical and Sociopolitical Issues.

The paper "Toward a Safety Goal: Discussion of Preliminary Policy Considerations" (NUREG–0764) will be a principal basis of discussion at the Workshop. However, it is not intended to constrain the scope or the substance of the discussions. The ACRS proposal (NUREG–0739) will serve in the discussions as one example of a concrete application of concepts discussed and as a point of reference for discussants who wish to use it.

This workshop is one of several measures in a program to elicit broad participation in NRC's safety goal project from interested groups and individuals, including both specialists in the various relevant fields and the public at large. NUREG–0764 will be issued for public comment. It will also be the basis for four public meetings to be held in different regions of the country.

A second workshop will be held in the summer of 1981 to discuss merits and problems of a reference safety goal statement and its chief alternatives.

The results of the written public comments, the public meetings, and the two workshops will be available to the Commission and will be used by the Office of Policy Evaluation in preparation of a policy paper, to be submitted for the Commission's consideration in later summer 1981.

Dated at Washington, District of Columbia, this 6th day of March 1981.

Edward J. Hanrahan,
Director, Office of Policy Evaluation.

[Docket No. 50-298]

Nebraska Public Power District; Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 68 to Facility Operating License No. DPR-46, issued to Nebraska Public Power District (the licensee), which revised the Technical Specifications for operation of the Cooper Nuclear Station, located in Nemaha County, Nebraska. The amendment is effective as of its date of issuance.

These changes to the Technical Specifications involve administrative changes and incorporation of certain of the TMI-2 Lessons Learned Category "A" requirements. The Category "A" requirements concern (1) Emergency Power Supply/Inadequate Core Cooling, (2) Valve Position Indication, (3) Containment Isolation, (4) Shift Technical Advisor Augmentation, (5) Integrity of Systems Outside Containment, and (6) Iodine Monitoring.

The licensee's submittals comply with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior Public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4), an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with the issuance of this amendment.

For further details with respect to this action, see (1) the licensee's submittals dated January 30 and October 15, 1980 and January 6, 1981, (2) Amendment No. 68 to License No. DPR-46, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. and at the Auburn Public Library, 118—15th Street, Auburn, Nebraska 68305. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland this February 23, 1981.

For the Nuclear Regulatory Commission.

Thomas A. Ippolito,
Chief, Operating Reactors Branch No. 2, Division of Licensing.

[Docket No. 50-298]

Nebraska Public Power District; Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 69 to Facility Operating License No. DPR-46, issued to Nebraska Public Power District (the licensee), which revised the license for operation of the Cooper Nuclear Power Station (the facility), located in Nemaha County, Nebraska. The amendment is effective as of the date of issuance and is to be fully implemented within 60 days of Commission approval in accordance with the provisions of 10 CFR 73.55(b)(4).

The amendment adds a license condition to include the Commission-approved Guard Training and Qualification Plan as part of the license.

The licensee's filings, which have been handled by the Commission as an application, comply with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter, I, which are set forth in the license amendment. Prior public notice of the amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of the amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of the amendment.

The licensee's filings dated September 5, 1979, revised by letters dated June 5 and August 29, 1980, are being withheld from public disclosure pursuant to 10 CFR 2.790(d). The withheld information is subject to disclosure in accordnace with the provisions of 10 CFR 9.12.

For further details with respect to this action, see (1) Amendment No. 69 to License No. DPR-46 and (2) the Commission's related letter to the licensee dated February 25, 1981. These items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. and at the Auburn Public Library, 118 - 15th Street, Auburn, Nebraska. A copy of items (1) and (2) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission,

Washington, D.C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland this 25th day of February 1981.

For the Nuclear Regulatory Commission.

Thomas A. Ippolito,

Chief, Operating Reactors Branch No. 2, Division of Licensing.

[Docket No. 50-367-CPA]

Northern Indiana Public Service Co., (Bailly Generating Station Nuclear 1); Reconstitution of Board

Pursuant to the authority contained in 10 CFR 2.721 (1980), the Atomic Safety and Licensing Board for *Northern Indiana Public Service Company* (Bailly Generating Station Nuclear 1), Docket No. 50-367-CPA, is hereby reconstituted by appointing the following Administrative Judges to the Board: Dr. Robert L. Holton and Dr. J. Venn Leeds. Dr. Richard R. Cole and Mr. Glenn O. Bright were members of this Board but, because of schedule conflicts, are unable to continue to serve.

As reconstituted, the Board is comprised of the following Administrative Judges:

Herbert Grossman, Chairman
Dr. Robert L. Holton
Dr. J. Venn Leeds

All correspondence, documents and other materials shall be filed with the Board in accordance with 10 CFR 2.701 (1980). The addresses of the new Board members are:

Administrative Judge Robert L. Holton, School of Oceanography, Oregon State University, Corvallis, Oregon 97331

Administrative Judge J. Venn Leeds, 10807 Atwell, Houston, Texas 77096

Issued at Bethesda, Maryland, this 2nd day of March 1981.

B. Paul Cotter, Jr.,

Chief Administrative Judge, Atomic Safety and Licensing Board Panel.

BILLING CODE 7590-01-M

Regulatory Guide; Issuance and Availability

The Nuclear Regulatory Commission has issued a new guide in its Regulatory Guide Series. This series has been developed to describe and make available to the public methods acceptable to the NRC staff of implementing specific parts of the Commission's regulations and, in some cases, to delineate techniques used by the staff in evaluating specific problems or postulated accidents and to provide guidance to applicants concerning certain of the information needed by the staff in its review of applications for permits and licenses.

Regulatory Guide 1.147, "Inservice Inspection Code Case Acceptability—ASME Section XI Division 1," lists those Section XI ASME Code Cases that are generally acceptable to the NRC staff for implementation in the inservice inspection of light-water-cooled nuclear power plants.

Comments and suggestions in connection with (1) items for inclusion in guides currently being developed or (2) improvements in all published guides are encouraged at any time. Comments should be sent to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Branch.

Regulatory guides are available for inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. Copies of active guides may be purchased at the current Government Printing Office price. A subscription service for future guides in specific divisions is available through the Government Printing Office. Information on the subscription service and current prices may be obtained by writing to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Publications Sales Manager.

(5 U.S.C. 552(a))

For the Nuclear Regulatory Commission.

Dated at Rockville, Maryland this 3rd day of March 1981.

Ray G. Smith,

Acting Director, Office of Standards Development.

BILLING CODE 7590-01-M

OFFICE OF MANAGEMENT AND BUDGET

Agency Forms Under Review

Background

When executive departments and agencies propose public use forms, reporting, or recordkeeping requirements, the Office of Management and Budget (OMB) reviews and acts on those requirements under the Federal Reports Act (44 U.S.C., Chapter 35). Departments and agencies use a number of techniques including public hearings to consult with the public on significant reporting requirements before seeking OMB approval. OMB in carrying out its responsibility under the Act also considers comments on the forms and recordkeeping requirements that will affect the public.

List of Forms Under Review

Every Monday and Thursday OMB publishes a list of the agency forms recieved for review since the last list was published. The list has all the entries for one agency together and grouped into new forms, revisions, extensions (burden change), extensions (no change), or reinstatements. The agency clearance officer can tell you the nature of any particular revision you are interested in. Each entry contains the following information:

The name and telephone number of the agency clearance officer (from whom a copy of the form and supporting documents is available);

the office of the agency issuing this form;

the title of the form;

the agency form number, if applicable;

how often the form must be filled out;

who will be required or asked to report;

the Standard Industrial Classification (SIC) codes, referring to specific respondent groups that are affected;

whether small businesses or organizations are affected;

a description of the Federal budget functional category that covers the information collection;

an estimate of the number of responses;

an estimate of the total number of hours needed to fill out the form;

an estimate of the cost to the Federal Government;

the number of forms in the request for approval;

the name and telephone number of the person or office responsible for OMB review; and

An abstract describing the need for and uses of the information collection.

Reporting or recordkeeping requirements that appear to raise no significant issues are approved promptly. Our usual practice is not to take any action on proposed reporting requirements until at least ten working days after notice in the **Federal Register**, but occasionally the public interest requires more rapid action.

Comments and Questions

Copies of the proposed forms and supporting documents may be obtained from the agency clearance officer whose name and telephone number appear under the agency name. The agency clearance officer will send you a copy of the proposed form, the request for clearance (SF83), supporting statement,

instruction, transmittal letters, and other documents that are submitted to OMB for review. If you experience difficulty in obtaining the information you need in reasonable time, please advise the OMB reviewer to whom the report is assigned. Comments and questions about the items on this list should be directed to the OMB reviewer or office listed at the end of each entry.

If you anticipate commenting on a form but find that time to prepare will prevent you from submitting comments promptly, you should advise the reviewer of your intent as early as possible.

The timing and format of this notice have been changed to make the publication of the noticie predictable and to give a clearer explanation of this process to the public. If you have comments and suggestions for further improvements to this notice, please send them to Jim J. Tozzi, Assistant Director for Regulatory and Information Policy, Office of Management and Budget, 726 Jackson Place, Northwest, Washington, D.C. 20503.

DEPARTMENT OF AGRICULTURE

Agency Clearance Officer—Richard J. Schrimper—202-447-6201

Extensions (No Change)

- Agricultural Stabilization and Conservation Service

Application for price support by heirs
CCC-686
On occasion
Individuals or households
Individual hears of farmer producers
Farm income stabilization 100 responses, 25 hours $24 Federal costs, 1 form
Charles A. Ellett, 202-395-7340

This form is used by heirs who certify to their interests in the commodity and family unit before a price support loan may be disbursed to them. (P.L. 806).

- Agricultural Stabilization and Conservation Service

Report of Unmarketed Tobacco
MQ-108-1
Annually
Farms
Tobacco producers
SIC: 011 013
Farm Income Stabilization, 478,300 responses, 23,915 hours; $56,248 Federal cost, 1 form
Charles A. Ellett, 202-395-7340

All tobacco producers upon written request furnish the Secretary of Agriculture a written report of production and disposition of all tobacco produced on the farm. (P.L. 430). This form contributes to this report.

DEPARTMENT OF COMMERCE

Agency Clearance Officer—Edward Michals—202-377-3627

New

- Bureau of the Census

1982 Census of Agriculture (Test)
61-A1 (S) 61-A1-L1, & 61-A1-L2
Nonrecurring
Farms
Farms and ranches
SIC: multiple
Other advancement and regulation of Commerce, 3,250 responses, 2,292 hours; $100,000 Federal cost, 1 form
Off. of Federal Statistical Policy and Standard, 202-673-7974

This 1981 content test will provide a basis for reviewing the feasibility of the proposed items of data, as well as to constitute a vehicle for testing and refining proposed procedures for collecting and processing the 1982 Census of Agriculuture.

- National Telecommunications and Information Administration

Denver Study of Local Telecommunications Distribution
Nonrecurring
Business of other institutions
Bus./Org. W/Adv. Loc. Dist. Sys. or implementing such syst.
SIC: multiple
Other advancement and regulation of Commerce, 200 responses, 100 hours; $9,000 Federal cost, 2 forms
William T. Adams, 202-395-4814

To develop sound telecommunications policies, a keener understanding of the nation's requirements for local distribution services is needed. Information appears to be skimpy in this area. By conducting a survey of Denver metro area businesses our understanding of present and future local distribution requirements will be greatly enhanced. Survey will commence upon receipt of OMB clearance.

DEPARTMENT OF DEFENSE

Agency Clearance Officer—John V. Wenderoth—703-697-1195

Extensions (No Change)

All U.S. coke plants
SIC: 299
Small businesses or organizations
Energy information, policy, and regulation, 236 responses, 1,416 hours; $32,240 Federal cost, 1 form
Jefferson B. Hill, 202-395-7340

The EIA-5 will provide data on a quarterly basis on the metallurgical coal receipts, carbonization and stocks and the production, distribution and stocks of coke and breeze at U.S. Coke plants. The data will be used in the compilation of aggregated statistical reports, and related analyses, including energy environmental studies and energy policy studies.

- Energy Information Administration

Coke Plant Report—Annual Supplement
EIA-5
Annually

Businesses or other institutions
All U.S. coke plants
SIC: 299
Energy information, policy, and regulation, 50 responses, 787 hours; $9,000 Federal cost, 1 form
Jefferson B. Hill, 202-395-7340

To provide data for continual monitoring of coal production, consumption, sales, distribution and coal-related analysis, including energy and environmental studies, energy policy and implementation of mandated coal programs. Data used for DOE and other Government publications and industry planning.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Agency Clearance Officer—Joseph Strnad—245-7488

New

• Office of Assistant Secretary for Health
An Evaluation of Department of Health and Human Services
Sterilization Regulations
G-179/1, G-179/2, G-179/3
Nonrecurring
Individuals or households
Indiv. affected by the 1978 fed. sterilization regula.
Health, 6,450 responses, 1,129 hours; $132,569 Federal cost, 3 forms
Gwendolyn Pia, 202-395-6880

Forms submitted are mail survey instruments for use in an evaluation of regulations governing provision of federally funded sexual sterilizations. The forms are: G-179/1 administered primarily to a G-179/2 a variation of G-179/1 for guardians of the mentally retarded.

• Office of Assistant Secretary for Health
Demonstration Center Schools Program Survey
Nonrecurring
State or local governments
State education agencies and public schools
SIC: 821 941
Health, 143 responses, 60 hours; $26,312 Federal cost, 2 forms
Gwendolyn Pia, 202-395-6880

This survey will provide an assessment of the accomplishments of the demonstration schools program and the characteristics, effects, and the differences between individual demonstration schools and between State education agencies.

• National Institutes of Health
Conner's Parent and Teacher Questionnaire for Evaluation in Phototherapy Study
MH-0-35
Nonrecurring
Individuals or households
Subj. inclin trail of infants w/ hyperbilirubinemia, etc.
Health, 900 responses, 675 hours; $5,000 Federal cost, 2 forms
Gwendolyn Pia, 202-395-6880

These questionnaires are one of the modes being used to attempt to discern minor behavioral differences in a study of the treatment of jaundice in newborn infants. These questionnaires are to be used in the sixth and final year of evaluation.

• Centers for Disease Control
Nontuberculous Mycobacterial Disease Surveillance
Quarterly
State or local governments
Directors of TB control programs, state epidemiologists
SIC: 943
Health, 2,000 responses, 500 hours; $16,000 Federal cost, 2 forms
Gwendolyn Pia, 202-395-6880

The purpose of this surveillance program is to gather demographic, clinical, and laboratory information about patients from whom nontuberculous mycobacteria have been isolated. These data will be used to better define the prevalence and distribution of disease and to generate hypotheses concerning the epidemiology of these organisms.

Revisions

• Social Security Administration

BILLING CODE 8110-01-M

SECURITIES AND EXCHANGE COMMISSION

[Release No. 17988 (812-4793)]

ASA Limited; Filing of Application for an Order Permitting Amendment of Custodian Agreement

March 6, 1981.

Notice is hereby given that ASA Limited (formerly named American-South African Investment Company and hereinafter referred to as the "Applicant"), c/o Grayson M-P Murphy, Esq., Shearman & Sterling, 53 Wall Street, New York, New York 10005, a closed-end non-diversified management investment company registered under the Investment Company Act of 1940 ("Act"), filed an application on December 18, 1980, and an amendment thereto on February 3, 1981, for an order of the Commission under Section 7(d) of the Act, permitting Applicant to amend a provision in its Custodian Agreement. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

Applicant states that it was incorporated in 1958 under the Companies Act of South Africa and that it was permitted to register as an investment company pursuant to Section 8 of the Act and to offer publicly its securities within the United States by an order of the Commission dated August 13, 1958 (Investment Company Act Release No. 2756). According to the application, one of the conditions and arrangements of that order required that all of ASA's securities and cash, other than an amount not exceeding $75,000, would be maintained in the custody of a bank in the United States. The application further states that although the form of the Custodian Agreement was not a specific condition in said order, its form and, in particular, the provision sought to be amended, were negotiated with the Commission's staff in connection with the granting of the said order and, therefore, were part of the basis of said order.

Applicant states that its Custodian Agreement, the form of which was filed as an exhibit to the application for the 1958 order, contains the following paragraph:

All cash received by the Custodian for the account of the Company shall be held by the Custodian for the account of the Company. All cash so held by the Custodian shall either be segregated by the Custodian from other cash held by it or segregated by separate recordation, in either case in such manner that the interest of the Company therein shall be readily identifiable so that the Company would, under then existing law, have a preference in respect of such cash as against general creditors of the Custodian.

Applicant seeks an order permitting deletion of the second sentence of the above paragraph so that it can invest its cash in time depostis and bank certificates of deposit to obtain interest income for its shareholders. Applicant states that the provision of the Custodian Agreement quoted above requiring that Applicant's cash be segregated so the Applicant would have a preference as against general creditors in the event of bankruptcy in effect prohibits earning interest on it.

Applicant states that it desires to be able to invest its dollar funds in Citibank N.A. certificates of deposit because it keeps its dollar funds with its custodian, Citibank N.A., and such investments are a convenient way of earning interest on such dollar funds. The application further states, however, that the Applicant does not believe that a preference as against general creditors of Citibank N.A., is available with respect to such certificates of deposit. In addition, the application states that inasmuch as the Commission considers certificates of deposit to be securities and Applicant's registration statement does not state that Applicant can invest in certificates of deposit, Applicant plans to ask its shareholders to vote to change Applicant's investment policy to permit it to invest in certificates of deposit.

The Applicant further states that because the policy of South African exchange control authorities could be influenced by national monetary considerations that may prevail at any given time, Applicant's management considers it desirable to keep enough U.S. dollars with its custodian to take care of its dollar needs for not less than two quarterly dividends and its dollar expenses for about a year. Applicant, which commenced business with net assets of about $31,000,000, had net assets at November 30, 1980, valued at about $818,000,000, and, based on current quarterly divident figures, the total amount for two quarterly dividends and Applicant's dollar expenses for a year is estimated to be roughly $21,000,000. Applicant contends that for its custodian to hold such a substantial amount of U.S. dollars without earning interest on it when, as was the case at the time of the filing of the application, bank certificates of deposit paid interest of roughly 20 percent, and time deposits somewhat less because of reserve requirements, would be disadvantageous for Applicant's shareholders.

Finally, Applicant represents that its original custodian, City Bank Farmers Trust Company, was a relatively small company in 1958. According to the application, City Bank Farmers Trust Company was merged in 1963 into Citibank, N.A. Applicant claims that Citibank is the second largest bank in the United States and submits that the possibility of Citibank becoming bankrupt is remote.

Notice is further given, that any interested person may, not later than March 30, 1981, at 5:30 p.m., submit to

the Commission in writing a request for a hearing on the application accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail upon Applicant at the address stated above. Proof of such service (by affidavit or, in the case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0–5 of the Rules and Regulations promulgated under the Act, an order disposing of the application will be issued as of the course following said date unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

[Release No. 11670; (812–4818)]

Dreyfus Liquid Assets, Inc.; Filing of an Application for an Order of the Commission Amending a Previous Order Pursuant to Section 6(c) of the Act Granting Exemption From the Provisions of Rules 2a–4 and 22c–1 Under the Act

March 6, 1981.

Notice is hereby given that Dreyfus Liquid Assets, Inc. ("Applicant"), 767 Fifth Avenue, New York, New York 10153, an open-end, diversified management investment company registered under the Investment Company Act of 1940 ("Act"), filed an application on February 4, 1981, and an amendment thereto on February 17, 1981, requesting an order of the Commission amending in the manner described below an earlier order of the Commission dated November 30, 1978 (Investment Company Act Release No. 10501). This earlier order, pursuant to Section 6(c) of the Act, exempted Applicant from the provisions of Rules 2a–4 and 22c–1 under the Act to the extent necessary to permit Applicant to compute its net asset value per share to the nearest one cent on a share value of one dollar. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

Applicant states that it is a "money market" fund designed as an investment vehicle for investors who desire to place assets in money market investments where the primary considerations are safety, liquidity and, to the extent consistent with the foregoing, a high income return. Applicant further states that it seeks to provide a convenient means of investing short-term funds where the direct purchase of money market instruments may be undesirable or impractical.

According to the application, the Applicant's portfolio may be invested exclusively in a variety of short-term money market instruments consisting of securities issued or guaranteed by the U.S. Government or its agencies or instrumentalities; certificates of deposit, including those issued by domestic banks, foreign branches of domestic banks and savings and loan and similar associations; and high-grade commercial paper. Applicant represents that all of its investments consist of obligations maturing within one year from the date of acquisition, and the dollar-weighted average maturity of all its investments is 120 days or less.

Applicant represents that pursuant to the earlier order of the Commission dated November 30, 1978, Applicant presently computes its net asset value per share to the nearest one cent on a share value of one dollar utilizing the "penny rounding" valuation method. Applicant now seeks an order of the Commission, pursuant to Section 6(c) of the Act, amending this earlier order, which amended order would exempt Applicant from the provisions of Section 2(a)(41) of the Act and Rules 2a–4 and 22c–1 thereunder to the extent necessary to permit Applicant's portfolio securities to be valued according to the amortized cost valuation method (i.e., valuing securities at cost, adjusted for amortization of premium or accretion of discount).

As here pertinent, Section 2(a)(41) of the Act defines value to mean: (1) with respect to securities for which market quotations are readily available, the market value of such securities, and (ii) with respect to other securities and assets, fair value as determined in good faith by the board of directors. Rule 22c–1 adopted under the Act provides, in part, that no registered investment company or principal underwriter therefor issuing any redeemable security shall sell, redeem or repurchase any such security except at a price based on the current net asset value of such security which is next computed after receipt of a tender of such security for redemption or of an order to purchase or sell such security.

Rules 2a–4 adopted under the Act provides, as here relevant, that the "current net asset value" of a redeemable security issued by a registered investment company used in computing its price for the purposes of distribution, redemption and repurchase shall be an amount which reflects calculations made substantially in accordance with the provisions of that rule, with estimates used where necessary or appropriate. Rule 2a–4 further states that portfolio securities with respect to which market quotations are readily available shall be valued at fair value as determined in good faith by the board of directors of the registered company. Prior to the filing of the application, the Commission expressed its view that, among other things, (1) Rule 2a–4 under the Act requires that portfolio instruments of "money market" funds be valued with reference to market factors, and (2) it would be inconsistent, generally, with the provisions of Rule 2a–4 for a "money market" fund to value its portfolio instruments on an amortized cost basis (Investment Company Act Release No. 9786, May 31, 1977).

Section 6(c) provides, in pertinent part, that the Commission, by order upon application, may conditionally or unconditionally exempt any person, security or transaction or any class or classes of persons, securities or transactions from any provision of the Act or of any rule or regulation under the Act, if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

In support of the relief requested, Applicant represents that, as a result of the experience of its investment adviser in managing Applicant and other "money market" funds, it has become apparent that two qualities are helpful in order to attract investment, namely stability of principal and a steady flow of investment income. By utilizing high quality money market instruments of short maturities combined with a stable net asset value, preferably $1.00 per share, Applicant states that it would be possible to provide these features to a variety of investors. Applicant submits that investors are concerned that the daily income declared by Applicant reflect income as earned and that the sales and redemption prices not change.

Applicant also states that it will make investments only in instruments having a remaining maturity of one year or less and that its average portfolio maturity will not exceed 120 days. Applicant submits that such policies in combination with a stable price may accomplish both of the above investor aims—that is, the possibility of a change in the price per share is obviated, while at the same time a yield on portfolio instruments related to yields available in the general debt market is provided, which is otherwise not available with a portfolio having an average maturity of a shorter duration.

Applicant further states its belief that, given the nature of Applicant's policies and operations, there will normally be a relatively negligible discrepancy between market value and amortized cost value of its securities.

Applicant represents that its Board of Directors has determined in good faith that in light of the characteristics of the Applicant as described above, absent unusual or extraordinary circumstances, the amortized cost method of valuing portfolio securities is appropriate and preferable and reflects the fair value Applicant's securities.

On the basis of the foregoing, Applicant believes that the valuation of its portfolio securities on the amortized cost basis will benefit its shareholders by enabling Applicant to maintain more effectively a stable price per share while providing shareholders with the opportunity to receive a flow of investment income less subject to fluctuation than under procedures whereby its dividend would be adjusted by all realized and unrealized gains and losses on its portfolio securities.

Applicant has agreed that the following conditions may be imposed in any order of the Commission granting the exemption it has requested:

1. In supervising Applicant's operations and delegating special responsibilities involving portfolio management to Applicant's investment adviser, Applicant's board of directors undertakes—as a particular responsibility within the overall duty of care owed to its shareholderts—to establish procedures reasonably designed, taking into account current market conditions and Applicant's investment objectives, to stabilize Applicant's net asset value per share, as computed for the purposes of distribution, redemption and repurchase, at $1.00 per share.

2. Included within the procedures to be adopted by the board of directors shall be the following:

(a) Review by the board of directors, as it deems appropriate and at such intervals as are reasonable in light of current market conditions, to determine the extent of deviation, if any, of the net asset value per share as determined by using available market quotations from Applicant's $1.00 amortized cost price per share, and the maintenance of records of such review[1];

(b) In the event such deviation from Applicant's $1.00 amortized cost price per share exceeds ½ of 1 percent, a requirement that the directors will promptly consider what action, if any, should be initiated; and

(c) Where the board of directors believes the extent of any deviation from Applicant's $1.00 amortized cost price per share may result in material dilution or other unfair results to investors or existing shareholders, it shall take such action as it deems appropriate to eliminate or to reduce to the extent reasonably practicable such dilution or unfair results, which may include; redemption of shares in kind; selling portfolio instruments prior to maturity to realize capital gains or losses, or to shorten Applicant's average portfolio maturity; withholding dividends; or utilizing a net asset value per share as determined by using available market quotations.

3. Applicant will maintain a dollar-weighted average portfolio maturity appropriate to its objective of maintaining a stable net asset value per share; provided, however, that it will not (a) purchase any instrument with a remaining maturity of greater than one year, or (b) maintain a dollar-weighted average portfolio maturity in excess of 120 days.[2]

4. Applicant will record, maintain, and preserve permanently in an easily accessible place a written copy of the procedures (and any modifications thereto) described in condition 1, above, and Applicant will record, maintain and preserve for a period of not less than six years (the first two years in an easily accessible place) a written record of the directors' considerations and actions taken in connection with the discharge of their responsibilities, as set forth above, to be included in the minutes of the directors' meetings. The documents preserved pursuant to this condition shall be subject to inspection by the Commission in accordance with Section 31(b) of the Act, as if such documents were records required to be maintained pursuant to rules adopted under Section 31(a) of the Act.

5. Applicant will limit its portfolio investments, including repurchase agreements, to those United States dollar denominated instruments which the directors determine present minimal credit risks, and which are of "high quality" as determined by any major rating service or, in the case of any instrument that is not rated, of comparable quality as determined by the directors.

6. Applicant will include in each quarterly report, as an attachment to Form N–1Q, a statement as to whether any action pursuant to condition 2(c) above was taken during the preceding fiscal quarter and, if any such action was taken, will describe the nature and circumstances of such action.

Applicant submits that the exemption it requests is appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

---

[1] To fulfill this condition, Applicant intends to use actual quotations or estimates of market value reflecting current market conditions chosen by the directors in the exercise of their discretion to be appropriate indicators of value which may include, *inter alia*, (1) quotations or estimates of market value for individual portfolio instruments, or (2) values obtained from yield data relating to classes of money market instruments furnished by reputable sources.

[2] In fulfilling this condition, if the disposition of a portfolio security results in a dollar-weighted average portfolio maturity in excess of 120 days, Applicant will invest its available cash in such a manner as to reduce the dollar-weighted average portfolio maturity to 120 days or less as soon as reasonably practicable.

Notice is further given that any interested person may, not later than March 30, 1981, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exhange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail upon the Applicant at the address stated above. Proof of such service (by affidavit, or in the case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided in Rule 0–5 of the Rules and Regulations promulgated under the Act, an order disposing of the application will be issued as of course following said date unless the Commission thereafter orders a hearing on request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of the Investment Management, pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

[Release No. 11672 (811–2915; 811–2916)]

Husco Broadcasting and Electronics Corp. and Husco Cablevision Corp.; Filing of Application for an Order Pursuant to Section 8(f) of the Act Declaring That Applicants Have Ceased To Be Investment Companies

March 6, 1981.

Notice is hereby given that Husco Broadcasting and Electronics Corporation ("Company") and Husco Cablevision Corporation, ("Subsidiary") (collectively "Applicants"), c/o Baer, Napier & Colburn, L.C., 731 Fifth Avenue, Huntington, West Virginia 25701, a wholly-owned subsidiary of Company, each registered as a closed-end, non-diversified, management investment company under the Investment Company Act of 1940 ("Act"), filed an application on January 29, 1981, pursuant to Section 8(f) of the Act, for an order declaring that Applicants have each ceased to be an investment company. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

Applicants, each a corporation organized under the law of the State of West Virginia, registered under the Act on March 23, 1979. Prior to registering under the Act, Company and Subsidiary were engaged in the business of operating cable television systems in West Virginia. According to the application, on June 1, 1977, pursuant to agreements entered into on March 6, 1977 ("1977 Agreement"), Applicants sold substantially all their assets to Century Huntington Company ("Century"), a wholly-owned subsidiary of Century Communications Corporation, in exchange for $2,500,000 in cash and secured promissory notes ("Notes") in the principal amount of $1,500,000. Applicants state that on February 1, 1980, Company, Subsidiary and Century entered into an agreement ("1980 Agreement") which modified the 1977 Agreement. Pursuant to the 1980 Agreement, Company and Subsidiary received $518,000 in cash in exchange for the Notes.

Applicants state that on August 23, 1980, the boards of directors of Applicants adopted and approved a plan of liquidation and dissolution of Applicants ("Plan"). Applicants further state that on October 1, 1980, a special meeting of shareholders of the Applicants was approved by the shareholders. According to the application, a distribution of $1.25 per share commenced on December 16, 1980 and that approximately $65,000 is being retained in the form of bank certificates of deposit to pay expenses of dissolution including secretarial and administrative expenses, legal and accounting expenses, reproduction and mailing expenses, filing and recording fees, and bank service charges.

Applicants state that they do not know the current address of 19 shareholders of the Company and that the distribution allocable to these shareholders will be paid as ordered by the Circuit Court of Cabell County, West Virginia. Applicants further state that they are not now engaged and do not propose to engage in any business activites other than those activities necessary for the final winding up of their affairs. Applicants further state that they have no debts or liabilities other than the expenses of dissolution described above and are not parties to any pending litigation or administration proceeding. Applicants state that they have filed a Statement of Intent to Dissolve, dated October 1, 1980, with the Secretary of State of West Virginia. Finally, Applicants represent that within the last eighteen months they have not transferred any of their assets to a separate trust, the beneficiaries of which were or are security holders of Applicants.

Section 8(f) of the Act provides, in pertinent part, that whenever the Commission, on its own motion or upon application, finds that a registered investment company has ceased to be an investment company, it shall so delcare by order and, upon the effectiveness of such order, the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than March 31, 1981, at 5:30 p.m., submit to the Commission in writing, a request for a hearing on the application accompanied by a statement as to the nature of his or her interest, the reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he or she may request that he or she be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail upon Applicants at the address stated above. Proof of such service (by affidavit or, in the case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0–5 of the Rules and Regulations promulgated under the Act, an order disposing of the application herein will be issued as of course following said date unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements therein.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

BILLING CODE 8010–01–M

[Release No. 11671; (812-4815)]

Shearson Daily Dividend Inc., Shearson Government and Agencies Inc., Triangle Income Fund Inc., Shearson Loeb Rhoades Inc.; Filing of Application Pursuant to Section 6(c) of the Act for an Order of Exemption From Section 2(a)(19) of the Act

March 6, 1981.

Notice is hereby given that Shearson Daily Dividend, Inc. ("Daily Dividend"), Shearson Government and Agencies Inc. ("Government"), and Triangle Income Fund Inc. ("Triangle") (collectively "Funds"), each registered under the Investment Company Act of 1940 ("Act") as an open-end, diversified, management investment company; Shearson Loeb Rhoades Inc. ("Shearson"), 14 Wall Street, New York, New York 10005, principal underwriter of the Funds and whose wholly-owned subsidiary, Berstein-Macaulay, Inc., acts as investment adviser to the Funds; and any subsequently formed investment company as to which Shearson or any of its subsidiaries may act as investment adviser to or principal underwriter of (collectively "Applicants"), filed an application on February 2, 1981, and an amendment thereto on March 4, 1981, for an order of the Commission pursuant to Section 6(c) of the Act declaring that Judge James J. Crisona shall not be considered an "interested person" of the Applicants, as defined in Section 2(a)(19) of the Act, solely by reason of his status as the father of Cynthia Crisona, an employee of Shearson. All interested persons are referred to the application on file with the Commission for a statement of the representations therein, which are summarized below.

Daily Dividend is a Maryland corporation which registered under the Act on March 20, 1979. The investment objective of Daily Dividend is to provide as high a level of current income as is consistent with the preservation of capital and maintenance of liquidity and whose investment portfolio consists exclusively of short-term securities issued or guaranteed by the United States government or its agencies or instrumentalities, certificates of deposit, and high-grade commercial paper.

Government is a Maryland corporation and registered under the Act on March 24, 1980. The investment objective of Government is to provide as high a level of current income as is consistent with the preservation of capital and maintenance of liquidity and whose investment portfolio consists exclusively of short-term securities issued or guaranteed by the United States government or its agencies or instrumentalities.

Triangle, organized under the laws of Maryland, registered under the Act on May 22, 1980. The investment objective of Triangle is to provide high current income through investments in high yielding fixed income securities. The investment portfolio of Triangle consists principally of corporate bonds, debentures and notes, convertible securities, preferred stocks and domestic and foreign government obligations.

Judge Crisona is counsel to the law firm of Orenstein, Snitow, Sutak & Pollack, P.C., located in New York, New York. Prior to July 1, 1978, Judge Crisona was a justice of the Supreme Court of the State of New York. Applicants state that Judge Crisona has been a director of Daily Dividend and Government since their respective dates of organization and was a director of Triangle from its date of organization to November 5, 1980. According to the application, Judge Crisona resigned from the board of directors of Triangle because the board decided to elect as a director an official of Triangle's administrator, who would be deemed to be an interested person of Triangle.

Ms. Crisona has been employed as a registered representative of Shearson since the combination of the business of Loeb Rhoades Hornblower & Co. and Shearson Hayden Stone Inc. on or about December 3, 1979. According to the application, Ms. Crisona had been employed as a registered representative by Loeb Rhoades Hornblower & Co. for approximately one year prior to the above described combination of businesses. Applicants represent that Ms. Crisona maintains a separate household and is financially independent of Judge Crisona.

Section 2(a)(19) of the Act, in pertinent part, defines an interested person of an investment company, investment adviser or principal underwriter to be any member of the immediate family of any natural person who is an affiliated person of such investment company, investment adviser or principal underwriter. Section 2(a)(3) of the Act defines as "affiliated person" of another person to include any employee of such other person.

Section 6(c) of the Act provides, in part, that the Commission, by order upon application, may conditionally or unconditionally exempt any person, security or transaction, or any class or classes of persons, securities or transactions, from any provision or provisions of the Act or of the rules or regulations thereunder, if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

The application states that each of the board of directors of the Funds has determined that the professional background, prior and current business experience and personal qualities of Judge Crisona enhance the boards of each of the Funds and provide broadened perspectives on investment policies and overall management. In addition, Applicants represent that no portfolio transactions of any of the Funds are executed through Shearson. As such, Applicants contend that Ms. Crisona receives no direct or indirect benefit by virtue of Judge Crisona being a director of the Funds. Furthermore, Applicants state that Ms. Crisona receives no additional compensation benefits or preferential or other special treatment because of her relationship to Judge Crisona. Applicants also state that in the event it is determined that portfolio transactions may be executed through Shearson, Judge Crisona will undertake not to vote nor participate in any deliberations with respect to allocation of brokerage to Shearson as long as Ms. Crisona is employed by Shearson. Applicants submit that Judge Crisona is in a position to act independently on behalf of the Funds and their shareholders without any impairment arising out of Ms. Crisona's employment with Shearson.

Accordingly, Applicants request that the Commission issue an order pursuant to Section 6(c) of the Act declaring that Judge Crisona shall not be deemed to be an interested person of the Applicants solely by reason of his status as the father of Ms. Crisona, an employee of Shearson.

Notice is further given that any interested person may, not later than March 31, 1981, at 5:30 p.m., submit to the Commission in writing, a request for a hearing on the application accompanied by a statement as to the nature of his or her interest, the reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he or she may request that he or she be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail upon Applicants at the address stated above. Proof of such service (by affidavit or, in the case of an attorney-at-law, by certificate) shall be filed contemporaneously with

the request. As provided by Rule 0–5 of the Rules and Regulations promulgated under the Act, an order disposing of the application herein will be issued as of course following said date unless the commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

BILLING CODE 8010–01–M

[Release No. 17662; (File Nos. SR–BSPS–77–5; SR–BSPS–80–3; SR–NSCC–78–2)]

Submission of Requests to Modify or Eliminate Conditions to the Commission's Approval of Proposed Rule Changes Filed by Bradford Securities Processing Services, Inc. and National Securities Clearing Corp.

March 5, 1981.

The Commission recently received three letters concerning the approval, subject to certain conditions, of proposed rule changes submitted by Bradford Securities Processing Services, Inc., ("BSPS") and National Securities Clearing Corporation ("NSCC"). The order approving those proposed rule changes appeared in Securities Exchange Act Release No. 17343 (November 26, 1980). In brief, that order authorized BSPS and NSCC to establish automated comparison and clearance systems for processing transactions in municipal securities.

In a letter dated February 27, 1981, BSPS informed the Commission that it had been unsuccessful in attracting enough participants to justify the continuing costs of developing and operating its system and that it was discontinuing operations. BSPS also requested that its proposal be withdrawn and rescinded its request for free interfaces with NSCC's system. In addition, BSPS expressed support for the prompt and unconditional approval of NSCC's system for processing transactions in municipal securities.

In a letter dated February 27, 1981, NSCC requested that the Commission, in view of BSPS' decision not to operate a municipal securities processing system, modify or eliminate certain of the conditions to the Commission's order approving NSCC's system. Among other things, NSCC requested that it not be required to establish interfaces with BSPS and that it be permitted to expand its system more rapidly than authorized by the order approving its proposal.

In a letter dated March 2, 1981, the participant members of the Joint Coordinating Committee, which had been established by NSCC and BSPS pursuant to the Commission's order, urged the Commission to permit NSC to expand its system promptly and unconditionally.

Because of the importance of automated comparison and clearance systems to the municipal securities industry, the Commission will consider NSCC's and BSPS's requests promptly. Interested persons are invited to submit data, views and arguments concerning NSCC's and BSPS's requests on or before March 26, 1981. Publication is expected to occur during the week of March 9, 1981. Persons that wish to comment but that are unable to do so within the fourteen day period should promptly notify Dan W. Schneider, Branch Chief, Branch of Clearing Agency Regulation, Division of Market Regulation, at (202) 272–3115.

Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549. Reference should be made to File Nos. SR–BSPS–77–5; SR–BSPS–80–3 and SR–NSCC–78–2. Copies of the letters described above and any comments received will be available for inspection and copying at the Commission Public Reference Room, 1100 L Street, N.W. Washington, D.C.

For the Commission by the Division of Market Regulation pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

BILLING CODE 8010–01–M

[Release No. 11667; (812–4722)]

The Toronto-Dominion Bank; Application Pursuant to Section 6(c) of the Act Exempting Applicant From All Provisions of the Act

March 5, 1981.

Notice is hereby given that The Toronto-Dominion Bank ("Applicant"), c/o Leland J. Markley, Esq., Kelley, Drye & Warren, 350 Park Avenue, New York, New York 10022, filed an application on August 26, 1980, and an amendment thereto on January 29, 1981, for an order of the Commission pursuant to Section 6(c) of the Investment Company Act of 1940 ("Act") exempting Applicant from all provisions of the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

Applicant states that it is a bank chartered in Canada under the provisions of the Bank Act. According to the application, Applicant is the fifth largest commercial bank in Canada and the fifteenth largest bank in North America. Applicant represents that it has consolidated assets of approximately $27.4 billion, of which about $17.5 billion, approximately 64% of its consolidated assets, consisted of loans, and consolidated deposits of approximately $24.3 billion as of April 30, 1980. Applicant states that it has one class of outstanding stock, consisting of 37,968,780 shares of common stock outstanding which is held by 23,457 shareholders and had an aggregate market value of approximately $1.1 billion as of June 17, 1980.

According to the application, Applicant is primarily engaged in the business of banking and lending. Applicant states that it conducts a nationwide and international banking business through more than 1,000 branch offices offering domestic and international banking services. Applicant's principal office is located at Toronto-Dominion Centre, Toronto, Ontario, Canada M5K 1A2.

Applicant represents that the business of banking in Canada is a matter of exclusive Federal jurisdiction and each chartered bank is regulated under the Bank Act. According to the application, the Bank Act pertains to all aspects of banking in Canada, including the business and power of chartered banks, with detailed regulations as to the types of loans that can be made, shareholders and directors, capital stock and debentures, maintenance of reserves, auditing requirements, financial disclosure and regular inspections by the Inspector General of Banks. Applicant states that in the United States its activities are supervised and examined pursuant to the laws of the States of New York, Pennsylvania, California and Georgia. The application states that in connection with the Applicant's ownership of Toronto-Dominion Bank California, it is registered under the Bank Holding Company Act of 1956 with the Board of Governors of the Federal Reserve System which may examine the institution and requires the filing of annual reports regarding its operations.

According to the application, Applicant proposes to issue and sell unsecured prime quality commercial paper notes in bearer form in minimum denominations of $100,000 in the United States. Applicant represents that the notes will be sold through major United States commercial paper dealers to institutional and other sophisticated investors, including individuals who normally purchase commercial paper of this type. The application states that Applicant may also sell the notes directly to such investors and that the notes will not be advertised or otherwise offered for sale to the general public. Applicant indicates that the notes will provide an alternative source of supply of United States dollars supplementing those currently obtained through normal commercial sources and in the Eurodollar market. According to the application, Applicant does not currently expect that it would sell in excess of $500,000,000 of the notes in the United States at any one time outstanding. The application states that the notes will be direct liabilities of the Applicant and will rank *pari passu* among themselves and equally with all deposit liabilities of Applicant and all other unsecured, unsubordinated indebtedness of the Applicant, with the exception of any amounts due to the government of Canada or to any province thereof. In addition, the notes will rank prior to any subordinated indebtedness of Applicant, including all issues of debentures and claims of holders of Applicant's capital stock. Applicant plans to sell the notes without registration under the Securities Act of 1933 (the "1933 Act"), in reliance upon a written opinion of its United States counsel that the notes will qualify for the exemption from the registration requirements of the 1933 Act provided for certain short-term commercial paper by Section 3(a)(3) thereof. Applicant states that it will not issue or sell the notes until it has received such opinion letter. Applicant does not request Commission review or approval of such opinion letter and the Commission expresses no opinion as to the availability of any such exemption. Applicant further represents that the presently proposed issue of securities and all future issues of securities in the United States shall have received prior to their respective issuances one of the three highest investment grade ratings from at least one of the nationally recognized statistical rating organizations and that its United States counsel shall have certified that such rating has been received.

Applicant undertakes to ensure that the commercial paper dealers in the United States through which it sells the notes, and the Applicant if it sells the notes directly, will provide to each offeree, prior to sale, a memorandum which describes Applicant's business and contains the most recent fiscal year end balance sheet and income statement of Applicant. Applicant states that the memorandum and financial statements will describe any material differences between Canadian accounting principles applicable to chartered banks and generally accepted accounting principles applicable to Unites States commerical banks, will be at least as comprehensive as those customarily used in commercial paper offerings by bank holding companies in the United States and will be updated periodically to reflect material changes in Applicant's financial status. In addition, the memorandum will contain a description of the information set forth above concerning the priority of the notes as against the Applicant's other liabilities.

Applicant further represents that any future offerings of its debt securities in the United States will be made only pursuant to a registration statement under the 1933 Act or pursuant to an applicable exemption from registration under such Act, and any such offering will be made on the basis of disclosure documents required for such registration or exemption and in any event at least as comprehensive in its description of the Applicant as is customary in such offerings of similar debt securities in the United States. Applicant consents to having any order granting the relief requested under Section 6(c) expressly conditioned upon the Applicant's compliance with the foregoing undertakings regarding disclosure memoranda.

Applicant represents that it will appoint a bank or trust company in the United States or its United States counsel as its agent to accept service of process in any action based on the notes and instituted in any state or federal court by the holder of any of the notes and any other securities it may offer in the future, which will be limited to debt securities. Applicant further represents that it will expressly accept the jurisdiction of any state or federal court in the city and state of New York in any such action. Applicant states that the appointment of an authorized agent to accept service of process and the consent to jurisdiction will be irrevocable until all amounts due and to become due in respect of the notes and any future securities have been paid by Applicant.

Section 3(a)(3) of the Act defines investment company to mean "any issuer which is engaged or proposes to engage in the business of investing, reinvesting, owning, holding, or trading in securities, and owns or proposes to acquire investment securities having a value exceeding 40 per centum of the value of such issuer's total assets (exclusive of Government securities and cash items) on an unconsolidated basis." Applicant states that there is uncertainty as to whether it would be considered an investment company as defined under the Act.

Section 6(c) of the Act provides, in pertinent part, that the Commission, by order upon application, may conditionally or unconditionally exempt any person, security or transaction, or any class or classes of persons, securities, or transactions, from any provision under the Act or any rule or regulation thereunder, if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Applicant requests an order pursuant to Section 6(c) of the Act exempting it from all provisions of the Act. Applicant submits that it is extensively regulated under the Bank Act by the Canadian Inspector General of Banks, as well as by the Board of Governors of the Federal Reserve and state banking authorities in connection with its United States operations. Applicant also submits that such an exemption would benefit institutional and other sophisticated investors because without such an exemption these investors would be unable to purchase securities of foreign banks such as the Applicant. Applicant concludes that granting an exemptive order pursuant to Section 6(c) of the Act would be necessary and appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than March 30, 1981, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the application accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission,

Washington, D.C. 20549. A copy of such request shall be served personally or by mail upon Applicant at the address stated above. Proof of such service (by affidavit or, in the case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0–5 of the Rules and Regulations promulgated under the Act, an order disposing of the application will be issued as of course following said date unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

SMALL BUSINESS ADMINISTRATION

[License No. 03/03-0132]

DeStan Capital Corp.; Surrender of License

Notice is hereby given that DeStan Capital Corporation (DeStan), 4340 Connecticut Avenue, N.W., Washington, D.C. 20008, incorporated under the laws of the District of Columbia on October 17, 1977, has surrendered its License No. 03/03–0132, issued by the Small Business Administration on July 5, 1978.

DeStan has complied with all the conditions set forth by SBA for surrender of its license. Therefore, under the authority vested by the Small Business Investment Act of 1958, as amended, and pursuant to the Regulations promulgated thereunder, the surrender of the license of DeStan is hereby accepted and it is no longer licensed to operate as a small business investment company.

DEPARTMENT OF STATE

Advisory Committee on International Investment, Technology, and Development; Meeting

The Department of State will hold a meeting on Monday, March 30, 1981, of the Working Group on UN/OECD Investment Undertakings of the Advisory Committee on International Investment, Technology, and Development. The Working Group will meet from 9:30 a.m. to 4:00 p.m. The meeting will be held in the Loy Henderson Conference Room of the State Department, 2201 C Street, N.W., Washington, D.C. 20520. The meeting will be open to the public.

The purpose of the meeting will be to discuss the recent rapid growth of foreign investment in the United States, its magnitude and effects on the U.S. economy, and reactions generated by these trends among the business community, labor and government. Recent developments concerning the United Nations' work on a code of conduct for Transnational Corporations will also be reviewed.

Requests for further information on the meeting should be directed to Philip T. Lincoln, Jr., Department of State, Office of Investment Affairs, Bureau of Economic and Business Affairs, Washington, D.C. 20520. He may be reached by telephone on (area code 202) 632–2728.

Members of the public wishing to attend the meeting must contact Mr. Lincoln's office in order to arrange entrance to the State Department building.

The Chairman of the Working Group will, as time permits, entertain oral comments from members of the public attending the meeting.

Dated: March 2, 1981.

Philip T. Lincoln, Jr.,

Executive Secretary.

[CM-8/360]

Study Group A of the U.S. Organization for the International Telegraph and Telephone Consultative Committee (CCITT); Meeting

The Department of State announces that Study Group A of the U.S. Organization for the International Telegraph and Telephone Consultative Committee (CCITT) will meet on March 25, 1981 at 10 a.m. in Room 856, of the Federal Communications Commission, 1919 M Street, N.W., Washington, D.C. This Study Group will deal with U.S. Government regulatory aspects of international telegram and telephone operations and tariffs.

The Study Group will discuss international telecommunications questions relating to telegraph, telex, new record services, data transmission and leased channel services in order to develop U.S. positions to be taken at upcoming international CCITT meetings. In particular, this meeting of Study Group A will examine the questions and contributions relating to the upcoming May, 1981 meeting of CCITT Study Group I.

Members of the general public may attend the meeting and join in the discussion subject to instructions of the Chairman. Admittance of public members will be limited to the seating available.

Requests for further information should be directed to Earl S. Barbely, Federal Communications Commission, Washington, D.C., telephone (202) 632–3214.

Richard H. Howarth,

Chairman, U.S. CCITT National Committee.

February 26, 1981.

[CM-8/377]

Study Group 2 of the U.S. Organization for the International Radio Consultative Committee (CCIR); Meeting

The Department of State announces that Study Group 2 of the U.S. Organization for the International Radio Consultative Committee (CCIR) will meet on March 27, 1981 in Room 521] of the National Aeronautics and Space Administration, 600 Independence

Avenue SW., Washington, D.C. The meeting will begin at 9:30 a.m.

Study Group 2 deals with matters relating to the communications for scientific satellites, space probes, spacecraft, exploration satellites (e.g., meteorological and geodetic) and to interference problems concerning the radio-astronomy and radar astronomy services. The purpose of the meeting is to review the work under way in preparation for the international meeting of Study Group 2 in October 1981.

Members of the general public may attend the meeting and join in the discussions subject to instructions of the Chairman.

Requests for further information should be directed to Mr. Gordon Huffcutt, State Department, Washington, D.C. 20520, telephone (202) 632-2592.

Dated: February 20, 1981.

Gordon L. Huffcutt,

Chairman, U.S. CCIR National Committee.

DEPARTMENT OF TRANSPORTATION

Coast Guard

[CGD81-016]

Environmental Impact Statement, Proposed Bridge Across the Columbia River, Mile 343, Near Richland, Washington (Benton/Franklin Counties)

AGENCY: U.S. Coast Guard, Department of Transportation (DOT).

ACTION: Notice of intent to prepare an environmental impact statement.

SUMMARY: The Coast Guard is issuing this notice to advise the public that an environmental impact statement (EIS) will be prepared in conjunction with agency action (issuance or denial of a bridge permit) related to the approval of location and plans for the proposed construction of a toll bridge across the Columbia River and approximately 15 miles of approach roadways in the vicinity of Richland, Washington. The Columbia River at the site of the proposed toll bridge has been determined to be a navigable water of the United States; therefore, a Coast Guard bridge permit is required.

FOR FURTHER INFORMATION CONTACT: Wayne Lee or John Mikesell, Bridge Section, Aids to Navigation Branch, Thirteenth Coast Guard District, 915 Second Avenue, Seattle, Washington 98174, (206) 442-5864 / FTS 399-5864.

SUPPLEMENTARY INFORMATION: The Coast Guard, in cooperation with the Washington State Department of Transportation (WSDOT) will prepare an EIS on a proposal to provide access between State Route (SR) 240 in Benton County and SR 395 in Franklin County by constructing a toll bridge across the Columbia River north of Richland, Washington, in the vicinity of Horn Rapids Road with construction of approach roads to connect SR 240 to the west, Interstate 182 to the southeast, and SR 395 to the east. Alternative alignments and designs, including the no-action alternative, will be examined.

Numerous meetings have been held to date with Federal, State, and local authorities and with the general public concerning the need for and potential impacts of the proposed project. Although a formal scoping meeting is not anticipated at this time, any substantive input as to the impacts of or concerns with the project will be given careful consideration. It is anticipated that a public hearing will be held after the Draft EIS is issued for public and agency review and comment.

To ensure that the full range of impacts related to the proposed action is addressed and all significant issues are identified, comments and suggestions are invited from all interested parties. Comments or questions concerning the proposed action and EIS should be directed to the Coast Guard at the above address.

Dated: March 4, 1981.

R. A. Bauman,

Rear Admiral, U.S. Coast Guard, Chief, Office of Navigation.

[FR Doc. 81-7760 Filed 3-11-81; 8:45 am]

BILLING CODE 4910-14-M

Federal Aviation Administration

[Certification Docket No. CT4574CE-D]

Application for Amendment to Type Certificate; Gates Learjet Models 54/55/56 Series Airplanes

Note.—This document originally appeared in the Federal Register for Tuesday, March 10, 1981. It is reprinted in this issue to meet requirements for publication on an assigned day of the week. (See OFR notice 41 FR 32914, August 6, 1976.)

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Announcement of certification status and statement of amended type certification basis.

SUMMARY: The Gates Learjet Corporation (Learjet) has applied to amend Type Certificate A10CE for their Models 54/55/56 series airplanes. This announces the type certification program for these airplanes and provides information on the type certification basis to be established under Section 21.101 of the Federal Aviation Regulations (FARs). This is a non-rulemaking proceeding within the meaning of the administrative procedure provisions of 5 U.S.C. 551, *et. seq.*

The issuance of special conditions under Sections 21.16 and 21.101 is required where it is found that the airworthiness regulations otherwise applicable to an aircraft do not contain adequate or appropriate safety standards because of a novel or unusual design feature. Special conditions required as part of the certification basis for these aircraft are discussed under the topic *Special Conditions* of this announcement. In accordance with the policy announced in Amendment 21–51, Airworthiness Review Program (45 FR 60154), effective October 14, 1980, the issuance of special conditions is usually initiated by Notice of Proposed Rule Making. However, the application for amendment of Type Certificate A10CE had been filed and the special conditions thereto have been accepted by the applicant and incorporated into the aircraft type design prior to the adoption of Amendment 21–51.

Furthermore, the certification program has been substantially completed and, pursuant to the program schedule, the amendment to the type certificate should be issued March 16, 1981, or shortly thereafter. Accordingly, the special conditions are being issued concurrent with the status report. In this connection, it should be noted that the special conditions are substantially the same as those issued by the FAA for previous Gates Learjet models, and service experience has shown they adequately provide for the novel and unusual design features in the models 54/55/56 series airplanes. It has also been determined that delaying the issuance of the amended type certificate would cause unnecessary production delays and impose an undue financial burden and hardship on the applicant and users of the airplane.

DATE: Comments on this announcement will be considered if received prior to the amendment of the aircraft type certificate. Learjet is proposing to complete the certification program for the Model 55 in mid-March 1981.

FOR FURTHER INFORMATION CONTACT: Barry D. Clements, Chief, Aircraft Certification Progam (ACE–211), Room 238, Terminal building 2299, Mid-Continent Airport, Wichita, Kansas 67209, Telephone (Area Code 316) 942–4285.

Availability of Additional Copies of Announcement

Any person may obtain additional copies of this Announcement by submitting a request to the Federal Aviation Administration, Public Affairs Officer, Central Region, 601 East 12th Street, Kansas City, Missouri 64106. Telephone (Area Code 816) 374–5449. Each communication must identify the docket number which is CT4574CE–D.

Background

On August 2, 1976, Learjet applied to the FAA Central Region to amend Type Certificate A10CE by adding the Model PD1311. In November 1977, the Model PD1311 was defined as the Learjet Models 54/55/56. These models have the same exterior configuration but have different size fuel tanks in the aft fuselage area. The Models 54/55/56 are "executive jet" airplanes having a low wing with supercritical winglets. There are two aft fuselage-mounted, Garrett TFE–731–3A–2B engines each producing 3700 pounds thrust. These models have the characteristic Learjet T-tail. The Models 54/55/56 will accommodate a maximum of 10 passengers. The Models 54/55/56 will have a maximum takeoff weight of 18,500, 19,500 and 20,500 pounds respectively. The maximum approved operating altitude of the airplanes will be 51,000 feet.

Program Process

The statutory prerequisite for the issuance of an aircraft type certificate or an amendment thereto is a finding by the Administrator that the aircraft is of proper design, material, specification, construction and performance for safe operation and meets the standards, rules and regulations prescribed therefore. (Section 603(a) of the Federal Aviation Act of 1958 (Act), 490 U.S.C. 1423(a)(1).) In exercising his powers and duties under the Act, the Administrator must do so consistently with any obligation assumed by the United States in any treaty or other international agreement (Section 1102 of the Act, supra). For example, when components are produced by an aircraft overseas supplier and they are not readily inspectable during assembly, they are subject to reciprocal agreements, known as "bilaterals," which have been consummated between this country and the exporting country. In such cases, the FAA would notify the foreign certifying authority of the applicable design data, test and quality control requirements to be met.

The type certifications process for aircraft projects in which complete type certification is involved generally consists of the following major steps:

1. Establishment of a Type Certification Board which programs its meetings according to need but generally includes at least three significant phases (preliminary, preflight, and final);

2. Issuance of a Type Inspection Authorization (TIA) when the examination of the technical data required for type certification is completed or has reached a point where it appears that the aircraft will meet the pertinent regulations. The TIA is the authorization for FAA personnel to begin flight testing and assure that the test aircraft meets design standards. The preflight type board is also held at this time. After flight testing is completed, the final type board is held to resolve any outstanding matters.

3. Issuance of the amended Type Certificate Data Sheet which becomes a part of the type certificate, setting forth the limitations prescribed by the applicable airworthiness regulations and any other limitations and information found necessary for type certification.

4. Issuance of a "decision document," which will be a public document, that summarizes the basis for the decision to issue a type certificate, or an amendment thereto, including an identification of all applicable regulations, issues, means of compliance (including tests and analyses) and resolution of issues.

After an amended Type Certificate Data Sheet has been prepared, all outstanding items have been resolved, all applicable regulations have been met, the decision document has been approved, the airplane is considered safe in its operational environment, and the airplane flight manual has been approved, an amendment to the aircraft type certificate will be issued. Throughout the type certification process, from the time the Type Certification Board is convened to the final issuance of the amended type certificate, reviews are conducted to establish the operational suitability of the aircraft. These reviews include evaluation of the aircraft for operations under FAR 91, FAA operational advisory circulars, airport and air traffic

control compatibility, minimum equipment lists, training requirements, and other areas. Thereafter, a Type Inspection Report (TIR) is prepared which provides an official record of the inspection and flight test conducted to show compliance with the applicable regulations.

Program Status

Type Certification Board meetings were held as follows: Preliminary—December 21, 1977; First Interim—March 21, 1979; Preflight—May 23, 1980; and the Second Interim—November 21, 1980. At the Preflight Type Certification Board meeting, Learjet expressed their primary interest in certification of the Model 55 first with the Models 54 and 56 to be certified at a later time. The initial Type Inspection Authorization for the Model 55 was issued May 1980, and it has been revised through Revision F as of November 1980. All substantiating reports were to be submitted to the FAA by the first week in February. Flight testing is scheduled to be completed in early March, with subsequent amendment of the Type Certificate scheduled for mid-March 1981.

Type Certification Basis—General

The applicable airworthiness standards are those regulations designated in accordance with Section 21.101 of the FAR Part 21, which are collectively known as the "type certification basis" for the airplane design. Special conditions are issued, and amended as necessary, as a part of the type certification basis if the Administratot finds that the airworthiness standards designated in accordance with Section 21.101(b)(2) do not contain adequate or appropriate safety standards because of novel or unusual design features of the Learjet Models 54/55/56 series airplanes.

Statement of Type Certification Basis

Based on the existing certification requirements presented on Type Certificate Data Sheet No. A10CE for the Gates Learjet Models 35A and 36A plus other later FAR sections established in separate correspondence, the type certification basis of the Learjet Models 54/55/56 airplanes will be:

Part 25 of the Federal Aviation Regulations (FARs) effective February 1, 1965, as amended by Amendments 25-2, 25-3, 25-4, 25-7, 25-10, 25-12, 25-18, 25-21, 25-22 and 25-30, plus Section 25.955(b)(2) of Amendment 25-11, Section 25.954 of Amendment 25-14, Sections 25.803(e), 25.811(f), 25.853(a), 25.853(b) and 25.855(e) of Amendment 25-15, Section 25.1359 of Amendment 25-17, Section 25.785(c) of Amendment 25-20, Sections 25-251(c), 25.251(d), 25.251(e), 25.309, 25.905(b), 25.907(d), 25.331(a)(3), 25.335(b), 25.335(f), 25.337(b), 25.349(b), 25.351(a), 25.363, 25.395(a), 25.395(b), 25.471(a)(1), 25.471(a)(2), 25.473, 25.493(b), 25.499(b), 25.499(c), 25.499(d), 25.509(a)(3), 25.561(b)(3), 25.561, 25.607, 25.615, 25.619, 25.625, 25.629, 25.677, 25.697, 25.699, 25.701, 25.721, 25.723, 25.725, 25.727, 25.729, 25.733, 25.735, 25.865, 25.867, 25.781, 25.903(d), 25.934, 25.994, 25.1103(d), 25.1143(e), 25.1303, 25.1307, 25.1331, and 25.1585(c) of Amendment 25-23, Sections 25.1013(e), 25.1305(c)(4), and 25.1305(c)(6) of Amendment 25-36, Sections 25.815, 25.1322 and 25.1403 of Amendment 25-38, Sections 25.903(e), 25.939 and 25.943 of Amendment 25-40, Section 25.255 of Amendment 25-42; and Section 25.1326 of Amendment 25-43;

Part 36 of the Federal Aviation Regulations effective, December 1, 1969, Amendments 36-1 through 36-10;

Part 27 of the Special Federal Aviation Regulations, effective February 1, 1974, Amendments 27-1 and 27-2;

Exemption

As of the date of this announcement, Learjet has not petitioned the FAA for any exemptions relative to the type certification of the Models 54/55/56 series airplanes.

Findings of Equivalencies

FAR Section 21.21(b)(1) permits the FAA to accept deviations from the applicable airworthiness requirements if the deviation is compensated by a factor that provides an equivalent level of safety. Learjet has requested four equivalent level of safety findings as provided for in FAR 21 Section 21.21(b)(1). These findings involve the following regulations:

FAR 25.201 thru 25.207—Stalls
FAR 25.253—High-Speed Characteristics
FAR 25.773(b)(2)—Pilot Compartment View
FAR 25.1305(f)—Powerplant Instruments

Special Conditions

There are additional design features and airworthiness standards which pertain to the certification basis for the Learjet Models 54/55/56 series airplanes that have been considered. They are being included as part of the certification basis as special conditions pursuant to Section 21.101 to the extent they involve novel or unusual design features. These features which involve special conditions for operation to 51,000 feet are:

1. Airframe—Pressure Vessel Integrity.
2. Systems—Ventilation; Air Conditioning; Pressurization; Oxygen Equipment and Supply; Operation Without Normal Electrical Power; Stability Augmentation and Automatic and Power Operated Systems.
3. Flight—Environmental Testing.

Finally, design evaluation does not end with the issuance of the amended type certificate. The FAA continues to monitor the safety performance of the design after the type design is approved and the product is introduced into service. This is accomplished through the various reports and data the FAA receives daily and which regulations require aircraft owners and operators to submit, as well as, in some cases, post-certification design reviews. The airworthiness standards published in the FARs such as Part 25, as well as the operational regulations in Parts 91 and 121, are amended from time to time to consider new technologies and to upgrade the existing level of safety. If during any evaluation an unsafe condition is found as a result of service experience and that condition is likely to exist or develop in other products of the same type, the FAA issues an airworthiness directive under Part 39 to require a change to the type design or to define special inspection or operational limitations. In effect, these are also retroactive applications of required type design changes.

Issued in Kansas City, Missouri, on March 5, 1981.

John E. Shaw,
Acting Director, Central Region.

BILLING CODE 4910-13-M

[Docket No. 21490; S.C. No. 25-80-CE-14]

Special Conditions: Gates Learjet Models 54, 55, and 56 Series Airplanes

Note.—This document originally appeared in the Federal Register for Tuesday, March 10, 1981. It is reprinted in this issue to meet requirements for publication on an assigned day of the week. (See OFR notice 41 FR 32914, August 6, 1976.)

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final special conditions.

SUMMARY: These special conditions are issued pursuant to § 21.16 and § 21.101 of the Federal Aviation Regulations (FAR) to Gates Learjet Corporation (Learjet) for the amended type certification of the Learjet Models 54, 55, and 56 series airplanes. These airplanes will have novel or unusual design features associated with the unusually high operating altitude (51,000 feet) for which the applicable airworthiness regulations do not contain adequate or appropriate safety standards. These special conditions are therefore necessary to establish a level of safety equivalent to that established in the regulations.

DATE: Effective March 10, 1981.

ADDRESSES: Comments on this action may be mailed in duplicate to: Federal

Aviation Administration, Office of the Chief Counsel, Attn: Rules Docket (AGC-204), Docket No. 21490, 800 Independence Avenue SW., Washington, D.C. 20591; or delivered in duplicate to: Room 916, 800 Independence Avenue SW., Washington, D.C., 20591. All comments must be marked: Docket No. 21490. Comments may be inspected in the Rules Docket weekdays, except Federal holidays, between 8:30 a.m. and 5:00 p.m.

FOR FURTHER INFORMATION CONTACT:
Iven Connally, Lead Region Staff, FAA Northwest Region, FAA Building, Boeing Field, Seattle, WA 98108. Telephone (206) 767-2565.

SUPPLEMENTARY INFORMATION:

Background

On August 2, 1976, Gates Learjet Corporation (Learjet), Mid-Continent Airport, Box 7707, Wichita, Kansas 67277, filed an application for an amendment to Type Certificate No. A10CE to include its Models 54, 55, and 56 airplanes. The Learjet Models 54, 55, and 56 are derivatives of the Learjet Models 35 and 36. Wings are extended, wingtip tanks deleted, and supercritical winglets are added. The fuselage diameter has been increased and the fuselage has been lengthened by 48 inches. The engines have been moved aft and up and have been changed from Garrett AiResearch TFE-731-2-2B's to TFE-731-3A-2B's. The vertical stabilizer area has been increased and the horizontal stabilizer has been raised approximately 30 inches. The right-hand plug-type escape hatch has been replaced with a large outward-opening hinged door which also serves as a baggage door. Baggage compartments have been added to the tail cone and in the enlarged nose compartment. A larger windshield with separate openable side windows and a new cockpit arrangement have been added. The maximum certificated weight has been increased from 18,000 pounds to 19,500 pounds with an option to 20,500 pounds.

The applicable airworthiness standards are those regulations designated in accordance with § 21.101 of the FAR which are collectively known as the "type certification basis" for the airplane design. Special conditions may be issued, and amended, as necessary, as a part of the type certification basis if the Administrator finds that the airworthiness standards designated in accordance with § 21.101(b)(2) do not contain adequate or appropriate safety standards because of novel or unusual design features of the Learjet Models 54, 55, and 56 series airplanes.

The type design of the Learjet Models 54, 55, and 56 contains a number of novel and unusual design features for an airplane type certificated under the applicable provisions of Part 25 of the FAR. Those features include a relatively small passenger cabin volume and a high operating altitude. The applicable airworthiness requirements do not contain adequate or appropriate safety standards for the Learjet Models 54, 55, and 56. Therefore, special conditions are necessary to establish a level of safety equivalent to that established in the regulations.

The special conditions require a higher degree of pressure vessel integrity than envisioned by the original type certification basis to assure that depressurization at high altitude is unlikely. The ventilation, air conditioning, and pressurization systems requirements have been upgraded to assure survivability in the event of certain system failures at altitudes above 40,000 feet. The special conditions also redefine the oxygen system, since § 25.1441(d), incorporated into type certificate A10CE, does not define the oxygen system required for operations above 40,000 feet. Finally, the special conditions require the applicant to show that the airplane can be operated safely in Visual Flight Rules (VFR) conditions with the electrical power inoperative. Service experience has shown that loss of normal electrical power is not a sufficiently remote possibility to assure an acceptable level of safety.

Type Certification Basis

The type certification basis for the Learjet Models 54, 55, and 56 is: Part 25 of the Federal Aviation Regulations (FAR) effective February 1, 1965, as amended by Amendments 25-2, 25-3, 25-4, 25-7, 25-10, 25-12, 25-18, 25-21, and 25-30; plus § 25.955(b)(2) of Amendment 25-11; § 25.954 of Amendment 25-14; §§ 25.803(e), 25.811(f), 25.853(a), 25.853(b), and 25.855(a) of Amendment 25-15; § 25.1359 of Amendment 25-17; § 25.785(c) of Amendment 25-20; §§ 25.251(c), 25.251(d), 25.251(e), 25.303, 25.305(b), 25.307(d), 25.331(a)(3), 25.335(b), 25.335(f), 25.337(b), 25.349(b), 25.351(a), 25.363, 25.395(a), 25.395(b), 25.471(a)(1), 25.471(a)(2), 25.473, 25.493(b), 25.499(b), 25.499(c), 25.499(d), 25.509(a)(3), 25.561(b)(3), 25.581, 25.807, 25.815, 25.819, 25.625, 25.629, 25.677, 25.697, 25.699, 25.701, 25.721, 25.723, 25.725, 25.727, 25.729, 25.733, 25.735, 25.865, 25.867, 25.871, 25.903(d), 25.934, 25.994, 25.1103(d), 25.1143(e), 25.1303, 25.1307, 25.1331, and 25.1585(c) of Amendment 25-23; §§ 25.1013(e), 25.1305(c)(4) and 25.1305(c)(6) of Amendment 25-36; §§ 25.815, 25.1322, and 25.1403 of Amendment 25-38; §§ 25.903(e), 25.939, and 25.943 of Amendment 25-40; § 25.255 of Amendment 25-42; § 25.1326 of Amendment 25-43; Part 36 of the FAR effective December 1, 1969, either as amended through Amendment 36-10 or as amended at the time of the noise test; SFAR 27 effective February 1, 1974, as amended through Amendment SFAR 27-2; and the special conditions set forth herein.

Need for Immediate Adoption

The issuance of special conditions under §§ 21.61 and 21.101 is required where it is found that the airworthiness regulations otherwise applicable to an aircraft do not contain adequate or appropriate safety standards because of a novel or unusual design feature. In accordance with the policies announced in Amendment 21-51, Airworthiness Review Program (45 FR 60154), effective October 14, 1980, the issuance of special conditions is usually initiated by a Notice of Proposed Special Conditions; however, the application for the amendment to Type Certificate A10CE had been filed and the special conditions applicable thereto had been accepted by the applicant and incorporated into the airplane type design prior to the adoption of Amendment 21-51. Furthermore, the certification program has been substantially completed, and, pursuant to the program schedule, the amendment to the type certificate should be issued March 16, 1981, or shortly thereafter. Accordingly, the special conditions are being issued concurrent with the status report. In this connection it should be noted that the special conditions are substantially the same as those issued by the FAA for previous Learjet models, and service experience has shown that they adequately provide for the novel and unusual design features in the previous Learjet models. It has also been determined that delaying issuance of the amended type certificate would cause unnecessary production delays and impose an undue financial burden and hardship on the applicant and users of the airplanes. Accordingly, the FAA has determined, in accordance with § 553 of the Administrative Procedure Act, that good cause exists for making the special conditions effective in less than 30 days.

Interested persons, however, are invited to submit such written data, views, or arguments as they may desire. Communications should identify the regulatory docket number and be submitted in duplicate to the address specified above. A report summarizing

each FAA public contact concerned with the substance of these special conditions will be filed in the Rules Docket.

The Special Conditions

Accordingly, pursuant to the authority delegated to me by the Administrator, the following special conditions are issued to Learjet for the type certification of the Learjet Models 54, 55, and 56 series airplanes under Type Certificate A10CE:

A. *Pressure Vessel Integrity.* 1. The maximum extent of failure and pressure vessel opening that can be demonstrated to comply with paragraph D of these special conditions must be determined. It must be demonstrated by crack propagation and fail-safe testing that a larger opening or a more severe failure than demonstrated will not occur in normal operations.

2. Inspection schedules and procedures must be established to assure that cracks and normal fuselage leak rates will not progress or that the pressurization system capability will not deteriorate to the extent that an unsafe condition could exist during normal operation.

3. The pressure vessel structure, including doors and windows, must comply with § 25.365(d) using a factor of 1.67 in lieu of the 1.33 factor prescribed therein.

4. In addition to the requirements of § 25.571, the loads prescribed in § 25.571(c) and this paragraph must be multiplied by a factor of 1.15 unless the dynamic effects of failure under static load are otherwise considered. In addition, the following apply as ultimate loading conditions:

(a) The normal operating pressures combined with the expected external aerodynamic pressures must be applied simultaneously with the flight loading conditions specified in § 25.571(c); and

(b) The combined pressures set forth in subparagraph (a) of this paragraph multiplied by a factor of 1.67 must be applied to the pressurized cabin without any other load.

B. *Ventilation.* In lieu of the requirements of § 25.831(a), the following applies: The ventilation system must be designed to provide a sufficient amount of uncontaminated air to enable the crewmembers to perform their duties without undue discomfort or fatigue and to provide reasonable passenger comfort during normal operating conditions and in the event of any minor failure of any system on the airplane which would adversely affect the cabin ventilating air. For normal operations, crewmembers and passengers must be provided with at least 10 cubic feet of fresh air per minute per person, or the equivalent in filtered recirculated air, based on the volume and composition at the corresponding cabin pressure altitude of no more than 8,000 feet.

C. *Air Conditioning.* In addition to the requirements of § 25.831 (b) through (e), cabin cooling systems must be designed to meet the following conditions during flight above 15,000 feet MSL:

1. * After any probable failure, the cabin temperature/time history may not exceed the values shown in Figure 1.

2. After any improbable failure, the cabin temperature/time history may not exceed the values shown in Figure 2.

D. *Pressurization.* In addition to the requirements of § 25.841, the following apply:

1. The pressurization system must be capable of maintaining the following relationships between specific failure and cabin altitude/time histories for operations above 45,000 feet:

(a) The cabin altitude/time history may not exceed that shown in Figure 3* after each of the following:

(1) Any probable double failure in the pressurization system.

(2) Any single failure in the pressurization system combined with the occurrence of a leak produced by a complete loss of a door seal element or a fuselage leak through an opening having an effective area 2.0 times the effective area which produces the maximum permissible fuselage leak rate approved for normal operation, whichever produces a more severe leak.

(b) The cabin altitude/time history may not exceed that shown in Figure 4* after each of the following:

(1) The maximum pressure vessel opening resulting from crack propagation for a period encompassing two normal inspection intervals. The initial crack must be at least one-half the local panel width in length. Mid-panel cracks and cracks through skin/stringer and skin/frame combinations must be considered.

(2) The pressure vessel opening resulting from probable damage, while under maximum operating cabin pressure differential due to a tire burst, engine rotor burst, loss of antennas, or stall warning vanes, or any probable equipment failure.

(3) Complete loss of thrust from all engines.

2. In showing compliance with paragraph 1 of this special condition, it may be assumed that an emergency descent is made in accordance with an approved emergency procedure. In showing compliance with paragraph 1(b) of this special condition, a 17-second crew recognition and reaction time must be applied between cabin altitude warning and the initiation of an emergency descent.

E. *Oxygen Equipment and Supply.* In addition to the requirements of § 25.1441(d), the following apply:

1. A quick-donning oxygen mask system with a pressure-demand, mask mounted regulator must be provided for the flightcrew. It must be shown that each quick-donning mask can, with one hand and within 5 seconds, be placed on the face from its ready position, properly secured, sealed, and supplying oxygen upon demand.

2. A continuous-flow oxygen system must be provided for the passengers.

F. *Operation without Normal Electrical Power.* In addition to the requirements of §§ 25.1309 and 25.1351, it must be shown by analysis, test, or both, that the airplane can be operated safely in VFR conditions, for a period of not less than 5 minutes, with the normal electrical power (electrical power sources, excluding the battery) inoperative, with critical type fuel (From the standpoint of flameout and restart capability) and with the airplane initially at the maximum certificated altitude. Parts of the electical system may remain on if—

1. A single malfunction, including a wire bundled or junction box fire, cannot result in loss of the part turned off and the part turned on;

2. The parts turned on are electrically and mechanically isolated from the parts turned off; and

3. The electrical wire and cable insulation, and other materials, of the parts turned on are self-extinguishing when tested in accordance with § 25.1359(d).

G. *Stability Augmentation and Automatic and Power-Operated Systems.* In lieu of the requirements of § 25.672, as amended by Amendment 25–23, if the functioning of stability augmentation or other automatic or power-operated systems is necessary to show compliance with the flight characteristics requirements of Part 25, such systems must comply with the following:

1. A warning which is clearly distinguishable to the pilot under expected flight conditions without requiring the pilot's attention must be provided for any failure in the stability augmentation system or in any other automatic or power-operated system which could result in an unsafe condition if the pilot were not aware of the failure. Warning systems must not activate the control systems.

---

* Filed with original document.

2. The design of the stability augmentation system or of any other automatic or power-operated system must allow initial counteraction of failures without requiring exceptional pilot skill or strength, either by the deactivation of the system or a failed portion thereof or by overriding the failure by movement of the flight controls in the normal sense.

3. It must be shown after any single failure of the stability augmentation system or any other automatic or power-operated system that:

(a) The airplane is safely controllable when the failure or malfunction occurs at any speed or altitude within the approved operating limitations that is critical for the type of failure begin considered;

(b) The controllability and maneuverability requirements of part 25 are met within a practical operational flight envelope (for example speed, altitude, normal acceleration, and airplane configurations) which is described in the Airplane Flight Manual; and

(c) The trim, stability, and stall characteristics are not impaired below a level needed to permit continued safe flight and landing.

H. *Environmental Testing.* An investigation shall be made in turbulence to determine the airplane's dynamic response with the primary considerations for controllability and the pilot's physiological reactions which may affect the pilot's ability to see and use the flight instruments. This evaluation shall be conducted with the yaw damper both operative and inoperative.

(Secs. 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423), and Section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.28 and 11.29(b))

Note.—This action is not a regulation under Executive Order 12291 or the President's Memorandum of January 29, 1981.

Issued in Washington, D.C., on March 6, 1981.

M. C. Beard,

Director of Airworthiness.

[FR Doc. 81-7989 Filed 3-9-81; 8:45 am]
BILLING CODE 4910-13-M

Federal Highway Administration

Environmental Impact Statement; Salt Lake County, Utah

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice of intent.

SUMMARY: The FHWA is issuing this notice to advise the public that an environmental impact statement will be prepared for a proposed highway project in Salt Lake County, Utah.

FOR FURTHER INFORMATION CONTACT: William R. Gedris, Environmental Coordinator, Federal Highway Administration, 125 South State Street, P.O. Box 11563, Salt Lake City, Utah 84147, Telephone: (801) 524-5161, FTS Number 588-5161. Also, Lester Abbey, Environmental Engineer, Utah Department of Transportation, 408 State Office Building, Salt Lake City, Utah 84114, Telephone: (801) 533-5224 or (801) 533-5228.

SUPPLEMENTARY INFORMATION: The FHWA, in cooperation with the Utah Department of Transportation, will prepare an environmental impact statement (EIS) on a proposal to construct a new, limited access, multi-lane, divided highway in west Salt Lake Valley. More specifically, the north/south direction highway would be located in the vicinity of 3800 West and would extend from 9000 South in West Jordan northward through West Valley City to 2100 South Street, a distance of 10 miles. The proposed action is considered necessary to provide for the existing and projected traffic demand in a fast-growing community.

Alternatives under consideration include (1) Taking no action; (2) Transportation System Management to consist of widening and/or making other improvements to existing intersections and streets within the corridor. Incorporated into (and studied with) the "build" alternatives will be alternate design variations.

The Scoping Process will begin with personal visits to appropriate Federal, State, and local agency officials in order to describe the proposed action, to solicit preliminary comments, and to invite written comments addressing project development. Where personal visits for scoping are not feasible, letters or telephone calls will be made to appropriate officials. Comments will be solicited from private organizations and citizen groups who are affected by or express interest in this proposal. Public meetings will be held to involve officials, groups, and individuals in working out feasible solutions to environmental, social, economic, and design problems. In addition, after completion of the draft EIS, a public hearing will be held. Public notices will be given of the time and place of the scheduled meetings and hearing. The draft EIS will be available for public and agency review and comment. No formal scoping meeting is planned.

To ensure that the full range of issues related to this proposed action are addressed and all significant issues identified, comments and suggestions are invited from all interested parties. Comments or questions concerning this proposed action and the EIS should be directed to the FHWA or UDOT at the addresses provided above.

Catalog of Federal Domestic Assistance Program Number 20.205, Highway Research, Planning and Construction. The provisions of OMB Circular No. A-95 regarding State and local clearinghouse review of Federal and Federally assisted programs and projects apply to this program.

Issued on: March 4, 1981.

George W. Bohn,

Division Administrator, Salt Lake City, Utah.

[FR Doc. 81-7934 Filed 3-11-81; 8:45 am]
BILLING CODE 4910-22-M

Environmental Impact Statement; Boise, Ada County, Idaho

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice of intent.

SUMMARY: The FHWA is issuing this notice to advise the public that an Environmental Impact Statement will be prepared for a proposed highway project in Boise, Ada County, Idaho.

FOR FURTHER INFORMATION CONTACT: Barry F. Morehead, Assistant Division Administrator, Federal Highway Administration, Boise, Idaho 83707, Telephone: (208) 334-1690.

SUPPLEMENTARY INFORMATION: The FHWA in cooperation with the Idaho Transportation Department and Ada County Highway District will prepare an Environmental Impact Statement on a proposal to construct a river crossing in the City of Boise. The proposed action intends to provide increased accessibility between those areas of Boise separated by the Boise River.

Alternatives under consideration include the No Major Action, and four Construction Alternatives. Three of the Construction Alternatives include a new river crossing. The longest Alternative would be less than 1.5 miles in length.

Information describing the proposed action has been made available to appropriate agencies and the public through contacts and public meetings and workshops. A public hearing will be held after completion of the draft Environmental Impact Statement. No additional formal scoping meetings are planned.

Comments or questions concerning this proposed action on the EIS should be directed to the FHWA at the address provided above.

Catalog of Federal Domestic Assistance Program Number 20.205, Highway Research, Planning and Construction. The provisions of OMB Circular No. A-95 regarding state and local clearinghouse review of federal and federally assisted programs and projects apply to this program.

BILLING CODE 4910-22-M

National Highway Traffic Safety Administration

[Docket No. IP81-7; Notice 1]

Firestone Tire & Rubber Co.; Receipt of Petition for Determination of Inconsequential Noncompliance

The Firestone Tire & Rubber Co. of Akron, Ohio, has petitioned to be exempted from the notification and remedy requirements of the National Traffic and Motor Vehicle Safety Act (15 U.S.C. 1381 et seq.) for a noncompliance with 49 CFR 571.109, Motor Vehicle Safety Standard No. 109, *New Pneumatic Tires—Passenger Cars*. The basis of the petition is that the noncompliance is inconsequential as it relates to motor vehicle safety.

This notice of receipt of a petition for a determination of inconsequentiality is published in accordance with section 157 of the National Traffic and Motor Vehicle Safety Act (15 U.S.C. 1417), and does not represent any agency decision or other exercise of judgment concerning the merits of the petition.

Paragraphs S4.3 (b) and (c) of Standard No. 109 require that the sidewalls of each passenger car tire be labeled with the maximum permissible inflation pressure and maximum load rating. Firestone has manufactured an unknown number of P195/75R14 Deluxe Champion Radial polyester fiberglass tires incorrectly marked on the serial, or blackwall side, as "MAX. LOAD 635 kg (1400 lbs.) AT 240 kPa (35 P.S.I.) MAX. LOAD." However, the white sidewall side is correctly marked with the words "MAX. LOAD 635 kg (1400 lbs.) AT 240 kPa (35 P.S.I.) MAX. PRESS." Firestone argues that the noncompliance is inconsequential because the white sidewall side is usually the side mounted outboard to the vehicle, the letters P.S.I. clearly refer to inflation pressure precluding confusion, and the sequencing of the words in the label virtually eliminates the possibility of misinterpreting the stamping.

Interested persons are invited to submit written data, views and arguments on the petition of Firestone Tire & Rubber Co. described above. Comments should refer to the docket number and be submitted to: Docket Section, National Highway Traffic Safety Administration, Room 5109, 400 Seventh Street, S.W., Washington, D.C. 20590. It is requested but not required that five copies be submitted.

All comments received before the close of business on the comment closing date indicated below will be considered. The application and supporting materials, and all comments received after the closing date will also be filed and will be considered to the extent possible. When the petition is granted or denied, notice will be published in the Federal Register pursuant to the authority indicated below.

The engineer and attorney primarily responsible for this notice are Art Neill and Taylor Vinson, respectively.

Comment closing date: April 13, 1981.

(Sec. 102, Pub. L. 93-492, 99 Stat. 1470 (15 U.S.C. 1417); delegations of authority at 49 CFR 1.50 and 49 CFR 501.8)

Issued on: March 4, 1981.

Michael M. Finkelstein,

Associate Administrator for Rulemaking.

DEPARTMENT OF THE TREASURY

Office of the Secretary

Deadline on Comments on Foreign Exchange

The Treasury Department announced that May 31, 1981 is the deadline for comments on the foreign exchange discussion draft issued on December 8, 1980. Treasury solicited public comments when the discussion draft, which presents a system for taxing foreign exchange gains and losses, was issued.

Persons wishing to submit comments should address them to Joel Rabinovitz, Deputy International Tax Counsel, U.S. Treasury Department, Washington, D.C. 20220.

Dated: March 9, 1981.

Emil M. Sunley,

Acting Assistant Secretary (Tax Policy).

BILLING CODE 4810-25-M

VETERANS ADMINISTRATION

200-Bed Domiciliary; Veterans Administration Medical Center, Hampton, Virginia; Finding of No Significant Impact

The Veterans Administration (VA) has assessed the potential environmental impact that may occur as a result of the construction of a 200-Bed Domiciliary at the Veterans Administration Medical Center (VAMC) Hampton, Virginia.

The proposed action provides for new construction of a five unit, single level structure. The new building will provide approximately 57,251 total net square feet of space. The planned site of the building is in proximity to VAMC support services, bus stops and community facilities. When the new building is ready for occupancy, existing domiciliary space will be vacated and converted to educational facilites for medical and paramedical personnel.

Temporary construction related impacts, which will exist through project completion, include noise, dust, fumes and visual impacts. The environmental impacts will be minimal.

The project will comply with all Federal, State and local codes as well as the VA regulations on environmental protection (38 CFR Part 26). Mitigating actions will be implemented as they apply to specific project impacts identified.

This Environmental Assessment has been performed in accordance with the requirements of the National Environmental Policy Act Regulations, §§ 1501.3 and 1508.9, Title 40, Code of Federal Regulations. A "Finding of No Significant Impact" has been reached based on the information presented in this assessment.

The assessment is being placed for public examination at the Veterans Administration, Washington, DC. Persons wishing to examine a copy of the document may do so at the following office: Mr. Willard Sitler, P.E., Director, Office of Environmental Affairs (003A), Room 950, Veterans Administration, 1425 K Street, NW, Washington, DC 20420, (202) 389-2526). Questions or requests for single copies of the Environmental Assessment may be addressed to: Director, Environmental Affairs Office (003A), 810 Vermont Avenue, NW, Washington, DC, 20420.

Dated: March 6, 1981.

By direction of the Acting Administrator.

Maury S. Cralle, Jr.,

Associate Deputy Administrator.

BILLING CODE 8320-01-M

POSTAL SERVICE

Notice of Changes in Certain Postal Rates, Fees and Mail Classifications; Effective Date

On April 21, 1980, the Postal Service requested the Postal Rate Commission to submit to the Governors of the Postal Service a recommended decision on changes in rates of postage and fees for postal services and changes in the mail classification schedule. An explanation of the Postal Service proposal was published in the **Federal Register** by the Postal Rate Commission on April 29, 1980 (45 FR 28552).

On February 19, 1981, as amended on February 27, 1981 and March 6, 1981, the Postal Rate Commission transmitted to the Governors of the Postal Service its recommended decision in which it recommended changes in permanent rates of domestic postage and fees for domestic postal services and changes in mail classifications. On March 10, 1981 the Governors allowed the Commission's recommended decision, except as noted below, to take effect under protest, and returned the Recommended Decision to the Commission for reconsideration and a further recommended decision, pursuant to Title 39, United States Code, Section 3625(c)(2).

The following provisions or parts of provisions of Schedule F (Recommended Changes in the Domestic Mail Classification Schedule) of Appendix One of the Recommended Decision of the Postal Rate Commission dated February 19, 1981, were not adopted by the Governors:

100.042 a. i., 100.042 a. ii., 200.0202, 200.021, 200.0218, 200.046, 200.047, 200.093 (part), 400.01 e., 400.0203.

Furthermore, the Governors rejected the Commission's recommended classification change dividing third-class bulk mail into light-weight and heavy-weight categories, and returned it to the Commission for further consideration. The Commission did not include an alternative rate schedule for bulk third-class mail to provide for rate changes in the event the classification change was not adopted. The Governors stated that the "Commission does not have authority to negate the classification review authority provided to the Governors in this manner by including a classification recommendation within a rate case and recommending only one set of rates that are coupled with the change." The Governors thus found that the Commission has not made a rate recommendation for bulk third-class mail within the statutory ten-month period. Consequently, and pursuant to the authority of 39 U.S.C. Section 3641, the Board of Governors decided to place into effect on a temporary basis the third-class bulk rates which appear at Appendix Three.

In addition, the recommendation to include ZIP–Code numbers identifying Bulk Mail service areas, as reflected in section 400.0204 of Schedule F, Appendix One of the Commission's Recommended Decision, was not adopted since the Governors found it to be clearly beyond the proper scope of the Domestic Mail Classification Schedule.

The Governors took no action with regard to the rates recommended by the Commission for expedited second-class, or red-tag, mail. The Governors stated that the August 15, 1980, Decision of the Board of Governors in Docket No. MC79–3 had fixed the effective date for the Domestic Mail Classification Schedule changes establishing a separate subclass for red-tag mail at June 1, 1981. Therefore, at this time there does not exist the subclass that must be a precondition to application of the rates recommended by the Commission for expedited, or red-tag, second-class mail.

The Board of Governors determined the effective date of the changes ordered placed into effect by the Governors under protest and the temporary rates for bulk third-class mail. (The Governors' decision, the record of the Commission's hearings, and the Commission's recommended decision may be purchased from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. The Governors' decision and the Commission's recommended decision are available for inspection in the Library at Headquarters, United States Postal Service, 475 L'Enfant Plaza West, S.W., Washington, D.C. 20260.)

In accordance with action by the Governors and the Board of Governors, the Postal Service hereby gives notice that the rates, fees, and classification changes listed below become effective as of 12:01 A.M. on March 22, 1981.

In accordance with 39 U.S.C. § 3626, separate rate schedules for the classes of mail and kinds of mailers identified in section 3626 were adopted as set forth in Schedules 1 through 6 of Appendix Two, and the rates becoming effective on March 22, 1981 are those set forth in the "Year 9" column under the heading of "Phased Rates."

(39 U.S.C. 101(d), 401, 403, 404, 407, 3621, 3625, 3626, 3641)

W. Allen Sanders,

Associate General Counsel, Office of General Law and Administration.

BILLING CODE 7710-12-M

RATES AND FEES AND CHANGES IN DOMESTIC MAIL CLASSIFICATION SCHEDULE

Appendix One

SCHEDULE A-1
First Class and Business Reply

Mail Type	Postage Rate Unit	RATE		
		Regular (cents)	Presorted 1/ (cents) 5-digit	Presorted 1/ (cents) carrier route
First Class:				
Letters	First Ounce	18	15	14
	Each additional ounce	17 2/	17	17
Cards	Piece	12	11	10
Business Reply 3/	With advance deposit account	5		
	Without advance deposit account	18		
Nonstandard Surcharge 4/		9		

1/ Presorted first-class mail must be presented in a single mailing of 500 or more pieces properly prepared and presorted. The higher presort rate applies only to each piece of a group of ten or more pieces destined for the same five-digit ZIP Code or each piece of a group of fifty or more pieces destinted for the same three-digit ZIP Code. The lower presort rate applies only to mail presorted to carrier route, with a minimum of 10 pieces per route. A mailing fee of $40 must be paid once each calendar year at each office of mailing by any person who mails presorted first-class mail.

2/ Rate applies through 12 ounces. Heavier pieces are subject to priority mail rates.

3/ Rates are applied on a per-piece basis in addition to regular postage. A fee of $40 must be paid once each calendar year for each business-reply permit. An accounting charge must be paid once each calendar year for each business-reply advance deposit account.

4/ Applies to the first ounce only.

Per change of address	$0.13

APPENDIX ONE

The following changes in the Domestic Mail Classification Schedule are made in accordance with the action of the Governors:

1. Amend section 100.10 to read as follows:

   100.10 AUTHORIZATION AND LICENSES

   100.100 A presorted mailing fee as set forth in Rate Schedule 1000 must be paid once each calendar year at each office of mailing by any person who mails presorted mail.

2. Amend section 200.010 to read as follows:

   200.010 Second-class mail is mailable matter consisting of newspapers and other periodical publications which meet the qualifications listed in sections 200.0101 through 200.0109 or 200.0110.

3. Amend section 200.0105 to read as follows:

   200.0105 Second-class matter must have a legitimate list of persons who have subscribed by paying or promising to pay at a rate above nominal for copies to be received during a stated time, with such exception, as enumerated in section 200.0110.

4. Add new section 200.0110 to read as follows:

   200.0110 Notwithstanding section 200.0101 through 200.0109, publications which meet all the following criteria are second-class mailable matter.

   a. Must contain at least 24 pages;

   b. Must be issued at regular intervals at least four times a year;

   c. Must not be owned or controlled by one or more individuals or business concerns and conducted as an auxiliary to and essentially for the advancement of the main business or calling of those who own or control them;

   d. Must devote at least 25 percent of their pages to nonadvertising and not more than 75 percent to advertisements;

e. May be circulated free or mainly free;

f. Must have a legitimate list of persons who request the publication; 50 percent or more of the copies of the publication must be distributed to persons making such requests. Subscription copies paid for or promised to be paid for including those at or below a nominal rate may be included in the determination of whether the 50 percent request requirement is met. Persons will not be deemed to have requested the publication if their request is induced by a premium offer or by receipt of material consideration, provided that mere receipt of the publication is not material consideration. This subsection will not be effective prior to March 20, 1982;

g. Must have a known office of publication. A known office of publication is a public office where business of the publication is transacted during the usual business hours. The office must be maintained where the publication is authorized original second-class entry.

5. Amend section 200.012 to read as follows:

200.012 Publications designed primarily for advertising purposes, free circulation, or circulation at nominal rates (see 200.0105) do not qualify for second-class privileges. This section and its subsections shall not apply to publications qualifying for second-class privileges under § 200.0110.

6. Amend section 200.0122 to read as follows:

200.0122 Designed primarily for free circulation is defined as distribution of 50 percent or more of the copies of a publication for free or at a nominal rate. Copies mailed to persons who are not on a legitimate list of subscribers as set forth in sections 200.0105 and 200.0110 are free copies.

7. Amend section 200.0201 to read as follows:

200.0201 Regular

Regular second-class mail is all second-class mail except that to which sections 200.021 and 200.022 apply.

a) Regular second-class may be mailed only by publishers or registered news agents.

b) Nonsubscriber and nonrequester copies mailed at any time during the calendar year up to 10 percent of the total weight of copies mailed to subscribers and requesters during the calendar year are regular second-class mail provided that the nonsubscriber and nonrequester copies would have been regular second-class mail if mailed to subscribers or requesters. See Section 200.093 for mailings in excess of the 10 percent limitation.

8. Amend section 200.021 to read as follows:

200.021 Preferred

The preferred subclasses, except Science of Agriculture publications, will receive newspaper treatment under the eligibility conditions established by the Postal Service.

9. Amend section 200.0211 to read as follows:

200.0211 Within County

Within-county mail is second-class mail, other than matter mailed under section 200.0110, mailed in, and addressed for, delivery within the county where published and originally entered, from either the office of original entry or additional entry.

10. In section 200.0212, add "other than matter mailed under section 200.0110" after "Nonprofit mail is second-class mail."

11. In section 200.0213, add "other than matter mailed under section 200.0110" after "Classroom mail is second-class mail."

12. In section 200.0214, add "other than matter mailed under section 200.0110" after "Science of agriculture is second-class mail."

13. In section 200.0213, add "or 200.0110" after "200.0213."

14. Amend section 200.0217 to read as follows:

200.0217 Nonsubscriber copies mailed at any time during the calendar year up to 10 percent of the total weight of copies mailed to subscribers during the calendar year are preferred mail, provided that the nonsubscriber copies would have been preferred mail if mailed to subscribers. See Section 200.093 for mailings in excess of the 10 percent limitation.

15. Amend section 200.022b to read as follows:

b. mailed by publishers, not as a part of a commingled presorted mailing of subscriber or requester copies, to persons who may not be included in the legitimate list of persons as set forth in section 200.0105 or in section 200.0110, respectively;

16. Delete section 200.0221.

17. Amend section 200.044 to read as follows:

200.044 Nonsubscriber and nonrequester copies must be identified as required by the Postal Service.

18. In section 200.092, add "and requester" after "rates that apply to subscriber."

19. Amend section 200.093 to read as follows:

200.093 Nonsubscriber and nonrequester copies of any second-class mail mailed at any time during the calendar year, in excess of 10 percent of the total weight of copies mailed to subscribers and requesters during the calendar year which are presorted and commingled with subscriber or requester copies are charged the full rates for regular second-class shown in Rate Schedule 200. The 10 percent limitation for publication shall be determined on the combined total weight of all copies of that publication mailed to subscribers and requesters during the calendar year, subject to section 200.0217.

APPENDIX ONE

20. Delete section 200.094.

21. Delete Classification Schedule 250.

22. In section 300.010, delete subsection "c" and reidentify subsection "d" as new subsection "c".

23. Add new section 300.023 to read as follows:

300.023 Bulk Rate Presort Categories

Bulk rate mail sent under section 300.021 must meet the conditions of sections 300.0231 or 300.0232 to be eligible for the applicable presort level rate.

300.0230 Required Sortation

Mailers must sort third-class bulk mail as prescribed by the Postal Service. The basic sortation, other than the two described below, pays the "Required Presortation" rate in Rate Schedules 301 and 302.

300.0231 Five Digit Presort Level

Five-digit presort level mailings must contain at least 200 pieces or 50 pounds of five-digit presorted mail prepared in accordance with USPS regulations so as to avoid handling of individual pieces or packages until they reach the five-digit ZIP Code delivery unit.

300.0232 Carrier Route Presort Level

Carrier route presort level mailings must contain at least 200 pieces or 50 pounds of carrier route presorted mail, with at least 10 pieces to each carrier route. The mail must be properly prepared in the manner prescribed by the Postal Service.

24. Amend section 300.030 to read as follows:

300.030

a. There is no maximum size for single-piece third-class mail.

b. Except as provided in section 300.030c, the maximum size for mail qualifying for the carrier route presort level is 13.50 inches in length, 11.50 inches in width, and .75 inches in thickness.

UNT - 8 2 - 1 R M 8 4 / 6 4 V

c. Merchandise samples with detached labels may be sent at the carrier route presort rate even though their dimensions may exceed the prescribed maxima, if they meet all other requirements of the carrier route presort level and the detached labels do not exceed those dimensions.

d. For bulk mail not presorted to the carrier route level, there is no size limitation.

25. In section 300.031, change "two ounces" to "one ounce."

26. Amend section 300.090 to read as follows:

300.090 The rates for third-class mail are set forth as follows:

	Rate Schedule
a. Single piece	300
b. Bulk regular	301
c. Bulk nonprofit	302
d. Keys and identification devices	303
e. Fees	1000

27. Add new section 400.0203 to read as follows:

400.0203 Intra-BMC Parcel Post Mail

Parcel post mail is eligible for the intra-BMC rate described in rate schedules 400 and 401 if it originates and destinates in the same BMC or ASF service area, Alaska, Hawaii or Puerto Rico.

28. Amend section 400.0212 to read as follows:

400.0212 Special Mail Presort Categories

Special rate mail sent under section 400.021 must meet the conditions of sections 400.0213 or 400.0214 to be eligible for the applicable presort level rate. Provisions for mailing nonidentical pieces are set forth in section 400.046.

29. Add new section 400.0213 to read as follows:

400.0213 Level A Presort

Level A presort mailings must contain at least 500 pieces of identical weight presorted to 5-digit destination ZIP codes. The mail must be properly prepared in a manner prescribed by the Postal Service.

30. Add new section 400.0214 to read as follows:

400.0214 Level B Presort

Level B presort mailings must contain at least 500 pieces of identical weight presorted to destination Bulk Mail Centers. The mail must be properly prepared in a manner prescribed by the Postal Service.

31. In section 500.082 add a new zone designation of "1 & 2" with a "Greater Than" mileage number of "0" and an "Up to and Including" mileage number of "150". Amend the "Greater Than" mileage number for zone 3 to read "150".

32. Add new section 500.090 to read as follows:

500.090 The following services may be obtained in conjunction with mail sent under this classification schedule upon payment of applicable fees:

	Classification Schedule
a Return Receipt:	SS-14

33. In section 8.020, change "$400" to "$500."

34. In sections 9.023 and 9.024, change "$15" to "$20."

35. In sections 9.050b and c, change "$15" to "$20."

36. In sections 13.070c and d, change "$15" to "$20."

37. In section 14.010, add "optional" before "indemnity."

38. In section 14.021, add "optional" before "insurance."

18424 Federal Register / Vol. 46, No. 48 / Thursday, March 12, 1981 / Notices

PHASED RATES

Appendix Two

39. In section 14.025, add "of insured articles" after "complete loss" and after "partial loss."

40. In section 14.026, add "on which optional insurance has been elected" after "registered mail."

41. In section 14.070, add "and related optional indemnity purchase" after "fees for registered mail."

42. In section 15.020c, change "$15" to "$20."

43. In section 16.020c, change "$15" to "$20."

44. In section 16.0212, add "after mailing" after "return receipt service."

5

FEDERAL DEPOSIT INSURANCE CORPORATION.

Notice of Change in Subject Matter of Agency Meeting

Pursuant to the provisions of subsection (e)(2) of the "Government in the Sunshine Act" (5 U.S.C. 552b(e)(2)), notice is hereby given that at its open meeting held at 2:00 p.m. on Monday, March 9, 1981, the Corporation's Board of Directors determined, on motion of Chairman Irvine H. Sprague, seconded by Director William M. Isaac (Appointive), concurred in by Director John G. Heimann (Comptroller of the Currency), that Corporation business required the addition to the agenda for consideration at the meeting, on less than seven days' notice to the public, of a memorandum proposing that the Corporation conduct an accrual accounting survey of banks with assets of less than $25 million.

The Board further determined, by the same majority vote, that no earlier notice of the change in the subject matter of the meeting was practicable.

Dated: March 9, 1981.

Federal Deposit Insurance Corporation.
Hoyle L. Robinson,
Executive Secretary.

FEDERAL RESERVE SYSTEM.

Board of Governors

TIME AND DATE: 10 a.m., Wednesday, March 18, 1981.

PLACE: Board Building, C Street entrance between 20th and 21st Streets NW., Washington, D.C. 20551.

STATUS: Open.

MATTERS TO BE CONSIDERED: *Summary Agenda:*

Because of their routine nature, no substantive discussion of the following items is anticipated. These matters will be resolved with a single vote unless a member of the Board requests that an item be moved to the discussion agenda.

1. Proposal to continue revised Senior Loan Officer Opinion Survey (FR 2018).

2. Proposal to conduct accrual accounting survey of selected commercial banks.

Discussion Agenda:

3. Proposals to revise Regulation Z (Truth in Lending) in connection with the passage of the Truth in Lending Simplification and Reform Act. (Proposed earlier for public comment; Docket No. R-0288)

4. Proposal to establish alternate-year examination programs with State Banking Departments.

5. Any items carried forward from a previously announced meeting.

Note.—This meeting will be recorded for the benefit of those unable to attend. Cassettes will be available for listening in the Board's Freedom of Information Office, and copies may be ordered for $5 per cassette by calling (202) 452-3684 or by writing to: Freedom of Information Office, Board of Governors of the Federal Reserve System, Washington, D.C. 20551.

15

SECURITIES EXCHANGE COMMISSION.

Notice is hereby given, pursuant to the provisions of the Government in the Sunshine Act, Pub. L. 94–409, that the Securities and Exchange Commission will hold the following meetings during the week of March 16, 1981, in Room 825, 500 North Capitol Street, Washington, D.C.

Closed meetings will be held on Tuesday, March 17, 1981, at 10:00 a.m. and at 2:30 p.m. An open meeting will be held on Wednesday, March 18, 1981, at 10:00 a.m.

The Commissioners, their legal assistants, the Secretary of the Commission, and recording secretaries will attend the closed meetings. Certain staff members who are responsible for the calendared matters may be present.

The General Counsel of the Commission, or his designee, has certified that, in his opinion, the items to be considered at the closed meetings may be considered pursuant to one or more of the exemptions set forth in 5 U.S.C. 552b(c)(4), (8), (9)(A) and (10) and 17 CFR 200.402(a)(4), (8), (9)(i) and (10).

Commissioners Loomis, Evans, Friedman, and Thomas determined to hold the aforesaid meeting in closed session.

The subject matter of the closed meeting scheduled for Tuesday, March 17, 1981, at 10:00 a.m., will be:

Litigation matter.
Freedom of Information Act appeals.
Settlement of injunctive actions.
Institution of injunctive actions.
Report of investigation.

The subject matter of the closed meeting scheduled for Tuesday, March 17, 1981, at 2:30 p.m., will be:

Administrative proceeding of an enforcement nature.
Opinion.

The subject matter of the open meeting scheduled for Wednesday, March 18, 1981, at 10:00 a.m., will be:

1. Consideration of whether to issue an interpretative release concerning Rule 70 under the Public Utility Holding Company Act of 1935, which rule concerns exemptions from the prohibition of officers and directors of banks or investment bankers from serving as officers or directors of registered holding companies or their subsidiaries. The proposed release clarifies the interpretation of the rule in light of recent changes in banking laws and of a recent decision by the Federal Reserve Board that banks may underwrite third party commercial paper. For further information, please contact Aaron Levy at (202) 523–5691.

2. Consideration of whether to adopt proposed Rule 45(c), and the rescission of Rule 45(b)(6), under the Public Utility Holding Company Act of 1935, which rules concern the filing of consolidated tax returns by associate companies of a registered holding company system. For further information, please contact Grant G. Guthrie at (202) 523–5156.

3. Consideration of whether to approve a plan filed with the Securities and Exchange Commission by the Options Price Reporting Authority under Section 11A(a)(3)(B) of the Securities Exchange Act of 1934 which, if adopted, would authorize participants in the plan to act jointly in developing, operating, and regulating a national market system facility for the collection and dissemination of consolidated options last sale reports and quotation information. For further information, please contact Steven L. Parker at (202) 272–2405.

4. Consideration of whether to authorize the transmission of a voluntary survey questionnaire to Form 146 filers. For further information, please contact Hugh R. Haworth at (202) 523–5629.

5. Consideration of whether to release two survey questionnaires: to (1) discount broker-dealers and (2) full-service firms. For further information, please contact Terry M. Chuppe at (202) 523–5624.

6. Consideration of whether to issue a release requesting comments on proposed amendments to Articles 7 and 7A of Regulation S–X. This proposal applies to insurance companies and is a continuation of the Commission's project to integrate disclosures under the Securities Act of 1933 and the Securities Exchange Act of 1934. For further information, please contact Arthur J. Schmeiser at (202) 272–2133.

At times changes in Commission priorities require alterations in the scheduling of meeting items. For further information and to ascertain what, if any, matters have been added, deleted or postponed, please contact: Marcia MacHarg at (202) 272–2468.

March 9, 1981.

Recombinant DNA Research; Actions Under Guidelines

DEPARTMENT OF HEALTH AND HUMAN SERVICES

National Institutes of Health

Recombinant DNA Research; Actions Under Guidelines

AGENCY: National Institutes of Health, PHS, HHS.

ACTION: Notice of actions under NIH Guidelines for Research Involving Recombinant DNA Molecules.

SUMMARY: This notice sets forth actions taken by the Director, NIH, under the 1980 NIH Guidelines for Research Involving Recombinant DNA Molecules (45 FR 77384).

EFFECTIVE DATE: March 11, 1981.

FOR FURTHER INFORMATION CONTACT: Additional information can be obtained from Dr. William J. Gartland, Office of Recombinant DNA Activities (ORDA), National Institutes of Health, Bethesda, Maryland 20205. (301) 496-6051.

SUPPLEMENTARY INFORMATION: I am promulgating today several major actions under the NIH Guidelines for Research Involving Recombinant DNA Molecules. These proposed actions were published for comment in the **Federal Register** of November 28, 1980, and reviewed and recommended for approval by the Recombinant DNA Advisory Committee (RAC) at its meeting on January 8-9, 1981. In accordance with Section IV-E-1-b of the NIH Guidelines, I find that these actions comply with the Guidelines and present no significant risk to health or the environment.

Part I of this announcement provides background information on the actions. Part II provides a summary of the major actions.

I. Decisions on Actions Under Guidelines

I-A. Proposed Containment for Nonpathogens

Dr. Winston Brill, a RAC member, proposed in a letter dated November 14, 1980, that the Guidelines be amended to permit use of nonpathogenic prokaryotes and nonpathogenic lower eukaryotes as donors and recipients in recombinant DNA experiments under P1 containment conditions.

The following language was published in the November 28, 1980 **Federal Register** (45 FR 79386) for thirty days of comment:

A. A new section, III-O-2, would be added to the Guidelines, as follows:

"III-O-2. *Experiments Involving Non-Pathogenic Prokaryotes and Lower Eukaryotes.* Recombinant DNA experiments involving prokaryotes and lower eukaryotes, nonpathogenic [2A] for man, animals, or plants, can be conducted under P1 containment."

B. A new paragraph would be added just before Section III-O begins, as follows:

"When the reader finds that the containment level given for the same experiment is different in two different sections within Part III, he may choose which of the two levels he wishes to use for the experiment."

C. The second paragraph of Section III-B-3 would deleted. Revised Section III-B-3 would read as follows:

"III-B-3. *Non-HV1 Systems.* Containment levels for other classes of experiments involving non-HV1 systems may be approved by the Director, NIH. (See Sections IV-E-1-b-(1)-(b), IV-E-1-b-(2)-(c), and IV-E-1-b-(3)-(b))."

D. Section IV-E-1-b-3-(f) would be deleted. This Section currently reads as follows:

"IV-E-1-b-(2)-(f). Assigning containment levels for experiments in which both donor and recipient are non-pathogenic prokaryotes (see Section III-B-3)."

During the thirty day comment period eight letters supporting this proposal were received. Two additional letters, while supporting the proposal, recommended that containment be set at P2, rather than P1.

The RAC discussed the proposal at the January 8-9, 1981 meeting. Dr. Brill suggested that the proposed Section III-O-2 be modified in two ways: (1) following the word "plants" would be added the words, "and only DNA from such sources,"; and (2) text would be added specifying that the experiments must be reviewed with the local IBC with documentation that the organisms are not known pathogens. (Dr. Brill also initially recommended that containment for these experiments be raised from P1 to P2, but later said he was convinced by the arguments of some RAC members that P1 was appropriate).

During the ensuing discussion RAC members opposed to the motion pointed out that: (1) the proposal covers an enormous variety of organisms, (2) "nonpathogenic" may be defined differently by different IBCs and (3) no restriction is placed on the type of vectors to be used. A substitute motion was advanced by Dr. Gottesman which would provide for an expedited review procedure. Under this proposal, ORDA would review proposals involving nonpathogenic prokaryotes and lower eukaryotes on a case-by-case basis. The RAC, by a vote of six in favor, eight opposed, and two abstentions, denied this substitute motion.

The RAC continued discussion of Dr. Brill's motion. Some RAC members felt the proposal as written placed a burden of interpreting "pathogenicity" on IBCs. Nonetheless, sentiment supporting an expedited type of procedure for dealing with prokaryotic and lower eukaryotic nonpathogens was expressed. By a vote of nine in favor, eight opposed, and three abstentions, the RAC passed Dr. Brill's motion, as it had appeared in the **Federal Register**, with the two changes suggested by Dr. Brill at the meeting.

The substitute proposal which would permit ORDA to lower containment on proposals utilizing nonpathogenic prokaryotes and lower eukaryotes on a case-by-case basis, was again offered by Dr. Gottesman for consideration. The proposal was that, if Dr. Fredrickson should not accept Dr. Brill's proposal, it was the sense of the RAC that it would be preferable to the status quo to at least make two changes: (1) extend the current situation allowing cloning between nonpathogenic prokaryotes at P3 to also include lower eukaryotes; and (2) allow lowering below P3 for individual cases by ORDA rather than requiring RAC review. A motion to table this proposal failed; by a vote of eight in favor, eleven opposed. By a vote of fourteen in favor, one opposed, and three abstentions, the RAC then approved Dr. Gottesman's motion.

In deciding whether to accept the "Brill" motion, recommended by the RAC by a vote of nine in favor, eight opposed, and three abstentions, or the more conservative "Gottesman" motion, recommended by the RAC by a vote of fourteen in favor, one opposed, and three abstentions, I note that already in the Guidelines the following experiments are permitted:

1. Certain experiments with prokaryotes and lower eukaryotes are exempt from the Guidelines, under Sections I-E-3 and I-E-4.

2. Certain experiments with prokaryotes and lower eukaryotes may be done at P1 containment under Guideline Sections III-O, III-B-2 and III-C-6.

3. Certain experiments with prokaryotes and lower eukaryotes may be done at P2 containment under Guideline Sections III-A-1-a-(5) and III-A-1-b.

Dr. Brill's proposal covers an enormous number of organisms, many of which have not been well characterized. "Nonpathogenic" might be interpreted differently by different IBCs. The proposal does not require use of non-conjugative plasmids. For these reasons I am, at present, not accepting the "Brill" motion and instead I am accepting the more conservative "Gottesman" motion.

Accordingly a new section, III-O-2, is added to the Guidelines as follows:

"III-O-2. *Experiments Involving Prokaryotes Nonpathogenic for Man,*

Animals or Plants, and/or Lower Eukaryotes Nonpathogenic for Man, Animals or Plants.

Recombinant DNA experiments involving prokaryotes nonpathogenic for man, animals, or plants, and/or lower eukaryotes nonpathogenic for man, animals or plants, and only DNA from such sources, can be conducted under P3 containment (2A). Lower levels of physical containment may be assigned by ORDA on a case-by-case basis for specific donor-recipient combinations (see Section IV–E–1–b–(3)–(h))."

A new paragraph is added just before Section III–O begins, as follows:

"When the reader finds that the containment level given for the same experiment is different in two different sections within Part III, he may choose whichever of the two levels he wishes to use for the experiment."

The second paragraph of Section III–B–3 is deleted. Revised Section III–B–3 now reads as follows:

"III–B–3. *Non-HV1 Systems.* Containment levels for other classes of experiments involving non-HV1 systems may be approved by the Director, NIH. (See Sections IV–E–1–b–(1)–(b), IV–E–1–b–(2)–(c), and IV–E–1–b–(3)–(b))."

Section IV–E–1–b–(2)–(f) is deleted.

A new section IV–E–1–b–(3)–(h) is added as follows:

"IV–E–1–b–(3)–(h). Assigning containment levels for experiments in which both donor and recipient are nonpathogenic prokaryotes and/or nonpathogenic lower eukaryotes (see Section III–O–2)."

In order to clarify the relationship among Sections III–O, III–O–1, and III–O–2, the final sentence in the second paragraph under Part III is amended to read as follows:

"Prior IBC review is required for all other experiments described in the subsections of Part III, including III–O–1, III–O–2, etc."

I–B. Request for Approval of Schizosaccharomyces Pombe for Recombinant DNA Experiments

Dr. Benjamin D. Hall of the University of Washington, in letters dated November 3, 1980, and December 5, 1980, requested that the fission yeast, *Schizosaccharomyces pombe*, together with the *S. cerevisiae/E. coli* hybrid recombinant plasmids, be certified as an HV1 host-vector system. Dr. Hall further requested that this system be included under Section III–O of the Guidelines. In his submission, Dr. Hall noted that *Schizosaccharomyces pombe* is not a pathogen, it survives poorly outside of a controlled laboratory environment, it is rare in nature, and genetic exchange in the *Ascomycetes* occurs only with closely related organisms.

Dr. Hall's request was published in the November 28, 1980 Federal Register (45 FR 79387). No comments were received during the thirty day comment period.

The RAC, in discussing the proposal at the January 8–9, 1981 meeting, noted that specifications for HV1 certification have been defined in Section II–D–2–b of the Guidelines. It was suggested that only certain experiments be approved without certifying *S. pombe* as a general HV1 host-vector system. The RAC, therefore, recommended by a vote of fourteen in favor, one opposed and four abstentions, that DNA from non-pathogenic prokaryotes and lower eukaryotes may be cloned into *Schizosaccharomyces pombe* species under P1 containment conditions. It further recommended by a vote of fourteen in favor, none opposed and five abstentions, that DNA from higher eukaryotes may be cloned in *S. pombe* species under P3 containment conditions.

I accept these recommendations. Item 18 in Appendix E of the Guidelines is amended to read as follows:

"18. DNA from nonpathogenic prokaryotes and nonpathogenic lower eukaryotes may be cloned into *Schizosaccharomyces pombe* species under P1 containment conditions. DNA from higher eukaryotes may be cloned in *S. pombe* species under P3 containment conditions."

I–C. Request To Include Streptococcus Faecalis and Streptococcus Sanguis in Appendix A.

Dr. Donald Clewell of the University of Michigan requested in letters dated August 13, 1980 and September 10, 1980, that *Streptococcus faecalis* be included along with *Streptococcus sanguis* in a sublist of Appendix A. Recombinant DNA molecules composed entirely of DNA segments from organisms within each sublist of Appendix A are exempt from the Guidelines under Section I–E–4, which exempts "Certain specified recombinant DNA molecules that consist entirely of DNA segments from different species that exchange DNA by known physiological processes. . . ." In support of his request, Dr. Clewell submitted data indicating that exchange of genetic information between the two species occurs by natural physiological processes.

A Federal Register announcement of Dr. Clewell's request appeared on November 28, 1980 (45 FR 79386). No comments were received during the thirty day comment period.

The RAC discussed Dr. Clewell's proposal at the January 8–9, 1981 meeting. The RAC was satisfied that the data demonstrated two-way plasmid transfer. By a vote of twelve in favor, two opposed and five abstentions, the RAC recommended that the request be approved, and that *Streptococcus faecalis* be added to sublist F of Appendix A.

I accept this recommendation, and Appendix A, Sublist F has been amended to read as follows:

"*Sublist F*

1. *Streptococcus sanguis*
2. *Streptococcus pneumoniae*
3. *Streptococcus faecalis*"

I–D. Request To Clone Saccharomyces Cerevisiae DNA in Tetrahymena Thermophilia

Dr. Eduardo Orias of the University of California, Santa Barbara in a letter dated December 18, 1980 requested permission to clone *Saccharomyces cerevisiae* DNA in *Tetrahymena thermophila* using *S. cerevisiae/E. coli* hybrid plasmids.

Dr. Orias supplied data outlining the genetics and ecology of *Tetrahymena*. He noted that *Tetrahymena thermophila* is a unicellular microbial eukaryote of no known pathogenicity. Dissemination of genetic information between members of the species by means other than eukaryotic conjugation has not been demonstrated.

Dr. Orias' request appeared in the November 28, 1980 Federal Register (45 FR 79387). No comments were received during the thirty day comment period.

During the RAC discussion of the proposal at the January 8–9, 1981 meeting, it was noted that the proposal involves nonpathogenic organisms, and approval at the P1 level of containment was recommended by a unanimous vote of nineteen in favor.

I accept this recommendation, and a new entry has been added to Appendix E to read as follows:

"26. *Saccharomyces cerevisiae* DNA may be cloned in *Tetrahymena thermophila* using *E. coli/S. cerevisiae* hybrid plasmids under P1 containment conditions."

I–E. Proposal To Amend Item 4 of Appendix E

Entry 4 of Appendix E of the Guidelines reads as follows:

"4. Cloned desired fragments from any non-prohibited source may be transferred into *Agrobacterium tumefaciens* containing a Ti plasmid (or derivatives thereof), using a nonconjugative *E. coli* plasmid vector

coupled to a fragment of the Ti plasmid and/or the origin of replication of an *Agrobacterium* plasmid, under containment conditions one step higher than would be required for the desired DNA in HV1 systems (i.e., one step higher physical containment than that specified in the subsections of Section III–A). Transfer into plant parts or cells in culture would be permitted at the same containment level (one step higher)."

Dr. Clarence Kado of the University of California, Davis, proposed in a letter dated October 2, 1980 that the fourth entry in Appendix E be modified to read as follows:

"4. Cloned desired fragments from any non-prohibited source may be transferred into *Agrobacterium tumefaciens* containing a Ti plasmid (or derivatives thereof), using a nonconjugative *E. coli* plasmid vector coupled to a fragment of the Ti plasmid and/or the origin of replication of an *Agrobacterium* plasmid, under containment conditions that would be required for the desired DNA in HV1 systems (i.e., that specified in the subsections of Section III–A). Transfer into plant parts or cells in culture would be permitted at the same containment level."

An announcement of Dr. Kado's proposed amendment was published in the **Federal Register** of November 28, 1980 (45 FR 79387). No comments were received during the thirty day comment period.

During the discussion of the proposal at the January 8–9, 1981 RAC meeting, it was noted that this proposal would effectively designate *Agrobacterium tumefaciens* an HV1 system.

It was pointed out that while *Agrobacterium tumefaciens* is a plant pathogen, plant tissue must be injured to permit infection. Further, the genetic information introduced into plant cells by the *Agrobacterium tumefaciens* Ti plasmid is not stably integrated into the plant genome and is not transmitted at meiosis into seeds. Reservations were expressed, however, about approving *A. tumefaciens* as an HV1 system. A motion to permit cloning of DNA from plants and nonpathogenic prokaryotes in *Agrobacterium tumefaciens* with subsequent transfer to plants or plant tissue under P2 containment conditions was recommended by a vote of seventeen in favor, none opposed and two abstentions.

I accept this recommendation, and entry 4 of Appendix E, is amended to read as follows:

"4. Cloned desired fragments from any non-prohibited source may be transferred into *Agrobacterium tumefaciens* containing a Ti plasmid (or derivatives thereof), using a nonconjugative *E. coli* plasmid vector coupled to a fragment of the Ti plasmid and/or the origin of replication of an *Agrobacterium* plasmid, under containment conditions one step higher than would be required for the desired DNA in HV1 systems (i.e., one step higher than that specified in the subsections of Section III–A). However, DNA from plants and nonpathogenic prokaryotes may be cloned under P2 containment conditions. Transfer into plant parts or cells in culture is permitted at the same containment level as is used for the cloning in *Agrobacterium tumefaciens*.

I–F. Request for Lowering of Containment Under Entry Four of Appendix E

Dr. Mary-Dell Chilton of Washington University in St. Louis, in a letter of September 10, 1980, requested a reduction in physical containment, to the P2 level, for the manipulation in *Agrobacterium tumefaciens* of (1) the *Saccharomyces cerevisiae* alcohol dehydrogenase 1 gene and (2) the gene coding for the maize (*Zea mays*) seed storage protein, zein. The cloned DNA and the cloning vectors will be introduced into tobacco plants. These experiments are currently covered under entry 4 of Appendix E which stipulates use of P3 containment. Dr. Chilton's proposal was published for comment in the November 28, 1980 **Federal Register** (45 FR 79387). No comments were received during the thirty day comment period.

Noting that the cloned DNA sequences to be manipulated are well characterized, the RAC at the January 8–9, 1981 meeting recommended, by a vote of fifteen in favor, none opposed and four abstentions, P1 containment conditions for the described experiments.

I accept this recommendation, and text has been added to entry 4 of Appendix E, so indicating.

I–G. Proposed Procedures for Previously Approved Large-Scale Recombinant DNA Experiments

1. *Application Procedures for Minor Modifications of Previously Approved Large-Scale Recombinant DNA Experiments.* The following procedures for handling minor modifications of previously approved large-scale recombinant DNA experiments, generated by a Working Group of the Recombinant DNA Advisory Committee (RAC), were published in the November 28, 1980 **Federal Register** (45 FR 79387):

"Procedures have been developed for considering applications to grow more than ten liters of an organism containing recombinant DNA. These procedures include consideration of the request by a working group of the NIH Recombinant DNA Advisory Committee, submission of the request to the full RAC after consideration by the working group, and subsequent submission to the Director, NIH, for final review. This procedure has taken a minimum of two months. Therefore, the following procedures are proposed to expedite consideration of requests to grow more than ten liters of recombinant DNA-containing organisms when these proposals represent minor modifications of previously approved experiments. Modifications include deletion of sequences from the recombinant DNA, changes in promoters, addition of short segments not affecting the nature of the expressed products, and minor changes in the properties of the host. Changes are considered minor if they do not affect either the containment properties of the vector or the host, or the nature of products made, or add new products. Therefore, the procedures for dealing with minor modifications have the objective of determining that the change is indeed minor. To determine whether a change is minor, two levels of review will take place:

"(1) By ORDA, which will decide upon receipt of a request to process it as a new request or as a minor modification, and in the latter case

"(2) by a working group of at least two members of RAC.

"The Working Group has proposed that the following language be added to the 'Application Procedures for Large-Scale Recombinant DNA Experiments':

"6. Proposals that the submitter considers to represent minor modifications of already approved experiments will be handled by an expedited procedure. A request must be submitted to ORDA. This request should include the changes made, the way in which these changes were made (e.g., mutagenesis, recloning), and the nature and results of any tests done to determine that no major change has occurred (e.g., restriction enzyme analysis, tests for produced products, tests of vector mobilization).

"ORDA will determine whether the submission represents a minor modification of an approved experiment. If so, the request will be submitted promptly to a working group of at least two RAC members. If possible, these members should have been present at the RAC discussion of approval of the original experiment. If any member of

the working group does not agree that the request represents a minor modification, the application will then be referred to the full RAC at its next meeting. If the working group is unanimous in concluding that the changes do not alter the organism in a way that is likely to affect containment of the organism or the vector, or the nature of the expressed product, significantly, from that presented originally to RAC, recommendation for approval will be transmitted to ORDA, and, through ORDA, to the submitters. Consideration of requests by working groups should explicitly address the following issues: Is the change likely to compromise biological containment provided by the host or the vector? Does the change add to the biological activities associated with the expressed products in a way not considered by the original submission?"

During the thirty day comment period, no comments were received.

Prior to publication in the Federal Register, the RAC discussed the proposal at the September 25–26, 1980 meeting; the proposed procedures were considered to be reasonable.

The RAC subsequently discussed the proposal at the January 8–9, 1981 meeting and by a vote of seventeen in favor, none opposed and one abstention, recommended approval of the proposed language.

I accept this recommendation. The complete text of the revised procedures for review of large-scale experiments appears in Part II of this announcement.

2. *Proposed Procedures for Change of Locale of Previously Approved Large-Scale Recombinant DNA Experiments.* During the discussion of proposed procedures dealing with minor modifications of previously approved large-scale recombinant DNA experiments at the January 8–9, 1981, RAC meeting, the question of how to process changes of site for large-scale production was raised. In this situation, recombinant clones, which had been approved for scale-up at one site, would be moved to another physical facility. A second IBC might then be charged with oversight responsibilities.

RAC recommended that a registration document, which would indicate compliance with the NIH Guidelines and its large-scale procedures should be filed with ORDA by the IBC of the new institution. ORDA could then give approval for large-scale growth of the clones at the new site. No RAC review would be required.

I accept this recommendation. Accordingly, the following additional language will be added to the "Application Procedures for Large-Scale Recombinant DNA Experiments":

"7. Should a clone, previously approved for scale-up at one physical facility, be proposed to be moved to a second physical facility, the IBC with oversight responsibility at the second site shall submit to ORDA a registration document and receive ORDA approval, prior to initiating scale-up. No RAC review would be required.

The complete text of the revised procedures for review of large-scale experiments appears in Part II of this announcement.

I–H. Proposals To Clone Genes of Foot and Mouth Disease Virus

The RAC at its December 6–7, 1979, meeting had reviewed a four stage proposal submitted by Dr. Howard Bachrach of the United States Department of Agriculture Plum Island Animal Disease Center and Dr. Dennis Kleid of Genentech, Inc., entitled "Cloning and Expression in *E. coli* of the VP3 protein of Foot and Mouth Disease Virus." In the Federal Register of January 17, 1980 (45 FR 3552), I, as Director, NIH, accepted the RAC recommendation to allow Stage I to proceed. At that time I noted, "Dr. Campbell stated that it was the sense of the RAC that this motion constituted the 'major action' and that future recommendations of the RAC approving further stages of the experiment would be 'minor actions.'"

In the Federal Register of July 29, 1980 (45 FR 50528), I, as Director, NIH, accepted a recommendation made by the RAC at its June 5–6, 1980, meeting that certain clones containing cDNA copies of pieces of the Foot and Mouth Disease virus, made on Plum Island under Stage I of the protocol, be allowed to be removed from Plum Island, as they "were well characterized, lacked infectivity, and represent, in aggregate, only 75% of the FMD viral genome."

On January 9, 1981, the RAC reviewed a request of October 17, 1980, from Dr. Kleid to modify Stage IV of the protocol, dealing with cloning of various FMD types. The RAC by a vote of 20 in favor, none opposed, and one abstention, recommended that this be accepted with the conditions that a working group of the RAC, but not the full RAC, would examine data on the infectivity of the clones produced on Plum Island, before they were allowed to leave Plum Island, and that such clones be well characterized, shown to lack infectivity, and shall not contain, individually or collectively, more than 75% of the viral genome.

I accept this recommendation.

I–J. Containment Levels for Recombinant DNA Experiments Involving Streptomyces and Other Non-Pathogenic Actinomycetes

Dr. Stanley Cohen of Stanford University Medical Center, in a letter dated November 18, 1980, submitted the following proposal for consideration by the RAC:

"That all members of the non-pathogenic *Actinomycetes* genus *Streptomyces* and the plasmids native to this genus be approved as host-vector systems for the cloning under P1 conditions of DNA derived from other non-pathogenic prokaryotic organisms such as *Streptomyces* and other non-pathogenic *Actinomycetes* species, *Escherichia coli* K–12, *Bacillus subtilis*, *Bacillus lichenformis*, *Bacillus circulans*, and other non-pathogenic *Bacillus* species, and for the cloning of DNA derived from non-pathogenic unicellular eukaryotic micro-organisms such as *Saccharomyces cerevisiae* and *Neurospora crassa*."

The RAC noted that they had recommended earlier in the meeting (see I–A above) that all experiments involving nonpathogenic prokaryotes and lower eukaryotes, be allowed at P1. Dr. Cohen's request involves a subset of these. The RAC, by a vote of 18 in favor, none opposed, and two abstentions, recommended that the proposal be accepted.

I accept this recommendation, and a new entry will be added to Appendix E as follows:

"*Z7.* All members of the nonpathogenic *Actinomycetes* genus *Streptomyces* and the plasmids native to this genus are approved as host-vector systems for the cloning under P1 conditions of DNA derived from other nonpathogenic prokaryotic organisms such as *Streptomyces* and other nonpathogenic *Actinomycetes* species, *Escherichia coli* K–12, *Bacillus subtilis*, *Bacillus lichenformis*, *Bacillus circulans*, and other nonpathogenic *Bacillus* species, and for the cloning of DNA derived from nonpathogenic unicellular eukaryotic microorganisms such as *Saccharomyces cerevisiae* and *Neurospora crassa*."

II. Summary of Actions Under Guidelines—Arranged According to Position in Guidelines

II–A. Amendment of Second Paragraph of Part III

The final sentence in the second paragraph under Part III is amended to read as follows:

"Prior IBC review is required for all other experiments described in the

●

subsections of Part III, including III–O–1, III–O–2, etc."

II–B. Addition of New Paragraph to Part III

A new paragraph is added just before Section III–O begins, as follows:

"When the reader finds that the containment level given for the same experiment is different in two different sections within Part III, he may choose whichever of the two levels he wishes to use for the experiment."

II–C. Addition of New Section III–O–2

A new section, III–O–2, is added to the guidelines as follows:

"III–O–2. *Experiments Involving Prokaryotes Nonpathogenic for Man, Animals or Plants, and/or Lower Eukaryotes Nonpathogenic for Man, Animals or Plants.* Recombinant DNA experiments involving prokaryotes nonpathogenic for man, animals, or plants, and/or lower eukaryotes nonpathogenic for man, animals or plants, and only DNA from such sources, can be conducted under P3 containment (2A). Lower levels of physical containment may be assigned by ORDA on a case-by-case basis for specific donor-recipient combinations (see Section IV–E–1–b–(3)–(h))."

II–D. Amendment of Section III–B–3

The second paragraph of Section III–B–3 is deleted. Revised Section III–B–3, now reads as follows:

"III–B–3. *Non-HVI Systems.* Containment levels for other classes of experiments involving non-HVL systems may be approved by the Director, NIH. (See Sections IV–E–1–b–(1)–(b), IV–E–1–b–(2)–(c), IV–E–1–b–(3)–(b))."

II–E. Deletion of Section IV–E–1–b–(2)–(f)

Section IV–E–1–b–(2)–(f) is deleted.

II–F. Addition of Section IV–E–1–b–(3)–(h)

A new section IV–E–1–b–(3)–(h) is added as follows:

"IV–E–1–b–(3)–(h). Assigning containment levels for experiments in which both donor and recipient are nonpathogenic prokaryotes and/or nonpathogenic lower eukaryotes (see Section III–O–2)."

II–G. Amendment of Appendix A, Sublist F

Appendix A, Sublist F is amended to read as follows:

"Sublist F

1. *Streptococcus sanguis*
2. *Streptococcus pneumoniae*
3. *Streptococcus faecalis"*

II–H. Amendments of Appendix E

Entires 4 and 18 of Appendix E, are amended to read as follows:

"4. Cloned desired fragments from any non-prohibited source may be transferred into *Agrobacterium tumefaciens* containing a Ti plasmid (or derivatives thereof), using a nonconjugative *E. coli* plasmid vector coupled to a fragment of the Ti plasmid and/or the origin of replication of an *Agrobacterium* plasmid, under containment conditions one step higher than would be required for the desired DNA in HVI systems (i.e., one step higher than that specified in the subsections of Section III–A). However, DNA from plants and nonpathogenic prokaryotes may be cloned under P2 containment conditions; and the *Saccharomyces cerevisiae* alcohol dehydrogenase 1 gene and the gene coding for the maize (*Zea mays*) seed storage protein, zein, may be cloned under P1 conditions. Transfer into plant parts or cells in culture is permitted at the same containment level as is used for the cloning in *Agrobacterium tumefaciens.*

"18. DNA from nonpathogenic prokaryotes and nonpathogenic lower eukaryotes may be cloned into *Schizosaccharomyces pombe* species under P1 containment conditions. DNA from higher eukaryotes may be cloned in *S. pombe* species under P3 containment conditions."

The following new entries are added to Appendix E:

"26. *Saccharomyces cerevisiae* DNA may be cloned in *Tetrahymena thermophila* using *E. coli/S. cerevisiae* hybrid plasmids under P1 containment conditions."

"27. All members of the nonpathogenic *Actinomycetes* genus *Streptomyces* and the plasmids native to this genus are approved as host-vector systems for the cloning under P1 conditions of DNA derived from other nonpathogenic prokaryotic organisms such as *Streptomyces* and other nonpathogenic *Actinomycetes* species, *Escherichia coli* K–12, *Bacillus subtilis, Bacillus lichenformis, Bacillus circulans,* and other nonpathogenic *Bacillus* species, and for the cloning of DNA derived from nonpathogenic unicellular eukaryotic microorganisms such as *Saccharomyces cerevisiae* and *Neurospora crassa."*

II–I. Procedures for Review of Large-Scale Experiments

The following procedures, which are not incorporated into the Guidelines, have been adopted for the review of large-scale experiments. (They are an expansion of the procedures which appeared in the November 21, 1980 Federal Register (45 FR 77360)):

"Application Procedures for Large-Scale Recombinant DNA Experiments.

"1. For each research project proposing to exceed the 10-liter limit, the applicant shall file a request with the NIH Office of Recombinant DNA Activities (ORDA). The request should include the following information:

"a. The registration document submitted to the local Institutional Biosafety Committee (see Section III of the Guidelines). This should include, or have appended to it, a summary paragraph which describes the proposed project in language that is comprehensible to non-specialists.

"b. A statement of the rationale for wishing to exceed the 10-liter limit.

"c. Evidence that the recombinant DNAs to be employed in the research have been rigorously characterized and are free of harmful sequences.

"d. Specification of the P–LS level proposed to be used as defined in the NIH Physical Containment Recommendations for Large-Scale Uses of Organisms Containing Recombinant DNA Molecules (Federal Register, April 11, 1980).

"2. Each request submitted to ORDA shall be referred to a working group of the NIH Recombinant DNA Advisory Committee for review.

"3. Following review and approval by the working group, each request shall be submitted to the entire Recombinant DNA Advisory Committee for review.

"4. Following review and approval by the RAC, each request shall be submitted to the Director, NIH, for the final review.

"5. Applications for large-scale experiments which are submitted by institutions not receiving NIH funds for recombinant DNA research shall be kept confidential (provided the institutions so desire) in accordance with the provisions of the NIH Guidelines for Research Involving Recombinant DNA Molecules and to the extent permitted by law.

"6. Proposals that the submitter considers to represent minor modifications of already approved experiments will be handled by an expedited procedure. A request must be submitted to ORDA. This request should include the changes made, the way in which these changes were made (e.g., mutagenesis, recloning), and the nature and results of any tests done to determine that no major change has occurred (e.g., restriction enzyme analysis, tests for produced products, tests of vector mobilization). ORDA will

determine whether the submission represents a minor modification of an approved experiment. If so, the request will be submitted promptly to a working group of at least two RAC members. If possible, these members should have been present at the RAC discussion of approval of the original experiment. If any member of the working group does not agree that the request represents a minor modification, the application will then be referred to the full RAC at its next meeting. If the working group is unanimous in concluding that the changes do not alter the organism in a way that is likely to affect containment of the organism or the vector, or the nature of the expressed product significantly from that presented originally to RAC, recommendation for approval will be transmitted to ORDA, and, through ORDA, to the submitters. Consideration of requests by working groups should explicitly address the following issues: Is the change likely to compromise biological containment provided by the host or the vector? Does the change add to the biological activities associated with the expressed products in a way not considered by the original submission?

"7. Should a clone, previously approved for scale-up at one facility, be proposed to be moved to a second facility, the IBC with oversight responsibility at the second site shall submit to ORDA a registration document and receive ORDA approval, prior to initiating scale-up. No RAC review would be required.

"8. These procedures may be refined or revised on the basis of discussion and action by the NIH Recombinant DNA Advisory Committee."

Additional Announcements of the Director, NIH

Section IV–E–1–b–(3)–(d) of the Guidelines gives responsibility to the Director, NIH, for "authorizing, under procedures specified by the RAC, large-scale experiments (i.e., involving more than 10 liters of culture) for recombinant DNAs that are rigorously characterized and free of harmful sequences."

Accordingly, several requests for authorization to culture, on a large-scale, recombinant DNA host-vector systems have been received and reviewed by the NIH.

I. Genentech, Inc.

On February 2, 1981, the Director, NIH, on the recommendation of the RAC, approved a request from Genentech, Inc., for the large-scale culture of EK1 host-vector systems containing plasmids coding for human leukocyte interferons.

This request was approved with the understanding that Genentech, Inc., has agreed to permit an observer, designated by NIH, to visit the facilities if NIH should choose to inspect the site.

The principal investigator is Dr. Norm S. C. Lin. The work is to be done at the P1–LS level of containment at the research and development facility at 460 Point San Bruno Boulevard, South San Francisco, California 94080.

II. Genentech, Inc.

On February 2, 1981, the Director, NIH, on the recommendation of the RAC, approved a request from Genentech, Inc., for the large-scale culture of EK1 host-vector systems containing plasmids coding for bovine growth hormone.

This request was approved with the understanding that Genentech, Inc., has agreed to permit an observer, designated by NIH, to visit the facilities should NIH choose to inspect the site.

The principal investigator is Dr. Norm S. C. Lin. The work is to be done at the P1–LS level of containment at the research facility at 460 Point San Bruno Boulevard, South San Francisco, California 94080.

III. Hoffman-LaRoche, Inc.

On February 2, 1981, the Director, NIH, on the recommendation of the RAC, approved a request from Hoffman-LaRoche, Inc., for the large-scale culture of EK1 host-vector systems containing plasmids coding for human leukocyte and fibroblast interferons.

This request was approved with the understanding that Hoffman-LaRoche, Inc., has agreed to permit an observer, designated by NIH, to visit the facilities if NIH should choose to inspect the site.

The principal investigators are Drs. Philip A. Miller and Vishra Rai. The work is to be done at the P1–LS level of containment at the research and development facilities at 340 Kingsland Avenue, Nutley, New Jersey 07110.

IV. Burns-Biotec Laboratories, Inc.

On February 20, 1981, the Director, NIH, on the recommendation of the RAC, approved a request from Burns-Biotec, Inc., a wholly owned subsidiary of Schering-Plough Corporation, for the large-scale culture of EK1 host-vector systems containing plasmids coding for human leukocyte interferon.

This request was approved with the understanding that Burns-Biotec, Inc., has agreed to permit an observer, designated by NIH, to visit the facilities if NIH should choose to inspect the site.

The principal investigator is Dr. Donald Baldwin. The work is to be performed at the P1–LS level of containment at the facilities in Elkhorn, Indiana 68022.

V. Schering-Plough Corporation

On February 20, 1981, the Director, NIH, on the recommendation of the RAC, approved a request from Schering-Plough Corporation for the large-scale culture of EK1 host-vector systems containing plasmids coding for human leukocyte interferon.

This request was approved with the understanding that Schering-Plough Corporation has agreed to permit an observer, designated by NIH, to visit the facilities if NIH should choose to inspect the site.

The principal investigator is Dr. Paul J. Leibowitz. The work is to be performed at the P1–LS level of containment at the research and development facilities in Bloomfield, New Jersey 07003.

Dated: March 4, 1981.

Donald S. Fredrickson,

Director, National Institutes of Health.

OMB's "Mandatory Information Requirements for Federal Assistance Program Announcements" (45 FR 39592) requires a statement concerning the official government programs contained in the *Catalog of Federal Domestic Assistance.* Normally NIH lists in its announcements the number and title of affected individual programs for the guidance of the public. Because the guidance in this notice covers not only virtually every NIH program but also essentially every federal research program in which DNA recombinant molecule techniques could be used, it has been determined to be not cost effective or in the public interest to attempt to list these programs. Such a list would likely require several additional pages. In addition, NIH could not be certain that every federal program would be included as many federal agencies, as well as private organizations, both national and international, have elected to follow the NIH Guidelines. In lieu of the individual program listing, NIH invites readers to direct questions to the information address above about whether individual programs listed in the *Catalog of Federal Domestic Assistance* are affected.

NIH programs are not covered by OMB Circular A–95 because they fit the description of "programs not considered appropriate" in Section 8–(b)–(4) and (5) of that Circular.

Part III

Department of the Treasury

Office of the Secretary

Privacy Act of 1974; Annual Publication of Systems of Records

DEPARTMENT OF THE TREASURY

Privacy Act of 1974; Systems of Records, Annual Publication

Pursuant to 5 U.S.C. 552a (e)(4), the Department of the Treasury republishes notices of the systems of records maintained by the Department. All of the systems have been previously published and adopted as of December 31, 1980. There are no changes requiring public comment. Numerous minor changes have been made, consisting principally of address changes, revision of organizational titles, and corrections of grammatical or typographical errors. Some items have been modified to clarify the descriptions. The consolidations of several systems into one system were made where systems were identical except for location.

The Department has deleted 29 systems of records, consolidated 47 systems, added 2 new systems, and revised 9 systems.

DATED: March 2, 1981.

Martha J. Thompson

Deputy Assistant Secretary

Systems Covered By This Notice

This notice covers all systems of records adopted up to the date of this publication

Treasury/OS 002

System name: Treasury Payroll/Personnel Information System—Treasury/OS.

System location: Main Treasury Building, Washington, DC 20220; Internal Revenue Service Data Center, Room 1100, Detroit, Michigan 48232; and U.S. Old Mint Data Center Division, 88 5th Street, San Francisco, California 94103.

Categories of individuals covered by the system: Personnel and payroll data on all Treasury Department employees.

Categories of records in the system: Year-to-date and historical data on all Treasury Department employees.

Authority for maintenance of the system: The Office of Personnel Management Manual, 50 U.S.C. App 1705-1707, 31 U.S.C. and departmental circulars 145 and 830. The Department of the Treasury, Fiscal Requirements Manual, 5 U.S.C. 301.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The Treasury Payroll/Personnel Information System is used to furnish payroll and personnel data, information and statistics to the Office of Personnel Management and other requesting agencies. It is also used to generate the necessary payroll information, deductions and allotments to pay the employees on a biweekly basis and to furnish the necessary payroll information to concerned agencies required by law. The basic payroll and personnel master file provides input to management information systems, as well as related accounting and budget systems.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: File folders, magnetic tape and reports. Disbursement records are stored at the Federal Records Center.

Retrievability: Records are retrieved primarily by name (filed alphabetically), secondary identifier are used to assure accuracy (date of birth, social security number, or employee identification number).

Retention and disposal: The Treasury Payroll/Personnel Information System master file is kept on disc and mag tape. Information concerning the employee is retrievable through the use of the individual's name and/or social security number. Information is reduced to hard copy in the form of reports and payroll information and documentation. Information is retained in automated form as long as the employee is active on the System. Reports are distributed to users and the master file is purged of inactive records on a yearly basis.

System manager(s) and address: Assistant Secretary (Administration), Room 3424, Main Treasury Building, Washington, DC 20220.

Notification procedure: Individuals wishing to be notified if they are named in this system or gain access to records maintained in this system must submit a request containing the following elements: (1) Identify the record system; (2) Identify the category and type of records sought, and (3) Provide at least two items of secondary identification (date of birth, employee identification number, dates of employment or similar information) Address inquiries to Chief, Disclosure Branch (See Access below)

Record access procedures: Chief, Disclosure Branch, Department of the Treasury, Room 1322, 1500 Pennsylvania Avenue, N.W., Washington, D.C. 20220.

Contesting record procedures: See Access above.

Record source categories: The information contained in these records were provided by or verified by the subject of the record, employers and co-workers.

Treasury/OS 004

System name: Personnel Security System.

System location: Main Treasury Building, Washington, DC 20220.

Categories of individuals covered by the system: Government employees (current or former) or applicants occupying or applying for sensitive positions in the Department of the Treasury.

Categories of records in the system: Full field or limited background investigations and FBI name checks; investigative information related to personnel investigations conducted by the Department of the Treasury and other Federal agencies and departments for the purpose of granting security clearances and making suitability determinations; TD Form 67-32.2 (Notice of Personnel Security Investigation) reflecting identification data on incumbent and record type of E.O. 10450 investigation and degree and date of clearance.

Authority for maintenance of the system: Executive Order 10450, sections 2 and 3.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Such information is made available to the appropriate employing officials who have a need to know, in order to make final determinations on hiring, continued employment or access to classified material. Files are also made available to official investigative or security personnel from other U.S. Government agencies, upon request, when the employee or former employee is being considered for employment by another agency for a sensitive position.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: File folders and index cards.

Retrievability: Records are retrieved by name.

Safeguards: Records are stored in locked metal containers, and in locked rooms. Records are limited to officials who have a need to know in the performance of their duties and who have been cleared by a full-field background investigation and have been granted appropriate security clearances.

Retention and disposal: Active files are retained during encumbent employee tenure and subject to update investigation. Files of employees who affect intra-agency transfers (to Treasury Bureaus) are automatically transferred to those Bureaus. If an employee transfers to another government agency or leaves the government, the files are retained, separate from the active files, for five years, except for background investigations completed by the OPM which are returned to that agency or returned to the Federal Records Center one year after the employee leaves Treasury. Cards are maintained indefinitely after being retired.

System manager(s) and address: Assistant Director of Personnel (Personnel Security) Room 1064, Main Treasury Building, Washington, DC 20220.

Notification procedure: Individuals wishing to be notified if they are named in this system or gain access to records maintained in this system must submit a written, signed request containing the following elements: (1) Identify the record system; (2) Identify the category and type of records sought; and (3) Provide at least two items of secondary identification (date of birth, employee identification number, dates of employment or similar information) Address inquiries to Chief, Disclosure Branch (See Access below).

Record access procedures: Chief, Disclosure Branch, Department of the Treasury, Room 1322, 1500 Pennsylvania Avenue, NW, Washington, DC 20220.

Contesting record procedures: See Access above.

Record source categories: The information contained in these records were provided by or verified by the subject of the record, employers and co-workers, neighbors, acquaintances, educational records and police and credit checks.

Systems exempted from certain provisions of the act: Exempt under 5 U.S.C. 552a Subsection (K) and 31 CFR 1.36.

Treasury/OS 00.005

System name: Grievance Records

System location: These records are located in personnel or designated offices in the bureaus in which the grievances were filed.

Categories of individuals covered by the system: Current or former Federal employees who have submitted grievances with their bureaus in accordance with part 771 of the Office of Personnel Management's (OPM) regulations (5 CFR 771), the Treasury Employee Grievance System (TPM Chapter 771), or a negotiated procedure.

Categories of records in the system: The system contains records relating to grievances filed by Treasury employees under part 771 of the OPM's regulations. These case files contain all documents related to the grievance including statements of witnesses, reports of interviews and hearings, examiner's findings and recommendations, a copy of the original and final decision and related correspondence and exhibits. This system includes files and records of internal grievance and arbitration systems that bureaus and/or the Department may establish through negotiations with recognized labor organizations.

Authority for maintenance of the system: 5 U.S.C. 1302, 3301, 3302, E.O. 10577,3 CFR 1954-1958 Comp., p. 218. E.O. 10987, 3 CFR 1959-1963 Comp., p. 519, agency employees, for personal relief in a matter of concern or dissatisfaction which is subject to the control of agency management.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: These records and information in these records may be used:

a. To disclose pertinent information to the appropriate Federal, State, or local agency responsible for investigating, prosecuting enforcing, or implementing a statute, rule, regulation, or order, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation.

b. To disclose information to any source from which additional information is requested in the course of processing in a grievance, to the extent necessary to identify the individual, inform the source of the purpose(s) of the request and identify the type of information requested.

c. To disclose information to a Federal agency, in response to its request, in connection with the hiring or retention of an employee, the issuance of a security clearance, the conducting of a security or suitability investigation of an individual, the classifying of jobs, the letting of a contract, or the issuance of a license, grant, or other benefit by the requesting agency, to the extent that the information is relevant and necessary to requesting the agency's decision on the matter.

d. To provide information to a congressional office from the record of an individual in response to an inquiry from that congressional office made at the request of that individual.

e. To disclose information to another Federal agency or to a court when the Government is party to a judicial proceeding before the court.

f. By the National Archives and Records Service (General Services Administration) in records management inspections conducted under authority of 44 U.S.C. 2904 and 2908.

g. By the bureau maintaining the records of the Department in the production of summary descriptive statistics and analytical studies in support of the function for which the records are collected and maintained, or for related work force studies. While published statistics and studies do not contain individual identifiers, in some instances the selection of elements of data included in the study may be structured in such a way as to make the data individually identifiable by inference.

h. To disclose information to officials of the Merit System Protection Board, including the Office of the Special Counsel, the Federal Labor Relations Authority and its General Counsel, the Equal Employment Opportunity Commission, or the Office of Personnel Management when requested in performance of their authorized duties.

i. To disclose in response to a request for discovery or for appearance of a witness, information that is relevant to the subject matter involved in a pending judicial or administrative proceeding.

j. To provide information to officials of labor organizations reorganized under the Civil Service Reform Act when relevant and necessary to their duties of exclusive representation concerning personnel policies, practices, and matters affecting work conditions.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: These records are maintained in file folders.

Retrievability: These records are retrieved by the names of the individuals on whom they are maintained.

Safeguards: These records are maintained in lockable metal filing cabinets to which only authorized personnel have access.

Retention and disposal: These records are disposed of 3 years after closing of the case. Disposal is by shredding or burning.

System manager(s) and address: ATF

Chief, Personnel Division, 1200 Pennsylvania Avenue, NW., Room 2212, Washington, D.C. 20226.

BGFO

Personnel Officer, Pennsylvania Avenue & Madison Pl. NW., Room 112, Annex, Washington, D.C. 20226.

Customs

Director, Personnel Management Division, 1301 Constitution Avenue NW., Room 1316, Washington, D.C. 20229.

E&P

Chief, Office of Industrial Relations, 14th & C Streets SW., Room 717-A, E&P Annex, Washington, D.C. 20226.

Personnel Officer, Building 94, Room 1F-14, Glynco, Georgia 31520.

IRS

Director, Personnel Division, 1111 Constitution Avenue NW., Room 3316, IRS Building, Washington, D.C. 20224.

OS

Assistant Director for Personnel Management, 15th & Pennsylvania Avenue NW., Room 1330, Main Treasury Building, Washington, D.C. 20220.

PD

Personnel Officer, 13th & C Streets SW., Room 226, E&P Annex, Washington, D.C. 20226.

SB

Personnel Officer, 1111 20th Street NW., Room 225, Vanguard Building, Washington, D.C. 20226

SS

Chief, Personnel Division, 1800 G Street NW., Room 941, Washington D.C. 20226.

Mint

Assistant Director for Personnel, 501 13th Street NW., Room 921, Warner Building, Washington, D.C. 20004.

OCC

Director, Human Resources, 490 L'Enfant Plaza East SW., 2nd Floor, Washington, D.C. 20219.

Notification procedure: It is required that individuals submitting grievances be provided a copy of the record under the grievance process. They may, however, contact the agency personnel or designated office where the action was processed, regarding the existence of such records on them. They must furnish the following information for their records to be located and identified.

a. Name.
b. Date of birth.

c. Approximate date of closing of the case and kind of action taken.

d. Organizational component involved.

Record access procedures: It is required that individuals submitting grievances be provided a copy of the record under the grievance process. However, after the action has been closed, an individual may request access to the official copy of the grievance file by contacting the bureau personnel or designated office where the action was processed.

Individuals must provide the following information for their records to be located and identified.

a. Name.

b. Date of birth.

c. Approximate date of closing of the case and kind of action taken.

d. Organizational component involved.

Contesting record procedures: Review of requests from individuals seeking amendment of their records which have been the subject of a judicial or quasi-judicial action will be limited in scope. Review of amendment requests of these records will be restricted to determining if the record accurately documents the action of the agency ruling on the case, and will not include a review of the merits of the action, determination, or finding.

Individuals wishing to request amendment to their records to correct factual errors should contact the bureau personnel or designated office where the grievance was processed. Individuals must furnish the following information for their records to be located and identified:

a. Name.

b. Date of birth.

c. Approximate date of closing of the case and kind of action taken.

d. Organizational component involved.

Record source categories: Information in this system of records is provided.

a. By the individual on whom the record is maintained.

b. By testimony of witnesses.

c. By agency officials.

d. From related correspondence from organizations or persons.

Treasury/OS 00.010

System name: Office of Domestic Finance, Actuarial Valuation System—Treasury/OS.

System location: Office of the Secretary of the Treasury, Office of Government Financing, Office of the Government Actuary, 15th and Pennsylvania Avenue, N.W., Washington, D.C. 20220.

Categories of individuals covered by the system: Participants and beneficiaries of the following pension plans: District of Columbia: Teachers, Policemen, Firemen, Judges. U.S. Tax Court Judges, U.S. Foreign Service officers and staff personnel, U.S.I.A. officers and staff personnel, and Agency for International Development officers and staff personnel.

Categories of records in the system: Information in the system is as follows: Active Records: name; social security number; salary; category-grade; year of entry into system; service computation date; year of birth; year of resignation or year of death, & refund if any; indication of LWOP status (if any); Retired Records: same as actives; annuity; year of separation; cause of separation (optional, disability, deferred, etc.); years and months of service by type of service; single or married; spouse's year of birth; principal's year of death; number and ages of children on annuity roll; year of termination of survivors.

Authority for maintenance of the system: Statutes require the Secretary of the Treasury to certify the valuation of pension funds as follows: D.C. Teachers, 60 Stat. 881; D.C. Judges, 78 Stat. 1061; U.S. Tax Court Judges 26 U.S.C. 7448; U.S. Foreign Service officers and staff, USIA officers and staff, AID officers and staff 22 USC 1101. In addition, the House District Committee formally requested certification of the pension funds for D.C. police and firemen.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The Government Actuary performs mathematical computations to assess expected income and outlays of pension funds listed in the "Category of Individual" section. For additional routine uses, see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: Data are on punched cards and computer print-outs. Individuals are listed alphabetically. Records are stored in the Actuary's office in the locked and guarded Treasury Building. The records are retained on a year-to-year basis. When agencies whose pension funds are valued forward new records for valuation, older records are discarded.

System manager(s) and address: The Government Actuary, Office of the Secretary of the Treasury, 15th and Pennsylvania Ave., N.W., Washington, D.C. 20220.

Notification procedure: Individuals wishing to be notified if they are named in this system of records, or gain access to records maintained in this system must submit a written request containing the following elements: (1) Identify the record system; (2) Identify the category and type of records sought; (3) Provide at least two items of secondary identification (date of birth, employee identification number, dates of employment or similar information) Address inquiries to Chief, Disclosure Branch (See Access below).

Record access procedures: Chief, Disclosure Branch, Department of the Treasury, Room 1322, 1500 Pennsylvania Avenue, NW, Washington, DC 20220.

Contesting record procedures: See Access above.

Record source categories: Data for actuarial valuation are provided by organizations responsible for pension funds listed under "Category of Individual," namely the District of Columbia Government, the U.S. Tax court, the U.S. Foreign Service and the U.S. Information Agency.

Treasury/OS 00.011

System name: Office of Domestic Finance, General Correspondence—Treasury/OS.

System location: Records are stored in the Administrative Office, Domestic Finance Main Treasury, 15th and Pennsylvania Avenue, N.W., Washington, D.C. 20220. A card file with each writer's name, address and subject of inquiry is maintained as a quick reference in the Administrative Office, Office of Domestic Finance.

Categories of individuals covered by the system: General public, other executive agencies and the Congress.

Categories of records in the system: Control logs on letters from the general public, other executive agencies and the Congress regarding the national debt, the economy and monetary and fiscal policy, debt, management, market analysis and agency finance, capital markets policy, State and local finance, Government financing and revenue sharing.

Authority for maintenance of the system: 5 USC 301.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Previous correspondence with the same writer is reviewed to enable us to provide complete, nonrepetitive replies to current inquiries. For additional routine uses, see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: Storage: Locator file system stored in small desk top file box. The files are stored in a locked file cabinet in the Administrative Office.

Retrievability: Files are indexed by name of correspondent, subject, and an interoffice correspondence code.

Safeguards: Files are locked during non-business hours and are stored in a physically secured building.

Retention and Disposal: Correspondence is retained for one year, at which time it is destroyed.

System manager(s) and address: Administrative Officer for the Office of the Assistant Secretary (Domestic Finance) Room 1204, Main Treasury, 1500 Pennsylvania Avenue, N.W., Washington, D.C. 20220.

Notification procedure: Individuals wishing to be notified if they are named in this system of records, or gain access to records maintained in this system must submit a written request containing the following elements: (1) Identify the record system; (2) Identify the category and type of records sought; (3) Provide at least two items of secondary identification (date of birth, employee identification number, dates of employment or similar information) Address inquiries to Chief, Disclosure Branch (See Access below).

Record access procedures: Chief, Disclosure Branch, Department of the Treasury, Room 1322, 1500 Pennsylvania Avenue, NW, Washington, DC 20220.

Contesting record procedures: See Access above.

Record source categories: Letters are from the general public, other executive agencies and the Congress. They come directly to the Treasury or are referred to the Treasury by the White House, Congressional offices, or other executive agencies.

Treasury/OS 00.032

System name: OASIA Correspondence Files—Treasury/OS.

System location: (1) Department of Treasury, 15th & Penn. Avenue, N.W., Washington, D.C. 20220. (2) Washington National Records Center, 4205 Suitland Road, Washington, D.C. 20409.

Categories of individuals covered by the system: (a) U.S. Foreign Service Officials (b) Officials of Municipalities and State Governments (c) Members of Congress and (d) the General Public.

Categories of records in the system: Incoming request for information concerning international financial, economic, and monetary matters, and reply to same by individuals in the Office of the Assistant Secretary for International Affairs, Department of the Treasury.

Authority for maintenance of the system: 5 USC 301.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: (a) Routine Use. Routine correspondence file is maintained to provide record of response to initial inquiry in the event of future correspondence. (b) Category of Users. Officials of the Department to respond to queries. (c) Purpose. Respond to inquiries. (d) For additional routine uses, see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Carbon (file) copy attached to incoming letter maintained in File Folders. Identification of individuals maintained on alphabetical 3 x 5 card.

Retrievability: Retrieval controlled by card systems. Card, filed by name, shows folder identification in which correspondence is held.

Safeguards: Maintained in electronically secured area and vaults. Disclosure limited to official personnel of the Department.

Retention and disposal: Correspondence containing no substantive information of permanent value is called for destruction 3 years after the close of the calendar year in which the records were created. Destruction accomplished by burning. Substantive correspondence retained indefinitely.

System manager(s) and address: Acting Director, OAISIA Secretariat, Department of the Treasury, Room 5422, 1500 Pennsylvania Avenue, NW., Washington, D.C. 20220.

Notification procedure: Individuals wishing to be notified if they are named in this system of records, or gain access to records maintained in this system must submit a written request containing the following elements: (1) Identify the record system; (2) Identify the category and type of records sought; (3) Provide at least two items of secondary identification (date of birth, employee identification number, dates of employment or similar information). Address inquiries to Chief, Disclosure Branch (See Access Below).

Record access procedures: Chief, Disclosure Branch, Department of the Treasury, Room 1322, 1500 Pennsylvania Avenue, NW, Washington, DC 20220.

Contesting record procedures: See Access Above.

Record source categories: See categories of individuals and related responses from Treasury officials.

Treasury/OS 60.040

System name: Confidential Statements of Employment and Financial Interests, Personnel Division, Office of the Secretary—Treasury/OS.

System location: Room 1064, Main Treasury Building, Office of the Secretary, Department of the Treasury.

Categories of individuals covered by the system: Statements are required from all Treasury employees under the categories listed under Section 0.735-70, Department of the Treasury Minimum Standards of Conduct as reprinted from the Federal Registers, December 16, 1970, as amended.

Categories of records in the system: TDF 62-93.6 (Confidential Statement of Employment and Financial Interests) and TDF 62-935 (Statement of Employment and Financial Interests—For Special Government Employees) prepared by the incumbent or potential incumbent as prescribed.

Authority for maintenance of the system: In conformance with Sections 201 through 209 of Title 18 of the United States Code, Executive Order No. 11222 of May 8, 1965, OS:PD and Title 5, Chapter I, Part 735, of the Code of Federal Regulations as published in the Department of the Treasury Minimum Standards of Conduct reprinted from the Federal Registers dated December 16, 1970, and amendments dated April 9, 1971, and January 8, 1973.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Statements are prepared by employees or applicants and are submitted through the Personnel Office to the agency reviewing officer. If there are no indications that a conflict of interest condition exists, the reviewing official signs and dates the form and returns it to the Personnel Office for submission to the Office of the Assistant Director of Personnel (Personnel Security) for retention. For additional routine uses, see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: To meet the requirements of confidentiality set forth in Subchapter 4-10, Part 735, Federal Personnel Manual, each Statement of Employment and Financial Interests is filed alphabetically in three-ring binders which in turn are filed in metal containers designed for the storage of classified information and secured by government-approved three-position, combination locks.

Retrievability: Since these statements are filed alphabetically in three-ring binders, they are retrieved accordingly.

Safeguards: In addition to being stored in a secure, metal container with government-approved, combination locks, the metal container is situated in a room which, during normal work hours, is under the supervision of authorized employees, and during nonwork hours is locked. The files are in the custody of security specialists for secure storage and access is made only to personnel and administrative officials in the performance of their official functions or to the incumbents who executed the statements.

Retention and disposal: Statements of active employees are retained during incumbent employment tenure and subject to annual update as required by law. Records of personnel who depart are retired and maintained for two years, then destroyed as required by Item 26, Appendix B, General Records Schedule, Title 3.

System manager(s) and address: Assistant Director of Personnel (Personnel Security) Office of the Secretary, Department of the Treasury, Room 1064, 15th and Pennsylvania Avenue, N.W., Washington, D.C. 20220.

Notification procedure: See System Manager Above

Record access procedures: See System Manager Above

Contesting record procedures: See System Manager above.

Record source categories: The information contained in these records is provided by the employee or applicant pursuant to the authority reflected above.

Treasury/OS 0.041

System name: Management Analysis Personnel Working Files—TreasuryOMO.

System location: Office of Management and Organization, (Management Analysis), Room 4418 MT, Washington, D.C. 20220.

Categories of individuals covered by the system: All prospective and current employees in Management Analysis.

Categories of records in the system: Standard Forms: 52 (Personnel Action), 171 (Employment Application), 1012 (Travel Voucher), 1038 (Travel Advance). Office of the Secretary Forms: 3015 (Travel Authorization), 3016 (Training Authorization). Personnal Data Summary Sheet, Summary of Employee Training, Letters of Appreciation, Position Descriptions.

Authority for maintenance of the system: 5 USC 301.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Records used by the Assistant Director (Management Analysis) for planning and managing staff development; by his secretary; and by individual employee, as reference files to obtain information stated under CATEGORY OF RECORD. For additional routine uses, see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: File folders.

Retrievability: Alphabetical order by employee's last name.

Safeguards: All material is unclassified, kept in a secured file cabinet.

Retention and disposal: Records are maintained as long as person is employed in Management Analysis. Upon resignation, records are given to employee or discarded. Prospective employee files are held for twelve months then discarded.

System manager(s) and address: Assistant Director, (Management Analysis), Department of the Treasury, Room 4418, 1500 Pennsylvania Avenue, NW, Washington, D.C. 20220.

Notification procedure: Same as System Manager above.

Record access procedures: Employees have free access to their individual files. Inquiries should be written addressed to the System Manager.

Contesting record procedures: See System Manager above.

Record source categories: Copies of official forms; data prepared by each individual employee; and material from any official who deems it appropriate to submit a letter of appreciation for services rendered by employee.

Treasury/OS 00.052

System name: Travel Records—Treasury/OS.

System location: Treas. Dept. Office of the Secretary, Financial Management Division, Room 634, 1900 Pennsylvania Ave., NW, Washington, D.C. 20220.

Categories of individuals covered by the system: All individuals authorized to perform travel for the Office of the Secretary.

Categories of records in the system: Form OS-3015, Authorization to Perform Travel, with the SF 1012, Travel Voucher, which details travel performed and expenses incurred with necessary receipts to support the claim for reimbursement to the traveler. SF 1038. Request for Advance of Funds.

Authority for maintenance of the system: 5 USC 5701-5709.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The supporting documentation for entering a charge against, and disbursing funds from, the appropriation for salaries and expenses, Office of the Secretary of the Treasury and for the Exchange Stabilization Fund. For additional uses, see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Original document forms in file cabinet.

Retrievability: Filed by name on a fiscal year basis.

Safeguards: Non-sensitive material handled routinely in regular file cabinet.

Retention and disposal: Presently retained for ten years then burned or shredded.

System manager(s) and address: Chief, Financial Management Division, Room 634, 1900 Pennsylvania Ave., Washington, D.C. 20220.

Notification procedure: Chief, Financial Management Division, Room 634, 1900 Pennsylvania Ave., Washington, D.C. 20220.

Record access procedures: Chief, Financial Management Division, Room 634, 1900 Pennsylvania Ave., Washington, D.C. 20220.

Contesting record procedures: See access above.

Record source categories: Facts and figures are presented by the individual related to authorized travel.

Treasury/OS 00.053

System name: Treasury Emergency Preparedness Information Program—Treasury/OS.

System location: Preparedness and Physical Security Division (PPSD), Room 732 Washington Building, 1435 G Street, NW., c/o Main Treasury, Washington, D.C. 20220.

Categories of individuals covered by the system: (1) Treasury Emergency Executive Team Members (Teams Alpha, Bravo and Charlie), (2) Key Treasury Personnel.

Categories of records in the system: (1) Emergency Executive Team Member Lists (by Office of the Secretary and by Treasury Bureau listing); Name, Position Title, Office/Agency. (2) Key Treasury Personnel Alert Notification Lists; Name, Telephone Numbers (Office and Home), Office/Agency. (3) Information by individual application for Permanent Badge for FPA Special Facility; Name, Date of Birth, Physical Identification.

Authority for maintenance of the system: Treasury Emergency Planning Circular (EPC) No. 2 (Rev.) March 14, 1973; Office of Emergency Preparedness (OEP) Circular 9100.2, April 12, 1972; Executive Order 11490; Request for Permanent Badge for FPA Special Facility, General Services Administration (GSA) Form 9033 (Rev.) August 1975. Federal Preparedness Agency (WVOO) Order 604.1 dated August 15, 1975.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: (1) Emergency Executive Team Lists: Assigns key Treasury personnel (who are essential to the performance of essential emergency functions) to Teams Alpha, Bravo and Charlie. See EPC No. 2. Forms the basis for issuance of FPA Special Facility Badges. Forms the basis for the personnel on the Alert Notification Lists who are to be notified during an emergency situation and when Civil Readiness Levels are established or changed. See Department of the Treasury Directives Manual, Chapter 10-05. (2) Key Treasury Personnel Alert Notification Lists: Used by Treasury Telecommunications Center personnel and Emergency Planning officials in alerting key Treasury personnel and Emergency Executive Team Members during an emergency and the setting of Civil Readiness Levels. (3) FPA Special Facility Badge: Permits admission to Federal Preparedness Agency (FPA/GSA Special Facility, which is the emergency operating facility to which Team Bravo members are assigned. (4) For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: (1) Magnetic tapes, punch cards and reports. Emergency Executive Team Lists and Alert Notification Lists: Master copies maintained in P&PSD office. Copies are prepositioned within the Office of the Secretary, Telecommunications Center, Treasury Emergency Operating Facilities (TARS and FPA/GSA/SF). (2) Request for permanent badge for FPA Special Facility: original filed within Federal Preparedness Agency (FPA/GSA). Copy filed in P&PSD office.

Retrievability: All mentioned records are indexed by name.

Safeguards: Treasury Master Records are stored in lockable cabinets or secure rooms; access is limited to officials who have a need for the information; employees are trained to make only authorized disclosures.

Retention and disposal: (1) Emergency Executive Team Member List, and (2) Key Treasury Personnel Alert Notification Lists are updated upon resignation, retirement or transfer of assigned employee. Obsolete, lists are destroyed by shredding or erasure. (3) Badges are retrieved and returned to FPA for accountability and destruction when employee no longer has official need for pass.

System manager(s) and address: Director, Preparedness and Physical Security Division, Room 732 Washington Building, 1435 G Street, NW., c/o Main Treasury, Washington, D.C. 20220.

Notification procedure: Individuals wishing to be notified if they are named in this system or gain access to records maintained in this system must submit a request containing the following elements: (1) Identify the record system; (2) Identify the category and type of records sought, and (3) Provide at least two items of secondary identification (date of birth, employee identification number, dates of employment or similar information). Address inquiries to Chief, Disclosure Branch (See Access below).

Record access procedures: Chief, Disclosure Branch, Department of the Treasury, Room 1322, 1500 Pennsylvania Avenue, NW., Washington, D.C. 20220.

Contesting record procedures: See Access above.

Record source categories: The information in these records was provided by or verified by the subject of the record, employers, coworkers.

Treasury/OS 00.060

System name: Correspondence files and records on employee complaints and/or dissatisfaction—Treasury/OS.

System location: Office of Personnel, Room 2425, Main Treasury Bldg., Washington, D.C. 20220.

Categories of individuals covered by the system: Former or current Department employees.

Categories of records in the system: Correspondence dealing with employee complaints.

Authority for maintenance of the system: Departmental discretion on maintenance of correspondence files. 5 USC 301.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Reference purposes: evaluation of personnel management; responding to inquiries from Congressmen, the White House, and other government officials. For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: File folders, file cabinets.

Retrievability: By employee name.

Safeguards: Filed in filing cabinet and released only to individuals with a legitimate right to review.

Retention and disposal: Records are maintained and disposed of in accordance with Treasury Department's Records Retention and Disposal Schedule for Administrative correspondence.

System manager(s) and address: The Director of Personnel, Department of the Treasury, Room 2426, Main Treasury Building, 15th & Pennsylvania Avenue, N.W., Washington, D.C. 20220.

Notification procedure: Assistant Director of Personnel, Employee Relations and Services, Department of the Treasury, Room 2425, Main Treasury Building, Washington, D.C. 20220.

Record access procedures: The Director of Personnel, Department of the Treasury, Room 2426, Main Treasury Building, 15th & Pennsylvania Avenue, N.W., Washington, D.C. 20220.

Contesting record procedures: See access above.

Record source categories: Current and former employees, and/or representatives, employees' relatives, Congressmen, the White House, management officials.

Treasury/OS 00.061

System name: Employee Grade Complaint file—Treasury/OS.

System location: Office of Personnel, 15th & Pennsylvania Avenue, N.W., Washington, D.C., Room 2426.

Categories of individuals covered by the system: Employees.

Categories of records in the system: Category IV (memorandums and letters about individuals involved in any kind of case action).

Authority for maintenance of the system: Title V grants agencies authority to adjudicate classification and pay appeals. 5 USC 301.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Used in comparing similar case appeals in connection with the job, not specifically in reference to the employee. For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: File cabinets.

Retrievability: By bureau and alphabetically by name of individuals.

Safeguards: File in file cabinets and released only to individuals with a legitimate right to review.

Retention and disposal: Policy is to destroy after 3 years of completion of appeal cases.

System manager(s) and address: Deputy Director of Personnel, Department of the Treasury, 15th & Pennsylvania Avenue, Washington, D.C. 20220.

Notification procedure: Deputy Director of Personnel, Department of the Treasury, 15th & Pennsylvania Avenue, Washington, D.C. 20220.

Record access procedures: See notification above.

Contesting record procedures: See notification above.

Record source categories: Memos to and from appellant, including bureau, Treasury and Civil Service Commission memorandums and letters on the subject.

Treasury/OS 00.062

System name: Executive Inventory Files—Treasury/OS.

System location: Room 2412, Main Treasury Building, Washington, D.C. 20220.

Categories of individuals covered by the system: All GS and GG-15, 16, 17, 18 employees of the Department of the Treasury.

Categories of records in the system: A brief description of identifying biographical data, work experience, education, professional activities, honors, special qualifications and references.

Authority for maintenance of the system: Executive Order 11315 which authorized the Executive Assignment System and subsequent Civil Service Commission procedures and regulations which established the Executive Inventory Files.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The information is used in making personnel decisions and in processing personnel actions on executives in the Department of the Treasury. For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Records are stored in file cabinets in secured building.

Retrievability: The records are kept by organizational units and position grade level in alphabetical order.

Safeguards: Physical security is provided by storage in file cabinets with personnel screening accomplished by limiting access to authorized Treasury personnel and management officials on a "need to know" basis.

Retention and disposal: The records are kept as long as the employee is assigned to a GS or GG-15, 16, 17, or 18 position, except for employees who retire. The records on retirees are kept for approximately one year from their date of retirement. The records are burned when we dispose of them.

System manager(s) and address: Assistant Director of Personnel (Executive Manpower and Employment), Room 2412, Main Treasury Building, Washington, D.C. 20220.

Notification procedure: Assistant Director of Personnel (Executive Manpower and Employment), Room 2412, Main Treasury Building, Washington, D.C. 20220. The individual needs to provide his name, present organizational assignment, position title and grade.

Record access procedures: Assistant Director of Personnel (Executive Manpower and Employment), Room 2412, Main Treasury Building, Washington, D.C. 20220.

Contesting record procedures: See access above.

Record source categories: The SF-161 and SF-161-A are provided by the employees or their servicing personnel offices.

Treasury/OS 00.065

System name: Appointment at Above the Minimum Rate of the Grade Files—Treasury/OS.

System location: Room 2412, Main Treasury Building, Washington, D.C. 20220.

Categories of individuals covered by the system: Persons proposed for employment by the Department of the Treasury at a salary rate above the minimum rate of the grade and for which approval is sought by Treasury from the U.S. Civil Service Commission.

Categories of records in the system: A collection of documents required for requesting approval by the U.S. Civil Service Commission of appointments at a salary rate above the minimum rate of the grade, including: Request for Approval of Non-Competitive Action (SF-59); Personal Qualifications Statement (SF-171); Position Description (OF-8); and in some instances, Request for Personnel Action (SF-52); Certification Form (SF-39); letters of justification; and general correspondence requesting approval of the action.

Authority for maintenance of the system: The authority which authorizes the solicitation of the information by the agency is Title 5 U.S. Code and the various rules and regulations of the U.S. Civil Service Commission pursuant thereto, as well as the implementing personnel policies derived therefrom by the Department of the Treasury.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The information is used to satisfy the minimum data requirements needed for consideration and approval of appointments at above the minimum rate of the grade by the U.S. Civil Service Commission. For additional routine uses see Treasury Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Records are stored in file cabinets in secured building.

Retrievability: System is indexed by name in a log and filed in chronological order as requests for approval are acted upon by the U.S. Civil Service Commission.

Safeguards: Physical security is provided by storage in file cabinets with personnel screening accomplished by limiting access to authorized Treasury personnel and management officials on a "need to know" basis.

Retention and disposal: Records are retained for an indefinite period of time and are destroyed by standard destruction methods including burning of Personal Qualifications Statements and related confidential information.

System manager(s) and address: Assistant Director of Personnel (Executive Manpower and Employment), Room 2412, Main Treasury Building, Washington, D.C. 20220.

Notification procedure: Assistant Director of Personnel (Executive Manpower and Employment), Room 2412, Main Treasury Building, Washington, D.C. 20220. The individual is required to provide his name and the Treasury organizational assignment, position title, grade/salary, and date of most recent appointment above the minimum rate of the grade requested by the Department of the Treasury.

Record access procedures: Assistant Director of Personnel (Executive Manpower and Employment), Room 2412, Main Treasury Building, Washington, D.C. 20220.

Systems exempted from certain provisions of the act: See Access above.

Purpose(s): The documents which constitute this system, and which are listed under Category of Record, came from the individual applicant, his servicing personnel office, the U.S. Civil Service Commission, and other concerned management officials within the Department of the Treasury.

Treasury/OS 00.066

System name: Combined Applicant/Applicant Correspondence File—Treasury/OS.

System location: Room 2412, Main Treasury Building, Washington, D.C. 20220.

Categories of individuals covered by the system: Persons who have sent applications, or have asked questions about employment in the Department of the Treasury, or whose applications or questions have been referred to the Department of the Treasury by others for reply.

Categories of records in the system: Standard Applications for Federal Employment (SF-171).

Resumes providing a reflection of such personal or job related experience as the writer elected to furnish.

Correspondence from applicants and responses thereto, ranging from general inquiries to specific complaints about alleged practices, treatment, or requirements.

Authority for maintenance of the system: Most material is not solicited, though on occasion applications are sought for specific positions.

The material, generally, is related to Treasury's personnel operations carried out under various provisions of Title 5, U.S. Code.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Employment inquiries received from applicants are routed to specific bureau personnel offices (if requested) or to all bureau personnel offices (if not specified). Should bureaus have vacancies for which outside applications are being accepted, they will be included for referral. Applicants are advised that we have referred their applications. Occasionally, applications are solicited from the general public for hard-to-fill jobs. When solicited, applicants are advised to apply directly to the bureau having the vacancy if they desire consideration. For additional routine uses see Treasury Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Records are stored in file cabinets in secured building.

Retrievability: Records are maintained in a manual filing system, indexed alphabetically and retrievable by name of applicant. In addition, a written log is maintained on all applications circulated to bureau personnel offices. The log gives name of applicant, date received, and date circulated.

Safeguards: Physical security is provided by storage in file cabinets. Only authorized personnel officials have access to the files maintained in Room 2412. These files are not available to the general public or to persons outside the personnel office who have no "need to know."

Retention and disposal: Files are maintained for a period of two years at the end of which time they are burned.

System manager(s) and address: Assistant Director of Personnel (Executive Manpower and Employment), Room 2412, Main Treasury Building, Washington, D.C. 20220.

Notification procedure: Assistant Director of Personnel (Executive Manpower and Employment), Room 2412, Main Treasury Building, Washington, D.C. 20220. Since the system is filed alphabetically, only the applicant's name is required.

Record access procedures: Assistant Director of Personnel (Executive Manpower and Employment), Room 2412, Main Treasury Building, Washington, D.C. 20220.

Contesting record procedures: See Access above.

Record source categories: Applications (SF-171, resumes) from the general public, including correspondence initially addressed to the President, Congressmen, or Senators are transmitted to this office because they deal with Treasury matters, issues, or employment.

Treasury/OS 00.067

System name: Detailed Employee Files—Treasury/OS

System location: Room 2412, Main Treasury Building, Washington, D.C. 20220.

Categories of individuals covered by the system: Department of the Treasury employees whose detail to other organizations and/or positions requires approval at the Departmental level.

Categories of records in the system: Correspondence requesting approval of details and Request for Personnel Action (SF-52) which documents the detail and reflects approval of it. In some instances there may also be a Personal Qualifications Statement, (SF-171), and attachments, Position Description (OF-8), and Request for Approval of Non-Competitive Action (SF-59).

Authority for maintenance of the system: The authority which authorizes the solicitations of the information by the agency is Title 5 U.S. Code and the various rules and regulations of the U.S. Civil Service Commission pursuant thereto, as well as the implementing personnel policies derived therefrom by the Department of the Treasury.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The information is used to satisfy the minimum data requirements needed for consideration and approval of details of employees requiring approval at the Departmental level. For additional routine uses see Treasury Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Records are stored in file cabinets in secured building.

Retrievability: System is indexed by name in a log and filed in chronological order as details are approved.

Safeguards: Physical security is provided by storage in file cabinets with personnel screening accomplished by limiting access to authorized Treasury personnel and management officials on a "need to know" basis.

Retention and disposal: Records are retained for an indefinite period of time and are destroyed by standard destruction methods including burning of Personal Qualifications Statements and related confidential information.

System manager(s) and address: Assistant Director of Personnel (Executive Manpower and Employment), Room 2412, Main Treasury Building, Washington, D.C. 20220.

Notification procedure: Assistant Director of Personnel (Executive Manpower and Employment), Room 2412, Main Treasury Building, Washington, D.C. 20220. The individual is required to provide his name and the Treasury organizational assignment, position title, grade/salary, and approximate date of the detail requested requiring approval at the Departmental level.

Record access procedures: Assistant Director of Personnel (Executive Manpower and Employment), Room 2412, Main Treasury Building, Washington, D.C. 20220.

Contesting record procedures: See Access above.

Record source categories: The documents which constitute this system, and which are listed under Category of Record, came from the employee's servicing personnel office, and other concerned management officials within the Department of the Treasury.

Treasury/OS 00.068

System name: Whitten Amendment Exception Files—Treasury/OS.

System location: Room 2412, Main Treasury Building, Washington, D.C. 20220.

Categories of individuals covered by the system: Persons employed by, or proposed for employment by, the Department of the Treasury and in whose behalf an exception to the Whitten Amendment is sought by Treasury.

Categories of records in the system: A collection of documents required for requesting approval by the U.S. Civil Service Commission of exceptions to the Whitten Amendment, including: Request for Approval of Non-Competitive Action (SF-59); Personal Qualifications Statement (SF-171); Position Description (OF-8); and, in some instances, Request for Personnel Action (SF-52); letters of justification; and general correspondence requesting approval of the exception.

Authority for maintenance of the system: The authority which authorizes the solicitation of the information by the agency is Title 5 U.S. Code and the various rules and regulations of the U.S. Civil Service Commission pursuant thereto, as well as the implementing personnel policies derived therefrom by the Department of the Treasury.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The information is used to satisfy the minimum data requirements needed for consideration and approval of exceptions to the Whitten Amendment by the U.S. Civil Service Commission. For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Records are stored in file cabinet in secured building.

Retrievability: System is indexed by name in a log and filed in chronological order as requests for exceptions are acted upon by the U.S. Civil Service Commission.

Safeguards: Physical security is provided by storage in file cabinets with personnel screening accomplished by limiting access to authorized Treasury personnel and management officials on a "need to know" basis.

Retention and disposal: Records are retained for an indefinite period of time and are destroyed by standard destruction methods including burning of Personal Qualifications Statements and related confidential information.

System manager(s) and address: Assistant Director of Personnel (Executive Manpower and Employment), Room 2412, Main Treasury Building, Washington, D.C. 20220.

Notification procedure: Assistant Director of Personnel (Executive Manpower and Employment), Room 2412, Main Treasury Building, Washington, D.C. 20220. The individual is required to provide his name and the Treasury organizational assignment, position title, grade/salary, and approximate date of the Whitten Amendment exception requested by the Department of the Treasury.

Record access procedures: Assistant Director of Personnel (Executive Manpower and Employment), Room 2412, Main Treasury Building, Washington, D.C. 20220.

Contesting record procedures: See Access above.

Record source categories: The documents which constitute this system, and which are listed under Category of Record, came from the individual employee or applicant, his servicing personnel office, and other concerned management officials within the Department of the Treasury.

Treasury/OS 00.070

System name: Office of Computer Science, Work Assignment and Control Form—Treasury/OS.

System location: 1625 I Street, N.W., Room 224, Washington, D.C. 20220.

Categories of individuals covered by the system: All personnel in Office of Computer Science.

Categories of records in the system: List of projects and time spent on each project. List of projected project milestone dates and actual dates completed.

Authority for maintenance of the system: Implied authoritiy of manager to maintain records of staff assignments and workload. 5 USC 301.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: (1) Assignment of work to individuals. (2) Record of manpower resources spent for each customer organization. (3) Performance evaluation. (4) Historical records used as examples for budget preparation. (5) For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper, mag. tape files.

Retrievability: Indexed by name.

Safeguards: Under supervision of responsible manager during working hours. Room locked at other times.

Retention and disposal: Retained one year, then erased or discarded.

System manager(s) and address: Director, Office of Computer Science, 1625 I Street, N.W., Room 224, Washington, D.C. 20220.

Notification procedure: Office of Computer Science, 1625 I Street, N.W., Room 224, Washington, D.C. 20220. Identifying information—name.

Record access procedures: Written request, to: Director, Office of Computer Science, 1625 I Street, N.W., Room 224, Washington, D.C. 20220.

Contesting record procedures: See Access above.

Record source categories: Forms filled out by staff members.

Treasury/OS 00.075

System name: Legislative Affairs Vote Tracking System.

System location: U.S. Treasury Department, Office of the Assistant Secretary (Legislative Affairs), 15th & Pennsylvania Ave. NW., Washington, D.C. 20220.

Categories of individuals covered by the system: Members of the United States Senate and House of Representatives.

Categories of records in the system: Party, State and district of each Congressional Member, voting records on key Treasury-related legislation, and ratings by selected public interest organizations.

Authority for maintenance of the system: 5 U.S.C. 301.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The system will be used by the Legislative Affairs staff for background and research purposes.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Maintained on disk files in computer.

Retrievability: By name of Congressional Member or key to selected Congressional floor votes.

Safeguards: The system is designed with computer access codes so that only Treasury-authorized personnel can retrieve records. All information stored in the system, however, are matters of public record.

Retention and disposal: The system will be maintained for six years, subject to review at the end of that period.

System manager(s) and address: Assistant Secretary of the Treasury (Legislative Affairs), U.S. Treasury Department, Washington, D.C. 20220.

Notification procedure: Individuals wishing to be notified if they are named in this system of records, or gain access to records maintained in this system must submit a written request containing the following elements: (1) Identify the record system; (2) Identify the category and type of records sought: (3) Provide at least two items of secondary identification (date of birth, employee identification number, dates of employment or similar information). Address inquiries to Chief, Disclosure Branch (See Access below).

Record access procedures: Chief, Disclosure Branch, Room 1322, Department of the Treasury, 1500 Pennsylvania Avenue, NW, Washington, D.C. 20220

Contesting record procedures: See Access above.

Record source categories: Congressional Record, Congressional Quarterly, Congressional Directory, daily news reports such as the Washington Post and New York Times.

Treasury/OS 00.081

System name: Centralized Automated System for Reporting Employment Statistics in the Department of the Treasury (REST)—Treasury/OS.

System location: Office of the Chief, Fiscal Division, Internal Revenue Service Data Center, Box 1100, Detroit, Michigan 48232. This is the location of data processing support for the REST System.

Categories of individuals covered by the system: Employment statistics on Treasury minority groups and female employees.

Categories of records in the system: The following information is contained in the system: (1) Submitting Office Number, (2) Bureau, (3) Region, (4) Office, (5) Social Security Number, (6) Minority Designation Code, (7) Geographical Location Code, (8) Series (Occupational), (9) Pay Plan Code, (10) Grade, (11) Sex, (12) Code for Full-time, Part-time, and Intermittent, (13) Code for Seasonal (WAE), (14) Citizenship Code, (15) Supervisory Code, (16) Birth Month, (17) Birth Year, (18) Nature of Action Code, (19) Effective Date of Action, (20) On-Off Roll Code, (21) Salary (for Employees Who Do Not Have a Grade, i.e. Wage Systems, Special Emphasis, etc.)

Authority for maintenance of the system: The Civil Service Commission in the Federal Personnel Manual (Chapter 713, Subchapter 3A), establishes the full control of an automated minority group identification system under the agency Director, Equal Employment Opportunity (EEO), or his designated EEO Official.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The centralized system for Reporting Employment Statistics in the Treasury is used to furnish statistics on employment distribution to Personnel Officers, EEO Officers and Departmental staff as needed. Also, a periodic report of employment statistics on distribution of minority groups and female employees is provided to all Personnel and EEO Offices. Data will be provided OMB, the White House and Congress upon request. For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: The Centralized Automated System for Reporting Employment Statistics is kept on a mag-tape which is the master file for minority and female statistics. Information concerning the employee is retrievable through the use of the individual's social security number. The mag-tape is not kept more than a year and is reused normally for the same or similar data. Tape data is reduced to hard copy in the form of reports. The Director, Equal Opportunity Program (EOP), is the designated Treasury official responsible to insure that minority group identification of Department employees is maintained and used in such a manner that will guard against the invasion of privacy of employees as set forth in all regulations.

System manager(s) and address: Chief, Treasury Employee Data and Payroll Division, Department of the Treasury, 15th and Pennsylvania Avenue, Washington, D.C. 20220.

Notification procedure: Office, Equal Opportunity Program, Department of the Treasury, 15th and Pennsylvania Avenue, Washington, D.C. 20220. An individual requesting information should state his or her name, social security number, bureau employed by, and geographical location of facility or duty station to which assigned.

Record access procedures: Written requests for information on the procedures for gaining access to and contesting information is to be made to: Director, Office of Equal Opportunity Program, Department of the Treasury, 15th and Pennsylvania Avenue, Washington, D.C. 20220.

Contesting record procedures: See Access above.

Record source categories: The Processing Clerk enters each new employee's minority group designation code, cost code or organization designation code, sex code, citizenship code and supervisory position code on one copy of the SF-50 and sends it to the IRS Data Center.

Treasury/OS 00.002

System name: EEO Complaint Processing System—Treasury-OS.

System location: Office, Equal Opportunity Program, Department of the Treasury, Room 1000, 1612 K Street, N.W., Washington, D.C. 20220.

Categories of individuals covered by the system: Applicants for employment and aggrieved employees who have filed formal Equal Employment Opportunity complaints against the Department and its Bureaus.

Categories of records in the system: Each EEO investigative file contains: (a) a copy of each affidavit of the complainant, the alleged discriminatory official, and other witnesses; (b) a copy of each agency record obtained; and (c) a copy of the other information acquired in the investigation. When information concerning the agency's policies or procedures is essential to an understanding of matters covered by the investigation, a copy of, or an excerpt from this material will be included in the file. Files may include, depending on complainants exercising appeal rights, Hearing Transcripts and Decisions by Civil Service Commission Complaints Examiners, and Decisions by the Appeals Review Board.

Authority for maintenance of the system: Part 713.203(k) of the Civil Service Commission's Rules and Regulations, require agencies to "provide for the prompt, fair and impartial consideration and disposition of complaints involving issues of discrimination on grounds of race, color, religion, sex or national origin." Federal Personnel Manual Letter No. 713-25, provides "an agency will process complaints of discrimination on account of age."

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The EEO investigative record is used to resolve complaints of discrimination between aggrieved employees or applicants for employment, and agency management. For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: The records are maintained in EEO complaint case file folders. The files are maintained by the name of the complaint in an alphabetical order. The Director, Equal Opportunity Program and his EEO staff, and the Civil Service Commission have access to these files. The Federal District Courts have access to the files in the event the complainant appeals to that level. Normally, the files are maintained in the Department of Treasury for a period of from two (2) to three (3) years before being forwarded to the Federal Records Center, Alexandria, Virginia.

System manager(s) and address: Director Office of Equal Opportunity Program, Department of the Treasury, 15th and Pennsylvania Avenue, Washington, D.C. 20220. The individual requesting the information must identify the date he or she filed a formal complaint, the Bureau against whom the complaint was filed, and if known, the date the complaint was closed.

Notification procedure: See System Manager above.

Record access procedures: To obtain information on the procedure for gaining access to and contesting records write to: Director, Office of Equal Opportunity Program, Department of the Treasury, 15th and Pennsylvania Avenue, Washington, D.C. 20220.

Contesting record procedures: See Access above.

Record source categories: The information came from Affidavits of the parties involved and witnesses. Information also comes from personnel records, as well as from other documents relating to personnel management.

Treasury/OS 00.003

System name: Spanish Speaking Informal Application File (S.F. 171)—Treasury/OS.

System location: Office of Equal Opportunity Program, Spanish Speaking Program, Department of the Treasury, 1612 K Street NW., Room 1000, Washington, D.C. 20220.

Categories of individuals covered by the system: Spanish Speaking citizens who are seeking employment and/or promotions with the Federal Government.

Categories of records in the system: CSC Standard Form 171 (Personal Qualifications Statement).

Authority for maintenance of the system: Civil Service Commission EPM Letter 713-18.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The Standard Forms 171 are referred to the Bureaus by the Spanish Speaking Program Coordinator to the Bureau Spanish Speaking Program Coordinators to assure that Spanish Speaking are fairly considered for job openings and/or promotions. For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: The applications are kept in a file by name. Safeguards are taken to prevent unauthorized disclosures of records. The office is locked and physical security is maintained at the entrance of the building when closed. The Standard Forms 171 are kept at least one year and/or disposed of after individual has been employed or promoted. If no action is taken within one year, the application is returned to the individual concerned.

System manager(s) and address: Spanish Speaking Program Coordinator, U.S. Treasury Department, 1612 K Street, N.W., Room 1000, Washington, D.C. 20220.

Notification procedure: Same as above. No identifying information of an individual is required except his/her name.

Record access procedures: An individual can gain access to his/her records by requesting them by letter, or visit to the Office of Equal Opportunity Program's Director, Equal Employment Opportunity's Deputy Director, or the Spanish Speaking Program Coordinator at: Mailing Address: Office of the Secretary, Office of Equal Opportunity Program, U.S. Treasury Department, Washington, D.C. 20220. Office Location: Same as Systems Manager.

Contesting record procedures: See Access above.

Record source categories: All Standard Forms 171 (Federal Government applications) were submitted by the individuals and/or other Spanish Speaking Program Coordinators.

Treasury/OS 00.090

System name: EOTA FOI Request/Appeals Files—Treasury/OS.

System location: Office of the Assistant Secretary (Enforcement and Operations), Main Treasury Building, 1500 Pennsylvania Ave., N.W., Washington, D.C. 20220.

Categories of individuals covered by the system: Individuals submitting original requests for information or appeals of initial denials to this office under the Freedom of Information Act.

Categories of records in the system: Copies of the requests or appeals under FOIA submitted by individual; other correspondence on the FOI matter; copies of disclosed material.

Authority for maintenance of the system: 5 USC 301, 5 USC 552.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Consult and advise other offices and bureaus of Treasury and of other Federal Departments and agencies; advise Members and committees of Congress. For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Hard copy paper files.

Retrievability: Manual, by name and/or number assigned.

Safeguards: Locked file cabinet or safe-cabinet storage; access to personnel with need to know.

Retention and disposal: Retained indefinitely.

System manager(s) and address: Official prescribing policies and practices—Assistant Secretary (Enforcement and Operations) Officials maintaining the system—Assistant to the Director, Office of Enforcement and Director of Operations, Director of Tariff Affairs.

Notification procedure: Individuals wishing to be notified if they are named in this system of records, or gain access to records maintained in this system must submit a written request containing the following elements: (1) Identify the record system; (2) Identify

the category and type of records sought; (3) Provide at least two items of secondary identification (date of birth, employee identification number, dates of employment or similar information). Address inquiries to Chief, Disclosure Branch (See Access below).

Record access procedures: Chief, Disclosure Branch, Department of the Treasury, Room 1322, 1500 Pennsylvania Avenue, Washington, DC 20220.

Contesting record procedures: See Access above.

Record source categories: Individual making FOI request or appeal; offices, bureaus, agencies, departments and personnel of Federal Government who have relevant information or must be consulted for appropriate processing.

Treasury/OS 00.101

System name: International Criminal Police Organization (INTERPOL) Criminal Investigative Records—Treasury/OS

System location: Department of Justice, Room 6649, 9th and Pennsylvania Avenue, N.W., Washington, D.C. 20530.

Categories of individuals covered by the system: Individuals who have been convicted or are subjects of a criminal investigation with international aspects; specific missing persons; specific deceased persons in connection with death notices; certain weapons, motor vehicles, artifacts, etc., stolen and/or involved in crime which may or may not be associated with an individual. Certain victims of criminal violations in the U.S. or abroad.

Categories of records in the system: Information concerning an individual may be maintained in this system of records which includes but is not limited to records pertaining to fugitives, wanted persons, suspected persons, lookouts (temporary and permanent), specific missing persons, deceased persons in connection with death notices. Information about individuals includes but is not limited to name, alias, date of birth, address, physical description, various identification numbers, reason for the record or lookout, details and circumstances surrounding the actual or suspected violator.

Authority for maintenance of the system: 22 USC 263a.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Use—Criminal investigations being conducted by law enforcement agencies in the U.S. or abroad. Users—Local, State and Federal Agents and employees of the U.S. National Central Bureau of INTERPOL who have a need for the records in the performance of their duties; law enforcement agencies and criminal justice agencies in the United States and abroad; INTERPOL General Secretariat and INTERPOL National Central Bureaus in member countries; disclosure required in administration of Freedom of Information Act (5 U.S.C. 552); referral to employees and officials of financial and commercial business firms and to private individuals of identifying information pertaining to actual or suspected criminal offenders where such referral is considered reasonably necessary for the purpose of furthering efforts to investigate the activities of and apprehend criminal offenders; translators of foreign languages as necessary; and for additional routine uses, see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: Stored in file folders at the U.S. National Central Bureau and certain limited data in Treasury Enforcement Communications System (TECS). Upon inactivity for five years the file is destroyed except for judicial cases involving personnel in this NCB, which is retained for 20 years from the date of the judicial action. Files on deceased persons are destroyed within one year of the person's death. Certain records, such as death notifications and missing persons records, are normally destroyed within the year after the matter is received and/or resolved. Records not of continuing interest may be destroyed at any time. Retrievability by name or file number and by weapons number and motor vehicle number. Access is limited to personnel of the U.S. NCB—INTERPOL except for certain fugitive/wanted records in TECS which are accessible to all TECS terminals. Disposal of records is by shredding or burning. Safeguards include need to know procedural and physical safeguards, such as accountability, restricted areas and alarm protection systems.

System manager(s) and address: Chief, U.S. National Central Bureau, INTERPOL, Department of Justice, Room 6649, 9th & Pennsylvania Ave., N.W., Washington, D.C. 20530.

Notification procedure: Individuals wishing to be notified if they are named in this system of records, or gain access to records maintained in this system must submit a written request containing the following elements: (1) Identify the record system; (2) Identify the category and type of records sought; (3) Provide at least two items of secondary identification (date of birth, employee identification number, dates of employment or similar information). Address inquiries to Chief, Disclosure Branch (See Access below).

Record access procedures: Chief, Disclosure Branch, Department of the Treasury, Room 1322, 1500 Pennsylvania Avenue, N.W., Washington, D.C. 20220.

Contesting record procedures: See Access above.

Systems exempted from certain provisions of the act: Exempt under Subsections (J)(2) and (K), 31 C.F.R. 1.36.

Treasury/OS 00.102

System name: Treasury Enforcement Communications System (TECS)—Treasury/OS.

System location: International Criminal Police Organization (INTERPOL) Criminal Investigative Records, Department of Justice, Room 6649, 9th & Pennsylvania Avenue, N.W., Washington, D.C. 20530

Categories of individuals covered by the system: Individuals who have been convicted or are subjects of a criminal investigation with international aspects; specific missing persons; specific deceased persons in connection with death notices; certain weapons, motor vehicles, artifacts, etc., stolen and/or involved in crime which may or may not be associated with an individual. Certain victims of criminal violation in the U.S. or abroad.

Categories of records in the system: Information concerning an individual may be maintained in this system of records which includes but is not limited to records pertaining to fugitives, wanted persons, suspected persons, lookouts (temporary and permanent), specific missing persons, deceased persons in connection with death notices. Information about individuals includes but is not limited to name, alias, date of birth, address, physical description, various identification numbers, reason for the record or lookout, details and circumstances surrounding the actual or suspected violator.

Authority for maintenance of the system: 5 U.S.C. 301, Reorganization Plan No. 1 of 1950; Treasury Department Order No. 165, Revised, as amended.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Use—Criminal investigations being conducted by law enforcement agencies in the U.S. or abroad. Users—Local, State and Federal Agents and employees of the U.S. National Central Bureau of INTERPOL who have a need for the records in the performance of their duties; law enforcement agencies and criminal justice agencies in the United States and abroad; INTERPOL General Secretariat and INTERPOL National Central Bureaus in member countries; disclosure required in administration of Freedom of Information Act (5 U.S.C. 552); referral to employees and officials of financial and commercial business firms and to private individuals of identifying information pertaining to actual or suspected criminal offenders where such referral is considered reasonably necessary for the purpose of furthering efforts to investigate the activities of and apprehend criminal offenders; translators of foreign languages as necessary; and for additional routine uses, see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: Magnetic tape and disc storage and hard copy. Files on deceased persons are destroyed within one year of the person's death. Certain records, such as death notifications and missing persons records, are normally destroyed within the year after the matter is received and/or resolved. Records not of continuing interest may be destroyed at any time. Retrievability by name, file number, personal identification number, system identification number, weapons or motor vehicle number. Access safeguards include need to know, procedural and physical safeguards, such as accountability, restricted areas and alarm protection systems backed up by armed security force. Upon inactivity for five years the file is destroyed except for judicial cases involving personnel in this NCB, which are retained for 20 years from the date of judicial action. Disposal of records is by shredding or burning.

System manager(s) and address: Chief, U.S. National Central Bureau, INTERPOL, Department of Justice, Room 6649, 9th & Pennsylvania Ave., N.W., Washington, D.C. 20530

Notification procedure: Individuals wishing to be notified if they are named in this system of records, or gain access to records maintained in this system must submit a written request containing the following elements: (1) Identify the record system; (2) Identify the category and type of records sought; (3) Provide at least two items of secondary identification (date of birth, employee identification number, dates of employment or similar information). Address inquiries to Chief, Disclosure Branch (See Access below).

Record access procedures: Chief, Disclosure Branch, Department of the Treasury, Room 1322, 1500 Pennsylvania Avenue, N.W., Washington, D.C. 20220.

Contesting record procedures: See Access above.

Record source categories: Exempt System.

Systems exempted from certain provisions of the act: Exempt under Subsections (J)(2) and (K), 31 C.F.R. 1.36.

Treasury/OS 00.110

System name: Foreign Assets Control Administrative Records—Treasury/OS

System location: Office of Foreign Assets Control, 1331 G Street, N.W., Washington, D.C. 20220.

Categories of individuals covered by the system: Office of Foreign Assets Control employees. Treasury Department General Counsel employees assigned to FAC work. Former Office of Foreign Assets Control employees. Applicants for employment with Treasury Department, Office of Foreign Assets Control.

Categories of records in the system: Applications for employment with the Office of Foreign Assets Control, or with the Office of Chief Counsel, Foreign Assets Control; records of grade promotions of Foreign Assets Control employees; records of within grade salary step increases of Foreign Assets Controls employees; analysis of performance of legal professionals assigned to Foreign Assets Control Work; supervisory evaluation of Foreign Assets Control Employees; confidential financial statements.

Authority for maintenance of the system: 5 U.S.C. Sections 301 and 302, Treasury Department Order No. 128, as amended.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: As source of information in consideration of hiring of new Foreign Assets Control employees. To determine whether a grade promotion of an employee is indicated. To determine whether annual within grade salary step increase is warranted. To compile mailing list of employees for Foreign Assets Control uses and purposes. To determine what training of Foreign Assets Control employees is needed. For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: Foreign Assets Control administrative records are placed in folders which are kept in file cabinets, secured by approved detachable combination locks. FAC administrative records are retrieved from the administrative file by the name of the individual. Each FAC file cabinet containing administrative records is locked when not in use. Such files are located in an area which is manned during duty hours by FAC employees. No person other than the Director (Acting) is allowed access to such records, except as specifically designated by the Acting Director. During off-duty hours the file area is safe-guarded by appropriate electronic protective devices. FAC administrative records (other than application for employment) are kept indefinitely for so long as they are useful to the Office of Foreign Assets Control.

System manager(s) and address: Director, Office of Foreign Assets Control, U.S. Treasury Department, Washington, D.C. 20220.

Notification procedure: Requests by an individual for notification as to whether Foreign Assets Control Administrative Records contain information relating to him should be (a) mailed: Office of Foreign Assets Control, U.S. Treasury Department, Washington, D.C. 20220, (b) presented in person: Office of Foreign Assets Control, 1331 G Street, N.W., Room 504, Washington, D.C.

Record access procedures: Requests for information on gaining access to or contesting of information contained in FAC Administrative Records should be mailed to: Director, Office of Foreign Assets Control, U.S. Treasury Department, Washington, D.C. 20220.

Contesting record procedures: See Access above.

Record source categories: All information contained in the FAC administrative records is usually obtained from the individual, or from Treasury Department Personnel Office.

Treasury/OS 00.111

System name: FAC 1950 Census of Blocked Chinese Assets—Treasury/OS.

System location: 1331 G Street, N.W., Washington, D.C. 20220.

Categories of individuals covered by the system: Most of these records contain reports and correspondence regarding blocked accounts of persons or firms who are nationals of the Peoples Republic of China. However, there is a small class of cases where reports were received regarding the assets of an individual subject to U.S. jurisdiction when such individual is the trustee of a Chinese national, Administrator or Executor of the estate of a Chinese national, heir of the estate of a Chinese national, etc. Most of the persons filing these reports were American corporations. However, a small number of reporters were American individuals.

The principal category is individuals residing in China who had an interest in property in the U.S. on December 16, 1950. This category would include (a) U.S. citizens who left China after December 17, 1950; and (b) non-U.S. citizens who left China after December 17, 1950, and became U.S. citizens or permanent alien residents of the U.S.

In addition, this system includes individuals in the U.S. who had acted for or on behalf of the government of the Peoples Republic of China, or individuals who had an interest in property in which there was also an interest of a Chinese national on or since December 17, 1950, for example, trusts and estates, joint accounts and partnerships.

Categories of records in the system: (6) Reports containing a brief description, including location and value, of assets in the U.S. on December 16, 1950, in which, China or a Chinese "national" (as defined in the Regulations) had any interest. (2) Correspondence regarding such reports. (3) A computer print-out summarizing the information contained in the reports.

Authority for maintenance of the system: Section 5(b) of the Trading with the Enemy Act (50 U.S.C. App., Section 5(b)). Section 500.603 of the Foreign Assets Control Regulations (31 CFR 500.603).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The information in this system of records: (1) is used by staff to verify the accuracy of reports submitted under the 1970 Census of Blocked Chinese Assets; (2) is made available to the Chief of Enforcement, in connection with determining the present whereabouts of holders or custodians who cannot be located; (3) is made available to the Chief of Licensing for assistance in determining the propriety of the release of blocked property; (4) is made available to the Legal Section in connection with questions regarding the disposition of blocked property requiring a legal opinion; (5) is made available to the Acting Director in connection with questions regarding the property reported under the 1950 census; (6) is made available to the original holder or custodian of blocked Chinese property or his successor in interest to aid in preparation of the 1970 census report; (7) is made available to the legal representatives of persons listed in (1) to aid in preparation of the 1970 census report; (8) for additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Reports and correspondence files.

Retrievability: Reports are indexed by name of holder or custodian of blocked property, by name of individual for whom blocked accounts are maintained, and by report number. Files are indexed by name of holder or custodian of blocked property or by name of individual.

Safeguards: The FAC 1950 Census of Blocked Chinese Assets records consist of documents in folders and a computer print out. Some of these files are stored in file cabinets secured by approved detachable combination locks. The room where these records are stored is manned by FAC personnel who are instructed not to admit unauthorized persons, nor to release any material from these records to persons other than FAC personnel. During off duty hours this room is locked and safeguarded by appropriate security measures. The remainder of these files are stored in a supply room which is always locked except when in use by FAC personnel.

Retention and disposal: None have been destroyed.

System manager(s) and address: Office of Foreign Assets Control, U.S. Treasury Department, Washington, D.C. 20220.

Notification procedure: Individuals wishing to be notified if they are named in this system of records, or gain access to records maintained in this system must submit a written request containing the following elements: (1) Identify the record system; (2) Identify the category and type of records sought; (3) Provide at least two items of secondary identification (date of birth, employee identification number, dates of employment or similar information). Address inquiries to Chief, Disclosure Branch (See Access below).

Record access procedures: Chief, Disclosure Branch, Department of the Treasury, Room 1322, 1500 Pennsylvania Avenue, NW, Washington, DC 20220.

Contesting record procedures: See Access above.

Record source categories: Custodians or other holders of blocked Chinese assets.

Treasury/OS 00.112

System name: FAC 1970 Census of Blocked Chinese Assets—Treasury/OS.

System location: 1331 G. Street N.W., Washington, D.C. 20220.

Categories of individuals covered by the system: Most of these records contain reports and correspondence regarding blocked accounts of persons or firms who are nationals of the Peoples Republic of China. However, there is a small class of cases where reports were received regarding the assets of an individual subject to U.S. jurisdiction when such individual is the trustee of a Chinese national, Administrator or Executor of the estate of a Chinese national, heir of the estate of a Chinese national, etc. Most of the persons filing these reports were American corporations. However, a small number of reporters were American individuals.

The principal category are Foreign nationals, namely Chinese who had interests in property in the U.S. on December 18, 1950, and on July 1, 1970. Also included are individuals in the U.S. who had been in China on or since December 17, 1950, or who had acted for or on behalf of the government of the Peoples Republic of China, or who had on either date an interest in property in which there was also an interest of a Chinese national on or since December 17, 1950, for example, trusts and estates, joint accounts and partnerships.

Categories of records in the system: (1) Reports containing a brief description including location and value, of assets in the U.S. on December 18, 1950, or on July 1, 1970, in which, on either date, China or a Chinese "national" (as defined in the Regulations) had any interest. (2) Correspondence regarding such reports. (3) A computer print-out summarizing the information contained in the reports.

Authority for maintenance of the system: Section 5(b) of the Trading with the Enemy Act (50 U.S.C. App., Section 5(b)). Section 500.610 of the Foreign Assets Control Regulations (31 CFR 500.610).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Information in this system of records: (1) is made available to the Director, Chief of Licensing, Chief of Enforcement, and the Legal Section for assistance with problems requiring their advice and expertise. (2) is made available to the Chief of Licensing in connection with applications to unblock property of Chinese nationals. (3) is used for statistical purposes. (4) for additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: files and index cards.

Retrievability: Files and index cards indexed by name of holder or custodian of property with I.D. number and by name of individual for whom blocked accounts are held with I.D. number.

Safeguards: The Foreign Assets Control 1970 Census of Blocked Chinese Assets records consist of documents in folders and a bound computer print out which are stored in file cabinets secured by approved detachable combination locks. The room where these records are stored is manned by FAC personnel who are instructed not to admit unauthorized persons, nor to release any material from these records to persons other than FAC personnel. During off duty hours this room is locked and safeguarded by appropriate security measures.

Retention and disposal: None have been destroyed.

System manager(s) and address: Director, Office of Foreign Assets Control, U.S. Treasury Department, Washington, D.C. 20220.

Notification procedure: Individuals wishing to be notified if they are named in this system of records, or gain access to records maintained in this system must submit a written request containing the following elements: (1) Identify the record system; (2) Identify the category and type of records sought; (3) Provide at least two items of secondary identification (date of birth, employee identification number, dates of employment or similar information). Address inquiries to Chief, Disclosure Branch (See Access below).

Record access procedures: Chief, Disclosure Branch, Department of the Treasury, Room 1322, 1500 Pennsylvania Avenue, NW, Washington, DC 20220.

Contesting record procedures: See Access above.

Record source categories: Custodians or other holders of blocked Chinese assets.

Treasury/OS 00.113

System name: FAC 1964 Census of Blocked Cuban Assets—Treasury/OS

System location: Federal Record Center, Suitland, Maryland

Categories of individuals covered by the system: Most of these records contain reports and correspondence regarding blocked accounts of persons or firms who are nationals of Cuba. However, there is a small class of cases where reports were received regarding the assets of an individual subject to U.S. jurisdiction when such individual is the trustee of a Cuban national, Administrator or Executor of the estate of a Cuban national, heir of the estate of a Cuban national, etc. Most of the persons filing these reports were American corporations. However, a small number of reporters were American individuals.

The principal category is residents of Cuba, who had an interest in property in the U.S. on July 8, 1963. This category would also include (a) U.S. citizens who left Cuba after July 8, 1963, and (b) non-U.S. citizens who left Cuba after 1963 and became U.S. citizens or permanent alien residents of the U.S. In addition, this system includes individuals in the U.S. who had acted for or on behalf of the government of Cuba, or individuals who had an interest in property in which there was also an interest of a Cuban national on or since July 8, 1963, for example, trusts and estates, joint accounts and partnerships.

Categories of records in the system: (1) Reports containing a brief description, including location and value of assets in the U.S. on July 8, 1963, in which Cuba or a Cuban "national" (as defined in the Regulations) had any interest. (2) Correspondence regarding such reports. (3) A computer print out summarizing the information contained in the reports.

Authority for maintenance of the system: Section 5(b) of the Trading with the Enemy Act (50 USC, App., Section 5(b). Section 620(a) of the Foreign Assistance Act of 1961 (22 USC Section 2370(a)). Cuban Assets Control Regulations 31 CFR Part 515.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The information in this system of records may be used in connection with a future census of blocked Cuban assets. The uses may be as follows: (1) by staff to determine persons to whom specific correspondence should be addressed advising them of the census requirements; (2) by staff to verify the accuracy of reports submitted under a new census; (3) by the Chief of Enforcement, in connection with determining the present where-abouts of holders or custodians who cannot be located; (4) by the Chief of Licensing for assistance in determining the propriety of the release of blocked property; (5) by the Legal Section in connection with questions regarding the disposition of blocked property requiring a legal opinion; (6) by the Director in connection with questions regarding the property reported under the 1964 census; (7) may be made available to the original holder or custodian of blocked Cuban property or his successor in interest to aid in preparation of a new census report; (8) may be available to the legal representatives of persons listed in (7) to aid in preparation of a new census report.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Reports and correspondence.

Retrievability: All of these records are located at the Federal Record Center, Suitland, Maryland. They are retrievable by name of individual.

Safeguards: GSA.

Retention and disposal: None have been destroyed.

System manager(s) and address: Office of Foreign Assets Control, U.S. Treasury Department, Washington, D.C. 20220.

Notification procedure: Individuals wishing to be notified if they are named in this system of records, or gain access to records maintained in this system must submit a written request containing the following elements: (1) Identify the record system; (2) Identify the category and type of records sought; (3) Provide at least two items of secondary identification (date of birth, employee identification number, dates of employment or similar information). Address inquiries to Chief, Disclosure Branch (See Access below).

Record access procedures: Chief, Disclosure Branch, Department of the Treasury, Room 1322, 1500 Pennsylvania Avenue, NW, Washington, DC 20220.

Contesting record procedures: See Access above.

Record source categories: Custodians or other holders of blocked Cuban property.

Treasury/OS 00.114

System name: Foreign Assets Control Enforcement Records—Treasury/OS

System location: 1331 G Street, N.W., Washington, D.C. 20220.

Categories of individuals covered by the system: Individuals who have engaged in unlicensed financial, commercial or other transactions which are prohibited under regulations administered by the

Office of Foreign Assets Control. Individuals who have made any unlicensed importation of prohibited merchandise from a foreign country which is a "designated country" under regulations administered by the Office of Foreign Assets Control. Individuals who have made an unlicensed remittance of funds or exportation of goods to a "designated country" or national thereof, or to a "specially designated national." Individuals who have otherwise violated any Treasury ruling, license or regulation issued under or pursuant to the Trading with the Enemy Act or the United Nations Participation Act. Individuals suspected of having engaged in activities or transactions which violated statutes or regulations administered by the controls. Individuals who have applied for Foreign Assets Control Licensing when there is reason to suspect the truth of statements contained in an individual's application. Individuals who have or are suspected of misuse or misappropriation of blocked property.

Categories of records in the system: Reports of investigations of suspected or actual violations by an individual of relevant statute and regulations administered by the Office of Foreign Assets Control; intelligence reports requested from other official sources regarding suspected or actual criminal or civil violations by an individual of the relevant statutes, or of the regulations administered by the Office of Foreign Assets Control; evidence obtained during investigation of suspected or actual violations by an individual of the relevant statutes and regulations administered by the Office of Foreign Assets Control.

Authority for maintenance of the system: Statutory: Section 5(b) of the Trading with the Enemy Act (50 USC, App. Section 5(b)); Section 5 of the United Nations Participation Act (22 USC Section 287(c)); Foreign Assistance Act of 1961, (22 USC Section 2370 (a)). Executive Orders: E.O; 8389 E.O. 9193; E.O. 11322; E.O. 11419; Proc. 3447. Regulations: Foreign Assets Control Regulations (31 CFR, Sections 500.601 and 500.602), Cuban Assets Control Regulations (31 CFR, Sections 515.601 and 515.602), Rhodesian Sanctions Control Regulations (31 CFR Sections 530.601 and 530.602), Foreign Funds Control Regulations (31 CFR, Sections 520.601 and 520.602).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: (1) Used as a source of reference in other FAC enforcement investigations. (2) As a source of information in consideration of applications for Foreign Assets Control specific licenses. (3) Referral of information to the Department of Justice in civil or criminal cases involving the individual. (4) Disclosure to U.S. Customs Service, Internal Revenue Service or Department of Commerce (Office of Export Administration), of information concerning possible violations of laws and/or regulations of such agencies. (5) Notice to the United States Customs Service (a) of importers who have made illegal commercial importations of prohibited publications, and, (b) of persons who are authorized to make commercial importations of prohibited publications (under regulations administered by the Office of Foreign Assets Control). (6) for additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: The Foreign Assets Control Enforcement Records consist of documents, etc., in folders which are stored in locked file cabinets in secure file rooms. Enforcement records are retrieved by means of card-index file system containing the names of persons (individuals, corporations, etc.). The file rooms are manned by Foreign Assets Control personnel who are instructed not to admit unauthorized persons into the file areas, nor to release any material from the enforcement records to persons other than Foreign Assets Control personnel. During off duty hours the file rooms are secured by appropriate electronic protective devices. These Enforcement Records are maintained indefinitely, for so long as the assets and transactions involved are subject to regulation. Records are also stored at the Federal Record Center, Suitland, Maryland.

System manager(s) and address: Director, Office of Foreign Assets Control, U.S. Treasury Department, Washington, D.C.

Notification procedure: Individuals wishing to be notified if they are named in this system of records, or gain access to records maintained in this system must submit a written request containing the following elements: (1) Identify the record system; (2) Identify the category and type of records sought; (3) Provide at least two items of secondary identification (date of birth, employee identification number, dates of employment or similar information). Address inquiries to Chief, Disclosure Branch (See Access below).

Record access procedures: Chief, Disclosure Branch, Department of the Treasury, Room 1322, 1500 Pennsylvania Avenue, NW, Washington, DC 20220.

Contesting record procedures: See Access above.

Systems exempted from certain provisions of the act: Exempt under Subsection (K)(2), 31 C.F.R. 1.36.

Treasury/OS 00.115

System name: Foreign Assets Control General Correspondence Files-Treasury/OS.

System location: 1331 G Street, N.W., Washington, D.C. 20220.

Categories of individuals covered by the system: Records are maintained of all correspondence from individuals seeking information from the Office of Foreign Assets Control regarding embargoed or blocked foreign countries (and assets and nationals thereof), which are affected by implementing Treasury Department Regulations. Current regulations, and corresponding blocked or embargoed countries, are: Foreign Assets Control Regulations (China, Vietnam, and North Korea); Cuban Assets Control Regulations (Cuba); and the Rhodesian Sanctions Regulations (Rhodesia) and the Foreign Funds Control Regulations (World War II). Records are also maintained of letters to individuals initiated by the Foreign Assets Control.

Categories of records in the system: General correspondence of every kind, e.g.: individuals seeking information about FAC regulations re some particular country; requests for advice on proposed or possible transaction involving a designated country or a national thereof; letters reporting possible violation of some FAC administered regulation; requests from law students and other researchers; requests for copies of regulations administered by FAC; requests for information regarding possible employment opportunities with the Office of Foreign Assets Control.

Authority for maintenance of the system: Statutory: Section 5(b) of the Trading with the Enemy Act (50 USC, App. Section 5(b)). Section 5 of the United Nations Participation Act (22 USC Section 287 c), Section 620 (a) of the Foreign Assistance Act of 1961 (22 USC Section 2370 (a)). Executive Orders: E.O. 9193; E.O. 9989; E.O. 11322; E.O. 11419; Proc. 3447. Regulations: Foreign Assets Control Regulations 31 CFR Part 500, Cuban Assets Control Regulations 31 CFR Part 515, Rhodesian Sanctions Regulations 31 CFR Part 530; Transaction Control Regulations 31 CFR Part 505; Foreign Funds Control Regulations 31 CFR Part 520.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: (A) Intra-Agency—Used by the staff to effectuate the purposes of the Regulations which it is charged with administering: (1) Used by the Enforcement Section as background information in connection with investigations. (2) Used by the Licensing Section as background information in connection with the processing of license applications submitted by the individual. (3) Used by the Legal Section as background information in connection with preparation of briefs, etc. (4) Used by all staff as background information in connection with subsequent inquiries from an individual. (5) Used in connection with the formulation of or as examples of policy followed by the office. (6) Used by all staff to initiate correspondence with third parties mentioned in an individual letter regarding potential or apparent violations of the regulations. (7) Used by all staff to prepare statistics useful in implementing the Regulations. (8) Used by all staff to compile mailing lists for use by Foreign Assets Control to advise individuals interested in a particular aspect of the Regulations of changes relating to these aspects. (9) Used to detect an interest in a particular aspect of the Regulations which necessitate the publication of amendments to the Regulations regarding interpretations of the Regulations. (B) Inter-Agency: (1) Referred to the Department of State, Department of Commerce, Internal Revenue Service, Foreign Claims Settlement Commission, (and other agencies) where the individuals inquiry concerns matters under the jurisdiction of such agencies as well as under the jurisdiction of the Office of Foreign Assets Control. (2) Referred to the Department of Justice, where it appears likely that a crime or civil offense was committed. (3) Referred to other agencies where it appears that an individual has violated the laws, statutes or regulations of such agency. (C) For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: The Foreign Assets Control General Correspondence Records consist of documents in folders which are stored in file cabinets secured by approved detachable combination locks. General Correspondence records are retrieved by means of card-index file system containing the names of persons (individuals, corporations, etc.). The file rooms are manned by FAC personnel who are instructed not to admit unauthorized persons into the file-areas, nor to release any material from the enforcement record to persons other than FAC personnel. During off-duty hours, the file rooms are safeguarded by appropriate electronic protective devices. The General Correspondence records are maintained indefinitely for

so long as the assets or transactions involved are subject to regulation. Records are also stored at the Federal Record Center, Suitland, Maryland.

System manager(s) and address: Director, Office of Foreign Assets Control, U.S. Treasury Department, Washington, D.C. 20220.

Notification procedure: Individuals wishing to be notified if they are named in this system of records, or gain access to records maintained in this system must submit a written request containing the following elements: (1) Identify the record system; (2) Identify the category and type of records sought; (3) Provide at least two items of secondary identification (date of birth, employee identification number, dates of employment or similar information). Address inquiries to Chief, Disclosure Branch (See Access below).

Record access procedures: Chief, Disclosure Branch, Department of the Treasury, Room 1322, 1500 Pennsylvania Avenue, NW, Washington, DC 20220.

Contesting record procedures: See Access above.

Record source categories: Individuals who initiated correspondence with Treasury Department's Office of Foreign Assets Control or who responded to correspondence from the Office of Foreign Assets Control; other governmental agencies (Federal, State and Local); foreign individuals and official sources.

Treasury/OS 00.116

System name: Foreign Assets Control Litigation files—Treasury/OS

System location: 1331 G Street, N.W., Room 304, Washington, D.C. 20220.

Categories of individuals covered by the system: Individuals who have been criminally prosecuted, or involved in civil litigation (as plaintiff or defendant) with the United States, in matters which involve statutes and/or regulations which are administered by the Office of Foreign Assets Control (e.g.: criminal prosecution for violation of statutes and regulations; suits to enjoin the Office of Foreign Assets Control from holding bank accounts or other property in a blocked status; suits to compel the Office of Foreign Assets Control to issue licenses for import of merchandise from a designated country; suits seeking to have statutes and regulations administered by Foreign Assets Control held unconstitutional, in fact or as applied; etc.).

Categories of records in the system: Copies of the pleading and all other legal documents connected with civil litigation and criminal proceedings involving statutes and regulations administered by the Office of Foreign Assets Control, including memoranda of law, drafts of legal briefs, and other material prepared by the FAC legal staff for use in such litigation; material obtained pursuant to discovery under applicable court rules (depositions, written interrogatories, etc.); copies of final orders, decrees, and opinions of courts in such litigation, and copies of correspondence relating to activities of any party to such litigation (containing information relevant to the issues involved in the litigation).

Authority for maintenance of the system: Statutes: Section 5(b) of the Trading with the Enemy Act, (50 USC, App. Section 5(b)); Section 5 of the United Nations Participation Act, (22 USC, Section 287c); Section 620 (a) of the Foreign Assistance Act of 1961, (22 USC 2370 (a)). Executive Orders: E.O. 9193; E.O. 9989; E.O. 11322; E.O. 11419; Proc. 3447. Regulations: Foreign Funds Control Regulations (31 CFR, Part 520), Foreign Assets Control Regulations, (31 CFR, Part 500), Cuban Assets Control Regulations, (31 CFR, Part 515), Rhodesian Sanctions Regulations (31 CFR, Part 530), Transactions Control Regulations (31 CFR, Part 505).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: (1) Preparation and conduct of litigation in process by the Justice Department. (2) Research source for the FAC Enforcement section. (3) Source of information for the FAC Licensing section in consideration of applications for FAC license. (4) Source of legal precedents and for other legal research by the FAC Legal section. (5) Referral to Department of Justice in cases involving Statutes and Regulations administered by the Office of Foreign Assets Control. (6) Disclosure to U.S. Customs Service in cases which jointly involve similar matters, or which involve, jointly, both the FAC and the U.S. Customs Service. (7) Disclosure to the State Department in connection with foreign policy aspects of legal problems involved. (8) Disclosure to U.S. Department of Commerce where cases involve matters of interest to, or which are in the jurisdiction of that Department. (9) For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: The Foreign Assets Control Litigation records consist of documents in folders which are stored in file cabinets secured by approved detachable combination locks. The files are retrieved by name of the individual. During normal working hours, the room where these records are kept is manned by persons who are instructed not to allow unauthorized persons into the file area, nor to disclose or release any material to persons other than FAC personnel. During off-duty hours, the room in which the records are kept is safe-guarded by appropriate electronic protective devices. The Litigation records are maintained indefinitely as research source and legal precedent.

System manager(s) and address: Director, Office of Foreign Assets Control, 1331 G Street, N.W., U.S. Department of the Treasury, Washington, D.C. 20220.

Notification procedure: Individuals wishing to be notified if they are named in this system of records, or gain access to records maintained in this system must submit a written request containing the following elements: (1) Identify the record system; (2) Identify the category and type of records sought; (3) Provide at least two items of secondary identification (date of birth, employee identification number, dates of employment or similar information). Address inquiries to Chief, Disclosure Branch (See Access below).

Record access procedures: Chief, Disclosure Branch, Department of the Treasury, Room 1322, 1500 Pennsylvania Avenue, NW, Washington, DC 20220.

Contesting record procedures: See Access above.

Record source categories: PLEADINGS AND OTHER MATERIALS FILED DURING COURSE OF A LEGAL PROCEEDING; DISCOVERY OBTAINED PURSUANT TO APPLICABLE COURT RULES; Materials obtained from FAC Enforcement Section; material obtained pursuant to request made on other Federal agencies; Orders, opinions, decisions of courts.

Treasury/OS 00.117

System name: Foreign Assets Control Mailing List—Treasury/OS

System location: 1331 G Street, N.W., Washington, D.C. 20220.

Categories of individuals covered by the system: Individuals who have asked to be advised of any amendments, announcements, etc., pertaining to the Regulations administered by this Office.

Categories of records in the system: Index cards and addressograph plates containing names and addresses of all persons to whom information regarding the Regulations is sent.

Authority for maintenance of the system: Statutory: Section 5(b) of the Trading with the Enemy Act (50 USC, App., Section 5(b). Section 5 of the United Nations Participation Act (22 USC Section 287c). Section 620(a) of the Foreign Assistance Act of 1961 (22 USC Section 2370(a). Executive Orders: Executive Order 9193; Executive Order 9989; Executive Order 11322; Executive Order 11419; Proc. 3447. Regulations: Foreign Assets Control Regulations, 31 CFR Part 500; Cuban Assets Control Regulations, 31 CFR Part 515; Rhodesian Sanctions Regulations, 31 CFR Part 530; Transaction Control Regulations, 31 CFR Part 505; Foreign Funds Control Regulations, 31 CFR Part 520.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: (1) Information in this system of records is used by FAC to enable the Government Printing Office to send out information regarding our Regulations to all interested parties. (2) For additional routine uses see appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Index cards and addressograph plates.

Retrievability: Indexed by name of individual or corporation.

Safeguards: The FAC mailing list records consist of index cards filed in index card boxes. The room where these records are stored is manned by FAC personnel who are instructed not to admit unauthorized persons, nor to release any material from these records to persons other than FAC personnel. During off duty hours this room is locked and safe-guarded by appropriate security measures. The addressograph plates are stored at the Government Printing Office.

System manager(s) and address: Director, Office of Foreign Assets Control, U.S. Treasury Department, Washington, D.C. 20220.

Notification procedure: Individuals wishing to be notified if they are named in this system of records, or gain access to records maintained in this system must submit a written request containing the following elements: (1) Identify the record system; (2) Identify the category and type of records sought; (3) Provide at least two items of secondary identification (date of birth, employee identification number, dates of employment or similar information). Address inquiries to Chief, Disclosure Branch (See Access below).

Record access procedures: Chief, Disclosure Branch, Department of the Treasury, Room 1322, 1500 Pennsylvania Avenue, NW, Washington, DC 20220.

Contesting record procedures: See Access above.

Record source categories: See Category of Individual.

Treasury/OS 00.118

System name: Foreign Assets Control Licensing Records—Treasury/OS

System location: 1331 G Street, N.W., Washington, D.C. 20220.

Categories of individuals covered by the system: Applicants for license to import prohibited goods from countries designated in Regulations administered by Office of Foreign Assets Control. Applicants for license to remit funds to countries designated in Regulations of the Office of Foreign Assets Control. Applicants for license authorizing engagement in other transactions and activities which are prohibited by Regulations of the Office of Foreign Assets Control.

Categories of records in the system: Applications for Treasury license; information in support of applications submitted by applicant; information from other sources regarding such applications; copies of agency action granting or denying applications; requests for amendment of license; requests for rehearing or appeal of denial actions; other information related to any of the foregoing.

Authority for maintenance of the system: Statutes: Section 5(b) of the Trading with the Enemy Act (50 USC, App. Section 5(b)). Section 5 of the United Nations Participation Act (22 USC 287 (1)(c)(1)). Section 620 (a) of the Foreign Assistance Act of 1961 (22 USC 2370 (a)). Executive Orders: E.O. 9193; E.O. 9989; E.O. 11322; E.O. 11419; Proc. 3447. Regulations: Foreign Assets Control Regulations 31 CFR, Part 500; Transaction Control Regulations 31 CFR, Part 505; Cuban Assets Control Regulations 31 CFR, Part 515; Foreign Funds Control Regulations 31 CFR, Part 520; Rhodesian Sanctions Regulations 31 CFR, Part 530.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: (1) Furnishing of information to the FAC Enforcement Section where it appears that some willful violation of Treasury regulation or requirement may have occurred. (2) Comparison with subsequent application from same applicant. (3) Consultation with State, Commerce and Defense, as appropriate concerning applicable policy and relevant facts. (4) Furnishing information to the U.S. Customs Service where it appears that a Customs requirement or regulation has not been complied with. (5) Furnishing information to Internal Revenue Service where it appears that a matter within the jurisdiction of that agency is involved. (6) Furnishing of information to the Department of Commerce where it appears that a requirement or regulation of that agency is involved. (7) Notice to the U.S. Customs Service (a) of importers who have made illegal importations or prohibited publications, and (b) of persons who are authorized to make commercial importations of prohibited publications (under regulations administered by the Office of Foreign Assets Control). (8) Furnishing of report to Justice Department where it appears that some civil or criminal violation by applicant of a Treasury regulation or other requirement has occurred. (9) For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: The Foreign Assets Control Licensing records consist of documents in folders which are stored in file cabinets. Each such file cabinet is outfitted with a detachable combination lock.

The records are retrieved by license numbers, and may also be obtained by means of a card-index file. During normal working hours, the file room is manned by persons who are instructed not to allow unauthorized persons into the file area, nor to disclose or release any material to persons other than FAC personnel. During off-duty hours, the file rooms are safe-guarded by appropriate electronic protective devices. The FAC licensing records are maintained indefinitely for so long as the assets or transactions involved are subject to regulations. Records are also stored at the Federal Record Center, Suitland, Maryland.

System manager(s) and address: Director, Office of Foreign Assets Control, U.S. Treasury Department, Washington, D.C. 20220.

Notification procedure: Individuals wishing to be notified if they are named in this system of records, or gain access to records maintained in this system must submit a written request containing the following elements: (1) Identify the record system; (2) Identify the category and type of records sought; (3) Provide at least two items of secondary identification (date of birth, employee identification number, dates of employment or similar information). Address inquiries to Chief, Disclosure Branch (See Access below).

Record access procedures: Chief, Disclosure Branch, Department of the Treasury, Room 1322, 1500 Pennsylvania Avenue, NW, Washington, DC 20220.

Contesting record procedures: See Access above.

Record source categories: The majority of information concerning an individual applicant in a FAC License Record will typically have come from the applicant. On infrequent occasions some such information will have been obtained from other governmental agencies; or, during the course of an investigation by the FAC Enforcement Section.

Treasury/OS 00.123

System name: ORS Contractors File—Treasury/OS.

System location: 2401 'E' Street, N.W., Washington, D.C. 20226.

Categories of individuals covered by the system: Contractors offering services.

Categories of records in the system: File containing individual contracts maintained in alphabetical sequence. Contents include: contract request, justification, source recommended, sole source when applicable, experience, references, bid for services.

Authority for maintenance of the system: For Administrative Officer in providing necessary services and Budget Analysis for payment of accounts. 5 USC 301.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: For Manager in checking services required. For Administrative Officer in securing contract. For Budget Analysis in payment for services. For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: (1) Records maintained in locked file cabinet. (2) Records filed in alphabetical sequence. (3) Director's office, Managers and persons assigned to project may review file along with Contract Officers from Administrative Services, Main Treasury.

System manager(s) and address: Administrative Officer: ORS, 2401 "E" Street, N.W., Washington, D.C. 20226.

Notification procedure: Office of Revenue Sharing, 2401 'E' Street, N.W., Washington, D.C. 20226.

Record access procedures: Written request mailed to: Administrative Officer, 2401 'E' Street, N.W., Room 1564, Washington, D.C. 20226.

Contesting record procedures: See Access above.

Record source categories: Information came from consultants giving services, contract officer for agreement, budget analysis for approval of funds and payment upon approved completion of the contract.

Treasury/OS 00.128

System name: ORS Personnel Records—Treasury/OS.

System location: 2401 'E' Street, N.W., Washington, D.C. 20226.

Categories of individuals covered by the system: Employees.

Categories of records in the system: A current employees file, in alphabetical sequence, is maintained which includes: application, certification and appointment, promotional appraisals, performance appraisals, corrective action, absence and leave, training and development programs, recognition for outstanding performance.

A former employee's file, in alphabetical sequence, is maintained for six months at which time all material is sent to official file in Office of the Secretary, Main Treasury.

A recruitment file, in alphabetical sequence, is maintained for one year. Applicants submit forms and resumes for consideration.

Authority for maintenance of the system: Personnel records kept to furnish Office of the Secretary Personnel, Main Treasury, status and development of employees.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: For Managers and individual employees use in checking personnel records. For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: (1) Records maintained in locked file cabinet. (2) Records filed in alphabetical sequence. (3) Records maintained in locked file cabinet. Managers may request the files of their employees for review and approval. Individual employees may request files for update or review. Any other requests for personnel information is handled by Office of the Secretary Personnel Division at Main Treasury.

System manager(s) and address: Administrative Officer: ORS, 2401 'E' Street, N.W.—Room 1564, Washington, D.C. 20226.

Notification procedure: Same as above.

Record access procedures: Written request mailed to: Administrative Officer: ORS, 2401 'E' Street, N.W.—Room 1564, Washington, D.C. 20226.

Contesting record procedures: See Access above.

Record source categories: Information came from individual employees, supervisors, Personnel, Main Treasury.

Treasury/OS 00.140

System name: Annual Performance Rating and Annual Performance Analysis—Treasury/OS.

System location: Room 3006, Main Treasury Building, 15th and Pennsylvania Avenue, N.W., Washington, D.C. 20220.

Categories of individuals covered by the system: Annual Performance Rating—Present and former employees of the Office of the General Counsel. Annual Performance Analysis—Present and former attorneys of the Legal Division.

Categories of records in the system: The information in this system takes the form of ratings and performance analyses prepared by the employee's supervisors.

Authority for maintenance of the system: In accordance with the Department of the Treasury Office of the General Counsel rules for promotion and Treasury Personnel Manual, Chapter 430, 8, D(1).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Used by supervisory personnel in connection with promotions, wage increases, and review of employee's general work performance level. For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: File cabinets.

Retrievability: By year, name of employee, and bureau.

Safeguards: The files are kept in cabinets with an extremely limited number of employees permitted access (such as the General Counsel, Deputy General Counsel, Assistant General Counsels, or Chief Counsels).

Retention and disposal: The records are maintained for five years.

System manager(s) and address: Administrative Officer, Office of the General Counsel, Room 3006, Main Treasury, 15th and Pennsylvania Avenue, N.W., Washington, D.C. 20220.

Notification procedure: See System Manager above.

Record access procedures: See System Manager above.

Contesting record procedures: See System Manager above.

Record source categories: Head of the office to which the employee is assigned.

Treasury/OS 00.141

System name: Attorney Books—Treasury/OS.

System location: Room 3006, Main Treasury Building, 15th and Pennsylvania Avenue, N.W., Washington, D.C. 20220.

Categories of individuals covered by the system: Present attorneys of the Legal Division of the Treasury Department.

Categories of records in the system: The information in this system takes the form of brief personal and professional information on attorneys in the Legal Division. Includes date of birth, educational and professional data, and pay grade.

Authority for maintenance of the system: Title 5, U.S. Code. In accordance with the Department of the Treasury Office of the General Counsel rules for employment and promotion.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Used by General Counsel, Deputy General Counsel, and Administrative Officer for reference. For additional routine use see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Desk copies for three officials.

Retrievability: By name of individual and bureau or organization.

Safeguards: Copies kept in the office of the official to whom assigned.

Retention and disposal: The records are maintained only while the attorney is employed by the Office of the General Counsel.

System manager(s) and address: Administrative Officer, Office of the General Counsel, Room 3006, Main Treasury, 15th and Pennsylvania Avenue, N.W., Washington, D.C. 20220.

Notification procedure: See System Manager above.

Record access procedures: See System Manager above.

Contesting record procedures: See System Manager above.

Record source categories: Personnel records.

Treasury/OS 00.142

System name: Attorneys Past and Present—Treasury/OS.

System location: Room 3006, Main Treasury Building, 15th and Pennsylvania Avenue, N.W., Washington, D.C. 20220.

Categories of individuals covered by the system: Present and former attorneys of the Office of the General Counsel.

Categories of records in the system: The information in this system consists of materials relating to the employee's application and employment with the Office of the General Counsel. It includes letters of recommendation, hiring recommendations, and other similar information concerning the employee.

Authority for maintenance of the system: Title 5, U.S. Code. In accordance with the Department of the Treasury Office of the General Counsel rules for promotion.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Used by supervisory personnel in connection with promotions, wage increases, and reviewing employee's general work performance level. With respect to former employees, information used for reference purposes.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: File cabinets.

Retrievability: By name of individual.

Safeguards: The files are kept in cabinets with a limited number of employees permitted access.

Retention and disposal: The records contain information on all present attorney-employees of the General Counsel's Office and on former attorney-employees for the past two years.

System manager(s) and address: Administrative Officer, Office of the General Counsel, Room 3006, Main Treasury, 15th and Pennsylvania Avenue, N.W., Washington, D.c. 20220.

Notification procedure: See System Manager above.

Record access procedures: See System Manager above.

Contesting record procedures: See System Manager above.

Record source categories: Individual on whom record is maintained, employee's supervisors, and applicant's interviewer.

Treasury/OS 00.144

System name: Civil Litigation Records—Treasury/OS.

System location: U.S. Treasury Department, Office of the General Counsel, 1500 Pennsylvania Avenue, N.W., Washington, D.C. 20220.

Categories of individuals covered by the system: Persons who are parties, plaintiff or defendant, in civil litigation (as described below) with the Treasury Department.

Categories of records in the system: This system of records contains information or documents related to litigation involving or concerning the Department or its officials. The records consist of pleadings, investigative reports, legal memoranda and related correspondence.

Authority for maintenance of the system: Title 31, U.S.C., Section 1009.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: These records are used to prosecute or defend court cases related to certain general civil litigation. For additional routine uses see Appendix AA except for tax matters or matters litigated in the U.S. Customs Courts, and to provide cooperation to the U.S. Department of Justice in marshalling facts, correlating evidence, and preparing pleadings and briefs.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: These records are maintained in file folders with index cards.

Retrievability: These records are indexed by the title of the case.

Safeguards: Access to and use of these records are limited to those persons whose official duties require such access.

Retention and disposal: The records are maintained during the pendency of the litigation and approximately one year thereafter are transferred to the Federal Records Center, Suitland, Maryland. They are destroyed by the Federal Records Center when the records are 7 years old.

System manager(s) and address: Administrative Officer, Room 3006, U.S. Treasury Department, 1500 Pennsylvania Avenue, N.W., Washington, D.C. 20220.

Notification procedure: Individuals wishing to be notified if they are named in this system of records, or gain access to records maintained in this system must submit a written request containing the following elements: (1) Identify the record system; (2) Identify the category and type of records sought; (3) Provide at least two items of secondary identification (date of birth, employee identification number, dates of employment or similar information). Address inquiries to Chief, Disclosure Branch (See Access below).

Record access procedures: Chief, Disclosure Branch, Department of the Treasury, Room 1322, 1500 Pennsylvania Avenue, NW, Washington, DC 20220.

Contesting record procedures: See Access above.

Systems exempted from certain provisions of the act: Exempt under Subsection (k)(2), 31 C.F.R. 1.36.

Treasury/OS 00.145

System name: Claimants, Disbursing—Treasury/OS

System location: U.S. Treasury Department, Office of the General Counsel, 1500 Pennsylvania Avenue, N.W., Washington, D.C. 20220.

Categories of individuals covered by the system: Claimants for Disbursements by the United States.

Categories of records in the system: Correspondence, memoranda, and related material.

Authority for maintenance of the system: 50 U.S.C. App. 1705-1707, Title 31, United States Code, Department Circulars No. 145 and 830.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: To process disbursements in accordance with Departmental regulations. For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Boxes in Federal Records Center.

Retrievability: Name of claimant.

Safeguards: Files are in Records Center; access is limited to persons on official business.

Retention and disposal: Files kept for an indefinite period.

System manager(s) and address: Administrative Officer, Office of the General Counsel, U.S. Treasury Department, 1500 Pennsylvania Avenue, N.W., Washington, D.C. 20220.

Notification procedure: Individuals wishing to be notified if they are named in this system of records, or gain access to records maintained in this system must submit a written request containing the following elements: (1) Identify the record system; (2) Identify the category and type of records sought; (3) Provide at least two items of secondary identification (date of birth, employee identification number, dates of employment or similar information). Address inquiries to Chief, Disclosure Branch (See Access below).

Record access procedures: Chief, Disclosure Branch, Department of the Treasury, Room 1322, 1500 Pennsylvania Avenue, NW, Washington, DC 20220.

Contesting record procedures: See Access above.

Record source categories: Individuals and their representatives.

Treasury/OS 00.146

System name: Employee Inventions—Treasury/OS.

System location: U.S. Treasury Department, Office of the General Counsel, Opinion Section, 1500 Pennsylvania Avenue, N.W., Washington, D.C. 20220.

Categories of individuals covered by the system: Employee-Inventors.

Categories of records in the system: Information relating to inventions of employees.

Authority for maintenance of the system: 5 U.S.C., Section 301, 31 CFR Part 7.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Used in connection with Government and employee rights in employee inventions, disclosure to U.S. Patent Office. For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Legal file in file cabinet.

Retrievability: By name of inventor-employee.

Safeguards: File cabinet is in office of attorney, but unlocked.

Retention and disposal: Indefinite as precedent files.

System manager(s) and address: Administrative Officer, Office of the General Counsel, Treasury Department, 1500 Pennsylvania Avenue, N.W., Washington, D.C. 20220.

Notification procedure: See System Manager.

Record access procedures: See System Manager.

Contesting record procedures: See System Manager.

Record source categories: Employees involved.

Treasury/OS 00.147

System name: Employee Promotion Information—Treasury/OS.

System location: Room 2314, Main Treasury Building.

Categories of individuals covered by the system: Past and present employees of the Office of the Assistant General Counsel for International Affairs.

Categories of records in the system: The information in this system of records takes the form of recommendations for promotion of various past and present employees in the office.

Authority for maintenance of the system: 5 U.S.C. 301.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Internal memoranda and accompanying forms circulated to Treasury Department officials authorized to grant promotions. For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Typed memoranda and required personnel forms.

Retrievability: The file is labeled "Personnel" and contains separate memoranda designating the employee's name after the heading "subject".

Safeguards: The file is kept in a locked file cabinet. A limited number of employees retain the combination to the file.

Retention and disposal: The records date back to 1969, the time of the first promotion arising under the last Assistant General Counsel for International Affairs.

System manager(s) and address: Administrative Officer, Office of the General Counsel, Room 3006, Department of the Treasury, 1500 Pennsylvania Avenue, N.W., Washington, D.C. 20020.

Notification procedure: See System Manager above.

Record access procedures: See System Manager above.

Contesting record procedures: See System Manager above.

Record source categories: These records take the form of memoranda drafted by the Assistant General Counsel for International Affairs, recommending various members of his staff for grade and/or step increases.

Treasury/OS 00.148

System name: Employment Applications—Treasury/OS.

System location: Room 3006, Main Treasury Building, 15th and Pennsylvania Avenue, N.W., Washington, D.C. 20220.

Categories of individuals covered by the system: Applicants for employment as attorneys within the Office of the General Counsel.

Categories of records in the system: Contains original or copy of Standard Form 171, resume, and any correspondence between the applicant and the General Counsel, Deputy General Counsel and Administrative Officer.

Authority for maintenance of the system: In accordance with the Department of the Treasury Office of the General Counsel rules relating to employment.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Used in making decisions on employment of attorneys by the Office of the General Counsel, responding to inquiries from members of Congress regarding constituents, and for reference purposes. For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: File cabinets.

Retrievability: By name of individual.

Safeguards: The files are kept in cabinets with a limited number of employees permitted access.

Retention and disposal: The records are maintained for a period of two years unless the applicant is subsequently employed by the Department. These latter records are transfered to the Treasury Department/OS; Attorneys Past and Present system.

System manager(s) and address: Administrative Officer, Office of the General Counsel, Room 3006, Main Treasury, 15th and Pennsylvania Avenue, N.W., Washington, D.C. 20220.

Notification procedure: See System Manager above.

Record access procedures: See System Manager above.

Contesting record procedures: See System Manager above.

Record source categories: Individual on whom the record is maintained and other interested parties at the initiation of the individual concerned.

Treasury/OS 00.149

System name: Foreign Assets Control Legal Files—Treasury/OS

System location: 1331 G Street N.W., Room 504, Washington, D.C. 20220.

Categories of individuals covered by the system: Individuals who have corresponded with (or been the subject of correspondence) regarding legal matters and regulations administered by the Office of Foreign Assets Control; and individuals who have been criminally prosecuted, or involved in civil litigation (as plaintiff or defendant) with the United States, in matters involving statutes and/or regulations administered by the Office of Foreign Assets Control (e.g.: criminal prosecutions for violation of statutes and regulations; suits to enjoin the Office of Foreign Assets Control from holding bank accounts or other property in a blocked status; suits to compel the Office of Foreign Assets Control to issue licenses for import of merchandise from a designated country; suits seeking to have statutes and regulations administered by Foreign Assets Control held unconstitutional, in fact or as applied; etc.).

Categories of records in the system: Copies of the pleading and all other legal documents connected with civil litigation and criminal proceedings involving statutes and regulations administered by the Office of Foreign Assets Control, including memoranda of law, drafts of legal briefs, and other material prepared by the FAC legal staff for use in such litigation; material obtained pursuant to discovery under applicable court rules (depositions, written interrogatories, etc.); copies of final orders, decrees, and opinions of courts in such litigation, and copies of correspondence relating to activities of any party to such litigation (containing information relevant to the issues involved in the litigation); or other general correspondence regarding the Office of Foreign Assets Control legal matters.

Authority for maintenance of the system: Statutes: Section 5(b) of the Trading with the Enemy Act (50 USC, App. Section 5(b)). Section 5 of the United Nations Participation Act (22 USC, Section 287c). Section 620 (a) of the Foreign Assistance Act of 1961 (22 USC 2370 (a)). Executive Orders: E.O. 9193; E.O. 9989; E.O. 11322; E.O. 11419: Proc. 3447. Regulations: Foreign Funds Control Regulations, (31 CFR, Part 520); Foreign Assets Control Regulations, (31 CFR, Part 500); Cuban Assets Control Regulations, (31 CFR, Part 515); Rhodesian Sanctions Regulations, (31 CFR, Part 530); Transactions Control Regulations, (31 CFR, Part 505).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: (1) Preparation and conduct of litigation in process by the Justice Department. (2) Research source for the FAC Enforcement section. (3) Source of information for the FAC Licensing section in consideration of applications for FAC license. (4) Source of legal precedents and for other legal research by the FAC Legal section. (5) Referral to Department of Justice in cases involving Statutes and Regulations administered by the Office of Foreign Assets Control. (6) Disclosure to U.S. Customs Service in cases which jointly involve similar matters, or which involve, jointly, both the FAC and the U.S. Customs Service. (7) Disclosure to the State Department in connection with foreign policy aspects of legal problems involved. (8) Disclosure to U.S. Department of Commerce where cases involve matters of interest to, or which are in the jurisdiction of that Department. (9) For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: The Foreign Assets Control Litigation records consist of documents in folders which are stored in file cabinets secured by approved detachable combination locks. The files are retrieved by name of the individual. During normal working hours, the room where these records are kept is manned by persons who are instructed not to allow unauthorized persons into the file area, nor to disclose or release any material to persons other than FAC personnel. During off-duty hours, the room in which the records are kept is safe-guarded by appropriate electronic protective devices.

The Litigation records are maintained indefinitely as research source and legal precedent.

System manager(s) and address: Administrative Officer, Room 3006, U.S. Treasury Department, Washington, D.C. 20220.

Notification procedure: Individuals wishing to be notified if they are named in this system of records, or gain access to records maintained in this system must submit a written request containing the following elements: (1) Identify the record system; (2) Identify the category and type of records sought; (3) Provide at least two items of secondary identification (date of birth, employee identification number, dates of employment or similar information). Address inquiries to Chief, Disclosure Branch (See Access below).

Record access procedures: Chief, Disclosure Branch, Department of the Treasury, Room 1322, 1500 Pennsylvania Avenue, NW, Washington, DC 20220.

Contesting record procedures: See Access above.

Record source categories: Pleadings and other materials filed during course of a legal proceeding; discovery obtained pursuant to applicable court rules; materials obtained from FAC Enforcement Section; material obtained pursuant to requests made on other Federal agencies; orders, opinions, decisions of courts.

Treasury/OS 00.150

System name: Disclosure Records

System location: Office of the Secretary, Department of the Treasury, 1500 Pennsylvania Avenue, NW, Washington D.C. 20220

Categories of individuals covered by the system: Individuals requesting information.

Categories of records in the system: Requests for records or information pursuant to the Freedom of Information Act, 5 USC 552, internal processing documents and memoranda, referrals and copies of requested records.

Authority for maintenance of the system: Freedom of Information Act, 5 U.S.C. 552, 31 CFR Part 1.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: For reporting requirements as required by the Act; to respond to other Department officials who request information regarding persons making an FOI request; evaluation purposes and determination of volume of requests received and the impact on the current workload; preparation of budget; disclosures in accordance with Freedom of Information Act, to other agencies when required for coordination of response or referral; to Department of Justice for defending law suits; to Congressional Committees; for additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in file jackets.

Retrievability: By name and case number. Access to the files containing the records is by case number obtained from alphabetized card indices.

Safeguards: Filed in filing cabinet and released only to individuals with legitimate right to review.

Retention and disposal: In accordance with the provisions of the Act and Departmental records management procedures.

System manager(s) and address: Chief, Disclosure Branch, Room 1322, 1500 Pennsylvania Avenue, NW, Washington, D.C. 20220.

Notification procedure: Individuals wishing to be notified if they are named in this system of records, or gain access to records maintained in this system must submit a written request containing the following elements: (1) Identify the record system; (2) Identify the category and type of records sought: (3) Provide at least two items of secondary identification (date of birth, employee identification number, dates of employment or similar information). Address inquiries to Chief, Disclosure Branch at the above address.

Record access procedures: See System Manager and Access above.

Contesting record procedures: See System Manager and Access above.

Record source categories: Individuals who make Freedom of Information Act requests. Federal officials responding to Freedom of Information Act requests and documents from official records.

Treasury/OS 00.151

System name: Gifts to the United States—Treasury/OS.

System location: U.S. Treasury Department, Office of the General Counsel, 1500 Pennsylvania Avenue, N.W., Washington, D.C. 20220.

Categories of individuals covered by the system: Donors of inter vivos and testamentary gifts to the United States.

Categories of records in the system: Correspondence, copies of wills and court proceedings, and other material related to gifts to the United States.

Authority for maintenance of the system: 50 U.S.C. 1151-1156. Department Circular No. 865 (revised).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: To process gifts to the United States and claims against such gifts in accordance with Departmental regulations. For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Boxes in Federal Records Centers.

Retrievability: Name of donor.

Safeguards: Files are in Records Center; access is limited to persons on official business.

Retention and disposal: Files kept for an indefinite period.

System manager(s) and address: Administrative Officer, Office of the General Counsel, U.S. Treasury Department, 1500 Pennsylvania Avenue, N.W., Washington, D.C. 20220.

Notification procedure: Individuals wishing to be notified if they are named in this system of records, or gain access to records maintained in this system must submit a written request containing the following elements: (1) Identify the record system; (2) Identify the category and type of records sought; (3) Provide at least two items of secondary identification (date of birth, employee identification number, dates of employment or similar information). Address inquiries to Chief, Disclosure Branch (See Access below).

Record access procedures: Chief, Disclosure Branch, Department of the Treasury, Room 1322, 1500 Pennsylvania Avenue, NW, Washington, DC 20220.

Contesting record procedures: See Access above.

Record source categories: Individuals, executors, administrators and other involved persons.

Treasury/OS 00.152

System name: General Counsel Personnel Files—Treasury/OS.

System location: Room 3006, Main Treasury Building, 15th and Pennsylvania Avenue, N.W., Washington, D.C. 20220.

Categories of individuals covered by the system: Present and former attorneys and applicants for positions within the Office of the General Counsel.

Categories of records in the system: The information in this system consists of applications, letters of recommendation and other information concerning the qualifications of the individuals within the category.

Authority for maintenance of the system: Title 5, U.S. Code. In accordance with statutory and Department of the Treasury Office of the General Counsel rules for Presidential appointments, hiring and promotions.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Used by the General Counsel and other senior Department officials in connection with promotions and hiring of senior attorneys within the General Counsel's office. For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: File cabinets.

Retrievability: Filed alphabetically.

Safeguards: The files are kept in locked cabinets with a limited number of employees permitted access.

Retention and disposal: The records include individuals who are or have been employed or sought employment with the General Counsel's Office since 1956.

System manager(s) and address: Administrative Officer, Office of the General Counsel, Room 3006, Main Treasury, 15th and Pennsylvania Avenue, N.W., Washington, D.C. 20220.

Notification procedure: See System Manager above.

Record access procedures: See System Manager above.

Contesting record procedures: See System Manager above.

Record source categories: Individual concerned, letters of recommendation, and other data submitted pursuant to the General Counsel's and the individual's request.

Treasury/OS 00.153.

System name: Personnel: General Counsel, Deputy General Counsels and Assistant General Counsels—Treasury/OS.

System location: Room 3006, Main Treasury Building, 15th and Pennsylvania Avenue, N.W., Washington, D.C. 20220.

Categories of individuals covered by the system: Present and past General Counsels, Deputy General Counsels, and Assistant General Counsels.

Categories of records in the system: Contains information on the individual's tenure in office: date of appointment and resignation.

Authority for maintenance of the system: 5 U.S.C. 301.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Used for reference purposes. For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Files in Office of the Administrative Officer, Office of the General Counsel.

Retrievability: By title of position and name of individual.

Safeguards: Administrative Officer controls access to the system.

Retention and disposal: Information retained on officials for indefinite periods.

System manager(s) and address: Administrative Officer, Office of the General Counsel, Room 3006, Main Treasury, 15th and Pennsylvania Avenue, N.W., Washington, D.C. 20220.

Notification procedure: See System Manager above.

Record access procedures: See System Manager above.

Contesting record procedures: See System Manager above.

Record source categories: Personnel records.

Treasury/OS 00.154

System name: Private relief bill system—Treasury/OS.

System location: Office of the General Counsel, Room 1417, Treasury Department, 1500 Pennsylvania Ave., N.W., Washington, D.C. 20220.

Categories of individuals covered by the system: Individuals who have had private relief bills introduced in Congress on their behalf.

Categories of records in the system: Congressional committee or OMB request for Treasury views on proposed legislation plus comments on proposal from offices or bureaus of Treasury.

Authority for maintenance of the system: 5 U.S.C. 301. A function of the Office of the General Counsel is to handle and coordinate legislative work that concerns Treasury.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: System is used to furnish reports on proposed legislation to Congress or OMB. For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: Indexed on 5 by 8 card by bill number but cross-indexed to individual's name. Complete file is kept by bill number and Congress. Permanent file.

System manager(s) and address: Administrative Officer, Room 3006, Department of the Treasury, 1500 Pennsylvania Ave., N.W., Washington, D.C. 20220.

Notification procedure: Individuals wishing to be notified if they are named in this system of records, or gain access to records maintained in this system must submit a written request containing the following elements: (1) Identify the record system; (2) Identify the category and type of records sought; (3) Provide at least two items of secondary identification (date of birth, employee identification number, dates of employment or similar information). Address inquiries to Chief, Disclosure Branch (See Access below).

Record access procedures: Chief, Disclosure Branch, Department of the Treasury, Room 1322, 1500 Pennsylvania Avenue, NW, Washington, DC 20220.

Contesting record procedures: See Access above.

Record source categories: Sources of the request are usually Congressional committees or OMB. Other information comes from Treasury bureau or office concerned in matter and from the individual concerned.

Treasury/OS 00.156

System name: Tax Court Judge Applicants—Treasury/OS.

System location: Room 3000, Main Treasury Building, 15th and Pennsylvania Avenue, N.W., Washington, D.C. 20220.

Categories of individuals covered by the system: Individuals requesting consideration for appointment to Tax Court judgeships.

Categories of records in the system: Information concerning the qualification of individuals for appointment to the Tax Court.

Authority for maintenance of the system: In accordance with the requirements for Presidential appointments, 26 U.S.C. 7443.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Used by senior Treasury Department officials in making recommendations to the President on appointments to the Tax Court. For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: File cabinets.

Retrievability: By name of individual.

Safeguards: The files are kept in locked cabinets with a limited number of employees permitted access.

Retention and disposal: The records relating to individuals date from 1966.

System manager(s) and address: Administrative Officer, Office of the General Counsel, Room 3006, Main Treasury, 15th and Pennsylvania Avenue, N.W., Washington, D.C. 20220.

Notification procedure: Individuals wishing to be notified if they are named in this system of records, or gain access to records maintained in this system must submit a written request containing the following elements: (1) Identify the record system; (2) Identify the category and type of records sought; (3) Provide at least two items of secondary identification (date of birth, employee identification number, dates of employment or similar information). Address inquiries to Chief, Disclosure Branch (See Access below).

Record access procedures: Chief, Disclosure Branch, Department of the Treasury, Room 1322, 1500 Pennsylvania Avenue, NW, Washington, DC 20220.

Contesting record procedures: See Access above.

Record source categories: Individual concerned and letters of recommendation from other individuals submitted at the request of the individual and/or the Department.

Treasury/OS 00.157

System name: Employee Records Cards—Treasury/OS.

System location: Room 3006, Main Treasury Building, 15th and Pennsylvania Avenue, N.W., Washington, D.C. 20220.

Categories of individuals covered by the system: Present and former employees of the Office of the General Counsel.

Categories of records in the system: The information in this system consists of dates of personnel actions, pay increases, promotions, reassignments, change of rolls, retirement, transfer and resignation.

Authority for maintenance of the system: Federal Personnel Manual, Chapter 295 (Standard Form 7-B).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Used by supervisory personnel in connection with promotions, wage increases, and for verification of employment. For additional routine uses, see Treasury Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: File cabinets.

Retrievability: By name of individual.

Safeguards: The files are kept in cabinets with a limited number of employees permitted access.

Retention and disposal: The records are retained on all present and former employees of the Office of the General Counsel.

System manager(s) and address: Administrative Officer, Office of the General Counsel, Room 3006, Main Treasury, 15th and Pennsylvania Avenue, N.W., Washington, D.C. 20220.

Notification procedure: Same as above.

Record access procedures: Same as above.

Contesting record procedures: See Access above.

Record source categories: Standard Form 171 and Standard Form 50.

Treasury/OS 00.160

System name: Abandoned Enrollment Applications—Treasury/OS.

System location: Washington National Record Center, National Archives and Record Service, General Services Administration, Washington, D.C. 20409.

Categories of individuals covered by the system: Individuals who applied for enrollment to practice before the Internal Revenue Service but subsequently abandoned their applications.

Categories of records in the system: Application for enrollment to practice before the Internal Revenue Service and, in some cases, information regarding individuals' fitness for enrollment.

Authority for maintenance of the system: 31 U.S.C. 1026.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Transfer of information to Federal law enforcement authorities for investigation and possible criminal prosecution, civil court action, administrative proceeding or regulatory order with respect to apparent violation of Federal law or regulations. For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Original application form and information relating to it fastened to each other.

Retrievability: This system is indexed by name of applicant.

Safeguards: Those safeguards in effect at Federal Record Center.

Retention and disposal: Permanent retention.

System manager(s) and address: Director of Practice, U.S. Department of the Treasury, Washington, D.C. 20220.

Notification procedure: Individuals wishing to be notified if they are named in this system of records, or gain access to records maintained in this system must submit a written request containing the following elements: (1) Identify the record system; (2) Identify the category and type of records sought; (3) Provide at least two items of secondary identification (date of birth, employee identification number, dates of employment or similar information). Address inquiries to Chief, Disclosure Branch (See Access below).

Record access procedures: Chief, Disclosure Branch, Department of the Treasury, Room 1322, 1500 Pennsylvania Avenue, NW, Washington, DC 20220.

Contesting record procedures: See Access above.

Record source categories: Information contained in this system may have been provided by: (1) Applicant, (2) Individuals, (3) Internal Revenue Service, (4) Other government agencies, (5) Professional organizations.

Treasury/OS 00.161

System name: Applicant Appeal Files—Treasury/OS.

System location: (1) U.S. Department of the Treasury, Office of Director of Practice, 1325 G Street, N.W., Suite 720, Washington, D.C. 20220. (2) Washington National Record Center, National Archives and Record Service, General Services Administration, Washington, D.C. 20409.

Categories of individuals covered by the system: Individuals whose applications for enrollment to practice before the Internal Revenue Service have been denied and who have appealed such denial to the Director of Practice.

Categories of records in the system: Information relating to individuals' applications and eligibility for enrollment to practice before the Internal Revenue Service.

Authority for maintenance of the system: 31 U.S.C. 1026.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: (1) Decision on appeal by Director of Practice from denial of application by the Internal Revenue Service. (2) Decision by Secretary of Treasury on appeal from Director of Practice's sustaining of denial of application for enrollment. (3) For individuals, denial of whose applications for enrollment is reversed by the Director of Practice, for use in connection with subsequent determinations by the Director of Practice as to whether violation of the regulations governing practice before the Internal Revenue Service has occurred. (4) Transfer of information to Federal law enforcement authorities for investigation and possible criminal prosecution, civil court action, administrative proceeding or regulatory order with respect to apparent violation of Federal law or regulations. (5) For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: In file folders.

Retrievability: This system is indexed by name of individual.

Safeguards: This Office keeps all access doors locked when Office personnel are not present. Office personnel are cautioned against unnecessary exposure of information contained in Office files. Secu-

rity investigations are conducted with respect to all Office of Director of Practice personnel.

Retention and disposal: Dispose 25 years after case closed; transfer to Federal Record Center 5 years after case closed except for a random selection of a small number of disciplinary cases to be made at 5-year intervals for retention.

System manager(s) and address: Director of Practice, U.S. Department of the Treasury, Washington, D.C. 20220.

Notification procedure: Individuals wishing to be notified if they are named in this system of records, or gain access to records maintained in this system must submit a written request containing the following elements: (1) Identify the record system; (2) Identify the category and type of records sought; (3) Provide at least two items of secondary identification (date of birth, employee identification number, dates of employment or similar information). Address inquiries to Chief, Disclosure Branch (See Access below).

Record access procedures: Chief, Disclosure Branch, Department of the Treasury, Room 1322, 1500 Pennsylvania Avenue, NW, Washington, DC 20220.

Contesting record procedures: See Access above.

Systems exempted from certain provisions of the act: Exempt under Subsection (k)(2), 31 C.F.R. 1.36.

Treasury/OS 00.162

System name: Closed Files containing Derogatory Information about individuals' practice before the Internal Revenue Service and files of attorneys and certified public accountants formerly enrolled to practice—Treasury/OS.

System location: (1) U.S. Department of the Treasury, Office of Director of Practice, 1325 G Street, N.W., Suite 720, Washington, D.C. 20220. (2) Washington National Records Center, National Archives and Record Service, General Services Administration, Washington, D.C. 20409.

Categories of individuals covered by the system: Individuals eligible to practice before the Internal Revenue Service (attorneys, certified public accountants and enrolled agents).

Categories of records in the system: Information relating to individuals' enrollments to practice before the Internal Revenue Service and, derogatory and other information regarding such practice.

Authority for maintenance of the system: 31 U.S.C. 1026.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: (1) Determinations by the Director of Practice as to whether violations of the regulations governing practice before the Internal Revenue Service have occurred. (2) Transfer of information to Office of Chief Counsel, Internal Revenue Service so that that Office can represent the Director of Practice in hearings before administrative law judges held to determine whether violations of the regulations governing practice before the Internal Revenue Service have occurred and, if so, the appropriate disciplinary action. (3) Transfer of information to Federal law enforcement authorities for investigation and possible criminal prosecution, civil court action, administrative proceeding, or regulatory order with respect to apparent violations of Federal law or regulations. (4) For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: In file folders.

Retrievability: This system is indexed by name of individual.

Safeguards: The Office keeps all access doors locked when Office personnel are not present. Office personnel are cautioned against unnecessary exposure of information contained in Office files. Security investigations are conducted with respect to all Office of Director of Practice personnel.

Retention and disposal: Dispose 25 years after case closed; transfer to Federal Record Center 5 years after case closed except for a random selection of a small number of disciplinary cases to be made at 5-year intervals for retention.

System manager(s) and address: Director of Practice, U.S. Department of the Treasury, Washington, D.C. 20220.

Notification procedure: Individuals wishing to be notified if they are named in this system of records, or gain access to records maintained in this system must submit a written request containing the following elements: (1) Identify the record system; (2) Identify the category and type of records sought; (3) Provide at least two items of secondary identification (date of birth, employee identification number, dates of employment or similar information). Address inquiries to Chief, Disclosure Branch (See Access below).

Record access procedures: Chief, Disclosure Branch, Department of the Treasury, Room 1322, 1500 Pennsylvania Avenue, NW, Washington, DC 20220.

Contesting record procedures: See Access above.

Systems exempted from certain provisions of the act: Exempt under Subsection (k)(2), 31 C.F.R. 1.36.

Treasury/OS 00.163

System name: Derogatory Information (No Action)—Treasury/OS.

System location: U.S. Department of the Treasury, Office of Director of Practice, 1325 G Street, N.W., Suite 720, Washington, D.C. 20220.

Categories of individuals covered by the system: Attorneys, certified public accountants, enrolled agents and others.

Categories of records in the system: Such files contain derogatory information concerning attorneys, certified public accountants, and enrolled agents and others over whom there is no current jurisdiction, where such information is subject to future development, or where such information is not sufficiently serious to be currently considered a case file.

Authority for maintenance of the system: 31 U.S.C. 1026.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: (1) Determinations by the Director of Practice as to whether violations of the regulations governing practice before the Internal Revenue Service have occurred. (2) Transfer of information to Federal law enforcement authorities for investigation and possible criminal prosecution, civil court action, administrative proceeding or regulatory order with respect to apparent violation of Federal law or regulations. (3) For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: In file folders.

Retrievability: This system is indexed by name of individual.

Safeguards: This Office keeps all access doors locked when office personnel are not present. Office personnel are cautioned against unnecessary exposure of office files. Security investigations are conducted with respect to all Office of Director of Practice personnel.

Retention and disposal: Dispose after 5 years by burning.

System manager(s) and address: Director of Practice, U.S. Department of the Treasury, Washington, D.C. 20220.

Notification procedure: Individuals wishing to be notified if they are named in this system of records, or gain access to records maintained in this system must submit a written request containing the following elements: (1) Identify the record system; (2) Identify the category and type of records sought; (3) Provide at least two items of secondary identification (date of birth, employee identification number, dates of employment or similar information). Address inquiries to Chief, Disclosure Branch (See Access below).

Record access procedures: Chief, Disclosure Branch, Department of the Treasury, Room 1322, 1500 Pennsylvania Avenue, NW, Washington, DC 20220.

Contesting record procedures: See Access above.

Systems exempted from certain provisions of the act: Exempt under Subsection (k)(2), 31 C.F.R. 1.36

Treasury/OS 00.164

System name: Present Suspensions and Disbarments Resulting From Administrative Proceeding-Treasury/OS.

System location: (1) U.S. Department of the Treasury, Office of Director of Practice, 1325 G Street, N.W., Suite 720, Washington, D.C. 20220. (2) Washington National Record Center, National Archives and Record Service, General Services Administration, Washington, D.C. 20409.

Categories of individuals covered by the system: Individuals formerly eligible to practice before the Internal Revenue Service but now either suspended or disbarred from such practice after being accorded due notice and opportunity for hearing.

Categories of records in the system: Information relating to individuals' enrollment to practice before the Internal Revenue Service, derogatory and other information regarding such practice, and record of proceedings.

Authority for maintenance of the system: 31 U.S.C. 1026.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: (1) Maintain record of those who have been suspended or disbarred from practice before the Internal Revenue Service and reasons for such action. (2) Determina-

tions by the Director of Practice as to whether suspended or disbarred individuals' petition for reinstatement to practice before the Internal Revenue Service shall be granted. (3) Transfer of information to Federal law enforcement authorities for investigation and possible criminal prosecution, civil court action, administrative proceeding or regulatory order with respect to apparent violation of Federal law. (4) Transfer of information regarding suspension or disbarment of attorneys, certified public accountants and enrolled agents to professional organizations. (5) For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: In file folders.

Retrievability: This system is indexed by name of individual.

Safeguards: This Office keeps all access doors locked when Office personnel are not present. Office personnel are cautioned against unnecessary exposure of information contained in Office files. Security investigations are conducted with respect to all Office of Director of Practice personnel.

Retention and disposal: Dispose 25 years after case closed; transfer to Federal Record Center 5 years after case closed except for a random selection of a small number of disciplinary cases to be made at 5-year intervals for retention.

System manager(s) and address: Director of Practice, U.S. Department of the Treasury, Washington, D.C. 20220.

Notification procedure: Individuals wishing to be notified if they are named in this system of records, or gain access to records maintained in this system must submit a written request containing the following elements: (1) Identify the record system; (2) Identify the category and type of records sought; (3) Provide at least two items of secondary identification (date of birth, employee identification number, dates of employment or similar information). Address inquiries to Chief, Disclosure Branch (See Access below).

Record access procedures: Chief, Disclosure Branch, Department of the Treasury, Room 1322, 1500 Pennsylvania Avenue, NW, Washington, DC 20220.

Contesting record procedures: See Access above.

Systems exempted from certain provisions of the act: Exempt under Subsection (k)(2), 31, C.F.R. 1.36.

Treasury/OS 00.165

System name: General Correspondence File—Treasury/OS.

System location: U.S. Department of the Treasury, Office of Director of Practice, 1325 G Street, N.W., Suite 720, Washington, D.C. 20220.

Categories of individuals covered by the system: General public.

Categories of records in the system: General inquiries and comments from the general public.

Authority for maintenance of the system: 31 U.S.C. 1026.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Provide answers to inquiries or other information regarding the operation of this Office. For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: In file folder.

Retrievability: Correspondence is indexed alphabetically by writer.

Safeguards: This Office keeps all access doors locked when Office personnel are not present. File cabinets in which correspondence is stored are locked during nonbusiness hours. Security investigations are conducted with respect to all Office of Director of Practice personnel.

Retention and disposal: Destroyed after 3 years.

System manager(s) and address: Director of Practice, U.S. Department of the Treasury, Washington, D.C. 20220.

Notification procedure: Inquiries should be addressed to: Office of Director of Practice, U.S. Department of the Treasury Washington, D.C. 20220.

Notification procedure: Individuals wishing to be notified if they are named in this system of records, or gain access to records maintained in this system must submit a written request containing the following elements: (1) Identify the record system; (2) Identify the category and type of records sought; (3) Provide at least two items of secondary identification (date of birth, employee identification number, dates of employment or similar information). Address inquiries to Chief, Disclosure Branch (See Access below).

Record access procedures: Chief, Disclosure Branch, Department of the Treasury, Room 1322, 1500 Pennsylvania Avenue, NW, Washington, DC 20220.

Contesting record procedures: See Access above.

Record source categories: Information contained in records of this system has been provided by the writers of correspondence contained in the system.

Treasury/OS 00.166

System name: Inventory—Treasury/OS.

System location: U.S. Department of the Treasury, Office of Director of Practice, 1325 G Street, N.W., Suite 720, Washington, D.C. 20220.

Categories of individuals covered by the system: Attorneys, certified public accountants and enrolled agents about which alleged misconduct in their practice before the Internal Revenue Service is being reviewed and evaluated.

Categories of records in the system: Information relating to individuals' enrollment or eligibility to practice before the Internal Revenue Service, and information relating to their conduct in such practice.

Authority for maintenance of the system: 31 U.S.C. 1026.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: (1) Determinations by the Director of Practice as to whether violations of the regulations governing practice before the Internal Revenue Service have occurred. (2) Use of information (ordinarily by Office of Chief Counsel, Internal Revenue Service, and the Department of Justice) at administrative hearings and court proceedings relating to individuals' eligibility to represent taxpayers before the Internal Revenue Service. (3) Transfer of information to Federal law enforcement authorities for investigation and possible criminal prosecution, civil court action, administrative proceeding or regulatory order with respect to apparent violations of Federal law or regulations. (4) Transfer of information to Internal Revenue Service for investigation with respect to apparent violation of the regulations governing practice before the Internal Revenue Service. (5) For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: In file folders.

Retrievability: This system is indexed by name of individual.

Safeguards: This Office keeps all access doors locked when Office personnel are not present. File cabinets in which this system is stored are locked during nonbusiness hours. Security investigations are conducted with respect to all Office of Director of Practice personnel.

Retention and disposal: Dispose 25 years after case closed; transfer to Federal Record Center 5 years after case is closed except for a random selection of a small number of disciplinary cases to be made at 5-year intervals for retention.

System manager(s) and address: Director of Practice, U.S. Department of the Treasury, Washington, D.C. 20220.

Notification procedure: Individuals wishing to be notified if they are named in this system of records, or gain access to records maintained in this system must submit a written request containing the following elements: (1) Identify the record system; (2) Identify the category and type of records sought; (3) Provide at least two items of secondary identification (date of birth, employee identification number, dates of employment or similar information). Address inquiries to Chief, Disclosure Branch (See Access below).

Record access procedures: Chief, Disclosure Branch, Department of the Treasury, Room 1322, 1500 Pennsylvania Avenue, NW, Washington, DC 20220.

Contesting record procedures: See Access above.

Systems exempted from certain provisions of the act: Exempt under Subsection (k)(2), 31 C.F.R. 1.36.

Treasury/OS 00.167

System name: Register of Docketed Cases and Applicant Appeals—Treasury/OS.

System location: U.S. Department of the Treasury, Office of Director of Practice, 1325 G Street, N.W., Suite 720, Washington, D.C. 20220.

Categories of individuals covered by the system: Individuals against whom complaints have been filed with the Office of Director of Practice pursuant to Title 31, CFR, Subpart C, Section 10.54, for alleged violation of the regulations governing practice before the Internal Revenue Service and individuals who have appealed to the

Director of Practice the denials of their application for enrollment to practice before the Internal Revenue Service.

Categories of records in the system: Record of actions taken in cases docketed for hearings and record of actions taken on appeals from denials of applications for enrollment.

Authority for maintenance of the system: 31 U.S.C. 1026.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Office of Director of Practice administrative recordkeeping. For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: In loose-leaf binder.

Retrievability: This system is indexed by complaint number and by name of the individual.

Safeguards: This Office keeps all access doors locked when Office personnel are not present. Security investigations are conducted with respect to all Office of Director of Practice personnel.

Retention and disposal: Permanent retention.

System manager(s) and address: Director of Practice, U.S. Department of the Treasury, Washington, D.C. 20220.

Notification procedure: Individuals wishing to be notified if they are named in this system of records, or gain access to records maintained in this system must submit a written request containing the following elements: (1) Identify the record system; (2) Identify the category and type of records sought; (3) Provide at least two items of secondary identification (date of birth, employee identification number, dates of employment or similar information). Address inquiries to Chief, Disclosure Branch (See Access below).

Record access procedures: Chief, Disclosure Branch, Department of the Treasury, Room 1322, 1500 Pennsylvania Avenue, NW, Washington, DC 20220.

Contesting record procedures: See Access above.

Record source categories: Information contained in records in this system has been provided by: (1) this office, (2) administrative law judges, (3) Internal Revenue Service.

Treasury/OS 00.168

System name: Resigned Enrolled Agents (action pursuant to 31 CFR, Section 10.55(b))—Treasury/OS.

System location: U.S. Department of the Treasury, Office of Director of Practice, 1325 G Street, N.W., Suite 720, Washington, D.C. 20220.

Categories of individuals covered by the system: Those individuals who were formerly enrolled to practice before the Internal Revenue Service and who resigned from such enrollment.

Categories of records in the system: Information relating to individuals' applications for enrollment to practice before the Internal Revenue Service and derogatory and other information regarding such practice.

Authority for maintenance of the system: 31 U.S.C. 1026.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: (1) Use in connection with resigned enrollees' future applications for enrollment to practice before the Internal Revenue Service. (2) In cases where resigned enrollees are again enrolled to practice before the Internal Revenue Service, for use in connection with determinations as to whether violations of the regulations governing such practice have occurred. (3) Transfer of information to Federal law enforcement authorities for investigation and possible criminal prosecution, civil court action, administrative proceeding, or regulatory order with respect to apparent violation of Federal law or regulations. (4) For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: In file folders.

Retrievability: This system is indexed by name of individual.

Safeguards: This Office keeps all access doors locked when Office personnel are not present. Office personnel are cautioned against unnecessary exposure of information contained in Office files. Security investigations are conducted with respect to all Office of Director of Practice personnel.

Retention and disposal: Dispose 25 years after case closed; transfer to Federal Records Center 5 years after case closed except for a random selection of a small number of disciplinary cases to be made at 5-year intervals for retention.

System manager(s) and address: Director of Practice, U.S. Department of the Treasury, Washington, D.C. 20220.

Notification procedure: Individuals wishing to be notified if they are named in this system of records, or gain access to records maintained in this system must submit a written request containing the following elements: (1) Identify the record system; (2) Identify the category and type of records sought; (3) Provide at least two items of secondary identification (date of birth, employee identification number, dates of employment or similar information). Address inquiries to Chief, Disclosure Branch (See Access below).

Record access procedures: Chief, Disclosure Branch, Department of the Treasury, Room 1322, 1500 Pennsylvania Avenue, NW, Washington, DC 20220.

Contesting record procedures: See Access above.

Systems exempted from certain provisions of the act: Exempt under Subsection (k)(2), 31 C.F.R. 1.36.

Treasury/OS 00.169

System name: Roster of Former Enrollees—Treasury/OS.

System location: U.S. Department of the Treasury, Office of Director of Practice, 1325 G Street, N.W., Suite 720, Washington, D.C. 20220.

Categories of individuals covered by the system: Attorneys and certified public accountants who were enrolled to practice before the Internal Revenue Service prior to enactment of the Agency Practice Act, Title 5 U.S. Code, Section 500.

Categories of records in the system: This system contains individuals' names, addresses, professions, the dates of their enrollments and the expiration dates of such enrollments.

Authority for maintenance of the system: 31 U.S. Code 1026.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: (1) Determinations as to whether the Office of Director of Practice has jurisdiction over an individual's violation of the regulations governing practice before the Internal Revenue Service. (2) Use of information (ordinarily by Office of Chief Counsel, Internal Revenue Service, and the Department of Justice) at administrative and court proceedings relating to individuals' eligibility to represent taxpayers before the Internal Revenue Service. (3) For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: In loose-leaf binders.

Retrievability: This system is indexed by profession (i.e., attorney or certified public accountant) and by the individual's name.

Safeguards: This Office keeps all access doors locked when Office personnel are not present. Office personnel are cautioned against unnecessary exposure of office files. Security investigations are conducted with respect to all Office of Director of Practice personnel.

Retention and disposal: Permanent retention.

System manager(s) and address: Director of Practice, U.S. Department of the Treasury, Washington, D.C. 20220.

Notification procedure: Individuals wishing to be notified if they are named in this system of records, or gain access to records maintained in this system must submit a written request containing the following elements: (1) Identify the record system; (2) Identify the category and type of records sought; (3) Provide at least two items of secondary identification (date of birth, employee identification number, dates of employment or similar information). Address inquiries to Chief, Disclosure Branch (See Access below).

Record access procedures: Chief, Disclosure Branch, Department of the Treasury, Room 1322, 1500 Pennsylvania Avenue, NW, Washington, DC 20220.

Contesting record procedures: See Access above.

Record source categories: Information contained in records in this system has been provided by: (1) Individuals, (2) Internal Revenue Service.

Treasury/OS 00.170

System name: Present suspensions from practice before the Internal Revenue Service.

System location: (1) U.S. Department of the Treasury, Office of Director of Practice, 1325 G Street, N.W., Suite 720, Washington, D.C. 20220. (2) Washington National Records Center, National Archives and Record Service, General Services Administration, Washington, D.C. 20409.

Categories of individuals covered by the system: Attorneys, certified public accountants and enrolled agents who have offered their con-

sent to voluntary suspension from practice before the Internal Revenue Service.

Categories of records in the system: Information relating to individuals' enrollment or eligibility to practice before the Internal Revenue Service, derogatory and other information relating to their conduct in such practice.

Authority for maintenance of the system: 31 U.S.C. 1026.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: (1) Determinations by the Director of Practice as to whether violations of the regulations governing practice before the Internal Revenue Service have occurred. (2) Determinations by the Director of Practice as to whether suspended practitioners' petitions for reinstatement to practice should be granted. (3) Transfer of information to Federal law enforcement authorities for investigation and possible criminal prosecution, civil court action, administrative proceeding or regulatory order with respect to apparent violation of Federal law or regulations. (4) For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: In file folders.

Retrievability: This system is indexed by name of individual.

Safeguards: This Office keeps all access doors locked when Office personnel are not present. Office personnel are cautioned against unnecessary exposure of Office files and are instructed to lock file cabinets containing these records during nonbusiness hours. Security investigations are conducted with respect to all Office of Director of Practice personnel.

Retention and disposal: Dispose 25 years after case closed; transfer to Federal Records Center 5 years after case closed except for a random selection of a small number of disciplinary cases to be made at 5-year intervals for retention.

System manager(s) and address: Director of Practice, U.S. Department of the Treasury, Washington, D.C. 20220.

Notification procedure: Individuals wishing to be notified if they are named in this system of records, or gain access to records maintained in this system must submit a written request containing the following elements: (1) Identify the record system; (2) Identify the category and type of records sought; (3) Provide at least two items of secondary identification (date of birth, employee identification number, dates of employment or similar information). Address inquiries to Chief, Disclosure Branch (See Access below).

Record access procedures: Chief, Disclosure Branch, Department of the Treasury, Room 1322, 1500 Pennsylvania Avenue, NW, Washington, DC 20220.

Contesting record procedures: See Access above.

Systems exempted from certain provisions of the act: Exempt under Subsection (k)(2), 31 C.F.R. 1.36

Treasury/OS 00.182

System name: Special Personnel Working Files, Office of the Assistant Secretary for Tax Policy—Treasury/OS.

System location: Rooms 3112, 3122, 3108, 4217, 4045, 3064, 4222, 4028, 4004, 4040, Main Treasury Building, 15th Street and Pennsylvania Avenue, N.W. Washington, D.C. 20220, and Room 1036, 1425 K Street, N.W., Washington, D.C. 20225.

Categories of individuals covered by the system: Past, present, and prospective employees and consultants of the Office of the Assistant Secretary and of certain other tax-related governmental institutions.

Categories of records in the system: Correspondence with and about past and prospective employees; memoranda of conversations; time, leave, pay, promotion records, evaluation records; et cetera.

Authority for maintenance of the system: 5 U.S.C. 301.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Used by supervisory and administrative personnel of the Office of the Assistant Secretary as supplementary and complementary to official Departmental personnel files to record personnel actions regarding employees of the Office and as a reference tool in preparation for or review of anticipated or past personnel actions and for advising others, both within and without the Government, as to the qualifications and performance of past, present, and prospective employees of the Office of the Assistant Secretary. For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: The records are maintained on paper in writing.

Retrievability: The records are indexed by the name of the person with respect to whom the record is maintained.

Safeguards: Various.

Retention and disposal: Indefinite.

System manager(s) and address: Assistant Secretary for Tax Policy, Deputy Assistant Secretary for Tax Policy (Tax Legislation), Deputy Assistant Secretary for Tax Policy (Tax Analysis), Tax Legislative Counsel, Deputy Tax Legislative Counsel, Associate Tax Legislative Counsel, International Tax Counsel, Deputy International Tax Counsel, Associate Director Office of Tax Analysis, Director Office of Industrial Economics.

Notification procedure: Freedom of Information Officer, Office of the Assistant Secretary for Tax Policy, Room 3064, Main Treasury Building, 15th Street and Pennsylvania Avenue, N.W., Washington, D.C. 20220, with sufficient identification as to individual's identity and information sufficient to determine within which office the records would most likely be located and the probable age of the record.

Record access procedures: By application to Freedom of Information Officer.

Contesting record procedures: By application to Freedom of Information Officer.

Record source categories: The records are developed from correspondence, memoranda, and official Treasury Department personnel forms.

Treasury/OS 00.183

System name: Private Relief Tax Bill Files—Office of the Assistant Secretary for Tax Policy—Treasury/OS.

System location: Room 4028, Main Treasury Building, 15th Street and Pennsylvania Avenue, Washington, D.C. 20220.

Categories of individuals covered by the system: Individuals who have had private relief tax bills introduced in Congress on their behalf.

Categories of records in the system: Congressional Committee or OMB request for Treasury views on proposed legislation, plus comments on proposal from offices or bureaus of Treasury, plus the Internal Revenue Service data concerning the issues involved and that unit's recommendation, and the report of the Treasury on the Bill.

Authority for maintenance of the system: 5 U.S.C. 301. A function of the Office of the Assistant Secretary for Tax Policy and the Office of the Tax Legislative Counsel is to coordinate legislative work in the tax field that concerns Treasury and to advise the Secretary with respect thereto.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: System is used to furnish reports and testimony to Congress or OMB. For additional routine uses, see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: System manager(s) and address: Tax Legislative Counsel, Room 4028, Main Treasury Building, 15th Street and Pennsylvania Avenue, Washington, D.C. 20220.

Notification procedure: Individuals wishing to be notified if they are named in this system of records, or gain access to records maintained in this system must submit a written request containing the following elements: (1) Identify the record system; (2) Identify the category and type of records sought; (3) Provide at least two items of secondary identification (date of birth, employee identification number, dates of employment or similar information). Address inquiries to Chief, Disclosure Branch (See Access below).

Record access procedures: Chief, Disclosure Branch, Department of the Treasury, Room 1322, 1500 Pennsylvania Avenue, NW, Washington, DC 20220.

Contesting record procedures: See Access above.

Record source categories: Principally the Congress and the Internal Revenue Service.

TREASURY/OS 00.190

System name: General Allegations and Investigative Records System—Treasury/OS.

System location: Office of the Inspector General, Main Treasury Building, Washington, D.C. 20220

Categories of individuals covered by the system: A) Current and former employees of the Department of Treasury and such other persons whose association with current and former employees relate to the alleged violations of the Department's rules of conduct, the Civil Service merit system, or any other criminal or civil misconduct,

which affects the integrity or facilities of the Department of Treasury. The names of individuals and the files in their names may be:

1) received by referral; or

2) initiated at the discretion of the Office of the Inspector General in the conduct of assigned duties.

B) Individuals who are: witnesses; complainants; confidential or non-confidential informants; suspects; defendants; parties who have been identified by the Office of the Inspector General or by other agencies; constituent units of the Department of Treasury and members of the general public in connection with the authorized functions of the Inspector General.

C) Current and former senior Treasury and bureau officials who are the subject of investigations initiated and conducted by the Office of the Inspector General.

Categories of records in the system: Letters, memoranda, and other documents citing complaints of alleged criminal or administrative misconduct. Investigative files which include: reports of investigations to resolve allegations of misconduct or violations of law with related exhibits, statements, affidavits or records obtained during investigations; transcripts and documentation concerning requests and approval for consensual (telephone and consensual non-telephone) monitoring; reports from or to other law enforcement bodies; prior criminal or noncriminal records of individuals as it relates to the investigations; reports of actions taken by management personnel regarding misconduct and reports of legal actions resulting from violations of statutes referred to the Department of Justice for prosecution.

Authority for maintenance of the system: Reorganization Plan No. 26 of 1950 and Treasury Department Order No. 256, dated July 18, 1978.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Routine disclosure of information contained in this system may be made to the Secretary and Deputy Secretary to the Treasury Department, to the Department of Justice in connection with actual or potential criminal prosecution or civil litigation and to the Office of the General Counsel in connection with requests for legal advice; and to authorized investigative offices of the Treasury Department, constituent units or other Federal Agencies. Disclosure may be made during judicial processes. Routine disclosure may be made to the extent provided by law or regulation and as necessary to report apparent violations of law to appropriate law enforcement agencies. Routine disclosure may be made to authorized investigative offices of other Federal Agencies in connection with security procedures. Disclosures to those officers and employees of the Department of Treasury who have a need for the records such as those disclosures required for the administration of the Freedom of Information Act (5 U.S.C. 552) as amended. For additional routine uses see the Appendix entitled "Department of the Treasury Appendix Additional Routine Uses".

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Paper records in file jackets maintained in locked safes.

Retrievability: By name and case number. Access to the physical files containing records is by case number obtained from alphabetized card indices.

Safeguards: Records are maintained in locked safes and all access doors are locked when office is vacant. The records are available to personnel in the Office of the Inspector General on a need-to-know basis, each of whom have appropriate security clearances.

Retention and disposal: Investigative files are stored on-site for 3 years and indices to those files are stored on-site for 5 years. Upon expiration of their respective retention periods the investigative files and their indices are transferred to the Federal Records Center for retention and in most instances destroyed by burning, maceration, or pulping when 20 years old.

System manager(s) and address: Inspector General, Main Treasury Building, Washington, D.C. 20220.

Notification procedure: This system of records may not be accessed for purposes of determining if the system contains a record pertaining to a particular individual.

Record access procedures: This system of records may not be accessed under the Privacy Act for purposes of inspection or for the contest of content of records.

Contesting record procedures: See access above.

Record source categories: This system contains investigatory material whose sources need not be reported.

Systems exempted from certain provisions of the act: This system is exempt under 5 U.S.C. 552a (j)(2) and (k)(2).

Treasury/OS 00.191

System name: Buildings Management Employee Folder—Treasury/OS.

System location: Office of Buildings Manager.

Categories of individuals covered by the system: All employees of Buildings Management—includes all shops as follows: Cabinet shop, Elevator shop, Electric shop, Engineer shop, Day and Night Maintenance, Paint shop, Locksmith.

Categories of records in the system: Each employee has individual folder containing items such as Letters of Counseling, suspensions, awards, step increases, evaluations as well as copies of official personnel actions such as SF-52's.

Authority for maintenance of the system: 5 U.S.C. 301.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Normally a storage file for information purposes. Can be examined during periods of potential promotion, training needs, proposed advise actions. For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Normal 8 x 10 letter size paper.

Retrievability: By name.

Safeguards: Maintained in locked file cabinet utilizing Treasury "Open" "Closed" security program.

Retention and disposal: Maintained until employee leaves Treasury service—purged annually to remove adverse comments not followed through with formal actions.

System manager(s) and address: Buildings Manager, The Department of the Treasury, 15th & Pennsylvania Avenue, N.W., Washington, D.C. 20220.

Notification procedure: The Department of the Treasury, 15th & Pennsylvania Avenue, N.W., Washington, D.C. 20220, Attn: Buildings Manager. Only personal identification required to review his own personal record.

Record access procedures: Simple presentation to the individual at the Buildings Management Office during normal work hours is sufficient to review personal record. Office is located in Main Treasury, Washington, D.C. 20220.

Contesting record procedures: See System Manager above.

Record source categories: Information received from official records such as time cards and SF-52's. Information also received through interviews and private counselings with the individual employee.

Treasury/OS 00.193

System name: Employee Locator and Automated Directory System.

System location: (1) Employee Locator: Main Treasury Building, 15th and Pennsylvania Avenue, N.W., Washington, D.C. 20220. (2) Automated Directory System: Main Treasury Building, 15th and Pennsylvania Avenue, N.W., Washington, D.C. 20220.

Categories of individuals covered by the system: All Department of the Treasury employees located in the Washington, D.C., Metropolitan Area.

Categories of records in the system: (1) Employee Locator—name of individual, office address, office telephone extension, home address, home telephone, emergency notification data. (2) Automated Directory System—name of individual, office address, office telephone extension.

Authority for maintenance of the system: 5 U.S.C. 301.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: (1) Used at the Treasury Switchboard Information Positions to assist callers in locating Treasury employees and to notify a designated emergency contact in the event of an emergency involving the employee. (2) Used to compile Departmental and Bureau Telephone Directories. For additional routine uses see Appendix AA. USERS: Subscribers to Treasury Telephone System and Telephone Information Operators.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: (1) Employee Locator—Card form TD F 73-50.1. (2) Automated Directory System—Diskette.

Retrievability: Indexed by name and/or block code numbers.

Safeguards: (1) Employee Locator—24-hour switchboard operation with controlled access. (2)Automated Directory System—computer access codes.

Retention and disposal: Maintained until notice of change or employment is terminated. The card form is destroyed by burning and the information on the diskette is erased.

System manager(s) and address: Assistant Director (Telecommunications Management), Office of Administrative Programs, Office of the Secretary, Department of the Treasury, Washington, D.C. 20220.

Notification procedure: See System Manager above.

Record access procedures: See System Manager above.

Contesting record procedures: See System Manager above.

Record source categories: Information is provided by individual employees, who are given the option of non-release of the home address, telephone and emergency information.

Treasury/OS 00.194

System name: Document Delivery Control System.

System location: Department of the Treasury, Office of Administrative Programs, Information Services Division, Room 5030, Main Treasury Building, 1500 Pennsylvania Avenue, NW., Washington, D.C. 20220.

Categories of individuals covered by the system: Department employees who are library users.

Categories of records in the system: Employees who borrow library materials or receive current news publications or library material on distribution.

Authority for maintenance of the system: 5 U.S.C. 301.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The information is used by the Information Services Division staff to locate materials withdrawn from the library collection, to distribute periodicals and current news publications, to conduct surveys of continuing user needs, and to complete pre-exit clearance procedures for employees leaving the Department.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Records of items borrowed from the Treasury Library collection, distribution lists for publications and subscription control lists are maintained in computer disc and tape files. Hard copy printouts of data are used for working copies to update computer data bases. Computer files are maintained by name of subscriber or borrower, office locator information, office billing code (for subscription control module) and title of publication.

Retrievability: Data can be retrieved from the system by borrower or subscriber name, office or organization, and publication title.

Safeguards: Access to the computerized systems online requires knowledge of identification codes and protocols for calling up the data files; printed lists of borrower names are kept in a locked file. Access to the necessary protocols and identification codes is limited to staff of the Readers Services Branch and Acquisitions Unit responsible for maintenance and oversight of the circulation, subscription control, and distribution functions.

Retention and disposal: Only current data are maintained on line; hard copy of computer data for the circulation and distribution functions is kept on a current basis only; hard copy of the subscription control data is kept for current and preceding fiscal years only.

System manager(s) and address: Elisabeth S. Knauff, Manager, Information Services Division, Department of the Treasury, Room 5030, Main Treasury Building, 1500 Pennsylvania Avenue, NW., Washington, D.C. 20220.

Notification procedure: Inquires should be addressed to Chief, Disclosure Branch, Department of the Treasury, Room 1322, 1500 Pennsylvania Avenue, NW., Washington D.C. 20220.

Record access procedures: Same as notification above.

Contesting record procedures: Same as notification above.

Record source categories: Charge-out records completed by borrowers. Requests for subscriptions or distribution submitted by Treasury officials and employees.

Treasury/OS 00.240

System name: Contracts and Research Proposals—Treasury/OS.

System location: OASIA Research, Office of the Secretary, U.S. Department of the Treasury, 15th & Pennsylvania Avenue, N.W., Washington, D.C. 20220.

Categories of individuals covered by the system: (1) Contractors; and (2) Solicited and unsolicited research proposals by author.

Categories of records in the system: Contains information about technical and administrative aspects of external research contracts or proposals.

Authority for maintenance of the system: 5 U.S.C. 301.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: (1) Routine administration of contract matters; (2) Evaluation of performance of contracts and utility of research proposals; and (3) If joint contract sponsored with another Federal agency, share information necessary to carry out contract. (4) For additional routine uses, see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Files.

Retrievability: By name.

Safeguards: Bar lock filing cabinet.

Retention and disposal: Held a maximum of three (3) years.

System manager(s) and address: Privacy Act Coordinator, OASIA Research, Office of the Secretary, U.S. Department of the Treasury, 15th & Pennsylvania Avenue, N.W., Washington, D.C. 20220.

Notification procedure: Privacy Act Representative, U.S. Department of the Treasury, 15th and Pennsylvania Avenue, N.W., Washington, D.C. 20220. Individual should, if possible, submit the following information in order to assist us in determining whether we maintain information on him/her: (1) Full name; (2) Explanation: in what regard OASIA Research may have collected information on the individual; and (3) Specify dates as nearly as possible of any contact with OASIA Research.

Record access procedures: Privacy Act Representative, Office of the Assistant of General Counsel, U.S. Department of the Treasury, 15th and Pennsylvania Avenue, N.W., Washington, D.C. 20220.

Contesting record procedures: See Access above.

Record source categories: (1) Information submitted by researcher voluntarily or by request; (2) Office notations on the status of contracts; and (3) Evaluations by Treasury personnel of contract work.

Treasury/OS 00.243

System name: Personnel. Personnel; Recruitment. Personnel; Evaluations—Treasury/OS.

System location: Office of Statistical Reports, OASIA Research, Office of the Secretary, Department of the Treasury, 15th & Pennsylvania Avenue, N.W., Washington, D.C. 20220.

Categories of individuals covered by the system: Employees, past employees, employee prospects.

Categories of records in the system: Files on personnel.

Authority for maintenance of the system: 5 U.S.C. 301.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Personnel recruitment and management. For additional routine uses, see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Notes in file folders.

Retrievability: Name.

Safeguards: Safe.

Retention and disposal: Until no longer useful.

System manager(s) and address: Director, Office of Statistical Reports, Deputy Director, Office of Statistical Reports. OASIA.

Notification procedure: Privacy Act Representative, U.S. Department of the Treasury, 15th and Pennsylvania Avenue, N.W., Washington, D.C. 20220. Individual should, if possible, submit the following information in order to assist us in determining whether we maintain information on him/her: (1) Full name; (2) Explanation: in what regard OASIA Research may have collected information on the individual; and (3) Specify dates as nearly as possible of any contact with OASIA Research.

Record access procedures: Privacy Act Representative, Office of the Assistant General Counsel, U.S. Department of the Treasury, 15th and Pennsylvania Avenue, N.W., Washington, D.C. 20220.

Contesting record procedures: See Access above.

Record source categories: Individuals, personnel actions, etc. Evaluations.

Treasury/OS 00.244

System name: Personnel Files—Treasury/OS.

System location: OASIA Research Office of the Secretary, Department of the Treasury, 15th & Pennsylvania Avenue, N.W., Washington, D.C. 20220.

Categories of individuals covered by the system: OASIA Research personnel and job applicants.

Categories of records in the system: Records on personnel and job applicants.

Authority for maintenance of the system: 5 USC 301.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: (1) Evaluate job applicants; (2) Routine administrative use of records on OASIA Research personnel; and (3) At the request of the individual, to provide potential employees with information on past work experience. (4) For additional routine uses, see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Files.

Retrievability: By name.

Safeguards: Bar lock filing cabinet.

Retention and disposal: Held a maximum of three (3) years.

System manager(s) and address: Deputy Assistant Secretary for Research, OASIA Research, U.S. Department of the Treasury, 15th & Pennsylvania Avenue, N.W., Washington, D.C. 20220.

Notification procedure: Privacy Act Representative, U.S. Department of the Treasury, 15th and Pennsylvania Avenue, N.W., Washington, D.C. 20220. Individual should, if possible, submit the following information in order to assist us in determining whether we maintain information on him/her: (1) Full name; (2) Explanation: in what regard OASIA Research may have collected information on the individual; and (3) Specify dates as nearly as possible of any contact with OASIA Research.

Record access procedures: Privacy Act Representative, Office of the Assistant General Counsel, U.S. Department of the Treasury, 15th and Pennsylvania Avenue, N.W., Washington, D.C. 20220.

Contesting record procedures: See Access above.

Record source categories: (1) Employment applications; (2) Description of current work in office; (3) Personnel Office of OASIA; (4) Supervisor's observations; and (5) Information submitted by individuals for their own file.

Treasury/OS 00.300

System name: Personnel Files—Treasury/OS.

System location: Department of the Treasury, Office of the Secretary, Office of the Special Assistant to the Secretary for Public Affairs, Room 2324, Washington, D.C. 20220.

Categories of individuals covered by the system: Employees in the Office of Public Affairs.

Categories of records in the system: SF-171s, Notification of within grade raises, Personnel action information, Letters of appreciation.

Authority for maintenance of the system: 5 U.S.C. 301.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Records used by timekeeper for leave purposes; by supervisor, when information is needed; by employees, when requesting information from their files. For additional routine uses see Treasury Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Duplicates of original documents in file folders in safe.

Retrievability: Filed alphabetically by employee's last name.

Safeguards: Only the two persons authorized to use the safe have access to personnel files; Deputy Special Assistant to the Secretary for Public Affairs and his secretary.

Retention and disposal: Records are kept until employee is separated and then destroyed.

System manager(s) and address: Deputy Special Assistant to the Secretary for Public Affairs, Office of the Secretary, Room 2324, Main Treasury, Washington, D.C. 20220.

Notification procedure: Inquiries should be addressed to the Deputy Special Assistant to the Secretary for Public Affairs: Department of the Treasury, Room 2324, Washington, D.C. 20220 or if he is not available, his secretary, same address. The individual must be inquiring about his own records and clearly identify himself, if not known to the persons named above.

Record access procedures: To obtain information on procedures for gaining access to and contesting records, mail the request to the Systems Manager.

Contesting record procedures: See Access above.

Record source categories: Informatoin for the personnel records are obtained from: 1. Office of the Secretary Personnel Division; 2. Information provided by employees themselves; and 3. Copies of letters from officials congratulating employees for special achievements.

Treasury/OS 00.400

System name: Merit System Complaints—Treasury-OS.

System location: Office of the Director, Office of Audit, Room 902, 1025 Vermont Ave., N.W., Washington, D.C. 20220.

Categories of individuals covered by the system: Employees who have a basis for believing that Civil Service personnel laws or rules are being violated, and the matter is not appropriate for the grievance or appeals procedure.

Categories of records in the system: Letters, personnel documents, memorandums, investigation reports, and extracts from investigation files.

Authority for maintenance of the system: Memorandum from the Secretary of the Treasury, dated November 21, 1974.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: To furnish direction and suggestions to Treasury Personnel Office for follow-up action.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Locked combination safe.

Retrievability: By name.

Safeguards: Locked safe, access by Director of office only.

Retention and disposal: One year after matter resolved, material is then shredded.

System manager(s) and address: Office of Audit, Director, Room 902, 1025 Vermont Avenue, N.W., Washington, D.C. 20220.

Notification procedure: See System Manager above.

Record access procedures: See System Manager above.

Contesting record procedures: See System Manager above.

Record source categories: Complainant, official personnel files, investigation files and grievance files.

Treasury/OS 00.503

System name: Roster of Office of the Secretary Employees—Treasury/OS.

System location: Room 1330, Main Treasury Building.

Categories of individuals covered by the system: All Office of the Secretary employees.

Categories of records in the system: Position titles, grades and salary for Office of Secretary employees.

Authority for maintenance of the system: Asistant Secretary (Administration) request.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Position control, ceiling control and general information for a very limited number of high level officials. For additional routine uses, see Treasury Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Locked file cabinet.

Retrievability: By name.

Safeguards: Strict control of distribution.

Retention and disposal: Rosters are maintained for at least 3 years and after that time are destroyed.

System manager(s) and address: Personnel Officer.

Notification procedure: Room 1330, Main Treasury Building. Employee must give his name and office.

Record access procedures: Personnel Officer.

Contesting record procedures: Personnel Officer.

Record source categories: Standard Form 50.

Treasury/OS 00.504

System name: Summer Employees Listing Treasury/OS.

System location: Office of the Secretary Personnel Division, Room 1330, Main Treasury Building.

Categories of individuals covered by the system: All Summer Employees within the Office of the Secretary, excluding OASIA.

Categories of records in the system: Summer Employees' names, college majors, academic level, grade, position title and office.

Authority for maintenance of the system: Chapter 410 of the Federal Personnel Manual, Subchapter 3, Section 3-1, paragraph (b), Section (5).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Used to determine who is eligible for seminars offered by the Office of the Secretary and the Department. Used also in the preparation of the 113 D Statistical Report for the Office of the Secretary. For additional routine uses see Treasury Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Names listed on bond paper with respective information and stored in a file cabinet.

Retrievability: Alphabetical listing by name.

Safeguards: This list is used only by the Youth Employment Coordinator or others authorized by Personnel Officer.

Retention and disposal: Records are kept for one year then are destroyed by burning.

System manager(s) and address: Office of the Secretary, Personnel Division, Room 1330, Main Treasury Building, 15th and Pennsylvania Avenue, N.W., Washington, D.C. 20220.

Notification procedure: See System Manager above.

Record access procedures: See System Manager above.

Contesting record procedures: See System Manager above.

Record source categories: Information taken from Official Personnel Folder and SF-171.

Treasury/OS 00.005

System name: Upward Mobility Program; Counseling Application—Treasury/OS.

System location: Room 1330, Main Treasury Building, Personnel Division, Office of the Secretary, Department of the Treasury.

Categories of individuals covered by the system: Government employees occupying positions within the Office of the Secretary, occupying GS-7 and below or equivalent, and Wage Board employees below WP-9 and WG-7 positions.

Categories of records in the system: Application form reflecting identification of employees, type of position, degree of education and skill, etc.

Authority for maintenance of the system: Affirmative Action Plan.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Application will be used in conjunction with interviews on Upward Mobility Counseling, to give an idea of what type of training and/or experience the applicant has, and what career goals the applicant may have. For additional routine uses see Treasury Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: The alphabetized applications are presently kept with other Upward Mobility materials, but will be filed into the Official Personnel Files shortly.

Retrievability: The system is indexed by name.

Safeguards: The applications are kept in a locked file, and will ultimately be inserted into Official Personnel Files which are also kept in locked files.

Retention and disposal: Maintained on left hand side of personnel folder and are retained until employee leaves Treasury.

System manager(s) and address: Upward Mobility Counselor, Room 1325, Main Treasury Building, Office of the Secretary, Department of the Treasury, Washington, D.C.

Notification procedure: Office of the Secretary, Personnel Division, Room 1330, Main Treasury Building, 15th and Pennsylvania Avenue, N. W., Washington, D.C. 20220. The employee should submit name and social security number.

Record access procedures: Request for gaining access can be made orally. See access and notification above.

Record source categories: The information reflected on these applications was obtained from personal data provided by each applicant.

[Billing Code 4810-25]

Treasury/GFO 00.001

System name: Administrative Records—Treasury/GFO.

System location: Bureau of Government Financial Operations, U.S. Department of the Treasury, Washington, D.C. 20226.

Categories of individuals covered by the system: Bureau personnel.

Categories of records in the system: (1) Civil Defense Cards, (2) Motor Vehicle Drivers Permits, (3) Distribution List of individuals requesting various Treasury publications, (4) Motor Vehicle Accident Reports, (5) Parking Permits, (6) Treasury Credentials.

Authority for maintenance of the system: 5 U.S.C. 301.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Used to provide information on holders of Civil Defense Cards, drivers permits, parking permits, accident reports, credentials and for servicing public on Treasury publications. For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Hardcopy.

Retrievability: By name.

Safeguards: Locked containers.

Retention and disposal: (1) Destroy upon resignation, retirement or transfer; Hold—Individual no longer assigned relocation duties. (2) Destroy 3 years from date of separation or 3 years after rescission of authorization. (3) Destroy when superseded. (4) Indefinitely. (5) Destroy when superseded. (6) Destroy upon retirement, resignation or transfer.

System manager(s) and address: The Systems Manager is: Special Assistant (P.A.), Bureau of Government Financial Operations, U.S. Department of the Treasury, Room 600, Treasury Annex No. 1, Pennsylvania Avenue and Madison Place, N.W., Washington, D.C. 20226.

Notification procedure: Inquiries under the Privacy Act of 1974 shall be addressed to the Systems Manager as shown above. All individuals making inquiries should provide with their request as much descriptive matter as is possible to identify the particular record desired. The Systems Manager will advise as to whether this bureau maintains the record requested by the individual.

Record access procedures: Individuals requesting information under the Privacy Act of 1974 concerning procedures for gaining access or contesting records should write to the Systems Manager at the address shown above. All individuals are urged to examine the rules of the U.S. Department of the Treasury published in 31 CFR Part 1, Subpart C concerning requirements of this Department with respect to the Privacy Act of 1974.

Contesting record procedures: See Access above.

Record source categories: Bureau personnel.

Treasury/GFO 00.002

System name: Payment issue records for regular recurring benefit payments—Treasury/GFO.

System location: Bureau of Government Financial Operations, U.S. Department of the Treasury, Washington, D.C. 20226.

Categories of individuals covered by the system: (1) Beneficiaries of Title II of the Social Security Act, (2) Beneficiaries of Title XVI of the Social Security Act, (3) Beneficiaries of the Civil Service Retirement System, (4) Beneficiaries of the Railroad Retirement System, (5) Beneficiaries of the Foreign Service Retirement System, (6) Holders of Series H Bonds (interest payment).

Categories of records in the system: Payment issue records for regular recurring benefit payments showing name, check number and symbol, or other identification, address, account number, payment amount, and date of issuance for each of the categories of individuals listed above.

Authority for maintenance of the system: 5 U.S.C. 301; E.O. 6166, June 10, 1933.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Payment issue verification for banking industry, Federal investigative agencies, Division of Check Claims of this bureau, and Departments and agencies for whom payments are made, and payees. For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Microfilm-magnetic tape for categories of individuals 1 through 6.

Retrievability: By account number.

Safeguards: Held in secure buildings.

Retention and disposal: Indefinitely.

System manager(s) and address: The Systems Manager is: Special Assistant (P.A.), Bureau of Government Financial Operations, U.S. Department of the Treasury, Room 600, Treasury Annex No. 1, Pennsylvania Avenue and Madison Place, N.W., Washington, D.C. 20226.

Notification procedure: Inquiries under the Privacy Act of 1974 shall be addressed to the Systems Manager as shown above. All individuals making inquiries should provide with their request as

much descriptive matter as is possible to identify the particular record desired. The Systems Manager will advise as to whether this bureau maintains the record requested by the individual.

Record access procedures: Individuals requesting information under the Privacy Act of 1974 concerning procedures for gaining access or contesting records should write to the Systems Manager at the address shown above. All individuals are urged to examine the rules of the U.S. Department of the Treasury published in 31 CFR, Part 1, Subpart C concerning requirements of this Department with respect to the Privacy Act of 1974. Telephone 202-566-8707.

Contesting record procedures: See Access above.

Record source categories: Vouchers certifications by departments and agencies for whom payments are made.

Treasury/GPO 00.003

System name: Claims and Inquiry Records on Treasury checks, U.S. currencies, and International claimants—Treasury/GFO.

System location: Bureau of Government Financial Operations, U.S. Department of the Treasury, Washington, D.C. 20226.

Categories of individuals covered by the system: (1) Payees and holders of Treasury checks, (2) Holders of mutilated currency, (3) Claimants awarded benefits under War Claims Act and International Claims Settlement Act of 1949.

Categories of records in the system: (1) Treasury check claim file: Treasury check, claim of payee with name and address, settlement action taken. (2) Mutilated currency claim file: Mutilated currency, name of bank assisting claim of individual, settlement action taken. (3) Awards for claims for losses sustained by individuals.

Authority for maintenance of the system: 5 U.S.C. 301; (1) For Treasury check claims—31 U.S.C. 71 with delegation of authority from Comptroller General of the U.S.; (2) Mutilated currency claims—31 CFR 100; (3) International claims—50 U.S.C. 2012; 22 U.S.C. 1627, 1641, 1642.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: (1) Check Claims—Information is used routinely by the Division of Check Claims and by indorsers on checks having liability, Federal agencies, State and Local Law enforcement agencies, General Accounting Office, Congressional offices and media assistance offices on behalf of payee claimants. (2) Mutilated Currency Claims—Information is furnished to the Internal Revenue Service for claims of 5000 dollars or more claimants, banks, state and local enforcement agencies. (3) International Claims—Information in files is used by employees of the Division of Financial Management, claimants (awardees) and their representatives; Foreign Claims Settlement Commission, and congressmen (4) For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: (1) Claim file folders, Card checks, microfilm. (2) Correspondence files. (3) Claim file folders.

Retrievability: (1) Name of payee and check number and symbol. (2) Alpha cross-reference to case number. (3) Name of claimant or alpha reference to claim number.

Safeguards: (1) Secured building, (2) Secured building, (3) Secured files in secured building.

Retention and disposal: (1) Claim files and checks; six years seven months; Microfilm—indefinitely. (2) Seven years. (3) Indefinitely.

System manager(s) and address: The Systems Manager is: Special Assistant (P.A.), Bureau of Government Financial Operations, U.S. Department of the Treasury, Room 600, Treasury Annex No. 1, Pennsylvania Avenue and Madison Place, N.W., Washington, D.C. 20226.

Notification procedure: Inquiries under the Privacy Act of 1974 shall be addressed to the Systems Manager as shown above. All individuals making inquiries should provide with their request as much descriptive matter as is possible to identify the particular record desired. The Systems Manager will advise as to whether this bureau maintains the record requested by the individual.

Record access procedures: Individuals requesting information under the Privacy Act of 1974 concerning procedures for gaining access or contesting records should write to the Systems Manager at the address shown above. All individuals are urged to examine the rules of the U.S. Department of the Treasury published in 31 CFR Part 1, Subpart C concerning requirements of this Department with respect to the Privacy Act of 1974. Telephone 202-566-8707.

Contesting record procedures: See Access above.

Record source categories: (1) Individual payees of Treasury checks, indorsers of Treasury checks, investigative agencies, disbursing officers issuing checks, contesting claimants. (2) Individual owners of mutilated currencies, commercial banks. (3) Awards certified to Treasury for payment by Foreign Claims Settlement Commission.

Treasury/GFO 00.004

System name: Freedom of Information Requests—Treasury/GFO.

System location: Bureau of Government Financial Operations, U.S. Department of the Treasury, Washington, D.C. 20226.

Categories of individuals covered by the system: Individuals requesting information.

Categories of records in the system: Correspondence pursuant to the Freedom of Information Act, internal processing documents and memoranda, referrals and copies of requested records.

Authority for maintenance of the system: Freedom of Information Act, 5 U.S.C. 552. 31 CFR Part 1.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: For reporting requirements as required by the Act; to respond to other Department officials who request information regarding persons making a FOI request; evaluation purposes and determination of volume of requests received and the impact on the current workload; preparation of budget; disclosures in accordance with Freedom of Information Act, to other agencies when required for coordination of response or referral; to Department of Justice for defending law suits; to Congressional Committees; for additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Authority for maintenance of the system: Title 5—Pay, Leave & Allowances.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: (A) Payroll Preparation; (B) Issuance of W-2 Forms for Tax Purposes; (C) For additional routine uses see Appendix AA. Disclosure permitted to Federal Agencies and to State and Local Agencies for tax purposes.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: Records are stored, maintained and disposed of in accordance with General Services Administration Schedules.

System manager(s) and address: The Systems Manager is: Special Assistant (P.A.), Bureau of Government Financial Operations, U.S. Department of the Treasury, Room 600, Treasury Annex No. 1, Pennsylvania Avenue and Madison Place, N.W., Washington, D.C. 20226.

Notification procedure: Inquiries under the Privacy Act of 1974 shall be addressed to the Systems Manager as shown above. All individuals making inquiries should provide with their request as much descriptive matter as is possible to identify the particular

record desired. The Systems Manager will advise as to whether this bureau maintains the record requested by the individual.

Record access procedures: Individuals requesting information under the Privacy Act of 1974 concerning procedures for gaining access or contesting records should write to the Systems Manager at the address shown above. All individuals are urged to examine the rules of the U.S. Department of the Treasury published in 31 CFR Part 1, Subpart C concerning requirements of this Department with respect to the Privacy Act of 1974. Telephone 202-964-8707.

Contesting record procedures: See Access above.

Record source categories: From individual Bureau employees.

Treasury/GFO 00.008

System name: Personnel Security Records—Treasury/GFO.

System location: Bureau of Government Financial Operations, Pennsylvania Avenue and Madison Place, N.W., Washington, D.C. 20226.

Categories of individuals covered by the system: Employees and applicants for position in the bureau.

Categories of records in the system: Results of full field investigations, national agency checks and written inquiries, and other limited investigations.

Authority for maintenance of the system: Title 5, U.S.C., Chap 73, Executive Order 10450 as amended, and Treasury Order 82.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The records are reviewed for purpose of granting clearances for employees to occupy nonsensitive and sensitive positions. Users—Federal Agencies, Federal, State and Local Law Enforcement Agencies. For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: The records are hard copy, filed alphabetically by name and stored in a safe cabinet secured with a combination lock. Access to the records is restricted to key personnel who have been granted clearances to occupy critical-sensitive positions. The records on employees are retained by the bureau during their employment. The records on applicants not selected and separated employees are returned to the investigating agency.

System manager(s) and address: The Systems Manager is: Special Assistant (P.A.), Bureau of Government Financial Operations, U.S. Department of the Treasury, Room 600, Treasury Annex No. 1, Pennsylvania Avenue and Madison Place, N.W., Washington, D.C. 20226.

Notification procedure: Inquiries under the Privacy Act of 1974 shall be addressed to the Systems Manager as shown above. All individuals making inquiries should provide with their request as much descriptive matter as is possible to identify the particular record desired. The Systems Manager will advise as to whether this bureau maintains the record requested by the individual. Telephone 202-566-8707.

Record access procedures: Individuals requesting information under the Privacy Act of 1974 concerning procedures for gaining access or contesting records should write to the Systems Manager at the address shown above. All individuals are urged to examine the rules of the U.S. Department of the Treasury published in 31 CFR Part 1, Subpart C concerning requirements of this Department with respect to the Privacy Act of 1974.

Contesting record procedures: See Access above.

Record source categories: Sources are applicants, employers, former employers, references, fellow workers, neighbors, educational authorities, military records, police and criminal records, credit records and others as required.

Treasury/GFO 00.009

System name: Postal Savings Deposits—Treasury/GFO.

System location: Bureau of Government Financial Operations, U.S. Department of the Treasury, Washington, D.C. 20226.

Categories of individuals covered by the system: Postal Savings depositors.

Categories of records in the system: (1) Account cards of Open Deposits. (2) Paid cases from 1967. (c) Record of reissued certificates.

Authority for maintenance of the system: 39 U.S.C. 5225-5229; 31 CFR 257.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: For payment by depositors, legal representatives, heirs; Internal Revenue Service Inspectors for tax purposes. For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

All individuals making inquiries should provide with their request as much descriptive matter as is possible to identify the particular record desired. The Systems Manager will advise as to whether this bureau maintains the record requested by the individual.

Record access procedures: Individuals requesting information under the Privacy Act of 1974 concerning procedures for gaining access or contesting records should write to the Systems Manager at the address shown above or telephone him at the following number 202-566-8707. All individuals are urged to examine the rules of the U.S. Department of the Treasury concerning requirements of this Department with respect to the Privacy Act of 1974.

Contesting record procedures: See Access above.

Record source categories: Bureau personnel office.

Treasury/GFO 00.012

System name: Precomplaint Counseling and Complaint Activities—GFO.

System location: B/GFO—U.S. Treasury Department, Treasury Annex No. 1 Madison Place & Penna. Ave., N.W. Washington, D.C. 20226.

Categories of individuals covered by the system: Employees seeking services of EEO Counselors.

Categories of records in the system: Monthly precomplaint activity reports from twelve Disbursing Centers and Headquarters.

Authority for maintenance of the system: 5 U.S.C. 7154; 42 U.S.C. 200e-16; E.O. 11478; and 5 CFR 713.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Used to keep records on EEO Counseling activities for monthly submission to Treasury.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: File cabinet.

Retrievability: Filed by station and date of receipt.

Safeguards: Staff supervision during day. Records under lock and key.

Retention and disposal: Reports destroyed at the end of four years.

System manager(s) and address: Special Assistant (P.A.): Bureau of Government Financial Operations, Treasury Annex No. 1, Madison Place & Penna. Ave., N.W., Washington, D.C. 20226.

Notification procedure: Inquiries under the PRIVACY ACT of 1974 shall be addressed to the Systems Manager as shown above. All individuals making inquiries should provide with their request as much descriptive matter as is possible to identify the particular record desired. The Systems Manager will advise as to whether this bureau maintains the record requested by the individual.

Record access procedures: Individuals requesting information under the Privacy Act of 1974 concerning procedures for gaining access or contesting records should write to the Systems Manager at the address shown above. All individuals are urged to examine the rules of the U.S. Department of the Treasury published in 31 CFR Part 1, Subpart C concerning requirements of this Department with respect to the Privacy Act of 1974.

Contesting record procedures: See Access above.

Record source categories: Monthly submissions by Disbursing Centers and Headquarters.

[Billing Code 4810-35]

Treasury/ATF 00.001

System name: Administrative Record System-Treasury/ATF.

System location: Bureau of Alcohol, Tobacco and Firearms, 1200 Pennsylvania Avenue, N.W., Washington, D.C. 20226.

Components of this record system are geographically dispersed throughout the Bureau's field offices. For nearest office location, see addresses listed Appendix E-1.

Categories of individuals covered by the system: (1) Present employees of the Bureau of ATF. (2) Former employees of the Bureau of ATF. (3) Claimants against the Bureau of ATF.

Categories of records in the system: (1) Accident Report—nonvehicle (2) Accident Report—Vehicle (3) Accountability records for Government property (4) Credit card purchases (5) Disability reports (6) Fatality reports (7) Motor pool records (8) Injury reports (9) Motor vehicle operator's records. (10) Chief Counsel and Regional Counsel memoranda and opinions.

Authority for maintenance of the system: (1) Federal Claims Collection Act (2) Federal Employees Compensation Act (3) Federal Property and Administration Services Act of 1949 as amended. (4) Federal Tort Claims Act (5) Military Personnel and Federal Employees Claim Act (6) Occupational Safety and Health Act of 1970 (7) Small Claims Act. (8) 5 U.S.C. 1302, 3301, 3302.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The purpose of this system is to provide administrative services for the Bureau; to maintain administrative records as required by law or regulation; and to be used in the adjudication of any claims for or against the Bureau. When required or authorized by statute, regulation, or executive order, information in the record system is made available to members of the public or employees of other government agencies.

A record in this system of records may be disclosed as a "routine use" to a federal, state or local agency maintaining civil, criminal or other relevant enforcement information or other pertinent information if necessary to obtain information relevant to an agency decision concerning the letting of a contract, grant or other benefit.

A record in this system of records may be disclosed to a federal agency, in response to its request, in connection with the letting of a contract, grant, or other benefit by the requesting agency, to the extent that the information is relevant and necessary to the requesting agency's decision on the matter.

A record in this system may be disclosed as a routine use to Officers and employees of the Department of the Treasury who have a need for the record in the performance of their duties; Local, state and Federal law enforcement agencies; Local, state and Federal regulatory agencies; Members of the public, employees of other Governmental agencies, or members of news media (on a case by case basis where determination that such disclosure would be in accordance with guidelines set forth under 28 C.F.R. Part 50.2; 5 U.S.C. 552 and 552a, and would not compromise enforcement of laws administered by Bureau of Alcohol, Tobacco and Firearms). For additional routine uses, see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Active records stored in file folders in security filing cabinets. Inactive records stored in file folders at Federal Records Centers.

Retrievability: Records are retrievable by name of individual.

Safeguards: Direct access restricted to personnel in Department of the Treasury in the performance of their duty. Transmitted to routine users on a need to know basis or where a right to access is established, and to others upon verification of the substance and propriety

of the request. Stored in lockable metal file cabinets in rooms locked during non-duty hours.

Retention and disposal: Records are retained in accordance with General Services Administration General Records Schedules Numbers 1 through 20 and Bureau of Alcohol, Tobacco and Firearms records control schedules numbers 101 and 201 and disposed of by shredding or burning.

System manager(s) and address: Chief, Administrative Services Division Bureau of Alcohol, Tobacco and Firearms, 1200 Pennsylvania Avenue, N.W. Washington, D.C. 20226.

Notification procedure: Inquiries should be addressed to: Privacy Act Request, Bureau of Alcohol, Tobacco and Firearms, 1200 Pennsylvania Avenue, N.W., Washington, D.C. 20226.

Requests may be delivered personally to Room 2232, Bureau of Alcohol, Tobacco and Firearms, 1200 Pennsylvania Avenue, N.W., Washington, D.C. 20226.

Record access procedures: Requests for access to records made by mail should be addressed to: Privacy Act Request, Bureau of Alcohol, Tobacco and Firearms, 1200 Pennsylvania Avenue, N.W., Washington, D.C.

Requests may be delivered personally to Room 2232, Bureau of Alcohol, Tobacco and Firearms, 1200 Pennsylvania Avenue, N.W., Washington, D.C. 20226

Appeals of determinations refusing amendment of records should be addressed to: Privacy Act Appeal, Bureau of Alcohol, Tobacco and Firearms, 1200 Pennsylvania Avenue, N.W., Washington, D.C. 20226

Appeals may be delivered personally to Room 2232, Bureau of Alcohol, Tobacco and Firearms, 1200 Pennsylvania Avenue, N.W., Washington, D.C.

Contesting record procedures: See Access above.

Record source categories: (1) Administrative records.(2) Claimants.(3) Doctors.(4) Employee records.(5) Fiscal records.(6) Former employees of the Bureau of ATF.(7) Former employers. (8) General Services Administration.(9) Individuals who have information relevant to claims.(10) Inspections records.(11) Internal Investigation reports.(12) Police reports.(13) Present employees of the Bureau of ATF.(14) Supervisors.(15) Witnesses.

Treasury/ATF 00.002

System name: Correspondence Record System—Treasury/ATF.

System location: Bureau of Alcohol, Tobacco and Firearms, 1200 Pennsylvania Avenue, N.W., Washington, D.C. 20226.Components of this record system are geographically dispersed throughout the Bureau's field offices. For nearest office location, see address listed Appendix E-1.

Categories of individuals covered by the system: (1) Persons who correspond with the Bureau requesting information relating to Bureau personnel. (2) Persons who correspond with the Bureau requesting information relating to Bureau activities. (3) Persons who correspond with the Bureau requesting rulings, interpretations, or technical and scientific matters of a general nature. (4) Persons who correspond with others and whose correspondence is referred to ATF for response. (5) Persons referred to in correspondence with the Bureau. (6) Authors and publishers of technical and scientific matters relating to Bureau activities.

Categories of records in the system: Correspondence with individuals who contact the Bureau requesting information relating to Bureau personnel and/or activities, Chief Counsel and Regional Counsel memoranda and opinions.

Authority for maintenance of the system: 5 U.S.C. 301, E.O. 11222.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The purpose of the system is to record the nature of reponses made to general public; to maintain a record of responses to individuals who correspond with the Bureau. When required or authorized by statute, regulation, or Executive Order, information in the record system is made available to members of the public or employees of other Government agencies. A record in this system may be disclosed as a routine use to: officers and employees of the Department of the Treasury who have a need for the record in the performance of their duties, members of the public, employees of other governmental agencies, or members of the news media (on a case by case basis where determination that such disclosure would be in accordance with guidelines set out under 28 C.F.R. Part 50.2; 5 U.S.C. 552 and 552a, and would not compromise enforcement of laws administered by Bureau of Alcohol, Tobacco and Firearms). For additional routine uses, see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Active records stored in file folders in security filing cabinets. Inactive records stored in file folders at Federal Records Centers.

Retrievability: Records are retrieved by name, subject matter and date of correspondence.

Safeguards: Transmitted to routine users on a need to know basis. Stored in lockable file cabinets in rooms locked during non-duty hours.

Retention and disposal: Records are retained in accordance with General Services Administration General Records Schedules numbers 1 through 20 and Bureau of Alcohol, Tobacco and Firearms Records Control Schedules numbers 101 and 201 and disposed of by shredding or burning.

System manager(s) and address: Assistant to the Director (Public Affairs) Bureau of Alcohol, Tobacco and Firearms, 1200 Pennsylvania Avenue, N.W., Washington, D.C. 20226.

Notification procedure: Inquiries should be addressed to: Privacy Act Request, Bureau of Alcohol, Tobacco and Firearms, 1200 Pennsylvania Avenue, N.W., Washington, D.C. 20226. Requests may be delivered personally to Room 2232, Bureau of Alcohol, Tobacco and Firearms, 1200 Pennsylvania Avenue, N.W., Washington, D.C. 20226.

Record access procedures: Requests for access to records made by mail should be addressed to: Privacy Act Request, Bureau of Alcohol, Tobacco and Firearms, 1200 Pennsylvania Avenue, N.W., Washington, D.C. 20226. Requests may be delivered personally to Room 2232, Bureau of Alcohol, Tobacco and Firearms, 1200 Pennsylvania Avenue, N.W., Washington, D.C.

Appeals of determinations refusing amendment of records should be addressed to: Privacy Act Appeal, Bureau of Alcohol, Tobacco and Firearms, 1200 Pennsylvania Avenue, N.W., Washington, D.C. 20226.

Appeals may be delivered personally to Room 2232, Bureau of Alcohol, Tobacco and Firearms, 1200 Pennsylvania Avenue, N.W., Washington, D.C.

Contesting record procedures: See Access above.

Record source categories: Persons who correspond with the Bureau on general, technical or scientific matters.

Treasury/ATF 00.003

System name: Criminal Investigation Report System—Treasury/ATF.

System location: Bureau of Alcohol, Tobacco and Firearms, 1200 Pennsylvania Avenue, N.W., Washington, D.C. 20226. Components of this record system are geographically dispersed throughout Bureau of Alcohol, Tobacco and Firearms' field offices. For nearest location, see addresses listed Appendix E-1.

Categories of individuals covered by the system: (1) Criminal offenders or alleged criminal offenders acting alone or in concert with other individuals and suspects who have been or are under investigation for a violation or suspected violation of laws enforced by the Bureau. (2) Criminal offenders or alleged criminal offenders acting alone or in concert with individuals who have been referred to the Bureau of Alcohol, Tobacco and Firearms by other law enforcement agencies, governmental units and the general public. (3) Informants. (4) Persons who come to the attention of the Bureau in the conduct of criminal investigations. (5) Persons who have been convicted of a crime punishable by imprisonment for a term exceeding one year and who have applied for relief from disabilities under Federal law with respect to the acquisition, receipt, transfer, shipment, or possesion of firearms and explosives and whose disability was incurred by reason of such conviction. (6) Victims of crimes. (7) Witnesses.

Categories of records in the system: (a) Records containing information compiled for the purpose of identifying individual criminal offenders and alleged offenders and consisting only of identifying data and notations of arrest, the nature and disposition of criminal charges, sentencing, confinement, release, and parole and probation status; (b) Records containing information compiled for the purpose of a criminal investigation, including reports of informants and investigators, and associated with an identifiable individual; (c) Records containing reports identifiable to an individual compiled at various stages of the process of enforcement of criminal laws from arrest or indictment through release from supervision; (d) Records compiled and maintained by the Bureau as generally described in (a), (b), and (c) above including the following: (1) Abandoned property reports. (2) ATF Criminal Investigation Reports (not resulting in formal prosecution reports). (3) ATF referrals to foreign, Federal, State, and local law enforcement agencies. (4) Chief and Regional Counsel opinions. (5) Contemporaneous investigative notes. (6) Criminal in-

vestigatory correspondence from and to foreign, Federal, State and local law enforcement agencies. (7) Criminal intelligence information on individuals suspected to be violating ATF laws and regulations. (8) Documentary proof of defendant's criminal record; identity; or lack or registration of N.F.A. (as amended) firearm(s). (9) FBI Criminal Record Reports. (10) Fingerprints and palmprints. (11) Fugitive arrest warrants. (12) Handwriting exemplars. (13) Index cards, violation and reputation. (14) Illicit liquor and raw material surveys. (15) Laboratory reports of evidence analysis. (16) Memoranda of expected testimony of witnesses. (17) Organized crime members violating or suspected of violating ATF laws. (18) Parole and pardon reports. (19) Personal histories (address, employment, social security number, financial background, physical descriptions, etc.). (20) Photographs. (21) Purchase of evidence records. (22) Records of electronic surveillance by ATF. (23) Records received in response to summons and subpoenas. (24) Reliefs from disability. (25) Reports of interview with witnesses. (26) Search warrants and affidavits for search warrants. (27) Seized property reports. (28) Significant criminals, armed and dangerous, firearms, explosives, liquor, and wagering. (29) Special agent's daily activity diary (accessible by date only). (30) State and local law enforcement criminal investigative reports. (31) Statements of defendants. (32) Statements of witnesses. (33) Summons and subpoenas issued pursuant to criminal investigations. (34) Voice prints. (35) Wagering tax suspected violators. (36) Warning and demand letters. (37) Criminal violation reports (a formal report compiling all or portions of the foregoing for prosecutive purposes).

Authority for maintenance of the system: (1) 26 U.S.C. Chapters 35 and 40. (2) 26 U.S.C. Chapters 51 and 52. (3) 26 U.S.C. Chapters 53, as amended. (4) 26 U.S.C. Chapters 61 through 80, as amended. (5) 27 U.S.C. Chapter 8, as amended, (Federal Alcohol Administration Act). (6) 18 U.S.C. Chapter 40. (7) 18 U.S.C. Chapter 44. (8) 18 U.S.C. Chapter 59 (9) 18 U.S.C. App. 1201-1203 (Title VII of the Omnibus Crime Control and Safe Streets Act of 1968, as amended by Title III of the Gun Control Act of 1968). (10) 22 U.S.C. section 414, (Mutual Security Act of 1954, as amended). (11) 5 U.S.C. sections 901 and 903, 5 U.S.C. App. (Reorganization Plan of 1950), Treasury Order 221, 5 U.S.C. section 301.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The purpose of this system is to suppress traffic in illicit untaxpaid distilled spirits; to enforce the Federal laws relating to the illegal possession and use of firearms, destructive devices, explosives, explosive materials, and wagering activities; and to assist Federal, State, local and foreign law enforcement agencies in reducing crime and violence. When required or authorized by statute, regulation, or Executive Order, information in the record system is made available to members of the public or employees of other Government agencies.

A record in this system may be disclosed as a routine use to: officers and employees of Department of the Treasury who have a need for the record in the performance of their duties; personnel of Department of Justice and other agencies, Federal, State, and local, foreign and domestic, having prosecutive and civil law enforcement functions; attorneys, magistrates, and judges; and parole and probation authorities for the purpose of prosecuting, sentencing and determining the parole and probation status of criminal offenders or suspected criminal offenders; Personnel of other Federal, State and local law enforcement agencies, foreign and domestic, for the purpose of developing information on subjects involved in Bureau criminal investigations and for assisting law enforcement agencies in the investigation and prosecution of violations of the criminal laws those agencies are responsible for enforcing; Personnel of Federal, State, and local governmental agencies, where such referral is considered reasonably necessary for the purpose of furthering Bureau efforts to investigate the activities of and apprehend criminal offenders and suspected criminal offenders; Personnel of Federal, State and local governmental agencies, foreign and domestic, where there is a showing of reasonable necessity to obtain such information to accomplish a valid law enforcement purpose; Employees and officials of financial and commercial business firms and private individuals for identification purposes pertaining to actual or suspected criminal offenders where it is considered reasonably necessary for the purpose of furthering Bureau efforts to investigate the activities of, and when appropriate, to apprehend, criminal offenders and suspected criminal offenders; Defense attorneys under Discovery Procedures; Members of the public, employees of other governmental agencies, or members of the news media (on a case by case basis where determination that such disclosure would be in accordance with guidelines set out under 28 C.F.R. Part 50.2; 5 U.S.C. 552, and 552a, and would not compromise enforcement of laws administered by Bureau of Alcohol, Tobacco and Firearms). For additional routine uses, see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Active records stored in file folders in security filing cabinets. Inactive records stored in file folders at Federal Records Centers. Records also stored on magnetic tape at ADP Division, Technical and Scientific Services Branch of Bureau Headquarters and at the IRS Data Center, Detroit, Michigan. Records are stored in on-line mass computer storage at San Diego, California. (Treasury Enforcement Communications System.)

Retrievability: Records are retrievable by name, date of birth, social security number, unique identifier, investigation number, serial number of firearm, or a combination of any of these; plus date and geographical location of incident giving rise to investigation.

Safeguards: Direct access restricted to personnel in Department of Treasury in the performance of their duty. Transmitted to routine users on a need to know basis and to others upon verification of the substance and propriety of the request. Stored in lockable file cabinets in rooms locked during non-duty hours.

Retention and disposal: Records are retained in accordance with General Services Administration General Records Schedules numbers 1 through 20 and Bureau of Alcohol, Tobacco and Firearms Records Control Schedules numbers 101 and 201 and disposed of by shredding or burning. Records on tape or on-line mass storage are disposed of by degaussing.

System manager(s) and address: Assistant Director (Criminal Enforcement), Bureau of Alcohol, Tobacco and Firearms, 1200 Pennsylvania Avenue, N.W., Washington; D.C. 20226.

Notification procedure: The Director of the Bureau of Alcohol, Tobacco and Firearms has exempted this system of records from compliance with the provisions of 5 U.S.C. 552a (e) (4) (G).

Record access procedures: The Director of the Bureau of Alcohol, Tobacco and Firearms has determined this system of records to be exempted from compliance with the provisions of 5 U.S.C. 552a (e) (4) (H).

Contesting record procedures: The Director of the Bureau of Alcohol, Tobacco and Firearms has determined this system of records to be exempted from compliance with the provisions of 5 U.S.C. 552a (e)(4)(H).

Record source categories: The Director of the Bureau of Alcohol, Tobacco and Firearms has determined this system of records to be exempt from compliance with the provisions of 5 U.S.C. 552a (e)(4)(I).

Systems exempted from certain provisions of the act: Exempt under 5 USC 552a(j) and 31 CFR 1.36.

Treasury/ATF 00.004

System name: Fiscal Record System—Treasury/ATF.

System location: Bureau of Alcohol, Tobacco and Firearms, 1200 Pennsylvanina Avenue, N.W., Washington, D.C. 20226. Components of this record system are geographically dispersed throughout the Bureau's field offices. For nearest office location, see addresses listed Appendix E-1.

Categories of individuals covered by the system: (1) Present employees. (2) Former employees. (3) Recipients of rewards. (4) Vendors furnishing goods and services to the Bureau.

Categories of records in the system: (1) Advance of Funds. (2) Agreements. (3) Contracts. (4) Designated Agents or recommended Designated Agents. (5) Designated timekeepers and alternates. (6) Employee pay records. (7) Purchase Orders. (8) Payment vouchers. (9) Time and attendance records. (10) Travel and moving vouchers. (11) Travel request and authorization. (12) Chief Counsel and Regional Counsel memoranda and opinions.

Authority for maintenance of the system: (1) 5 U.S.C. sections 901 and 903, 5 U.S.C. App. (Reorganization Plan No. 26 of 1950), Treasury Order 221; 5 U.S.C. section 301. (2) E.O. 6166 (amended).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The purpose of this system is to provide fiscal services to employees of the Bureau and former employees of the Bureau; to record fiscal information as required by law and regulations; to prevent unauthorized disclosures; to provide accountability for government funds. When required or authorized by statute, regulation, or Executive Order, information in the record system is made available to members of the public or employees of other government agencies.

A record in this system of records may be disclosed as a "routine use" to a federal, state or local agency maintaining civil, criminal or other relevant enforcement information or other pertinent information, such as the letting of a contract, grant or other benefit.

A record in this system of records may be disclosed to a federal agency, in response to its request, in connection with the letting of a

contract, grant, or other benefit by the requesting agency, to the extent that the information is relevant and necessary to the requesting agency's decision on the matter.

A record in this system may be disclosed as a routine use to: officers and employees of the Department of the Treasury who have a need for the record in the performance of their duties, Employee of the General Accounting Office for review, Vendors of contractual services to the Bureau, members of the public, employees of other governmental agencies, or members of news media (on a case by case basis where determination that such disclosure would be in accordance with guidelines set forth under 28 C.F.R. Part 50.2; 5 U.S.C. 552 and 552a, and would not compromise enforcement of laws administered by Bureau of Alcohol, Tobacco and Firearms); local, state and Federal law enforcement agencies; local, state and Federal regulatory agencies; for additional routine uses, see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Active records stored in file folders in security filing cabinets. Inactive records stored in file folders at Federal Records Centers. Records also stored on magnetic tape at the IRS Data Center, Detroit, Michigan.

Retrievability: Records are retrievable by name, date of birth, social security number, employee identification number, or a combination of any of these four.

Safeguards: Direct access restricted to personnel in Department of Treasury in the performance of their duty. Transmitted to routine users on a need to know basis or where a right to access is established, and to others upon verification of the substance and propriety of the request. Stored in lockable file cabinets in rooms locked during non-duty hours.

Retention and disposal: Records are retained in accordance with General Services Administration General Records Schedules numbers 1 through 20 and Bureau of Alcohol, Tobacco and Firearms records Controls Schedules numbers 101 and 201 and disposed of by shredding or burning. Records stored on tapes, discs or in on-line mass storage, are disposed of by degaussing.

System manager(s) and address: Chief, Fiscal Division, Bureau of Alcohol, Tobacco and Firearms, 1200 Pennsylvania Avenue, N.W., Washington, D.C. 20226.

Notification procedure: Inquiries should be addressed to: Privacy Act Request, Bureau of Alcohol, Tobacco and Firearms, 1200 Pennsylvania Avenue, N.W., Washington, D.C. 20226.Requests may be delivered personally to Room 2232, Bureau of Alcohol, Tobacco and Firearms, 1200 Pennsylvania Avenue, N.W., Washington, D.C.

Record access procedures: Requests for access to records made by mail should be addressed to: Privacy Act Request, Bureau of Alcohol, Tobacco and Firearms, 1200 Pennsylvania Avenue, N.W., Washington, D.C. 20226.Requests may be delivered personally to Room 2232, Bureau of Alcohol, Tobacco and Firearms, 1200 Pennsylvania Avenue, N.W., Washington, D.C.

Appeals of determinations refusing amendment of records should be addressed to: Privacy Act Appeal, Bureau of Alcohol, Tobacco and Firearms, 1200 Pennsylvania Avenue, N.W., Washington, D.C. 20226. Appeals may be delivered personally to Room 2232, Bureau of Alcohol, Tobacco and Firearms, 1200 Pennsylvania Avenue, N.W., Washington, D.C.

Contesting record procedures: See Access above.

Record source categories: (1) Former employees of the Bureau of ATF. (2) IRS Data Center. (3) Present employees of the Bureau of ATF. (4) Surviving spouse of deceased personnel. (5) Vendors of necessary goods and services for operations of Bureau of ATF.

Treasury/ATF 00.005

System name: Freedom of Information Requests—Treasury/ATF.

System location: Bureau of Alcohol, Tobacco and Firearms, 1200 Pennsylvania Avenue, N.W., Washington, D.C. 20226.

Categories of individuals covered by the system: Individuals requesting information.

Categories of records in the system: Correspondence pursuant to the Freedom of Information Act, internal processing documents and memoranda, referrals and copies of requested records, and Chief Counsel and Regional Counsel memoranda and opinions.

Authority for maintenance of the system: Freedom of Information Act, 5 U.S.C. 552.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: For reporting requirements as required by the Act; to respond to other Department officials who request information regarding persons making a FOI request; evaluation purposes and determination of volume of requests received and the impact on the current workload; preparation of budget; disclosures in accordance with Freedom of Information Act, to other agencies when required for coordination of response or referral; to Department of Justice for defending law suits; to Congressional Committees; for additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: File folders.

Retrievability: By name of requester(s) and date of request.

Safeguards: Filed in filing cabinet and released only to individuals with legitimate right to review.

Retention and disposal: In accordance with the provisions of the Act and Departmental records management procedures.

System manager(s) and address: Assistant to the Director (Disclosure), Bureau of Alcohol, Tobacco and Firearms, 1200 Pennsylvania Avenue, N.W., Washington, D.C. 20226.

Notification procedure: See system manager.

Record access procedures: See system manager.

Contesting record procedures: See system manager.

Record source categories: Individuals who make Freedom of Information Act requests. Federal officials responding to Freedom of Information Act requests and documents from official records.

Treasury/ATF 00.006

System name: Internal Security Record System—Treasury/ATF.

System location: Bureau of Alcohol, Tobacco and Firearms, 1200 Pennsylvania Avenue, N.W., Washington, D.C. 20226.

Categories of individuals covered by the system: (1) Present employees of the Bureau of ATF. (2) Former employees of the Bureau of ATF. (3) Applicants for employment.

Categories of records in the system: (1) Records containing investigative material compiled for law enforcement purposes including reports relating to: (a) conduct of employees. (b) integrity of employees. (2) Records containing investigative material compiled solely for the purpose of determining suitability, eligibility, or qualifications for Federal civilian employment or access to classified information including reports relating to security clearances of employees.

Authority for maintenance of the system: (1) 18 U.S.C. 201 (2) E.O. 10450 (3) E.O. 11222

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: This system is used to assure the Bureau Director, the Department of the Treasury, and the public that the Bureau is taking strong and vigorous steps to maintain the highest standards of integrity, loyalty, conduct, and security among Bureau personnel. When a criminal investigation results in a compilation of information contained in this system, the information so compiled shall be transferred to the AT&F Criminal Investigation Report System and shall become a part of that system for all purposes of the Privacy Act of 1974.

A record in this system of records may be disclosed as a "routine use" to a federal, state or local agency maintaining civil, criminal or other relevant enforcement information or other pertinent information, such as current licenses, if necessary to obtain information relevant to an agency decision concerning the hiring or retention of an employee, the issuance of a security clearance, the letting of a contact, or the issuance of a license, grant or other benefit.

A record in this system of records may be disclosed to a federal agency, in response to its request, in connection with the hiring or retention of an employee, the issuance of a security clearance, the reporting of an investigation to an employee, the letting of a contract, or the issuance of a license, grant, or other benefit by the requesting agency, to the extent that the information is relevant and necessary to the requesting agency's decision on the matter.

A record in this system of records may be disclosed as a routine use to: officers and employees of the Department of the Treasury who have a need for the record in the performance of their duties; personnel of Department of Justice and other agencies, Federal, state, and local, foreign and domestic, having prosecutive and civil law enforcement functions; attorneys, magistrates, and judges; and parole and probation authorities for the purpose of prosecuting, sentencing, and determining the parole and probation status of criminal offenders or suspected criminal offenders; personnel of other Federal, state and local law enforcement agencies, foreign and domestic, for the purpose of developing information on subjects involved in Bureau criminal investigations and for assisting law enforcement agencies in the investigation and prosecution of violations of the criminal laws those agencies are responsible for enforcing; personnel of Federal, state and local governmental agencies, where such referral is considered rea-

sonably necessary for the purpose of furthering Bureau efforts to investigate the activities of and apprehend criminal offenders and suspected criminal offenders; personnel of Federal, state and local governmental agencies, foreign and domestic, where there is a showing of reasonable necessity to obtain such information to accomplish a valid law enforcement purpose; employees and officials of financial and commercial business firms and private individuals for identification purposes pertaining to actual or suspected criminal offenders where it is considered reasonably necessary for the purpose of furthering Bureau efforts to investigate the activities of and apprehend criminal offenders and suspected criminal offenders; defense attorneys under Discovery Procedures; members of the public, employees of other governmental agencies, or members of the news media (on a case by case basis where determination that such disclosure would be in accordance with guidelines set out under 28 C.F.R. Part 50.2; 5 U.S.C. 552, and 552a, and would not compromise enforcement of laws administered by Bureau of Alcohol, Tobacco and Firearms). For additional routine uses, see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Active records stored in file folders in security filing cabinets. Inactive records stored in file folders at Federal Records Center.

Retrievability: Records are retrievable by name.

Safeguards: Direct access restricted to personnel in Department of the Treasury in the performance of their duty. Transmitted to routine users on a need to know basis and to others upon verification of the substance and propriety of the request. Stored in lockable metal file cabinets in rooms locked during non-duty hours.

Retention and disposal: Records are retained in accordance with General Services Administration General Records Schedules Numbers 1 through 20 and Bureau of Alcohol, Tobacco and Firearms records control schedules numbers 101 and 201 and disposed of by shredding or burning.

System manager(s) and address: Assistant Director, Inspection, Bureau of Alcohol, Tobacco and Firearms, 1200 Pennsylvania Avenue N.W., Washington, D.C. 20226.

Notification procedure: The Director of the Bureau of Alcohol, Tobacco and Firearms has determined this system of records to be exempt from compliance with the provisions of 5 U.S.C. 552a (e) (4) (G).

Record access procedures: The Director of the Bureau of Alcohol, Tobacco and Firearms has determined this system of records to be exempt from compliance with the provisions of 5 U.S.C. 552a (e) (4) (H).

Contesting record procedures: See Access above.

Record source categories: (1) Employees of this Bureau. (2) Internal Investigative report forms. (3) witnesses. (4) informants. (5) Federal, State and local enforcement agencies. (6) Employers. (7) Educational institutions. (8) Credit agencies. (9) Neighbors. (10) References. (11) Professional Organizations. (12) other government agencies.

Systems exempted from certain provisions of the act: Portions exempt under 5 USC 552a(k) (relating to security clearances) and 5 USC 552a(k)(2) (relating to conduct and integrity) and 31 CFR 1.36.

Treasury/ATF 00.007

System name: Personnel Record System—Treasury/ATF.

System location: Bureau of Alcohol, Tobacco and Firearms, 1200 Pennsylvania Avenue, N.W., Washington, D.C. 20226. Components of this record system are geographically dispersed throughout the Bureau's field offices. For nearest office location, see addresses listed Appendix E—1.

Categories of individuals covered by the system: (1) Present Employees of the Bureau of ATF. (2) Former Employees of the Bureau of ATF. (3) Applicants for employment with ATF.

Categories of records in the system: (1) Allotment and Dues. (2) Annual Tax Reports. (3) Applicants for employment. (4) Applications for reassignment. (5) Awards, honors, and fellowship records. (6) Classification appeal records. (7) Death claim records. (8) Educational history. (9) Employee indebtedness records. (10) Employees qualified as Grievance Examiners. (11) Employee Suggestions. (12) Employee history. (13) Employee relations case file. (14) Equal employment opportunity case file. (15) Health maintenance records. (16) Insurance records. (17) Military history. (18) Occupational injuries, disabilities, and Worker's Compensation Records. (19) Official personnel folder. (20) Outside employment and identification numbers, business or professional records. (21) Outside employment. (22) Outside financial interests. (23) Overtime and/or Premium Pay records. (24) Performance evaluation records. (25) Personal history. (26) Pocket commission, badge number. (27) Position description records. (28) Promotion/Selection Certificates Records. (29) Property custody records. (30) Retirement records. (31) Security clearance records. (32) Statement of career goals. (33) Supervisory or managerial potential records. (34) Temporary assignments and details. (35) Time application reports and records. (36) Training record. (37) U.S. Savings Bond participation records. (38) Upward mobility applications. (39) Vehicle accidents. (40) Withholding tax records. (41) Work schedule records. (42) Chief Counsel and Regional Counsel memoranda and opinions.

Authority for maintenance of the system: (1) 5 U.S.C. Chapter 29, Subchapter II. (2) 5 U.S.C. Chapters 31 and 33. (3) 5 U.S.C. Chapter 43. (4) 5 U.S.C. Chapter 45. (5) 5 U.S.C. Chapter 51. (6) 5 U.S.C. Chapter 55, subchapter III. (7) 5 U.S.C. Chapter 61. (8) 5 U.S.C. Chapter 75. (9) 5 U.S.C. Chapter 83. (10) 5 U.S.C. Section 301. (11) 5 U.S.C. 4503. (12) 5 U.S.C. Section 5101—5115. (13) 5 U.S.C. Section 7151—7154. (14) 5 U.S.C. Section 7901. (15) P.L. 92—261 (Equal Employment Act of 1972). (16) P.L. 93—579. (17) Federal Employees Compensation Act. (18) Occupational Safety and Health Act of 1970. (19) Executive Order 10561. (20) E.O. 11222. (21) E.O. 11478. (22) E.O. 11491.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The purpose of this system is to provide personnel services to employees of the Bureau, former employees of the Bureau, and applicants for employment with the Bureau; to record personnel information as required by law and regulations; to prevent unauthorized disclosures; provide identification information in accident or medical emergency situations. When required or authorized by statute, regulations, or executive order, information in the record system is made available to members of the public, news media or other governmental agencies.

A record in this system of records may be disclosed as a "routine use" to a federal, state or local agency maintaining civil, criminal or other relevant enforcement information or other pertinent information, such as current licenses, if necessary to obtain information relevant to an agency decision concerning the hiring or retention of an employee, the issuance of a security clearance, the letting of a contract, or the issuance of a license, grant or other benefit.

A record in this system of records may be disclosed to a federal agency, in response to its request, in connection with the hiring or retention of an employee, the issuance of a security clearance, the reporting of an investigation of an employee, the letting of a contract, or the issuance of a license, grant, or other benefit by the requesting agency, to the extent that the information is relevant and necessary to the requesting agency's decision on the matter.

A record in this system maybe disclosed to the following as a routine use: (1) The Department of Labor; (2) Congressmen; (3) Equal Employment Opportunity Commission; (4) Members of the public, employees of other governmental agencies, or members of the news media (on a case by case basis where determination that such disclosure would be in accordance with guidelines set forth under 28 C.F.R. Part 50.2; 5 U.S.C. 552 and 552a, and would not compromise enforcement of laws administered by Bureau of Alcohol, Tobacco and Firearms); (5) Officers and employees of Department of the Treasury who have a need for the record in the performance of their duties; (6) Federal, state and local law enforcement agencies; (7) Federal, state and local regulatory agencies. For additional routine uses, see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Active records stored in file folders in security filing cabinets. Inactive records stored in file folders at Federal Records Centers. Records also stored on magnetic tape at the IRS Data Center, Detroit, Michigan. Records are stored in on—line mass computer storage at San Diego, California (Treasury Enforcement Communications System).

Retrievability: Records are retrievable by name, date of birth, social security number, employee identification number, or a combination of any of these four.

Safeguards: Direct access restricted to personnel in Department of Treasury in the performance of their duty. Transmitted to routine users on a need to know basis or where a right to access is established, and to others upon verification of the subetance and propriety of the request. Stored in lockable file cabinets in rooms locked during non—duty hours.

Retention and disposal: Records are retained in accordance with General Services Administration General Records Schedules numbers 1 through 20 and Bureau of Alcohol, Tobacco and Firearms Records Control Schedules numbers 101 and 201 and disposed of by shredding, burning or by degaussing.

System manager(s) and address: Assistant Director (Administration), Bureau of Alcohol, Tobacco and Firearms, 1200 Pennsylvania Avenue, N.W., Washington, D.C. 20226.

Notification procedure: The Director of the Bureau of Alcohol, Tobacco and Firearms has exempted this system of records from compliance with the provisions of 5 U.S.C. 552a (e) (4) (G).

Record access procedures: The Director of the Bureau of Alcohol, Tobacco and Firearms has exempted this system of records from compliance with the provisions of 5 U.S.C. 522a (e) (4) (H).

Contesting record procedures: Same as access above.

Record source categories: (1) Administrative Records. (2) Applicants for employment with Bureau. (3) Acquaintances. (4) Business and professional associates. (5) Creditors. (6) Criminal records. (7) Educational institutions attended. (8) Employee records. (9) Equal Employment Opportunity Commission. (10) Financial institutions. (11) Fiscal records. (12) Former employees. (13) Former employers. (14) Inspection records. (15) Internal investigation reports. (16) Internal Revenue Service. (17) Military records. (18) Outside employers. (19) Physicians. (20) Police reports. (21) Position classification specialists. (22) Psychiatrists. (23) References. (24) Supervisors. (25) Training officers. (26) Unions, accredited. (27) U.S. Civil Service Commission. (28) Witnesses.

Systems exempted from certain provisions of the act: Exempt under 5 USC 552a(k) and 31 CFR 1.36.

Treasury/ATF 80.006

System name: Regulatory Enforcement Record System—Treasury/ATF.

System location: Bureau of Alcohol, Tobacco and Firearms, 1200 Pennsylvania Avenue, N.W., Washington, D.C. 20226. Components of this system of records are also geographically dispersed throughout ATF's regional and field offices. For locations, see addresses of regional and field offices listed in Appendix E—1.

Categories of individuals covered by the system: (1) Individuals who have been issued permits or licenses, have filed applications with ATF, or have registered with ATF as: (a) Brewers; (b) Claimants for refund, abatement, credit, allowance or drawback of excise or special occupational taxes; (c) Collectors of firearms or ammunition; (d) Distillers, bonded warehousemen, rectifiers, or bottlers of distilled spirits; (e) Importers of firearms, ammunition or implements of war; (f) Importers or wholesalers of beer, wine or distilled spirits; distillers, rectifiers, bottlers, or warehousemen of distilled spirits; or wine producers; (g) Individuals engaged in wagering activities; (h) Individuals who produce, receive, blend, store or treat wine or distilled spirits for experimental or research purposes; (i) Individuals who establish experimental distilled spirits plants; (j) Limited retail dealers in beer or wine; (k) Liquor bottle manufacturers; (l) Manufacturers of stills; (m) Manufacturers, importers, or dealers of firearms or ammunition; (n) Manufacturers, importers, dealers, or users of explosive materials; (o) Manufacturers, proprietors of export warehouses or importers of tobacco products; (p) Nonbeverage drawback claimants; (q) Operators of pilot brewing plants; (r) Possessors of stills and related equipment; (s) Producers of wine for family use; (t) Proprietors of vinegar plants, fruit—flavor concentrate plants or class 6 bonded warehouses; (u) Proprietors of bonded wine cellars, bonded wineries, taxpaid wine bottling houses, or bonded wine warehouses; (v) Reprocessors or rebottlers of specially denatured spirits; (w) Retailers of beer, wine or distilled spirits; (x) Users of tax—free alcohol, dealers or users of specially denatured spirits, or recoverers of specially denatured or completely denatured spirits.

(2) Individuals who are employed by businesses engaged in the activities specified in paragraph 1 and who are officers, directors, holders of 10 percent or more of the outstanding stock, designated agents, or responsible persons. (3) Individuals who are not qualified to engage in any of the activities listed in paragraph 1, but who are assessed excise or special occupational taxes. (4) Individuals who submit Offers in Compromise.

Categories of records in the system: Records containing investigative material compiled for law enforcement purposes which may consist of the following: (1) Abstracts of offers in compromise. (2) Administrative law judge decisions. (3) Assessment records: (a) notices of proposed assessments; (b) notices of shortages or losses; (c) notices to IRS to assess taxes; (d) recommendation for assessments. (4) Claim records: (a) claims; (b) letters of claim rejection; (c) sample reports; (d) supporting data; (e) vouchers and schedules of payment. (5) Comments on proposed rulemakings. (6) Complaints from third parties. (7) Correspondence concerning records in this system and related matters. (8) Financial statements. (9) Inspection and investigation reports. (10) Joint demands on principals and sureties for payment of excise tax liabilities. (11) Letters of reprimand. (12) Lists of permittees and licensees. (13) Lists of officers, directors and principal stockholders. (14) Mailing lists and addressograph plates. (15) Notices of delinquent reports. (16) Offers in compromise. (17) Operation records: (a) operating reports; (b) reports of required inventories; (c) reports of thefts or losses of firearms; (d) reports of thefts of explosive materials; (e) transaction records; (f) transaction reports. (18) Orders of revocation, suspension or annulment of permits or licenses. (19) Regional and Chief Counsel opinions and memoranda. (20) Reports of violations. (21) Permit status records. (22) Qualifying records: (a) access authorizations; (b) advertisement records; (c) applications; (d) bonds; (e) business histories; (f) criminal records; (g) diagrams of premises; (h) educational histories; (i) employment histories; (j) environmental records; (k) financial data; (l) formula approvals; (m) label approvals; (n) licenses; (o) notices; (p) permits; (q) personal references; (r) plant profiles; (s) plant capacities; (t) plats and plans; (u) registrations; (v) sample reports; (w) signature authorities; (x) special permissions and authorizations; (y) statements of process. (23) Show cause orders. (24) Tax records: (a) control cards relating to periodic payment and prepayment of taxes; (b) excise and special tax returns; (c) notices of tax discrepancy or adjustment.

Authority for maintenance of the system: (1) 26 U.S.C. 5172. (2) 26 U.S.C. 5271(b)(1). (3) 26 U.S.C. 5356. (4) 26 U.S.C. 5401. (5) 26 U.S.C. 5417. (6) 26 U.S.C. 5502(b). (7) 26 U.S.C. 5511(3). (8) 26 U.S.C. 5521(a). (9) 26 U.S.C. 5179(a). (10) 22 U.S.C. 204(c). (11) 26 U.S.C. 5105. (12) 26 U.S.C. 5275. (13) 26 U.S.C. 5301(b). (14) 26 U.S.C. 5132. (15) 26 U.S.C. 5042(a)(2). (16) 26 U.S.C. 7011. (17) 26 U.S.C. 5712. (18) 18 U.S.C. 923(a). (19) 18 U.S.C. 923(b). (20) 18 U.S.C. 843(a). (21) 22 U.S.C. 414. (22) 26 U.S.C. 4401(a). (23) 26 U.S.C. 6001. (24) 26 U.S.C. 6011(a). (25) 26 U.S.C. 5001. (26) 26 U.S.C. 5021—5023. (27) 26 U.S.C. 5041. (28) 26 U.S.C. 5051. (29) 26 U.S.C. 6201. (30) 26 U.S.C. 5008. (31) 26 U.S.C. 5044. (32) 26 U.S.C. 5056. (33) 26 U.S.C. 5705. (34) 26 U.S.C. 6423(b). (35) 26 U.S.C. 5009(a). (36) 26 U.S.C. 5006(a). (37) 26 U.S.C. 5055. (38) 26 U.S.C. 5062(c). (39) 26 U.S.C. 5106. (40) 26 U.S.C. 5131(c). (41) 26 U.S.C. 5064. (42) 26 U.S.C. 7122. (43) 27 U.S.C. 207. (44) 18 U.S.C. 843(d). (45) 18 U.S.C. 923(f). (46) 27 U.S.C. 204(e). (47) 26 U.S.C. 5312(a). (48) 26 U.S.C. 5042(a)(3). (49) Reorganization Act of 1949, 5 U.S.C. Sections 901 et seq.; Revenue Act of 1951, Section 616; Treasury Department Order 221 (37 F.R. 11696, June 19, 1972). (50) 5 U.S.C. 301.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The purpose of this system is to determine suitability, eligibility or qualifications of individuals who are engaged or propose to engage in activities regulated by ATF; achieve compliance with laws under ATF's jurisdiction; assure full collection of revenue due from legal industries; eliminate commercial bribery, consumer deception and other improper trade practices in the distilled spirits, beer and wine industries; interact with Federal, state and local governmental agencies in the resolution of problems relating to industrial development, revenue protection, public health, ecology, and other areas of joint jurisdictional concern. When required or authorized by statute, regulation, or Executive Order, information in the record system is made available to members of the public or employees of other government agencies.

In the event that a record in this system indicates a violation or potential violation of law, whether civil, criminal or regulatory in nature, and whether arising by general statute or particular program statute, or by regulation, rule or order issued pursuant thereto, these records may be referred, as a routine use, to the appropriate agency, whether federal, state, local or foreign, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation or order issued pursuant thereto.

A record in this system of records may be disclosed as a "routine use" to a federal, state or local agency maintaining civil, criminal or other relevant enforcement information or other pertinent information, such as current licenses, if necessary to obtain information relevant to an agency decision concerning the issuance of a license, grant or other benefit.

A record in this system of records may be disclosed to a federal agency, in responses to its request, in connection with the issuance of a license, grant, or other benefit by the requesting agency, to the extent that the information is relevant and necessary to the requesting agency's decision on the matter. When an ATF criminal investigation results in compilation of information contained in this system of records, the information shall be transferred to the Treasury ATF—Criminal Investigation Report System and shall become part of that system for all purposes of the Privacy Act of 1974. A record in this system may be disclosed as a routine use to: Officers and employees of the Department of the Treasury who have a need for the record in the performance of their duties; Federal, State or local regulatory or law enforcement agencies in the performance of their duties on a

need to know basis; Members of the public, employees of other Governmental agencies, or members of the news media (on a case by case basis where determination that such disclosure would be in accordance with guidelines set forth under 28 C.F.R. Part 50.2; 5 U.S.C. 552 and 552a, and would not compromise enforcement of laws administered by Bureau of Alcohol, Tobacco and Firearms). For additional routine uses, see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Active records stored in file folders in filing cabinets; card forms in card filing cabinets; and on magnetic tapes or microfiche at IRS Service Centers, ATF Headquarters, or Department of the Treasury.

Retrievability: Records are retrievable by name, permit or license number, or by document locator number.

Safeguards: Direct access restricted to personnel in Department of Treasury in the performance of their duty. Transmitted to routine users on a need to know basis and others upon verification of the substance and propriety of the request. Stored in file cabinets in rooms locked during non—duty hours. Wagering records are maintained in safes or file cabinets which are locked at all times.

Retention and disposal: Records are retained in accordance with General Services Administration General Records Schedules numbers 1 through 20 and Bureau of Alcohol, Tobacco and Firearms Records Control Schedules numbers 101 and 201 and disposed of by shredding, burning or by degaussing.

System manager(s) and address: Assistant Director, Regulatory Enforcement, Bureau of Alcohol, Tobacco and Firearms, 1200 Pennsylvania Avenue, N.W., Washington, D.C. 20226.

Notification procedure: The Director of the Bureau of Alcohol, Tobacco and Firearms has determined this system of records to be exempt from compliance with the provisions of 5 U.S.C. 522a (e) (4) (G).

Record access procedures: The Director of the Bureau of Alcohol, Tobacco and Firearms has determined this system of records to be exempt from compliance with the provisions of 5 U.S.C. 522a (e) (4) (H).

Contesting record procedures: See Access above.

Record source categories: (1) Acquaintances. (2) Bureau Personnel. (3) Business and Professional Associates. (4) Creditors. (5) Criminal Records. (6) Financial Institutions. (7) Former Employers. (8) Internal Revenue Service. (9) Military Records. (10) Physicians. (11) Psychiatrists. (12) References. (13) Police Reports. (14) Witnesses. (15) Federal Law Enforcement Agencies. (16) State Law Enforcement Agencies. (17) Local Law Enforcement Agencies. (18) State Regulatory Agencies. (19) Federal Regulatory Agencies. (20) Local Regulatory Agencies. (21) Chief Counsel's Opinions. (22) Regional Counsel's Opinions. (23) Chief Counsel's Memoranda. (24) Regional Counsel's Memoranda. (25) Field Investigation Reports. (26) Third Parties.

Systems exempted from certain provisions of the act: Exempt under 5 USC 552a(k)(2) and 31 CFR 1.36.

Treasury/ATF 00.009

System name: Technical and Scientific Services Record System—Treasury/ATF.

System location: Bureau of Alcohol, Tobacco, and Firearms, 1200 Pennsylvania Avenue, N.W., Washington, D.C. 20226. Components of this record system are geographically dispersed throughout Bureau of Alcohol, Tobacco and Firearms' field offices. For nearest location, see addresses listed Appendix E—1.

Categories of individuals covered by the system: (1) Applicants to register firearms under the National Firearms Act. (2) Applicants for Surplus Military Firearms under the Director of Civilian Marksmanship Program. (3) Importers of implements of war as defined under the Mutual Security Act of 1954. (4) Licensed importers registered under the Mutual Security Act of 1954. (5) Manufacturers of National Firearms Act who are exempt from payment of Special (Occupational) tax provisions. (6) Non—Bureau chemists certified to make analysis of alcoholic beverages. (7) Persons involved in explosives tagging and detection program. (8) Registered owners of National Firearms Act firearms. (9) Special (Occupational) taxpayers as defined under title II of the Gun Control Act of 1968. (10) Victims of explosives. (11) Individuals involved in Government funded research projects.

Categories of records in the system: (1) Alterations of registered National Firearms Act firearms. (2) Applications for surplus military firearms. (3) Applications to register firearms and destructive devices under the National Firearms Act. (4) Applications to import articles on the U.S. Munitions list. (5) Blueprints. (6) Certifications of payment of Special (occupational) tax payments. (7) Changes of address for owner of firearms registered under the National Firearms Act. (8) Claims for erroneous Special (Occupational) taxes payments. (9) Descriptions of Inventions. (10) Delinquency notices regarding proof of importation of National Firearms Act Firearms. (11) Explosive reports. (12) Non—Bureau chemists' statements of qualification. (13) Patent information. (14) Registrations of firearms and destructive devices under the National Firearms Act. (15) Registration of war trophy firearms. (16) Requests and authorizations for temporary movement and/or temporary storage of National Firearms Act firearms. (17) Technical and scientific data. (18) Transaction records concerning National Firearms Act firearms. (19) Trade secrets. (20) U.S. Government contracts to manufacturers of National Firearms Act firearms. (21) Chief Counsel and Regional Counsel memoranda and opinions.

Authority for maintenance of the system: (1) 18 U.S.C. Chapter 40. (2) 18 U.S.C. Chapter 44. (3) 18 U.S.C. Section 3056. (4) 26 U.S.C., Sections 6001(a), 5001, 5008, 5009(a), 5006(a), 5021—5023, 5041, 5042(a)(2), 5051, 5053, 5056, 5062(c), 5705, 6201, 6423(b), 5105, 5106, 5131(c), 5132, 5172, 5172(b)(1), 5275, 5301(b), 5356, 5401, 5417, 5502(b), 5511(3), 5521(a), 5179(a), 5712, 7011. (5) 27 U.S.C. Sections 204(c). (6) 26 U.S.C. Chapter 35. (7) Executive Order 10973 as amended by Executive Order 11432.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The purpose of this system is to provide technical and scientific support and expertise to Criminal and Regulatory Enforcement activities of the Bureau; to other Federal, State, local and foreign law enforcement agencies; and to industries involved in activities regulated by the Bureau. When required or authorized by statute, regulation, or Executive Order, information in the record system is made available to members of the public or employees of other government agencies. When a criminal investigation results in a compilation of information contained in this system, the information so compiled shall be transferred to the ATF Criminal Investigation Report System and shall become a part of that system for all purposes of the Privacy Act of 1974.

In the event that a record in this system indicates a violation or potential violation of law, whether civil, criminal or regulatory in nature, and whether arising by general statute or particular program statute, or by regulation, rule or order issued pursuant thereto, these records may be referred, as a routine use, to the appropriate agency, whether federal, state, local or foreign, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation or order issued pursuant thereto. Records in this system may be disclosed as a routine use to: (1) Officers and employees of the Department of the Treasury who have a need for the record in the performance of their duties. (2) Federal law enforcement agencies. (3) State law enforcement agencies. (4) Local law enforcement agencies. (5) Foreign law enforcement agencies. (6) Industries involved in activities regulated by the Bureau. (7) Department of Defense. (8) Federal regulatory agencies. (9) State regulatory agencies. (10) Local regulatory agencies. (11) Members of the public, employees of other government agencies, or members of the news media (on a case by case basis where determination that such disclosure would be in accordance with guidelines set forth under 28 C.F.R. Part 50.2; 5 U.S.C. 552 and 552a, and would not compromise enforcement of laws administered by Bureau of Alcohol, Tobacco and Firearms). (12) Smithsonian Institution. (13) For additional routine uses, see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Active records stored in file folders in filing cabinets; on 3 by 5 and 5 by 8 cards stored in card file cabinets; on microfilm reels; magnetic tape reels and discs; and on keypunch cards.

Retrievability: Records are retrievable by name, by unique identifier, control number, serial number of National Firearms Act firearms.

Safeguards: Stored in file cabinets locked during non—duty hours.

Retention and disposal: Records are retained in accordance with General Services Administration Records Schedules numbers 1 through 20 and Bureau of Alcohol, Tobacco and Firearms Records Control Schedules numbers 101 and 201 and disposed of by shredding or burning. Records stored on tape discs or on—line mass storage are disposed of by degaussing.

System manager(s) and address: Assistant Director, Technical and Scientific Services, Bureau of Alcohol, Tobacco and Firearms, 1200 Pennsylvania Avenue, N.W., Washington, D.C. 20226.

Notification procedure: The Director of the Bureau of Alcohol, Tobacco and Firearms has determined this system of records to be

exempt from compliance with the provisions of 5 U.S.C. 552 (e) (4) (G).

Record access procedures: The Director of the Bureau of Alcohol, Tobacco and Firearms has determined this system of records to be exempt from compliance with the provisions of 5 U.S.C. 552a (e) (4) (H).

Contesting record procedures: See Access above.

Record source categories: (1) Individuals. (2) Companies. (3) Corporations. (4) Firearms Licensees. (5) Firearms Permittees. (6) Explosive Licensees. (7) Explosive Permittees. (8) Bureau personnel. (9) Federal law enforcement agencies. (10) State law enforcement agencies. (11) Local law enforcement agencies. (12) Foreign law enforcement agencies. (13) Federal Regulatory agencies. (14) State Regulatory agencies. (15) Local Regulatory agencies. (16) Non—Bureau Chemists.

Systems exempted from certain provisions of the act: Exempt under 5 USC 552a(k)(2) and 31 CFR 1.36.

APPENDIX E

(List of geographically dispersed offices referred to in the "Location" sections of each system of records)

Regional Offices

Regional Director, Bureau of Alcohol, Tobacco and Firearms, 6 World Trade Center, Room 620 H, New York, New York 10048.

Regional Director, Bureau of Alcohol, Tobacco and Firearms, Room 360, 2 Penn Center, Philadelphia, Pennsylvania 19102.

Regional Director, Bureau of Alcohol, Tobacco and Firearms, Federal Office Building, Room 6519, 550 Main Street, Cincinnati, Ohio 45202.

Regional Director, Bureau of Alcohol, Tobacco and Firearms, Room 1502, 230 S. Dearborn Street, Chicago, Illinois 60604.

Regional Director, Bureau of Alcohol, Tobacco and Firearms, Room 204, 3835 Northeast Expressway, Atlanta, Georgia 30340.

Regional Director, Bureau of Alcohol, Tobacco and Firearms, Room 345, Main Tower, 1200 Main Street Dallas, Texas 75202.

Regional Director, Bureau of Alcohol, Tobacco and Firearms, 525 Market Street, 34th Floor, San Francisco, California 94105.

Treasury/Customs 00.001

System name: Acceptable Level of Competence, Negative Determination—Treasury/Customs.

System location: Personnel Management Division, U.S. Customs Service, Region I, 100 Summer Street, Boston, Massachusetts 02110.

Categories of individuals covered by the system: Any employee of U.S. Customs Service Region I, who receives a negative determination regarding acceptable level of competence.

Categories of records in the system: Employee's name, social security number, position description, grade, and correspondence containing specific reasons for negative determination.

Authority for maintenance of the system: Five U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The routine uses of the records contained in this system of records are as follows: (a) Disclosure to those officers and employees of the Customs Service and the Department of the Treasury who have a need for the records in the performance of their duties; such uses include general reference to the records by supervisors when considering appropriate actions to take with regard to the individuals; (b) Disclosures required in administration of the Freedom of Information Act (5 U.S.C. 552); (c) In the event that this system of records includes information which indicates a violation or potential violation of law, whether civil, criminal, or regulatory in nature, and whether arising by general statute or particular program statute, or by regulation, rule, or order issued pursuant thereto, the relevant records in the system of records may be referred, as a routine use, to the appropriate agency, whether Federal, state, local, or foreign, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation, or order issued pursuant thereto; (d) A record from this system of records may be disclosed as a "routine use" to a Federal, state, or local agency maintaining civil, criminal, or other relevant enforcement information or other pertinent information, such as current licenses, if necessary to obtain information relevant to an agency decision concerning the

hiring or retention of an employee, the issuance of a security clearance, the letting of a contract, or the issuance of a license, grant, or other benefit; (e) A record from this system of records may be disclosed to a Federal agency, in response to its request, in connection with the hiring or retention of an employee, the issuance of a security clearance, the reporting of an investigation of an employee, the letting of a contract, or the issuance of a license, grant, or other benefit by the requesting agency, to the extent that the information is relevant and necessary to the requesting agency's decision on the matter.

For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Records are maintained in file folders and stored in locked file cabinets.

Retrievability: The records are filed by the individual's name.

Safeguards: Direct access is limited to the Director and five employees of the Personnel Division. In addition to being stored in locked cabinets, the area in which these records are stored is locked during non-duty hours and the building is guarded by uniformed security police.

Retention and disposal: Records are retained until the employee leaves the Customs Service.

System manager(s) and address: Director, Personnel Management Division, U.S. Customs Service, Region I, 100 Summer Street, Boston, Massachusetts 02110.

Notification procedure: See Customs Appendix A.

Record access procedures: See Customs Appendix A.

Contesting record procedures: See Access, Customs Appendix A.

Record source categories: Information is furnished by the employee, employee's supervisor and the Federal Employee Appeals Authority.

Treasury/Customs 00.002

System name: Accident Reports—Treasury/Customs.

System location: Logistics Management Division, Region IV, 99 S.E. 5th Street, Miami, Florida 33131; Logistics Management Division, U.S. Customs Service, 211 Main Street, San Francisco, California, 94105.

Categories of individuals covered by the system: Any employee of Region IV who has had an accident on Government property or in an official vehicle since 1973.

Categories of records in the system: Standard Government forms dealing with accidents and personal injuries.

Authority for maintenance of the system: 5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

Executive Order 11807 and Section 19 of Occupational Health & Safety Act of 1970; 5 U.S.C. 8101-8150, 8191-8193.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The routine uses of the records contained in this system of records are as follows: (a) Disclosure to those officers and employees of the Customs Service and the Department of the Treasury who have a need for the records in the performance of their duties; (b) Disclosures required in administration of the Freedom of Information Act (5 U.S.C. 552); (c) Files are made available to Headquarters for accumulation of statistics; (d) Each record of automobile accidents is turned over to Regional Counsel for determination of tort claims, liability by Federal Government or other party, etc.; (e) Available for personnel actions, if needed; (f) Disclosure to employee's beneficiary in event of death following the accident or injury or to employee's agent in case of disability.

For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Each case folder is maintained in an unlocked drawer in chronological order by date.

Retrievability: Each case is identified by employee name and date of accident.

Safeguards: The metal container described above is maintained within the area assigned to the Logistics Management Division within the Region IV Headquarters Building. During non-working hours the room in which the metal container is located is locked.

Retention and disposal: Accident Record files are retained in accordance with the Records Disposal Manual.

System manager(s) and address: Director, Logistics Management Division, Region IV, Headquarters, 99 S.E. 5th Street; Logistics Management Specialist, Logistics Management Division, U.S. Customs Service, 211 Main Street, San Francisco, California, 94105.

Notification procedure: See Customs Appendix A.

Record access procedures: See Customs Appendix A.

Contesting record procedures: See Access, Customs Appendix A.

Record source categories: Information originates with employees who have been injured and/or have been involved in accidents during the exercise of their official duties. Also included are witness reports and statements, the employees' supervisors' statements and doctors' reports.

Treasury/Customs 00.005

System name: Accounts Receivable Treasury/Customs.

System location: Financial Management Division, U.S. Customs Service, Region I, 100 Summer Street, Boston, Massachusetts 02110; Financial Management Division, District and Ports, 99 S.E. 5th Street, Miami, Florida, 33131; U.S. Customs Service, Financial Management Division, Increase and Refund Section, 6 WTC, New York, N.Y. 10048; Financial Management Division, U.S. Customs Service, Region V, 1440 Canal Street, New Orleans, Louisiana, 70112.

Categories of individuals covered by the system: Persons owing money for Customs duties and services and money owed to persons for overpayment of excessive duties and services.

Categories of records in the system: Correspondence and documentation of telephone calls with debtors and creditors or their representatives.

Authority for maintenance of the system: 5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The routine uses of the records contained in this system of records are as follows: (a) Disclosure to those officers and employees of the Customs Service and the Department of the Treasury who have a need for the records in the performance of their duties; (b) Disclosures required in administration of the Freedom of Information Act (5 U.S.C. 552); (c) In the event that this system of records includes information which indicates a violation or potential violation of law, whether civil, criminal, or regulatory in nature, and whether arising by general statute or particular program statute, or by regulation, rule, or order issued pursuant thereto, the relevant records in the system of records may be referred, as a routine use, to the appropriate agency, whether Federal, state, local, or foreign, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation, or order issued pursuant thereto; (d) A record from this system of records may be disclosed as a "routine use" to a Federal, state, or local agency maintaining civil, criminal, or other relevant enforcement information or other pertinent information, such as current licenses, if necessary to obtain information relevant to an agency decision concerning the hiring or retention of an employee, the issuance of a security clearance, the letting of a contract, or the issuance of a license, grant, or other benefit; (e) A record from this system of records may be disclosed to a Federal agency, in response to its request, in connection with the hiring or retention of an employee, the issuance of a security clearance, the reporting of an investigation of an employee, the letting of a contract, or the issuance of a license, grant, or other benefit by the requesting agency, to the extent that the information is relevant and necessary to the requesting agency's decision on the matter; (f) This system is used by the personnel of the Financial Management Division to effect collections or refund overpayments for duties and services.

For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Data is stored in file folders which are contained in an unlocked metal file cabinet.

Retrievability: The file is retrieved by the name of the individual which is kept in alphabetical order within the work area of the Collection Section.

Safeguards: The files are located within an office that is locked during non-working hours. The building is guarded by uniformed security police and only authorized persons are permitted entry to the building.

Retention and disposal: The file is retained until collection or refund is effected and 2 years thereafter, then destroyed.

System manager(s) and address: Director, Financial Management Division, U.S. Customs Service, 100 Summer Street, Boston, Massachusetts 02110; Director of Financial Management, 99 S.E. 5th Street, Miami, Florida, 33131; Regional Commissioner, U.S. Customs Service, 6 World Trade Center, New York, N.Y. 10048; Financial

Management Division, U.S. Customs Service, Region V, 1448 Canal Street, New Orleans, Louisiana, 70112.

Notification procedure: See Customs Appendix A.

Record access procedures: See Customs Appendix A.

Contesting record procedures: See Access, Customs Appendix A.

Record source categories: The information in the system is obtained from data gathered from the automated billing system and ports of entry.

Treasury/Customs 00.009

System name: Acting Customs Inspector (Excepted)—Treasury/Customs.

System location: Personnel Management Division, Regional Commissioner of Customs, 55 East Monroe Street, Suite 1501, Chicago, Illinois 60603, and Offices of the District Directors, Region IX, Chicago, Illinois; Inspection and Control Division, U.S. Customs Service, Region VI, 500 Dallas Street, Suite 1240, Houston, Texas, 77002; Office of the District Director, San Diego, California; Offices of the Port Directors, San Ysidro, California; Calexico, California; Tecate, California; Andrate, California; San Diego Barge Office; and the Offices of the Patrol Division, San Diego California, San Ysidro, California; Calexico, California; Tecate, California; See Customs Appendix A; U.S. Customhouse, P.O. Box 111, District Director's Office, St. Albans, Vermont, 05478; Office of the District Director, P.O. Box 2112, San Juan, Puerto Rico, 00903.

Categories of individuals covered by the system: Employees or members of other Federal agencies who are designated by the District Directors as Customs Inspectors (Excepted).

Categories of records in the system: System has name, social security number, rank or grade and duty station of the individual.

Authority for maintenance of the system: 5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The routine uses of the records contained in this system of records are as follows: (a) Disclosure to those officers and employees of the Customs Service and the Department of the Treasury who have a need for the records in the performance of their duties; (b) Disclosures required in administration of the Freedom of Information Act (5 U.S.C. 552); (c) Used by Personnel Management Specialists and managers as a control and for statistical purposes.

For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: CF 55 forms kept in manila folders in file cabinet.

Retrievability: Filed alphabetically.

Safeguards: During non-working hours the offices and/or buildings in which records are located are locked.

Retention and disposal: Until individual transfers or designation is cancelled. Form is then destroyed.

System manager(s) and address: Director, Personnel Management Division; Region IX, 55 E. Monroe Street, Chicago, Illinois, 60603; Director, Inspection and Control Division, U.S. Customs Service, Region VI, 500 Dallas, Suite 1240, Houston, Texas, 77002; District Director, Port Directors, and Division Directors, within the San Diego Customs District (See Appendix A); District Director, U.S. Customs Service, St. Albans, Vermont, 05478, District Director, P.O. Box 2112, San Juan, Puerto Rico, 00903.

Notification procedure: See Customs Appendix A.

Record access procedures: See Customs Appendix A.

Contesting record procedures: See Access, Customs Appendix A.

Record source categories: Information is supplied by the individual and his or her agency.

Treasury/Customs 00.014

System name: Advice Requests (Legal) (Region VIII)—Treasury/Customs.

System location: Office of the Regional Counsel, 211 Main Street, San Francisco, CA 94105.

Categories of individuals covered by the system: Individuals who are the subject of any request for legal advice by another office within Customs, another Government agency, or the private individual himself. An example would be a request by a District Director for advice as to whether or not a violation of a Customs law for which a penalty may be assessed has occurred.

Categories of records in the system: Intra-agency or inter-agency memoranda and reports of investigation and other documents submitted by the requesting office for use in handling the request. Correspondence from the private individual submitting the request.

Authority for maintenance of the system: 5 U.S.C. 301; Reorganization Plan No. 1 of 1950; Treasury Department Order No. 165, Revised, as amended; Reorganization Plan No. 1 of 1965.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The routine uses of the records contained in this system of records are as follows: (a) Disclosure to those officers and employees of the Customs Service and the Department of the Treasury who have a need for the records in the performance of their duties; (b) Disclosures required in administration of the Freedom of Information Act (5 U.S.C. 552); (c) Information contained in the files is used in handling the request for advice and in preparing a response to the request; (d) Information contained in the files may be used internally by the Regional Counsel and members of his staff insofar as it relates to precedent or guidelines for their handling of future cases.

For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Each case file is inserted in an alphabetical file folder which is filed in an unlocked drawer within a metal file cabinet.

Retrievability: Each case file is identified in a manual alphabetical card file by the name of the individual who is the subject of the request and in the alphabetical file folder within the metal file cabinet by the name of the individual who is the subject of the request.

Safeguards: The metal file cabinet described above is maintained within the area assigned to the Office of the Regional Counsel within the Federal Building. During non-working hours, the room in which the metal file cabinet is located is locked, and access to the building is controlled at all times by uniformed guards.

Retention and disposal: Request for legal advice files are retained indefinitely or until there is no longer any space available for them within the metal file cabinet, at which time some files may be transferred to the Federal Record Center.

System manager(s) and address: Regional Counsel, 211 Main Street, San Francisco, CA 94105.

Notification procedure: See Customs Appendix A.

Record source categories: Information which may concern the subject individual is sourced in the memoranda or correspondence from the office or individual requesting the advice and in any supporting documents that office or individual may transmit.

Systems exempted from certain provisions of the act: The Commissioner of Customs pursuant to 5 U.S.C. 552a (k) has exempted this system of records from certain requirements of 5 U.S.C. 552a. The provisions of 5 U.S.C. 552a from which this system of records is exempt and the justification for the exemption is contained in a general notice which appears in 31 CFR 1.36.

Treasury/Customs 00.016

System name: Aircraft Ownership File—Treasury/Customs

System location: U.S. Customs Air Support Branch, PM-TUM, Homestead Air Force Base, Homestead, Florida 33030.

Categories of individuals covered by the system: Persons, partnerships, or corporations who are the registered owners of record of U.S. aircraft.

Categories of records in the system: This file contains the name and address of the registered owner of the aircraft; the registration number, category and type of aircraft; and an indication of whether or not the aircraft is on record with the TECS system.

Authority for maintenance of the system: 5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The routine uses of the records contained in this system of records are as follows: (a) Disclosure to those officers and employees of the Customs Service and the Department of the Treasury who have a need for the records in the performance of their duties; such uses would include general reference to the records by Customs Officers to determine whether certain aircraft are in the TECS system and in enforcing laws and regulations relating to aircraft entering and leaving the United States; (b) Disclosures required in administration of the Freedom of Information Act (5 U.S.C. 552); (c) In the event that this system of records includes information which indicates a violation or potential violation of law, whether civil, criminal, or regulatory in nature, and whether arising by general statute or particular program statute, or by regulation, rule, or order issued pursuant thereto, the relevant records in the system of records may be referred, as a routine use, to

the appropriate agency, whether Federal, state, local, or foreign, charged with the responsibility of investigating or prosecuting such violation or charges with enforcing or implementing the statute, or rule, regulation, or order issued pursuant thereto; (d) A record from this system of records may be disclosed as a "routine use" to a Federal, state, or local agency maintaining civil, criminal, or other relevant enforcement information or other pertinent information, such as current licenses, if necessary to obtain information relevant to an agency decision concerning the hiring or retention of an employee, the issuance of a security clearance, the letting of a contract, or the issuance of a license, grant, or other benefit; (e) A record from this system of records may be disclosed to a Federal agency, in response to its request, in connection with the hiring or retention of an employee, the issuance of a security clearance, the reporting of an investigation of an employee, the letting of a contract, or the issuance of a license, grant, or other benefit by the requesting agency, to the extent that the information is relevant and necessary to the requesting agency's decision on the matter.

For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: The information files are numerically filed in a looseleaf container within a security area.

Retrievability: The information is in the form of microfilm and is retrieved by means of an alphanumeric code identifier.

Safeguards: The information files are located within an office which is locked during non-working hours. The building is guarded by U.S. Air Force Military Police and only authorized persons are permitted in the building.

Retention and disposal: These files are maintained for a period of three months at which time they are replaced with current information. The old files are then destroyed under Customs supervision.

System manager(s) and address: Chief, Air Support Branch, U.S. Customs, PM-TUM, Homestead Air Force Base, Homestead, Florida 33030.

Systems exempted from certain provisions of the act: The Commissioner of Customs pursuant to 5 U.S.C. 552a (j) and/or (k) has exempted this system of records from certain requirements of 5 U.S.C. 552a. The provisions of 5 U.S.C. 552a from which this system of records is exempt and the justification for the exemption is contained in a general notice which appears in 31 CFR 1.36.

Treasury/Customs 00.017

System name: Aircraft Registers—Treasury/Customs.

System location: U.S. Customs Service, Office of Investigations, SAC, 600 South Street, Room 444, New Orleans, La. 70130; RA, 1719 West End Building, Rm. 303, Nashville, Tennessee 37203.

Categories of individuals covered by the system: Owners and co-owners of U.S. registered aircraft.

Categories of records in the system: Name indices of owners of U.S. registered aircraft and indices of co-owners of U.S. registered aircraft indexed by aircraft registration number.

Authority for maintenance of the system: 5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The routine uses of the records contained in this system of records are as follows: (a) Disclosure to those officers and employees of the Customs Service and the Department of the Treasury who have a need for the records in the performance of their duties; such uses would include general reference to the records by Customs Officers to determine whether certain aircraft are in the TECS system and in enforcing laws and regulations relating to aircraft entering and leaving the United States; (b) Disclosure required in the administration of the Freedom of Information Act (5 U.S.C. 552); (c) Information contained in these microfiche files is provided for the routine use of the Office of Investigations of the Customs Service for the purpose of verifying information received from other sources in conjunction with investigations within the Office of Investigations.

For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: This microfiche is maintained in a file folder in a metal cabinet. The cabinet is located in a room which is manned during normal office hours, and locked after hours.

Retrievability: This microfiche file is identified by alphabetical name of the categories of individuals maintained in that file and information is retrievable manually from these files.

Safeguards: These microfiche files are kept in a metal cabinet and are maintained within the room which is manned by Office of Investigations personnel during normal office hours. During non-working hours, the room in which the metal cabinet is located is locked and entrances to the office which contains that room are locked. Access to the building containing the office is controlled during non-working hours by a uniformed guard.

Retention and disposal: These files are retained indefinitely or until updated by more current records at which time the old records are disposed of by shredding.

System manager(s) and address: Special Agent in Charge, U.S. Customs Service, Office of Investigations, 600 South Street, Room 444, New Orleans, La. 70130; Resident Agent, U.S. Customs Service, Office of Investigations, 1717 West End Building, Rm. 303, Nashville, Tenn. 37203.

Systems exempted from certain provisions of the act: The Commissioner of Customs pursuant to 5 U.S.C. 552a (j) and (k) has exempted this system of records from certain requirements of 5 U.S.C.552a. The provisions of 5 U.S.C. 552a from which this system of records is exempt and the justification for the exemption is contained in a general notice which appears in 31 CFR 1.36.

Treasury/Customs 00.021

System name: Arrest/Seizure/Search Report and Notice of Penalty File—Treasury/Customs.

System location: Office of the District Director of Customs, Room 228, United States Customs Service, 335 Merchant Street, Honolulu, Hawaii 96813.

Categories of individuals covered by the system: Persons who are suspected of attempting to smuggle, or have smuggled, merchandise or contraband into the United States; individuals who have undervalued merchandise upon entry into the United States; vessels and aircraft which have been found to be in violation of Customs laws.

Categories of records in the system: Names of individuals, vessels, aircraft; identifying factors; nature of violation or suspected violation; circumstances surrounding violation or suspected violation; date and place of violation or suspected violation; and on-site disposition actions.

Authority for maintenance of the system: 5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The routine uses of the records contained in this system of records are as follows: (a) Disclosure to those officers and employees of the Customs Service and the Department of the Treasury who have a need for the records in the performance of their duties; (b) Disclosure required in the administration of the Freedom of Information Act (5 U.S.C. 552); (c) Enforcement use by Customs Patrol Officers.

For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Each report is assigned a case number and filed accordingly in a locked, metal file located in the office of the Director of Patrol.

Retrievability: Each report is identified in a manual alphabetical card file by the name of the individual, vessel or aircraft.

Safeguards: In addition to being stored in a locked metal cabinet, these records are located in a locked room, the keys of which are controlled and issued only to authorized personnel.

Retention and disposal: These records are retained for one year or until action has been completed.

System manager(s) and address: District Director of Customs, U.S. Customs Service, Post Office Box 1641, Honolulu, Hawaii 96806.

Systems exempted from certain provisions of the act: The Commissioner of Customs pursuant to 5 U.S.C. 552a (k) has exempted this system of records from certain requirements of 5 U.S.C. 552a. The provisions of 5 U.S.C. 552a from which this system of records is exempt and the justification for the exemption is contained in a general notice which appears in 31 CFR 1.36.

Treasury/Customs 00.022

System name: Attorney Case File—Treasury/Customs

System location: Office of Regional Commissioner of Customs, 100 Summer Street, Boston, Massachusetts 02110.

Categories of individuals covered by the system: Persons who are parties in litigation with the United States Government or sub-units, or employees or officers thereof, in matters which affect or involve the U.S. Customs Service.

Categories of records in the system: Seizure reports, investigative reports, Customs forms and documents relative to the case, petitions for relief, decisions on petitions, other background information relating to the litigation, motions, orders, etc., filed in connection with the litigation; investigative reports relative to an individual's economic ability to pay a claim.

Authority for maintenance of the system: 5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The routine uses of the records contained in this system of records are as follows: (a) Disclosure to those officers and employees of the Customs Service and the Department of the Treasury who have a need for the records in the performance of their duties; (b) Disclosures required in administration of the Freedom of Information Act (5 U.S.C. 552); (c) In the event that this system of records includes information which indicates a violation or potential violation of law, whether civil, criminal, or regulatory in nature, and whether arising by general statute or particular program statute, or by regulation, rule, or order issued pursuant thereto, the relevant records in the system of records may be referred, as a routine use, to the appropriate agency, whether Federal, state, local, or foreign, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation, or order issued pursuant thereto; (d) A record from this system of records may be disclosed as a "routine use" to a Federal, state, or local agency maintaining civil, criminal, or other relevant enforcement information or other pertinent information, such as current licenses, if necessary to obtain information relevant to an agency decision concerning the hiring or retention of an employee, the issuance of a security clearance, the letting of a contract, or the issuance of a license, grant, or other benefit; (e) A record from this system of records may be disclosed to a Federal agency, in response to its request, in connection with the hiring or retention of an employee, the issuance of a security clearance, the reporting of an investigation of an employee, the letting of a contract, or the issuance of a license, grant, or other benefit by the requesting agency, to the extent that the information is relevant and necessary to the requesting agency's decision on the matter.

For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Records maintained in file folders.

Retrievability: Records indexed by name of private individual involved in the litigation.

Safeguards: Open case files maintained in file cabinets with access by Regional Counsel and his staff only; closed case files maintained in locked cabinet with keys retained by Regional Counsel and his staff only.

Retention and disposal: Retained indefinitely or until there is no longer any space available within metal cabinets, at which time the oldest files are transferred to the Federal Records Center.

System manager(s) and address: Regional Commissioner of Customs, 100 Summer Street, Boston, Massachusetts 02110.

Notification procedure: See Customs Appendix A.

Record source categories: The information contained in these files is received from U.S. Customs employees, reports of investigation, Customs penalty case files, other Government agencies, parties involved in litigation, banks and credit bureaus, administrative proceedings regarding disciplinary action taken against Customs Service employees, Equal Opportunity complaints, denials of tort claims, denials of information under the Freedom of Information Act, and from other parties' information pertinent to the litigation.

Systems exempted from certain provisions of the act: The Commissioner of Customs pursuant to 5 U.S.C. 552a (k) has exempted this system of records from certain requirements of 5 U.S.C. 552a. The provisions of 5 U.S.C. 552a from which this system of records is exempt and the justification for the exemption is contained in a general notice which appears in 31 CFR 1.36.

Treasury/Customs 00.028

System name: Baggage Declaration—Treasury/Customs

System location: Located at the District and Port Directors' offices in the Ogdensburg, New York district. (Boston region)

Categories of individuals covered by the system: Persons required to make a written baggage declaration.

Categories of records in the system: Name, address, items declared and value.

Authority for maintenance of the system: 5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The routine uses of the records contained in this system of records are as follows: (a) To substantiate cases of failure to declare or false declarations or investigation by Office of Investigations; (b) Disclosure to those officers and employees of the Customs Service and the Department of the Treasury who have a need for the records in the performance of their duties; (c) Disclosures required in administration of the Freedom of Information Act (5 U.S.C. 552); (d) In the event that this system of records includes information which indicates a violation or potential violation of law whether civil, criminal, or regulatory in nature and whether arising by general statute or particular program statute or by regulation, rule, or order issued pursuant thereto the relevant records in the system of records may be referred, as a routine use, to the appropriate agency whether Federal, state, local, or foreign charged with the responsibility of investigating or prosecuting the statute or rule, regulation, or order issued pursuant thereto; (e) A record from this system of records may be disclosed as a "routine use" to a Federal, state, or local agency maintaining civil, criminal, or other relevant enforcement information or other pertinent information such as current licenses, if necessary to obtain information relevant to an agency decision concerning the hiring or retention of an employee; the issuance of a security clearance; the letting of a contract; or the issuance of a license, grant, or other benefit; (f) A record from this system of records may be disclosed to a Federal agency in response to its request in connection with the hiring or retention of an employee; the issuance of a security clearance; the reporting of an investigation of an employee; the letting of a contract; or the issuance of a license, grant, or other benefit by the requesting agency to the extent that the information is relevant and necessary to the requesting agency's decision on the matter.

For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: In file folders in file cabinet.

Retrievability: By name.

Safeguards: Available to authorized Customs personnel only.

Retention and disposal: Free entry declarations are retained for three years then destroyed. Dutiable declarations are retained for three years at the Port, seven years at the Federal Record Center, and then destroyed.

System manager(s) and address: District and Port Directors.

Notification procedure: See Customs Appendix A.

Record access procedures: See Customs Appendix A.

Contesting record procedures: See Access, Customs Appendix A.

Record source categories: The individual who files the baggage declaration.

Treasury/Customs 00.030

System name: Bankrupt Parties-in-Interest—Treasury/Customs.

System location: Regional Headquarters in Region VI, U.S. Customs Service, 500 Dallas St., Suite 1280, Houston, Texas 77002.

Categories of individuals covered by the system: Individuals indebted to U.S. Customs.

Categories of records in the system: Listed by name, address, port of service, bill number, and dollar amount of delinquent receivables.

Authority for maintenance of the system: Public Law 89-508, the "Federal Claims Collection Act of 1966;" 5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The routine uses of the records contained in this system of records are as follows: (a) Provide ready reference to officers and employees of the U.S. Customs Service in Region VI of parties-in-interest with past due accounts who have filed in bankruptcy court; (b) Disclosures required in administration of the Freedom of Information Act (5 U.S.C. 552).

For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Cases are maintained in file folders at work site.

Retrievability: Alphabetical order by name.

Safeguards: These cases are placed in locked cabinets during nonworking hours. The building is guarded by uniformed security police.

Retention and disposal: As satisfaction received, cases are closed. Records are maintained per Records Control Manual FIS-4 No. 124.

System manager(s) and address: Director, Financial Management Division, 500 Dallas St., Suite 1265, Houston, Texas 77002.

Notification procedure: See Customs Appendix A.

Record access procedures: See Customs Appendix A.

Contesting record procedures: See Access, Customs Appendix A.

Record source categories: The source of information is obtained from individuals, bankruptcy courts, Customhouse brokers, and sureties.

Treasury/Customs 00.031

System name: Bills Issued Files—Treasury/Customs.

System location: Regional Commissioner of Customs, Suite 1501, 55 East Monroe Street, Chicago, Illinois 60603.

Categories of individuals covered by the system: Individuals to whom bills have been issued.

Categories of records in the system: Correspondence received from or sent to individuals in relation to bills issued by the United States Customs Service.

Authority for maintenance of the system: 5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The routine uses of the records contained in this system of records are as follows: (a) Disclosure to those officers and employees of the Customs Service and the Department of the Treasury who have a need for the records in the performance of their duties; (b) Disclosures required in administration of the Freedom of Information Act (5 U.S.C. 552).

For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Individual alphabetical file folders in file cabinet.

Retrievability: Access by name of individual.

Safeguards: The file cabinet is maintained in the offices of the Regional Commissioner, Region IX, Chicago, Illinois. During nonworking hours the room/building in which the file is located is locked. Access is limited to authorized personnel.

Retention and disposal: Correspondence file is maintained for a period of three years then destroyed.

System manager(s) and address: Regional Commissioner of Customs, Room 1501, 55 East Monroe Street, Chicago, Illinois 60603.

Notification procedure: See Customs Appendix A.

Record access procedures: See Customs Appendix A.

Contesting record procedures: See Access, Customs Appendix A.

Record source categories: The information consists of copies of letters or memoranda issued to or received from individuals. Records of phone calls and copies of documents related to the individual's transaction.

Treasury/Customs 00.032

System name: Biographical Files (Headquarters)—Treasury/Customs.

System location: Public Information Division, U.S. Customs Service Headquarters, 1301 Constitution Avenue, N.W., Washington, D.C. 20229, and the Regional Public Information offices located at the addresses listed in Customs Appendix A.

Categories of individuals covered by the system: General biographical records are maintained on all Customs employees for news release and public information purposes.

Categories of records in the system: General biographical information including home address, date and place of birth, educational background, work experience, honors and awards, hobbies, and other information.

Authority for maintenance of the system: 5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The routine uses of the records contained in this system of records are as follows: (a) Disclosure to those officers and employees of the Customs Service and the Department of the Treasury who have a need for the records in the performance of their duties; such uses include release of information to the news media and for use in internal Customs publications; (b) Disclosures required in administration of the Freedom of Information Act (5 U.S.C. 552).

For additional routine uses See Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Information is maintained in file cabinets in the Public Information Division at Customs Headquarters.

Retrievability: File folders are identified by the name of the person and are filed in alphabetical order.

Safeguards: The office in which the records are located is locked during non-working hours and the building is guarded by uniformed guards.

Retention and disposal: Files are retained during the individual's tenure as an employee of the Customs Service, after which the files are destroyed.

System manager(s) and address: Director, Public Information Division, U.S. Customs Service Headquarters, 1301 Constitution Avenue, N.W., Washington, D.C. 20229.

Notification procedure: See Customs Appendix A.

Record access procedures: See Customs Appendix A.

Contesting record procedures: See Access, Customs Appendix A.

Record source categories: The individual involved, Customs personnel officers and co-workers.

Treasury/Customs 00.037

System name: Cargo Security File—Treasury/Customs.

System location: Special Agent in Charge, Room 350, Patrick V. McNamara Bldg., 477 Michigan Avenue, Detroit, Michigan 48226; Special Agent in Charge, Room 210, 55 Erieview Plaza, Cleveland, Ohio 44114.

Categories of individuals covered by the system: Longshoremen, Customs Bonded Warehouse employees, licensed Cartmen employees and other persons having access to cargo.

Categories of records in the system: Names, place of employment, residence, criminal records, date of birth, Social Security numbers, photographs, descriptions and other identifying data.

Authority for maintenance of the system: 5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: (a) Disclosure to those officers and employees of the Customs Service and the Department of the Treasury who have a need for the records in the performance of their duties and/or to cooperating Law Enforcement Agencies; (b) Disclosures required in administration of the Freedom of Information Act. (5 U.S.C. 552); (c) In the event that this system of records includes information which indicates a violation or potential violation of law, whether civil, criminal, or regulatory in nature, and whether arising by general statute or particular program statute, or by regulation, rule, or order issued pursuant thereto, the relevant records in the system of records may be referred, as a routine use, to the appropriate agency, whether Federal, state, local, or foreign, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation, or order issued pursuant thereto; (d) A record from this system of records may be disclosed as a "routine use" to a Federal, state, or local agency maintaining civil, criminal, or other relevant enforcement information or other pertinent information, such as current licenses, if necessary to obtain information relevant to an agency decision concerning the hiring or retention of an employee, the issuance of a security clearance, the letting of a contract, or the issuance of a license, grant, or other benefit.

For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Records are maintained in loose-leaf binders and cross indexed index cards showing license numbers are kept in a metal box. They are kept in the communications room for rapid access.

Retrievability: Names of companies and individuals can be retrieved by checking the loose-leaf binders kept in an alphabetical listing. License plate numbers are listed in numerical sequence on index cards.

Safeguards: The records are kept in a room within the office which is locked when not in use. Keys are available only to employees, and are not accessible to persons other than employees. Employees having access to the room have received a security background and clearance. The offices are located in buildings with guards and controlled by sign-in, sign-out sheets after regular hours.

Retention and disposal: Information remains in the system indefinitely or until no longer needed. The records are disposed of by shredding or burning.

System manager(s) and address: Special Agent in Charge, Room 350, Patrick V. McNamara Bldg., 477 Michigan Avenue, Detroit,

Michigan 48226; Special Agent in Charge, Room 210, 55 Erieview Plaza, Cleveland, Ohio 44114.

Systems exempted from certain provisions of the act: The Commissioner of Customs pursuant to 5 U.S.C. 552a (j) and (k) has exempted this system of records from certain requirements of 5 U.S.C. 552a. The provisions of 5 U.S.C. 552a from which this system of records is exempt and the justification for the exemption are contained in a general notice which appears in 31 CFR 1.36.

Treasury/Customs 00.371

System name: Cargo Security Record System—Treasury/Customs.

System location: District Director, 600 South Street, New Orleans, Louisiana 70130; District Director, P.O. Box 2748, Mobile, Alabama 36601.

Categories of individuals covered by the system: Drivers of motor vehicles of licensed cartmen and lightermen; properties and operators of each class of Customs bonded warehouse and their employees.

Categories of records in the system: Records on drivers of motor vehicles contain information relating to personal statistical data, physical characteristics, history of past employments, previous five years residences, alias (if any), citizenship, military records, criminal record other than traffic violations, use of narcotic drugs, and photograph. Name of operator of bonded warehouse and employees.

Authority for maintenance of the system: 5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The routine uses of the records contained in this system of records are as follows: (a) Disclosure to those officers and employees of the Customs Service and the Department of the Treasury who have a need for the records in the performance of their duties which include protection of the revenue of the United States and protection of merchandise in Customs custody; (b) Disclosures required in administration of the Freedom of Information Act (5 U.S.C. 552); (c) In the event that this system of records includes information which indicates a violation or potential violation of law, whether civil, criminal, or regulatory in nature, and whether arising by general statute or particular program statute, or by regulation, rule, or order issued pursuant thereto, the relevant records in the system of records may be referred, as a routine use, to the appropriate agency, whether Federal, state, local, or foreign, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation, or order issued pursuant thereto; (d) A record from this system of records may be disclosed as a "routine use" to a Federal, state, or local agency maintaining civil, criminal, or other relevant enforcement information or other pertinent information, such as current licenses, if necessary to obtain information relevant to an agency decision concerning the hiring or retention of an employee, the issuance of a security clearance, the letting of a contract, or the issuance of a license, grant, or other benefit; (e) A record from this system of records may be disclosed to a Federal agency, in response to its request, in connection with the hiring or retention of an employee, the issuance of a security clearance, the reporting of an investigation of an employee, the letting of a contract, or the issuance of a license, grant, or other benefit by the requesting agency, to the extent that the information is relevant and necessary to the requesting agency's decision on the matter.

For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: File folder with Customs Form 3078, Customs Form 73, Photographs, and correspondence; For bonded warehouses, file folder contains Customs Form 3581 and names, addresses, and social security number of all employees; all stored in metal file cabinet. Alphabetical list of current I.D. cards issued on drivers retained in file folder and stored in desk drawer.

Retrievability: By individual name or corporate name.

Safeguards: Unlocked metal file cabinet and desk drawer of customs employee; building secured after hours.

Retention and disposal: Information on drivers is retained in an active file until revoked or cancelled. After revocation or cancellation, the information folder is placed in an inactive file for a period of five years, after which time the records are disposed of in accordance with the General Services Administration Records Disposal Manual. Information on proprietor bonded warehouse operators and employees is retained on file until Customs bonded operations cease and are discontinued, then are maintained in an inactive file for a period of three years. Final disposition is in accordance with the GSA Records Disposal Manual.

System manager(s) and address: District Director, 600 South Street, New Orleans, Louisiana 70130; District Director, P.O. Box 2748, Mobile, Alabama 36601.

Notification procedure: See Customs Appendix A.

Record access procedures: See Customs Appendix A.

Contesting record procedures: See Access, Customs Appendix A.

Record source categories: Information is obtained from applicant (individual or corporation) and from reports of investigation on drivers obtained from Regional Director, Investigations, U.S. Customs Service.

Systems exempted from certain provisions of the act: The Commissioner of Customs pursuant to 5 U.S.C. 552a (k)(2) has exempted this system of records from certain requirements of 5 U.S.C. 552a. The provisions of 5 U.S.C. 552a from which this system of records is exempt and the justification for the exemption is contained in 31 CFR 1.36.

Treasury/Customs 00.039

System name: Carrier File—Treasury/Customs.

System location: Room 130, U.S. Customhouse, Terrace & International Streets, Nogales, Arizona 85621.

Categories of individuals covered by the system: Applicants for Bonded Carrier's License.

Categories of records in the system: Application with pertinent documents and bonds covering approval as bonded carrier.

Authority for maintenance of the system: 5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: (a) Granting of Bonded Carrier status and collection of penalties for Customs violations; (b) Disclosure to those officers and employees of the Customs Service and the Department of the Treasury who have a need for the records in the performance of their duties; (c) Disclosures required in administration of the Freedom of Information Act (5 U.S.C. 552).

For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Carrier files retained in alphabetical order at District Office.

Retrievability: By name.

Safeguards: Records are retained in lockable file cabinet and building is locked during other than office hours.

Retention and disposal: Records retained until obsolete and destroyed by burning.

System manager(s) and address: District Director, U.S. Customshouse, Nogales, Arizona 85621.

Notification procedure: See Customs Appendix A.

Record access procedures: See Customs Appendix A.

Contesting record procedures: See Access, Customs Appendix A.

Record source categories: Information contained herein originates with the applicant and includes required licenses and information relative to equipment utilized.

Treasury/Customs 00.040

System name: Carrier File—Treasury/Customs.

System location: Located in the Office of the District Director, San Diego, Calif.; Offices of the Port Directors, San Ysidro, Calif.; Tecate, Calif.; Calexico, Calif.; Andrade, Calif.; San Diego Barge Office; and the Offices of the Customs Patrol Division, San Diego, Calif.; San Ysidro, Calif.; Calexico, Calif.; Tecate, Calif.; see Customs Appendix A.

Categories of individuals covered by the system: Officers or owners, employees, associates of Customs Bonded Carriers.

Categories of records in the system: Name, date of birth, Social Security No., place of birth and other information relating to Officers, Associates, employees, etc., of Bonded Carriers.

Authority for maintenance of the system: 5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended, and the Customs Regulations.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The routine uses of the records contained in this system of records are as follows: (a) Disclosure to those officers and employees of the Customs Service and the Department of the Treasury who have a need for the records in the performance of their duties; (b) Disclosures required in administration of the Freedom of Information Act (5 U.S.C. 552); (c) In the event

that this system of records includes information which indicates a violation or potential violation of law, whether civil, criminal, or regulatory in nature, and whether arising by general statute or particular program statute, or by regulation, rule, or order issued pursuant thereto, the relevant records in the system of records may be referred, as a routine use, to the appropriate agency, whether Federal, state, local, or foreign, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation, or order issued pursuant thereto; (d) A record from this system of records may be disclosed as a "routine use" to a Federal, state, or local agency maintaining civil, criminal, or other relevant enforcement information or other pertinent information, such as current licenses, if necessary to obtain information relevant to an agency decision concerning the hiring or retention of an employee, the issuance of a security clearance, the letting of a contract, or the issuance of a license, grant, or other benefit; (e) A record from this system of records may be disclosed to a Federal agency, in response to its request, in connection with the hiring or retention of an employee, the issuance of a security clearance, the reporting of an investigation of an employee, the letting of a contract, or the issuance of a license, grant, or other benefit by the requesting agency, to the extent that the information is relevant and necessary to the requesting agency's decision on the matter; (f) Maintain a current file relating to operations, bond status, possible violations, and employment history of individuals working for the Bonded Carrier.

For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Manila folder in file cabinet.

Retrievability: Filed by name of company or individual.

Safeguards: Building locked during non-working hours.

Retention and disposal: Indefinitely.

System manager(s) and address: District Director, Port Directors, and Division Directors within the San Diego Customs District. See Customs Appendix A.

Notification procedure: See Customs Appendix A.

Record access procedures: See Customs Appendix A.

Contesting record procedures: See Access, Customs Appendix A.

Record source categories: Customs Bonded Carriers' employees and correspondence.

Treasury/Customs 00.041

System name: Cartmen or Lightermen—Treasury/Customs.

System location: Customs ports, districts, and regional offices. See Customs Appendix A.

Categories of individuals covered by the system: Individuals and firms who have applied for or hold a license as a bonded cartman or lighterman and individuals employed by cartman or lightermen.

Categories of records in the system: Internal Customs Service memoranda and related materials regarding applications for licenses and identification cards, reports of investigations for approving these licenses and identification cards and card files showing outstanding identification cards and their location. Files also include fingerprint cards.

Authority for maintenance of the system: 5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: (a) Used by Customs personnel in determining eligibility of applicants to be approved as licensed cartmen or lightermen; (b) Disclosure to those officers and employees of the Customs Service and the Department of the Treasury who have a need for the records in the performance of their duties; (c) Disclosures required in the administration of the Freedom of Information Act (5 U.S.C. 552); (d) In the event that this system of records includes information which indicates a violation or potential violation of law, whether civil, criminal, or regulatory in nature, and whether arising by general statute or particular program statute, or by regulation, rule, or order issued pursuant thereto, the relevant records in the system of records may be referred, as a routine use, to the appropriate agency, whether Federal, state, local, or foreign, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation, or order issued pursuant thereto; (e) A record from this system of records may be disclosed as a "routine use" to a Federal, state, or local agency maintaining civil, criminal, or other relevant enforcement information or other pertinent information, such as current licenses, if necessary to obtain information relevent to an agency decision concerning the hiring or retention of an employee, the issuance of a security clearance, the letting of a contract, or the issuance of a license, grant, or other benefit; (f) A record from this system of records may be disclosed to a Federal agency, in response to its request, in connection with the hiring or retention of an employee, the issuance of a security clearance, the reporting of an investigation of an employee, the letting of a contract, or the issuance of a license, grant, or other benefit by the requesting agency, to the extent that the information is relevant and necessary to the requesting agency's decision on the matter.

For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: The information in this system is contained in a metal file cabinet in the office maintaining the system.

Retrievability: Each case file is identified in a manual alphabetical card file by the name of the licensed cartman or lighterman and in the alphabetical file folder by the name of the licensed cartman or lighterman. Each employee's record is filed in a manual alphabetical card file cross-referenced with company names.

Safeguards: The file is placed in a metal file cabinet at the work site. At locations where work is not performed on a 24-hour basis the work area is locked and only authorized persons are permitted in the building.

Retention and disposal: Files are reviewed at least once a year at which time cancelled I.D. cards may be removed. Closed CF 3078's may also be removed, but normally are held for approximately three years in case a new application is received from the same company or transferred to another company after a new investigation.

System manager(s) and address: Port Directors, District Directors, and Regional Commissioners of the U.S. Customs Service. See Customs Appendix A.

Notification procedure: See Customs Appendix A.

Systems exempted from certain provisions of the act: The commissioner of Customs pursuant to 5 U.S.C. 552a (k) has exempted this system of records from certain requirements of 5 U.S.C. 552a. The provisions of 5 U.S.C. 552a from which this system of records is exempt and the justification for the exemption is contained in a general notice which appears in 31 CFR 1.36.

Treasury/Customs 00.042

System name: Case and Complaint File—Treasury/Customs.

System location: Office of the Regional Counsel, U.S. Customs Service, Region IX, 55 E. Monroe Street, Room 1417, Chicago, Illinois 60603.

Categories of individuals covered by the system: Any individual initiating a court case or against whom a court case is brought; any individual involved in a personnel action, either initiating a grievance, discrimination complaint, or unfair labor practice complaint against the U.S. Customs Service or against whom a disciplinary or other adverse action is initiated; claimants or potential claimants under the Federal Tort Claim Act; individuals involved in accidents with U.S. Customs Service employees; U.S. Customs Service employees involved in accidents; persons seeking relief from fines, penalties and forfeitures and restoration of proceeds from the sale of seized and forfeited property; requesters under the Freedom of Information Act.

Categories of records in the system: The System contains the individual's name, the type of case, the uniform filing guide number, the Regional Counsel's office file number, by whom the matter was referred, the district where the action originated, if applicable.

Authority for maintenance of the system: 5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The routine uses of the records contained in this system of records are as follows: (a) Disclosure to those officers and employees of the Customs Service and the Department of the Treasury who have a need for the records in the performance of their duties; (b) Disclosures required in administration of the Freedom of Information Act (5 U.S.C. 552); (c) Used to retrieve files by attorneys and staff by use of the individual's name.

For additonal routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Each alphabetical card is inserted in a metal file drawer.

Retrievability: Each card is identified alphabetically by the individual's name described in Category of Individual and the filing is alphabetical by last name.

Safeguards: The metal filing drawer containing the alphabetical cards described above is maintained within the area assigned to the Office of the Regional Counsel, Region IX at 55 E. Monroe Street, Chicago, Illinois 60603. During non-working hours, the room in which the metal filing drawer is located is locked and access to the building is controlled at all times by uniformed guards with a check-in system for employees. Only employees of the Regional Counsel's office and authorized building personnel have keys to the building.

Retention and disposal: These files are retained indefinitely or until there is no longer space available for them within the metal filing drawer at which time the oldest cards for closed files will be transferred to the storage area within the confines of the office. The storage area is a large area containing cardboard boxes and metal storage cabinets, unable to be locked.

System manager(s) and address: Regional Counsel of Customs, Room 1417, United States Customs Service, 55 E. Monroe Street, Chicago, Illinois 60603.

Notification procedure: See Customs Appendix A.

Record access procedures: See Customs Appendix A.

Contesting record procedures: See Access, Customs Appendix A.

Record source categories: The information contained on these cards originates with the initiation of any action by an individual which is channeled through the Regional Counsel's office. Additional information is identifying information for locating the particular case file relating to the court case, personnel action, tort claim, relief petition, or request under the Freedom of Information Act.

Treasury/Customs 00.043

System name: Case Files (Regional Counsel-Region V)—Treasury/Customs.

System location: The system is located at 1440 Canal Street, New Orleans, Louisiana 70112, Office of the Regional Counsel, Region V, United States Customs Service.

Categories of individuals covered by the system: (1) The first category of individuals on whom records are maintained in the system includes employees who have filed adverse actions, equal employment opportunity complaints, and grievances within Region V; employees who have filed tort claims under the Military Personnel and Civilian Employees Act; employees of the Regional Counsel's staff with regard to travel, training, evaluations, and other related personnel records; and applications for employment submitted to the Office of the Regional Counsel by prospective employees; (2) The second category of individuals on whom records are maintained in the system includes those individuals not employed by the agency who have filed equal employment opportunity complaints; tort claims under the Federal Tort Claims Act; tort claims filed under the Small Claims Act; individuals who have outstanding Customs bills submitted for collection; individuals, corporations, partnerships, and proprietorships who have filed supplemental petitions on fines, penalties, and forfeitures within Region V; files relating to individuals, corporations, partnerships, and proprietorships upon whom criminal case reports are prepared pending litigation and prosecution for violation of 19 U.S.C. 1305, 18 U.S.C. 542, 18 U.S.C. 545, 18 U.S.C. 549, 18 U.S.C. 1001, 18 U.S.C. 496, and 18 U.S.C. 371; on individuals, corporations, partnerships, and proprietorships who have filed supplemental petitions submitted in civil and technical violations for 19 U.S.C. 1592, 19 U.S.C. 1453, 19 U.S.C. 1448, 19 U.S.C. 1584, irregular deliveries, shortages and overages; and miscellaneous civil and technical violations.

Categories of records in the system: The categories of records maintained in the system are personnel actions; tort claims; collection efforts; supplemental petitions for fines, penalties, and forfeitures cases in Region V; criminal case reports for pending litigation and prosecution of cases in Region V; supplemental petitions for civil and technical violations committed within Region V; and employment applications for positions in the Office of the Regional Counsel, Region V.

Authority for maintenance of the system: 5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The routine uses of the records contained in this system of records are as follows: (a) Disclosure to those officers and employees of the Customs Service and the Department of the Treasury who have a need for the records in the performance of their duties; (b) Disclosures required in administration of the Freedom of Information Act (5 U.S.C. 552); (c) In the event that this system of records includes information which indicates a violation or potential violation of law, whether civil, criminal, or regulatory in nature, and whether arising by general statute or particular program statute, or by regulation, rule, or order issued pursuant thereto, the relevant records in the system of records may be referred, as a routine use, to the appropriate agency, whether Federal, state, local, or foreign, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation, or order issued pursuant thereto; (d) A record from this system of records may be disclosed as a "routine use" to a Federal, state, or local agency maintaining civil, criminal, or other relevant enforcement information or other pertinent information, such as if necessary to obtain information relevant to an agency decision concerning the letting of a contract, or the issuance of a license, grant, or other benefit; (e) A record from this system of records may be disclosed to a federal agency, in response to its request, in connection with the hiring or retention of an employee, the issuance of a security clearance, the reporting of an investigation of an employee, the letting of a contract, or the issuance of a license, grant, or other benefit by the requesting agency, to the extent that the information is relevant and necessary to the requesting agency's decision on the matter; (f) Routine uses of the records contained in the system are for the processing and evaluation of complaints and claims submitted in adverse actions, equal employment opportunity complaints, grievances, tort claims, criminal investigations, civil investigations, collection efforts, employment actions, and personnel actions; (g) Routine uses include reference for the processing of claims; continuous updating of the records necessary for the processing of claims; references to the files for the satisfaction of claims and closing cases by or against the United States Customs Service within Region V; submission of copies of records to the General Services Administration and the Justice Department for prosecution of criminal and civil violations and collections; submissions of copies of records to various branches of the United States Customs Service within Region V for the purposes of investigating and/or processing outstanding civil and criminal cases, collection cases, tort claims, and various personnel actions; (h) The purposes of such uses include the processing of all of the above-cited claims by the Office of the Regional Counsel and the preparation of legal memoranda to various department heads and other agencies to expedite the ordinary course of business of the United States Customs Service within and without Region V.

For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: The records are currently maintained in alphabetical file folders which are filed in two steel filing cabinets in the Office of the Regional Counsel, Region V, and they are maintained under lock and key outside the ordinary business hours.

Retrievability: Records maintained by the Office of the Regional Counsel, Region V, are retrievable by identifying the character of the record (i.e., adverse action, grievance, tort claim, criminal case), then by comparable statute or regulation, and then alphabetically by name and identifier. In addition, each case file is similarly identified on the alphabetical file folder within the steel filing cabinet.

Safeguards: (a) The steel filing cabinets described above are maintained within the area assighed to the Office of the Regional Counsel, 1440 Canal Street, New Orleans, Louisiana 70112. During non-working hours the room in which the locked steel cabinets are located is locked, and access to the building is controlled at all times by uniformed guards; (b) The policies and practices of the Office of the Regional Counsel regarding access controls are that only members of the staff of the Office of the Regional Counsel have access to the records maintained by the office.

Retention and disposal: (a) Records collected by this office are currently retained on a permanent basis as the office has only been in operation since August 1973; (b) Individual records are not disposed of by the Office of the Regional Counsel, Region V, and are simply placed into a further file of closed cases by category as stated above, and within each category by name. However, when applicable, this office will comply with appropriate disposal regulations whereby the oldest closed cases will be forwarded to the Federal Records Center in accordance with the Treasury Records Control Manual.

System manager(s) and address: The agency official responsible for the system of records maintained by the Office of the Regional Counsel is the Regional Counsel, Region V, United States Customs Service, 1440 Canal Street, New Orleans, Louisiana 70112.

Notification procedure: See Appendix A.

Record source categories: The categories of sources of records in this system are the individual himself and files compiled by the United States Customs Services by using employers, other government agency resources, financial institutions, educational institutions attended, and previous employers.

Additional information in these files is also derived from reports of investigation regarding the enforcement of civil or criminal statutes, administrative proceedings regarding disciplinary action taken against Customs Service employees, equal opportunity complaints, investigations of tort claims, the processing of inter-office memoranda information requested under the Freedom of Information Act, and the investigation regarding the collection of debts due the Government.

Systems exempted from certain provisions of the act: The Commissioner of Customs pursuant to 5 U.S.C. 552a (k) has exempted this system of records from certain requirements of 5 U.S.C. 552a. The provisions of 5 U.S.C. 552a from which this system of records is exempt and the justification for the exemption is contained in a general notice which appears in 31 CFR 1.36.

Treasury/Customs 00.044

System name: Certificates of Clearance—Treasury/Customs.

System location: Financial Management Division, U.S. Customs Service, 100 Summer Street, Boston, Massachusetts 02110.

Categories of individuals covered by the system: All employees of Region I, Boston, Massachusetts who have transferred, retired or resigned.

Categories of records in the system: Documented detailed information on an in-house prepared form indicating that the employee has returned all Government property in his personal possesion and that the employee has cleared all debts owing to Customs such as unearned uniform allowances and travel advances.

Authority for maintenance of the system: 5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The routine uses of the records contained in this system of records are as follows: (a) Disclosure to those officers and employees of the Customs Service and the Department of the Treasury who have a need for the records in performance of their duties; (b) Disclosures required in administration of the Freedom of Information Act (5 U.S.C. 552); (c) In the event that this system of records includes information which indicates a violation or potential violation of law, whether civil, criminal, or regulatory in nature, and whether arising by general statute or particular program statute, or by regulation, rule, or order issued pursuant thereto, the relevant records in the system of records may be referred, as a routine use, to the appropriate agency, whether Federal, state, local, or foreign, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation, or order issued pursuant thereto; (d) A record from this system of records may be disclosed as a "routine use" to a Federal, state, or local agency maintaining civil, criminal, or other relevant enforcement information or other pertinent information relevant to an agency decision concerning the hiring or retention of an employee, the issuance of a security clearance, the letting of a contract, or the issuance of a license, grant, or other benefit; (e) A record from this system of records may be disclosed to a Federal agency, in response to its request, in connection with the hiring or retention of an employee, the issuance of a security clearance, the reporting of an investigation of an employee, the letting of a contract, or the issuance of a license, grant, or other benefit by the requesting agency, to the extent that the information is relevant and necessary to the requesting agency's decision on the matter; (f) The system is used as a check-off list to insure that the employee has complied with his obligation for the return of Government property and money. The system is used by all employees of the Payment Section.

For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Data is stored in file folders by District and name of employee in a metal file cabinet in the work area of the Payment Section.

Retrievability: The file is retrievable by District and name of employee.

Safeguards: The file is located within an office that is locked during non-working hours. The building is guarded by uniformed security police and only authorized persons are permitted entry to the building.

Retention and disposal: The files are kept for 10 years and then destroyed.

System manager(s) and address: Director, Financial Management Division, U.S. Customs Service, 100 Summer Street, Boston, Massachusetts 02110.

Notification procedure: See Customs Appendix A.

Record access procedures: See Customs Appendix A.

Contesting record procedures: See Access, Customs Appendix A.

Record source categories: The information contained in the system originates at the District where the individual is employed.

Treasury/Customs 00.045

System name: Claims Act File—Treasury/Customs.

System location: Office of the Regional Counsel, Room 7422, New Federal Building, 300 N. Los Angeles St., Los Angeles, CA 90053.

Categories of individuals covered by the system: Current or former Customs employees who have filed, or may file claims under the Military Personnel and Civilian Employees' Claim Act of 1964 for damage to or loss of personal property incident to their service.

Categories of records in the system: Documents relating to the administrative handling of the claim and documents submitted by the claimant in support of the claim.

Authority for maintenance of the system: 31 U.S.C. 240-243; 31 CFR Part 4; Treasury Department Administrative Circular No. 131, August 19, 1965.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The information contained in this file is utilized to formulate recommendations, and is made available to the officials within the Customs Service who make final decisions on claims submitted pursuant to the Military Personnel and Civilian Employees' Claim Act of 1964.

For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Each case file is inserted alphabetically in a file folder which is filed in an unlocked drawer within a metal container.

Retrievability: Each case file is identified alphabetically in the file folder within the metal container by the name of the person who has filed or may file a claim.

Safeguards: The metal container described above is maintained within the area assigned to the Office of the Regional Counsel within the New Federal Building. During non-working hours the room in which the metal container is located is locked, and access to the building is controlled at all times by uniformed guards.

Retention and disposal: These files are retained indefinitely or until there is no longer any space available for them within the metal container, at which time the oldest closed files are transferred to the Federal Records Center.

System manager(s) and address: Regional Counsel, Room 7422, New Federal Building, 300 N. Los Angeles St., Los Angeles, California 90053.

Notification procedure: See Customs Appendix A.

Record access procedures: See Customs Appendix A.

Contesting record procedures: See Access, Customs Appendix A.

Record source categories: The information contained in these files originates with a Treasury Department Form No. 3079, Civilian Employee Claim For Loss or Damage to Personal Property, which is completed and filed with the Customs Service by the claimant. Additional information contained in these files may be separately provided by the claimant or by the claimant's supervisor. Where a claim is not filed, the information is limited to the investigative reports of damage to or loss of personal property of a Customs employee.

Treasury/Customs 00.046

System name: Claims Case File—Treasury/Customs.

System location: Office of Regional Commissioner of Customs, 100 Summer Street, Boston, Massachusetts 02110.

Categories of individuals covered by the system: Parties who have filed claims for damage or injury against the Government, or against whom the Government has a claim for damage or injury in matters which affect or involve the U.S. Customs Service; private individuals or Government employees who are involved in the incident which gave rise to the claim.

Categories of records in the system: Reports relative to the circumstances of the claim (including accident reports provided by Customs personnel, agents' investigative reports, correspondence between Customs and the claimant or his representative); reports relative to an individual's ability to pay a claim for damages.

Authority for maintenance of the system: 5 U.S.C. 301; Reorganization Plan No. 1 of 1950; Treasury Department Order No. 165, Revised, as amended.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The routine uses of the records contained in this system of records are as follows: (a) Disclosure to those officers and employees of the Customs Service and the Department of the Treasury who have a need for the records in the performance of their duties; (b) Disclosures required in administration of the Freedom of Information Act (5 U.S.C. 552); (c) In the event that this system of records includes information which indicates a violation or potential violation of law, whether civil, criminal, or regulatory in nature, and whether arising by general statute or particular program statute, or by regulation, rule, or order issued pursuant thereto, the relevant records in the system of records may be referred, as a routine use, to the appropriate agency, whether Federal, state, local, or foreign, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation, or order issued pursuant thereto; (d) A record from this system of records may be disclosed as a "routine use" to a Federal, state, or local agency maintaining civil, criminal, or other relevant enforcement information or other pertinent information, such as current licenses, if necessary to obtain information relevant to an agency decision concerning the hiring or retention of an employee, the issuance of a security clearance, the letting of a contract, or the issuance of a license, grant, or other benefit; (e) A record from this system of records may be disclosed to a Federal agency, in response to its request, in connection with the hiring or retention of an employee, the issuance of a security clearance, the reporting of an investigation of an employee, the letting of a contract, or the issuance of a license, grant, or other benefit by the requesting agency, to the extent that the information is relevant and necessary to the requesting agency's decision on the matter.

For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Records maintained in file folders.

Retrievability: Records indexed by name of private individual making a claim or against whom a claim is made; cross-referenced file with name of Government employee, if any, involved.

Safeguards: Open case files maintained in file cabinets with access by Regional Counsel and his staff only; closed case files maintained in locked cabinet with keys retained by Regional Counsel and staff only.

Retention and disposal: Retained indefinitely or until there is no longer any space available within metal cabinets, at which time the oldest files are transferred to the Federal Records Center.

System manager(s) and address: Regional Commissioner of Customs, 100 Summer Street, Boston, Massachusetts 02110.

Notification procedure: See Customs Appendix A.

Record source categories: The information contained in these files is received from U.S. Customs employees, reports of investigation, credit checks, private individuals involved in the claims, other Government agencies and other individuals with pertinent information.

Systems exempted from certain provisions of the act: The Commissioner of Customs pursuant to 5 U.S.C. 552a (k) has exempted this system of records from certain requirements of 5 U.S.C. 552a. The provisions of 5 U.S.C. 552a from which this system of records is exempt and the justification for the exemption is contained in a general notice which appears in 31 CFR 1.36.

Treasury/Customs 00.047

System name: Claims Files (Region VIII)—Treasury/Customs.

System location: Office of the Regional Counsel, 211 Main Street, San Francisco, CA 94105

Categories of individuals covered by the system: The categories included are: (1) Private persons filing claims under the Federal Tort Claims Act for property damage or personal injury allegedly caused by a wrongful or negligent act or omission on the part of a Customs Service employee while acting within the scope of his employment; (2) Current or former Customs employees filing claims under the Military Personnel and Civilian Employees' Claims Act of 1964 for damage to or loss of personal property incident to their service; (3) Individuals against whom the Government may have a claim for property damage caused by a wrongful or negligent act or omission on the part of the individual.

Categories of records in the system: Reports of investigation regarding claims filed, documents relating to the administrative handling of the claim and documents submitted by the claimant in support of the claim.

Authority for maintenance of the system: 5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended; Reorganization Plan No. 1 of 1965; 28 U.S.C. 2672, et seq; 31 U.S.C. 240-243, 28 CFR 14.1 et seq; 31 CFR 3.1, et seq; 31 CFR, Part 4; Treasury Department Administrative Circular No. 131, August 19, 1965.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The routine uses of the records contained in this system of records are as follows: (a) Disclosure to those officers and employees of the Customs Service and the Department of the Treasury who have a need for the records in the performance of their duties; (b) Disclosure required in administration of the Freedom of Information Act (5 U.S.C. 552);(c) The information contained in these files with respect to Category 1 individuals above is used to administratively process claims filed under the Federal Tort Claims Act and is made available to the officials within the Customs Service who review recommendations and who make final decisions on such claims. In addition, information contained in the Category 1 files is made available to the Department of Justice to assist that Department in preparing the Government's case when suit is filed in court based on an administrative denial of the claim or based on a failure to administratively process the claim within the prescribed time period; (d) The information contained in these files with respect to Category 2 individuals above is utilized to formulate recommendations, and is made available to the officials within the Customs Service who make final decisions on claims submitted pursuant to the Military Personnel and Civilian Employees' Claims Act of 1964; (e) Information contained in these files with respect to Category 3 individuals above is used to make recommendations and is made available to officials within the Customs Service who make final determinations with respect to whether or not Customs should proceed to collect a claim against an individual for damage to Government property and how this should be done.

For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Each case file is inserted in an alphabetical file folder which is filed in an unlocked drawer within a metal file cabinet.

Retrievability: Each case file is indentified in a manual alphabetical card file by the name of the person who filed the claim and in the alphabetical file folder within the metal file cabinet by the name of the person who filed the claim in the case of Categories 1 and 2 above and by the name of the individual against whom the Government may have a claim in the case of Category 3 above.

Safeguards: The metal file cabinet described above is maintained within the area assigned to the Office of the Regional Counsel within the Federal Building. During non-working hours the room in which the metal file cabinet is located is locked, and access to the building is controlled at all times by uniformed guards.

Retention and disposal: Claim files are retained indefinitely or until there is no longer any space available for them within the metal file cabinet, at which time the oldest files may be transferred to the Federal Records Center.

System manager(s) and address: Regional Counsel, 211 Main Street, San Francisco, CA 94105.

Notification procedure: See Customs Appendix A.

Record source categories: The information contained in the Federal Tort Claim files originates with a Standard Form 95, Claim for Damage or Injury, which is completed and filed with the Customs Service by the claimant. Investigations are conducted by authorized Customs Service investigative personnel in order to determine the facts surrounding the claims. During these investigations information may be elicited from Customs Service employees, private persons, or any other parties who may have information regarding the facts surrounding the claims.

The information contained in the Military Personnel and Civilian Employees Claims Act files originates with a Treasury Department Form No. 3079, Civilian Employee Claim For Loss or Damage to Personal Property, which is completed and filed with the Customs Service by the claimant. Additional information contained in these files may be separately provided by the claimant or by the claimant's supervisor.

Information contained in the files concerning property damage claims by the Government originates with a report by a Government employee of an incident or of facts from which it appears that the Government may have a claim. Based upon the reports, investigations are conducted to determine the facts surrounding the claims. During the investigations information may be elicited from Customs Service employees, private persons, or any other parties who may have information regarding the facts surrounding the claims.

Systems exempted from certain provisions of the act: The Commissioner of Customs pursuant to 5 U.S.C. 552a (k) has exempted this

system of records from certain requirements of 5 U.S.C. 552a. The provisions of 5 U.S.C. 552a from which this system of records is exempt and the justification for the exemption is contained in a general notice which appears in 31 CFR 1.36.

Treasury/Customs 00.048

System name: Claims for Automobile Accidents—Treasury/Customs.

System location: Financial Management Division, U.S. Customs Service, Region I, 100 Summer Street, Boston, Massachusetts 02110.

Categories of individuals covered by the system: Persons involved in automobile accidents for which Customs is pursuing collection.

Categories of records in the system: Accident reports, estimate of damages, insurance company correspondence, statements of witnesses, scope of employment of motor vehicle operation, and copies of bills sent to debtors.

Authority for maintenance of the system: 5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The routine uses of the records contained in this system of records are as follows: (a) Disclosure to those officers and employees of the Customs Service and the Department of the Treasury who have a need for the records in the performance of their duties; (b) Disclosures required in administration of the Freedom of Information Act (5 U.S.C. 552); (c) In the event that this system of records includes information which indicates a violation or potential violation of law whether civil, criminal, or regulatory in nature and whether arising by general statute or particular program statute or by regulation, rule, or order issued pursuant thereto the relevant records in the system of records may be referred, as a routine use, to the appropriate agency whether Federal, state, local, or foreign charged with the responsibility of investigating or prosecuting the statute or rule, regulation, or order issued pursuant thereto; (d) A record from this system of records may be disclosed as a "routine use" to a Federal, state, or local agency maintaining civil, criminal, or other relevant enforcement information or other pertinent information such as current licenses, if necessary to obtain information relevant to an agency decision concerning the hiring or retention of an employee; the issuance of a security clearance; the letting of a contract or the issuance of a license, grant, or other benefit; (e) A record from this system of records may be disclosed to a Federal agency in response to its request in connection with the hiring or retention of an employee; the issuance of a security clearance; the reporting of an investigation of an employee; the letting of a contract; or the issuance of a license, grant, or other benefit by the requesting agency to the extent that the information is relevant and necessary to the requesting agency's decision on the matter; (f) This system is used by the Operating Accountant and Collection Section employees to collect claims resulting from damage to Customs vehicles.

For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Data is stored in file folders located in the office of the Revenue Accountant in a 4-drawer metal file under his physical security.

Retrievability: The file is retrieved by the name of the individual which is kept in alphabetical order.

Safeguards: The file is located within an office that is locked during non-working hours. The building is guarded by uniformed Security Police, and only authorized persons are permitted entry to the building.

Retention and disposal: The file is retained until collection is effected or referred to the Regional Counsel. The file is kept for three years and then destroyed.

System manager(s) and address: Director, Financial Management Division, U.S. Customs Service, 100 Summer Street, Boston, Massachusetts 02110.

Notification procedure: See Customs Appendix A.

Record source categories: The information in the system originates with the operator of the motor vehicle in conjunction with the investigation report obtained from the Office of Internal Affairs.

Systems exempted from certain provisions of the act: The Commissioner of Customs pursuant to 5 U.S.C. 552a (k) has exempted this system of records from certain requirements of 5 U.S.C. 552a. The provisions of 5 U.S.C. 552a from which this system of records is exempt and the justification for the exemption is contained in a general notice which appears in 31 CFR 1.36.

Treasury/Customs 00.049

System name: Claims (Receivable and Payable)—Treasury/Customs.

System location: Financial Management Division, U.S. Customs Service, Region I, 100 Summer Street, Boston, Massachusetts 02110.

Categories of individuals covered by the system: Persons who have presented claims for payments by Customs or one involved in debts due Customs.

Categories of records in the system: Documented detailed information concerning the claims or debts involved in each case and related financial data on individuals involved in the debt or claim.

Authority for maintenance of the system: 5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The routine uses of the records contained in this system of records are as follows: (a) Disclosure to those officers and employees of the Customs Service and the Department of the Treasury who have a need for the records in the performance of their duties; (b) Disclosures required in administration of the Freedom of Information Act (5 U.S.C. 552); (c) In the event that this system of records includes information which indicates a violation or potential violation of law, whether civil, criminal, or regulatory in nature, and whether arising by general statute or particular program stature, or by regulation, rule, or order issued pursuant thereto, the relevant records in the system of records may be referred, as a routine use, to the appropriate agency, whether Federal, state, local, or foreign, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation, or order issued pursuant thereto; (d) A record from this system of records may be disclosed as a "routine use" to a Federal, state, or local agency maintaining civil, criminal, or other relevant enforcement information or other pertinent information, such as current licenses, if necessary to obtain information relevant to an agency decision concerning the hiring or retention of an employee, the issuance of a security clearance, the letting of a contract, or the issuance of a license, grant, or other benefit; (e) A record from this system of records may be disclosed to a Federal agency, in response to its request, in connection with the hiring or retention of an employee, the issuance of a security clearance, the reporting of an investigation of an employee, the letting of a contract, or the issuance of a license, grant, or other benefit by the requesting agency, to the extent that the information is relevant and necessary to the requesting agency's decision on the matter; (f) The system is used by the Chief, Accounting Branch as a guide in information-gathering to effect payment or collection.

For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Data is stored in file folders maintained in a metal file cabinet under the physical security of the Chief, Accounting Branch of the Financial Management Division.

Retrievability: The file is retrieved by the name of the individual on subject matter.

Safeguards: The files are located within an office that is locked during non-working hours. The building is guarded by uniformed security police and only authorized persons are permitted entry to the building.

Retention and disposal: The files on unusual cases are kept indefinitely for reference; routine cases are destroyed.

System manager(s) and address: Director, Financial Management Division, U.S. Customs Service, 100 Summer Street, Boston, Massachusetts 02110.

Notification procedure: See Customs Appendix A.

Record access procedures: See Customs Appendix A.

Contesting record procedures: See Access, Customs Appendix A.

Record source categories: The information contained in the system is obtained from the Personnel Department and the Payroll Data Center.

Treasury/Customs 00.266

System name: Collection File—Treasury/Customs.

System location: Office of the Regional Counsel, Suite 1220, 500 Dallas Street, Houston, Texas 77002.

Categories of individuals covered by the system: Individuals against whom the Customs Service has asserted monetary claims and maintains collection efforts, principally for damages done to Government property.

Categories of records in the system: Reports of investigation regarding damage done to Government property by private individuals and

documents relating to the administrative determination and handling of the claim.

Authority for maintenance of the system: 5 U.S.C. 301; Treasury Department Order No. 165, Revised, as amended.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The routine uses of the records contained in this system of records are as follows: (a) Disclosure to those officers and employees of the U.S. Customs Service and the Department of the Treasury who have a need for the records in the performance of their duties; (b) Disclosures required in administration of the Freedom of Information Act (5 U.S.C. 552); (c) The information contained in this file is used to administratively process claims asserted by the Customs Service for damage done to government property by private individuals. The information is made available to those officials within the Customs Service who review and process such claims. In addition, information contained in this file is made available to the Department of Justice to assist that Department in preparing the government's case when suit is filed in court because administrative collection efforts are unsuccessful.

For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Each case file is inserted in an alphabetical file folder which is filed in an unlocked drawer within a metal container.

Retrievability: Each case file is identified in the alphabetical file folder within the metal container by the name of the person who filed the claim.

Safeguards: The metal container described above is maintained with the area assigned to the Office of the Regional Counsel on the 12th Floor of 500 Dallas Street, Houston, Texas. During non-working hours the room in which the metal container is located is locked, and access to the building is controlled at all times by uniformed security guards provided by the lessor.

Retention and disposal: These files are retained until closed at which time the closed files are transferred to the Division of Facilities Management, Office of the Regional Commissioner, Houston, Texas for ultimate transportation to the Federal Record Center.

System manager(s) and address: Regional Counsel, Suite 1220, United States Customs Service, 500 Dallas Street, Houston, Texas 77002.

Notification procedure: See Customs Appendix A.

Record source categories: The information contained in these files originates with a memorandum filed by the Customs employee accountable for the damaged property. An investigation is then conducted by authorized Customs Service investigative personnel in order to determine the appropriate facts. During the investigation, information may be elicited from Customs Service employees, private individuals, or any other party who may have relevant information.

Systems exempted from certain provisions of the act: The Commissioner of Customs pursuant to 5 U.S.C. 552a (k) has exempted this system of records from certain requirements of 5 U.S.C. 552a. The provisions of 5 U.S.C. 552a from which this system of records is exempt and the justification for the exemption is contained in a general notice which appears in 31 CFR 1.36.

Treasury/Customs 00.050

System name: Community Leader Survey—Treasury/Customs.

System location: Equal Employment Opportunity Officer, U.S. Customs Service, Region VI, 500 Dallas St., Suite 1240, Houston, Texas 77002.
